

Council Establishes New Parking Laws

Changes were made in the parking provisions for Cass City, Tuesday night by the village council at its regular monthly meeting at the Cass City Municipal Building.

An amendment to an existing ordinance makes the following provisions:

Eliminates double parking. Gives police the right to haul away any car that is parked anywhere in the village for over 48 hours. Any vehicle that is unlawfully parked can also be hauled away, according to the provisions of the ordinance.

Makes parking on Main or Seeger Streets unlawful from 2 a. m. to 5 a. m.

Makes parking on any street from 2 a. m. to 5 a. m. unlawful from Dec. 1 to April 1.

The reason for prohibiting parking on all streets during the winter months is to allow village crews to remove snow from streets.

Utility Services
Persons living on the fringe of Cass City will no longer be able to use village sewer or water facilities.

The council voted to place no sewer or water connections for any home outside the village limits.

The order will have no effect on homes outside the village that already have the service.

Councilmen said that the order was passed for two reasons. The water system in the village is rapidly approaching maximum capacity and the use of a little more water by residents will necessitate the expenditures of funds for an enlarged system.

Persons outside of the village pay nothing towards maintaining the system and trustees felt that the service should be reserved for taxpayers who pay the costs of operation.

Storm Sewers
Three storm sewer projects have been given top priority by the village this year. One is nearly complete and work has started on another.

Garfield Street, in front of the Walbro Corporation and Cass City Manufacturing Co., is being graded and ditched to provide proper drainage.

The water will be carried west when the work is finished. Plants have agreed to pay for tubing across driveways in excess of standard 24-foot widths.

The second project will place storm sewer on Seeger Street to the north city limits. Tile has been placed at the site ready for work to begin.

The third project will be on Pine Street, running three blocks east from Seeger.

Alley Inspection
President James Bauer appointed members of the council as a standing committee to inspect alleys in the business section. Each trustee was assigned a section.

Coming Auctions
Saturday, April 28—Stanley Frankowski will sell cattle and dairy equipment at the farm, six miles east and two miles north of Cass City.

Saturday, April 28—Morris Walker will sell cattle and farm machinery at the farm, a mile north and a mile west of the standpipe.

Saturday, April 28—Emil Reinke will sell cattle, hogs, poultry and implements at the farm, eight and a half miles east of Kinde.

Saturday, May 5—Adolph Treztrzynski will sell machinery, poultry and equipment and household goods at the farm, a mile south and two and a half miles west of Gagetown.

Saturday, May 5—Walter Kupiec will sell his herd of dairy cattle and complete line of machinery at his farm, three miles north, a mile west, and a quarter of a mile west of Kingston.

Saturday, May 5—Vern Maschke will sell cattle, milking equipment and feed at the farm, a mile north, a mile west and a quarter mile north of Bad Axe.

Bids were to have been received Wednesday in Lansing for the bituminous surfacing of 17.4 miles of county roads in Sanilac County, authorities for the State Highway Department announced this week.

The roads to be resurfaced are: 2.3 miles on route 121 from four miles east of Marlette, easterly four miles on route 126 from a mile east of Deckerville; easterly from Applegate 4.5 miles on route 551, and 5.9 miles east from Decker on route 875.

These routes are all important farm-to-market roads, the department said. Completion date for the entire project is Sept. 1, 1956.

Many Involved in Bad Check Passed To Paul Company

The passing of a worthless check by Claude Bowman to the H. O. Paul Co. for two cars involved a chain of events for authorities and the persons involved.

After the check for \$3,825 was found to be no good, one of the cars was found in St. Louis, Mo., and the used car dealer that bought the car stopped payment on his check.

Meanwhile, Mr. Bowman is alleged to have used the check to purchase four cars in Grand Blanc, Michigan.

The dealer who sold the four cars was unable to cash the check and stopped payment on the check he issued.

Bowman was located last week end at the home of his sister in Flint. He was brought to the Tuscola County Jail.

After securing the services of a lawyer, he was released on bail by Justice Ruth Tennant of Caro. The release was made on a \$1,000 check posted by Bowman's sister, without the knowledge of Prosecutor Douglas Williams.

Since Bowman was released before he was arraigned, the whole procedure was declared null and void.

State Police were again dispatched to pick up Bowman and bring him back to the Tuscola County Jail on a new warrant.

However, Bowman was placed in jail in Flint on an earlier charge and will not be released until his trial is completed there.

The four cars sold to Bowman by the Grand Blanc dealer were recovered and arrangements are now complete for H. O. Paul to pick up the Pontiac in St. Louis.

The second car sold by the Paul Company, a Chevrolet, was sold to a private owner, Bowman said. The company is not expected to recover this car.

Exploding Tank Kills Caro Youth
Ned Huffman, 11-year-old Caro youth, was killed in a freak accident Monday afternoon when a gasoline tank exploded and hurled through the air to strike him on the head.

The boy was the son of Mr. and Mrs. Ray Huffman of Caro. The youngster was one of a crowd of onlookers who were watching a burning fuel oil truck. The 100-gallon steel tank had been carried on the side of the truck and flew 145 feet through the air to strike the boy.

William Force, Caro, the driver of the truck, had parked when he saw the tank on fire. He attempted to extinguish the flames and then called the Caro Fire Department.

The truck was demolished but the main fuel oil tank did not explode. Dr. H. T. Donahue, Tuscola County coroner, and the Tuscola Sheriff's Department investigated.

Persons at the fire said that the boy started to run as the tank exploded but had taken only a few steps when the missile struck him.

Gavel Club Tours Walbro Corporation
The Cass City Gavel Club toured the Walbro Corporation Tuesday evening in place of a regular program.

The tour was conducted by Lambert Althaver who explained the operation to visiting members. He explained that the company now hires a total of 185 persons and have reached a production figure of a little over 5,000 caraburetors per day.

Toastmaster for the evening was Clifford Croft who arranged to have Mr. Althaver conduct the tour.

Cass City Loses Verdict in Cage Game Protest
Cass City's protest of the basketball game with Crosswell-Lexington proved futile Friday when the results of a hearing were made public Wednesday by the State Athletic Association.

The dispute stemmed from the call of the end of the game. After a free shot had been awarded to Jack Clara and made to tie the score, the referee and timer conferred and said the game was over.

The Athletic Association censured F. A. Gorton of Crosswell, the timer, and said in their official report he was guilty of "gross negligence" in his duties. The game now is official in the record books as a 76-75 Crosswell victory.

TOUR PLANT—These Cass City High School students reported a very interesting afternoon touring the Dow Chemical plant Tuesday. Here they are waiting to board the bus for home after completing their visit. (Photo by Stuart Little.)

Students Tour Dow Plant Tuesday

Thirty-three members of Cass City High School's chemistry class were guests of the Dow Chemical Company in a two-hour tour of its Midland plant Tuesday.

Viewing at firsthand the world's largest single chemical installation, they learned that it covers several thousand acres and employs well over ten thousand persons.

Included in the stops made during the visit were the aspirin division, where perhaps eighty per cent of the production of this drug in the United States takes place, the newly remodeled Saran plant and the plastics building. In the Styrofoam section, they found that what looked like a huge plank of this interesting material could be picked up and swung about with ease by any one of them. In the organic research laboratories, they had a chance to see chemists at work and learn something of the methods used in discovering new chemical compounds and devising means for their manufacture.

Their visit also included one of several power plants supplying electricity for the sprawling factory and the waste disposal area where the enormous amount of varied chemical wastes are treated to make them safe for discharge to the river which borders the plant.

This year the chemistry students' annual Dow trip coincided with the national observance of Chemical Progress Week, being celebrated April 23-28, to recognize the contribution of the chemical industry to America.

The class was accompanied by its instructor, Arthur Holmberg, and Bill Patch, school bus driver.

Hawks Split Two Non-League Diamond Tilts
Elkton scored a run in the last inning to hand Cass City a 2-1 defeat Thursday, April 19, at the Municipal Park in Cass City. In another non-league game Monday the Hawks swamped Unionville 17-4.

Thursday, April 26, the Hawks were to have swung into action with a game with defending champion Caro at the Caro park. Monday, their first conference home game will be played with Crosswell-Lexington.

Two Cass City errors settled a tight pitching duel between George Walsh and Bob Martus in the Elgton game. The boots allowed the winning run for Elkton in the last inning.

Elkton scored first in the second when Knechtel doubled and scored when Eugene Finkbeiner allowed a short passed ball and threw the ball into left field while trying to nail the runner going into third.

The Hawks tied the game in the third on Martus' single and a fly throw by Knechtel on a ball tapped in front of the plate.

Cass City scored nine runs in the third inning and seven in the fourth to rout Unionville 17-4. The game was marked by wild pitching by Unionville hurlers and heavy hitting by the Hawks.

Ron Behr led the attack with three hits and was also the winning pitcher.

Village to Build Garage Plans Set for New Fire Tank Wagon

At a meeting of the Elkland Township Board and the village council Tuesday evening at the Cass City Municipal Building, plans for a new tank truck for the Elkland Township Fire Department moved a step closer to completion.

The council voted unanimously to build an addition to the building at the Municipal Park to house the tank truck. Village President James Bauer estimated that the structure would cost about \$2,000.

Present plans call for a space heater to be placed in the garage. The council and board reviewed the cost of operating the department. Supervisor Edward Rawson said that for 1954 and 1955 total cost for operating the department was \$5,950 and total income was \$2,640. Cost to the village was about the same. Total expenditures for housing the equipment was \$1,109 for a one-year period. This amount includes the cost of heating the library which occupies part of the building.

Best Equipment
Supervisor Rawson said, in an informal discussion, that the township plans to buy good equipment. He said, judging by the reaction of farmers in the township, most taxpayers want the good equipment.

Estimates for cost of the tanker are about \$6,500, according to representatives who have talked with the board.

The new tanker will have about a 1,000-gallon capacity. Original plans were for a tank that would hold 1,600 gallons but plans were revised for a smaller tank with more maneuverability over country roads.

The proposed equipment will be of the latest design and firemen will be able to spray water while the truck is moving. This feature is expected to be very useful when fighting grass fires.

Delivery of the equipment takes four months after an order is placed. The township is expected to place the order in the very near future.

Besides Mr. Rawson, John Marshall and Charles Patterson, members of the township board, were present.

Work started this week on the erection of a new basement for the Lutheran Church in Cass City. The new basement is to be 40 by 80 feet and will be built so that a church can be erected over it as funds become available.

Cost of the basement with the heating system and other facilities necessary for the addition of a new church is estimated at about \$10,000.

For the present, plans call for the present church to be placed across the new basement.

Erection of the new basement started two weeks after the dedication of the present building, eight years ago, April 11, 1948.

Name Sites for Sanilac Salk Shots
The Sanilac County Health Department this week announced sites for county-wide second inoculations of Salk vaccine.

All children between the ages of five and nine years are eligible. No third doses will be given, the department said.

Friday, May 4, at 9:30 a. m., the shots will be given at the Elkland Township Unit School. Students from Elkland, Fox, Starr, Wheeler, Argyle, Laine, Cumber, Greenleaf, Stone, Mosier and Wickware schools will receive inoculations at this site.

In the Snover School basement, pupils from the following schools will be given the shots starting at 1:30 p. m., Wednesday, May 2: Snover, Wilson, Elmer, Urban, Minard, Hyslop, Laurel, Hull, Harrison, Lee, McBride, Parker and Pidd.

Two Grass Fires Reported This Week
After two grass fires this week, Elkland Township Fire Department Chief Howard Ellis called attention to the conservation department regulation that requires permits before controlled burning is attempted.

Tuesday evening the department was called to the Stanley Mikulac farm, south and west of Cass City, where a brush fire started in the township dump and quickly spread through adjoining fields.

Wednesday, the department extinguished a fire at the Ed Marshall farm, three miles east and a half mile north of Cass City.

At this fire, the department received a preview of what can be done with a water tank truck.

The C. R. Hunt Co. tank truck was loaned to the department and was used to help quell the grass fire.

Firemen are expecting new water equipment sometime this fall.

Shuff Killed in Accident Friday Near Cass City

Eugene Cecil Shuff, 15, son of Mr. and Mrs. Clifford H. Shuff, of Elkton, was killed Friday evening when struck while riding a bicycle on M-81, east of Cass City.

He was struck by a car driven by Marvin M. Winter, 18, of Cass City. Tuscola County sheriff's officials who investigated with Dr. H. T. Donahue of Cass City, reported that Mr. Winter said that the boy was driving the bicycle without lights. He said he did not see him in time to avoid the crash.

Mr. Shuff was staying at the home of Mr. and Mrs. Paul Murray and attending Evergreen Township Unit School.

Mr. Murray said that the boy had asked for permission to visit a neighbor's farm and then started for Cass City. He said that he had forbidden the boy to ride his bike at night.

Mr. Shuff died instantly from his injuries.

Vernon Czewski, 12, of Cass City who was riding another bicycle with Mr. Shuff became frightened after the accident and ran into a nearby woods and hid and was not found until a half-hour after the accident.

Funeral services were held Tuesday afternoon at 2 o'clock at the Elkton Missionary Church. Rev. William Heller officiated and burial was in Riverside Cemetery.

Mr. Shuff was born June 30, 1940, in Ohio. He is survived by his parents, six brothers and six sisters.

Junior Class Preps for Annual Banquet-Prom
The Junior Class of Cass City High School will entertain the Class of 1956 at a banquet and prom, Friday evening, May 4. A "Candyland" decorating scheme will be used by the Juniors to transform the school gym into an attractive setting for the leading social event of the school year.

In addition to the Seniors, the Juniors will have as their guests, the faculty and board of education.

The evening's festivities will start at 6:30 with a banquet for 256 guests. Committees of Junior mothers will prepare and serve the dinner, with Mrs. William Martus as chairman of the groups. Twenty-seven Sophomore girls will serve as waitresses. The entrance march for the guests will be played by Marilyn McConkey, after which Ruth Ann Agar will give the invocation.

Following the banquet, Toastmaster Jim MacTavish will emcee an after-dinner program and Dianna Shresny will play an accordion solo. Walter Kloc, Junior Class president, will welcome the guests. Karen Cummings, Senior president, will respond with a toast to the Juniors and other guests. Arthur Holmberg, high school principal, will be the faculty speaker.

Roger Parrish, vocal instructor, will lead community singing and direct the Junior Girls Chorus, while Ronald Phillips, band director, will direct the Junior Boys' Chorus in music adapted to the theme. The different groups will sing "When My Sugar Walks Down the Street," "Big Rock Candy Mountain," "Sugar and Cake," "On My Good Ship Lollipop" and "Tutti, Tutti." A Junior girls' vocal trio, Sally Hunt, Joanne Miller, and Ruth Ann Agar will also entertain.

The Junior prom will get under way at 9:30 with Bob Snow's dance band of Mt. Pleasant furnishing the music for dancing. A grand march will be featured at 11:00. The public is welcome at the dance.

FSBA to Meet in Sandusky
A meeting of the Fair Share Bargaining Association has been scheduled Monday, April 30, at 8:30 p. m. at Sandusky High School, according to an announcement by Alan Rogers of Decker.

At the meeting, a chairman for Sanilac County will be elected and Homer Martin, director, will lead a discussion.

All dairymen are urged to attend, Mr. Rogers said.

Home and School Council to Review Reading Abilities

Several vital questions that interest parents of school children will be answered at the Home and School Council meeting in the Cass City Elementary School gym, Monday, April 30.

At the meeting, authorities said, you'll find how your child's reading ability compares with children across the nation and how reading is taught today.

Monday's meeting will be the final of the school year. It will start at 8 p. m.

Miss Martha Knoblet will lead the early elementary and Mrs. Brewster Shaw will lead the later elementary discussions. All the elementary faculty will participate in the panel.

Entertainment will be furnished by students. Choral reading selections will be presented by the fourth graders in Mrs. Ella Price's room and musical selections will be presented by members of the elementary band under the direction of Ronald Phillips.

The business meeting will be highlighted by the election of officers. All persons interested in education are invited to attend.

Track Team Wins Dual Meet From Bad Axe

Cass City's track team remained undefeated this week by posting a close decision over Bad Axe, 57-1/6 to 51-5/6.

Jack Clara again led the Hawk squad with two firsts and a tie for first. Cass City won six firsts in the 18 events but won enough points on second and third place finishes to win the match.

The results:
120-yard high hurdles: won by Kelly, BA; Leeson, CC; Laidlow, BA. 1:18.
Medley relay: won by Bad Axe. 2:49.4.

100-yard dash: won by Clara, CC; Haldane, BA; Walpole, CC. 1:02.25.
Mile run: won by Nelman, CC; Whittaker, CC; McDonald, BA. 5:03.

440-yard dash: won by Pangborn, BA; Endersbe, BA; Malace, CC. 5:53.
150-yard low hurdles: won by Kelly, BA; Leeson, CC; Laidlow, BA. 2:22.

220-yard dash: won by Haldane, BA; Walpole, CC; tie between Donahue, CC, and Osen.

Concluded on page 10.

Motorists Told of Detour On M-15

Thumb area travelers will have to plan to leave M-15 between M-81 and Bay City out of their travel schedule in daylight hours, the State Highway Department announced Wednesday.

Motorists will be forced to go to Bay City via Saginaw, if they had planned to take M-15 during the daylight hours for the next two or three weeks.

The detour was made necessary because of the erection of five and a half miles of dual concrete roadways on M-15 to M-138 in Bay County, the department said.

Your chicks should grow up to 5.4% faster on 7.6% less feed per pound of gain than ever before on Purina Startena!

Purina scientists have done it again! They have improved even last year's wonderful formula so much that you can see the faster growth—the better coloring—the extra fine feathering.

97% LIVABILITY. Last year over 11,000 folks who kept records on 2,364,891 chicks proved that they could get 97% livability. This is 97 chicks raised out of every 100 bought.

LOW IN COST. It costs so little to give your chicks a wonderful start on Super Startena. Feed just 2 lbs. per small breed chick or 3 lbs. for heavies. That is all it takes—just a few pennies—to grow big, well-feathered young pullets about 5 weeks old.

More people named Jones*

own Chevrolets than any other car!

*Of course we haven't actually counted all the Joneses. But it seems a safe guess. Because this year—as they have year after year—more people are buying Chevrolets. And 2 million more people drive Chevrolets than any other car. Maybe you ought to come in and see why this is so.

CARS

by H. M. Bulen

Those medical pictures of cut-away lungs always frighten me—the tissues blackened and besmudged by the dust and impurities that are in the air wherever we go.

We, as people, are a lot better equipped to breathe that air than our cars are, though. The body has wonderful ways of self-healing and we don't breathe nearly as much air as our cars do.

A moderately small engine of 122 cubic inches will take in as much as 14 million cubic inches of air in an hour. If, in any of that air, a number of particles slip through that are 2/1000ths of an inch in diameter or larger, they can really play hob with your carburetor.

It's been shown that impurities larger than 4/1000ths of an inch can cause the engine's moving parts to wear out much faster than normally. Particles this size are, of course, invisible—but they're not invisible to your car's air cleaner, a really astounding piece of equipment which makes sure your car breathes air a thousand times more pure than the air you breathe.

An air cleaner that is serviced regularly will stop more than 99 per cent of the air's impurities. In 10,000 miles of driving, about a year for most people, a good air cleaner should let no more than 6/100 of an ounce of impurities through.

If your car had to breathe the air we breathe, two things would happen very quickly. The carburetor would get blocked and the tiny impurities would mix with the oil to make a grinding mixture that would be as effective as the best abrasive you can buy.

It's pretty obvious why, when you bring your car in for servicing, you should make sure the oil filter and air cleaner are looked after.

Don't forget. We will give away the "Kiddie Corvette" on the 5th of May. Some child will be very happy. All you must do is come in with an adult, put your name in the box. On the above date we will draw the winner's name from the box at three o'clock in the afternoon.

Michigan Mirror News In Brief

"Harvest Season" is almost here for politicians, and they are eagerly examining the crop of voters.

Democrats are embarked upon a series of "reports to the people" starring Gov. G. Mennen Williams and the five office holders who moved into top state administrative positions 18 months ago. This party is touring the state for a face to face meeting with its many people. While the "report" may have much value to the citizens in general, there can be little doubt that it can have substantial political value to the Democratic party.

Lack of a gubernatorial candidate who can inspire enthusiasm in the GOP has been a matter of prime concern for Republicans. But leaders are not sitting on their hands until they select their man.

They are making things unpleasant, to say the least, for Secretary of State James M. Hare by emphasizing embezzlement charges involving his branch managers, and for Attorney General Thomas M. Kavanagh by underlining his difficulties with traffic regulations. Democrats will make liberal use

of their record since they took control of the state administrative board, and during the four terms of Gov. Williams. They will attack Republican legislators for not coming up with money and laws requested by the Governor, especially in fields of mental health and education.

"A look at the record" will be the defense of Republicans. They will talk of what they did accomplish in these fields; claim that laws they supported and money they helped appropriate will handle the problems, and without running the state's treasury in the red.

Republican leaders might total the list of appropriations requested by the Governor and show how far the state would be in the hole if the Legislature had acted according to his lead.

A spirited battle can be expected as this campaign gets underway. The prize is high for either party. The loss for either is serious.

Michigan judges have been asked to crack down on bad drivers with stiff fines. The associations of municipal judges and justices of the peace

already have adopted an "advisory" schedule of uniform fines—\$1 a mile over the limit for the first five miles, \$2 a mile for the second five and \$3 a mile for the third five miles of speeding.

A conference of judges and law enforcement officials at East Lansing heard Secretary of State Hare say that the speed limits and other safety laws are "merely tools."

He said the final answer to highway safety lies with educating the driver and "changing his attitude."

"Until we can do that, we're in trouble," he said.

Vacations will be big business in Michigan again this summer.

The tall steel work of the Mackinac Straits bridge already is drawing sightseers to Michigan, the harbinger of what to expect when the bridge linking the peninsulas is completed in 1957.

Resort owners are beginning to build on either sides of the straits, to be ready to serve the vacationing public—now and when the bridge is completed.

Michigan residents are considered to be the best advertisement for the state's resort areas.

Last year 9,000,000 people spent their vacations in Michigan, 4,000,000 of them state residents and 5,000,000 of them from other states—and nations.

Fishing for walleyes, northern, blue gills, pan fish and trout starts April 23 and bass season opens June 16.

Michigan week will be highlighted May 21 with the annual exchange of mayors.

This is the custom of sending the chief executives of the state's participating cities and villages to other city halls for the day—to see how the other fellow operates.

More than 500 cities and villages are taking part in the 1956 exchange.

Local committees have been organized to make their one-day mayors comfortable, taking him on tours of municipal attractions and swapping ideas on the conduct of local government.

It will be a major day in the Michigan Week celebration May 20-26, set aside for the state to count its blessings and advertise its attractions to the world.

A "pep meeting" for young Republicans is scheduled for Lansing May 11-12. More than 400

active, interested GOP workers of more tender years will gather to organize themselves, elect officers, decide how they can best aid the Republican cause in 1956. They'll also crown a "Miss Young Republican."

Official sponsor is the Michigan Federation of Young Republicans. Keynote speaker is Congressman Orvin B. Fjare from Montana, who is invited to add enthusiasm to the sessions. General chairman is Charles Harmon, a student at Michigan State University.

Two Disposal Plans For Bangs Reactors

Michigan's brucellosis program includes two methods of rehabilitating dairy herds with reactors. Farmers may choose either of the two plans, according to Alfred Ballweg, county agricultural agent.

Plan A demands immediate slaughter of all reactor cattle. Then, a dairyman must retest at 30-60 day intervals until all animals test negatively at least twice.

Plan B provides for indemnity payments of up to \$25 on grade cattle and \$50 on registered stock if the animals are sold to an approved slaughterer within 15 days after branding.

Under Plan B, a farmer must dispose of reactors within three years. Retests will be conducted as soon as the reactors are disposed of.

A farmer should retain reactors only if obligations force him to do so, said Ballweg. To avoid contracting undulant fever, or human brucellosis, he should wear gloves when working in the stable or handling infected animals.

Calfhood vaccination with Strain 19 is optional to all herds having reactors. The state program encourages its use on all farms, though only herds with reactors are vaccinated free of charge.

BETTER PENETRATION IN ALL SOILS

The new MM Disc Harrows have an exceptional combination of light weight and strength . . . light enough so you can work in soft ground without too much reduction in angle and sacrifice of quality work; strong enough so you can add as much weight as needed to give you good penetration in hard soils. The new MM deep pan weight boxes enable you to use soil from the field you are working in for needed weight.

The harrow is designed so that all discs penetrate at a uniform depth and follow the contour of the ground. Disc bearings never require lubrication, and the disc gang assembly is designed to protect the bearings against wear and to assure long-life trouble-free performance.

Let us tell you all about these outstanding new harrows.

PROCLAMATION

CIVIL AIR PATROL WEEK

American national security and general safety have been substantially benefited by the efforts of the Civil Air Patrol. This year marks the Fifteenth Anniversary of this exemplary volunteer organization.

During the war, the Civil Air Patrol patrolled our shores, and even though their planes were unarmed, their vigilance resulted in the destruction of enemy shipping. In peace time, they have guarded the borders of the United States and performed many errands of mercy.

In recognition of their services during World War II, the United States Government has awarded eight hundred twenty-four air medals to members of the Civil Air Patrol.

It is more than fitting that the citizens of Michigan pay tribute to the work of this dedicated group, which, in addition to its public service, is continuing to foster an educational program for youth in aviation.

THEREFORE, I, G. Mennen Williams, Governor of the State of Michigan, do hereby proclaim the week of April 22 to 28, 1956, as

CIVIL AIR PATROL WEEK

In Michigan, and urge all our citizens to recognize the great contributions to our nation's welfare that is being made by the Civil Air Patrol, and join in honoring this organization.

Given under my hand and the Great Seal of the State of Michigan, this twenty-sixth day of March, in the Year of Our Lord, One Thousand Nine Hundred Fifty-six, and of the Commonwealth the One Hundred Twentieth.

G. Mennen Williams
GOVERNOR

A volleyball tournament among Sanilac, Huron and Tuscola counties was held prior to the business meeting.

A dance followed the meeting and ice cream and cake were served.

Milton L. Phillips Now Submariner

Milton L. Phillips, fireman, USN, grandson of Mrs. Mary Cigan of Route 3, Cass City, was awarded Dolphins, emblem of a qualified submariner recently while serving aboard the submarine USS Volador.

The submariner's insignia derives its name from the two dolphins and the surfaced submarine which compose it. Dolphins are awarded upon completion of a comprehensive on-the-job training course during which one must learn the complete mechanical and electrical operation of a modern submarine.

Before entering the Navy in January 1955, Phillips graduated from Cass City High School.

City Association News

The 11th annual Cass City Bowling Association tournament, which ended April 13, was the most successful Association tournament ever held when twenty-four teams, twenty-seven doubles teams and thirty-nine singles shot for combined prize fees of \$428.50. Also, 32 men entered their names in the all-events prize fund pitting their three-event totals against each other for a slice of the cash prizes.

In the team event, the Brinker Lumber Jacks, sponsored by C. Croft of the Brinker Lumber Company, were crowned CCBA champions. "Chuck" Auten and Norm Huff teamed together for the doubles event and promptly rolled into first place to be titled CCBA doubles champions. "Ike" Parsch, putting on a great three-game spurge of scattering pins, found himself resting on top after all single entrants had finished firing at the maples. His effort gained for him the title of singles champion of the CCBA. George Dillman, with a tremendous doubles series of 713 pins, boosted his all-events score into first place to become CCBA all-event champion.

Following are the scores of the CCBA champions:
Team event: Brinker Lumber Jacks:
Musall 236 199 203 638

In addition to the cash prizes won for various positions, the above champions receive CCBA trophies as their reward to remember their successful efforts in the 11th annual CCBA tournament.

City League Bowling News
With the City Bowling League drawing to a close April 30, the third and final round of the season's schedule finds three teams in contention for third-round honors. The Kettlewell team,

resting in third place, has a mathematical chance of repeating as winners. The Musall team needs only to take three points during their next two league nights to finish on top in this final round. If they do this, then their problem will be how to win from the high flying Kettlewell squad in the roll-off for city league championship. Following are the standings of the twelve teams as of April 16.

WOMAN'S WORLD

New Cottons Promise Hours of Freedom For Busy Homemaker

GRANDMOTHER dreaded washing day, but today's homemaker will have hours of freedom from ironing if she selects new cottons for her family's wear. Not only are there crease-resistant materials, but soil-resistant finishes as well.

Add to this the class of little or no-iron materials, and you have some idea of how easily she can keep her family sparkling clean. The choice is wide as far as pattern is concerned, too. Everywhere there are stripes and checks, some printed, some woven. Colors tend to be sharp and clear, rather than muted. Textures are either very rough or very smooth.

Oriental Influence
One of the strongest trends of the season is Oriental. First of all, there's the true Oriental with de-

Bold and primitive with a strong Polynesian accent is this broad-striped print styled as a swirling skirt. The lining of the skirt matches the gold-colored lady-like blouse, the team shows how sport separates use the Oriental theme adapted to current casual fashions.

Signs inspired by old Chinese tapestries and art; the near-Eastern influence with traditional Persian motifs translated into modern color and scale; the third, the Oriental abstracts which have the delicate feeling and color of Japanese water colors.

Batik prints with a definite Polynesian influence are part of this Oriental trend.

With Oriental prints you also find styling in that theme. There are long coats with side-slit panels, snug-fitting knee length pants and the very popular sarong-type dresses. Make certain these latter carry a Sanforized label so they won't shrink; or the sheath will not fit after washing.

Prints Are Varied

From Italy come the medallion prints and clear stripes that echo the colors of the Mediterranean. These make up very effectively into the Italian styled shirts and skirt dresses that have become classics in almost every woman's wardrobe.

Floral prints are rhythmic and graceful with designs spaced widely over light or white backgrounds. Black is sometimes used, too. The florals are crisp, suggesting the sharp lines of an etching.

Conversational Prints

Here are prints to amuse, shock or tell a story. There's one which looks as though someone is trying out a giant new typewriter. From a distance the X's and Z's take on the look of a shadowy stripe.

Whittle Down Time Spent in Sewing

It's wonderful to find shortcuts for any of the routine things in sewing because you can use the time saved on careful detailing or on more things to sew. Amazing aids are available to women who do a great deal of sewing and they give pleasure as well as ease.

For example, those holes in socks that need darning rather than a few stitches can now be quickly and easily patched with iron-on patches for socks. If you have a lot of youngsters' socks every week needing care you can save from a half hour to an hour or more with this quick trick.

Few seams are basted any longer in sewing, but you still need to do a lot of pinning, don't you? There's a gadget which works much like a stapler which will do the pinning job as quickly and as neatly as imaginable.

Cutting Board

Heavy cardboard, dotted into one-inch squares has been fashioned into a cutting board which can be placed right on the table. You won't scratch the table when this is used with scissors or pins. In addition, the squares help in laying out the pattern and fabric, as well as in altering patterns, measuring or cutting on the bias.

Now you can cover your own buttons, too, with two piece metal molds. Simply cut the fabric to size, cover the top and snap back into place. It's much less expensive than having them made.

The want ads are newsworthy too.

Many people condemn themselves by revealing the faults they find in others.

HERE ARE THE FACTS ABOUT THE MILK STRIKE!

The ill-advised milk strike, in which organized labor endeavored to "take over" the dairy farmers of the Detroit milk shed, proved one thing: That labor union practices and the business of independent farmers don't mix.

It became evident from the start that the instigators were not striking the dairies for a higher price. They had, in fact, agreed with dairies they would take the prevailing market price for farmers' milk!

Instead, they directed their attack against the dairy farmers' own organization, the Michigan Milk Producers Association, which they aimed to control or destroy. In this attempt, forces within organized labor sought to capitalize on the economic plight of the farmer and exploited a minority group of farmers to their own ends.

There should be no misunderstanding the fact that MMPPA is a dairy farmers' cooperative, operated by the farmers, for the farmers, to cooperatively market their milk and protect their economic interests. It was the propaganda line of the strike leaders to mislead the farmers and the public in this respect.

The obviously false claim of strike leaders that they won a price increase was a part of this propaganda technique. Actually, nothing good for the dairy farmer resulted from the strike. Rather, only harm was accomplished, the seeds of dissension were sown, and the real issues and facts were wilfully misrepresented.

What Caused the Strike?

The strike stemmed from the ambition of a few within organized labor to control the Detroit milk market and to collect union dues from dairy farmers who ship milk to that market. To accomplish this, the strike organizers turned farmer against farmer in their drive to destroy his cooperative organization.

Who Were the Strike Leaders?

Major leadership and direction came from organized labor. Joined with these professionals were a former union organizer and a small group of dairy farmers who have consistently opposed the methods and policies of MMPPA and sought this means of imposing their will on the MMPPA membership.

What Were the Real Issues?

This was not a strike for a higher price for milk nor did it accomplish any economic advantage for farmers. The real issue was recognition of the so-called Fair Share group, organized labor's "front", for the purpose of dues collection and check-off. By this action, the strike directors sought to gain control of the assets and functions of MMPPA.

Who Won the Price Increase?

The bargaining power of MMPPA, carried out in an ultimatum voted at the March 28 delegates' meeting, was alone responsible for the price increase gained on April 1. The Class 1 price of \$5 would have been achieved sooner and without ultimatum if obstructionist tactics of strike leaders and others had not blocked price negotiations carried on by the MMPPA Detroit sales committee.

What Are the Economic Facts?

The increased price of \$5 per cwt. applies only to that portion of the milk used for bottling and fluid purposes. It is not a net price to the farmer, who must pay marketing and shipping costs. Only part of the milk can be sold at this price, the rest must be used for manufactured products at the prevailing market price.

Outside Milk a Problem

Another factor not to be overlooked is the deluge of milk which results in any market where a higher than average price prevails. Competition from outside the milk shed can cause havoc for regular producers, even to the extent of losing their market.

No one realizes more fully the serious problems of the dairy farmer than does the MMPPA, whose affairs are directed by these self same farmers. The present farmer price squeeze is the nation's Number One problem. It cannot be solved by mob action nor by looking for help from agitators outside the ranks of agriculture. They have their own axe to grind.
