

## Form Planning Commission for Elkland Township

The Elkland Township Board established a planning commission Thursday night when a five-man board was formed to study the future needs of the township.

Elkland is the second township in the area to form a commission. Serving on the board will be President Alfred Goodall, Clair Tuckey, Grant Hutchinson, William Bliss and Secretary John Marshall. Mr. Marshall is also a member of the township board and will report activities of the commission to township authorities.

It is expected that the new board will work closely with the Cass City planning commission and will probably receive advice from Vilican and Lehman, the village's planning consultants.

## Reese Man Pleads Guilty to Exposure

Vern Inman of Reese pleaded guilty to indecent exposure Wednesday, July 29, in circuit court before Judge T. C. Quinn.

At first he asked for an attorney but later asked to return to court without consulting an attorney.

A presentence investigation was ordered; sentencing will be August 12. He was remanded to the custody of the sheriff.

His only previous arrest was for the theft of a tire from a gas station in Mayville. He was tried and sentenced by Justice Ruth Tennant to 10 days in jail and ordered to pay a fine and costs of \$32. He served and paid.

Also in court that day, Enid Threhouse of Vassar was granted a divorce from Edgar Threhouse of Pigeon. Mrs. Threhouse received custody of the children and alimony of \$20 per week. A property settlement was approved.

## Little League Award Picnic Scheduled

The second annual Little League award picnic will be held Saturday, Aug. 8, at the Recreation Park. It will be a potluck affair with parents who have boys on the following teams and are requested to bring the following:

Tigers - each parent bring a cake.  
Yankees - baked beans.  
Cubs - relishes, potato chips.  
Pirates - potato salad.  
Giants - mustard, ketchup and onions.

Also, each family should bring their own table settings and hot dogs.

Every member of the family is invited to attend. The program will begin at 6 p.m.

## Rescue Urquhart After Night on Saginaw Bay

Unestimated damage was done around 7 o'clock Saturday night when the 27 ft. steel fishing boat, the Sea Dipper, owned by Leonard Urquhart, was blown on the rocks at the west side of the breakwater wall of the new harbor at Port Austin, tearing a hole in the hull.

Because of the rocks and darkness, the Coast Guard could not get near the boat that night, but rescue operations started around 5 a.m. Sunday.

The Huron County sheriff's department used their "duck", an amphibious vehicle, to pull the boat off the rocks and the Harbor Beach Coast Guard towed it into Bird Creek, where it is "strung up."

Mr. Urquhart reported the rudder broke and when the anchor did not hold, the Sea Dipper blew on the rocks. He was alone at the time and had to spend the night on the boat.

He has had the boat four years.

BEEES ALSO SUFFER from the heat explains the hives in an attempt to cool off. Mr. Crowther, Herman Crowther, veteran Cass City beekeeper, has a complete bee operation here and in Florida. as he watches his bees hanging from the side of (Chronicle Photo)

## BEEsness Good Says Vet. Apiarist

Over 50 years ago, a teen-age boy in Ohio became interested in raising bees because his grandfather had a hive, so he obtained two hives of his own and went into business.

He later left Ohio and went to Idaho for 12 years, back to Ohio for 20 years and has now lived in Cass City for 20 years, raising bees wherever he went.

Herman Crowther, the boy grown up, now has a bee business not only in Cass City but also in Florida.

Scattered over two dozen Cass City area farms are hundreds of hives belonging to Crowther. The bees have a two-fold purpose, fertilizing the clover and alfalfa and making the honey.

The hives consist of wooden boxes, called supers, piled on top of each other. In the upper boxes is a layer of wax combs while the lower supers are the brood boxes where the queen lives and the young are raised.

Anywhere between 50 and 7500 bees can live in one hive. Seldom do bees move out of their home unless they are crowded. Consequently, to insure against crowding, the beekeeper makes sure enough supers are added.

If a cluster of bees do start to swarm, the limb they are swarming on is cut down and the bees shaken off in front of a hive. They usually enter immediately, glad to have a home.

The United States average per colony is 40 pounds of honey per season, depending on the weather conditions. This season will be exceptionally good, according to Mr. Crowther, and he is expecting to get at least twice that amount.

Honey is gathered from the hives 2-3 times in a normal season. Sometimes it is left in the comb but Crowther separates it by putting in into a centrifugal extractor and spinning the honey out.

It is then clarified by letting it settle in large, three-compartment vats. Between each compartment is a plate called a baffle plate, under which the honey flows, leaving the remaining wax and impurities in the vat.

The clarified honey, drained off through a faucet in the end of the third vat and put in cans, is ready for the market.

The wax is melted down on a steam table and hardened into solid blocks which are shipped back to the factory, reprocessed and made into more combs.

"Beekeeping in Florida is basically the same as in the north," said Crowther. "The one major difference is that the bees are not as hard on the bees as they are in the north."

## From the Editor's Corner

Another step towards the best planning for the Cass City area has been completed with the formation of a planning board by Elkland Township.

Still of primary concern for the most advantageous planning for the entire area, according to George Vilican, Detroit planning expert, are the townships of Greenleaf and Novesta.

Future growth of our area makes it highly probable that it will only be a matter of time before these townships will be almost forced into planning and zoning regulations.

Every qualified expert says that the best and by far, the cheapest time to plan is before growth occurs. . . pennies now will do the work of dollars later.

Residents of Novesta and Greenleaf should be as concerned with what the area they live in is going to be like 10 or 20 years from now as are the residents of Elkland and Evergreen townships and Cass City which are doing something about it.

Prosperity means more money and more money means more cars on the road, the Michigan State Police report. And for that reason fatal accidents on the highways have increased for four months in a row . . . a reverse of Michigan's unrivaled good safety record of the last three years.

Motorists should keep these statistics in mind when they take to the highways for the twilight of the summer vacation period, always one of the most hazardous.

## Class of 1949 Holds Its Tenth Year Reunion

The class of 1949 held its class reunion at the high school Saturday with 42 members and their families attending, making a total of 73.

The ladies of the Novesta Church of Christ served a dinner after which each class member introduced himself and spouse and gave a short resume of their activities for the last 10 years.

The member who traveled the longest distance, from New Jersey, was John Douglas and wife while Mrs. Peggy Phillips Regnerus had the largest number of children, seven.

The planning committee consisted of James Wallace, Mrs. Harold Little and Elwyn Helwig, Cass City, and Mrs. John Lockwood of Caro.

At a short business meeting officers were elected. Don Karr is president; Mrs. Jeanette Fredricks Neu, vice-president; Mrs. Joan Atkin Little, secretary, and Mrs. Maxine Aggar Siskler, treasurer.

Members of the class present were: Mary Novak, Peggy Phillips Regnerus, Jim Wallace, Bruce Little, Don Karr, Elwyn Helwig, Don Loomis, Charles and J. D. Tuckey, John Douglas and Harry Willard.

Also attending were: Mr. and Mrs. Harold Little (Joan Atkin), Concluded on page eight.

## Library Receives Many New Books

Among the 18 books received by the Cass City and Elkland Township Public Library August 1 is the best seller, "The Status Seekers" by Vance Packard.

Also included is Pat Boone's book, "Twist Twelve and Twenty," for the younger set.

Two of the books are for the first and second grade children and two, "Hello Alaska" and "Michigan," for the fourth graders.

In the adult class are two new westerns and four fiction titles: "Lorena" by Frank Slaughter, "The Ugly American" by Lederer and Burdick, "The Outsider" by Myron David Orr and "The Bride of Pilate" by Esther Kellner.

## Coming Auction

Saturday, Aug. 8—Hazen Brown will sell cattle and machinery at the farm, three miles east, a half mile north and a quarter mile west of Cass City.

## Mrs. Little, Long Time Librarian

## Library Exists For Pleasure

"The Cass City and Elkland Township Public Library is primarily a library for entertainment, not reference. We try to have all the books on the best seller list," said Mrs. Arthur Little, the librarian of 10 years standing.

"When a reference book is needed or a patron wants material we do not have, I get it for them from the state library," she added.

This helpful attitude is one adapted by the library toward all of its over 700 registered patrons, making the Cass City Library a pleasant place to keep posted.

The library was started by the Woman's Study Club and later turned over to the village. Now it is supported by the village, township and some state aid.

Mrs. Little estimated that over 7,000 books a year are checked out and that the library has a collection of approximately 4,000 to 5,000 books. In addition, it subscribes to 20 of the most popular magazines.

Recently, a library branch at Walbro has been added and is reported to be doing very well.

The library books are divided into six main classes: fiction, nonfiction, western, youth, children's and mystery. All are indexed by author and title, not subject matter.

Since the library space is limited, it is filled to capacity and Mrs. Little is constantly culling the books out and sending the oldest and least read to the Salvation Army.

For this reason, book donations are not accepted anymore, whereas they previously were. On the subject of cash donations, Mrs. Little laughingly said, "I've never had the opportunity to accept or reject a monetary donation."

The library is open 14 hours a week. It is required to be open 10 hours a week to receive state aid.

The library board, the governing body, is made up of three representatives from the township and three from the village. Purchasing is done by the librarian.

## Swim Carnival Ends Recreation Program Friday

A swimming carnival was held at the Cass City Recreation Park Friday night to close the summer recreation program held at the elementary school and the park.

The first contest held was an innertube race. Lynn Haire was the girl's winner and Franky Holes won the boy's race.

The next class was a contest for nine to 11-year-olds swimming the length of the pool. Kathy Pink and Eugene Nicholas won the girl's and boy's classes, respectively.

The last event was an innertube free-for-all, where each contestant got on an innertube and the last one left on was the winner. Marty Yedinak won that event.

All the contestants were given a prize for entering.

Decathlon  
Marty Yedinak and Frank Holes were the only two participants in the summer recreation program decathlon with 30 or more points to win a first place trophy.

Thirty points were needed for a first place, 20 to 30 for a second and 10 to 20 for a third place.

Each of the 10 events was divided into three groups, according to age. The first group was eight and under, the second, nine to 11 and the third, 12 and over.

The 10 events were: broad jump, rope climb, high jump, 50-yard dash, push-ups, softball throw, head stand, basketball throws, under-water swim and on top-of-water swim.

The girls found the softball throws the hardest and for the older boys, the rope climb was the bugaboo.

Second place winners were: Lynn Haire, Kathy Hughes, Brent Gallaway, Les Nicholas, Jim Ballard, Robert Fischer, Roger Parker and Marlene Pelton.

Third place winners were: Becky Champion, Tom Ellis, Duane White, Bob Donahue, Diane Yedinak and Barbara Ballard.

"The whole summer was a huge success and we are looking forward to another successful summer next year," said Ed Holes, recreation director.

## Anniversary Party Held as Surprise

A surprise 25th wedding anniversary party was held in honor of Mr. and Mrs. Clark Auslander in the Shabbona Hall, July 25, by friends, relatives and neighbors. About 150 persons attended.

A wedding cake was made by Mrs. Clair Auslander and Mrs. Robert Burns. Miss Lillian Dunlap was in charge of a short program. A potluck lunch was served and the guests of honor received many gifts.

Mr. Auslander, who works at Walbro Corporation, was born in Evergreen township. Mrs. Auslander, the former Gladys LePia, is a native of Greenleaf township.

They were married in Flint July 27, 1934, by the Rev. Frank Walters, pastor of Arzbury Methodist Church, in the paragon. Attendees were Mr. Clair Auslander and Mrs. Bill Hene-y (Lucille Burns).

The Auslanders had lived in both Flint and Sebewaing before returning to this vicinity. Their only child, Richard, died in an auto accident June 6, 1955.

Relatives that attended the party from a distance were: Mr. and Mrs. Archie MacMillan, Mr. Concluded on page eight.

## Senate OK's Cass City Postmaster

Lewis Bishop, Cass City, was one of four area men whose appointments to postmaster were confirmed by the U. S. Senate.

Bishop previously had a hardware store here in Cass City. He received a transfer of office Feb. 20 and started as temporary postmaster the next day. The recent appointment made him a permanent postmaster.

SITTING OUT THE STEEL STRIKE is not so bad, says Dave Farmer, four-year veteran of the Great Lakes. "A fellow misses a lot while aboard ship and it's good to be able to be home again during the summer months." (Chronicle Photo)

LOOKS LIKE FUN but it's really a serious business to the engineering staff at Walbro Corporation. On a specially constructed regulation track, designed by Albert Whitfield and E. B. Schwaderer, J. D. Tuckey tries one of the pilot carburetors Walbro is designing for Go-Karts. (Chronicle Photo)

## Go-Karting for Fun and Profit

Go-Karting, a business that started with just a few hand-made models in late 1956 in California, has blossomed into a giant industry that has made officials at Walbro feel that the market is big enough to build a test race track for experimentation, President W. E. Walpole said this week.

Go-Karting has swept the country by storm and where the machines were numbered in the hundreds a few years ago the market for 1960 is variously estimated from a half million to a million and a half of the family racers.

For "family racer" is the name that truly describes the little cars and accounts for their fabulous growth.

When used on properly supervised tracks and with proper safety equipment, the little cars are said to be safe for men, women and children.

The safety stems from the way the Go-Karts are constructed. . . low to the ground with a wide wheel base . . . and not from the speeds that are reached by the racers. The average Karts run about 35 miles per hour on the straightaway and round curves at about 25 miles per hour. However, Bill Eberline and the Tuckey brothers have had them traveling at speeds approaching 60 miles per hour in test runs.

Fans say that another advantage of the sport is that it doesn't require a huge bankroll to enter and the man with the most money to spend on equipment will not necessarily be the person to win the most races. Racers cost from Concluded on page eight.

## Strike Dry Docks Great Lakes Sailor

"Even the oldest, most experienced sailor gets sick occasionally," said Dave Farmer, a 22-year-old Cass City merchant mariner of four years standing.

Dave usually works on the ore boats from the early spring to fall, a period of about seven months, but is now laid off because of the steel strike, which has shutdown almost everything connected with the ore.

"Many of the ore sailors belong to the steelworkers union and consequently are not eligible for unemployment compensation. Our line has not unionized as yet but plans to when we go back to work," said Dave.

The Pittsburgh line was the worst hit of the ore lines, as it is the biggest on the lakes and has the most unionized sailors, according to Farmer.

"The caliber of the sailors is going up constantly, as the lines do not like the reputation the sailors formerly had. The lines want men they can count on to be steady and not take 'French Leave' whenever they please," said Dave.

There are two ways to get a job as a sailor. One is to write to authorities in a company or a boat and the other is to apply for permission to get a seaman's card from the Lake Carriers Association, which has offices in all the major lake ports.

Dave's job came through Duane Peters, who had a relative who was a captain.

When first granted a seaman's card, you are eligible for three positions on a boat: coal passer, deckhand or porter.

Later, a written test can earn an Able Seaman's card. Other tests are available with corresponding wage increases.

Wages start around \$1.64 for the first stage and up to \$2.03 per hour for the second, reaching the top with the captain, who receives around \$60 a day.

## Annual Huron County Fair to Open Monday

The 91st annual Huron County Fair opens Monday for a full week's run at Soldier's Field in Bad Axe with a full program each day of the fair.

Such familiar features as the State champion horse-pulling contest for teams under 3,200 pounds, 4-H and FFA Show, music and giant midway will be held and many brand new attractions have been added for the centennial year of the county.

One will be a contest for the best dressed ladies of yesteryear and a beard and mustache contest for men. Displays of old household and farm equipment and old cars will be shown.

A "Quiz - on Huron County" will be held and prizes donated to winners from contestants selected from the grandstand.

This year's giant livestock parade will be led by Michigan Dairy Princess Mary Sue Hodge.

## Road Money More Than 1958 Allotment

The State Highway Department has begun the distribution of Motor Vehicle Fund collections for the second quarter of 1959 to the counties and incorporated cities and villages of Michigan.

Net receipts of the Motor Vehicle Highway Fund for the second quarter of the calendar year 1959 amounted to \$40,687,011.36, an increase of \$1,326,093.26 from the \$39,360,918.10 collected in the second quarter of 1958.

The following are the amounts the various area counties will receive: Huron, \$137,812.63; Sanilac, \$141,405.32; Tuscola, \$146,161.64.

Area towns will receive: Caro, \$5,837.45; Cass City, \$3,383.16; Gageton, \$1,150.13; Kingston, \$819.00; Unionville, \$1,374.71.

## Land Transferred to New School District

A parcel of land of Theron Montague has been transferred from Cass City Public Schools to Ellington No. 2 District, Tuscola County.

The transfer was approved by the boards of education of Huron, Sanilac and Tuscola counties in a joint session.

The same group of boards denied a petition of Henry LaFave to transfer a parcel from Owendale-Gageton Schools to Cass City.

## Strike Dry Docks Great Lakes Sailor

On Saturday and Sunday, time and a half is given and if you stick out the whole season, a 10 per cent bonus is paid. One week vacation pay is granted. There is also a seniority bonus that increases each year.

"It is not too hard to save at least \$3,000 a year working the boats," said Dave.

According to Dave, life around the boats is not too exciting with most of the extra time spent reading or watching TV, the reception being very good on the lake.

The rooms are small, averaging around 12x12 and most of them have two occupants, although some have three in the lower ranks. The half dozen highest ranks have private rooms.

The food is very good. "We have steak about two to three times a week, chicken and turkey once or twice. Friday there is a choice of meat or fish, usually lobster or fresh trout," said Dave. "And we can have all we want."

The sailors even have a coffee break two times a day, with coffee and more food served.

The first year a sailor is on duty eight hours and off for eight. Usually the second season, he is on four hours and off four hours. There are always things to do when you are on duty as there are always cleaning jobs to be done, painting etc.

"Chances of becoming a captain are very slim, as the only openings are caused by a death or new boats being commissioned . . . not too many captains resign when they are making \$60 a day," he said.

The boats seldom go slower than nine miles per hour or faster than 18 miles per hour. "It is often smoother than riding in a car."

"There are several reasons for all the accidents involving foreign boats on the lake now," said Dave.

The boats are supposed to pick up a lake pilot when entering. Concluded on page eight.

## Wheat Price Support Changed by USDA

Because wet weather at harvest time is resulting in a higher percentage of light test wheat than usual, the U. S. Department of Agriculture announced recently it was relaxing 1959-crop wheat price support requirements to include lightweight wheat that otherwise would not be eligible for price support.

The lighter weight wheat included under the relaxed provisions will be "sample" grade on test weight only, but no wheat testing less than 40 pounds per bushel will be eligible for price support.

## Shy Sandhill Crane

Sandhill cranes, formerly found throughout Michigan in plentiful numbers, have been drastically reduced by man's excessive hunting and drainage on their nesting grounds. A few cranes still nest in isolated marshes of southern Michigan. Swamps of the upper peninsula provide a greater degree of privacy and are, therefore, preferred nesting sites of these shy birds. Remaining wetlands must be preserved and restored to safeguard against the threatening disappearance of this migratory wild bird in Michigan.

## THESE BIG CHEVY VIRTUES!

## bigger brakes

Bigger, yes, and built with bonded linings for as much as 66% longer life. And how's this for proof that Chevy's a real stopper: in a NAS-CAR\* conducted test of repeated stops from highway speeds, Chevrolet outstopped both of the "other two" time after time.

\*National Association for Stock Car Advancement and Research.

## award-winning engines

The NASCAR Outstanding Achievement award goes to Chevrolet! Chevy wins for "the creation and continuing development of America's most efficient V-type engines... for the establishment of new levels of V8 compactness combined with outstanding smoothness." And you can choose among eight V8's and the Six that won the Mobilgas Economy Run for its class.

## full coil ride

You're the expert on ride, so you'll want to try Chevy's easygoing smoothness for yourself. MOTOR TREND magazine can give you a hint of what you're in for: "... the smoothest, most quiet, softest riding car in its price class." And Full Coil springs, of course, never squeak, never need grease.

## fresh styling

POPULAR SCIENCE magazine gave Chevy's styling a thoughtful look, then said it this way: "In its price class, Chevy establishes a new high in daring styling..." You'll find your own happy way of saying that Chevy's the only unmistakably modern car in its class.

## greater roominess

Automobile Manufacturers Association records carry the facts on this. In a Chevy sedan, for example, you've got more front seat head room than all but one of the high-priced cars! And Chevy's front seat hip room spreads up to 5.9 inches wider than comparable cars.

## bigger savings

Here's solid proof that Chevrolet squeezes more miles out of a gallon: In the famous Mobilgas Economy Run, two Chevrolet sixes with Powerglide took the first two places in their class. Winning mileage: 22.38 m.p.g. And that, friends, took top honors for Chevy from very full-sized car!

## higher trade-in

N.A.D.A.\* Guide Books prove that your Chevrolet will keep its value. Chevy used car prices last year, for example, averaged up to \$128 higher than comparable models of the other two cars in Chevrolet's field.

A fisherman enjoys one of water's many uses in Michigan. To the sportsman, homemaker, farmer and industrialist alike, Michigan's water is a vital resource. Among other things, it is a source of power for industry, an avenue for shipping products and a key to a booming tourist business. Besides serving many domestic needs in the home, it is used for irrigating crops and safeguarding public health. It supports fish and wildlife populations and gives life to our forests and wild plants. Truly, it would be hard to overestimate the value of state's water wealth.

**BULEN TALKS Cars**

IS YOUR CAR A "CREAM PUFF?"

In the trade a car that's well cared for and kept under repair is known as a "cream puff". These are the cars that dealers buy or take in on trade with a special satisfaction . . . not to mention a higher allowance to the owner. Not only do these cars have eye appeal but they perform way above average.

Another benefit about "cream-puffing" your car is the owner satisfaction that will be yours, while you're driving it. Just what is involved? Briefly, it's a number of seemingly minor attentions. For instance, a heel that digs a hole into the car's carpeting is just as unsightly as a dented fender. And a broken spring on the hinges of the little door over the gas tank filler is not only a blemish . . . but there's usually rust along its edge, which a little waxing could have averted.

Well, we've all seen cars that show owner neglect. And it's too bad when all it takes is a little time and care to drive a clean car in correct running condition. Take parking, for example. Doors become marked because the driver isn't always too careful to select parking areas with wider spaces. And the painted shelf above the instrument panel can become dulled from careless parking in the hot summer sun, when the shade of a tree would have prevented it.

On the other hand, the man who cares about his car sees to it that the oil is changed when the engine gets hot . . . and that regular grease jobs are attended to.

Other handy steps in the right direction include: Dusting the dash, hood and doors of your car with a clean piece of cheese-cloth, when needed - keeping a whisk-broom in the car to remove interior dirt - applying liquid wax to chrome trim to prevent rusting.

It goes without saying that regular servicing and having mechanical flaws corrected at once is a definite "must". So if your car isn't in the "cream puff" class why not drive in today and let us go to work on it? Then all you'll have to do is follow the few simple rules of care mentioned here to take new pride in your car.

Incidentally, if you are in the market for a good used car we have some real "Cream-Puffs" on our lot right now that we have taken in on our 1959 clean up. Come in and see us for either a new or used car today.

Mr. and Mrs. Earl Rayl of Deford were hosts Saturday at a reunion of the Lauderbach cousins, descendants of the late Jonas and Sarah Lauderbach who came to Unionville 80 years ago from Pennsylvania. Thirty-two were present from New Orleans, La., Ithaca, Flint, Bay City, Caro, Akron and Unionville. Among those in attendance was Mrs. Mary Ella Childs, 79, of Unionville, only living child of the Lauderbachs. A second reunion is planned for 1960.

The cost of living could be greatly reduced if people could feed their pride as cheaply as they feed their faces.

Advance Sale  
Brisk for Fair

Advance sale of admission tickets, at reduced prices, for the 78th Annual Tuscola County Fair, to be held at Caro August 24-29, will begin Friday, August 7, according to Frank Rademacher, ticket chairman.  
Tickets will be sold at drug stores in communities throughout Tuscola County through Friday, August 21.  
Single admissions in advance will sell at the reduced price of \$2.50 for four tickets. A single season admission ticket covering five Fair days is advance-priced at \$2.60.  
Tickets may also be purchased by mail by writing to: Tickets, Tuscola County Fair, Caro, Michigan.  
"Because of this year's outstanding Fair attractions, the demand for tickets is increasing," as a result, the Fair Board decided to increase the number of advance ticket sale locations as a convenience to fairgoers."

## Finkbeiners Hold Family Reunion

The third annual reunion of the family of the late Fred and Lavina Finkbeiner was held Sunday at the Lloyd Finkbeiner home with 51 relatives and three guests attending.  
At a short business meeting, Walter Finkbeiner was elected president for the coming year and Miss Beulah Finkbeiner of Bad Axe was re-elected secretary-treasurer. Lloyd Finkbeiner will be vice-president.  
Following the potluck dinner, a baseball game and visiting were the mode of the day.  
The eldest guest in attendance was Mrs. Nellie Shenck of Bad Axe and the youngest was Gail Hupert, daughter of Mr. and Mrs. Bernice Hupert of Garden City.  
Ice cream and cake were served later in the day.  
Members of the family came from Detroit, Garden City, Bad Axe, Sebawaing, Gagetown and Cass City.  
The 1960 reunion is scheduled for the first Sunday in August at the Walter Finkbeiner residence.

Advance sale of admission tickets, at reduced prices, for the 78th Annual Tuscola County Fair, to be held at Caro August 24-29, will begin Friday, August 7, according to Frank Rademacher, ticket chairman.

4-H Demonstration  
Largest in Years

Over 60 4-H Club members and parents attended the Tuscola County 4-H demonstration contest at the Wilbur Memorial Building Friday, according to Betty King, summer 4-H agent.  
The winners in each project division will compete at the State 4-H show demonstration event, September 1-4 at Michigan State University.  
This was the largest and most successful Tuscola County demonstration program in the last several years.

CCHS Teacher Made Fraternity Historian

Harry Miller, mathematics teacher at Cass City High School, was recently elected historian of the Central Michigan College chapter of Phi Delta Kappa, International professional education fraternity.  
The fraternity conducts an active program of research, leadership and service and its commissions deal with school desegregation problems, international education and selective recruitment of teachers.  
Imagination allows a man to think he is having a good time when he is only spending money.

## REAL ESTATE

I HAVE listed in Cass City an excellent piece of property in a good location, and I believe there is an excellent opportunity for someone to operate a boarding house, and with good home cooking, you will have a waiting list. This property would be ideal for this type of venture, and can be purchased with only \$3000 down and monthly payments on the balance. This is worth investigating.

**ONE OF THE BEST Class C Taverns** in the Thumb area. Main highway; will gross over \$50,000. Information to qualified buyers only.

## Grandmother of 32 Buried Wednesday

Services for Mrs. Mae Shagene were held at Little's Funeral Home Wednesday with the Rev. S. R. Wurtz officiating. She died Sunday at Bad Axe General Hospital where she had been a patient one day.

Mrs. Shagene was born in Sheridan Township Dec. 30, 1894, daughter of the late Donald and Ann Butler McRae. She married Simon Shagene in Sandusky in 1913, after which they made their home in Argyle Township. She was a member of the Argyle Methodist Church.

Surviving are: her husband; three daughters, Mrs. Louis (Leona) Behr and Mrs. Stewart (Irene) Chouinard; Mrs. Vincent (Irene) Chouinard of Detroit; three sons, Donald Shagene of Cass City, Orland Shagene of Washington, Mich., and Jacob Shagene of Decker, one brother, Peter McRae of Oak Park; one sister, Mrs. Bertha Soffin of Port Huron; 32 grandchildren, and nine great-grandchildren.

She was buried in the Elkland Cemetery.

## Slickton Services Held Tuesday

Mr. John L. Slickton was buried in the family lot in Novesta Cemetery Tuesday following 2 p.m. funeral services at Little's Funeral Home. The Rev. Howard Woodard, pastor of the Novesta Church of Christ, officiated.

Mr. Slickton was born in Tuscola County July 18, 1896, son of the late Lewis and Eleanor Slickton. He had been in ill health for the past 13 years and died Sunday.

Surviving are: one daughter, Mrs. Dorothy Mullins of Detroit; four sisters, Mrs. Glenn (Alice) Nooks of Detroit, Mrs. Alfred (Effie) Jackson of Pentwater, Mrs. James (Lottie) Weaver of Harmons Island and Mrs. Donald (Esther) Eyo of Deford, and five grandchildren.

## Uncle Tim From Tyre Says:

Dear Mister Editor:

We had a right lengthy session at the country store Saturday night on account of the subject under discussion being preachers. As usual, Ed Doolittle did most of the talking, and from what Ed was saying, they must have a real up - and - coming preacher at his church.

Ed says he preaches about everything in the world, all in one sermon. Variety, that's what Ed says his preacher has got, some pun to interest the whole congregation. He'll talk about gangsters, the United Nations, winners, liquor, Congress, the drought, Russia and the high cost of living, all in the same sermon. Ed says when the weather gets real hot he's liable to discuss all these things in the same sentence.

Sunday, for instance, he went from women to fishing. He said when he was a boy a girl blushed when she heard a naughty joke but now she just mem-

orizes it. He allowed as how women was going to perdition faster'n the country was going broke. He said proof that we was reaching the living end come from this actress in Hollywood the other day who said she's been married five times and that three of them was perfect and two was ideal.

On the subject of fishing, the preacher claimed the Governor was mighty hard up for somepun to do when they passed laws protecting fish. He allowed that all the fish he'd ever saw was able to look out fer themselves.

Yours truly,  
Uncle Tim

The man with a theory and lots of enthusiasm wastes a lot of other's money trying to keep up steam.

### GOOD BEESNESS

Concluded from page one.  
difference is, whereas our honey is clover and alfalfa honey, the southern honey is made from citrus fruit blossoms.

Crowther has almost as large an establishment in the South as he does here. The Florida business started when, after the Crowthers talked to a Florida man 14 years ago, they decided Florida sounded so good they packed up some bees and took them south.

During the winter, when the Crowthers are in the South, the bees in Cass City go into sort of a hibernation and, vice versa, in the summer the Florida bees are sleeping. "They get more rest then we do," said Crowther.

When the busy season here in Cass City starts, the beekeepers from Crowther's southern farm come here to help. One of his helpers this season is Gus Gosnell, who used to be the southernmost beekeeper in the United States, until he was wiped out by a tornado. His business was in the Florida Keys.

"Bees are good workers and co-operate better than people do," said Crowther. "The queen can lay as many as 1500 eggs in one day, and the average life of a bee is six to eight weeks. It does so much flying, it wears its wings out."

Mrs. Crowther, an expert on the nutritional value of honey, has an article that says, "Honey is superior to all other natural foods, and causes none of the ills blamed on refined sugar. It also gives great energy."

"Honey contains almost all the minerals and vitamins," said Mrs. Crowther. She said that pollen in honey is conducive to longevity, citing a group of people in Southern Russia who lived to be very old, usually over 100. It was found they were all beekeepers, sending the best honey to market and keeping the pollen-filled honey for their own use.

### Bush's Drop First League Contest

Bush's continued their usual winning streak Wednesday, July 29, when in a make-up game they ousted Walbro Carburetor 4-2.

But Thursday night they lost their first game of the season when Dan Eria, pitching for Leonard, hurled a shutout for a 2-0 victory. Elwyn Helwig was the losing pitcher as J. D. Alexander hit a winning home run for Leonard.

In a second game that night, Walbro Carburetor picked a close one from Walbro Pumps 5-4. Eldon Stoutenburg was the winning pitcher with Dick Hillaker taking the loss.

A home run was hit by Bob Wallace.

The standings:	W	L
Bush's	7	1
Leonard	4	4

### Top Alfalfa Yield Requires Planning

Successful Crops Take Much From Soil

It's one thing to establish an alfalfa stand, but it's quite another to hold the stand at top production over a period of years, reports Marshall Christy, University of Missouri extension agronomist. Christy points out that with adequate fertilization based on soil tests and with good cultural practices, it is possible to produce alfalfa yields of four tons per acre on many farms.

In producing such a yield, says Christy, the alfalfa crop will remove as much as 48 pounds of available nitrogen, 180 pounds of available potash and an amount of calcium equivalent to one-fourth of a ton of pure calcite limestone. Thus it is necessary to replenish the soil's nutrients with regular top-dressings of phosphate-potash fertilizer each year if you want to keep your alfalfa stand producing at a high level.

Plant foods keep alfalfa crops healthy and growing.

He advises an annual top-dressing of 600 pounds per acre of 0-20-20 fertilizer as needed where the alfalfa stand was originally established with processed phosphate as part of the original fertilizer treatment.

Summing up the advantages of regular maintenance applications of fertilizer, Christy says: "An annual top-dressing of plant nutrients will protect the investment in an established alfalfa stand and it will return a bonus in the crop yield, too."

### Experience with Cows Helpful In College

You don't have to go to college to learn how to milk a cow. But knowing how to milk and care for cows can help you to make the most of college education, believes Betty Muller.

Betty, a junior at Douglass College, New Brunswick, should know—she owns five cows, shows them in competition, and recently was cited for her "outstanding achievement in Guernsey activities" by the New Jersey Guernsey Breeders Association.

The way cows help with a college education is simple, says the comely brunette. Working with them teaches responsibility and steadiness, and showing them in competition encourages self-assurance, attributes which come in handy at college, Betty explains. Betty, who holds a State University scholarship, is a home economics major at Douglass.

"When we got to lessons on what part of the animal the various cuts of meat come from, my knowledge of cows became really useful."

Her association with cattle began when she was only seven years old. Her father, William Muller of Bellum Ridge Farm, Somerville, gave her a calf to interest her in the work.

### LEISURE TIME

Some men jump at conclusions—others take more time to make the same mistake.

### BORROWED TIME

Borrowing from Peter to pay Paul merely proves that Peter is an easy mark.

### MIRACULOUS

Float Carburetors

Walbro became interested in the new sport when one of its customers was having trouble with the diaphragm-type carburetors that were used on the engines that propel the Go-Karts.

At their request they started work on their float-type carburetors to adapt it to the engines on the Go-Karts. At the present time, 10 pilot models have been shipped and the company is awaiting word of results.

Meanwhile, testing of various carburetors goes on and the boys in engineering are the envy of the entire plant.

## Tigers Win League Title

The Tigers became the round robin champions of the Little League as they defeated the Yankees 10-4. Jim Champion, who didn't give up a hit the last time he faced the Yanks, held them to only six hits in this game as his mates collected eight off losing pitcher Gordon Bigham.

Don Englehart led the winners at the plate with two for four while Champion added a double and single in four trips.

Line score:  
Tigers 2020006 10 8 2  
Yankees 001200 4 6 3

The opening game of the Little League play-offs found the Cubs measuring the Giants 9-4. Gordon Wheeler, the Cubs' sidarming right-hander, held the Giants to five hits while his mates collected seven off Ed Retherford. Wheeler struck out 11 batters and aided his own cause at the plate with two doubles in three trips.

### SAILOR DRY DOCKED

Concluded from page one.  
the channel, many of which are Canadians. They get paid about \$30 a day and are tops in their field. But many of the foreign captains leave the pilots at Port Huron and proceed with their own, a seagoing pilot. There are many differences between sea navigation and lake navigation. The sea pilots go by stars and the lake pilots have coastal lights to guide them. The rules of the road are different for the two navigations.

Another reason, it is rumored, is that the foreign captains do not like to take orders from our pilots and hence, disregard them. Of course, there is talk of incompetence on the part of the pilots, but the pilots given to the foreign ships are so skilled that often they can tell within minutes when the next guide light should appear.

Dave feels that the sailor's life is a good one for a single man, especially if he wants to save money. But for a married man, it takes too much time away from home.

A man may think he can make a success of anything he undertakes, but only too often he turns out to be an unsuccessful thinker.

The worst thing about the silver lining theory is that you have to turn the cloud inside out in order to find it.

Cubs 211310 9 7 2  
Giants 001021 4 5 4  
The remaining play-off schedule is as follows:  
Wednesday, Aug. 5, (Winner of Monday's game vs. Winner of Tuesday's)  
Thursday — All-Star Game.  
Friday (if play-off champion is different than round robin champion, the two teams will meet for the Little League crown on Friday.)

1958 Tax Study Wasted

By Elmer E. White  
Michigan Press Association  
The Widely-Quoted 573-page "redbook" on Michigan taxes is headed for the archives.  
Someday a tax researcher may blow the dust off a bound volume of the staff papers of the 1958 Michigan Tax Study and use it as background for a new study of Michigan's tax structure.  
Most of the recommendations based on the 1958 study were scuttled by the 1959 legislature. Also scuttled was the dream of Rep. Rollo G. Conlin (R-Tipton) for an overhaul of Michigan's patchwork revenue system.  
Conlin was a proud man Dec. 2, 1958, when a Citizens' Advisory Committee appointed by his House Tax Committee came up with a comprehensive program for revising the tax structure.  
The program was promptly dubbed the "Conlin Plan."  
It was built around a graduated personal income tax.  
The graduated income tax, endorsed by Gov. G. Mennen Williams, failed to get wide support in the House and was denounced in the Senate. Conlin turned to a "piggy back" income tax. It failed in the House.  
He then tried a flat rate income tax. It slipped by the House with one vote to spare, but was clobbered within minutes after it arrived in the Senate.  
Conlin, a pipe-smoking farmer who says he is serving his last term in a 16-year legislative career, didn't vote when the House passed plans to increase the sales tax.  
But everybody in the chamber knew what he was thinking.  
The legislature may be asked next year to require zoning boards and other bodies at the township level to open their meetings and records to the public.  
Kenneth West, managing editor of the Lansing State Journal and chairman of the Freedom of Information Committee of the Michigan Press Association, said some study was expected in this direction.  
West's committee was instrumental in securing passage of a bill requiring open meetings and records of school boards.  
The 1959 "Right-to-Know" bill was sponsored by Reps. William Romano (D-Escanaba), Einar Erlandsen (D-Escanaba), Robert Waldron (R-Grosse Pointe) and Russell Strange Jr. (R-Clare).  
Senator John H. Stahlin (R-Belding) championed the freedom of information cause in the Senate.  
Stahlin was responsible for killing an amendment that would have allowed school boards to take final action in closed-door executive sessions "in the public interest."  
"This would not be a fair way to do it," Stahlin said. "You would be taking away a freedom. A little group of people could shut everybody out; make a decision—and let you know about it afterwards."  
Stahlin will be remembered as one of the most colorful freshmen in legislative history.  
He was popular among Senate GOP leaders early in the session when he criticized the Democratic state highway administration during his maiden speech, which was delivered in a Will Rogers style. But his colleagues held him with less enthusiasm when he argued they could get things done more quickly.  
During the last days of the session he was openly critical of what he called "the wheels" in the Senate.  
Michigan men are making their mark in Washington. When Frederick H. Mueller, Grand Rapids, was nominated as Secretary of Commerce, it was the third time President Eisenhower selected a Michigan man to serve in his cabinet.  
Others were Postmaster General Arthur E. Summerfield and Charles E. Wilson, former Secretary of Defense.  
Army Secretary Wilbur E. Brucker, former Michigan governor, heads list of others who have key jobs in the Eisenhower administration.  
Gov. G. Mennen Williams will turn his attention to personnel problems once duties related to the Legislature are completed.  
His biggest problem will be finding a replacement for Controller James W. Miller, who will become Secretary of Michigan State University.  
Civil Service Director Arthur Rasch will retire, as will Louis M. Nims, state revenue commissioner.

SAVE as you buy  
PROFIT as you farm

...with **UNI-FARMING**

It's like putting money in the bank when you slash equipment costs, and still boost your efficiency with the new MM Uni-Tiller with double tool bars.

**YOU BUY ONLY WHAT YOU NEED**

When you farm with the basic QM Uni-Carrier, you buy only the soil working attachments you need. You save the cost of additional frames, levers, wheels, power lifts, etc.

**YOU PROFIT FROM THESE ADVANTAGES**

- 1 You can equalize the load to any tractor power... any tractor type, wheel or crawler.
- 2 You can change farming methods to suit the weather, or switch from one crop to another... in minutes!
- 3 You have rugged, all-steel 2 1/2-inch double tool bars 148-inches in length, with 92, 128 or 184-inch optional lengths.
- 4 You can raise one side independently of the other with double power lift.
- 5 You can easily regulate depth with the convenient depth control lever.
- 6 You can quickly change attachments with the rigid tool-bar clamps.
- 7 With the Uni-Tiller, you have an ideal tool for contour farming and all soil conservation practices... perfectly suited to orchards and specialized farming.
- 8 You can add or subtract attachments to power and soil conditions, and have a wider range of adjustment than ever before possible.

Come in soon and let us show you the QM Uni-Carrier and a complete selection of Uni-Tools—all designed to cut your equipment costs and boost your farming profits.

Slate Annual Field

The ninth annual Tuscola county field crops tour will be held Wed., Aug. 12, beginning at 10 a.m., reports Alfred Ballweg, county extension director.  
Because of widespread interest on the part of farmers in the performance of bean varieties the tour will include stops at two bean variety test plots. The third stop will be a visit to a field of sugar beets, part of which was planted according to standard methods and the other using "Monogerm Seed", a new innovation in the sugar beet growing industry, said Ballweg.  
Participating in the tour stops will be officials of the Agricultural Research Department of the Michigan Sugar Company, as well as representatives of the Farm Crops and Soils Department of Michigan State University. Farmers from all areas of the county are urged to attend.  
Tour schedule is as follows:  
10 a.m. — Charles Cosens, bean variety test plot field, a quarter mile south of junction of Garner and Cass City Roads.  
11 a.m. — "Monogerm" planted field of sugar beets on Ray Laruse and son farm, one and three quarters miles west on Darbee Road from junction of Darbee and M-128.  
11:45 a.m. — Everett Starkey, bean variety test plot field, two miles south and a mile and a half west of Fairgrove on Gilford Road.

Crops Tour Aug. 12

Bean varieties in the test plots include Michelite, Sanilac, 211, 211-Viner, and Strain C, an experimental variety under field test by Michigan State University, said Ballweg.

Munro Stationed at Fort Lewis, Wash.

James R. Munro, 28, son of Mr. and Mrs. Leslie C. Munro of Gagetown, is a member of the 4th Infantry Division at Fort Lewis, Wash.  
Munro, a heavy-equipment operator in Company D of the division's 4th Engineer Battalion, entered the Army last November and completed basic training at Fort Knox, Ky.  
He is a 1953 graduate of Cass City High School and was employed by Detroit Concrete Products before entering the Army.

Wool Payments for 1958 Announced

Payments in Tuscola County under the 1958 wool program amounted to \$4,265.42, according to Charles Eckfeld of the Tuscola County ASC, and payments on the unshorn lambs totaled \$569.97.  
The county office started making the payments soon after July 1.

Services Held for Father of Six

Funeral services for Earl J. Nicholas were held Sunday at 2 p.m. at the Nazarene Church in Gagetown with the Rev. Russell Stanley officiating.  
Mr. Nicholas died Thursday night at Mercy Hospital in Bay City after an illness of about one week.

He was born in Huron County, Grant Township, Jan. 7, 1907, the son of the late William and Elva Nicholas. He married Lola Ingalsbee in Flint in 1937 and they have resided on their farm in Grant Township since.

Surviving, besides his wife, are three sons, Roland and Lloyd at home and Ronald of Lackland Air Force Base, Texas; three daughters, Donna, Joyce and Jean at Flint, Raymond of Uby, John of Caseville and Floyd of Cass City; four sisters, Mrs. Ervin Karr of Cass City, Mrs. Clifton Rockefeller of Gagetown, Mrs. Wesley Brown of Bad Axe and Mrs. Cecil McQueen of Snover.  
Burial was in Grant Cemetery.

A new tissue analysis service for determining whether alfalfa plants are short on boron has been set up by the soil science department at Michigan State University.  
History repeats itself, but not nearly so often as gossip.

Initiate Nine into 4-H Service Club

The first order of business at the July 4-H Service Club meeting was the initiation of new members.

Leading the candle lighting service was president Janet Albrecht. The four leaves of the clover were represented by Sue Black, Larry Campbell, Marilyn Ruppert and Jack Laurie.

New members are Ann Bodeis and Ferol McCartney, Mayville; Audrey and Frances Foster and Tamara Tonkin, Fairgrove; Ruth Ann McConnell and Richard Ruppert, Akron; Fred Goodchild, Caro, and David Loomis, Gage.

Two From Cass City Named to County 4-H Judging Team

Wednesday, July 29, Hugh Milligan, Alice Gerou, and Larry Merchant were named as the Tuscola County Dairy Judging Team to represent Tuscola County at the District Eliminations, August 10 and 11, at Michigan State University. The team was selected at the County Elimination which took place at the Jackson Brothers Farm on West Dixon Road, Caro, states Ed E. Schrader, county extension agent in 4-H Club Work.

Hugh Milligan, 17, is the son of Mr. and Mrs. Jim Milligan of Cass City. Hugh has completed seven years of club work. He is

a member of the Cass City Livestock 4-H Club. Alfred Goodall is Hugh's local leader.

Alice Gerou, 17, is the daughter of Mr. and Mrs. Jim Moore. She has completed eight years of club work. She is a member of the Fairgrove Livestock 4-H Club. Jim Moore is Alice's leader.

Larry Merchant, 16, is the son of Mr. and Mrs. Clarence Merchant of Cass City. He has completed 7 years of club work and is a member of the Cass City Livestock 4-H Club. Alfred Goodall is Larry's leader.

All three of these 4-H'ers were rated excellent in their ability to judge dairy animals and on their ability in giving reasons for their placing.

A theory that doesn't allow for friction will get a hard rub.

Those homemakers that do their family's laundry will be pleased to know that something new has been added to most modern detergents. It is a special fluorescent dye that attaches itself to the clothes and makes them look whiter and brighter.

To get this whitening effect, however, detergents must be added to clothes a few minutes before a chlorine bleach is added. Research shows that the fluorescent dye must have time to attach itself to the clothes. Then chlorine bleach can be added to remove stains and you get the whitening effects of both agents.

Timing can be controlled by adding diluted bleach by hand. However, manufacturers are working on built-in bleach dispensers which hold the bleach until after the detergent goes to work on the clothes. There is one brand of washer with this type of dispenser already on the market.

Students returning to Cass City Schools this fall will be greeted by 12 new teachers in the staff of 37 instructors, according to an announcement made this week by Willis Campbell, superintendent.

## Ten Years Ago

Within four hours and 50 minutes, two sisters gave birth to baby daughters at the Cass City Hospital Tuesday morning, July 26. They are Mrs. William Stamp and Mrs. Michael Zuercher.

A group of archery enthusiasts met at the greenhouse Monday night and officially organized a club known as the Cass City Bowmen. The constitution of the National Field Archers Association was adopted.

Over 50 Tuscola County 4-H

members and leaders who participated in last winter's tractor maintenance project enjoyed an all-day trip Friday to the Ford Highland Park Tractor Plant and the Dearborn Motors Service School and Experimental Farm at Clarkston.

That Clarence Burt made good use of his camera while he and Mrs. Burt were on their trip to the western states was proven when he showed colored slides to Rotarians following their Tuesday luncheon at the New Gordon Hotel.

Directors of the Cass City Chamber of Commerce met Monday night and completed plans for a slogan contest in which they offer a \$25 savings bond to the person who submits the slogan of six words or less that best advertises the Cass City Community.

Grangers of Tuscola County, desiring to have first hand information regarding the candidates in the primary election, have a custom of inviting them to their meetings and have them speak and give their qualifications for the offices they seek.

Three of these gatherings have already been held and the fourth will be held in about two weeks at Millington.

Five slot machines were confiscated by officers Saturday in various Sandusky business places in the opening of a drive to rid Sanilac County of slot machines and gambling devices.

Tuesday, Aug. 21, the opening day of Tuscola County Fair, gives promise of being second only to Friday, the day when the second annual Michigan Sugar Queen will be selected, in point of interest.

A daughter was born Sunday evening, July 29, to Mr. and Mrs. Adam Deering, at the home of Colin Bingham. Mr. and Mrs. Deering's home is at Caseville.

Mr. and Mrs. Frank Work and family, Mrs. Inez Wooley and children and Mr. and Mrs. Kilbourn Parsons spent Sunday at Lake Pleasant.

Thirty-five Years Ago  
A great interest has been shown in the poultry demonstrations which have been held throughout Sanilac County these past two weeks. These demon-

strations were put on in cooperation with Mr. Urs, poultry specialist of the Michigan Agricultural College.

On the afternoon and evening of August 4, about 100 friends and relatives gathered at the home of Mr. and Mrs. John B. Pettenger of Cumber, Austin Township, to celebrate their 50th wedding anniversary.

State banks in the future need not publish the amount of money they have in their vaults, according to a report from the state banking department. This action is taken to keep burglars in the dark as to the amount of cash on hand in the banks.

With a splendid line of special free attractions, a superb display of fireworks, exciting horse races and professional band and orchestra, the Cass City Fair, the Thumb's first, next week promises splendid entertainment features.

Thursday evening, July 31, about 16 boys and girls, friends of the Misses Mildred Parker and Lorena Wilson, gathered at the home of the former for a surprise birthday party.

Maneb, captan or ferbam helps to control black spot, one of the state's most bothersome diseases on rose plants, according to plant disease control specialists at Michigan State University. Spray or dust roses every seven to ten days in the summer.
