Tuscola County Supervisors Hicks. took the final steps to put in motion the building of the proposed \$450,000 county jail Monday in a special session when they approved final plans submitted by Lansing architect Clark R. Ackiey.

After approval of the plans, "the question of building the new jail was referred back to the special building committee headed by Sup. Shuford Kirk for study and to take steps necessary," according to Clerk Archie

# **NFO Sets** District Meet

Local leaders of the National Farmers Organization (NFO) are urging everyone to attend a meeting of the 7th district of the NFO at the Cass City Recreation Park Friday, June 19.

Highlight of the meeting will

#### Orin Lee Staley

be a talk by Orin Lee Staley, NFO president. He is expected to tell members of the progress of the NFO and the necessity for united bargaining action for increased farm prices.

The meeting is open to everyone. Free ice cream and cake will be served and 10 free prizes will be given away.

Every member is urged to bring a non-member to the meeting, John Kuck, president of the Seventh district, said.

With \$130,000 currently available through a sinking fund, the board will seek \$225,000 in Federal aid through the government's Accelerated Public Works Program to help finance the new structure.

If the money is forthcoming, \$50.000 will remain to be raised through millage. However, if the federal aid request is turned down, close to two mills would be required to raise the funds. The new unit will be built on the present jail ground with much

of it built before the present structure is torn down. L-shaped, the jail will have the sheriff's residence on the second floor. Offices will be on the ground floor and in the basement. Six maximum security cells are to be included in the cell space for 46 persons.

Roads

Widths of grades on blacktop roads and responsibility for clearing brush on blacktop roads was discussed but was returned to the Roads and Bridges Committee for further study. In the brush question, the county has assumed maintenance of the roads, but not of clearing the brush.

# **Bus** Load of **Foreign Students** Due in Village

Residents of the Cass City area will have the opportunity to participate in world understanding July 2-5.

An expected 200-300 foreign students will visit Tuscola county and the Thumb area over the Fourth of July week end.

Students from Wayne State, Michigan State and the University of Michigan will visit American homes, many for the first time.

Transportation has been secured to bring a bus load to Cass City for a local venture, according to officials. This was made possible through a contribution from the Elkland-Novesta United Fund,

Those interested in becoming a host family may contact either Mrs. Clare Carpenter or Alfred Goodall.

The visit is part of a continuing program conducted by the Christian Rural Hospitality Council. Plans for the July 4 visit were completed at a board meeting held Monday at the Farm Bureau building in Caro. The group has been contacted by the hospitality information service of the United Nations to arrange for a visit of a member of the Philippine delegation with his wife and daughter, Aug. 22-

#### Set New Hours for Novesta Dump

Novesta Township has set new regulations for the township dump. Starting July 1, the dump will be open the first and third Saturday of each month from 9 a.m. to 4 p.m.

Henry Rock, township clerk, reported that the hours will be in effect until November when the dump will be open only on the first Saturday of the month until the following May.

The township board also has voted to fence in the dump site.

Trooper Joseph A. Megee suffered bruises early Sunday morning when he was pushed from a patrol car by Leo J. Shagena, 31, Toledo, formerly of Cass City. Probate Judge. Megee and Trooper Richard J. Richter were taking Shagena, whom they'd arrested earlier at an Elkton wedding dance, to the

county jail. Shagena suddenly leaped from the back seat from beside Richter and pushed Megee, driving the car, to the pavement. Richter used one arm to restrain Shagena and the other to guide the car off the road.

Shagena, a deaf mute, appeared before Justice Lloyd Shuart and pleaded guilty to the charge.

later appeared before He Justice John P. Guza where he pleaded guilty to assault and battery on Megee. Justice Guza ordered Shagena to pay a fine of \$50 and costs of \$4.30 and serve 10 days in jail but suspended the fine and jail term. Shagena was also ordered to pay Megee's medical bills and to repair the trooper's uniform.

Pair Enter Race

Two new familiar political figures have entered the race for representative from the new 15th district.

Edmund Good, incumbent from the former Huron district, will seek election to the new district. He has served two terms in Huron county.

Orville Hubbard, Kingston, is also seeking the post. Hubbard was an unsuccessful primary candidate in Tuscola county in 1962. He feels that the addition of Huron county to the new 15th district throws the race wide open.

Previously announced as a candidate is Allison Green, present speaker of the house and representative from Tuscola county.

# **Dehmel** Seeks **Re-election** from **New District**

Arthur Dehmel of Unionville, who has been State Senator in the former 20th District for 10 years, announced this week that he will seek the Republican nomination in the newly formed 9th District of Tuscola, Huron and Bay Counties. Senator Dehmel will be seek-

ing his sixth term. Dehmel is third ranking mem-

ber of the appropriations committee of the Senate and chairman of the subcommittee on education. He is chairman of the insurance committee, a member of the legislative audit, agriculture, tourist industries and highway committees.

In 1962 Senator Dehmel received the Award of Merit from the Michigan Agricultural Conference "for assistance to agriculture and the betterment of the rural way of life in Michigan." The 9th District Michigan United Conservation Clubs commended Senator Dehmel for his "unrelenting efforts in behalf of

conservation," in connection with work for procuring more state park areas, particularly with Port Crescent State Park. Senator Dehmel is married and

they have one son, who is also a farmer near Caro, and a newlymarried daughter, now residing in husband.

Truck drivers are trained to drive tofely. courteously, and to offer a helping hand when needed. Most fleet drivers know first aid as they know the coutes they travel . . . know how to use the safety devices and first aid equipment in most trucks.

The Michigan Trucking Association maintains a full-time Safety Director with the responsibility of promoting safety courses, which the drivers take on their own time. So, when you need help on the highway ... flag a truck driver. He's trained ... and glad to assist you.

#### A WORD ON USED CAR PRICES

It is a common practice of salesmen to drive a new automobile one or two years, putting from 30,000 to 65,000 highway miles on the speedometer.

If it has been driven carefully with clean oil, as is usually the case, the engine of such a car is often in better condition than an identical model driven for half that mileage in town.

There are some "ifs" in this comparison though that a wise used car buyer must bear in mind if he wants to buy transportation that will be trouble-free for the length of time he has a right to expect.

Though the engine of a high mileage car may be sound, the shocks, generator, front end, springs and fuel pump - to cite a few examples - need reconditioning or replacement before the car is ready for

### What's In A State Park?

Time was when outdoor seekers looked to state parks in Michigan simply as good places to camp, swim, and picnic. Today, more people are coming to parks not just to enjoy these popular pas-times, but also to learn about the outdoors first hand. At some parks, such as Ludington, Porcupine Mountains, Fort Wilkins, Wilderness, and Bay City, programs have been developed by the Conservation Department to help visitors feel at home in the out-of-doors. Under the Department's program of outdoor centers, children are learning about frogs, wildflowers, other resources and conservation projects. Admittedly, much more needs to be done through illustrated talks, guided tours, forestry and wildlife demonstrations, and other activities to help visitors understand what they'te seeing. Latest move in the right direction was made earlier this year when a full-time naturalist was named to coordinate interpretative service programs of upper peninsula state parks .-- Mich. # **Giants-Pirates on Top in League**

Free scoring ball games highlighted the action in the first full week of the Little League baseball play at the Cass City Recreational Park.

Wednesday, June 10, the Pirates edged the Cubs, 9-8, and Friday the Giants overpowered the Yankees. 14-5.

The Pirate-Cub fracas was not decided until the last inning when the Pirates came up with three big runs to win. Zellar started for the Pirates and was relieved by Hartwick in the third. Hartwick was the winner.

G. Lindall hurled for the Cubs and was charged with the loss. J. Howell slammed a circuit clout for the losers.

Long distance slugging marked the Giant win over the Yanks. S. Guernsey slammed a grand slammer and R. Alexander a circuit blast with one man aboard.

R. Bridges started for the Giants and was relieved by R. Alexander in the second. Davis started for the Yanks and was relieved by Caister in the third. 19 8 <u>6 8 9 9 9</u>

#### Erlas Top Air **Base in Exhibition**

Erla's won an exhibition game with Port Austin Air Base last week, 6-1, and have scheduled another exhibition to have been played Wednesday night at 8 p.m.

The Wednesday foe is Sebewaing, which in past years has been mighty rough for Cass City teams to defeat.

This year's Erla's nine should be able to turn the trick. It features practically all of the stars from Cass City and Erla's top pitcher who hails from Imlay City, Al Bosch.

The Erla attack against the Air Base was paced by Don Erla who collected two of his team's six hits. Dean Hoag proved to be an excellent lead-off man as he collected a single and four walks in four trips to the plate. Meanwhile Bosch was toying

with the flyers. In three of the seven innings he struck out the side. In the fifth he struck out four men as Hickey received a life when the ball got by Frank

Creason who does the catching for Erla's. In all, Bosch was credited with 13 strikeouts . . . including seven in a row. The Air Base scored its lone run in the sixth on an error and a single by Raigh. Erla's plays in a league at

#### Another Call

Need for consolidation and revision of Michigan's election laws may force a special session of the Legislature this year.

Midsummer is the most likely time, despite the November election. Legislative leaders quashed the idea of a June meeting to give members a chance to cool off from the long, hot session which ended in late May. \*\*\*

Michigan's legislators seem to make a habit of leaving something important undone in regular sessions.

Special sessions have become a regular occurrence in recent years. In the past seven years, only two have passed without the governor calling a special session. In those two years, however, only legislative maneuvering kept special sessions off the record books. These were 1959, the year of the "cash crisis," and 1962. Both were years when lawmakers kept the sessions going late into the year to avoid the possibility of a special call. At least one special session has been held in 10 of the last 18 years. Two special calls were issued in 1951, 1955, 1960 and last vear.

Some of the special meetings have been very short, as would be expected in this election year. Any action to fill the void for township elections would have to be accomplished quickly to provide for orderly balloting in November,

Nitrogen Profitable and Safe If Used **Correctly, Says Assistant County Agent** 

Thumb-area farmers are enjoying good boosts in yields from nitrogen top-dressing and sidedressing. And problems of nitrate poisoning are at a minimum when nutrients are properly applied, according to reports from scien-

tists and county agricultural agents. Anthony (Tony) Rapes, Huron county agricultural extension agent, says, "All of our good farmers side-dress corn and sugar beets with nitrogen during the growing season . . . and they usually top-dress hay in the winter or early spring. I don't believe they leave any fertilizer off because they fear nitrate

poisoning." Ed Cole, Sanilac county agricultural extension agent, concurs: "Farmers in this area are using quantities of supplemental Walpole and Miss Kathleen Bar- nitrogen on corn, wheat and tle, both of Cass City; Leslie sugar beets. They don't appear

overly concerned about nitrate poisoning in their dairy livestock feeding programs."

Don Kebler, Tuscola county agricultural agent, adds this comment: "There are plenty of opportunities to side-dress extra nitrogen on different crops. The most difficult job is to educate the operator to use the nitrogen in the proper quantity where applicable."

The general consensus from Michigan State University scientists is that top-dressing and sidedressing, at recommended applications, give crops an added production boost with very little chance of nitrate accumulation to toxic levels. These nitrates accumulate only under extreme conditions " of interrupted plant growth usually caused by prolonged cloudy weather, unseasonably cool weather and or drought,

with his father for a number of years. The elder Howell began well drilling in 1911.

After his father's death, Doug took over the business and has been running it ever since.

"It's an all year round job," says Doug. "And you have to like the business to be in it."

"A well digger has to be something of a geologist, a blacksmith and a plumber," he explained. He jokingly compared his job to that of a printer with "most persons come and want a

Despite the fact that Michigan rivers and lakes are at their lowest, Doug says that the state has no real water problems axcept for contamination.

everywhere in Michigan if you go down far enough. In some states, you have to dig in three or four places before you hit water." It is this abundance of water that leads Doug to dispute the feats of water wizards using "witchin' sticks" to find water. A witchin' stick is a forked stick used to "divine" where water is hidden under the ground. He re-

ported that he was once on a job with a diviner and when he drilled where the wizard told him to, he found water. Doug is certain, however. that he'd have found water anywhere else on the farm.

Another time Doug and his father worked through the beginning of a tornado. "When we saw some lawn chairs sailing through the air, dad said, 'Well, guess we'd better quit,' " tells Dong.

Nearly every summer, newspapers carry at least one story of a well digger being electrocuted when his drill comes in contact with high tension wires. "This," says Doug, "is just plain carelessness." In the first place, you're supposed to work a certain distance from bot wirrow If you have to drill near " - hot wires. the Detroit Edison Company will shut the nower off."

Most well digging now is done by drill, Doug reports. "Crockwells are a thing of the past because of the sanitation problems," he explained.

Most of the wells Doug drills are four-inchers, although his rig can drill up to 12-inch holes. For \$4.50 an hour, on a four-inch well, Doug will drill and provide pipe for the job. He also recommends and insta<sup>¥</sup> pumps.

#### Summer Work

Most of his work is in the summer. Taking from two to three weeks on the job, he sinks an average of 15 wells a year.

His deepest well was drilled to a staggering 385 feet in Watrousville.

Locally, he has drilled wells for the Cass City sewage plant and the Village of Gagetown. He reports that some of the least deep wells can be found at 35 feet near the Cass River south of Cass City.

#### Shoreline Changes: Rights and Wrongs

With Great Lakes waters down to their lowest levels in about 30 years, Michigan shoreline owners have "temporarily" acquired a sizable chunk of bottom lands. Some owners may see this as a chance to permanently expand their lakeshore property by making fills and putting in seawalls. Many others are unhappy because their fishing and boating docks have been left high and dry. Whether shoreline owners view this low-water period as a blessing or curse, there are several things they should know to avoid causing more problems. For the time being, they have a "moving freehold" title to lands that lie exposed below the ordinary high-water mark. This gives them the right to dredge channels, build such structures as docks, and make other improvements on the exposed bottom lands---as long as these developments will not keep waters from returning to their natural levels. Since this title remains subject to the public trust, come low or high water, permits wust be obtained from the Conservation Department and U.S. Corps of Engineers before changes may be started. Purpose here is to protect public values and also to keep owners out of legal trouble with their neighbors.

Rudi Gernreich, had one of his creations in a national magazine. It was a black one-piece outfit that came up high on the midriff. This, I guess is so you can cover up the same amount of skin as with a two-piece but in different nlaces.

You realize of course that this will make a bare midriff just as taboo as bare . . . well, as other bare extremities were in the past. It probably won't be too long before we read of women being arrested for indecent exposure of their navels.

I think this will be the salvation of womankind. It will certainly create a new interest on the part of most males. I guess you could say I'm behind them
