## **Busy Council Session** Postpone Action on New Zoning Law

### Farm Produce Liquidating, Not **Closing-Withey**

Fred Withey, manager Farm Produce Co., this week said that there has been a good deal of misunderstanding about the liquidation of the elevator.

We have been deluged with questions, Mr. Withey said, asking when we are going to close the doors of the elevator. Liquidation by the stockholders

does not mean that the elevator does not mean that the elevator is going to close its doors, Mr. Withey said. It is highly prob-able that the company will be sold to a corporation or individual and will continue to be run

any immediate change will be Leo Ware. Mr. Rabideau and Mr. made and meanwhile the company will operate as it always has for 50 years, Mr. Withey concluded.

### Mrs. Otto Goertsen Honored by Club

Mrs. Otto Goertsen was chosen club woman of the year of the Cass City Home Demonstration Group at the organization's regular meeting at Cass City High School, Tuesday.

At the request of the planning commission no action was taken at the regular meeting of the village council Tuesday night at the Municipal Building on the controversial zoning to implement the master plan for the village. In a letter to the council, Planning Commission President James Bauer asked that the council meet with the commission to discuss the proposed zoning and formulate regulations that will

be approved. The council set Tuesday, April 5, as the date for the joint meet-

The latest Detroit official to run for governor is cut from different cloth than the late Detroit Mayor Albert E. Cobo, who never quite got across to the outstate voters when he ran against G. Mennen Williams in Gov. 1956.

Detroit Councilman Edward Connor sparks more enthusiasm in his speaking engagements than Cobo did in his campaigning. ### A CAR WITHOUT AN ENGINE

When a couple of bright boys put together the world's first torseless carriage (you'd be surprised how long ago) they foresaw there was going to be an inevitable conflict with pedestrians.

The first vehicle in history to move without help from an animal was assembled in 1649 in Nuremburg, Germany. I heard the story some time ago and looked it up the other day in order to pass it on.

The "car" rattled along the streets at about two miles an hour, and it seemed to run by magic. It wasn't until weeks after its first demonstration that the baffled and frightened people discovered the two men who were hidden in the vehicle's back section. They turned a winch and this moved the rear axle.

The vehicle had a mechanism for clearing the way if anyone strayed too close (few did). A great dragon's head stuck far out in front. It moved from side to side and sprayed a stream of water out its

(Maybe they weren't so crazy after all, it might be an idea to adapt those automatic windshield washers for the same purpose).

That dragon's head, I suppose, was "optional equipment at extra cost," as they say nowadays. It's the optional equipment on a large number of our used cars, the little extras that so many people like, that make them such outstanding buys. In purchasing a good used car you usually save tremendously on the extras that the original owner has installed.

If you've never owned an electric dryer, you've never known complete washday freedom because only electric dryers give you all this:

**Clean**—The cleanest method of drying clothes there is! There are no fumes or products of combustion to circulate. No flames to guard. Clothes dry in clean electrically heated air.

Safe for all fabrics—There's exactly the right setting for every fabric. No hot spots. No temperature fluctuation. The most accurate controls are electric.

Fast—Gentle radiant heat starts drying right away. Drying time cut to a minimum.

Low priced—Because of fewer operating parts and simple trouble free design, electric dryer prices are surprisingly low.

**Special installed price**—For a limited time, the price you pay for one of these well-known electric dryers will include normal wiring installation on Detroit Edison lines in dwellings up to and including four-family. "Normal wiring installation" means one dryer (220-volt) circuit only.

Free Service—Over and above the manufac-turer's warranty, you are protected by Edison's long-standing policy of service without charge for electrical parts or labor.

Choose from these leading makes of electric dryers: FRIGIDAIRE • GENERAL ELECTRIC • KELVINATOR • DEXTER HOTPOINT ● WESTINGHOUSE ● EASY ● HUDSON ● MAYTAG NORGE • PHILCO • SEARS' KENMORE • SPEED QUEEN WARD'S SIGNATURE • RCA WHIRLPOOL • HAMILTON • ABC
