Independents Hand Bad Axe First Cage Defeat of Season

Cass City's hopes for a championship in the Huron County Independent League remained alive this week after local cagers handed league-leading Bad Axe its first defeat of the season Thursday, 62-61, and posted an easy 106-53 victory over Elkton Monday.

Two clutch free shots with seconds to play by Don Tukey clinched the victory over Bad Axe at Cass City High School. Cass City now stands 7-2 in league play while Bad Axe is 8-1. To win a share of the crown, Cass City must have help from another team in the league.

Cass City walked off to a big opening quarter lead Thursday, only to see the Hatchets come back in the next period to take the lead. Cass City led at the end of the opening stanza, 20-13, and Bad Axe led at the half, 38-30.

After the intermission, Cass City again found the scoring. Concluded on page 10.

Saturday in Saginaw

Pupils Earn Judges' Praise at Festival

Cass City qualified three students for the state festival Saturday and earned the most favorable comments in recent years from the judges for their musical ability in the District Solo and Ensemble Festival at Saginaw.

Cass City was entered in 27 events. Band Director Ronald Phillips reported, and posted seven first division ratings, 18 second division ratings and two third division ratings.

Contestants are graded in one of five divisions. A first division is superior, the highest attainable. Second is excellent; third, fair; fourth, poor, and fifth, very poor.

First division ratings were earned by 12 Cass City students. Nadene Winters won top honors for her alto saxophone solo and Doris Orto was judged superior for her clarinet solo. Bill Dobbs' trombone solo was also given a one rating as was the drum duet of Craig Winters and Theresa McCormick.

Top honors were awarded to Carolyn Phelps, Joyce DeLong, Ivernia Toner and Virginia Gross for their clarinet quartet work and to Susan Shaw and Jane Bringardner for their cornet duet. Completing the list of first division winners were Susan Shaw, Jane Bringardner and Mary Lou Crawford, a cornet trio.

School's Curriculum Analyzed by Principal

How Does Local School Compare?

The answers to questions that nearly all area residents interested in local education have asked themselves were answered this week by Principal Arthur Holmberg at the request of the Chronicle.

Among them were: How do students at Cass City compare academically with students nationally? What are the strong or weak points in the curriculum offered? What is the percentage of Cass City High School graduates that go to college? What percentage enters as freshmen and never completes high school work?

Based on a scholarship qualifying test given seniors in 13,700 high schools in 1957, it is probable that Cass City is no better or no worse than the average.

Seated is Nadene Winters. From left to right are: Carolyn Phelps, Virginia Gross, Doris Orto, Joyce DeLong, Ivernia Toner, Craig Winters, Bill Dobbs, Mary Lou Crawford, Jane Bringardner, Susan Shaw and Theresa McCormick.

Cars Damaged in Accident Sunday

Cars driven by B. A. Calka, 36, of Cass City and Arne Tikkanen, 42, of Farmington were damaged Sunday in an unusual accident on Canboro Road in Huron County.

Mr. Calka was showing farms for sale to Mr. Tikkanen and had turned into a farm driveway. Mr. Tikkanen, who was following, was unable to stop and hit the rear of the Calka car.

The impact drove the Calka car across the driveway and into a ditch. Huron County Deputy August Teschendorf investigated and estimated damage to the Calka car at \$150 and \$200 to the Tikkanen auto.

Cass City Receives Highway Funds

Tuscola County's share of the fourth quarter collection of the Motor Vehicle Fund amounted to \$142,093.66, the Michigan State Highway Department announced this week. The money is divided among cities, counties, incorporated villages and the highway department.

Receipts for the fourth quarter were greater than those of the same period in 1956, authorities said. Total collections for the quarter in 1956 were \$40,964,602.79, while \$41,534,661.00 was collected in the last three months of '57.

Other area counties' shares in the collections were: Huron, \$134,411.26, and Sanilac, \$188,092.27.

Cass City's share amounted to \$3,605.63. Other area villages received the following amounts: Caro, \$6,211.36; Gagetown, \$1,228.63; Kingston, \$878.63; Owendale, \$1,048.37, and Uby, \$1,502.14.

Report Shows Welfare Cost Up in County

The annual report of the Tuscola County Social Welfare Department was accepted by the Tuscola County Board of Supervisors Tuesday. The report showed that costs for welfare increased during 1957 over the previous year.

Net expenditures, including value of food furnished by farm for the Tuscola County Nursing Home, increased from \$39,418.35 in 1956 to \$4,385.72 in 1957.

Cost per patient days increased from \$5.21 to \$5.31 and the cost of food per person, per meal was up from 16 to 18 1/2 cents.

Total patient days in the infirmary was 2,958 and total patient days in the nursing home was 18,335.

Following a trend in recent years, profit from the county farm was again reduced. Farm profit was \$30.89 in 1957 as against \$1,491.22 in 1956.

Because the cost of operating the county nursing home has been paid out of direct relief, expenditures jumped sharply during the year.

Total expenditures were \$61,222.87, as compared to \$39,000.03 for '56. Excluding the additional cost of the new policy of payment, expenditures for direct relief rose from \$57,729.44 to \$61,400.84. Slightly less was received in 1957 of direct relief cash receipts, \$18,657.42. In 1956, \$18,729.41 was received.

Net expenditures to general hospitals was lower in 1957. The total was \$27,946.50 as compared to \$29,670.33 for the previous year.

Administration costs increased from \$12,691.56 to \$13,902.73.

Supervisors were the guests of the Welfare Department for dinner at the nursing home. They were told that construction of the new county medical facility is proceeding well. Barring delays for material it is expected to be finished some two months before the completion date.

Scholarship Tests Open to Juniors

Principal Arthur Holmberg announced this week that the National Merit Scholarship tests given nationally this year will be given to juniors instead of seniors.

The tests allow students to compete for four-year scholarships. Besides giving students an opportunity for a scholarship, the tests have guidance value, Mr. Holmberg pointed out.

All students will receive a report of their scores. The results will enable students to understand their academic strengths and weaknesses and help them to plan their senior year.

It will also be of importance in deciding about going to college and in what courses of study they are most likely to succeed. Students must register at the principal's office before Mar. 20 and there is a fee of \$1 for taking the tests.

Hawks Top Bad Axe; Play at Marlette Friday

Cass City moved into undisputed first place in the Thumb B Conference Friday night when they defeated Bad Axe for the second time this year, 50-39, while Marlette was losing to Caro.

Continuing to show improvement that has marked their play in recent games, the Hawks went out in front in the first period and were never headed.

Bob Holcomb was named captain for the evening at Bad Axe and responded by leading his teammates to victory as he played his best game of the season.

His shots from outcourt while the Hatchets were in a zone defense on their small floor helped the Hawks into the lead.

In the first period, Holcomb netted eight points, all on shots from outside the Hatchets' zone. Bad Axe netted 10 in the first period and the Hawks were five points in front going into the second quarter.

The second period was even as both teams netted 10 points. In the third period, Cass City tacked the game away with a 15-7 advantage.

The team hit from outside and forced Bad Axe into a man-to-man defense. With the middle loosened up, Jim Johnson immediately hit for a pair of two-pointers and Mike Fritz chipped in with a basket and charity toss.

In the fourth period, Bad Axe posted a 12-10 advantage, but by this time the game was safely tucked away for the Hawks and Coach Irv Classman used most of the players on the bench in the play.

GETTING READY—Coach Russell Leeson hopes that his solid front wall will look as big to the Gavel Club players, coached by Lester Ross, as it does to him when the Gavel Club meets the Lions Club Thursday, Feb. 20, at Cass City High School gym.

Both of the clubs are confident of victory in the match that will be played before the regularly scheduled game between the Cass City Independents and the Air Base of Port Austin.

Coach Leeson says that he has several surprises in store for the Gavelites, if they get by the "big three" pictured here. Coach Ross hasn't announced any plans but says that the Gavel Club has the players and the "secret plays" that will win. Regardless of the winner of the game, the hospital fund will benefit as the profits will be split between the two clubs equally to help fulfill pledges.

Tight Supply Ups Feeder Cattle Price

Tuscola County cattlemen looking for more feeders can't expect them to be very plentiful until summer, declares Alfred Ballweg, county agriculture agent. Ballweg explains that slaughter prices are holding up well and midwestern farmers are hanging on to many feeders to use up big supplies of wet corn and sorghum grains. The recent demand for feeder cattle has pulled prices up \$2.00 from October levels. The agriculturist goes on to say that the movement of feeders has been much later this year. The number of feeders in the corn belt January 1, totaled 6,030,000—only 3 per cent below a year ago. Five per cent fewer cattle were on feed in Michigan and eastern corn belt states on the first of this year over a year ago. More cattle and calves under 600 pounds are on feed now than in the last two years. On January 1, slightly more than 1.5 million head were on feed in the 13 feeding states. About 12 per cent fewer heavier cattle were on feed on the January 1 date over a year ago. John Ferris, farm economist at Michigan State University, reports that cattle feeders in the 13 states intend to market fewer of the total now on feed in the next two months than they did a year ago. A heavy movement of fed cattle is planned after March, Ferris adds.

Tuscola County Health Department
Caro, Michigan
Attention: Mrs. Miller & Mrs. Grinnell
Dear Mrs. Miller & Mrs. Grinnell:
I am writing you in response to your recent request for information regarding Tuscola County patients receiving services here in the Clinic.
In 1956 we saw seventeen new patients in total of eight-hundred and thirty-four patients. These figures do not include occasional patients working in Tuscola County but residing in an adjoining county, or out of county patients visiting, or out of county patients staying in Tuscola.
The referred sources have been mostly physicians and local health and welfare and law enforcement agencies. Referrals have also come from University Hospital, Veterans Administration hospital at Ann Arbor, and a sprinkling from student health departments of colleges and university sites.
From a diagnostic standpoint most of these patients have had psychomotor reaction or personality disturbance. Some have been definitely psychotic with a few cases of chronic nature.
From a dollars and cents standpoint, it might be said that it is only one patient a year is helped to the extent that hospitalization in a state mental hospital is avoided.
I think you have accomplished a substantial direct saving for the county, thus far this year several patients have definitely been able to avoid hospitalization through clinic treatment.

However, the far greater value of outpatient psychiatric services cannot be accurately measured as we see represents the prevention of human suffering and family dislocation with its accompanying damaging effects to children.
These things will be accomplished in still greater measure as we see more and more patients with beginning disturbances and before they are at the brink of hospitalization. Tuscola County Health Department
September 27, 1957.
Thank you for your interest and your support of the clinic program.
Sincerely,
W. R. Bedore, M. D., Director

BULEN TALKS CARS

IT TAKES ALL KINDS

You've heard about the truth, the whole truth and nothing but the truth.

We in the automobile business have witnessed in the last few years an outbreak of wild advertising from, sadly enough, car dealers in larger towns. The advertising is certainly the truth but, as many friends have told us, not quite the whole truth.

We heard of a man once (no one around here of course) who told his wife "What are you mad about; haven't I always turned my pay check over to you on the first of every month?"

"Sure," said his wife, "but I found out you get paid on the 15th too."

Many of our friends have found that at the big, flossy car supermarkets they can get \$500 reductions on a new car. But, surprisingly enough (or really not so surprising) they find their old car is suddenly worth \$500, or even \$600, less than a fair trade-in value.

Or, what is more usual, their old car is valued for trade-in by a persuasive salesman at several hundred dollars more than they thought possible—always a very flattering thing. And then they find the price of the new car isn't quite as cheap as they had thought, and they have to buy a lot of extras and the whole deal is out the window unless they finance the car through the dealer.

Well, I like to sell cars too. But I'm old fashioned enough to think you can make money and friends at the same time. Our philosophy here has always been to make a deal with a customer so that he'll be pleased enough to come back next time.

That costs us money but it's worth it all round.

In my position I've been able to analyze some of the super-wonderful car deals offered lately. I've found our deals beat any terms I've ever seen. It's just that we use a little smaller type to tell you about them.

Option for Farmers Filing Income Tax

Farmers, who will shortly be filing a combined Federal income tax and social security return for 1957, are reminded that they have an optional method of reporting their farm income that no other businessman has, Fred A. Globig, Field Representative, at the Saginaw Social Security office announced today. Every farmer needs to keep accurate records to determine whether his farming operations are profitable and to help him prepare his income tax returns.

Only items that represent income from farming operations should be included on his social security report. Rental income when the landlord does not "materially participate" in the farm management and sales of dairy, breeding or work animals should not be included. Farm expense items including depreciation and taxes must be deducted from gross receipts in arriving at "net earnings from self-employment."

After arriving at his "net earnings," the law permits a farmer with a gross income of \$1800 or less to use either his actual net earnings or 2/3 of his gross farm income for social security purposes provided the gross is as much as \$600. If his gross income exceeds \$1800, but his net earnings are less than \$1200, he may report his net earnings as \$1200. This method may be used by farm partners as well as individual farm operators. It applies equally to farmers who keep their books on the accrual basis and those who use the cash method as well as farmers who use a fiscal year in reporting their farm income.

Change Needed in Drivers' Education

A "fresh look" at driver licensing is recommended by a member of Michigan State University's Highway Traffic Safety Center. He is Milo W. Chalfant, who also is associated with the University's School of Police Administration and Public Safety.

Writing in the current issue of the Center's monthly publication, Chalfant advocates a program of continuing education beginning before an applicant is given a license and continuing for the remainder of his driving lifetime. Chalfant believes that the licensing procedure should consider driver attitudes, knowledge, responsibility, reactions and qualifications. Potentially unfit drivers can be weeded out and given remedial schooling through such agencies as the newly-formed County Driver Safety Schools, Chalfant pointed out.

"New cars, new driving conditions and advancing age may require new degrees of driving skill and knowledge," Chalfant said. "Therefore if we are to reduce traffic casualties, we must provide an intelligent, continuing and effective program of training in order to reach all segments of our driving population. The modern automobile requires less muscle power and more judgment and responsibility."

While it is difficult to measure the responsibility of a driver in advance, we can measure the responsibility based on past performance, Chalfant explained. "We are learning every day that men drive as they live," he said. "Of course, much research remains to be done in this field but we do know that driver education should be integrated with the driver licensing program."

The value of money depends on the way people spend it.

Deadline Advanced For Signing for Corn Acreage

The deadline for signing for the acreage reserve program for corn has been advanced to Feb. 20, it was announced this week by Charles E. Eckfeld, county office manager of the Tuscola County Agricultural Stabilization and Conservation Committee.

Mr. Eckfeld said that the new date is the result of a heavier than expected sign-up in some areas.

It is expected that producers will participate to the full extent of allocated funds during the shorter sign-up period on a first-come-first-served basis.

Farmers who have not signed a corn agreement may do so until Feb. 20. However, at the present time all of Tuscola County's funds have been exhausted and late signers will only be considered if more funds are made available.

Conservation Reserve

Mr. Eckfeld also reminded farmers this week that the 1958 Conservation Reserve program has several new features. He advises farmers to come in and investigate the program before the April 15 deadline for signing.

Included are contracts for trees and shrub plantings for five instead of 10 years and many others.

The program is open to farmers whether or not they have an acreage allotment for "basis" crops.

THE BOY SCOUTS OF TODAY ARE AMERICA'S LEADERS TOMORROW!

More than 4,709,000 Cub Scouts, Boy Scouts, Explorers and Adult Leaders throughout the nation are observing Boy Scout Week, Feb. 7-13, marking the 48th anniversary of the Boy Scouts of America.

Boy Scout Week sees the launching of a year-long Safety Good Turn suggested by President Eisenhower, honorary president of the Boy Scouts of America.

In cooperation with the organization giving leadership in safety, the Scouts will promote traffic safety in March, April and May; outdoor safety in June, July and August and home safety in September, October and November.

THE TUSCOLA COUNTY DISTRICT can point with pride to achievements during the past years. The county has 22 active groups with 700 Cubs, Scouts and Explorers and 240 adults in scouting. In 1957, 104 Scouts and Explorers spent at least a week at Camp Rotary and 19 Scouts and Explorers went to the National Jamboree at Valley Forge, Penn.

CASS CITY CAN BE PROUD of its achievements in scouting. There are 42 Cubs, 51 Scouts, 12 Explorers and 26 adults actively engaged in the program. Sixteen boys attended Camp Rotary and six were at the Jamboree.

There were more boys in scouting in '57 than there were in '56 and a 15 per cent gain in total units.

The record reflects the interest of the area in scouting. The Scout program deserves the support of all citizens interested in the nation's future. We thank you for your past help and ask your continued support in 1958.

Do You Know Your Eggs?

Have you ever stopped to realize that Mrs. Hen's prize package is your prize package also? Eggs are a premium in flavor, nutrition and economy. The lower egg prices are welcome news at this time.

An egg for breakfast is a habit in many households. It's certainly hard to think of a better way to start the day than with a good poached egg, or fried egg, or soft-cooked egg. Economy-wise, the budget smiles at the value received for 4 to 5 cents. There's high protein, iron, vitamin A and riboflavin pre-packaged in an egg, plus a delicious flavor.

For the best flavor, select Grade A eggs. They come in all sizes, though large are the most abundant now. The color of the shell is unimportant and does not indicate quality. Eggs are graded for quality by "candling," a process that shows the grader the size and condition of the air cell and also the condition of the yolk and white. The grade goes lower as the egg becomes older; but more important than time is the storage temperature. Eggs stored at room temperature will lose as much quality in three days as they would lose in two weeks in a refrigerator. Cool and covered are a pair of C's to remember when caring for eggs. When storing eggs, point the small end down. Don't wash eggs until just before you use them. When first laid, eggs have a thin protective film, known as a "bloom." When you wash an egg, this removes this bloom and hastens deterioration.

Be sure to take it easy when you are cooking eggs, for high temperatures and long cooking may make eggs tough and leathery. When you bake and cook with eggs, you add the same food value to casseroles, desserts and salads as when you add an egg to your breakfast menu. If your little Susy resists scrambled eggs for lunch, trick the egg-a-day in a chiffon cake, meat loaf or raisin-muffins.

In addition to being flavorful and nutritious, eggs thicken custards and puddings, act as a leavening agent in cakes, add color, coats as in breaded meats, garnishes as in canapés and salad, binds as in meat loaves, emulsifies as in salad dressings, clarifies as in the preparation of consommé, or hinders crystallization as in candy-making. So you see, an egg acts in many ways to help you in your cooking.

If you have been wondering how many eggs will fill a standard 1-cup measure, here is a list for you.

	Large	Medium	Small
Whole eggs	4	5	6
Egg whites	7	8	9
Egg yolks	14	17	19

You budget-wise homemakers will be vitamin-wise too when you buy plentiful pork. Pork is rich in thiamine, a B vitamin which is important to growth. It also contributes to the proper functioning of the heart, muscles and nerves.

Michigan Mirror News in Brief

By Elmer E. White
Michigan Press Association

Republicans and Gov. Williams started the 1958 legislature session agreeing only that schools need money for new buildings and operations.

They disagreed on everything else. With a \$6,000,000 deficit in the current-year state aid fund, the legislature faces the task of raising that amount and an additional \$14,000,000 to maintain the \$190 per student formula.

"This is what we can promise the schools, but we can't do what Williams wants," said Senator Frank D. Beadle (R-St. Clair).

Williams proposed raising the state aid level to \$197 per student, tacking another \$30,000,000 load on the \$6,000,000 deficit this year.

The real fight over the two plans will come in the House of Representatives. The Republicans, with two votes to spare, were able to pass their version in the Senate.

They said the estimated \$20,000,000 shortage under the present system would be made up for the schools from the state general fund -- and therein lies another problem.

Finance leaders are predicting a \$5,000,000 deficit without any increases for next year, even before considering the school problems.

Williams and others in the legislature are proposing long term bond issues to meet the problems.

Republicans, pledging "no new taxes," are looking -- along with Williams -- for some way to keep the state from bankruptcy without increasing levies.

Rep. Rollo G. Conlin (R-Tipton) has proposed buying state liquor supplies on a 90-day credit basis, picking up \$16,000,000 to \$18,000,000 immediately.

Williams called this a "temporary stopgap" plan, but it became an "out." He quietly but quickly scuttled his \$20,000,000 intangibles tax proposal.

Republicans, remembering troubles in the past are pushing for their own version of the school aid program.

Schoolmen for years have fretted that the decision usually is delayed until spring and they are held back in making budgets for the next year.

Most schoolmen have expressed enthusiasm for the Republican plan, banking on the promise of \$190 per student as the basis for their negotiations this spring.

Another factor in the state's economic picture this winter was the rejection by the civil service commission of pay increases for state employees.

The commission was asked to grant pay raises ranging between \$11,000,000 including fringe benefits, and \$30,000,000.

Chairman James Moses, publisher of the Marshall Chronicle, announced that a majority vote rejected pay increases because state employees, he said, are receiving pay on "a good competitive scale" with similar jobs in business and industry.

The commission, however, said it would continue studying a proposed insurance fringe benefit, costing the state approximately \$1,600,000 a year.

The news cheered finance leaders in the legislature who were faced with a deficit, even before getting the traditional wage increases to meet.

Resort owners heard important news last week from Atty. Gen. Paul L. Adams.

He issued a ruling that regional tourist associations, while not actually a part of state government, could use tax money allocated to them by the State Tourist Council.

This preserved the advertising and promotion program which has placed the state among the top five in the country as tourist playgrounds.

Each of the four regional tourist groups receives \$100,000 a year from the state for promotion and advertising.

Years ago, the legislature approved the plan to allow each of the major resort areas to conduct its own program rather than running the entire system from Lansing.

Looking for Me?

Michigan's big bounding snowshoe hares are the winter targets for hunters in the state's north country. These "galloping ghosts" offer a real challenge for the pinner during the October-1-March 1 hunting season. The speedy and shifty hare makes good use of his big "snowshoe" feet to travel over drifted snow to the safety of thickets. Not all escape, however, and Michigan hunters bagged about 283,000 hares last season.

News from Tyre

A defeat by either of the two schools would snarl the race with the championship still in doubt.

In the past six years, there have been 703 pupils registered as freshmen and 449 who received diplomas. The figures may be slightly inaccurate, Mr. Holmberg said, because they do not include students who transferred to other schools where they may have graduated.
