Steer Stealing Costs More Than It Pays

Stealing a steer doesn't pay. That's what three Fremont township men learned after they were convicted July 12 of shooting and butchering a steer owned by Donald Baxter.

William Berlin of 2375 Snover Road, Mayville, Jack Sweeney of 5661 Stewart Road, Lapeer, and Gordon McDowell of 4687 Kiam Road, Columbiaville, pleaded guilty and were convicted in the Tuscola County Circuit Court at Caro of simple larceny.

They were sentenced to serve one year's probation, fined \$50 plus \$50 court costs and restitution of \$67 each. The payments of \$14 are to made once a month. Mr. Baxter, who lives one mile Washburn Road in Fremont Township, said he found the "innards" of his steer last Octo-

NOW'S THE TIME to save more truck dollars on the more-for-your-dollar trucks!

Your truck dollars are worth a whole lot more at your Chevrolet dealer's right now! First off, you get a head start on saving because summer's the saving season. Then, with a harder working, easier riding Chevy truck, you're set to save every mile you haul. And, finally, at trade-in time, you can expect an extra dividend because of Chevy's traditionally higher resale value. What could be better?

Summer's the season to get extra mileage from your dollars on the trucks built to give you extra miles of hauling. With Independent Front Suspension, Chevrolet trucks keep going thousands of miles longer because far less destructive jar and shake are transmitted through the truck. Chevy I.F.S. trucks work harder, too, in areas where other trucks have to be pampered. And, with Chevy's wide choice of thrifty 6 and hardy V8 power. you can tailor your truck exactly to your job. So how can you miss-especially now during the summer saving season?

One of the reasons used car buyers outnumber new, two and three to one, is that they are buying this transportation for savings of one to two thirds of the original new car price.

A two-year-old quality used car for instance, with little more than 20 per cent of its potential mileage used, may sell for 50 per cent of its original price. This makes it just about the greatest value our economy has to offer. Older cars with 50 and 60 per cent of their life still left in them are greater values still.

When I was a little girl, there were two holidays to be enjoyed in July. The first was Independence Day and the other was on the twelfth: Orangemen's Day.

As I grew older, we no longer attended the Orangemen's Day parades every year - they had grown smaller and sometimes they were held too far away for men's Day parade that I saw
