

From the Editor's Corner

Last week we questioned a meat item in the advertisement for McArthur's Food Market. The item read "Hickory Sticks" and we thought perhaps it was an error. We had never heard of them. Bob McArthur assured us that the wording was correct and later in the day proved the point... he came into the office with samples for the editor and the Chronicle staff. In case you've never heard of it, Hickory Sticks are a highly spiced luncheon meat, mighty good, too.

How much is a one Lira note of Allied Military Currency issued in 1943 worth? Nothing, we suspect. A note of this denomination was found in Cass City by Jim Grannell of Elkton. A check at the bank failed to reveal if it has any value. If you know, let us hear from you.

Water Carnival Ends Recreational Program at Park

Lack of funds forced the summer playground to discontinue its program after five weeks this year.

An average of 150 children a day took part in the recreational activities at the park. This was the estimate of Mrs. Lillian Yedinak, playground director.

Swimming lessons are also discontinued except on a voluntary basis. Mrs. Yedinak and Mrs. Jerry Priekorn will continue to teach the water ballet class in order that it demonstrate during Homecoming August 8.

The playground wound up the summer with 150 to 200 children taking part in the Water Carnival July 25.

"We wish to express our thanks to Dr. William H. Walker, Matlack, David Binder, and Bob Doerr, who helped in this event so efficiently," Mrs. Yedinak said.

Ninety prizes were awarded at the Water Carnival and each child who competed was given some candy. Ten dollars were thrown in the pool and Barbara Ballard and Carl Weippert retrieved the silver dollars with Dorothy Yedinak retrieving the bills. Other children retrieved from 1c to 87c each.

The judges for the Water Carnival were Walker Matlack, Dr. H. J. Ball and Diane Yedinak. Prizes were gift certificates for the Dairy Mart in Cass City.

Winners in the six-year-old and under division were: underwater endurance, first, Patty Rabideau, second, Kathy Spratt and third, Mary Eschelman; innertube race, first, Jean Alexander, second, Mike Yedinak and third, Paul Alfano; freestyle race, first, Kathy Spratt, second, Arden Lapp and third, Jeff Jeffery; and rock race, first, Nancy Kerbyson, second, Mike Yedinak and third, Mary Eschelman and Paul Alfano.

In the 7-to-10-year-old division, the winners were: innertube race, first, Donna Yedinak, Anne Bule and Frank Holes, second, Barbara Ballard, Susanne Rabideau and Kathy McCullough, and third, Jeanne Doerr, Kenny Nicholas and Dale Ashmore; and in the relay race, first place went to Frank Holes and Harold Douglas, second, Danny Nicholas and Joey Mark and third, Jeanne Doerr and Carla Calka.

Winners of the 11-year-old and over were: underwater distance, first, Becky Champion and Larry Guilds, second, Dick Stroupe, Larry Hughes and Kathy Herhalt and third, Jerry Guild and Kathy Hughes; race length of the pool, first, Linda Lebloda and Jerry Guild, second, Kathy Mark and John Herhalt and third, Kathy Herhalt and Larry Hughes. The winners of the open conclusion on page ten.

Bad Axe Fair Slates Week of Fun, Excitement

Six big days are scheduled for the 93rd annual Huron County Fair at Bad Axe this year. Horse pulling, harness racing, livestock shows and parade, Huron County Bean Queen crowning and action-packed stage shows make up only part of the fair activities from August 7 through 12.

Monday night there is a free gate with horse pulling under 3,200 pounds starting at 7:30. Tuesday's events open at 9 a.m. with 4-H and FFA judging, pony races at 1:15 p.m. and five wrestling bouts, including Brute Bernard, Cry Baby McCarthy, Wee Dave Duncan and midget and tag teams, at 8.

Wednesday is Children's Day. Again at 9 a.m. there is open class judging, with the Owendale-Gagetown High School Band performing at 1:30 p.m., running races and 4-H and FFA contests at 2, and the livestock parade led by the State Dairy Princess scheduled for 7:30 p.m.

At 8 p.m. Wednesday Bill Roh will be master of ceremonies at a talent show and the Youth King and Queen crowning will take place.

Thursday will see the Sebewaing High School Band perform at 1:30 p.m. with wagon races and a machinery parade at 2. At 7:30 p.m., acts by the Egony Brothers from Denmark, the Williams Twins, the Wilson Sisters, Hammond's performing Australian Cockatoos, Ray and Dolly Lindy cyclist juggling and clowns will entertain the expected record crowds.

Friday it's time for the Elkton-Pigeon-Bay Port band at 1:30 p.m. and the crowning of the Huron County Bean Queen at 7:30 followed by a full stage show.

Saturday winds up the fair with two performances by the Hurricane Hell Drivers at 2:30 and 8 p.m.

The two two-hour shows are billed as the original compact car thrill show and features precision driving and motorcycle acrobatics. Dan Fleener, George Patton, Jim Trainor and Pete Gross together with the circus clowns are billed to defy death as they race, crash and smash their way through 28 events.

The fair features four days of afternoon harness racing starting about 2 p.m. August 8 through 11. Jerry Cleary will announce the action while Mel Williams takes care of the photo-finish. There will be stage acts between the races.

The midway will be filled with rides and shows by Happyland Shows of Detroit.

New Street Signs Installed for Village

The village of Cass City installed 23 street signs on Main and Seeger streets the first of this week, according to Wilma Fry, village clerk.

The total cost of the signs, including installing, is about \$400, Mrs. Fry said.

In a special election Friday, July 28, Evergreen Township School District voters turned down, 40 to 28, the proposal to build a garage and storeroom.

Had it been approved, the addition was to be a separate structure away from the present school building, according to Secretary Otis Dorland.

The building was planned to store school supplies as well as oil and gas. The present insurance rates would not have changed because the planned building was separate from the school.

The teaching staff is set for this year, Mr. Dorland said. When school opens Sept. 5, the following teachers will be on the staff: Ruth Smith, kindergarten; Mabel Bailey, first and second; Marilyn Wendorf, third and fourth; Marian Gray, fifth and sixth; and Alison Brown, seventh and eighth grades.

Deford Man Fined

James Edward Kish, 20, of Deford was sentenced to pay \$29.30 in fine and costs or serve 15 days in the Tuscola County jail, when he pleaded guilty in Cass City, July 31, to reckless driving.

Kish was driving, without his lights, trying to elude Deputy Sheriff Berry and Palmateer, when his car left the road, drove down a power line right of way, hit a fence and went into a ditch beside the Grand Trunk Railroad at Mushroom road about 12 a.m., July 28.

He was issued a summons to appear before Justice of the Peace Reva M. Little. He paid the fine and costs.

Cass City Librarian To Attend Workshop

Mrs. Reva M. Little, librarian of the Cass City and Elkland township public library, will attend a state library workshop for some 70 librarians from 37 counties in Michigan, August 6 through 11, at Ferris Institute in Big Rapids.

This workshop is offered to persons working in public libraries throughout the state who must renew their certificates of library experience as required by the Michigan State Board of Libraries.

Librarians must attend two workshops within a span of three years in order to obtain a certificate and then must renew it every three years.

No Injuries in Car-Tractor Mishap

A non-injury accident involving a car and a tractor Tuesday, July 25, was reported to officials of the Tuscola County Sheriff's Department.

The tractor was driven by James Walters, 12, of rural Cass City and was hit in the rear by a car driven by Robert F. Pliska of Norfolk, Va.

The tractor was attempting to turn into a yard on M-51 near Gagetown Road when struck by the Pliska vehicle.

No tickets were issued. Damage to the tractor was confined to the left back wheel. The left front end and headlights of the car were damaged.

Local Senior Citizen Recalls Early Years

By Mary Basing

"It's better to raise children on a farm."

The reason? "It's easier to control them. They don't run with so many other children." This is the opinion of a sparkling blue-eyed senior citizen, Mrs. Elizabeth Phillips, who celebrated her 94th birthday July 21.

Born in Canada in 1867 as Elizabeth McLaren, Mrs. Phillips is the daughter of the late Margaret Grant and Henry McLaren. Her mother died when she was seven, leaving five children ages five through nine.

"It must have been hard for my father," Mrs. Phillips said.

Her family lived in a log cabin near Lake Erie until she was 15 then came to live near Shabbona. "Why, it was only two houses and a store when we first moved there," she said.

In 1884 Mrs. Phillips married Henry Phillips, who had come to the Shabbona area in 1881 and cut his farm out of the woods. "I was a silly girl to marry that young (17) but I got a good man," Mrs. Phillips said, laughing.

The Phillipses, with their five children were pioneers, and helped settle the Shabbona wilderness. In 1924 they moved to a farm near Marlette. Mr. Phillips died in 1940.

Mrs. Phillips has four children living. One of her sons, Roy, was superintendent of Alma Public Schools for 30 years and is now in charge of Alumni Relations at Alma College.

Her other son, Clark, is a Methodist minister at Muskegon Heights. Her daughters live near her; Mrs. Avon Boag in Cass City and Mrs. George Cooper at Marlette.

Mrs. Phillips has 10 grandchildren, 32 great-grandchildren and is expecting a great-grandchild soon.

Since 1959, Mrs. Phillips has lived at Stevens Nursing Home. When asked if she liked it there she said:

"Well, I guess it's as nice as anywhere could be away from home. You couldn't ask for a cleaner place. Everytime you look around, there they are with a mop and a broom."

Mrs. Phillips seldom gets out of bed anymore. She said she used to be "quick on my feet" but now she spends most of her time reading.

New Signs Welcome Visitors to Cass City

Cass City is graced with two new signs to the east and west of town courtesy of the Chamber of Commerce and the Zonta, Lions and Rotary International organizations.

The signs, mounted on white pipe framework, went up last week. The cost including the electrical lights is about \$400, according to Tom Jackson, past president of the Chamber of Commerce.

The Chamber of Commerce's total cost for the signs will be about \$300. The remainder of the money will come from the organizations represented on the signs, each paying \$80, plus the costs of their emblems.

"The Welcome to Cass City signs eliminate four or five signs strung out down the road," according to Mr. Jackson, who initiated the idea of the signs.

Board Tells Plans for Cutting School Costs

Doused Gagetown Firemen Succeed With Field Day

Doused for the second year in a row, the Gagetown Firemen lost their water battle with the Owendale Fire Department, July 30, at the second annual Gagetown Firemen's Field Day, July 29, 30 and 31.

Gagetown Firemen's Treasurer, Jack Downing, called the Field Day a success. "We made out okay except for the power failure Saturday night," he said.

Curtis Burkin of Almont won the new Philco television. Gagetown won the 12-inning softball game from Flint, 2-1.

Mr. Downing estimated that a crowd of about 400 persons took part in the Field Day Saturday with lesser crowds Friday and Sunday evening.

The Field Day featured Little League baseball, fireworks, rides, games, refreshments and concessions.

The amount of money the fire department made was not yet known, according to Mr. Downing. However, he said at least part of the money would go to expanding the Christmas decorations.

Last year the money was used to buy Christmas decorations for Gagetown and to send Gagetown and Owendale children to Tiger Stadium.

New Books Available At Cass City Library

Adult readers have seven new books available to read at the Cass City and Elkland township public library.

Included in the books made available this week are: "The Winter of Our Discontent" by John Steinbeck; "The Edge of Sadness" by Edwin O'Connor; "At Last To Kiss Amanda" by Frank Norris; "And Four To Grow" by Charlotte Paul; one western and two mysteries.

Alexander Burned

Jack Alexander, 18, suffered slight burns on his face, arms and shoulders when he was sprayed by hot oil from an overheated electric transformer on a utility pole, Saturday evening, July 29, at the Gagetown Firemen's Field Day.

He was treated that night at the Hills and Dales General Hospital and released Sunday, July 30, at noon.

The Cass City School Board recently approved 14 measures designed to cut school operating costs and bring expenditures in line with revenue.

The move was made necessary after school electors voted not to approve a special three-mill tax for operating at a recent special election.

The board abolished all stops to pick up children within the village limits. Only children living a mile or more from the school will be transported. The area will be determined and mile radius points established.

Only essential bus trips will be made. Any fringe uses of buses will be discontinued.

Reduce Curriculum

The school curriculum will be adjusted in eight ways. The art department will be partially eliminated. There will be instruction in the grades only one day a week.

An extra teacher, needed at the high school, will not be hired. An attempt will be made to eliminate all sixth hour classes. Teachers are paid for five hours of classes and if they teach a sixth hour they are paid an extra \$500.

Eliminated has been girls' physical education. This course was started last year.

Curtailed will be the Junior High Athletic program.

The number of films rented, outside assemblies where guests speak or demonstrate to students and counseling service will all be reduced. The school had planned to have a full time counseling service and has reduced it to a half day.

Other Economies

Other economies will include drastic reductions in supplies, equipment and maintenance.

In addition, the school will increase its revenue by increasing fees. Cost to elementary students for supplies and workbooks will jump from \$4 to \$6. It is expected that the school will net some \$1,200 from the boost.

Another increase will be for farm shop and general shop fees that will go from \$2 to \$4. Because of the smaller number of pupils the amount received will not be great.

Another increase in fees will be for the use of the elementary gym and the high school gym. The cost will go from \$7.50 to \$10. Any janitorial, attendant or kitchen services will be added to this fee.

It has been estimated that these measures will save the school approximately \$15,000. However, until they are put in operation there can be no exact saving figure established.

School authorities said that these economy measures will not balance the budget. The remainder of the funds needed for operating will come from reductions in capital expenditures such as desks, typewriters and other school items.

Bumper Wheat Crop

A bumper wheat harvest is in sight for area farmers providing that the weather cooperates in the next 10 days.

Veteran elevator men are calling the harvest one of the heaviest in years. Yields from 40 to 70 bushels an acre have been reported. Average yield is estimated to be better than 50 bushels to the acre.

However, all of the grain is wet. With about a quarter of the harvest in, there has been virtually no wheat that did not require drying.

Biggest concern to area farmers is the weather. The wheat cannot stand any more rain and escape damage. No sprout was evident Tuesday at the elevators, but another rain could damage the grain which was dead ripe and ready for harvest early this week.

Civil War Relics On Display at Edison in Caro

Civil War weapons and other authentic relics of the war between the States will be on display August 7-18 in Detroit Edison's Caro office, 125 W. Lincoln Street.

Vincent Blasius said the exhibit, which includes three guns recovered from the battlefield at Gettysburg and several other weapons of particular interest, will be open to the public from 8 a.m. to 5 p.m., Mondays through Fridays during the two-week period.

The firearms include eight carbines, 12 revolvers and 12 muskets or rifles. In addition, there are Army and Navy swords, Bowie knives, canteens, bullet molds, cartridges and other items used to equip an army of 100 years ago.

Coming Auctions

Saturday, Aug. 5—Delbert Healy will hold a dairy auction at the farm, five miles west and two and a half miles south of Cass City on Green Road.

Saturday, Aug. 12—Miles Henry will hold a farm auction at the place, one mile southwest of Caro on M-81, then two and a half miles west.

Saturday, Aug. 19—Chester Woods will hold a farm auction at the premises, one mile west and one mile south of Deford on Phillips Road.

Bad Axe Teenager Backs Too Far, Local Man's Car Damaged

Dennis Hacker, 16, of Bad Axe, backed his car into a parked car owned by George Rabideau, 67, of Cass City, Saturday afternoon, July 29.

No one was hurt on the mishap near Grindstone City. Rabideau Motors of Cass City estimated that from \$50 to \$100 damage was done to Mr. Rabideau's vehicle.

No tickets were issued.

Sign Now for August Band Camp

Cass City High School Band Director Donald Gillette has announced that applications for the Band Camp in August may be returned until August 10. Members of the high school band are planning a three-day work and play session at the Lake Huron Methodist Camp near Jeddo August 28-31.

Cass Theatre "Gone With The Wind" 3 days Starting Friday, Aug. 18. Adv. 8-3-8

NEW SIGNS have been erected on the east and west approaches to Cass City. Tom Jackson, a member of the Cass City Chamber of Commerce Board, was the coordinator in the project. The signs are lighted and total cost will be \$400. The Zonta, Lions and Rotary clubs each paid \$80 and the remainder will be paid by the Chamber of Commerce.

Have Soil Tested Now Says Agent—Now is the time to take soil samples and send them to a soil testing laboratory.

During July and August very few soil samples are submitted for test, remarked Don Kelber, County Extension Agent in Agriculture. Yet in September the laboratories are hard pressed to complete the deluge of tests coming in for wheat planting. Some of the laboratories don't complete on time.

It is easy to take samples and all the tools that are needed are a clean pail, soil sampler or spade and bags to put the sample in.

Each soil sample collected should be a composite of a minimum of 20 sub-samples taken over the entire field. One spade-ful from a given field is not representative of the field.

Keep out of unusual areas such as old fence rows, dead furrows, potholes and in areas where fertilizer has been banded this year. Sample to plow depth and mix the sub-samples of one field together and submit a part of this mixture for test.

For the farmer who doesn't feel he has the time to take his own samples there is a soil sampling and testing service available to him. For a cost of 20c per tillable acre, a trained man will come out and sample his soil. There is a minimum charge of \$15, which amounts to 75 acres to be eligible for this service.

All soil samples are tested at the county soils laboratory, in the Farm Bureau Office, Caro. Fertilizer recommendations come from the Agricultural Agents office.

Any person interested in the soil sampling and testing service can contact either the County Agents office or David Loomis, Cass City.

One of the problems some people never solve in this life is that curves can make a triangle.

Faith is a fine thing—but keep more of it in your heart and less behind the steering wheel.

Theories always look mighty good until the time comes to put them to a practical test.

Mentally Ill Need All the Help That They Can Get

By Elmer E. White
Michigan Press Association
Thirty-five thousand Michigan citizens need all the help they can get.

They are the mentally ill men and women in the state's institutions where care is given to persons with problems ranging from major personality deviations to complete disassociation from reality.

Michigan will spend \$76 million in the current fiscal year, which started July 1, to take care of mental health needs.

Tragically, all the mental patients in the state don't get the kind of care they should. The Mental Health Department is handicapped by what it terms an unrealistic budget.

Legislators determined that \$76 million was the proper amount and suggested administrative belt tightening so that the department could live within its appropriation. Mental Health wasn't the only field which claimed it was short-changed by the appropriating committees of the Legislature.

Politicians are divided on the appropriations question with some saying nobody got enough, others saying the need is for economy in government instead of more money and a third group saying that it would have been wise to increase the operating

Recommend Best Fly Control Method

Flies become a problem this time of year if controls are not used. Their control can be easy once a program is started and continued, reports Don Kelber, county extension agent in agriculture.

One of the first steps to rid the barn and yard of these pests is to clean up the areas of breeding. These are largely the manure pile. After cleaning up these areas insect poisons add the knock-out punch to the survivors.

D. D. T. no longer will kill flies and it is not recommended any more. However the following materials when used correctly will do the job, says Kelber. None of these materials can be used in the milkhouses. But if the controls are made outside, the few flies in the milkhouses can be controlled with flyboards.

Materials recommended for fly control are Lindane, Methoxychlor, Malathion, Diazinon and Korlan. They can be used as a spray or fog treatment. Baits are made of Malathion, Diazinon, and Diptex. Whatever material is used follow the direction on the label.

Also follow these simple directions of use: (1). Do not apply to areas of feed storage or watering cups; (2). Keep animals out of the area while spraying; (3). Never use in milkhouses; (4). Apply sprays only to the point of dripping; (5). Apply baits to clean cement or areas where flies gather; (6). Remove materials from your clothes and skin, and (7). One of the materials may not work so try one of the others. Flies build-up an immunity to certain poisons.

From the cradle to the grave mankind has an angle—new parents soon learn whether their baby is crying for cause or effect.

Don't attempt to prove everything you say—it isn't worth it.

money in at least some areas of government. Politicians are not so divided when it comes to pressure to keep taxes down. They must chart their courses according to their feeling for the people in their home areas.

But practically all those who believe some increases would have been in order say Mental Health, and possibly higher education, should have been considered for more money.

In addition to the 35,000 institutionalized mental patients in Michigan, another 4,000 are convalescents either at home or somewhere else where they can be handled on an out-patient basis, another 2,300 or so are awaiting treatment and about 200 inmates at Southern Michigan Prison, Jackson, have been called dangerous psychotics.

Keep in mind that these figures represent only the mental cases under the auspices of the state, not private hospitals and sanatoriums.

Because of overcrowding, inadequate staff and lack of money, the patients already being treated are unable to get the competent, professional care they need and the backlog of patients waiting for admission continues to grow.

Of all the areas of state government activity, the care of mental patients should be among those getting top priority, simply because people with mental problems need help so badly.

Plague! The word which strikes terror in many countries of the world means little to most Michigan residents.

But "plague" of a sort, Cholera, swept the primitive frontier town of Detroit in 1834 and estimates are that one-eighth of all the people living in what was later to become the Motor City of the United States died of that plague that summer.

Even the territorial governor, George B. Porter, was felled by the sickness and died.

It all seems remote in these days of alert public health officials, sanitary living and wonder drugs. The cause of the plague in 1834 was as common then as inside plumbing is now: open air drains wherein ran all manner of pollution.

The open drains of Detroit in that era would be enough to make the present day Water Resources Commission throw a fit.

But the deadly germ that killed the people of Detroit well over a century and a quarter ago was at least partly responsible for today's modern sewage systems. After the plague hit a second time, the open drains in Detroit were ordered closed over. Piped sewage systems were here to stay.

If the legendary Paul Bunyan were alive today, he'd have some organized competition from the State Highway Department.

While the road builders aren't serious lumbermen, they do make use of the trees that have to be cut when clearing right of way. Not for the old "corduroy" roads and not for bridge pilings as might have been done in times past.

Today's highway builders simply saw the logs up into convenient lengths and sell them to anybody who will buy.

There is not a great deal of lumbering done in the course of road building, but enough so that a single project earlier this year netted the Department nearly \$4,000.

That one sale consisted of some 86,000 board feet of logs cut into 12, 14 and 16 foot lengths.

Present-day Paul Bunyans will want to know that the trees cut to produce the logs were Sugar Maple, Basswood, Hemlock, Yellow Birch, Black Ash and Elm.

Plan Ahead, Leave Worries Behind

Wise is the family that plans ahead for a smooth summer vacation. By mapping out trips and taking time now to ready tents, trailers, boats, and other gear for use, families can sidestep last-minute delays in their vacation fun. If your family is going to spend its vacation at a state park this summer, here's another time-saving tip: Buy your entrance permit now to avoid waiting in line for one during the jam-packed season. An easy way to beat the rush is to mail \$2 by check or money order to Michigan Department of Conservation, Publications Room, Lansing 26. In return you will receive a decal permit (top photo) which must be attached to the lower right-hand corner of your car's windshield. Annual permits are also on sale at about 900 hunting and fishing license dealers, any AAA office in Michigan, and all state parks.

Agent's Corner

Frances T. Clark
County Home Demonstration Agent

Mrs. Mary Ellen Delsipee, home economics extension agent from Saginaw county, asked me to notify homemakers in Tuscola county about a new entry at the Saginaw County Fair this year. The entry is for creative hats. These hats can be feather, covered buckram frame or felt. I hope that some of the beautiful hats that were made in our county will be entered. Saginaw Fair dates are September 10 to 16.

Have you ever stopped to wonder how the low prices for broilers can continue seemingly indefinitely? The answer lies in the changes which have taken place in the broiler industry during the past 20 years and we as homemakers are reaping the benefits.

No longer is the production of broilers a side line on the farm to earn a little "pin" money. The broiler business is a big business, scientifically controlled from beginning to end. These changes have come about through team work; among people in research, producers and processors. Through research came the breed which gives us a "meaty" broiler, one that is high in proportion of meat to bone. Another interesting note, through research they tried to find a suitable breed with as many white feathers as possible for they are removed more easily than dark feathers. This one factor reduces production cost for us.

Just as our bodies require the correct food nutrients for good health, the right combination of feed for broilers has produced astonishing results.

Through the use of scientifically balanced formulas, broiler chickens have become the top meat producing animals. In 1930, each 100 pounds of feed resulted in 20 pounds of edible chicken meat. Today, for the average size broiler only 6 to 9 pounds of feed is required. In 1945, it took 12 to 13 weeks to produce a broiler ready for market. Today it takes about 8 weeks. Again, the savings are passed on to us.

Processing chickens for market did not escape study. Thanks to modern, automatic processing equipment now in operation, the 3,000 to 8,000 birds per hour ready processing plant can turn out to cook.

There are 22 states that make up the chief broiler producing areas. Georgia since 1951 has been the leading broiler state. Now Georgia's processing plants are turning out broilers at the rate of 5,000,000 per week.

I think we all should salute the broiler industry for continuing to give us an abundant supply of broilers so economically priced and so wholesome we can have chicken any day of the week.

BULEN TALKS Cars

BERLIN, COMMUNISM AND CARS

Nikita Krushchev recently told President Kennedy that Berlin had become a "bone in his throat" that was choking him. It's no wonder when you look at the figures for refugees from East Germany fleeing the Worker's Paradise through that beleaguered city.

Since 1945, some 4,000,000 East Germans - one fourth of the population - have fled to the West. Since 75 per cent of these escapees are under 45, the age group most needed to boost production, the Communists may soon have to shut down numerous factories. Diplomats in recent weeks estimate the loss of another 100,000 would necessitate this.

What are they fleeing? Take the case of the Communist motorist. If he is fortunate enough

to persuade the one dealer - the government - he needs a car, it will cost him three to four years of his wages. And what a car! No comfort, no accessories, no style. And performance that isn't comparable to the lowest-priced American automobile.

Repair garages and service stations, which don't offer oil or lubrication anyway, are so rare that motorists must carry do-it-yourself kits with them. Anti-freeze is tested by tasting it and other methods are equally antiquated.

There is one advantage though - you can always find a place to park. Last year, ALL SIX Iron Curtain countries produced 241,990 cars. The U. S. alone produced six million. More than two-thirds of the WORLD'S automobiles are owned in North America and they require only ten per cent of the population's income to maintain them.

If you were an East German motorist with a choice, which side would you choose?

Name Tuscola Park

For Merle Lloyd

A roadside park in Tuscola county has been named in honor of Merle C. Lloyd, a State Highway Department road design engineer, who will retire Saturday after 37 years of service, it was announced today.

State Highway Commissioner John C. Mackie said the park, named the "Merle C. Lloyd Roadside Park," is on M-46 and the Cass river just north of Vassar, about 25 miles from Lloyd's birthplace at St. Charles.

Chief Engineer John E. Meyer presented a replica of a roadside sign to Lloyd at a noon luncheon which was attended by Lloyd's mother, Mrs. William Lloyd of St. Charles; his wife, Helen; and son and daughter-in-law, Mr. and Mrs. Barry Lloyd, besides about 100 friends.

Today everything we have is taxed—even our time and patience.

Mr. and Mrs. Douglas Elder of Mancelona were guests for two days last week of Mr. and Mrs. Clair Tuckey.

Mrs. A. A. Ricker had as week end guests her sister and husband, Mr. and Mrs. Amos Weaver of Flint.

Mrs. Charles W. Rollman and four children of Green Bay, Wis., are visiting her mother, Mrs. Margaret Haire, this week. Mrs. Haire and Mrs. Sadie Rolison met the Rollmans at Ludington Saturday evening.

Mr. and Mrs. Keith McConkey have been in Chicago part of this week at a Christmas merchandise showing in connection with their gift shop business. Chicago's wilting summer heat soared to the 90's.

Miss Jane MacLachlan was the guest last week of Miss Bonnie Parker at Berkley. Friday Mr. and Mrs. Harold Parker, Bonnie and Roddy brought her home and were dinner guests in the Don MacLachlan home.

Mr. and Mrs. Ray McGrath and children of Royal Oak were Sunday dinner guests of Mr. and Mrs. Arthur Kelley. Mrs. McGrath and children, who had spent a week in company with relatives from Caro at Caseville, remained to spend the week in Cass City and in Caro.

Danny Freed and Sue Bowers, who had spent two weeks here with Danny's grandparents, Mr. and Mrs. Clair Tuckey, returned home last Thursday. The Rev. and Mrs. Fred Johnson took them home to Elkhart, Ind., and returned to Bronson, Mich., where Rev. Johnson officiated at a wedding before returning to Cass City.

Mrs. Gordon Storton and children, Mary, Hugh and Allison of Kerwood, Ont., spent from Friday until Monday with Mrs. Storton's mother, Mrs. Grant Howell, and visited Mr. Howell in the VA hospital in Saginaw. With Mrs. Storton and children was a friend of the family, Louis Janson, whose home is in the Netherlands.

Seventeen were present last Thursday when Mrs. Walter Anthes entertained the Women's Society of World Service of the Salem EUB church. There will be no local meeting in August but members will attend on Aug. 18 at Sebewaing the Bay Shore camp missionary day program. The local church will be host in April to a meeting of district officers of the WSWs.

Mr. and Mrs. Alan Smith and Mr. and Mrs. Lee Briggs of Flint, together with Mr. and Mrs. Russell Ayres of Cass City, spent Sunday at Saginaw Bay.

William Lundby of Detroit came Sunday and Mrs. Lundby and two children who had spent a week here with her parents, Mr. and Mrs. Cletus Morell, returned home with him. Mrs. Lundby came to attend the funeral of her grandmother, Mrs. Rose Morell.

Thirty-four were present last Thursday afternoon and evening when the Golden Rule class of Salem Evangelical U.B. Church met for a monthly business and social meeting at the Leonard Damm cottage. Mrs. Lawrence Bartle conducted devotions. Boating and a potluck supper were enjoyed. The class will meet Aug. 17 at the Harris cottage at Caseville and Aug. 31 at the Dillman cottage at Forester.

Fourteen were present July 26 when the Nellie M. Young past matrons club of Echo chapter OES met with Mrs. Clifford Martin. Mrs. A. R. Kettlewell presided over the business meeting. Games were played after Mrs. Arthur Little reviewed the life of Rebecca of the Old Testament. Dessert refreshments were served by the committee in charge. Get-well cards were signed to be sent to two members, Mrs. John West and Mrs. J. C. Hutchinson.

Mr. and Mrs. Joseph Gruber Sr. will celebrate their 50th wedding anniversary Aug. 6.

Seibel-Kretzschmer Married July 22

Miss Norma Jean Seibel, daughter of Mr. and Mrs. Carl Seibel of Sebewaing, married William F. Kretzschmer, son of Mr. and Mrs. William Kretzschmer of Owendale, July 22 at 7:30 p.m. at the St. Peter's Lutheran Church at Bach.

The bride's gown was of imported silk organza and re-embroidered Alencon lace. The fitted Empire bodice was enhanced with a scalloped neckline also re-embroidered lace. The silk sleeves were designed with pearls and sequins. The full skirt of silk organza had pleated tucks at the sides and back and handcut lace medallions. The gown was complemented by a chapel train.

The Rev. E. W. Scheck officiated while the bride's sister, Ruth Nicholas of Gagetown, was maid of honor. Other bride's attendants were Maureen Silvernail of East Lansing, Kathy and Janice Kretzschmer of Owendale, sisters of the groom, and Judy Gettle of Bay City.

The bridesmaids' dresses were of silk organza with fitted tops and rounded necklines. They had cap sleeves and full shirred halter-length skirts adorned with rosettes.

They wore picture hats of silk. The shirred rim was decorated with sequins, with a small bow and streamers at the back all in a matching shade of lilac to complement the dresses.

Best man was Charles Kretzschmer, cousin to the groom. Other groom's attendants were Rola Kretzschmer, cousin of the groom, Carl Seibel of Sebewaing, brother of the bride, and Richard Nicholas of Gagetown.

The flower girl was Arlene Seibel of Flint a cousin of the bride. Junior groom's man was Gerald Seibel of Flint.

Four baskets of white orchids, mums and gladioli decorated the church. The reception for 500 guests was at the VFW Hall at Sebewaing Saturday evening.

The wedding trip took the couple to the southern states. They will live in Norfolk, Va., where the groom is in the U. S. Navy.

60 Persons Attend Parks Reunion

Crampton Park in Lapeer was the scene of the Parks Reunion July 23.

About 60 persons attended. Grandchildren, great-grandchildren and great-great-grandchildren of the late Mr. and Mrs. William Parks, former residents of Deford, number about 100.

The man who tries to make a big splash usually finds himself in hot water.

Former Resident Visits in Cass City

Old-time residents of Cass City were visitors in the community this week. Renewing old acquaintances were William and Gladys Deming.

Mr. Deming left the community shortly after he graduated from Cass City High School in 1914.

He makes his home in Front Royal, Va. He was the cashier of the Fauquier-Louden Bank at Front Royal from 1917-1921.

He worked as manager of the Front Royal branch of the Schwarzenbach-Huber Textile Co. for 30 years.

After he retired he served as mayor of Front Royal, a community of some 10,000 persons. In 1957 he was named postmaster of the city. He is now retired.

Campbell Director Of Montana Bank

A former resident of Cass City has earned prominence in business and civic and social organizations, according to an article in the Inter Lake, a Kalispell, Mont., newspaper.

Harry W. Campbell, a graduate of Cass City High School, is on the board of directors of the Pacific Power and Light Co. He is also president of Waggoner & Campbell, a Kalispell mortuary.

Mr. Campbell was appointed a director of the Conrad National Bank in March of 1948 and is now the oldest director in point of continuous service.

His broad experience, the article says, includes exemplary service in virtually all phases of community interest.

ENGAGED

Judith Ann Spencer

Mr. and Mrs. Russell Deneen announce the engagement of their daughter, Judith Ann Spencer, to Glenn Churchill Jr., son of Mr. and Mrs. Glenn Churchill of Cass City.

No date has been set for the wedding.

MICHIGAN IS RESEARCH

Research and industrial progress go together like sales and profits.

Michigan knows this. As a result Michigan college and university research facilities are at the service of industry. They have research contracts amounting to over 20 million dollars a year distributed over 40 research areas.

Research is the key to new and improved products. Michigan's outstanding position in research is one of the reasons this state is a great place for industry to locate and to grow.

I Have to Hear The Bagpipe Band

By Hene Warren

Whoever planned the Homecoming parade has made me look forward, for first time, to this feature of the annual festivities. We may no longer have Orange-men's Day parades with the pipers piping (and it's good that this day has lost its meaning with past injustices - both real and imagined - buried and forgotten) but I was right happy to read in the Chronicle that a bagpipe band is to be featured at the Cass City Homecoming.

For the first time, too, I'm planning to attend the Homecoming in the afternoon... I've just got to hear and see the Cloverettes Scotch Band Concert at 2 o'clock.

Thank you, whoever you are, for having a bagpipe band this year!

Speaking of band concerts, my husband and I, when we lived in Red Run Heights near Royal Oak, often drove out to Belle Isle of a hot summer's night to enjoy the band concerts presented there.

The temperature seemed to be cooler on the island and we'd stroll around being refreshed until time for the concert to begin. Then, hustling to the band shell, we'd find seats near the front where we enjoyed the concert under the direction of Leonard Smith.

Occasionally, on the radio, we chance upon a broadcast of a band concert from Belle Isle and we remember those nights we were there and how much we enjoyed them.

Recently, an article appeared in a magazine expressing concern for water contamination caused by detergent wastes. Also, the Wildlife Conservation Department had a recent announcement on TV regarding this newly recognized problem. They are concerned not only with rivers and lakes but also the underground water supply.

One suggestion presented is that housewives should be careful to use detergents only as directed and should try to avoid over-use. Is this bye-bye to detergents?

I was surprised that the zoning ordinance for Evergreen Township was turned down by the township electors last week. Less than half the registered voters turned out - perhaps those who favored the ordinance were a little over-optimistic and failed to come out to exercise their franchise.

I heard this comment: "It's just one more way to tell us what we can't do." Perhaps - but, as usual, there's another way to look at the ordinance: it can also be a protection against the things that we don't want to be done.

The ordinance was an attempt to effect a progressive movement - perhaps a bit premature for some but I wonder how long before we shall have to recognize the inevitable?

I recall a little prayer credited to Admiral Hart: "Dear God, give us strength to accept with serenity the things that cannot be changed. Give us courage to change the things that can and should be changed. And give us wisdom to distinguish one from the other."

TIP TO MOTORISTS
People who think international law can humanize warfare should remember that we have many highway safety rules.

Visitor's viewpoint

By Mary Basing

I missed the 4-H Wranglers' horse parade, July 23, but Laura Bigelow said she got a lot of enjoyment out of seeing one girl try to board a mule. The girl made four or five tries, to swing her leg over the animal, but each time didn't quite make it. Finally, just when Miss Bigelow said she thought the girl could lead the animal to some steps and climb on, the girl took run, flopped her leg over and landed herself up on the mule. Boarding a bareback mule takes much perseverance as persuading me to get up in the morning.

Dale Damm says he has yet to get his name in the paper.

The new street signs the village put up last week are certainly an improvement over the old ones. As a newcomer in town, especially one sent all around to talk to people, I can appreciate Cass City's progress.

Someone suggested that Cass City could use a creative community center. There, people could learn to draw, paint, sculpture, play available musical instruments, do handicrafts and perhaps dance.

A non-profit organization could run the center: find studios to work in, keep the center open 24 hours a day, make coffee available and get personnel to teach.

The one thing lacking is cheap or rent-free studio space. I remembered the unused second and third floors I explored a few weeks ago. This town has enough unused building tops to provide space for two centers.

For 83 years a book rested on the shelves of the Boston Public Library. Presented in 1873, no one ever paid much attention to it.

Then last week someone discovered marginal notes and other handwriting by the author.

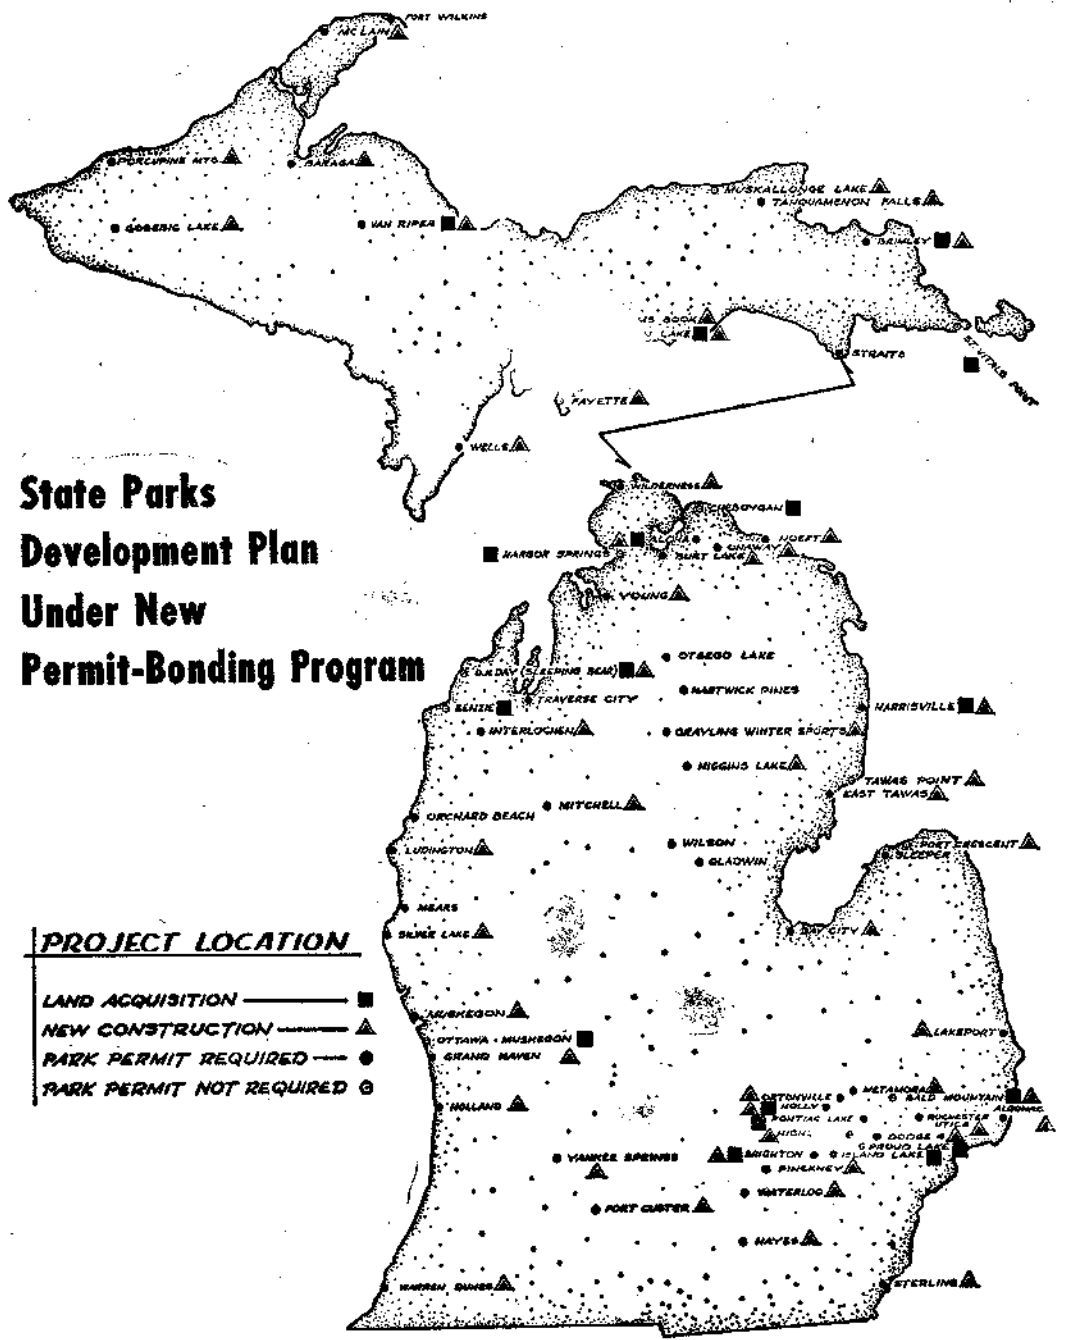

The new rare book? "Experiments and Observations on Electricity," by that old kite-and-key man, Ben Franklin.

I can see Franklin adjusting his wig, pulling up a stocking, snapping a garter and generally settling himself on the new shelf.

A pessimist is an average man so confused he tries to go full speed ahead in reverse.

Here, Michigan state parks users, is where your new permit fees will go to work under a \$5,000,000 bonding program recently approved by the Legislature. The program calls for \$1,000,000 in new parks lands and \$4,000,000 in improvements to campgrounds, picnic areas, toilets and bathhouses, and other facilities. All receipts from permit sales are earmarked to retire bonds which will under the land buying phase of the program are two new parks, where some 380 acres have already been approved for purchase, and additions to established parks. Construction work scheduled for September will add some 1,300 new camps, as 35 miles of road improvements, and facilities for an additional 3,100 daily visitors and 1,750 bathhouses at one time. Over a season, improvements will take care of 50,000 camping groups now being turned away for lack of space and provide for approximately 200,000 additional day visitors annually.—Mich. Ballweg Tells of Drought on Plains

Editor's note: Alfred Ballweg, Tuscola County Agricultural Agent, gives a first person report on conditions. As he found them in the Plains states.

If any Tuscola County farmers or businessmen are inclined to be concerned about crops and the trend of business, they will have lots of company by making a visit through the drought area of the Great Plains States. Conditions are far from as severe as they were during 1934-1936. But nevertheless they are so bad in some areas that farmers will harvest no cash grain crop at all.

Mrs. Ballweg, my daughter Cynthia, and Alfred Jr. and myself just returned from a short visit through Wisconsin, Minnesota and North Dakota. On our old home farm where we still have two quarters, without buildings, my mother (now 78) and I, after a field by field inspection, found that our hard red spring wheat could make a quarter crop. The malting barley (trail) would do well if we got the seed back. We have a flax field that is in blossom but only half of the crop came up, the other half was just coming up.

The corn crop generally looks good but some fields are thin because the corn did not come up.

In the Red River Valley area, where drought has hit hard too, the sugar beet crop looks good. Farmers in that area want to grow more sugar beets but can't get the acreage. They would like some of the acres that we have here in Michigan.

Many folks have criticized the large amount of land under the Soil Bank. In some areas whole farms are laying idle. However, these idle acres are now a blessing for livestock owners who are harvesting hay from these acres. Hay is also being harvested along the new freeways and roadsides. Farm trucks are going in all directions loaded with baled hay.

There is no panic to sell livestock except in some cases breeding animals and poorer quality young stock.

Several businessmen pointed out that business seemed to be holding up pretty well until counties started asking to be included in the so-called disaster area of the state and then business came to a dead stand still. Implement dealers are talking about closing their doors come December 1.

A cushion that many farmers now have that was not available during the early thirties is Federal Crop Insurance and wide use of Soil and Water Conservation practices along with improved over-all farming practices.

According to the state-federal crop reporting service, the state has had its worst growing season in 24 years. State-wide the spring wheat crop is expected to be about one-half normal. Early barley has suffered damage. The estimated production will be only 38 per cent of 1960. It may be the smallest barley crop since 1949. This could mean stronger prices for our farmers growing malting barley in Tuscola County. The oats crop over a wide area has also been severely damaged.

The older generation of farmers still remembers the drought and its effects of the thirties. The younger farmers still have this to learn. Farmers and business men together hope that it will not last over a period of several years.

The age of wisdom—when a man has a great deal to say and doesn't say it.

Use plenty of elbow grease in your daily tasks—remember, a home run is just a pop-fly with a little extra energy behind it.

Uncle Tim From Tyre Sez:

Dear Mister Editor: Zeke Grubb's preacher come by the country store Saturday night and set with us for a spell. It's the first time I can recollect we've had the preaching persuasion represented at one of our sessions.

The good Parson said he had a big wife and a little house and he took up preaching so's he would have some place to talk. He told the fellers it ain't known much by the public but most churches has now got quotas and a preacher moves up the ladder according to his reputation for meeting them quotas. If a preacher don't git his share of new members, he's liable to keep right on preaching like he is at a country church.

The Parson allowed as how meeting the quota was gitting to be real tough. He said you got to steal the new members from some other church and a heap of times they don't want to leave their own church. He says when a newcomer moves into his neighborhood, first off he goes right away and mows his lawn to soften him up, then he offers to baby-set at any time fer free. He said the Membership Committee was discussing a plan for giving trading stamps in their next drive.

Speaking of committees, he claims the public don't know it but committees is the backbone of the church. For instance, he explained, they got 14 committees at his church and all of them is doing a outstanding job.

He had special praise for the Stove Committee and the Garbage Committee. The Planning Committee, he announced, was figuring on gitting another garbage can for the church kitchen and in that case, they'd probable have to add a member to the Garbage Committee.

He said his church had 301 committee meetings last year and he attended ever meeting.

He claims he don't have much time no more to read the Good Book on account of attending so many committee meetings. Right now, for instance, the Fund Committee is working on a chicken dinner project. He says he is agin church dinners as a general thing and aims to speak his piece at the next committee meeting. He claims the congregation eats chicken with a wonderful Christian spirit but backslides in paying for the chickens.

It was mighty educating, Mister Editor, to have a preacher explain how things works on the inside, especial in this matter of quotas and committees. For instance, we ain't got no Stove Committee at our church and I aim to take the problem up Sunday. And I'll bet this feller is a real good preacher too, puts the religious fodder down on the ground where the billy-goats can reach it, and if there is any giraffes in the congregation, they can stoop over.

Yours truly, Uncle Tim

Argyle Baptists Undefeated in Church League

With seven games played the Argyle Baptists have a stranglehold on first place in the Church League with a 7-0 record. The only undefeated team in the league, Argyle leads four teams tied for second place by two games.

Monday night, July 24, Grant Fraser held off Lamotte's late inning surge to take a narrow 11-9 decision. In the nightcap, the Methodists from Decker knocked off the Methodists from Cass City in a slugfest, 16-11.

Wednesday night, July 26, the crowd saw the Catholics win at will over EUB with a 13-3 decision and the Church of Christ swamp the Gagetown Church of the Nazarene, 15-5.

In other games, Deford Kingston went over the .500 mark with a 4-3 nod over the Shabbona Methodists in a fast, well played game. The same night, the Baptists and the Presbyterians played a no-count game after the regularly scheduled game had been forfeited by the Presbyterians.

The standings:

Team	W	L	GB
Argyle-Baptists	7	0	-
CC Catholics	5	2	2
Decker Meth.	5	2	2
Lamotte Mizpah	5	2	2
Grant-Fraser	5	2	2
Deford	4	3	3
CC Methodists	3	3	3 1/2
Church of Christ	3	4	4
EUB	2	5	5
Gagetown	1	5	5 1/2
Shabbona Meth.	1	6	6
Presbyterians	0	7	7

City League Race Will Go to Wire

With just three games left in the City Softball League, the league championship is still in doubt. In a full schedule of games this week, Cable stayed on the heels of league leading Walbro and Erla's moved into contention for the crown with three victories in as many games. Both teams trail the league leaders by a single game. Walbro and Erla's will meet in a showdown battle at a date to be set, probably Saturday night.

Cable moved into a temporary tie for the top spot when they defeated Walbro Tuesday, July 25. Two veteran hurlers were on the mound as Bill Andrus and Elwyn Helwig tangled, with Andrus winning the duel 7-4.

Three-run rallies in the third and fifth innings for Cable clinched the decision. Perry Hoagg led the Cable attack with two hits in four tries.

Erla's-Deford
Paced by the no-hit hurling of Dan Erla, Erla's raced to victory over Deford 4-0. The game was decided in the first inning when a lead-off single by Creason turned into a run. Erla's picked up seven hits which was divided among six players.

Erla's vs. Bach
Erla's big bats were booming Thursday as they pounded out an 11-4 decision over Bach. Don Erla, Copeland and Fox all collected three hits in four tries.

Walbro-Deford
Walbro remained on top in the league in the nightcap Thursday when they rolled over tail-end Deford 11-1.

Erla's-General Cable
With a chance to remain tied

for the top in the league, Cable bowed to Erla's in a make-up game Saturday night.

The Foodmen moved into a tie for second when they scored an easy 7-0 victory. Dan Erla scattered five hits as his mates backed him with a 14-hit onslaught. The game was close until the fifth inning. Leading just 2-0 at the time, Erla's pushed five runs across to ice the game. Every man in the line-up got at least one hit for the winners. Brown, Copeland, Don and Dan Erla and Morley each collected two hits.

No Cableman got more than one hit.

The standings:

Team	W	L	GB
Walbro	8	3	-
Cable	7	4	1
Erla's	7	4	1
Bach	3	7	4 1/2
Deford	2	9	6 1/2

"Uncle Bob" Morgan of the Rural Bible Mission will conduct the Holbrook Baptist Church Vacation Bible School from 7 to 9 p.m., Aug. 7 to 11.

The school is open to children, young people and adults. A closing program is scheduled for Sunday, Aug. 13, at 7:30 p.m.

Great statesmen are those who happened to be on the job when you had a run of good luck.

Modern things are unpredictable—the only thing you can count on for sure is your fingers.

When a man's head begins to swell it's a sign—a sign that the mind has stopped growing.

The man who sits down and waits for his ship to come in will probably be too old to navigate.

Even if money did grow on trees some people would expect their neighbors to do the planting.

Babe Ruthers to Decide League Title Thursday

Cass City and Bad Axe meet for the Thumb Babe Ruth title this afternoon at 4 o'clock (Thursday) when the two undefeated league leaders collide as one of the features of the Homecoming.

Both clubs have won six games. In their last starts Bad Axe defeated Elkton and Cass City topped Port Hope, 15-2.

Lusty hitting by Ellis, Karr and Hempton sparked the Cass City attack. Tom Ellis, who has been hitting with authority lately, slammed a single, double and triple. Karr rapped a double and a single and Hempton collected two safeties.

Jim Champion racked up his sixth straight win. The youngster has shown every indication that he will develop into a top-flight hurler.

Wheeler pitched the last three innings to gain experience and turned in a topnotch job on the mound. He allowed no runs, fanned two and permitted but one hit.

LADIES RETURN

Clad from page one.
a Master of Arts degree from the University of Michigan at Ann Arbor.

Though Nina has been in retirement for five years, she has lived with her sister in Cleveland during that time. Nina has worked as a nurse in East Cleveland High School for 30 years.

She said she was in teaching for a while and also got part of her education at Eastern Michigan University. Later she received her nurse's training at Harper Hospital in Detroit and did public health work at the University of Michigan.

Now that they are retired together at their mother's old home in Cass City, both said they wouldn't want to be tied down to a steady job in town.

"I know that I want no part of substituting," said Gertrude, laughing.

Both said they felt they had many friends in Cass City.

"We always spent the summers and Christmases here," said Nina. "Yes, we've always kept in touch," Gertrude added.

Their sister, Mary McWebb, lived in Cass City until her death five months ago. She was a graduate nurse and worked in the Cass City Hospital.

Both say they like to travel and expect to do more of it now. Nina said she likes to sew and Gertrude has a fine record collection with which she says she hopes to spend more time.

Little Leaguers End in 5-Way Tie

Bulletin: All teams in the Cass City Little League ended tied. Each of the teams has a four-win, four-loss record following the easy victory posted by the Tigers Tuesday night.

The Tigers and Yankees were to have met in the final game of the regular season in the Cass City Little League Tuesday night and the game will decide the championship.

In one of the strangest developments in a season's play ever to be reported in Cass City, the league could end with every team tied for the title. The Yankees trail the Tigers by one game with a 3-4 record. The Tigers are 4-3 and all other teams are 4-4.

If the tail-enders win, every team is a champion; if the Tigers win they are undisputed champions.

Tigers vs. Giants

Tuesday, July 25, the Tigers edged the front running Giants, 8-7. David Asher scattered nine Giant hits. Terry Brinkman went all the way for the Giants, allowing eight Tiger hits. John Shagena and Larry Hartwick each had two for three for the winners, while Eugene Nicholas, Henry Ashmore and Bob Novak each collected a pair of safeties for the losers.

Giants-Cubs

The Giants topped the Cubs, 5-2, in Wednesday's, July 26, game. Duane DeLong scattered five Cub hits to earn the victory. Henry Ashmore backed him at the plate with two for two. For the losers it was Tom Frankowski on the mound with Al Zawilinski taking over in the fifth. Mike Murphy pounded out two for three for the Cubs.

Cubs-Pirates

Thursday the Cubs scored one of the season's many upsets by topping the Pirates, 9-6. John
