

Friendliness.... That Is the Difference-Claus

The most impressive thing about the United States is the people, Amelie Claus, Swedish exchange student, told members of the Cass City Rotary Club at their Tuesday noon luncheon at the New Gordon Hotel.

With about half of her stay in Cass City completed, Miss Claus reported that her country's standard of living was about equal to the United States, that the school facilities were better at home and that school courses were harder.

But the friendliness of the people more than makes up for the difference, Amelie said. "In Sweden it would be impossible for a visitor to come into my town and be accepted as I have been here... Swedish people are just not like that... maybe it's the climate, I don't know."

This atmosphere has not only made Amelie enthusiastic about the States, it has affected many of the exchange students who were with her group.

If it weren't that we have agreed not to try to get back into the United States for two years, many of us would stay, she said, in answer to numerous questions by interested Rotarians.

Amelie has spent four months with the Clinton Laws, is currently spending the month with the Warren Kelleys and will spend next month with the James Ballards.

Prior to Amelie's chat, Jim Fritz, student council president, reviewed the circumstances leading to her visit here and told how the money was raised for the visit.

The two students were introduced by Keith McConkey, Rotary toastmaster for the day.

Giant Cass River Drainage Project to Start

Bids are to be opened Friday, Mar. 15, on a 27-mile improvement project on the south branch of the Cass River, according to a report from the office of the Sanilac County Drain Commission.

Sharing 20 per cent of the cost will be Sanilac and Lapeer counties. Their portion of the cost was estimated at \$438,000. The remaining 80 per cent will be paid by the State Soil Conservation Service.

The work will include deepening and widening of 25 miles of river in Sanilac county and two miles in Lapeer county. Affected will be approximately 220 drop-inlets serving a 90,000-acre drainage district.

Work on the project will begin about two and a half miles east of M-53. It is expected that the work will have very little effect on the water level in Tuscola county.

The soil bank will be leveled all along the project and there will be no slash left.

The bids will be open at 2:00 p.m. in the Sanilac County Court Rooms, Sandusky.

Palmateer Spots Wanted Criminals

Two prison escapees, believed to be in the area to rob a village market, were captured Friday night, March 1, by Cass City police after a short chase.

Captured by Police Chief Carl Palmateer and Patrolman William McKinley were Lewis Sullivan Gonyer, 42, and Douglas Dwayne Young, 36. The pair had escaped early Friday morning from the Barry County jail, Hastings.

Palmateer and McKinley were patrolling near the Cass City bowling alley when they spotted the men in a stolen car. Palmateer had reportedly just told McKinley that an alarm was out for the two men.

When the escapees spotted the police, they drove off with the police in pursuit. Traveling east on Church Street, they turned left onto Downing Street, a dead end.

Palmateer reported that neither man offered any resistance. They were taken to Caro and turned over to the Barry County sheriff that same night.

MIKE ROOT is one of many Cass Cityites to become avid coin collectors. The principal allure of the hobby is that most collectors

can make money while having fun. Numismatics is the nation's fastest growing hobby, according to persons in the field. (Chronicle photo)

From the Editor's Corner

Business with an international flavor was conducted last week in Cass City. Tom Proctor, bossman at Wood's Drugs, says that he received several prescriptions to fill that were issued in Poland.

He puzzled out bits of the prescription himself and then filled the rest after translation help from Mrs. Konrad Konwalski at Konrad's Bakery.

Quip of the week: Wayne "Speed" Wilson was conferring with Ed Wolford of the Lakers about practicing on the Caro High School floor before the district basketball tourney opened Wednesday. Speed remarked that Cass City was going to practice Tuesday and Wolford replied that the Lakers would be in Caro Monday.

Speed obviously was thinking of the fine facilities the Lakers have when he quickly replied, "Fine, and while you are in Caro, we'll come over and use your gym."

Brought to our office was probably the oldest handbill in the Cass City area. The firm was Anderson and Tindale and the bill advertised wood repairs.

Pole circle, buggy reachers, luggy eveners and sleigh reach were among the items offered for 75 cents. Standard rate for the company was 30 cents per hour. We confess that we wouldn't know what any of these items were if we should happen to see them.

We believe that Gagetown gets more publicity for its size than any other community of Michigan. Latest story to hit the metropolitan press is the break in the water lines. We imagine that the severe winter has caused lines to freeze all over the state.

Coin Collecting... A Profitable Hobby

Michael Root, 14, son of Mr. and Mrs. Dick Root of Cass City, is one of a fast growing group of numismatists in the area.

For, collecting coins is the fastest growing hobby in the United States today and local residents have been caught in its allure... making money by having fun.

Young Mike is probably typical of the horde of newcomers to the field as he proudly boasts that his collection of 250 coins, representing an investment of \$81.73, is now worth (in his estimation) some \$250.

Although most collectors in the area don't claim to be able to show this type "profit", national statistics prove that collecting coins has been an outstanding way to put a little money away for a rainy day.

District Band Festival Slated At Laker High

Cass City High School's 37-member band is slated to compete with high school bands from throughout the Thumb Saturday, March 9, at the District Three High School Band and Orchestra Festival at Elkton-Pigeon-Bay-Port High School.

The Cass City band is slated to leave by bus from the high school at 7:00 a.m. and will play at approximately 8:50 a.m. Band Director Richard Case reports that the program is open to the public.

The competing bands will be rated on a I-V scale and those bands receiving a "I" will go on.

No Decision Reached On Library Hours

The Cass City, Elkland Township Library Board tabled a discussion on Friday and Saturday hours at a meeting Wednesday, Feb. 27.

The board was unable to reach a decision on whether or not the library should be open Friday or Saturday nights. It is currently open Saturday nights.

The library received \$116.76 as part of its regular state grant. On other library fronts, the interior of the library was redecorated last month by the village crew.

Chamber Board Election Now In Progress

The annual election of members to the board of the Cass City Chamber of Commerce is now under way as members of the organization have received the names of 11 candidates. From this list, three will be selected to replace members whose terms are expiring.

Retiring members are: Gerald Priekorn, C. M. Wallace and Dick Erla.

For instance, coins in recent years have proved to be four times more profitable than stamps... and the end of the boom in prices is not yet in sight, local collectors say.

The upswing in interest has caught the fancy of at least 50 persons in the immediate area and the total may be substantially more, no one knows for sure.

What is certain is that the interest in coins has resulted in more and more collectors going into the business, either as a profitable sideline or a full time business.

Two local long-time collectors, Don Childs and Alden Asher, have transferred their early interest into a sideline business and buy, trade and sell coins both locally and nationwide.

Hard to Lose
Barring a depression collecting coins will pay most persons very good interest on their money, numismatists say, and there's always a chance that the collector will save an issue that suddenly skyrockets in value.

By far the best deal that Mike has made is an 1865 three-cent piece that he purchased last summer for 35 cents and now values at \$17.00.

Many collectors say that they make "coffee money" by carefully watching coins that come within their scrutiny... finding coins worth a couple of bucks is not unusual and once in a great while these coin hawks will find one worth real folding money.

Most newcomers to the field become interested in the hobby through an acquaintance or a friend.

Mike joined the throng when he started talking collecting with Bob Groth, a customer on his paper route, and now, 14 months later, the ninth grade Cass City High School student is still enthusiastic about his hobby.

He has lots of company.

Hawks Cop Tourney Tune-up With Frankenmuth, 65-48

It would be a tonic to Hawk cage fans if Cass City could continue its short winning streak tomorrow night (Friday) when they play the winner of the Sandusky-Laker game in the district tourney at Caro. The Hawks made it two in a row Friday at Cass City when they measured Frankenmuth for the second time, 65-48. It was the only team to fall twice to the Hawks this season.

In the final game of the year, Coach Wayne Wilson started five seniors, including three boys who have seen little action this year.

The boys played well and managed to turn the game over to the regulars at the end of the first period with a 11-9 advantage. Starting for Cass City were Dean and Dennis Rienstra, Roger Parker, Roger Karr and Jerry Ross.

In the middle game of the year, the regulars on the hardwoods, Cass City salted away the game. The Hawks posted a 19-14 second period advantage to lead at half-time 30-23.

Supervisors Up Insurance

Tuscola County Supervisors approved two new liability insurance policies and raised the coverage of two existing policies at their regular March meeting Monday in Caro.

Approved was a Comprehensive General Liability policy offering \$100,000-300,000 bodily injury liability and \$100,000 property damage.

Costing \$550.12, the policy is to be purchased from Michigan Mutual Liability Company.

The board also approved purchase of an Employers Non-ownership liability policy offering the same amount of coverage and costing \$141.00 per year.

Existing policies covering owned vehicles of the Sheriff's Department were amended to read \$100,000-300,000 for bodily injury and \$100,000 for property damage. Previous coverage for bodily injury was \$50,000-100,000.

In other insurance business, the board ordered that an existing policy on the boilers and pres-

sure vessels at the County Nursing Home and the Court House include a provision for 100 per cent replacement including liability. The current policy is with Michigan Millers Mutual Insurance.

Tuscola County Prosecutor James Epskamp recommended to the board that they "void" the proposed Sunday Closing Law in Tuscola County. The law, in brief, provides that business must be closed either Saturday or Sunday unless they deal in necessities.

The law is to become effective 90 days after the adjournment of the legislature which would bring it into effect this month.

In order to "void" the law, Supervisors would need a two-thirds majority vote. The matter was referred to the Legislative Committee for study and recommendation.

Resolutions of appreciation were awarded to Charles Woodcock, Lester Jones and Sherman Ogden.

Ogden, court house custodian for approximately 30 years, died recently. The selection of his replacement was referred to the Salaries and Building and Grounds committees.

Woodcock finished his term as chairman of the board with Monday's session. It is expected the new chairman will be Earl Butler, Wells township supervisor.

Jones' resolution was made upon his retirement after 19 years on the board of supervisors. The Arbela township supervisor was cited for "service with distinction, honor and devotion to duty."

Mrs. Lucy Miller, county health nurse, was granted permission to use the services of the Nurses' office clerk, Mrs. Ila Bradley, in case of an emergency. Mrs. Bradley will be paid per hour according to her present pay scale.

The supervisors also passed a resolution backing Governor George Romney's bid to have Detroit as the site of the 1968 Olympics. Copies of the resolution were sent to Gov. Romney and Detroit's Mayor Cavanagh.

A special meeting to study township assessing and budgets and State Tax Form No. 22, was called for Tuesday, March 26.

Villages to Pick Officers Monday

Barring sticker candidates, Cass City voters are expected to give final approval to three trustees and other village officers in the Monday, March 11, Village General Election. Polls, located at the Municipal Building, will be open from 7:00 a.m. to 8:00 p.m.

Gagetown voters will also name village officers Monday. The polls there, also open from 7:00 a.m. to 8:00 p.m. will be located in the Council Rooms, next to the Fire Hall.

Village Election
Trustees named in the recent village primary election include Barney Freiberger, Jerome Root Jr. and Lambert Althaver.

Other candidates are: Lee Rabideau, president; Mac O'Dell, assessor, and Harry L. "Bill" Bridges, clerk-treasurer.

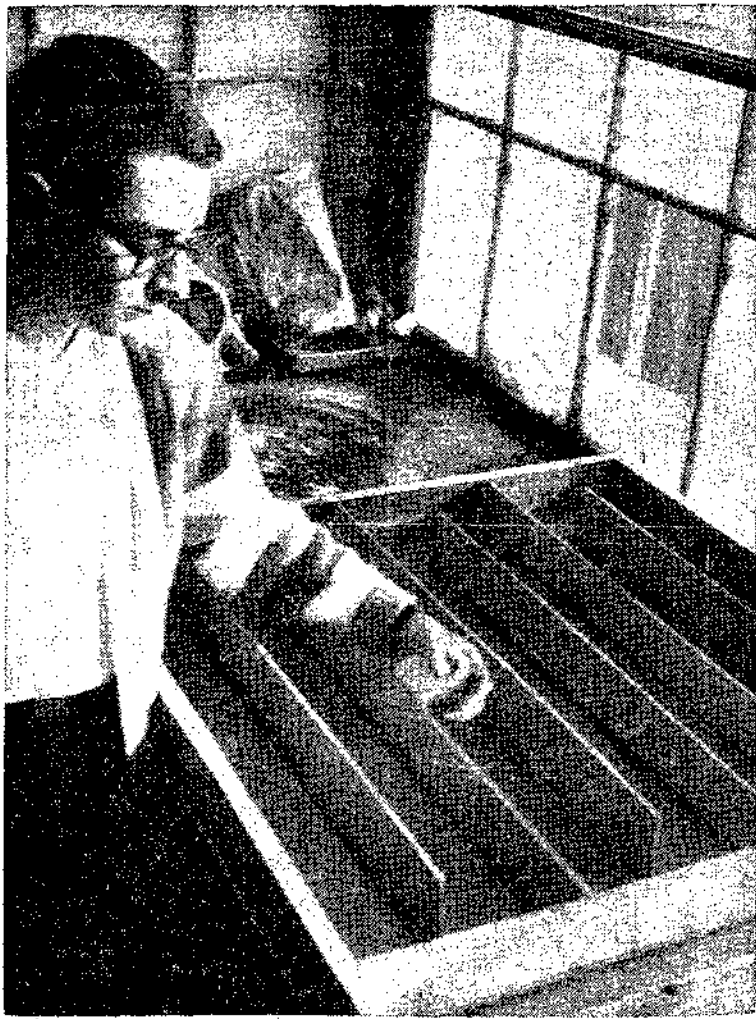

Gagetown Candidates
In Gagetown, although there is no official opposition, it has been rumored that retiring president Joe Mosack, will seek re-election as a sticker candidate. In an interview Tuesday, Mosack stated he definitely would not be a candidate.

Candidates are: Bill Downing, president; Mary Ann Tenczer, clerk; Ed Fischer, treasurer; Clarence David, assessor, and Walt Zuraw, Orlo Wood and Bill Burrows, councilmen.

Interest Keen for Local Science Fair

Work is under way on an estimated 120 projects by Cass City Public Schools students for the Cass City Science Fair Saturday and Sunday, March 23-24. Exhibits will be displayed in the Elementary School Gym both days from 2-5:00 p.m.

Mrs. Paul Murray, elementary principal, reported that approximately 90 entries are expected from the elementary school. An additional 30 projects are expected from the junior and senior high science classes.

Winners at the local level will go on to the Regional Contest at Vassar on March 29-31.

Junior high entries are divided into two categories, physical science and biology. The seven categories for the senior high exhibits include: botany, chemistry, earth and space science, physics, mathematics, medicine and health and zoology.

High school advisors are: John Schmittausler, Rockwell Scherzer, Dale Lindley and Ronald Raulin.

Entries at both the local and regional fairs are to be judged on creative ability, scientific thought, thoroughness, skill, clarity and dramatic value.

Utility Problems Plague Gagetown

Gagetown was a village without water and electrical facilities Wednesday as hard luck continued to plague the community. Late Sunday night, the village water system developed trouble when pipes froze and early Wednesday morning, ice on electrical wires left the village without electricity.

The village's electric supply was shut off Wednesday for a two-hour period from 5:19 to 7:05 a.m. The cut-off was believed to have been caused by ice on the wires.

Although the water problem had been corrected previously, the village was again without water because of no electricity to run the pumps.

Adam Deering, maintenance department head, had standby equipment ready for operation but repairmen arrived before it was necessary to use the equipment.

St. Agatha's Catholic School was the only school to close because of the water shortage.

Gagetown village officials were commended Tuesday via telephone by the State Health Department for their "immediate precautionary action" taken in connection with the break-down of the village water system.

Underground pipes between the pumps and the water tank froze Sunday night and the village was threatened with a complete cut-off of water supplies.

Quick thinking maintenance men by-passed the water tank by connecting fire hose from the pumps directly to the village water system.

The Health Department commendation was in regard to a warning by the village to water users to boil their water until the problem was solved.

Village President Joe Mosack reported that the system was expected to be back in working order by Wednesday. He also pointed out that rumors of sewage seepage into the water system were false.

"At no time was there any problem of sewage connected with the water," he explained.

After finding the break, the odd size of the pipe slowed the repair of the system until replacements could be found.

Absenteeism on Wane at Cass City Schools

Absenteeism due to illness was on the wane Tuesday at Cass City School, but still running well over normal, authorities at the elementary and high schools reported.

Things were practically normal at the high school this week. Tuesday Eli Holes said that there were 40 absentees... just slightly more than the average of from 25 to 35 students that can be expected to miss each school day.

Grade Peak
Friday and Monday were bleak days in the grades. Monday 84 students were absent... mostly because of the flu, authorities said. But Tuesday the picture brightened somewhat. Sixty-seven grade pupils missed school.

Authorities are hopeful that the worst is over and within a few days absenteeism will fall to a normal 25-35.

Guinther Quits Fire Department

Elkland township firemen accepted the resignation of longtime member Harold Guinther at the group's regular meeting Thursday night, Feb. 28, in the Scout Rooms.

The firemen immediately named Donald Finkbeiner to take Guinther's place. Guinther, an eight-year veteran, will remain on the force as an honorary member.

Chief Al Avery reported that the township had given the department permission to purchase two new helmets, two coats and two pairs of boots.

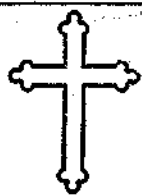

Avery also reported on a Tuscola County Firemen's Association meeting in Vassar where county chiefs and assistant chiefs discussed methods for raising funds for expenses of the president and secretary of the association.

Standing committee heads for the coming year were named. They included: Andy Kozan, chairman; Fritz Neitzel, entertainment; and Nelson Willy, food.

Thought For Lent

This is the second Lenten devotion by a local clergyman offered each week during Lent. The Rev. Mr. Wurtz is well known in our area and is the 'dean' of local clergymen, having served the longest; he now serves the Salem Evangelical United Brethren Church.

(R. J. Searls, editor of devotions)

LENTEN MEDITATION

Lent is a time of Faith expressed in repentance, humility, prayer, purpose and perseverance.

It is so easy to be for Christ when all goes well; but when difficulties come, to be with Christ is a test of faith. The ability to be steadfast and loyal at the task, "knowing our labor is not in vain in the Lord," is admirable.

Peter, in many ways was an unusually gifted apostle; courageous, forthright and deeply devoted to Christ. However, in the face of sacrifice, ridicule and danger, he was not able to persevere.

Our loyalty must be completely with Christ. There can be no compromise, if we are to truly

share with Christ in his lonely hour.

Lest we be critical of Peter for his denial, let us face the fact that we, too, deny Him, openly and subtly. We love creature comforts too much; inconvenient devotion is neglected; we serve ourselves first, and we are found to be biased, proud, selfish, thoughtless and unkind.

There is a way of victorious Faith, the way of humble remembrance of what Christ did for us. We stand as a "ROCK," not in our own strength but in Him. God's Truth is unchanging. His faithfulness can be completely depended upon.

Ours is a wonderful Lord, a blessed Faith, we have been abundantly blessed. Let each faithfully use all Lenten opportunities afforded by his Church, and we shall enlarge our souls, and be a blessing one to another, in Jesus Name. Humble prayerful perseverance is the glorious task in winning the world to Christ.

Farmer's Group to Have Sausage Feed

Glenn Utley, Fort Branch, Ind., is slated to be the featured speaker at a "Sausage Feed," at the Brown City Elementary School Thursday, March 14.

The meet is being sponsored by the National Farmers' Organization, 7th Congressional District. Utley is a member of the National Board of Directors of the NFO.

Door prizes will be given and area farmers are invited to attend.

BAND FESTIVAL

Continued from page one. to the State Band Festival later this year. Judging will be done by music instructors from Michigan universities and colleges.

On Friday afternoon the band is slated to give a preview program at the high school during an assembly. Case announced that the band will play the required and selected numbers to be used at the festival. Also to be featured are the winners of the recent Solo and Ensemble Festival. A week from Saturday, March 16, the Junior High Band and Orchestra festival is to be held at Bendle High School, Flint.

According to Case, approximately 25 students from the area will participate. The Cass City band will leave by bus from the school at noon and is slated to play at 2:50 p. m.

Take time to stop and think, but don't forget to start again.

HOUGHTON LAKE STATE FOREST DRIVE

THE HOUGHTON LAKE STATE FOREST IS THE LARGEST OF STATE FORESTS IN MICHIGAN. IT CONTAINS 325,000 ACRES OF PUBLIC LANDS IN ROSAMON, MISSAUKEE, AND CLARE COUNTIES, AND IS MANAGED FOR MULTIPLE USE INCLUDING:

- TIMBER - WILDLIFE - RECREATION
- WATER - MINERALS

STATE FORESTS PROVIDE: RAW MATERIALS FOR INDUSTRY, HUNTING, FISHING, CAMPING, AND OTHER RECREATION. HABITAT FOR WILDLIFE - JOBS AND INCOME.

THIS DRIVE TRAVERSES PART OF THE FOREST, TOUCHING MANY CONSERVATION ACTIVITIES AND POINTS OF INTEREST. THE ROUTE IS 30 MILES LONG. FOLLOW THE YELLOW MARKS.

CONSERVATION DEPARTMENT

Recreationists stand to learn a thing or two and generally have a better time on their visits to state forests and game areas when summer rolls around, thanks to work being done this winter by inmate labor at the Conservation Department's tree nursery near Brighton. Using lumber and posts from a special state forest logging operation and scrap materials left over from building picnic tables and other items, these men are in the midst of turning out about 2,000 rustic signs during the cold weather months. Most of these signs will be posted in 1963 to identify conservation projects, and show the way to recreational facilities, historic and scenic sites. Sign making is carried out with assembly-line efficiency. Lettering for many "standard" signs is traced on boards from pre-cut stencils. Electric routers guided by steady hands (top, middle), carve letters into the wood. After each letter is sanded and the boards are dipped in wood preservative, dried and stained, two coats of yellow enamel are stroked in the routed letter grooves to complete the job (top, right).—Mich. Plan New Laundry At Caro Hospital

A half-century-old laundry at the Caro State Hospital is slated to be replaced this year by a new \$427,500 unit, according to Dr. Willard W. Dickerson, hospital superintendent.

Work on the building will start this spring. The new laundry will replace a unit which, remodeled from time to time, has been in use since the hospital was established 50 years ago.

In announcing the unit, Dr. Dickerson cited a "lack of service facilities" which has curtailed adding to the patient load of the hospital. The hospital now has 1,805 patients with 54 on the waiting list.

When the new laundry opens, there will be 12 employees working a five-day week instead of the present 10 employees on a six-day week.

The new unit will be off M-81 west of the present powerhouse. The old laundry will be used for vehicle storage.

Plans for the new building were approved recently in Lansing. Work is expected to begin in six to eight weeks, depending on completion of plans and specifications by the architectural firm of Giffies and Rosetti, Detroit.

The steel frame building will be of cinder block and brick construction with the latest institutional laundry equipment.

A new laundry may not be the only change slated for the hospital if a bill introduced to the State Senate this week is passed. The bill called for the change of the name of the hospital from Caro State Hospital to Caro State Hospital and Training Center.

Similar changes would be made in the names of Lapeer, Coldwater and Plymouth State institutions. The bill was referred to the Senate's health and welfare committee.

Area Men Named To DHIA Offices

Two Gagetown men were named to top offices in one of Huron County's three Dairy Herd Improvement Associations in elections held recently.

Elected to County DHIA No. 1 were: Ronald Good, Gagetown, president, and Richard Ziehm, Gagetown, vice-president.

Other officers named to the same unit include: Kenneth Voelker, Owendale, secretary-treasurer, and Henry Hewitt, Elkton, Robert McCrea, Bad Axe, and Wallace Hagen and Max McKenzie, both of Uby, all directors.

Presbyterian Ladies In Regular Meet

The Women's Association of the Presbyterian Church met Monday at the church.

Mrs. John Fish gave the program which included a movie entitled "The Gift." Following the program a business meeting was held.

Mrs. Don Reid, president, introduced two guests, Mrs. John Van Looy and Mrs. Peter Rookus, both of Bay City. Circle Three had charge of the hospitality.

Air Force Featured In Baptist Film

The Senior Youth Fellowship of the First Baptist Church of Cass City will be the sponsors of a gospel film, "The Big Blast," on Saturday, March 9, at 7:30 p.m.

The film was produced on location in cooperation with the United States Department of Defense and the U. S. Air Force.

When Air Force Captain Bob Emory returns home, he finds not only the assignment of testing the high speed jet interceptor, the F106, in his line of duty, but also the more important task of breaking the barrier which has grown between himself and his younger brother Jeff.

All of the exciting action of Air Force activity plus the breathtaking suspense and grandeur of hazardous ski-jumping competition on the slopes of Mount Rainier, Wash., make this full color feature a classic in presenting the Christian message through the medium of dramatic motion pictures.

Everyone is invited to attend.

Middle Age And Beyond

By Dr. E. P. Lockwood

Our body machinery runs night and day from birth to death. No matter how perfect it was to begin with or how we take care of it, certain parts

are apt to show the effects of wear and tear during middle age and beyond. This is one reason why an annual examination by a Chiropractor is particularly important for people over 45. If we know what our limitations are, we can learn how to adjust our ways of living in order to avoid overstepping them.

For women who are undergoing the natural physiological changes which usually begin between the ages of 40 and 50 a thorough Chiropractic examination is advisable.

Certain diseases usually do not appear until later life and then develop slowly. Hardening of the arteries, chronic kidney disease, and extreme nervousness may gain headway in the body before a person is aware that something is wrong. If the trouble is detected in its early stages, an individual, by following his Chiropractor's instructions, may be able to continue to work and to enjoy life for many years to come.

Modern Chiropractors meet the problem of disease or illness through the physical and mechanical approach, rather than through the chemical or drug approach. Under modern Chiropractic the technique is painless. Frail, sick, aged and even infants are cared for without pain. Its record is the alleviation of suffering, and restoration of health is most gratifying.

(One of a series of articles published in the public interest to explain and illustrate the practice of scientific Chiropractic, written by Dr. E. P. Lockwood, whose office is located at Cass City, Tel. 872-2765). Adv.

TIPS FOR LADY DRIVERS

Have you heard about the male driver who unexpectedly found himself at the Golden Gates with St. Peter there to welcome him? Well, he was puzzled by it all and he asked St. Peter for an explanation.

"Don't you remember," said St. Peter. "Your wife said 'Be an angel and let me drive.'"

Now that we are well rid of that joke we'd like to make the point that accident records show that lady drivers are safe drivers though they are perhaps not so quick with technical explanations of what may or may not be ailing their cars.

A lady driver who came into our garage recently had just had her fuel pump replaced because a mechanic told her that the fuel smell in her car was coming from the pump which had failed. She would have saved herself the price of a new pump if she had known that the engine could not operate if the pump had failed.

A gasoline smell is always a reason to check your car with a garage but if you don't know cars then know your garage.

Most ladies do not know that it is quite safe to shift to a lower gear in automatic transmissions when going down hill. This is known as compression braking and won't harm the car.

A lady driver we know was determined not to worry over the odd noises of her car and turned on the radio only to be startled by a really odd noise; it was a commercial for mufflers.

Prayers Topic at WSCS Meeting

Members of the Methodist WSCS met Monday night at the church with Group II in charge of the meal. Mrs. Glen Deneen and Mrs. Howard Rexin are Group II chairmen.

Mrs. Margaret Haire had charge of the program. "Lord, Teach Us To Pray," Mrs. Sadie Rolison gave devotionals and Mrs. James Braid, substituting for Mrs. William Profit, read "Prayers of Petition."

Other readings were given by Mrs. Angus McPhail, "Prayers of Intercession," and Mrs. Mary Mark, "Prayers of Confession and Thanksgiving."

In other church news, a report on the World Day of Prayer was given.

Methodists Begin Lenten Observances

The Methodist Church observed the first Sunday in Lent with Holy Communion. The Rev. James Braid began a series of Lenten sermons on "What They Said About Jesus."

His sermon subject was "What The Disciples Said." Future sermons will be "What The Soldiers Said," March 10; "What The Spectators Said," March 17; "What Pilate Said," March 24; "What The Roman Centurion Said," March 31; "What The Religious Leaders Said," April 7, and "Remember Me," Easter Sunday, April 14.

The second of three midweek Lenten Family Night dinners and programs is to be next Thursday, March 14, at 6:45 in the Fellowship Hall. The evening will feature a smorgasbord dinner, special music by members of the Chancel Choir, hymn singing, and a journey through the Holy Land.

The Rev. and Mrs. G. Russell Nachtrieb of Aldersgate Methodist Church, Detroit, will show slides and tell about their trip to the Holy Land. The public is invited to attend the program which will begin at 7:30 in the sanctuary.

Those attending the dinner are asked to bring a dish for the smorgasbord and their own table service. Cosponsors for the evening are The Christian Social Concern's Commission with Phil Brack, chairman, and The Chancel Choir with Ruth Hoffman, director, and Joan Merchant, organist.

Local Keglers Cop Gavel Club Classic

Last year not one Cass City bowling team finished in the money in the annual Gavel Club Classic, but this year local entries did an about face and copped four of the six prize-money spots in the tournament held at Cass City Lanes.

Heading the list was a team captained by Norm Sawicki which finished first and won \$250 by posting a team handicap total of 3340... over 100 pins better than the 3219 total that won last year's classic and better than 200 pins better than this year's run-

ner-up.

Each of the members of the winning squad posted figures well above their average. Sawicki, a 143-average kegler, hit 556 on games of 194, 194 and 168. Bob Freiburger (127 average) hit 178, 170 and 146 for 494 and Jerry Little (163 average) had games of 186, 194 and 166 for a 546 series.

Gerald Stroupe averages 175 and hit games of 204, 186 and 187 for 577 while anchor man Don Doerr (165 average) came up with a 546 series on games of 193, 169 and 184.

The Cass City traveling squad won second place money. Finishing third was the Huron Lanes Tuesday night team. Fourth went to the Fearless Fivesome and fifth to Helwig's Hustlers, both of Cass City, while the final prize money went to the Huron Lanes Friday night team.

There were 29 teams entered in the classic, seven shy of the 36 clubs that rolled in the initial tourney in 1962.

Cass City Ladies Honored for Work

At the spring home economics extension council meeting, Mrs. Lila DeBoer, local Red Cross representative, gave certificates of merit to the home economics extension groups that helped with the cookie schedule for the Saginaw Veterans Hospital.

Every sixth Sunday three of the groups furnish 45 dozen homemade cookies and six helpers to serve and visit with the veterans.

During 1962 the following home economics extension groups and the name of the council members that received the certificates included: Cass City, Mrs. William Ruhl of Cass City; Elmwood, Mrs. Lawrence Saito of Gagetown, and North Elmwood, Mrs. Jerome Rocheleau of Gagetown.

Blood Bank Club Benefits To Be Explained

Area organizations interested in starting a Blood Bank Club can get full details at Hills and Dales General Hospital's regular Blood Bank Day, Friday, March 8. The Bank will be held between 1:00 p.m. and 9:00 p.m.

Richard Palm, hospital administrator, in a statement, explained the benefits of belonging to a blood club and outlined requirements.

Individual groups may place credits in the Blood Bank which may be drawn through any accredited hospital in the United States with a membership in the American Association of Blood Banks. Hills and Dales is a member of the Northern and Northeastern Michigan Blood Banks, an Association affiliate.

Palm stated that groups such as lodges, labor groups, businessmen's clubs and church groups can organize blood bank clubs.

In the event of a national disaster or an emergency, Palm pointed out, club membership would be invaluable as far as insuring fast and inexpensive transfusion for the member.

He also pointed out that individuals and relatives may establish blood accounts or may donate to some charitable cause for credit. Friends, relatives or the individual may also contribute blood to repay blood owed to the bank.

For further information on either individual or club donations, contact Blood Bank officials.

Job Training Available in County

The Tuscola County Manpower Development and Training Advisory Committee held a regular meeting Monday, February 25, at the Michigan Employment Security Commission office in Caro.

This committee was formed in June 1962 to implement the provisions of the Manpower Development and Training passed by the president on March 15, 1962. This act was designed to provide vocational training to unemployed and under-employed persons. However, the training is only to be given when there is a reasonable expectation for employment in the field in which the person is trained, according to George West, branch manager of the Michigan Employment Security Commission.

Up to the present time, there have been no training courses started in Tuscola county, mainly because there have been no job openings discovered that would require training.

Any employer in the county who has a job that he is unable to fill because of a lack of experienced people is asked to contact the Michigan Employment Security Commission office in Caro.

SCIENCE COMPLEX RISING AT MSU—This is how the southeastern part of the Michigan State University campus will look in 1964. All the buildings will be devoted to science education and research, except for the \$1.4 million, 1,000-car-capacity parking ramp (1) to be completed this fall. A "space-age" planetarium (2) is to be completed by this summer at a cost of \$500,000. The cyclotron (3) will be operating in 1964. The building is costing \$1.4 million and the cyclotron itself, another \$1.4 million. The \$3.5 million veterinary medicine building (4) is entering the final planning stage and will be completed by late 1964. The chemistry building (5), now under construction, is to be ready by the fall of 1964 at a cost of \$6 million. Contracts for construction of the \$5.2 million biochemistry building (6) are to be awarded soon. It will be completed by late 1964. The Biology Research Center (7) was completed in 1960 at a cost of \$620,000.

The chemistry building is the only structure which has an appropriation from the state. The planetarium is being built through contributions to the MSU development fund, including \$250,000 from Mr. and Mrs. Talbert Abrams of Lansing. The parking ramp will be paid for out of operating revenues. Other construction is being supported by grants from the National Science Foundation and the National Institutes of Health. The perspective for this sketch is from the intersection of Shaw Lane and Farm Lane, looking southeast. A portion of the Agricultural Engineering Building is seen at lower right.

COMMENTS BY KRAFT

I Think I'll Go On A Toot...

By Dave Kraft

Okay, you guys. Now you've done it... you've made me feel bad. When I told you last week that I was hanging over the edge of poverty on a rotten rope, I meant it.

When I asked you to send in a dime, I didn't mean it... but some of you did. To date I have 61 cents.

Actually, I'm not hurt. As a matter of fact, I'm pleased that you went along with the gag. Besides... that's 41 cents more than I ever thought I'd get.

Only one thing clouds my pleasure. I suppose you know that you've forced me into a higher tax bracket.

My first dime came from Mrs. Fred Auten. I was going into Farm Produce when she pulled up behind me and motioned me over to her car.

When I got to the car, she opened the door, handed me a dime and said, "There, I'll save myself five cents." I stood there a second, hand out, mouth open, and then I asked her what it was for.

When she told me she'd read my column, I realized what she meant and I went to pieces.

Good joke. I was still laughing when I walked into Farm Produce Company and Mrs. Barney Hoffman handed me another dime.

The other 41 cents came through the mail. One was on a plain white piece of paper, no writing. Another one was on a piece of notebook paper with "Good luck Dave!" across the top.

Sue Greenleaf sent me a dime to "take care of your bubble gum bill. A man should never be deprived of his bubble gum, especially when he has worries about his financial affairs. (The bubble gum was for Sally, NOT ME!)"

She also sent me a kleenex "to cry into while you wait for your other dime." Boy, when the chips are really down, you can count

on Sue to come through with a little extra.

I also got 10 cents from the office of County Clerk Archie Hicks which read, "This is our contribution from the County Clerk's office toward your \$20,000."

The one that really got to me was the penny. It was attached to some notebook paper that read, "I read your column this week and I thought I had better send something. Sorry this is not a dime, but things are tough all over. A Faithful Reader."

I haven't decided what to do with my new-found fortune. I think I'll go on a toot. Don't misunderstand me... my idea of a "toot" is to go to a restaurant and buy six cups of coffee all at once. How's that for extravagance?

Early last fall, Mr. and Mrs. Robert Campbell celebrated their 60th wedding anniversary and the Chronicle took their picture. Every now and then I leave my smart home on the shelf and when I took the picture, I forgot to pull out the bellows on the camera and it didn't take.

The Campbells are a very gracious couple and so I took advantage of their graciousness and asked for another sitting. Recently, Mrs. Haire was prowling around through some pictures, when she came across the Campbell picture. She sent it to them.

Mr. and Mrs. Edward Parker, Ypsilanti, the Campbell's daughter and son-in-law, sent us this nice letter.

"Last summer, my parents, Mr. and Mrs. Robert Campbell, said, quote, 'That Dave Kraft is a real nice young man,' unquote. And now you've done it again. They have told us about the gift of the photograph and they were very pleased with it. It was a most thoughtful gesture..."

"Even our friends love you. Did you know that your popularity has extended as far as Ypsilanti? When Mother writes to tell us the news from home, she puts in a clipping from the Chronicle called 'Comments by Kraft' which keeps us informed as to your goofy goings on."

"Many of our friends have read and share our enthusiasm for your witticism—if that is the proper word. We have worried through the fire episode and new chapeau, have felt the effects of Al's station wagon and have mourned the loss of Cyclone."

"Now about that picture that JJH has been bugging you about. Gosh, we thought it was real 'cute' (aw, shucks), although Mother says it doesn't look like you at all. Is that good or bad? (It looks just like me, except where they touched up the eyes, ears, nose, mouth and added hair.)"

"Belated congratulations on your first year as a celebrity (That should have been in quotes.) and may your Kommenting continue for many more."

After I read the letter once, (The remarks in parentheses are mine) I tried to check the heading to see if I hadn't opened someone else's mail by mistake.

About all I can say is that Mr. and Mrs. Campbell haven't cornered the art of being gracious. I'd like to conclude with "How do you like them apples, JJH?"

I suppose you think I'm the type of guy who waited until the last minute to get his license tabs. Well, you're wrong. I waited until the last minute and made my wife go get them.

Not only did I wait until the last minute to get them; in sheer defiance, I didn't put them on until March 1!

It was also on March 1 that I discovered that my license plates are bolted on with Phillips screws and that I don't own a Phillips screw driver.

I'm the only guy in town who has his 1963 tabs Scotch-taped on.

4-H Club Features Three Lessons

Three project lessons were studied by the Cass City 4-H Sewing and Cooking Club at a meeting Wednesday, Feb. 27, at the home of Mrs. Lyle Clarke.

The lessons were "Cooking Vegetables," "Sandwich Making" and "Fruit Dishes." After the lessons, the girls prepared the following menu: sandwiches, deviled eggs, corn, potatoes, relish plates, fruit cups and milk.

Guests were Sharon, Carol, Kathy and Robbie Clarke.

Farm Bureau Ladies Hear Cuban Report

Tuscola County Farm Bureau women met at the Farm Bureau Center in Caro on March 1 for a varied program.

Mrs. Marge Karker, Lansing, coordinator of women's activities, visited the meeting briefly. She told of conditions in Cuba as related by a Cuban refugee while at the Freedom Conference recently.

It was stated that anything of value in Cuba has been sent to Russia including the majority of their food and even the rich top soil from the tobacco fields has been removed and sent to Russia.

The Cancer society was represented at the meeting by the Michigan Executive director, Mr. Reghi, Ralph Pickett, district representative, and Mrs. Ray Schulte, Reese, a director in the local society. They presented a film and spoke on the need for education on cancer, especially on early detection.

The group voted to purchase a chart for the Tuscola County Re-tarded School which is needed in teaching the children.

Mrs. Vera Hess, Vassar, reported on a recent visit to the school when boxes of materials were taken which had been contributed by Farm Bureau women.

The group approved the nomination of their chairman, Mrs. Clare Carpenter, Cass City, for district vice-chairman. The nominees will be presented at the spring district rally to be held in Sandusky on April 16.

Mrs. Walter Moderow, Reese, who represented Tuscola county on a Michigan Farm Bureau sponsored tour to Washington, D. C., will present her report at the regular meeting of the group on April 5.

It pays to watch your time, but that doesn't mean the clock.

Authorities Seek Ways to Boost Public Library System in Michigan's Rural Areas

By Elmer E. White
Michigan Press Association
More Books

Efforts to expand Michigan's library system in the rural areas are under way throughout the state.

The State Board for Libraries earlier this year started a move to bolster the creation of multi-community library systems to take the world of books to more people in Michigan.

A further effort recently announced is the offer by the board of four \$2,000 scholarships for graduate study in library science.

State Librarian Genevieve M. Casey said the scholarship fund recipients will be expected to work for two years following graduation in a public library serving a rural area.

Miss Casey said the agreement did not impose any actual restrictions on the type of library involved, however, since it could be either a large or small system. The scholarship program was designed to provide trained personnel for the development and improvement of rural library service, she said.

Any person with provisional acceptance from an American Library Association-accredited library school may seek one of the scholarships available through funds provided by the Federal Library Services Act.

Too Many Hurt

On-the-job injuries rose in Michigan last year in unequal proportion to the hike in the labor force and the rise in work accidents throughout the nation, according to the State Labor Department.

There were 31,000 compensable injuries reported in Michigan last year, a six per cent hike over the previous year in the manufacturing industries.

This compares unfavorably with the national total of 1,990,000 injuries, a three per cent increase over the 1961 rate. Labor officials said the hike in the employed labor force last year was only two per cent throughout the country.

Permanent disability injuries showed a startling increase of eight per cent during the period but the number of fatalities was not significantly changed, department officials noted. Manufacturing deaths showed an increase last year, but fatalities in the non-manufacturing industries dropped from the previous annual report.

Water Watchers

Water resources of Michigan are of primary concern to many. One unit of government devotes much time to them, mostly unnoticed.

One phase of the Water Resources Commission's work is devoted to on-the-spot investigations of sites proposed for the disposal of waste and sewage.

Under the law a municipality, industry or business of any kind which wishes to increase or add new use of waters in the state is required to gain permission from the Commission. During 1962 alone the Commission investigated 95 such requests for usage.

Requests must include the nature of the development, the amount of water to be used, its source, the proposed point of discharge of waste into the water, the characteristics and estimated amount of waste.

Commission spokesman Loring F. Oeming said staff members check each of the applications with an eye to determine if there is a necessity to impose restrictions on the wastes to be discharged.

Waters covered under Commission jurisdiction include all

surface and underground waters within the state and the waters of the Great Lakes bordering on Michigan.

Mental Care

An attempt to shift some responsibility for treating mental illness from the state to the local level has made some progress, reports State Mental Health Director Charles F. Wagg.

Presently some 18 child guidance clinics, with 12 branches; seven adult clinics, and two all-purpose clinics serving both children and adults are in operation throughout the state, Wagg said. The caseload served by the community clinics seems to bear out the distribution of facilities for children and adults. Of some 14,457 patients served in the clinics during a one year period, about 83 per cent of the total caseload was children.

Expansion of the community clinic program is anticipated, particularly for children. A part of the therapy for many children is based on serving them close to home so the return to the family and community circle is a relatively easy adjustment.

Wagg said waiting lists for community clinics indicate a need for more facilities for children than adults. In the same period in which the existing clinics served 14,457 patients, there were another 2,596 children awaiting care and 182 adults on waiting lists.

Financing and administration of the community facilities are done on a joint state-local basis. During the last full fiscal year, a total of \$2,139,567 was spent for community clinics. Of this \$1,211,445 was contributed by the state and \$928,122 was obtained from local sources.

Final Rites Held

For Joseph Oleski

Final rites were held Saturday, March 2, for Joseph M. Oleski, 65, rural Decker, following his sudden death from a heart attack Wednesday, Feb. 27. He had been ill for the past year.

Born Jan. 26, 1898, in Calumet, he had been an area resident for the past 25 years. He married Miss Josephine Dumbrowski October 11, 1930, in Toledo, Ohio. He was a farmer and trailer factory worker.

Surviving, besides his wife, are: three daughters, Mrs. Josephine Ziemba of Decker, Mrs. Emily Kutyla of Warren and Miss Leona Oleski, at home, and a son, Joseph of Warren. Also surviving are: eight sisters, Mrs. Frances Rich, Decker, Mrs. Mary Malkowski, Mrs. Hattie Smutak, Mrs. Anna Zielinski, Mrs. Eleanor Sitko, Mrs. Cilia Kaminski, all of Detroit, and Mrs. Dorothy Skalfici, Grand Rapids, and three brothers, Mike of Detroit, William of Forrester and Edward of Decker.

Rosary was sung at the Harmon Funeral Home, Marlette, Friday, March 1, and interment was in Mosher Cemetery, Hemans.

Learn to express yourself—unexpressed ideas are worthless.

Put Them All Together And What Have You Got?

By the Rev. Robert J. Searls

A whole novel built around Coney Island? The critics have said that it couldn't be done—and George Mandel, tempted by the challenge, wrote a novel, *THE BREAKWATER*, and gave support to the critics' opinion. It does not fail for a lack of characters, for playing major roles are Zale Rakusin, hero; Lyn Camber; Sura, Zale's mother; Daniel, Sura's lover and the Communist lead in the story; Nannio; Otto; Fishie and Mollie Klug. Put them all in 400 pages and what have you got? Four hundred pages of meaningfulness.

I took up this novel with great hope, but I was misled. It promises to be a great book, but after only a hundred of those pages you begin to suspect that something is not getting off the ground. A few more pages and you know what it is that never gets going—the theme of the novel. (One has to be generous and assume there is a theme.)

There is every novelist's cast of characters, made famous by O'Hara and others who knew what they were writing about. We suspect that Mandel does not. He certainly offers nothing, nor even any new four-letter words. The publisher hopefully says:

"In *THE BREAKWATER* a New York City backwoods emerges in full dimension; here is comic, violent, and pathetic society unique in fiction. Yet in its persuasive realism there are echoes and truths that most of us will recognize as our own, for The Island is microcosm of a world outside teetering on the brink of total war."

Maybe we ought to tell the publisher the truth about this novel (it's torturous and overcast, with too many people trying to say too much.) What comes

Almost one third of America's labor force—some 16 million persons—help produce goods and services related to agriculture. Farm families make up only about eight per cent of the nation's population.

The Want Ads Are Newsy Too.

from the book, in spite of the publisher, does not meet the challenge.

VILLAGE COUNCIL PROCEEDINGS

A regular meeting of the Council of the Village of Cass City was held on February 26, 1963, at 8:00 o'clock p.m. All members were present except President Hunt, Mr. F. B. Auten, President pro-tem, presided.

Minutes of the January regular meeting and of two special meetings that were held in December were read and approved as read. Mr. Golding, Elkland Township Supervisor, was present to explain the workings of the proposed card system for use by the Village and Township assessors. It was agreed that the Township assessor would work along with the Village assessor within the village in setting up the card system. Mr. Golding is to be compensated by the Township for this work and the Village assessor will be compensated by the Village.

Motion by Rabideau seconded by Root that \$500.00 be appropriated to set up a card appraisal system for one half the descriptions in the Village. Yea-5. Nay-0. Motion carried. This work is to be done this coming summer.

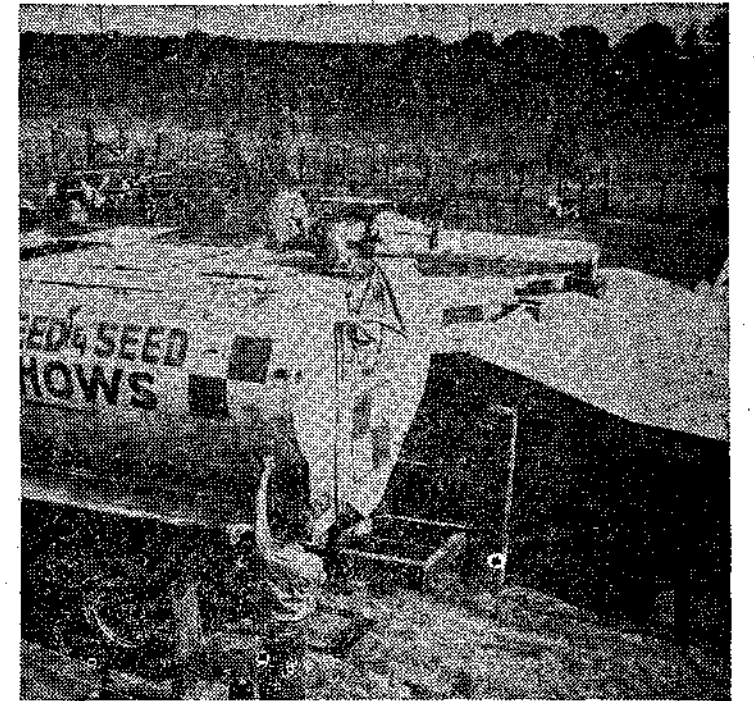

Motion by Root seconded by Guinther that Michigan Public Service Commission be requested to make an inspection of the warning device at the Railroad tracks on M-81. Yea-5. Nay-0. Motion carried.

Motion by Seals seconded by Guinther that we adopt the budget as proposed in the amount of \$144,200.00 anticipated income and \$148,700.00 anticipated expense. A contingent amount of \$75,000.00 is to be added to the above amounts. Yea-5. Nay-0. Motion carried.

Motion by Rabideau seconded by Seals that meeting be adjourned.

Uncle Tim From Tyre Sez:

Dear Mister Editor:

I see by the papers where them Army boys in the Pentagon has discovered a big leak in the money bucket. It has been costing \$20 million a year to bring soldiers and their families home that has their enlistment run out while they're stationed overseas.

A order has just gone out from now on a soldier ain't to be transferred to a foreign post if his time will run out while he's gone. This piece in the paper says we been following the old policy since 1945 to the tune of \$340 million and this new Army policy will save the taxpayers a heap of money.

It took 'em 17 years to patch this leak, Mister Editor, and you'll have to admit this is pretty fast patching for the boys in the Pentagon.

I was telling the fellers at the country store, Saturday night about this big savings and Bug Hookum was lamenting it didn't mean nothing. He allowed as how the Army would find another rat hole to stuff that \$20 million in ever year. Bug said he joined up with the Army in World War I and he ain't had no faith in 'em since. Bug reported they give him some tests and classified him for the Signal Core and up to that time the only signal he ever heard was a hoot owl calling for his mate.

Furthermore, claimed Bug, a feller in his squad woke up one morning with a stiff knee from falling off a truck the night before and they give him a medical discharge and disability pay for arthritis. Bug is a card, Mister Editor, wouldn't be satisfied if it was raining ham gravy twice a week.

Some of the fellers got to discussing the long hassle in the Congress over the Kennedy budget and Ed Doolittle, who is a Abe Lincoln Republican and ordinary would jump on this budget with both feet, give everybody a little food for thought. Ed said he saw a piece in the papers last week that come from the Commerce Department that claimed 64 per cent of all the people in the United States spent more money in 1962 than they earned. Ed allowed that it's mighty hard to stop the Government from getting more and more in debt when 64 per cent of the people was doing the same thing.

Personal, Mister Editor, I've done give up on a balanced budget and on account of I can't beat 'em, I'm going to join 'em. In the morning, I aim to go to town and talk to my banker and see how much I can borrow. Whatever I git, my old lady won't have no trouble spending it.

A feller nowadays that ain't spending most of his time working for the Government ain't working. I ain't going to worry no more about it.

Yours truly, Uncle Tim

Agent's Corner

Frances T. Clark County Home Demonstration Agent

Even if this is March, I would like to say something about cherries. Cherries seem to remind me of February.

If I would ask you what reminds you of cherries, most of you, I think, would say pie. But there are other uses for cherries, such as jellied cherry sauce, cherry-glazed ham, cherry salad, cherry upside-down cake and even cherry dessert pizza.

Cherries just don't jump off the trees and into the can. It used to be that the entire crop was harvested by hand with cherry growers one of the largest employers of seasonal farm laborers for the gigantic task of picking tons of fruit and this was done one by one. In recent years, however, high labor costs, difficulties in finding hand pickers and a decline in cherry prices to the producer have forced an examination of cherry harvesting practices.

The USDA and the Michigan Agriculture Experiment Station working with a selected group of Michigan Cherry Growers have been experimenting with a mechanical cherry picker that would make Rabe Goldberg sigh with envy.

Essentially a tree shaking device, these machines move down the rows of cherry trees and send out iron hands that grasp the trunk and gently shake the tree until the ripe fruit falls into canvas or plastic covered units below and then into water filled tanks for their trip to the cannery. A five-man crew operating this mechanical picker can harvest as many cherries in a day as 80 hand laborers.

Cherries should not be regarded as a dessert-only fruit. They are ideal for salads and their wonderful tart flavor creates a sauce irresistible to ham and a glaze for poultry on which a cook's reputation might be staked. A relative newcomer to the list of canned cherry products is the jellied cherry sauce that forms this natural partnership with meat and poultry. Either melted for a glaze or removed from the can in one glowing cylinder to be sliced or cut into fancy shapes to garnish the meat platter, jellied cherry sauce features a ready-to-serve convenience we all can appreciate. It comes in a 15-ounce or No. 300 can containing about 1 3/4 cups.

The can sizes are a factor to consider when choosing cherry products. Plan on one No. 2 can of cherries, cherry pie filling or frozen cherries for an 8-inch pie. Two No. 303 cans will make a plump 8-inch pie and allow some extra to garnish vanilla or tapioca pudding at another meal. Because frozen cherries usually have a heavier sugar pack to retain color and texture, it is best to decrease every cup of sugar to 2/3 cup when substituting frozen cherries for canned.

On March 14, the project leaders' lesson on "Your Money's Worth in Meats" will be taught at the courthouse. The hours are 1:30-3:30 p.m. and 7:30-9:30 p.m.

Experience is a great teacher —no man learns as well as the one who has been misled.

Shipping fever annually takes nearly \$25 million from the pockets of the nation's beef producers. Death losses can run as high as 10 per cent during some years.

Fewer apples are available for canned or frozen apple slices, sauces or juices because of a 25 per cent reduction in this year's crop in Michigan. Apples annually bring nearly \$25 million to the state's growers each year. Prices to growers are running from one-half to three-quarter cents per pound higher than a year ago.
