FANTASTIC FAN MAIL

Mr. Carter has all the luck.

Mrs. J. K. of Gallup, N. M., swallows one of his Little Liver Pills and is immediately overcome by an urge to write him a letter. The letter describes how indescribably pleased she is with his product.

Now we have lots of satisfied customers, mind you, but they don't often write to us. So the only way I can compete with Mr. Liver Pills in the field of unsolicited testimonials is to write some myself. Like this:

> Mrs. F. L. T. writes "Bulen Motors has wrecked my marriage. When my husband had his other beat-up old jalopy, he stayed home nights. Now he's out all the time in that wonderful, almost-new used car you sold him. If the price hadn't been so reasonable, he never would have bought it."

Miss T. K. M. writes: "Bulen Motors was a fe-saver for me. I was a jilted bride and was about to hurl myself under an oncoming truck

when I looked up. There on your lot was a simply divine car at an unbelievably low price. Right then I knew there must still be some lecent men in the world. I owe my life to Bulen Motors."

Mrs. H. P. writes: "I was raised as a spoiled brat. Money meant nothing to me — even after I was married. Then my husband and I went looking for a car to buy. When we arrived at your lot, I saw the prices. For the first time in my life I understood the true meaning of the term "dollar value."

(It's your move next, Mr. Carter!)

YOU ARE CORDIALLY INVITED TO COME IN TO SEE THE ALL NEW (and you'll agree) 1958 CHEVROLET CARS AND TRUCKS THURSDAY (31st), or ANY OTHER TIME, WE REALLY HAVE SOMETHING TO SHOW THIS YEAR, AND WE'D LIKE TO SHOW YOU. Whether you are in the market or not, we want you to see them. Come in and have a Coca Cola on us, see the biggest change in years. You'll be WELCOME.

TERMS: Usual terms. See clerk before day of sale.

AROUND THE WORLD

The 58 Ford has been proved around the world. This is the most dramatic and most grueling test ever given a new car before its public announcement.

The whole world was used as a test track for the 58 Ford. The car drove through England, France, Switzerland, Italy, Yugoslavia, Greece, Turkey, Iran, Afghanistan, Pakistan, India, Malaya, Thailand, Cambodia, Vietnam, and finally back to the place it started-Detroit, Michigan, U.S.A.

The Ford powered over the great, mountain ranges of three continents: from the Alps to the Himalayas and the Rockies. It crossed the great rivers of history: the Thames, the Seine, the Tiber, the Arno, the Tigris, the Euphrates, the Indus, the Ganges.

This car stood at Buckingham Palace, rolled up the Champs Elysees to the Arc de Triomphe, and paused at the Eiffel Tower. It was greeted by the great Paris couturieres at the famous fashion salons where its "sculptured in steel" styling was applauded by the most style-conscious audience in the world.

HONE 111

The 58 Ford rode smoothly down the rugged, beautiful seacoast of Tito's country, to a festival in Dubrovnik, and into Greece to Athens, where this newest classic met such ancient classics as the Parthenon and the Temple of Poseidon.

Into, Turkey: and the 58 Ford passed the great white lacework palaces of the Sultans along the Bosporus and the Golden Horn. Then the Ford went where few but nomads travel, up into the hot days and chill nights of the ancient mountains of Afghanistan. And thence along the route Alexander the Great followed with his chariots to cross the historic Indus river.

On and on the Ford moved, down into. the heat of mysterious India, through New Delhi to the Taj Mahal, and to the great pink palace of the Maharajah of Jaipur.

This great new car met the challenge of the monsoons-rains that for centuries have stopped all road movement throughout Indo-China, but didn't stop the 58 Ford. It drove on to Penang in Malaya, and then north to Bangkok.

Further on came Saigon, the Paris of the Orient, at the farthest tip of Southeast Asia. Finally, it powered across the great Rockies and plains of North America and back, at long last, to Detroit, Michigan.

The 58 Ford . . . has been proved and approved around the world. A natural question arises. Why did Ford go to such great lengths with its 1958 model? Why spend so much money and time and go through all the problems of negotiations, customs, border transit, diplomacy in so many countries?

The answer: in the competitive automobile market of today, only the best in all-around value can survive. And this round-the-world test is the most decisive possible demonstration of the best.

The 1958 Ford is value: hard-dollar value. It is also style, power, performance, and a dozen great new features. But above all. it is value.

This is the car you've been waiting for. See it November 7-there's nothing newer in the world than the 58 Fordi

WAS standing at the top of the steps of my plane remembering all the things they had impressed upon us in our training for stewardess-safety and comfort of the passengers come first -things like that. It was my first flight on this line and I wanted to do just the right thing-sort of a trial run.

The two young things coming 🕤 - Minute across to board J Fiction the plane looked

like a honeymoon couple. She had on a light blue suit and a little flowered hat covered with pink veiling over her blonde pony tail, and he had a flower in his navy buttonhole. Then suddenly a figure came dashing through the crowd and out through the gate, gesticulating madly for them to wait. He carried a cardboard shoebox and his dark curly hair was flying in the wind and rain. A fine drizzle had started and the girl came on up the steps out of it, and turned to look back. There seemed to be a great argument going on down there. Her boy-friend kept pushing the box back into the other

man's arms. "NO, NO, I won't take it. No. Nick, I don't want the thing." "But you must. It is the only way. It is our one chance-' The dark foreign-looking fellow gave the box one final thrust ir

at me apprehensively and then rushed into the plane, dragging the girl with him. I followed along curiously, making a pretense of helping them find a seat. He kept shifting the box nervously.

"Would you like to sit near the front or back?" I queried in my usual Hostess Voice. They chose the seat next the emergency exit front and long tapering wristin first. The thought flashed in 'cabin.

"I don't like it," I told him.

The man who is always busy

Michigan annually ranks among the leading producers of sand and gravel for construction work, industrial use and other pur-poses. In 1956, some 42,000,000 tons of sand and gravel were produced in the state—valued at more than \$37,000,000. In this photo, sand and gravel are being washed down from the sides of a pit in southern Michigan.
