

Novesta Township Joins Elkland Chest

Novesta Township has agreed to join the Elkland Township Community Chest this year for the first time on a one-year trial basis, it was disclosed after a meeting held Tuesday night.

So that Novesta will be represented in policy decisions of the organization, Rev. Howard Woodard was appointed a trustee. At Tuesday's meeting, the board also named officers for the year. Mrs. John Marshall will be president for 1958-59. Mrs. Robert Bassett is vice-president and Miss Irene Stafford secretary. William Ruhl will be treasurer. Grant Hutchinson and Ralph Gauer are trustees.

Both Mr. Hutchinson and Mr. Gauer were elected to the board's annual meeting Tuesday, Sept. 26. They replace Jack Esau and Chester Muntz whose terms have expired.

The board has completed plans for the annual drive. The kickoff dinner is slated at the New Gordon Hotel Thursday, Oct. 9, and the drive will be held from Oct. 13 through Nov. 3.

October Jury Panel for Circuit Court Drawn

Four men from Cass City are among the 35 jurors drawn to form the panel for the October term of Circuit Court in Caro.

They are: Joe Crawford, Ervin Parsch, James Milligan and Lloyd Reagh. Other jurors selected include: Ralph Harrington, Akron; Madeline Verchore, Unionville; Carl Mantey and Faye Putnam, both of Caro; Edna Sergeant, Birch Run; Mrs. Martha Russell, Unionville; Clarence McCoon, Kingston; Oscar Bauer, Reese; Herman Wenzel, Richville; Donald D. Monte, Caro; James Noble and Mrs. Merlin Partlo, both of Fairgrove; Roy Erb and Lester L. Hilton, both of Mayville, and Jack Dawson, Fairgrove.

Completing the list are: Clarence Donahue, Arnold Grice, Mildred P. Downing and Lee Miller, all of Caro; Willis Stoick, Vassar; Victoria Wolak and August Burmeister, both of Kingston; Alfonso Koeltzow and Orville Fahl, both of Milington; Walter Bickel, Mrs. John Birk, Mary Dabny and Thurber Chysler, all of Vassar; Robert Brown, Fostoria; Mrs. Ellen Habdas, Caro, and M. J. Hill, Fairgrove.

Average Bean Yield Set at 15 Bushels

About a third of the area bean crop had been harvested by Tuesday evening and yields were running from 10 to 20 bushels an acre, a local elevator reported this week.

George Fisher, of Frutchey Bean, estimated that the average yield was about 15 bushels to the acre. Most of the beans are of good quality and there has been little or no sprout.

Most farmers were hoping for a bumper bean crop this fall earlier in the year when the vines and pods were the best in many years.

However, lack of rain in a critical period just prior to harvest time resulted in many of the pods not filling with beans.

Cass City Band To Play at MSU Saturday

The Cass City High School Band will be one of 35 bands from all over Michigan who will play at the Michigan State University-University of California football game Saturday. Director Ron Phillips announced this week.

Some 2,500 high school musicians will be on hand for the fourth annual band day at MSU. They will be directed by guest conductor Howard E. Akers. The bands will play Mr. Akers' new march, "Michigan State." The Cass City marching band is scheduled to leave at 4:30 a. m. Saturday. Each band will perform individually for two minutes prior to the game. The Cass City band will play at 12:03.

Venita Marshall Recovering from Accident Injuries

After some five weeks in the hospital, Venita Ann Marshall, five, is rapidly recovering from injuries suffered in an automobile accident Aug. 15. Venita dashed in front of a car on Main Street and was unconscious for nearly a week following the accident.

Venita, daughter of Mr. and Mrs. Clarence Marshall of Mount Morris, was returned home from Grace Hospital in Detroit recently. She was transferred to the Detroit hospital after spending a week at Pleasant Home Hospital.

She was visiting at the home of her grandparents, Mr. and Mrs. H. J. Marshall, when injured.

Local Pair Helps Nab Dog Snatcher

Quick thinking by Dr. George Carrick of Cass City and George Jacoby of Deford resulted in the arrest of Walter Huelien and the return of a stolen dog to William Zemke this week.

The two men noticed a stranger pick up the German Shorthair bird dog belonging to the Zemkes Sunday afternoon. They noted the make of car and license number when they saw the dog taken into the car.

The State Police were notified and Walter Huelien of Inkster was found with the dog.

He appeared before Justice Ruth Tennant in Caro Tuesday afternoon. He pleaded guilty and was fined \$50 and costs of \$4.50.

Rotary Governor Visits Local Club

Rotary Governor Ronald E. Fischer of Bay City told Cass City Rotarians of the opportunity for service that every member of every club in the international Rotary organization has.

Speaking Tuesday noon at the New Gordon Hotel, he pointed out how the Rotary Foundation has provided advance education for thousands of college graduate students and how the program advances international good will.

He told members that to get the most satisfaction from club membership, it was necessary to participate in every club affair. Mere attendance is not enough, he asserted.

Mr. Fischer is touring each of the 32 clubs in his district in eastern central Michigan and conferring with club officials to point out ways each club can become more active in community club and international service.

Gavel Club to Sponsor Grid Tilts

For the second year, the Cass City Gavel Club will sponsor Junior Varsity and Junior High football games at Cass City Recreational Park.

First of the games will be Monday evening, Sept. 29, when the Junior Varsity will play Sandusky at 7:30 p. m. All Junior Varsity games start at 7:30 and all Junior High games at 7 p. m.

Other games this year are: Tuesday, Oct. 7, Junior High vs. Vassar; Monday, Oct. 13, Junior Varsity vs. Marlette; Monday, Oct. 20, Junior Varsity vs. Caro, and Tuesday, Oct. 28, Junior High vs. Caro.

AUTOPULSE PRODUCTION—One of the new machines installed at Walbro Corporation for production of the Autopulse Electric Fuel Pump is operated by Mrs. Kenneth Pallas. Watching Mrs. Pallas work are Lee Hartel, left, and Alton O'Connor, who supervise work on the new product. Autopulse is rapidly becoming integrated into the work schedule at Walbro.

At Walbro Corporation

Solving Problems Of Pump Production

Production of the Autopulse electric fuel pump is steadily increasing in Walbro Corporation as the company irons out production kinks in the manufacture of the pump in its new home at the Walbro plant in Cass City.

The division of Walbro that was transferred here from Ludington less than a month ago is rapidly becoming integrated with production of carburetors at the plant.

Production of the pump is steadily increasing. Two weeks ago the top day was 140 units. Last week production topped 400 units as more girls were hired and the process became familiar to employees.

Management of the plant lists several advantages of producing the pump in Cass City. One is that cost of supervision is less. Alton O'Connor and Lee Hartel are the men in charge of production and they have assumed the work in addition to their regular duties with carburetors.

Mr. O'Connor supervises the small parts division and Mr. Hartel is foreman over the assembly division. A basic machine line handles just six machine operations on the casting.

The amount of floor space required has been greatly reduced. In Ludington some 6,000 square feet were devoted to the process now done in 3,000 square feet in Cass City.

Two operations at the Ludington plant have been subject to other concerns. Punch press operations are completed in Vassar and plating is done in Tawas City.

In Ludington, some 40 girls were hired for production. About the same number will be hired here. However, production men in the plant said that they are striving for better methods of production so that 30 per cent less girls can do the work. Howard Bacon, in charge of the com-

Bumper Beet Yield Expected At Caro Plant

The Caro plant of the Michigan Sugar Company will open Sept. 30 and will begin accepting what is expected to be a record crop Wednesday, Oct. 1, Gilbert Smith, manager, announced this week.

The crop is expected to hit 150,000 tons this year, exceeding the next biggest year by some 26,000 tons, Smith said. Previous high for the Caro plant was 124,000 tons in 1947. The bumper yield is expected to average about 15 tons to the acre.

The plant has made two additions to the plant to handle the increased load. New this season is another pier for unloading and increased piling area. Another scales has also been added, Smith reported.

WSC Honors Mrs. Ulrey Tuesday

The Cass City Woman's Study Club served refreshments Tuesday afternoon at the home of Mrs. Floyd Reid in honor of Mrs. Glenn Ulrey, who is leaving the club and the community. Mrs. Ulrey, secretary, resigned following Tuesday's meeting.

Twenty-seven persons were greeted by President Mrs. Arthur Moore. A paper prepared by Mrs. Margaret Haire, "Famous American Churches," was presented by her sister, Mrs. Sadie Rolison.

Mrs. Rolison traced the history of many of the famous historical churches in the nation.

Plans were completed for a club trip to Midland Oct. 7 when members will have a luncheon at the country club and take a guided tour of the city's new churches and library.

New year books were distributed and rolls was answered by members reading letters of regret from friends around the state.

Mrs. A. J. Knapp thanked the club for the golden anniversary luncheon in her honor. Two members, Mrs. Rolison and Mrs. E. D. Keating, were accepted for club membership.

WSWS Meets At Gauer Home

Fifteen women assembled in the home of Mrs. Ralph Gauer on Houghton Street Thursday for the September meeting of the Woman's Society of World Service of the Evangelical United Brethren Church.

The program presented by Mrs. Ray Silvermail was centered in the theme, "Thine Is The Glory," and the lesson subject, "Glorifying in the Church of Christ." She was assisted by several members of the society.

At the close, the hostess served refreshments, Mrs. Lawrence Buehly and Miss Muriel Addison helping Mrs. Gauer.

The October meeting will be held in the home of Mrs. Fred Buehly with Mrs. Gauer as leader.

Hawks Top Clio in Grid Opener Friday

Showing plenty of offensive punch, the Cass City Red Hawks rolled for three touchdowns in the first half to top Clio in the grid opener for both schools, 25-20. A large crowd saw the free-scoring game at Cass City Recreational Park Friday, including a surprising number of fans who made the long trip from Clio.

The Hawks lived up to preseason estimates as they rolled along the ground for large gains and four touchdowns and then showed many defensive lapses that almost let Clio pull the game out of the fire.

Clio scored first as they took the opening kickoff on a sustained drive for the marker. Starting on the Hawk 42, they moved to the 31 from where seat halfback Bud Murdoch went 31 yards to score.

That was the final Clio marker in the first half as Cass City went to work to build up a commanding 19-6 lead by intermission time.

Starting on their own 30, Cass City ground out five first downs to move to the four from where the 70-yard drive was capped by Alex Lopez, who crashed over in two plays.

The Hawks started their second drive at midfield late in the first period. It was power football that again paid off for Cass City. Longest gain in the drive was 10 yards by Chuck Avril who also scampered the last seven yards

To Plan UNICEF Campaign Monday

Sidewalk Sale Pleases Everyone

Cass City's first sidewalk sale drew large crowds of Thumb shoppers Friday and Saturday. The sale was pleasing to most of the merchants, the shoppers and especially the children.

One tiny tot about four years old summed up the sentiments of all the kiddies when she clutched her mother's hand and looked at the rides located just off Main Street and exclaimed, "Mommy, I can hardly believe it!"

Old man weather smiled on the village during the sale days, as the sun shone brightly and beautiful, balmy weather prevailed.

Piles of merchandise lined the walks on either side of Main Street and merchants reported that the bargain priced items were quickly gobbled up by value-conscious shoppers.

The event was one of the periodic town-wide sales sponsored by the Cass City Chamber of Commerce for the benefit of shoppers and merchants.

Build Sewer to Hospital Site This Week

The sewer for the Cass City Community Hospital is now under construction and will be finished this week, William Schram, village engineer, said.

Because the hospital is located on a hill, the sewer will be the deepest in the village. The line is about 17 feet deep.

Meanwhile, the board of directors of the hospital announced that several persons who were contacted during the drive said that they would be able to give at a later date.

Persons who now can share in the cost of construction are asked to leave their donations at either bank in Cass City.

Coming Auctions

Saturday, Sept. 27—William Johnstone will sell cattle, dairy equipment, feed and machinery at the farm, six miles north and one and three-quarters miles east of Caro standpipe.

Tuesday, Sept. 30—Clarence Kern will sell cattle and dairy equipment at the farm, a mile south and three miles west of Pigeon.

Saturday, Oct. 4—Vern Krug will sell cattle and dairy equipment at the farm, two and a half miles south of Bad Axe.

Saturday, Oct. 11—Charles Christie will sell cattle, dairy equipment and machinery at the farm, five and three-quarters miles west of Kingston.

Churches in the Cass City area and the Cass City Chamber of Commerce will hold a meeting at Cass City High School Monday evening at 8 o'clock to organize a campaign for UNICEF Halloween night.

The planners hope to have children collect pennies and change for the UNICEF program. The money is given to the United Nations from where it is distributed in the form of supplies for needy children throughout the world.

Among the churches expected to be at the organizational meeting are the Cass City Nazarene, Assembly of God, Catholic, Baptist, Methodist, Presbyterian and the Evangelical United Brethren. Area churches participating will be Novesta Church of Christ, Mizpah and Riverside United Missionary, Fraser Presbyterian, New Greenleaf United Missionary, Novesta Baptist, Grant Methodist, Ellington Nazarene, Sunshine Methodist and Sutton Methodist.

Any other churches in the area not mentioned in the group are welcome to take part in the program, authorities said.

Each church is asked to have a pastor, two adults and a youth of high school age at the meeting.

Hospital Auxiliary Nears Pledge Goal

The first fall meeting of the Cass City Hospital Auxiliary was held Monday evening in the scout rooms. Members voted to pay another \$500 towards the organization's pledge to the hospital.

The group now has paid a total of \$4,000 of the \$5,000 pledge. Plans were completed for two fund raising projects. Members will sell fruitcakes and serve refreshments at a square dance.

Combined Church Prayer Service Slated Oct. 1

The annual National Day of Prayer will be observed in Cass City Wednesday, Oct. 1, authorities of the Cass City Council of Churches, sponsors of the event locally, announced this week.

The prayer service will be at the Presbyterian Church from 12 noon to 12:45 and will be conducted by pastors of three local churches: Rev. Ernest Robinson, Methodist; Rev. S. R. Wurtz, Evangelical United Brethren, and Rev. John Fish, Presbyterian.

Persons in charge pointed out that the service will be conducted so that persons attending can stay for a portion of the service and then leave if they are unable to stay for the entire period.

The service will feature hymns, scripture reading and prayer. National Day of Prayer has been set aside by President Eisenhower for a day of prayer, other than Sunday, as required by a joint resolution of Congress passed in 1952.

From the Editor's Corner

It may be that the Cass City area will see more campaigners in this election year than has been the case in many years. Already Governor Williams and Congressman R. J. McIntosh have visited the community. We learned this week from Democrat Harvey Linderman that Senator Humphries from Minnesota is also planning a political tour of the area.

These visits provide an excellent opportunity for voters to learn firsthand some of the problems of Michigan and the nation and a chance to become acquainted with the men that are responsible for our government. We hope that future visits by executives and legislators will result in a bigger turnout of citizens who should be vitally interested.

Charles Freshney celebrated his 80th birthday Monday in unusual style. He dressed in his wedding clothes including top hat, tails and bow tie and strolled down Main Street. The hat came from England and Mr. Freshney strolled Main Street after accepting a challenge from friends. Mr. Freshney proved again that you're only as old as you feel as he provoked chuckles and good natured jibes from friends and acquaintances in the village.

VISITS CASS CITY—Congressman R. J. McIntosh, center, visited Cass City Wednesday, Sept. 17, as one stop in his tour of the Seventh Congressional District in his mobile office. He uses the tour to determine constituents' desires in Congress and to discuss grass root problems in his district.

Slate Ram Day At MSU Monday

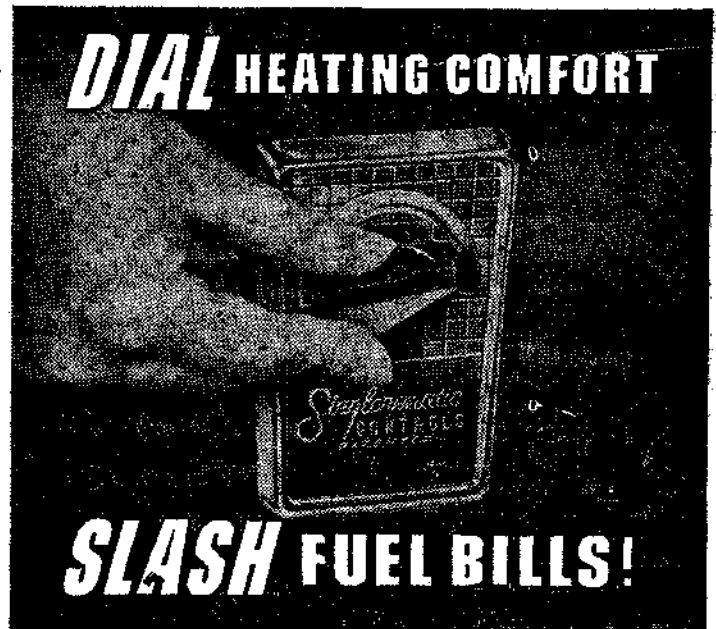

Many sheep raisers have found Ram Day to be a good place to buy a ram. This event will again be held at the Michigan State University livestock pavilion. The date is Monday, September 29, beginning at 10 a.m. At this time, leading purebred breeders in the state bring in their rams and place them in pens. Each ram will carry a tag giving its

age, weight and price. Buyers may select any ram they wish at the price indicated. Approximately 200 rams will be on display at this ram supermarket. All rams will be inspected before unloading and will have been dipped with lindane since September 1. The use of a good ram is still the best way to improve a sheep program and to insure a profit from next year's lamb crop. Don't pass up this opportunity to buy a good ram this year.

Like putting money in the bank...

Drinking milk is like putting money in the bank. Both are investments in future well being. And for health's sake, there is no better investment than milk.

Dollar for dollar—penny for penny—milk gives you more of the essential food elements than any other food. It takes 5 1/4 ounces of beef, for example, to provide the protein in a single quart of milk. It takes 39 eggs to provide the calcium in a single quart of milk.

If you're not providing for your future health, better start now. Drink at least three glasses of milk a day—every day.

BULEN TALKS Cars

YOU MAKE A DIFFERENCE TO YOUR GAS MILEAGE!

The other day, I was waiting for the traffic light to change. I was behind a young fellow. When the light did change, he was off like a race horse from a starting gate. You know, the way we drive has a lot to do with the kind of gas mileage we get from the old buggy. There are a lot of things we can do to get a little better mileage... and a few things that we tend to forget about that make a difference too.

Stops and starts tend to cut down your mileage in city driving... but you cut it down even more when you impatiently push the accelerator down when you are waiting for the light to change... and when you accelerate too fast you cut the mileage down even more.

On the open highway, the faster you go, the more gas you burn per mile... the car that gives 20 miles to the gallon at 30 will do well to give 15 at 60... and so it goes.

If you want more mileage from your car, be moderate in your driving habits... be patient at stops, don't force acceleration... and take it easy on the highway. Good mechanical care of your car helps, too.

Yes, good care of your car gives you better mileage... but for the best mileage you need a good car. We have some really good used cars on the lot right now. Cars that have been well cared for and that we have tuned up to perfection... all waiting for you and your driving pleasure. Come in now and look them over.

Or if you're thinking of a New Car? We still have a few '58s. Prices are going up. Your Trade-in will never be worth as much as Right Now. And, the 1958 Chevrolet the outstanding success of the year.

Come in and let us show you how little it will cost you to drive America's No. 1 Car.

Feed Roughage For Higher Profit

Cheap gains will be the key to a profitable beef feeding operation this season. High feeder cattle prices this fall mean a narrow operating margin.

For the lowest cost gains, Bill Finley, animal husbandry specialist at Michigan State University, recommends a planned feeding program which contains a lot of roughage plus some grain, reports Alfred Ballweg, county extension director.

A high roughage program also means more pounds of gain per acre. Corn put up as silage can produce up to 1,300 pounds of beef per acre. But a corn crop harvested as dry grain will produce only about 700 pounds of gain per acre.

Finley suggests that younger and lighter cattle be fed about one pound of grain along with the silage and hay the first four months of the fattening period.

The grain content of the ration can be boosted to one and a quarter pounds per hundred pounds of live weight after four months. During the last 90 to 100 days, feed about two pounds of grain per hundred pounds of live weight.

If cattle are getting to eight pounds of fairly good quality legume or mixed hay during the first part of the feeding period, Finley says they probably won't need extra protein. After four months about one pound of at least a 32 per cent protein supplement per head per day will help push the cattle along.

Plan to wind up feedings about two pounds of supplement per head per day during the last 90 days of the feeding period. The extra supplement will improve feeding efficiency and add bloom and quality to the cattle.

Finley adds that it may pay to feed a high level of antibiotics the first five to seven days the cattle are in the feed lot. The antibiotics will help the feeders ward off illnesses while they are getting acquainted with their new quarters.

Slate Special Races At Owendale Track

Two special races have been scheduled at the Owendale Speedway this season, track authorities announced this week.

The annual 100-lap season championship will be run Saturday night when the top 30 qualifying cars will compete for three trophies and prize money.

Drivers from the Cass City area expected to qualify include Chuck Holm, Bob Smith, Adrian Hutchinson, Lyle Truemmer and Dean Rabideau.

Sunday, Oct. 5, racing for the season will be concluded with a state championship for old model stock cars at the Owendale track. Local drivers will be competing with the best in the state for the coveted state title.

When you're cleaning and rearranging things in closets or cupboards, be sure you do some sorting. You may be wasting storage space on items no longer needed or used. Throw them away or if you "must keep them" put them in the less convenient storage areas, suggests Eunice Pardee, extension specialist in home management at Michigan State University.

MICHIGAN MIRROR NEWS BRIEFS

By Elmer E. White
Michigan Press Association

Delinquency among the teenagers of the new rock and roll generation is creating new ripples of alarm among the men who make the laws for Michigan. Muggings, stuggings, robberies, car theft, vandalism -- and a chuckle at the rules society lives by: all are too common for comfort.

The problem arose in other generations. Though the case now may have different roots, the problem remains.

A special legislative committee headed by Rep. Harry DeMaso, of Battle Creek, is studying blunt testimony from shocked adults in an effort to develop new controls over the young.

Probate Judge Lee Mallison of Battle Creek suggests a form of "communal living" for teen-agers in trouble. It would be established in their hometowns but out of their former environment.

Mallison, who agrees that all officials who work with youths share his views, said part of the blame is the attitude of leniency toward youngsters nowadays.

"A social worker, a veteran in the field, told me a boy shouldn't be treated harshly because he only stole a car," he said. "This worries me and I believe it would worry the state."

Dr. James J. Brennan, of the Michigan State University Police Administration department and a former New York police veteran, has views similar to Judge Mallison's.

Four major factors in the upbringing of a child share the blame if he goes wrong, Brennan said.

They are the family -- the basic unit of society --, the church, the schools and the community.

If all four are working together and approach their top efficiency, juvenile delinquency is unlikely.

"Families have the first responsibility. From the day a child is born, there is the influence of the home to protect and guide him. Those with happy families rarely get in trouble," Brennan said.

Schools have the child in a captive audience for at least 12 years.

Churches have the responsibility for the moral tone of every-

child's character.

Those are recognized waypoints in the process of growing up. Dr. Brennan proposes fourth, the community which can -- if it will -- control the vice, the type of magazines on the newsstands.

Another judge, Vallie W. Dussia of Monroe, proposed a system of camps, similar to the depression-era Civilian Conservation Corps (CCC) program.

This would be aimed at separating youngsters in trouble from their environment and the influences that created their problems; give them constructive work to do.

Judge Dussia said he would appoint a special committee of probate judges to study the problem and come up with recommendations for such a program.

This proposal brought up another problem -- the state law which bars youngsters between 14 and 18 from working unless they get special permits from the state labor department.

Youths 14 and 15 years old cannot work after 9 p.m., or before 7 a.m. and 16 and 17-year-olds cannot work after 10 p.m. or before 6 p.m. Work in certain jobs is banned before 18.

The law wobbles between the too-severe and the too-lenient for teen-agers.

The really tough juvenile delinquent under 17 often can get off with a lecture from a serious crime, but the 17-year-old who makes a minor mistake can go to prison with his elders.

Strict laws can send a boy to prison for several years when, the experts agree, a six-month stay in jail could do more to teach him the error of his ways and salvage a life.

Michigan has 21 offenses for which the offender can be sent to prison for life. Generally, the crimes against property are punished more severely than the crimes against other people.

Legislators are considering a number of proposals.

The 1959 legislative session is expected to see proposals for a work camp plan, similar to Camp Pungsley for probationers near Traverse City, a new family court system and a revision of the state's penal code.

Meanwhile, the first work on a new \$12,000,000 Boys Vocational School is underway.

One way or the other, Michigan is attempting to meet the problem of juvenile delinquency again.

Men who sympathize with themselves have outlived their usefulness.

Many a man has been taken by his friends while he was keeping an eye on his enemies.

Most every man has his price -- but in most cases the denominations of the currency differ.

The first project leaders' lesson, "Entertaining Graciously," will be held at the Detroit Edison building from 12 noon until 4 p.m. -- Section I will have Thursday, September 25, while Section II will have September 26 (Friday) for their lesson.

The first of the special interest lessons for project leaders will be held October 1 and 2 (Wednesday and Thursday) at 1026 Agar Road, Caro, from 10 a.m. to 3:30 p.m. Section I will have their lesson on October 1 and Section II on October 2.

Since school has started, do you sometimes feel "stumped" for ideas for school lunches? First of all, how about varying the kind of bread you use. You will find about 25 different kinds of bread in your grocery store from which to choose. Bread which is not sliced might be better for desired thickness of slice and costs less than sliced bread. Also, you might find day-old bread just right texture for sandwiches. Usually this bread is reduced in price, so, over a period of time a

considerable savings could be made.

How many of you have tried brown bread with cream cheese? Or, when watercrust is in season, it is delicious chopped and mixed with cream cheese.

Other combinations with cream cheese children particularly would like and enjoy are: chopped cooked dried apricots or prunes, chopped crisp bacon and pickle relish chopped dates or figs with peanuts and chopped stuffed olives and celery. Peanut butter is always a child's favorite, yet it can be varied by adding crisp bacon and apple, or chopped crisp bacon and catsup.

When you buy a roast, you may wish to purchase a large one purposely to have meat to use for sandwiches. It could be used sliced or ground with different seasonings added and will cost less than prepared meats.

Time which is so important that early morning rush can be saved if you use the freezer part of your refrigerator. Make up a quantity of sandwiches to freeze. Then simply pack the frozen sandwich in the lunch box and it will thaw in time for lunch.

To freeze sandwiches, spread each slice of bread with softened butter or margarine. Avoid using mayonnaise, salad dressing or jelly because these will all soak into the bread. Leave out lettuce, celery, carrots, tomatoes and similar foods, as they will lose their crispness when frozen. Chopped hard-cooked eggs freeze better than sliced hard-cooked eggs.

Wrap the sandwiches individually in freezer food wrap, tape, label and freeze.

Final Rites Held For Frederick E. Darbee

Funeral services were held Thursday at Little's Funeral Home for Frederick E. Darbee, who died Sept. 15 following a heart attack. Rev. John H. Fish officiated. Burial was in Almer Cemetery in Caro.

Mr. Darbee was born in Caro July 16, 1915. His parents were Mrs. Helen Ludiman Darbee and the late Frederick W. Darbee.

He married Miss Eldora Russell Dec. 24, 1940, in Gagetown. They lived in Bay City where he was a trucker for Refiners Transport until 10 years ago, when they moved to Elkland Township. He then trucked for the Galen Wilson Petroleum Co. in Saginaw until his death.

Surviving are: his wife; three brothers, Donald and Willard, both of Caro, and Raymond of Oklawaha, Ill., and his mother.

Commissions are not paid on arguments won, but on sales made.

A man must have lots of will power to save himself from himself.

there's always plenty of hot water

the new electric water heater way

GET IT HOT... GET A LOT with a new electric water heater! No more waiting for baths. No more rationing shower-time because you're low on hot water.

Thanks to Edison's Super Supply Plan, a new electric water heater is always on the alert--day or night--to supply hot water for all family needs. There is no "off" period.

Here's the convenient, modern way to **GET IT HOT... GET A LOT** for an operating cost as low as \$3.88 per month.

Only electric water heaters give you all these important advantages:

- Efficient--the heat goes into the water
- Fast--new, more efficient heating units
- Install anywhere--need not be near a chimney
- Outer shell--cool to the touch all over
- Long life--meet Edison's rigid standards
- Edison maintains electrical parts without charge
- Automatic--all the time
- Safe--clean--quiet--modern

A PRICELESS GIFT TO YOUR FAMILY

AUTOMATIC OIL HEATING WITH A WINKLER FORCED WARM AIR FURNACE

No single purchase you might make could bring your family as much real pleasure as automatic oil heating. And no other warm air furnace can bring you all the exclusive features incorporated in a WINKLER. It holds the temperature at whatever level you like... its efficient filtering takes out dirt, dust and lint, everything stays cleaner... and it puts an end to those dreary, endless trips to the basement to fire the furnace.

WINKLER'S exclusive corrugated all-steel heat exchanger, plus the famous Low Pressure Burner, is the secret of its amazing economy. In many cases it will allow you to heat for less than the cost of hand-fired coal.

WINKLER furnaces are basement beauties. Handily sized in heavy gauge steel with durable baked-on enamel, these furnaces are available in basement, vertical and counter-flow models in a wide variety of sizes.
