THE NEW BEL AIR SPORT COUPE-one of 19 high-priced-looking Chevrolet models.

Who wouldn't mistake this handsome new

Chevrolet for a high-priced car! It looks strictly "upper bracket" with its bold new Motoramic styling . . . its longer, lower hood . . . its proud new grille that

spans the full front end. Even the details would do credit to an expensive car . . . like the sleek, high-fashion

taillights (the left one hides the gas cap!). But, even beyond the costly appearance of its Fisher Body, Chevy gives the highpriced cars a run for their money. For it's

one of the few great road cars built today! It brings you the added security of naileddown stability on turns and lightning acceleration for safer passing. Horsepower now ranges all the way up to 205! All engines now

have hydraulic-hushed valve lifters. Of course, Chevrolet has safety door latches in all models. In addition, you can have seat belts, with or without shoulder harness, and

instrument panel padding at extra cost. There's a new Chevrolet just made for you. So come in and highway-test it.

The aluminum reflected much of the heat from the engine, keeping the hood comparatively cool. This is important, since the wax on the outside of the hood can melt if the hood gets too badly overheated from the engine. That's one reason why the finish on a car hood is often not as well preserved as the rest of the body.

Hens In the "Good Old Days"

In the "Good Old Days," hens were fed in various and dubious ways. An Encyclopedia published in 1898 recommended mashed potatoes, boiled alfalfa hay, and chopped lean red beef as the last word in a high-powered diet! The Encyclopedia further notes that "hens fed this diet have been known to lay several dozen eggs per year." This was accomplished by the more conscientious and energetic poultry raiserswho believed in progress.

The average farmer turned his chickens out to scramble for the feed as best they could. They picked up corn and oats in the barnyard; or they followed the plow; or worked the manure pile over to satisfy their nunger. For a special treat, the chickens were given a bucket of grain. For the most part, however, it was felt that food given to non-producers was utterly wasted.

Feeding and management practices have been somewhat modified since the "Good Old Days." Farmers now believe in giving the baby chicks a good start and keeping that good start throughout the laying period. Farmers are also becoming more conscious of these terms: Vitamelk, Protein, Minerals, Methionine, Amino Acids, feathering factors, growth promoting factors, and 7-9 split. egg producing factors.

Rite-Way Poultry Feeds are the only poultry feeds in this area that contain Vitamelk-a highly vitamin fortified milk product. Incorporated into this product are all of the factors that split. mean high production.

IN LOVING MEMORY of our dear mother, Mrs. Joseph Nichols, who passed away 21 years ago, Jan. 4, 1935. Please God, forgive a silent tear. A fervent wish our mom was here. Sadly missed by her children. 1-6-1

IN LOVING MEMORY of our dear son, Lester, whom God called home seven years ago, January 3, 1949. It's lonesome at home without you dear son, And sad the weary way, For life is not the same, dear, Since you were called away. There's always a lonely heartache and many a silent tear. But always a beautiful memory Of a son we loved so dear. If we had all the world to give, We'd give it all and more To hear your voice and see your smile, And gre t you at the door. So you, who have a son, Cherish him with care. You will never know the sorrow Till you see the vacant chair. But God loved him too, and thought it best, To take him with Him to rest. Always remembered and sadly missed by his parents, Leveret and Ella 1-6-1

I know Ferdie.' The eight year old Kelly boys gasped in disbelief. Bobby Kelly, first to recover his voice, stated mournfully: "Ferdie is-I mean,

Ferdie was our pet." Mr. Donahue, preoccupied as he was, let the terrible news sink in gradually. Then with a grin he scribbled something on a piece of paper. "Here," he said, handing the paper to Bobby. "This is an official order to be given to Mr. Miller the florist; he will design a fitting floral-piece for your pet."

Then Mr. Donahue went back to the frustrating work of designing float for the big parade.

Thursday morning he received phone call from Mr. Miller.

The Kelley twins dashed breathlessly up to his lawn chair.

On his way to the florist's Mr. Donahue's heart sank. For there, coming straight up the walk, was Barnaby White.

"Just the man I've been plan-Saturday's float? The best float Aaron Haley at Owendale. draws a good fat prize, you know."

"I'm on my way to the florist's and family, Emerson and John now," said Mr. Donahue with Y. Brown of Detroit spent Sattongue in cheek. 'I didn't know urday visiting Mr. and Mrs. there'd be a prize." "Oh sure. Of course it'll go into

Mr. Donahue's frown straightened out abruptly; a wonderful idea had just taken the place of his ing practices, which provides for week-long headache. He hoped that about one ton of grass silage per Ferdie's floral piece would fit into the plan. As he entered Miller's with Barnaby a few minutes later his heart leaped.

"Wonderful!" cried Barnaby as he spotted the huge, flowery elephant against the wall. Then he groaned: "Oh-no!"

"Don't worry," Mr. Donahue put in quickly. "We're working on a floral donkey too-same size. Our floats will urge people to vote." Barnaby White was slapping Mr. Donahue on the back when Mr. Miller appeared, "I'm terribly sor ry about this—" he began.

"Elephant's fine," said Mr. Don-ahue hurriedly. "Now get started on the donkey—same size. Have I lwners say: "The BF does more work them both ready early Saturday, morning."
