Ordinance to Control Sewage Approved Tuesday

The village council Tuesday night approved a new ordinance to control the waste that empties in the sewer system in the village.

The ordinance was the result of some two month's work. An expert on the problem appeared before the council and pointed out the proper way to draft the ordinance.

The village has been bothered by certain types of waste from business and industry that Nelson Willy, who heads the disposal plant, says the plant cannot handle.

Prior to the new ordinance, which becomes effective immediately after publishing in the Chronicle, the village had no method of controlling waste in the sewer.

The new ordinance clearly gives the village that control and provides penalties for noncompliance.

The temporary plat for the second division of Hills and Dales subdivision was accepted by the council. It will include 12 lots and the hospital site. Plans are underway to run a six-inch water main to the hospital property.

Fire Razes Hawley Barn and Contents

A fire razed the barn and contents of the Leonard Hawley farm, six miles west of Cass City Thursday, Aug. 22. It was one of three blazes extinguished by the department on the same day.

The alarm was sounded at 8 p. m. Lost in the fire were some 50 chickens, 35 pigs, 200 bales of straw and 700 bales of first and second cutting hay.

Firemen reported that when they arrived at the farm the walls of the home and a garage were smoking from heat. They managed to save both buildings. Early Thursday morning a fire broke out in an automobile of Alvin McKee, Decker, about 100 feet from the fire station. It was extinguished by a fire extinguisher from the fire hall.

From the Editor's Corner

Editor's Note: This is second in a series of guest editorials on the Cass City Community Hospital. Today's article was written by Fred Pinney, who has been connected with it since its conception.

I am happy to comply with the request to comment on the community hospital situation, for I was quite close to the project in its earlier stages, and have always felt a very keen interest in its progress.

When the idea was just in the "talking" stage some 15 years ago, I think my interest and enthusiasm were first aroused because I felt it would represent a very definite step forward in the development of our community, and it was a large enough undertaking to present a real challenge to all of us. It wasn't merely something to absorb our excess energies for a few months, but it was going to call for some careful advance planning, and determined long-term concentration on the goal.

Efforts were to be made to raise funds when we all realized that nothing definite could be promised, especially in answer to the question most often asked, "When are we going to have our hospital?" As far as was known during those first few years, completion of the project might not be witnessed by our generation. The passage of time seemed to offer no good answer either, for prices and building costs skyrocketed far in advance of the growth of the hospital fund, and seemed only to add complications to the problem.

Until a year ago the fund was still less than \$100,000 but a nice sum to have accumulated. About that time efforts were increased considerably, not in general solicitation throughout the community, but by attempts to secure help from outside, from sources connected in some way with our community, from corporations, and from others here at home who might be able to assist in substantial amounts. Federal funds were available for a hospital in this area, but Caro was given preference as a location. When Caro failed to show willingness to raise their part of needed funds, Cass City was given assurance of such help from the government, amounting to about half the cost of construction, if we could meet the remaining costs.

That certainly was a step forward, but it also meant that the community had to furnish about \$400,000 for the total project was then estimated to involve approximately three-quarters of a million dollars. Six months ago it seemed to me this goal was beyond our reach, but the time limit contained in the federal government offer gave no choice except to make an effort. The accomplishments of recent

Council Looks for New Ice Rink Site

Mrs. Robert Richards of Cass City appeared before the village council at its regular meeting Tuesday at the Municipal Building to inquire about a skating rink for the village.

A skating rink was discussed late last winter by the council and at that time discussion centered around a permanent rink to be built this summer.

A location for the rink is perplexing the council at this time.

The only one suggested was at the school grounds. President B. F. Benkelman appointed Trustees C. R. Hunt, Warren Wood and Jim King to investigate a permanent rink with lights.

Other Business
The village sold its building on Tusco property that was formerly used as a pump house to Jerry Silson for \$25.

An agreement was reached for the Civil Defense to use radio equipment owned by the Civil Air Patrol. The equipment will be installed in the south room of the Scout Rooms over the fire hall.

The village signed the most advantageous contract in its history for maintenance of M-81 Tuesday. Last year the State Government paid 79.09 per cent of the cost. This year the agreement calls for 100 per cent reimbursement to the village.

Book of Poems of Former Resident Now Published

Bryan Buchanan of Port Huron, formerly of Sheridan in Huron County, has had a book of poems published by Dorrance and Company, Inc.

It is the second collection of poems by Mr. Buchanan whose first work of verse was titled "Grimy Men."

The new collection just released is titled "The Fiddle of Colm McLean." The poems are sometimes humorous and sometimes nostalgic.

A verse from one of the poems called "Downgrade" reads:

I have seen them come and I've seen them go,
For many and many a year,
They will sit and tell you
their tale of woe,
For the price of another beer.

From the poem, "The Store At Ivanhoe," a verse reads:

It's lonesome in the country,
But there's a place to go,
We still can meet the neighbors,
At the store at Ivanhoe.
No codfish box is open,
The cracker barrel is gone,
The folks who used to shoot
the breeze
Have long ago passed on.

A copy of the book is at the Chronicle and can be inspected by interested persons.

Chamber of Commerce Meeting

Fail to Decide New Store Hours

No decision was reached on whether or not to change evening opening hours from Saturday to Friday nights by the 23 members of the Chamber of Commerce that attended a special meeting Tuesday night at Parrott's Dairy Bar.

Opinion was divided among persons present and only 11 retail merchants, whom the change would effect, were present.

For this reason a meeting to come to a final decision will be held within two weeks at a site to be selected. All members present have been asked to see that two other members attend so that representation will be complete when the issue is decided.

After considerable discussion, the group plans to hold at least two and perhaps four promotions a year. The first may be a certified bargain day, it was decided. To complete plans, President Bernard Ross will appoint a four-man committee.

The evening hours for Christmas were also established at the meeting. Stores will open Monday evenings, Dec. 2 and 9, and Friday and Saturday evenings, Dec. 16 through Dec. 23. All stores close at 6 p. m. Christmas Eve.

Members present also saw a movie on shopping.

Shopping Center

Members also discussed a new shopping center in Cass City. In recent weeks a realtor has been in the community looking for a site. According to information disclosed at the meeting, the center will be either in Cass City or Caro. Some of the members felt that it would be better to have the new center here than in Caro.

Methodists Edge EUB for Title In Church Loop

The Methodists staged an uphill battle to win the playoff championship of the church league Friday night at the Cass City Recreation Park. They nosed out the EUB nine in eight innings, 13-12.

The game was marked by the wildness of both pitchers. Both Newell Harris of EUB and Charles Guinther of the Methodists had trouble finding the plate.

In one of the early innings, Guinther walked six men and the EUB shot into a commanding five-run lead and it looked as if they would upset the dope and win the playoff title after finishing third in the regular season.

The Methodists fought back and tied the score in the seventh. In the top of the eighth, EUB scored four times and most spectators thought that the trophy was all wrapped up.

But the Methodists staged a tremendous rally to score five times for the title. A costly error on a fly ball by the tying and winning runs on base cost EUB the victory.

The Methodists, which tied for the regular season championship with the Baptists, can make a clean sweep of all titles. The two teams were to have played Thursday night to determine the regular season championship.

The council accepted the low bid of Ideal Plumbing and Heating for the erection of the addition to the pool facilities. Tuesday night at the Municipal Building. The bid was \$2,298.

Three bids were received. M & M Plumbing and Heating bid \$741.68 for the plumbing work alone and Merritt Otis bid \$2,382.77 for the construction, exclusive of the plumbing.

The new building is being erected principally for public restrooms at the park near the picnic tables. A total of \$1,500 of the cost of the project will come from a fund established by Laura DeWitt to be used "for improvement of the park."

Two Pledges Help Swell Fund of Community Hospital

Two more concerns this week signed pledges for donations to the Cass City Community Hospital.

General Telephone Company of Michigan Wednesday handed Treasurer M. E. Auten a check for \$1,000 as first payment on their pledge of \$2,000. The company has agreed to pay \$500 in January 1958 and \$500 in January 1959 to complete their pledged obligation.

S. T. & H. Oil Company has also pledged a total of \$3,000 to the fund. The company has given in a previous drive a portion of the money. The money will be paid over a three-year period.

These and other contributions have swelled the fund to some \$324,000. A total of \$400,000 is needed to start construction on the building.

Gridders Report

Coach Mike Yedinak announced this week that all boys in grades nine through 12 who are interested in trying out for football this fall should report at the high school gym Saturday, Aug. 31. Boys will receive their physicals at 1 p. m. on that date, Yedinak said.

Auto Accident Loss Increasing Sharply Says Guest Speaker

Only a working protective partnership of 7,500,000 citizens of Michigan can curb a spiral of automobile accident loss which has risen 22 per cent in 10 years, Mr. James Judd, representing the Michigan Insurance Information Service, declared in an address to the Cass City Rotary, Tuesday noon.

From 1947 through 1956 Michigan traffic accidents have caused a paid insured loss of more than \$710,000,000, the speaker said. During those 10 years, he explained, accident exposure has increased 78 per cent. By contrast accident deaths are only up 19 per cent but accidents and injuries have almost exactly matched the increase in exposure, accidents are up 79 per cent and injury 77 per cent.

The increase in losses has been nearly three times the increase in accidents because of the greatly inflated costs which apply to each accident. Mr. Judd said that repairs of damaged

Tuscola County Republican Chairman Al Kukendall announced today that a Republican Party membership drive will be conducted in Tuscola County from Sept. 1-15. Results of the drive will be announced at a wind-up rally at Vassar on Sept. 23, at which Representative R. J. McIntosh will speak. Kenneth Baur of Cass City has been designated as chairman of the membership drive for the second district of Tuscola County, consisting of Elkland, Ellington, Novesta and Elmwood townships.

The County drive with a quota of 210 is part of a state-wide effort directed by Republican State Chairman Lawrence B. Lindemer to secure 20,000 dues-paying Republicans who will pay \$1.00 a month to support a year-around headquarters and staff. Republicans who sign up pay \$3.00 for their first three months dues and receive a "Republican card by mail from GOP state headquarters in Lansing. The state headquarters will administer the membership program and send "dues payable" notices to members each quarter after the initial drive by each county organization. Twenty-five per cent of the funds raised are returned to the member's home county under the program.

Heading the drive in the Cass City area will be Albin Stevens of Cass City.

Michigan Mirror News in Brief

By Elmer E. White
Michigan Press Association
Republicans are looking for a
candidate for governor.

A once-rich field of aspirants
in the party has been hit by
drouth and 16 months before
1958's November election there is
no one in sight.

Democrats have enough candi-
dates for two or three elections.
Gov. Williams at the moment

is expected to be a candidate for
another term. Since his re-elec-
tion in 1950, he has set a new
precedent for Democrats every
two years.

If Williams seeks a sixth
term, Lt. Gov. Philip A. Hart is
expected to run against Senator
Potter in 1958.

At the annual Governor's Con-
ference, Williams said he will
"run for public office, next year
and Hart would "fill in" for
whichever one the governor de-

cided not to seek.

Republicans, expecting a battle
from Hart or Williams to keep
Senator Potter in Washington
next year, would like a strong
state ticket to help.

Potter and others have sug-
gested Rep. Gerald Ford of Grand
Rapids. The offer was im-
mediately and politely rejected.

There has been talk of Rep.
Alvin Bentley of Owosso taking
a turn at the gubernatorial race.
Bentley has indicated he prefers
to stay in the House of Rep-
resentatives.

Some seers predict that by
1958, House Speaker George M.
Van Beursem (R-Zeeland) will
have picked up enough following
as a legislative leader to be-
come a candidate for governor.

Van Beursem shrugs off the
idea for now, content to serve as
the House spokesman for Re-
publicans and "work at one job
at a time."

Back in the field of potentials
is Rep. George Sallade, the out-
spoken young House member
from Ann Arbor. He has differed
often in the past with party
policy and rebuffed its strategy
in the House.

Sallade is a shrewd and power-
ful speaker, and he has put to-
gether one of the most strident
groups of critics in the party. Of
his own candidacy, he said he is
"a probable candidate."

Hart was chided late in the
last legislative session by Sena-
tor John P. Smeekens (R-Cold-
water) who, referring to Wil-
liams' statement that the lieuten-
ant governor would "fill in" in
1958, chided Hart publicly about
"always being a bridesmaid."

Hart retorted: "I have enjoyed
being a bridesmaid and I under-
stand that it is also very pleas-
ant being a bride. I have enjoyed
my role and I thank the voters
of Michigan."

Hart's departure for other polit-
ical arenas would bring the prob-
lem for Democrats of choosing
a successor as lieutenant govern-
or and presiding officer of the
state senate.

The party has months to make
the decision.

Names most prominently men-
tioned are Senator John B.
Swainson (D-Detroit), now in
his second term, and Rep. Ed
Carey (D-Detroit).

Both are minority leaders in
their respective chambers.

Carey, a candidate now for the
Detroit City Council, prefers to
stay near his family in Detroit.

after years in Lansing as a
legislator.

Swainson, a young lawyer, is
a strong possibility.

The State's fight against al-
coholism reached new high
points this year.

Under the state board of al-
coholism, two professional work-
ers operate the program on a
budget just less than \$400,000 a
year, using cooperation with lo-
cal government as the main
power.

Achievements last year show
that more than 3,000 people
heard talks given by the two
workers, and members of a
speakers bureau gave 131
speeches to 8,493 people.

Special reports on alcoholism
were sent to 3,169 physicians,
688 hospitals, and 383 public
libraries. Fifty scholarships were
awarded to schools of alcoholic
studies. Movies have been pro-
vided.

Under the treatment program,
266 alcoholics received in-patient
care and 190 out-patient care at
the Grand Rapids Alcoholism Re-
habilitation Center, which the
state helps finance.

The Jackson Information Cen-
ter gave counselling and medical
services to 104 alcoholics and 374
new patients received help from
the Detroit Mayor's Committee
on Skid Row Problems.

Pontiac and Highland Park
opened information centers and
10 other communities started al-
coholism programs.

Most people never think of
saving for a rainy day until it
starts to sprinkle.

BULEN TALKS Cars

FOLLOWING, PASSING AND BRIGHT LIGHTS

In the past we've talked a bit about safety, speed laws and the
testing of cars. But, as the old saying goes, the most important part
of a car is the nut behind the wheel. Bad driving, I've always felt,
comes more from not knowing the rules than from outright cussed-
ness.

For driving on the open highway the three
things that worry us most, I think, are how
closely should you follow? How much room
should you allow to pass? How can you defend
yourself from bright lights?

When the driving is good, the weather clear
and the highway fairly straight, the best rule is
to allow one car length between you and the fel-
low up ahead, for every 10 miles an hour of speed.
At 50 miles an hour, therefore, you should be at
least five car lengths behind.

At 60 miles an hour it takes at least 10 seconds to pass another
car and you should have at least 600 feet of clear, straight road
ahead. Keep in mind that for safe passing you need the length of two
football fields, a long, long way. (I'd sooner be driving, it than run-
ning it).

The rule on headlight glare is better known: keep your eyes on
the right hand side of the road. That keeps you on the road and
helps to keep the light out of your eyes.

And, of course, every nut in the car, except the one behind the
wheel, should be thoroughly tight. A sound, reliable car is not only
a big step towards safety in itself, it gives you, as the owner, a peace
of mind that brings happier, safer driving. That's why the cars on
our used car lot are tested, tightened and tried, before they're ever
shown to you.

If you haven't been in, we are glad to have "Silent Tom" Cottle
back at the Parts Counter. He will be glad to tell you the time of day,
weather outlook, or other, anytime in a few thousand well chosen
words.

Or, he could tell you why NOW is a good time to get the most
for your money in a new Chevrolet or Oldsmobile. Your Used Car
will never be worth more than right now. We actually need Used
Cars and Trucks. Our Stock is too low. Obviously under these condi-
tions we can allow you more. Won't you let us show you? Come in
and let us show you what we mean.

"Uncooked" Jam Easy to Make

Here's an easy, cool way for you to make jam. Impossible? Not so, says Mrs. Frances T. Clark, county home demonstration agent, who suggests you try making a batch of "uncooked" jam.

All you need is a quart of blueberries or two and 'one-half pounds of peaches, five cups of sugar, a package of powdered pectin and a cup of water.

Wash the fruit. Remove the stems from the berries or the pits and skins from the peaches. Crush the fruit and measure three cups of it into a large mixing bowl. Add the sugar and mix well. Let the fruit and sugar stand for 20 minutes, stirring occasionally. The sugar must be completely dissolved before you continue.

Now dissolve the pectin in water, bring to a boil and boil for one minute. Add the pectin solution to the fruit-sugar mixture and stir for two minutes.

That's all there is to it! Just ladle the jam into glasses (leaving one-half inch head space), cover and let stand for 24 to 48 hours or until the jam has set. Then cover with a one-eighth inch layer of hot paraffin. This will give you about nine six-ounce glasses of jam.

Uncooked jam must be stored in your refrigerator or freezer. You can keep it for several months in the refrigerator or a year in your freezer, but once you open a jar, you should use it within a few days.

If the jam is too firm or tends to separate when you open it, just stir it. No need to dread putting up jam, do it the cool, quick, uncooked way!

Nothing jolts a narrow-minded man more than being forced to admit he is wrong.

It's a lot easier to get a guarantee than to collect on it.

Home Extension Agent's Corner

Frances T. Clark
County Home Demonstration Agent

Now that Tuscola County Fair is over until next year, the home-demonstration extension groups will be settling down to their fall programs. The new officers for both the county council and the different groups take office September 1. I will be having officers' training for the different offices during the first two weeks in September. Each officer will be notified when she is to come to her officer training school.

The fall council meeting will be held on September 12 at 2 p. m. in the 4-H memorial building. The plans for the Christmas workshop for all project leaders are being developed. This year I have been asked to have an all-day meeting instead of a half day that has been allotted for the meeting in the past.

The Fall Festival of Style will be held on September 26 at Vassar High School. This year the council decided to have their fall rally in the evening. We are having a wardrobe furnished by Simplicity Pattern Company but local models will model the garments.

Choosing Pears

Now that pears are beginning to ripen, I thought you might like a few tips on this most delicious of the seasonal fresh fruits. The Bartlett pears have been designated by the United States Department of Agriculture as the plentiful-food-to-feature during the rest of August.

When you select pears, they should be slightly immature, then let them ripen in a cool, dark place. The flesh of storage-ripened pears is usually of fine texture, while that of tree-ripened fruit is often coarse.

The pears that are firm or fairly firm but not hard, free from blemishes, clean and not misshapen, wilted or shriveled, are generally of good quality. Pears that are soft or that yield readily to pressure at the base of the stem are usually mature and should be eaten right away. They are too ripe to hold for future use. Wilted or shriveled fruits may have been picked at such an immature stage that they will not ripen properly. Such pears are usually of poor quality and lack flavor.

Next winter your canned pears will add much to either lunch or dinner. They can be used in salads, as a simple dessert, in compotes, to mention just a few ways to use them.

No man is so blind as the one who refuses to see himself as others see him.

Meininger-Weltin United Saturday

Miss Marion May Meininger became the bride of Thomas Calvin Weltin in a double ring ceremony at St. Agatha's Church, Gagetown, Saturday morning at 10 o'clock before the altar decorated with baskets of white gladiolus palms and candelabra. Rev. Fr. Glenn Cronkite celebrated the nuptial high mass and Mrs. Raymond Tooley was organist and soloist.

The bride is the daughter of Mr. and Mrs. John Meininger, Jr. and parents of the bridegroom are Mr. and Mrs. Joseph Weltin. Given in marriage by her father, the bride wore a gown of embroidered tulle over satin, styled with a fitted bodice embroidered with iridescent sequins, a Sabrina neckline and wristpoint sleeves.

The bouffant skirt of tulle featured an overskirt of embroidered tulle. A lace shell held her silk illusion veil in place and she carried a crescent bouquet of white carnations, pink roses and ivy with streamers of lover's knots.

The maid of honor was Miss Deanna Grifka of Tyre. Miss Celia Naismith of Saginaw was bridesmaid and Mrs. Edward Bumhoffer of Elkton, bridesmatron.

Their gowns were fashioned of nylon tulle over medium blue and powder blue taffeta, styled with fitted bodices, scoop necklines, and brief capped sleeves. The full circular skirts of the gowns featured wide cummerbunds and back panels. Bands of net and pearls, with face veils, completed their ensembles and they carried cascade bouquets of pink carnations with lemon leaf foliage.

Jerry Messing of Forestville was best man and the bridegroom's other attendant was Edward Bumhoffer of Elkton.

Following the ceremony a wedding dinner and supper for the immediate family and a bridal party were served at the Arbelster Hall in Sebawaing and an evening reception was held for 600 guests.

Mrs. Meininger, mother of the bride, chose a pink lace frock with white accessories for her daughter's wedding. Mrs. Weltin wore a navy blue dress with black accessories.

Before leaving the church, the bride left a bouquet at the Blessed Virgin altar.

Mrs. Weltin, before her marriage, was a dental assistant for Dr. Francis in Bay City.

When they return from a wedding trip to Northern Michigan, the young couple will live in Tyre.

Reorganize Kitchen To Save Steps

Do your feet a favor and save them walking 18 miles a year in your kitchen. You may not realize it, but simple reorganization of food and equipment can save you 171 steps in preparing two meals.

Mrs. Frances T. Clark, county home demonstration agent, cites research that was done to see

how to make kitchen work easier and speedier. The solution to the problem is not a major upheaval in your kitchen or even remodeling; it's simply relocating food and equipment.

In the research done at the University of Wisconsin, it was found that almost all of the homemakers interviewed had to walk 650 feet or more to prepare two meals. After things were reorganized, they cut it down to 479 feet.

Mrs. Clark lists these suggestions as a result of the study to help you make your kitchen more efficient.

Store things close to where you usually use them first, some potatoes near the sink where you wash and peel them; saucepans at the sink where you put water in them before they go on the stove; and frying pans near the stove.

Have "extras" of inexpensive items that you use in several places in the kitchen, a set of measuring cups and spoons near the stove and another set near the mixer. Keep a small supply of flour near the stove for thickening gravies and sauces, but keep the main supply in the mixing center. Have salt at the stove, mixing center and dining center.

Keep all material you'll use on a particular job in one place, Mrs. Clark stresses. For example for frying fish, have the frying pan, flour, frying fat and fork close to the stove.

Pair United at St. Agatha Church

Before an altar decorated with baskets of white gladioli, potted palms and a candelabra, Theresa Elizabeth Enderle, daughter of Mr. and Mrs. Anton Enderle of Owendale, and Michael Patrick Catania, son of Mrs. Catherine Catania of Detroit, repeated their marriage vows Saturday, August 24, at 11 a. m. in St. Agatha Church, Gagetown. Rev. Father Isadore Mikulski of Cass City performed the double-ring ceremony.

The bride, given in marriage by her father, wore a white nylon lace over satin dress. The tight fitting bodice featured a Sabrina neckline with long sleeves ending in points over the wrists. The bouffant floor-length circular skirt featured ruffles of lace in the back which ended in a chapel train. Her finger-tip veil was secured to a band of iridescent sequins and pearls. She carried a cascade bouquet of bebe mums centered with an orchid.

The maid of honor, Miss Eleanor Enderle, sister of the bride, of Detroit and bridesmaid, Mrs. Vincent Cwakinski of Detroit, wore identical gowns of light blue chiffon over taffeta with scooped necklines accented by a dark blue taffeta drape with panels of the taffeta falling from the pointed neckline. They wore matching head bands and carried cascade bouquets of yellow bebe mums.

The bridegroom asked his brother John Catania to be his best man. His attendant was Vincent Cwakinski of Detroit. Seating the guests were the ushers, Tony Enderle, brother of the bride, and Conrad Neister, cousin of the bride.

Following the ceremony, a wedding breakfast for 75 guests and the bridal party was served by the ladies of the altar society in the parish hall. They also served the 6 o'clock dinner.

A reception for 200 guests was held at the home of the bride's parents. The decorations were white, pink and blue streamers and fall flowers. The table was centered by a three-tier wedding cake with lighted candles and flowers.

Mrs. Enderle chose for her daughter's wedding a beige crepe frock with brown and white accessories and Mrs. Catania wore a gown of rose lace with white accessories. Both wore corsages of white mums.

Mrs. Catina, before she left the church, presented a bouquet at the altar of the Blessed Virgin.

When the newlyweds left for the Camp Gordon Army base in Georgia, the new bride was wearing a white print dress with a white stole and white accessories.

Mr. and Mrs. Catania were employed in the office of the AAA in Detroit.

Guests were present from Massachusetts, Detroit, Flint, Gagetown, Owendale, Sebawaing, Pigeon, Bay City and Algonac.

EDITOR'S CORNER

months are almost unbelievable, for the fund now on hand locally, including pledges to be paid in 1958 and 1959, has reached a total of over \$300,000.

I do not want to give the impression that the \$100,000 still to be raised is only a small amount, nor that it can be raised without hard work, and actual sacrifices in many instances, but I no longer feel that it is impossible to do it "in our time." I want to urge every one of you to think seriously on the subject, try to realize what it can mean to future generations of our residents, as well as to ourselves, and then make your contribution and pledge when you are solicited, according to your means and the dictates of your own heart.

It has often occurred to me that we are a very fortunate people. The country in which we live may have its faults, perhaps greater or lesser according to your political beliefs, but it is probably the best place to be on the face of the earth. Our own community has much to be proud of, mainly because the generations who preceded us here were mindful of the future. Our fathers and grandfathers were determined to create something better for their children. We are all beneficiaries of this type of effort, and now we have the opportunity to show that we can and will carry on with the same spirit and determination.

I do not know the exact population of the territory which will be served by this new hospital. Perhaps Cass City alone has 500 families, and possibly as many as 1500 to 2000 families are within a 10-mile radius. I fully realize that the financial circumstances of all are not equal, but I truly believe the remaining funds needed to make this dream come true do not represent an impossible goal for that large a group.

I am sure that the citizens of today possess the same qualities and abilities that existed here 50 or 60 years ago. Think of all that it can mean, and let us carry this project through to its completion in the same manner and style that have been characteristic of former milestones of our community's growth.
