Who's showing its heels to the high-priced cars? The Motoramic Chevrolet! The other low-priced cars aren't even in the running!

GO...and you're gone!

IT'S EXCITEMENT ON WHEELS!
 The light turns green... you nudge the accelerator ever so gently... and you're gone! That's the way it is in the Motoramic Chevrolet. When your toe says "Let's go," a hoodful of high-compression horsepower explodes into action, sweeping you away from traffic tangles, making short work of steep hills, putting new fun in your driving life!

RECORD-SMASHING ACTION!
 That's what you get with Chevrolet's new "Turbo-Fire V8"! In the recent NASCAR* stock car competition at Daytona Beach, Chevrolet showed its heels to all other low-priced cars. In the one-mile straightaway run, the first two cars—and six of the first ten—were Chevrolets! And in acceleration runs from a standing start against all comers, Chevrolet beat all low-priced cars—and every high-priced car except one! Chevrolet's two new "Blue-Flame" sixes have plenty of size, too. In fact, they're the highest powered sixes in the low-price field!

TREAT YOURSELF TO ADVENTURE
 Come in and drive the car that is making 1955 famous! That's the only way you'll discover all the exciting reasons why Chevrolet's stealing the thunder from the high-priced cars!

Adding Cow to Herd May Spread Disease

Herd owners who buy an animal that has passed a brucellosis-clean test still can't be sure that the costly disease won't be spread in the rest of the herd, points out Alfred Ballweg, Tuscola County agricultural agent.

The sales slip that certifies the clean test does not guarantee that the animal has not been exposed before the test was made. And that exposure to the disease is important, because the incubation period of the disease is a long one. Sometimes it runs past 200 days.

An individual test for brucellosis may indicate that an animal is brucellosis-clean. But that doesn't mean, Ballweg says, that it has not been exposed from another animal in the herd and later will come down with the disease.

If the owner of the herd sells the exposed animal, he would be complying with the law if he receives a certificate which indicates a clean test.

That means, points out Dr. Glen Reed, Michigan State College's extension veterinarian, that a herd owner would be wise to use extra care when he buys replacement stock. The buyer can insist on knowing the brucellosis status of the remainder of the herd from which he plans to buy replacements, the veterinarian suggests.

An animal that is to be added to an accredited herd in Michigan must be tested before purchase, then brought to the farm and kept separated from the rest of the herd for 30 days. Then the animal is tested again before allowed to join the herd.

Even these precautions, Dr. Reed insists, are not fool-proof because of the longer incubation period of the disease.

CARS ARE MY LINE

By H. M. Bulen

When the warm weather comes, the smart housewife shakes out the heavy winter clothes, gets them cleaned and moth-proofed before storing them away. She brings out the lighter summer clothes and has them cleaned too.

For about the same reasons, the smart car owner takes the turn to warmer weather as a signal to "shake out" the car for summer driving. The winter is tough on engine, transmission and battery; it's tough sledding for just about every part of the car.

Even if it appears to have survived the winter without trouble, this is the time to have one of our mechanics take the time to go over the car from fan belt to exhaust. He can track down any of the little weaknesses you may have spotted—or may not have spotted—through the winter.

For instance, an engine that starts hard and idles too fast may be traced to a broken windshield wiper line.

Slow acceleration when you try to step on the gas may mean only that the carburetor needs to be set for warmer weather.

When there is misfiring, a rough engine and hard starting, you may have dispaired at the engine lasting through another year. Probably isn't the engine at all; more likely the contact points of the distributor are pock-marked or aren't spaced properly.

The warmer weather means you're going to be doing a lot more driving for fun, but it won't be fun if the hotter, longer drives of summer get spoiled because the car, speaking figuratively, is still wearing its long winter underwear.

The important thing is that our factory-trained boys (and how we're proud of them) will find what's wrong, even if you haven't noticed it yet. And, just as important, they'll make the simple, inexpensive adjustments to fix the conditions you may have shuddered over, fearing a major repair bill.

Many times we find many major repairs could have been prevented if cared for in time. If your engine develops a "Knock" bring it in. We'll gladly tell you what's wrong without charge. If it's a connecting rod, DON'T DRIVE IT. Tightening a loose rod, or replacing it, is inexpensive. Driving even a mile or two will ruin the crankshaft, cost approximately ten times as much.

Get into the Fine-Car Class...

... at a cost you can easily afford!

What is a fine car? What sets a certain few apart in the world's esteem... wins them first place in most people's desire?

First and foremost, a fine car is a style-setter—a real advance in smart appearance.

Naturally, it's also a pace-setter—a fundamental forward step engineering-wise. At the wheel you should know that you've reached the peak of performance—experienced an all-new kind of flashing, vigorous, smoothly delivered power.

There's more, of course. It must be enviable for sheer luxurious comfort, for restful roadability, for thought quick handling ease.

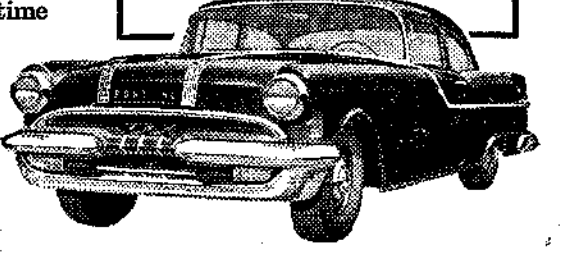

And it must, above all, be wholly dependable,

for only a trustworthy car can be called "fine."

If this meets your definition of a fine car and you want it, there's nothing in your way. For this description is right off the Pontiac score sheet—a short but perfect picture of this big, powerful, future-fashioned car. And Pontiac's prices fit comfortably into anybody's new-car buying plans!

Come in for the rest of the reasons why this is the fastest-selling Pontiac in history—such as the inside story of America's most modern and efficient automotive power plant, the sensational Strato-Streak V-8. And get the trade-in appraisal this great success permits. We're sure we can prove that now's your time to move into the fine-car class!

MICHIGAN MIRROR NEWS BRIEFS

Democrats are ganging up on Highway Commissioner Charles M. Ziegler again.

Gov. Williams and his Democratic state administrative board are bearing down on the Republican who will administer Michigan's new \$35,000,000 a year road building fund in tax boosts.

So, days after the motorists started paying 1 1/2-cents a gallon more for gasoline, Williams and his official staff asked Ziegler why he hadn't built any new roads yet.

Ziegler said a quirk in the Federal-state financing plan and collection of the tax increase specified quarterly instead of monthly payments, causing a two-month delay.

Williams said he was "disappointed" at the lack of progress. He was joined in the sniping attack by other Democrats.

The Governor stated he will brook no unnecessary delays in getting the roads built under a program which was one of the biggest political and legislative issues in years.

To get a head start, Ziegler has moved up a number of priority projects from 1956 to 1955.

He said other problems would be in the scarcity of enough concrete for a massive road building program. Steel and manpower also are in short supply.

"We're in better shape than any other state," Ziegler said. "We will be able to start some of the major projects within two months."

Williams stated he has been "informally notified" that there is plenty of cement for the work.

The first big battle between the harassed Ziegler and the Democrats ended with Williams insisting the highway department work faster and Ziegler saying it was doing the best it could.

drawn, but Williams has called another meeting for June 24.

Hucksters have been chased out of the capitol and state office buildings.

Controller James W. Miller signed an order forbidding sales of candy, magazines, knit goods, newspapers or magazines in state offices.

He said the order was "just a matter of good business" to prevent confusion in the offices and state employees from being solicited on the job.

For the first few days, the order stopped deliveries of newspapers, a tradition in the late afternoon. Pressed for an explanation, Miller said: "The order says sales, not deliveries."

Three Republican groups, which have become separated along the line, all maneuvered for a spot in the shadow of Detroit's Mayor Cobo.

They wanted to sound him out on the possibility of becoming the party's 1956 candidate to run against Williams or his next-in-line for succession to the executive office.

The entire action was seen by party faithful as the beginning of another split.

First group to consider Cobo was in the legislature. His name has been mentioned both hopefully and seriously for the past four years.

Republicans led by Senator Haskell L. Nichols (R-Jackson) and Lynn O. Francis (R-Midland) flew the Cobo flag early.

After a caucus, it was decided to go ahead with a luncheon in Detroit, at which time Cobo would be asked to declare himself, or at least to start thinking about his chances.

A week before the luncheon, State Republican Chairman John Feikens called on Cobo, almost unannounced.

The meeting was considered the first party overture. Legislators

Methodist Begin Summer Schedule

Cass City Methodist Church will go on its new summer schedule of services next Sunday, June 26.

Worship led by the pastor will begin one hour earlier than previously, now starting at 10 a. m. It will be preceded by "The Message of the Chimes" and the organ prelude at 9:50 a. m.

Sunday School will meet one hour earlier at 9 a. m. Classes for all ages will be maintained throughout the summer, although within each department there will be some mergers of classes during the season.

The new schedule was voted by members of the congregation and approved by the official board and church school workers to increase interest and participation during the warm months. It will continue until some time in September.

Members to Attend 4-H Club Week

Twenty 4-H Club members from Sanilac County will attend Michigan State College during 4-H Club Week on June 23-27.

4-H Club Agent, following is a list of those attending: Elinore Schmidt, Marjorie Klee, Minden City; Gail Pritchett, Connie Hoff, Julaine Seifert, Dale Cubitt, Eugene Miller, Sandusky; Carol Doella, Larry Kramer, Melvin; Ronda Kelly, Kingston; Barbara Gornowicz, Dan Keyser, Tyre; Lorraine Meredith, Mary Sue Hodge, Snover; Kari Howard, Bob Lilly, James Cumper, Marlette; Jay Potter, Lloyd Shepherd, Brown City; Dale Cowley, Peck.

These 4-H members have a total of 180 years in Club work and 380 completed 4-H projects. This averages out to 6.5 years plus 19 projects per 4-H member, a record to be proud of.

On this award trip to East Lansing, members will be given the opportunity to acquaint themselves with MSC and the Experiment Station and to meet boys and girls from all over Michigan.

Alternates are Barbara Bradley, Fairgrove; Marilyn Ruppert, Akron; and Sue Black, Akron.

WHY WORRY?
I CARRY ANTI-WORRY INSURANCE-- A Regular Ad In This Newspaper

Use Caution When Handling Sprays

Recent accidents from handling insecticides on the farm—both in spraying and dusting—should mean greater care with the materials, says Don R. Kebler, assistant county agricultural agent.

The concentrated insecticide is especially dangerous when taken from the bag because it is poisonous. The liquid forms of the concentrated material generally are more dangerous than the powders. But this doesn't mean, he cautioned, that powders can be handled carelessly.

Extension Entomologist, Ray James of Michigan State College, believes these pointers in handling insecticides are important:

Masks and protective clothing should be worn when concentrated insecticides are handled and when spraying with especially poisonous materials.

Don't put in a full day when spraying or dusting with such materials as parathion.

Don't expose yourself to drifting sprays or dusts.

Don't climb into the spray tank or dust hopper to clean them out.

Bathe and change clothes if the insecticide is spilled on your clothing.

Be sure to read the label on the container for instructions on the use of each chemical.

Electronic Machine Sees Green Rot In Egg

Green rot, a bacterial infection that causes more egg spoilage than any other egg rot, can be detected in its early stages with a new electronic machine developed by U. S. Department of Agriculture scientists. Principle of the machine is based on the fact that bacteria in rot-infested eggs produce a chemical which fluoresces green under ultraviolet, or "black" light. Electronic measurement of color wave-lengths revealed under black light tells whether eggs are infected.

The machine consists basically of an electronic device that automatically beams ultraviolet light through the egg, measures green color wavelengths, and rejects spoiled eggs as they come off the machine. It is best suited for large-scale operations, such as those conducted by packers, wholesalers, and chain grocers.

Green rot—the name comes from the green that shows up under black light—usually gets started through unsanitary farm practices, but handlers and retailers are hardest hit by egg spoilage. Green rot bacteria take some time to multiply before rotting begins, so spoilage usually turns up in eggs stored for more than 2 or 3 weeks. Badly-spoiled eggs show enough green when candled by ultraviolet light to be seen by the human eye.

Funeral Services Held for Mrs. Hartt

Funeral services for Mrs. Mary E. Hartt, 91, formerly of Wilmot, were held Wednesday afternoon in the Kingston funeral home. Rev. Edith Smith officiated and burial was made at Kingston. Mrs. Hartt died June 17 at Zephyr Hills, Fla., where she has been making her home. The body was brought to the Douglas Funeral Home here Tuesday.

Daughter of the late Enoch and Sarah Hartt, she was born in Kingston Township Sept. 21, 1863. She was married to Frank Hartt who died in 1908. She is survived by a daughter, Mrs. Lettie Upper, and two sons, Merritt and Stanley Hartt of Detroit; three grandchildren; five great-grandchildren, and two sisters, Mrs. Carrie Everett of Kingston and Miss Lillie M. Hartt of Zephyr Hills, Fla. A daughter, Avis, also preceded her in death.

Edison Co. Sponsors Annual 4-H Picnic

The Detroit Edison Company with county offices in Caro and Bad Axe, sponsored an all-day picnic at Caseville for 4-H club members on June 14. Each year the company honors those 4-H members who successfully complete their electrical project work in the winter by inviting them to attend this picnic.

About 250 4-H members, their parents, and local club leaders attended the picnic, reports Bill Muller, county 4-H club agent. The well planned outing included softball, swimming and running races. After a good appetite was developed, hot dogs, milk, potato chips, ice cream and watermelon were served.

The same qualities that make a man feel superior are usually the ones that cause his friends to rate him as inferior.

High Salt Beef Diet Shows Average Gains

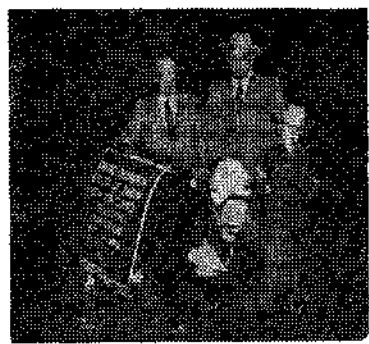

A fattening beef steer can eat as much as 1.7 pounds of salt a day and gain just as fast as on a normal diet.

Average daily gains, efficiency of feed use, and dressing percentage of carcasses were not affected by a high-salt diet in University of California experiments. Results with sheep were similar.

The tests were made to check effects of the growing California practice of using salt to regulate concentrate consumption by growing cattle and sheep on irrigated pasture. College of Agriculture animal scientists ran controller experiments with salt making up 9.33 per cent of the steer's total diet.

There was indication that the higher levels of salt fed to both sheep and cattle decreased the carcasses' grade; but the dressing percentage for all groups of sheep and cattle fed the high-salt intake equalled that of the controls.

Grand Champ

Seven-year-old Dan Wade Grenvelge, Fredericksburg, Texas, flashes victory smile after his Hereford, Shorty, was selected the Grand Champion of the San Antonio Livestock Exposition. The steer was the fifth straight grand championship won by Herefords at major shows in 1955. Shown with young Grenvelge, from left, are Professor Don Good, Kansas State College, judge of the Exposition and Paul Swaffar, Secretary of the American Hereford Association.

MOST Modern V8 FOR YOUR JOB!

NOW...THE SHORTEST STROKE V8's
IN ANY LEADING TRUCK!

Now new Chevrolet Task-Force trucks bring you the industry's most advanced V8 engines* with an ultra-short stroke for reduced friction and wear. Here are some of the modern features they bring you:

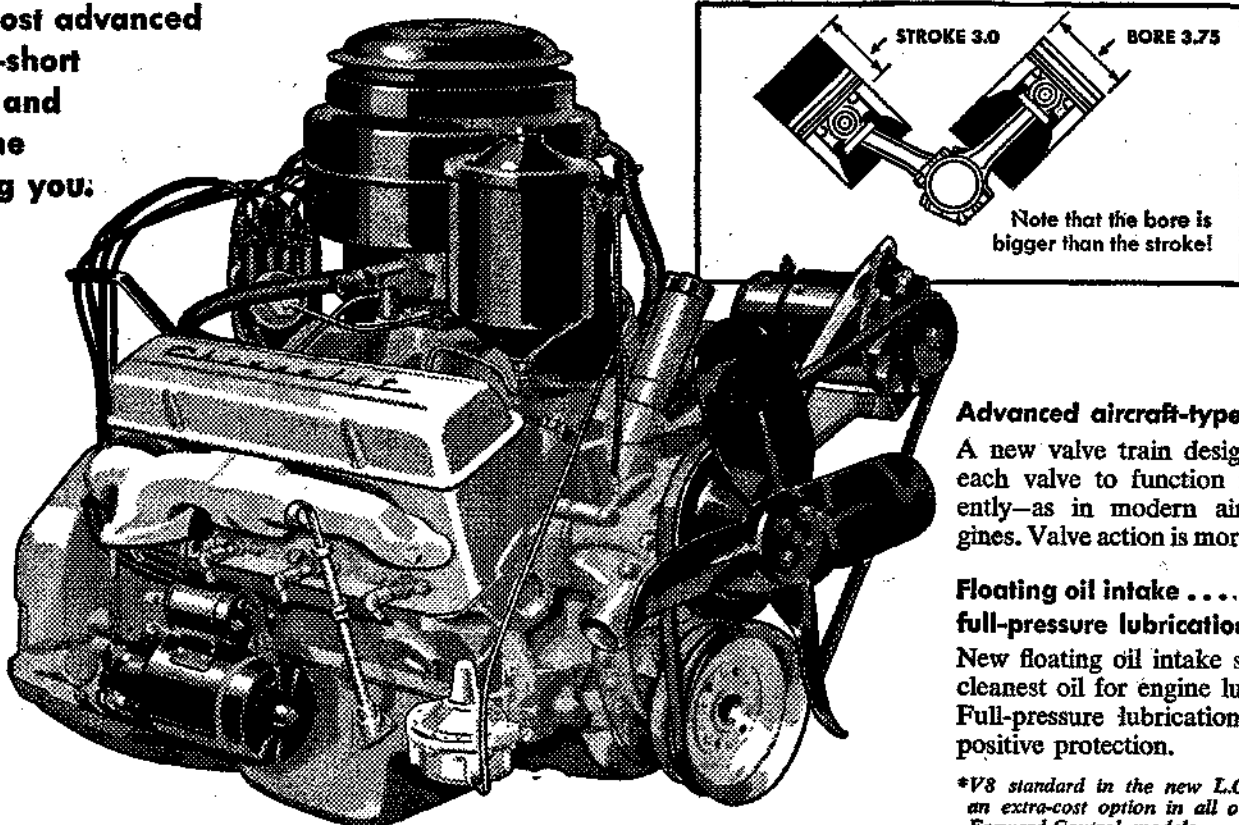

Modern 12-volt electrical system

You get double the punch for quicker starting and more efficient ignition. Also, you have a greater reserve of electrical power.

Gas-saving high-compression ratio

With a high 7.5 to 1 compression ratio, Chevrolet's new V8 truck engines squeeze extra power—and work—out of every tankful of gas. Hauling costs go down!

Extra-high power per pound
Compact, super-efficient design results in high power output per pound of engine weight. This means more useable power!

Advanced aircraft-type valves
A new valve train design permits each valve to function independently—as in modern aircraft engines. Valve action is more positive.

Floating oil intake . . . full-pressure lubrication
New floating oil intake selects the cleanest oil for engine lubrication. Full-pressure lubrication provides positive protection.

*V8 standard in the new L.C.F. models, an extra-cost option in all others except Forward-Control models.

HOW MUCH MONEY?

WILL YOU HAND OUT THIS YEAR TO

Insects-Weeds-Brush

The best estimates are that America's farmers will lose \$3 billion in reduced value of crops and pastures due to weeds. Insects will cost another \$2 billion and livestock pests \$500 million. What's your share? To get an idea, remember there are about 5 million farms in the United States.

AVOID THIS UNNECESSARY LOSS — USE

Standard Sprays

THEY LEAD THE FIELD IN KILLING POWER, SAFETY AND EFFECTIVENESS. HERE'S WHY:

1. Careful formulation in Standard's modern experimental laboratories where each new formula must be proved.
2. Continual field-testing by Standard's agricultural specialists to know what each spray does before it is offered for sale.
3. Constant quality control assures uniform killing power of all Standard sprays. This constant checking makes sure that there is no deviation in quality.

2nd BIG! WEEK

CHARM TIP of the WEEK!
by *Caroline Leonetti*

A simple way to remember who to present to whom is to realize social introductions originated in court society. The phrase, "May I present," is asking to introduce someone to the person you are addressing. Always speak the name of the honored person who receives the distinction of being asked for the presentation first.

You are invited to write directly to Caroline Leonetti—6607 Sunset Blvd., Hollywood 28, California. Please include self-addressed and stamped envelope for analysis and suggestions which will be sent by return mail.

Slate Crops - Soils Field Day at MSU

Farm crops and soil science researchers at Michigan State College are unlocking the gates to their experimental plots. The occasion is the annual Crops-Soils Field Day at the college farms on July 7, says Don R. Keblor, assistant county agricultural agent. Tours of the college farms will begin at 9:30 a. m. and continue until 4 p. m. Transportation will be furnished by tractor and wagon. Wagons will leave the campus as the visitors arrive and fill the vehicles. Noon lunch will be available.

Visitors will see the variety trials, weed control plots, and pasture experimentation conducted by the farm crops department. Tillage plots, fertilizer placement and grass management will be shown by the soil scientists.

Down Memory Lane

FROM THE FILES OF THE CHRONICLE

Five Years Ago
The Gagetown and Cass City Methodist churches are now one charge. At the annual Conference at Detroit, Rev. Howard Watkins was returned for the third year and will now serve both churches.

Village President Clifford Croft has received notice from Lester J. Ross, census supervisor, that as of April 1, 1950, Cass City's population was 1759. In 1940, census figures showed the village population at 1359.

New officers of the Cass City Chamber of Commerce are: president, Warren Wood; vice-president, Clifford Croft; secretary, Andrew N. Bigelow, and treasurer, Lloyd Bryant.

Rev. John E. Tuckey was elected district superintendent of the United Missionary Church for the State of Michigan, for the sixth consecutive year.

James Ware and Wm. Martus are to be among the 47,000 campers and Ray W. Fleener is to serve on the staff, at the second National Jamboree of the Boy Scouts of America at Valley Forge from June 30 to July 6.

Ten Years Ago
The house in Deford which Henry Rock recently purchased from Clarence Chadwick is being remodeled and will soon be ready for occupancy.

The Gavel Club has accepted an invitation from the board of education to have the honor roll of service men and women moved to the school lawn.

The Grand Trunk Western Railroad has agreed to operate its line from Cass City to Caseville one more year after hearing petitions of shippers along this line.

Rev. R. C. Gulliat is the new pastor of the Mononite Brethren in Christ Churches and Rev. R. W. Huber who formerly served here has been selected as the district superintendent for the southern district of Michigan.

Mrs. Joseph Fox has four sons in the service.

Twenty-five Years Ago
Tuscola County's population has decreased 398 in the past 10 years, according to the report of Rev. Glenn E. Carpenter, supervisor of the census, in this area, but the five villages, Reese, Cass City, Mayville, Kingston and Vassar, all showed gains.

The council voted to reduce the village tax rate to 12½ mills, 2½ mills lower than last year.

Clair Bailey left for Midland

Sunday where he has a position in the main laboratory of the Dow Chemical Co.

A large crowd attended the Ladies' Aid meeting at the Joseph Menendord home last Thursday. Amount taken in was \$10.40.

Kenneth Kelly, new athletic coach at Cass City High School, was awarded an athletic scholarship gold medal award at Central State Teachers College. This is the first time such an award has ever been given.

Thirty-five Years Ago
H. D. Schiedel has accepted the position as general manager of the Farm Produce Co.'s grain and lumber business at Cass City.

Thursday, June 17, 130 employees of Nestles Co. drove to Saginaw and were guests of the company at a dinner and theater party.

Through the efforts of Senator Townsend, the pay of post office clerks and rural carriers has been materially increased. Clerks will now receive \$1800 per year minimum and carriers, rural and city, the same.

Quoted from the Mariette Leader: Cass City High School athletes won the Valley Meet which was held at Bay City recently. This high school has made a reputation for itself throughout the state, as being composed of a bunch of young men who have tabooed the use of cigarettes and by a strict regimen of health, have brought honor to their home town.

Actual photo of the Plymouth Belvedere Sport Coupe

Add up the features, compare the prices! A short visit to our showroom plus some simple arithmetic will prove that Plymouth is your best buy of the low-price 3!

Drop by today for a demonstration drive in one of our big, beautiful Plymouths! Here are some of the wonderful things in store for you:

Biggest car of the low-price 3! Plymouth is 17 feet long—by far the largest car in its field, both inside and outside. That means you enjoy the smooth, steady ride only a truly big car, like Plymouth, can give you; as well as more room, more comfort, inside.

Most beautiful car of the low-price 3! Practically everyone rates Plymouth first for beauty. *Charm*, a leading fashion magazine, selected Plymouth "beauty buy of the year." Thousands picked Plymouth best-looking of "all 3" low-price cars in a nation-wide survey.

Most economical car of the low-price 3! When it comes to powerplants, there's really no match for either of Plymouth's 2 great engines. Try the 6-cylinder PowerFlow 117, the all-time champ for economy, reliability and performance. Or try the high-flying Hy-Fire V-8—with the highest standard horsepower of the low-price 3.

WHY PAY UP TO \$500 MORE FOR A CAR SMALLER THAN PLYMOUTH?

Don't be fooled by the claims of medium-price cars that they cost practically the same as Plymouth. When you compare price tags, you'll find that, model for model, Plymouth sells for much less, gives you more car for your money!

Plymouth named "America's Most Beautiful Car" by famous professional artists, the Society of Illustrators

23 on Fourth Annual Mystery Trip

"Best one yet" was the comment most frequently heard from members of the Shabbona Home Demonstration Group when they spoke of their fourth annual mystery trip, which was taken Tuesday, June 14. Twenty-three ladies left Shabbona, destination unknown, except to the committee in charge, Mrs. Bruce Kritzman, Mrs. Alan Rogers and Mrs. Edward Hoppe.

They were headed toward Port Huron where they went directly to the Chamber of Commerce building. Once there, they were met by five of Port Huron's businessmen who very graciously took them, in their cars and at their own expense, on a tour of the city, across the Blue Water bridge and over into Sarnia for a tour of that city also.

Back in Port Huron again, the group had the opportunity of

visiting a model home before going to the Black River Country Club for lunch. After lunch, a tour of the Morton Salt Co. had been arranged, after which the ladies, still guests of the Chamber of Commerce were treated to a very restful boat ride on the St. Clair River.

Dinner on the road home completed the day and everyone came back to Shabbona feeling that they had had another wonderful trip.

Many a man has put a coat of white-wash on his past and thinks he has reformed.

To please a man find out what he wants—what he needs is of minor importance.

The world may owe all of us a living, but only a few people are preferred creditors.

The person who looks too far into the future sometimes misses the opportunities of the present.

FINAL MEETING

Concluded from page one.

All were reinstated except Mrs. Frank Pelton, whose term had expired, and Mrs. Arlington Gray, who resigned because of other duties. Mrs. Edward Hoppe was elected to replace Mrs. Pelton as reporter and Mrs. Harvey Fleming was named to replace Mrs. Gray as representative on the county-wide committee.

Camp day and the county mystery tour were discussed and plans made to attend both. A family picnic for the entire group and their families was planned for Aug. 14, to be held on the lawn at the home of Mr. and Mrs. Edward Phetteplace.

The recreation chairman, Mrs. Harold Peters, presented nine members of the group with a little gift for being present at all ten meetings this year.

The lesson on "Laundry Equipment" was given by Mrs. Bruce Kritzman and Mrs. Frank Pelton. At the close of the meeting, a lovely lunch of sandwiches, salad and coffee was served.

CHURCH SCHOOL

Continued from page one.

eram, each department will participate in a closing feature Thursday and Friday. Treasure hunts were scheduled for Thursday and Friday during the recreational period for the older three groups.

Over 100 children attended the school in charge of a staff of 12 adult leaders and 10 assistants. Rev. Vender praised the staff, "We have never had a more capable and fully staffed leadership for our school."

Serving as department superintendents are: Mrs. Lloyd Finkbeiner, kindergarten; Mrs. K. L. MacRae, primary; Mrs. Stanley Kim, junior, and Miss Muriel Addison, junior high.

To be popular cultivate a spirit of fairness to others.

Look- 4 Doors and no center posts!

It's the new kind of hardtop—The 4-Door Riviera!

You drop the side windows down on this airy beauty of a Buick with the solid steel roof—and it's as wide open as a Convertible, with no center posts to mar your view. That's what makes it a hardtop.

But what makes it a very special kind of hardtop is the fact that it has four doors instead of two.

Cheers? Brother!—they're really rolling out for Buick's 4-Door Riviera!

Now, you see, you can have the tremendously popular styling of a true hardtop combined with the room, comfort and full convenience of a 4-door Sedan.

And it took a completely new kind of body design to come up with this marvel—a new kind of body built to wholly new structural principles.

So it looks like Buick's done it again—

because the 4-Door Riviera is a sweeping sensation across the nation. It's rolling off the assembly lines in volume numbers to meet the demand—in the high-powered CENTURY Series, and in the bedrock-priced SPECIAL Series, illustrated here.

And each one is all Buick—with record-high V8 power, the level steadiness of all-coil-springing, the extra roominess of a full-size Buick Sedan—and, most certainly, with the instantaneous getaway response and bettered gas mileage of Buick's spectacular new Variable Pitch Dynaflo.*

Come in for a look at the brand-new kind of hardtop—the 4-Door Riviera. You'll find it priced at the modest extra cost of a 4-door model over a 2-door model—and a buy too thrilling to pass up.

*Dynaflo Drive is standard on Roadmaster, optional on other Series.
