

## Annex Vote Set For October 2

Deford and Cass City school district voters will be offered a second chance to approve annexation of Deford Community Schools to Cass City Public School District in an election Friday, Oct. 2.

An earlier attempt at annexation two years ago was defeated in the Deford district and passed by a 40-vote margin in Cass City. Proponents of the annexation in both districts are optimistic it will pass this time.

Should it fail, it is almost certain that the Deford district will be cut in half under the so-called "K-12" bill with the portion

south of the Deckerville Road going to Kingston and the northern portion going to Cass City. "Good For Both"

## Annual Broom Sale Set by Village Lions

Lion President Alger Freiburger announced this week that Lion work crews will canvass the village from about 7:00 p.m. on Monday night. The four crews will each take a section of the village.

Working in the northwest section will be Tom Jackson, Paul O'Harris, Pat Martin and Harry Little. Covering the northeast portion will be Pete Rienstra, Charles Turner, Dave Kraft, Larry Cummins and Oliver Voyer.

Southwest section canvassers will be Lloyd Bryant, Ron Keegan, Dale Iseler, Bill Hunter and B. A. Calka. Working in the southeast quarter will be Alger Freiburger, Fay McComb, Bill Johnston, Ed Cantile and George Jacoby. Members unable to participate are asked to give advance notice.

The club will be offering various sized brooms and other household items. Proceeds from the sale are used to support the club's sight conservation program and various other civic and community projects.

In conjunction with this, Freiburger announced that the club approved a \$100 donation to the Leader Dog for the Blind School in Rochester. The donation will be delivered at the October District meeting in Bay City.

Freiburger also announced that October is membership month. Persons wishing to join the local club may contact any Lions member for information.

## Rent Policy Approved

Cass City civic and community organizations may now use school facilities at a somewhat reduced rate following the adoption Monday night of a new rental policy by the Cass City Schools board of education.

Rental reduction will depend on how long the facilities are in use because, although actual rental costs were dropped as much as \$5.00 to \$15.00, custodial fees were put on an hourly basis.

The new policy also explains in detail regulations for the use of school facilities.

A committee to formulate the new policy was named recently by the board in order to bring the policy more in line with the board's concept of a "Community School."

Heading the policy was the statement: "It is the belief of the board that the school exists for the dual purpose of serving both the youth and the adults in the community and should be available to the community for educational and civic enterprises."

Mrs. Gerald Prieskorn, chairman of the committee, explained the reduction in rental prices. "We want the building to be used by the community and to show that we're not trying to make money on it."

The following policy was adopted:

Elementary Custodial fees—\$1.50 per hour on week nights, \$2.00 per hour Saturdays and Sundays.

Building fees—small gym—\$3.00 plus custodial fees, Kitchen—\$2.50 an hour (Fee includes use of facilities and woman on duty.) Classroom—custodial fees.

High School Custodial fees—no charge nights till 11:30. If used after 11:30—\$1.50 per hour. Saturday nights from 4:00 p. m. and Sundays—\$2.00 per hour.

Building fees—High School gym—\$5.00 plus custodial fees. Kitchen—\$2.50 per hour (Includes use of facilities and woman on duty.) Classroom—custodial fees.

"Free Use" In part, the new regulations state that school groups and class reunions have free use of the buildings. These groups are Continued on page three.

## Area Man, Girl Hurt In Two Auto Crashes

Five Cass City area persons were injured, two of them seriously, in two separate automobile accidents Saturday and Monday.

Most critically injured in Monday's crash was Stephen Dodge, 78, Deford. Dodge is in an oxygen tent at Hills and Dales General Hospital suffering from seven broken ribs and other injuries, according to investigating officers.

Also injured in the crash was Willard Hawley, 27, Deford, who is in Hills and Dales with chest injuries.

According to Deputy Gene Wilson, vehicles driven by Dodge and Hawley collided Monday afternoon about 3:55 at the intersection of Shabbona and Englehart roads.

Wilson reported that the open intersection was heavily wooded on all corners and neither driver

saw the other until too late. Point of impact was near the center of the intersection.

Village Girl Hurt

A Cass City girl scheduled to leave Sunday for college had her plans cut short Saturday night when she received severe facial lacerations as she was thrown through the window of a car in a two-car crash at the intersection of M-81 and Deckerville Road.

In Saginaw General Hospital with severe facial injuries and other cuts and bruises is Diane Repshinska, 18, daughter of Mr. and Mrs. William Repshinska of Cass City.

She was an occupant in a car driven by Edward Knight, 19, Cass City, who suffered minor injuries. Knight was treated at Caro Hospital and released.

The accident happened when a car driven by Ronald Jones, 16,

Caro, failed to stop at a stop sign on Deckerville Road and sped into the path of Knight's car, traveling north on M-81. Jones was ticketed for failure to stop at a stop sign, causing an accident.

Jones is in Caro Hospital with a possible pelvic fracture. Also injured in his car were passengers Bonnie Perry, 14, collarbone fracture; Ronald Davis, 16, serious abrasions, and Sharon Adlain, 16, minor injuries. All four are from Caro.

One Injured

Early Saturday morning, at about 1:00, Richard B. Kloc, 22, Cass City, lost control of his car on Deckerville Road, a half mile east of Englehart Road and the car went off the edge of the road, into a ditch, flipping over. An occupant, James Wilson, 22, Cass City, suffered bruises and abrasions. He was treated at Hills and Dales Hospital.

Quiet in Cass City

The accident scene was relatively quiet in Cass City during the week with just two parked-car accidents investigated by Cass City Police Chief Carl Palmateer Thursday, Sept. 10.

Shortly after noon, a car driven by Nancy L. Roberts, 19, struck a parked car owned by Fred Linderman, rural Cass City, in the General Cable parking lot. The right rear door of the Roberts' car was damaged.

At about 3:15 p.m., a truck owned by Cooke Mfg. Co., Cleveland, Tenn., and driven by James C. Pullin, 38, of Cleveland backed into a parked car owned by Frederick Leeson, 23, Cass City, while backing into a store to unload. Leeson's car was damaged on the right front door.

Hit and Run

Elsewhere on the accident scene, Mrs. Agnes Bedore, 78, Ashmore, was taken to Hills and Dales General Hospital Friday with a fractured hip and facial cuts suffered when she was struck by a hit and run driver on the Bay City-Forestville Road near her home at about 7:30 p.m.

Police are still seeking the driver of a light-colored automobile believed to be damaged on the right front fender by the impact. Mrs. Bedore was walking on the road within 200 yards of her home when struck.

## Dem Rift Grows

A split between Tuscola County's two feuding Democratic parties grew wider this week as the New Era Democrats held a second county convention Monday night and named their own delegates to the state convention at Lansing.

The session followed an earlier Democratic convention Saturday in Richville at which, a New Era spokesman contends, several "illegal actions" were taken by old-line Democrats running the convention.

The move reportedly could cause a seating problem for state Democratic convention officials although New Era Democrats were the first to register their delegates with Register of Deeds William Profit and may have an inside track.

The New Era group reportedly held their convention after discussing it with Lansing Democratic Party officials and receiving permission.

New Era Delegates LeRoy Clark of Millington was named permanent chairman, taking over from temporary chairman Duane Farnum of Watrousville.

Delegates named were: Mrs. Carl Sherman, Charles Becker, Arthur Little, Claude McGuire, Robert Russell, Fenton Loss, Duane Farnum and Edward Kaminski.

First Delegates

Named at Saturday's convention were: Melvin Stewart, Mrs. Alger Freiburger, Richard Haver, Lyle Thornton, Leland Dillon, M. J. Hill, Melvin Otto and Leon VanSteenhouse. Alternates were: Mrs. Doris Buchinger, James Hill, Dr. Charles Quinn, Lee Blackmer, Mrs. Margaret Culbert, Howard Hodges, Elvyn Colaski Jr. and Mrs. Barbara Gaul.

The New Era Democrats charge Stewart, county chairman, refused to recognize a New Era Democrat at Saturday's convention. Concluded on page three.

SHARP CONTRAST—Sheriff's deputies and State Police troopers watch as two NFO members talk to a farmer at the Michigan Livestock Yard Tuesday during the quietest session since the militant organization began its meat holding action. The yard also handled the most livestock since the action began. (Chronicle photo)

## Cut NFO Demonstrations Livestock Moves Into Yard

Cass City area National Farmers Organization members presented a quiet front Tuesday at the Michigan Livestock Exchange auction yard with only a few farmers on hand to greet incoming traffic.

The scene was in sharp contrast to that of a week ago when over 40 state police and deputies from area counties were called in to control several hundred demonstrators who scuffled with police and forced the sale to be called off.

Approximately a dozen members of the militant farmers' union were on hand to talk to farmers bringing in livestock.

The union is attempting to bring about a raise in meat prices by holding livestock off the market in order to make packers sign contracts.

Local farmers and truckers took advantage of the lack of demonstrators and poured approximately 100 head of beef and 40 head of pigs into the yard. This was the largest number of

livestock let in since the holding action began.

Prices were moderate to same.

Erla Quits Cass City's business expansion was also affected by the action as Richard Erla of Erla Meat Packing announced that he had decided not to exercise an option purchased on the former Tusco Products building, just to the west of his firm.

accountant, I decided Saturday that I would take a loss on the deposit and let the building revert to the original owners," Erla explained.

At present I'm considering a site in Coldwater," he remarked.

Erla stated that he had planned to use the building to expand and "utilize a lot more beef and pork in the plant."

"It's a hot bed here and if it continues, it would be silly to invest in and develop a larger plant... it wouldn't pay," he concluded.

In 1947, at the home of a temporary chairman, Mrs. Loren Ewald of Unionville, a women's committee was formed with Mrs. Adolph Woelfle, Deford, named chairman.

Other leaders to follow were Mrs. Al Houthoof of Akron, Mrs. Bruce Ruggles of Kingston, Mrs. Walter Moderow of Reese, Mrs. Ed Golding and Mrs. Mack Little, both of Cass City.

Each of the guests spoke briefly of her term of office and was presented with a gift.

Games were led by Mrs. John Dickie of Mayville with prizes awarded to Mrs. Fox, Mrs. Golding and Mrs. Robert Kreuger.

The women voted to again contribute \$50 to the 4-H achievement program which will take award winners on a trip to Chicago.

The Oct. 2 meeting of the group will feature the three students who attended the Young People's Citizenship Seminar this past summer.

## Junior Craftsmen Receive B Ratings

Bob DeLong, Francis DeLong and George Russell, members of the Junior Craftsmen 4-H Club, received B ratings on their electrical projects at the State 4-H Show in Lansing.

The Craftsmen met Monday evening at the Russell home and elected the following officers: president, George Russell; vice-president, David Little; secretary, Francis DeLong; treasurer, Tom Russell, and reporter, Bob DeLong.

Refreshments were served after the meeting.

Mr. and Mrs. Eugene Harold Kramer

Miss Joye Evelyn Field, daughter of Mr. and Mrs. Everett Field of Deford, and Eugene Harold Kramer, son of Mr. and Mrs. Latimer Kramer of Unionville, were united in marriage at 7:00 at the Novesta Baptist Church, Deford, Sept. 5.

The Rev. George Harmon officiated before an altar decorated with candelabra, palms, white gladioluses and yellow mums.

Bruce Field of Holland, Mich., brother of the bride, sang, "I Love You Truly" and "The Wedding Prayer." He was accompanied on the organ by Mrs. Harold Kilbourn of Deford.

Given in marriage by her father, the bride chose a gown of angelskin satin with long wrist-point sleeves. The fitted bodice was enhanced with a scalloped sash and neckline of sequin-designed imported Chantilly lace. The full bouffant floor-length skirt was adorned with a center motif of lace. The skirt back was composed of a tiered cascade of lace set in the center of the satin skirt. Her bouffant veil of imported English illusion was secured by a double crown of seed pearls and embellished with Italian crystals. She carried a bouquet of white mums centered with a white orchid and lily of the valley entwined in the streamers.

Miss Jeri Ann Field of Deford, sister of the bride, was maid of honor. Bridesmaids were Miss Noreen Kramer of Unionville, sister of the groom, and Mrs. Linell Rayl of Unionville, sister of the bride.

Flower girl was Miss Tami Jo Rayl of Unionville, a niece of the bride. They wore identical princess style gowns of light blue peau de soie satin with a rounded front neckline and V back. Chiffon inserts at the shoulder seams were draped to the center back and extended to the hem. Their matching headpieces with veil were secured by a blue mum. The gowns were styled by Mrs. Rayl. White and yellow mums with yellow streamers formed their bouquets and the flower girl carried a basket of yellow rose petals.

Marvin Kramer of Caro, the bridegroom's brother, served as best man. His other attendants were William Holzworth and Joe Kata, both of Unionville. The ring bearer was Michael Wright of Midland, cousin of the groom.

subject, however, to custodial fees and kitchen supervision fees.

The high school gym will not be available from August 15 until school starts because of football practice preparations.

No wedding receptions, anniversary parties or other such activities will be allowed. Use is limited to civic and community organizations. A custodian must be on duty at all times.

Old Policy

Under the old policy, use of the high school gym for commercial purposes cost \$20 a night and local public organizations, \$10 a night, Saturday and Sunday janitor service cost \$5.00 additional. Use of the home economics room cost \$5.00.

Use of the elementary gym cost \$10.00 for square dances and other meets with janitor costs the same as above.

Board members announced, at the suggestion of Mrs. Thomas Jackson, home economics teacher, that a fee to cover consumable items will be assessed home economics students at the beginning of the 1965-66 school year.

Although Mrs. Jackson suggested \$1.00 per student per semester, no fee was announced in the final motion. Mrs. Jackson pointed out that fees of \$1.50 to \$3.00 are charged in art, various shop and band classes.

Mrs. Prieskorn was named delegate to the Michigan Association of School Boards state meeting Nov. 4-6 in Grand Rapids. Elwyn Helwig was appointed alternate.

Cass City will host the Tuscola County School Board Member Association meeting Thursday, Sept. 24, at 7:30.

Also present were National Service Officer Harold Revord, Sidney Evans of Detroit and Field Service Officer Chalmers LaFray of Saginaw, who showed slides of the Saginaw VA hospital.

The chapter will meet the second Wednesday of each month at the courthouse in Caro.

### ANNEXATION

Concluded from page one.

struction in the Cass City system. Coupling Deford's \$2,867,628 valuation with Cass City's \$17,177,613 valuation will give the entire system a \$19,545,241 state equalized valuation. The broader tax base will help considerably in the needed school construction in the Cass City system which would benefit also the Deford district.

Assume Debt

Essentially, the election calls for the approval of the annexation by Deford and the agreement of mutual assumption of bonded indebtedness by both districts.

For Cass City, this will mean a raise of a quarter of a mill or 25 cents per \$1,000 state equalized valuation.

Two chief questions arising out of the annexation issue, according to Cass City Superintendent Donald Crouse, are whether or not the Deford School will be closed and if Cass City students will be transported to the Deford School.

Crouse explained that the Deford School will definitely continue to operate. "Future plans are for the Deford elementary children, grades kindergarten through six, to attend school in Deford and for the junior high students, grades seven and eight, to attend junior high in Cass City," he stated.

"The increase in junior high enrollment in Cass City will enable more economical operation and provisions can be made for a better educational program."

He also reported that there are "no plans to bus elementary children from Cass City to Deford."

Deford's annexation would also ease steadily growing overcrowdedness at that school. Enrollment jumped 16 students over last year. Use of the school stage, in addition to the six school rooms, has been necessary in recent years to take care of the overflow.

Dreamers starve today while feeding on tomorrow's hope.

Don't blow your small change and your dollars probably will be blown by your heirs.

## FB Women to Attend Fall Camp

A fall camp program is scheduled for Farm Bureau women Sept. 29-30. Women of District 6 will gather at Camp Kett for the two-day event. The program will begin with registration from 9:00-10:30 a.m.

Highlights of the outstanding program planned will be the Senatorial candidates, a talk on narcotics by Loren Bishop and Mrs. Maureen Scramlin, state chairman, will be present.

The Tuscola county delegation will assist in presenting a Hawaiian luau for the enjoyment of the group. Also planned are county reports, games, loot bags and other surprises.

All Farm Bureau women interested in attending are to contact Mrs. Clara Carpenter, Cass City, by Sept. 23 for reservations.

The cost of the camp session will be \$11.00, with \$5.00 being paid by the county organization. Mileage will also be paid to those taking a car load.

# Hawks To Open Grid Season With Port Huron Catholic

Cass City will lift the lid on another grid season Friday when the Hawks meet Port Huron Catholic at Cass City Recreation-al Park in a non-league contest. It looks like a long struggling season for Cass City. Last year the Hawks won two, tied three and lost three and they will be starting the current season with several of last year's outstanding players lost via graduation. Biggest hole left to be filled will be at halfback where Walter Hampton, Cass City's all every-thing, sparked the Hawks on of- fense and defense. Also lost by graduation was Tom Ellis, 200-pound plus tackle, and Mike Karr, hard tackling

guard. Coach Oarie Lemanski also has to replace Fullback Dave Parrott, Halfback Don Englehart, Guard Dale McIntosh, End Ron Randall and End Jim Turner. On the brighter side of the picture is the return of several veterans from last year and the development of several boys with- out varsity experience. Lemanski said that a scrim- mage against Buena Vista Sat- urday was a pleasant surprise for him. "The boys did very well for a green team," he reported. "Naturally there were a lot of mistakes that an experienced team wouldn't make, but all of the coaches were pleased with the performance."

Lemanski has announced a tentative starting line-up for the opener that will be liberally sprinkled with new faces and anchored by a few veterans. The backfield will be held to- gether by Quarterback Ed Retherford, a senior in his third year of varsity competition. His flanking backs will be all play- ing their first varsity game. Fullback will be handled by Bob Rabiteau, a junior. Left half will be tiny pugnacious Dave Schember, a 130-pounder with lots of desire. The right half spot has been won by Carl Weippert, a sophomore. The line will be buttressed by Jim Knoblet, senior tackle, who played some outstanding foot- ball last season. Three other letter winners set to play are Greg Thompson at the other tackle and Bob Bliss at center. At left end a battle between veterans is raging where Wayne Copeland and Al Wallace are try- ing for the starting nod. Both

The group made plans for their annual fall rummage sale and it was reported four children had been sent to summer camp.

Mrs. Keith McConkey was presented the past president's pin.

Mrs. F. Ridley and Mrs. Wil- liam O'Dell are new members and Mrs. A. Kozan was a guest. Group I, with Mrs. Jerome Root Jr. and Mrs. Dale Brown, cochairmen, served the dinner which was preceded by meditation and prayer in the sanctuary un- der the direction of Mrs. James Braid.

## Supervisors Try For Millage Freeze

Tuscola County supervisors approved a resolution placing a proposed millage freeze on the November ballot Monday at a special meeting called just for that purpose in Caro.

If the bill passes, it will freeze the county's 15-mill allocation at nine mills for the schools, 4.2 mills for the county, 1.65 for townships and .15 for the Inter- mediate School District. The measure would also elim- inate the Tax Allocation Board.

## County Farmers to Visit Soybean Plots

Any farmer interested in in- formation on the production of soybeans in Tuscola county is in- vited to visit the soybean variety plots on the Ervin Van Petten farm in Gilford township, located one mile west and about three- fourths mile north of Gilford on Bradford Road.

This will be the second year that soybean variety plots have been grown in Tuscola county. Several varieties are available for observation.

# THREE GOOD REASONS TO BUY AN ELECTRIC DRYER NOW

- low initial cost
- special installed price
- Edison no-charge service

When it comes to buying a clothes dryer, there are more important things to consider than an incomplete claim about a pennies-per-load oper- ating cost.

Take dryer service, for example. No matter where you buy your electric dryer, Edison will repair or replace electrical parts with no charge for parts or labor.

How do you put a price tag on this extra-special service? One way is to look at what you'd pay for a dryer service policy. Typical charges, in this area, range from \$70 to \$150 over the first five years. This is the kind of money you save when

you dry clothes the safe, gentle electric way.

Also, model for model, an electric dryer costs less to buy than a flame-type does—some electrics are \$20 to \$40 less.

And now, for a limited time, the price paid for an electric dryer includes its wiring, if any is needed. So you save even more.

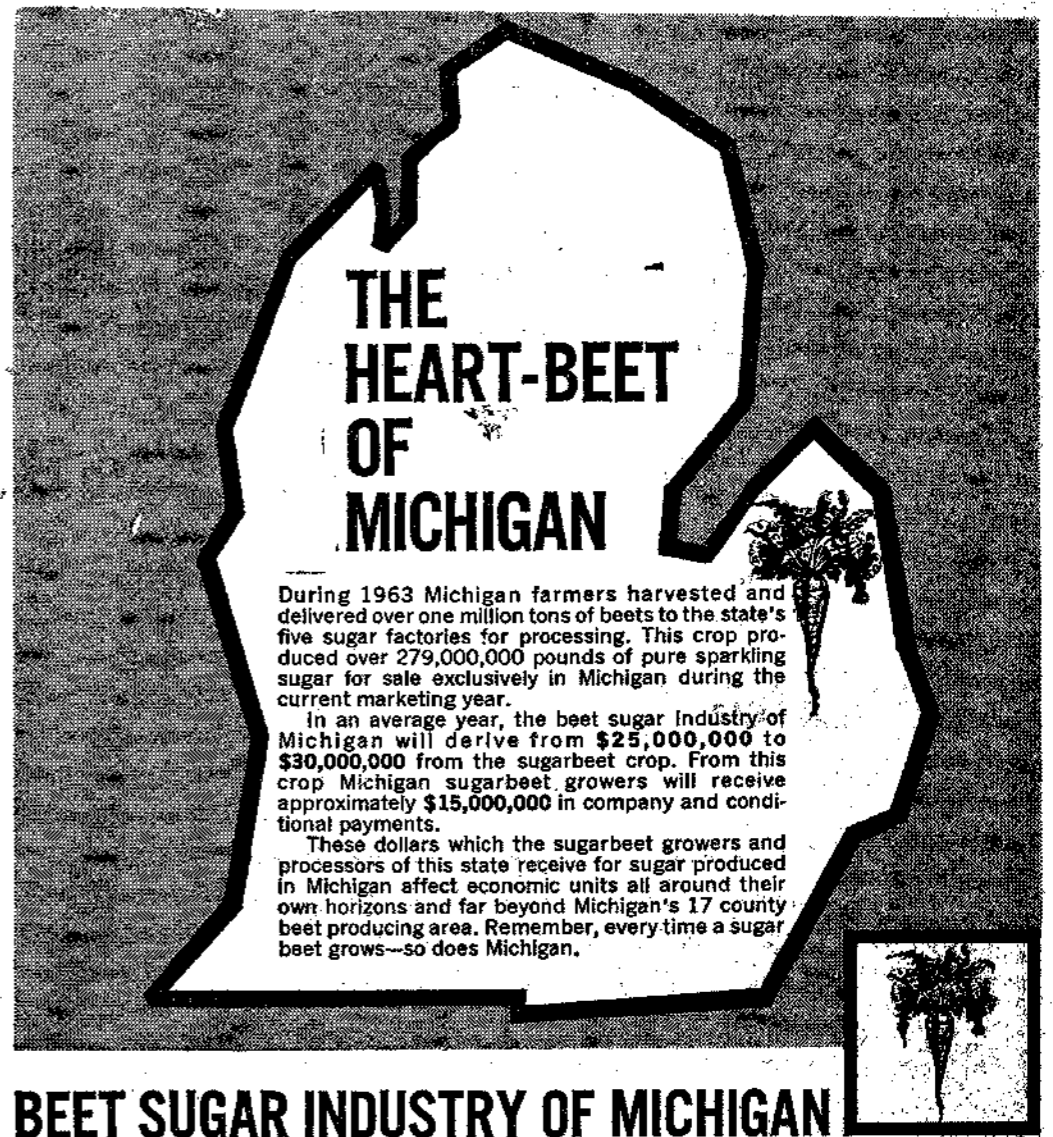

What about cost of operation claims? Just this, an electric dryer costs about 5¢-7¢ per load to operate—and there are no other hidden costs.

Look at all the facts.

They add up to electricity. **EDISON**

**THE HEART-BEET OF MICHIGAN**

During 1963 Michigan farmers harvested and delivered over one million tons of beets to the state's five sugar factories for processing. This crop produced over 279,000,000 pounds of pure sparkling sugar for sale exclusively in Michigan during the current marketing year.

In an average year, the beet sugar industry of Michigan will derive from \$25,000,000 to \$30,000,000 from the sugarbeet crop. From this crop Michigan sugarbeet growers will receive approximately \$15,000,000 in company and conditional payments.

These dollars which the sugarbeet growers and processors of this state receive for sugar produced in Michigan affect economic units all around their own horizons and far beyond Michigan's 17 county beet producing area. Remember, every time a sugar beet grows—so does Michigan.

## HOW OLD-FASHIONED IS THE MILKING STOOL?

Modern dairy farms are a far cry from the days of the milk pail and the three legged stool. Today, cows enter milking parlors or stanchions where automatic milking machines do the work. Yet, in another sense, the old milk stool is far from old-fashioned, because those three legs symbolize the three major aspects of today's dairy industry. (1) The farmer who produces the milk, (2) the cooperative which markets the milk for the farmer, (3) the dairy which processes and delivers the milk to you. Cooperatives are owned and operated by the dairy farmers they serve. They give these farmers a strong voice in the marketing of their products. They also provide many special services and guarantees which an individual farmer, working alone, could not provide himself. The result of this united effort is a more stable market for the dairy farmer and, for you, an uninterrupted supply of wholesome fresh milk. Thanks to the three-way cooperation among farmers, cooperatives and dairies.

## New Bulletins for Beef Producers

With the new cattle feeding season rapidly getting under way, beef producers may wish to evaluate the latest methods for figuring profits in advance, maintaining livestock health, treating corn silage or the importance of vitamins and minerals.

Several Michigan State University extension specialists and scientists recently authored new publications geared to provide cattle feeders with answers to many of their commonly asked questions, said Alfred Ballweg, county extension director.

If you are trying to guess which type of cattle should make the most money in 1965, Leonard Kyle, MSU agricultural economist, may be able to supply some of the answers. He lists the methods of computing a break-even budget in advance which is the best measure of the risks involved in buying and feeding a particular lot of cattle.

Cattle feeding problems are just beginning once the cattle arrive at the farm. Dr. Cliff Beck, MSU extension veterinary medicine specialist, has some tips for keeping newly acquired cattle in healthy condition ready to make efficient gains.

H. W. Newland, MSU animal husbandry researcher, passes along some valuable information on the need for certain vitamins and minerals in his new publication. He also has authored a publication on the subject of the value of adding limestone and urea to corn silage to improve the feeding value. Although both limestone and urea stimulate organic acid production in corn silage, urea is needed if a cattle feeder wishes to increase the resulting protein content.

The bulletins are available from the Tuscola county extension service office in the courthouse, Caro, and include Figuring Profit and Loss Prospects, Maintaining Health of Newly Acquired Livestock, Treating Corn Silage with Limestone and Urea, and Vitamins and Minerals in the Ration.

### BLIND

People lose their reasoning power when they allow temper to take over.

**CANADIAN PERCH?** Well, not exactly. Actually it's a Northern Pike caught by Leonard Damm, shown here, on a fishing trip to Chapleau, Canada, about 500 miles north of Cass City. The fish, when caught, weighed about 10 pounds and measured 38 inches. Also making the annual trip were Earl Harris and Al Trope, both of Cass City.

## Mrs. Commins Dies After Long Illness

Funeral services for Mrs. Vera Commins were held Wednesday afternoon at the Novesta Church of Christ with the Rev. George Getchel officiating. Burial was in Grand Lawn cemetery, Pigeon.

Mrs. Commins died Sunday, Sept. 13, at the Tuscola County Nursing Home where she had been a patient two days. She had been ill the past 14 years.

She was born in Caro Dec. 24, 1894, the daughter of the late Mr. and Mrs. Hugh Brown. She was married to William Commins in Elkton in 1919. Following their marriage, they made their home in Elkton. The past two years Mrs. Commins had made

her home in Deford. Mr. Commins died in 1950.

Mrs. Commins was a member of the Emanuel Baptist Church of Pontiac.

She is survived by: two daughters, Mrs. Norman Hurd of Deford and Mrs. Thomas Grimley of Pontiac; three sons, Bertram of Pontiac and Roy and Raymond, both of Rochester, Mich.; 24 grandchildren, and seven great-grandchildren. One brother and one sister preceded her in death.

Little's Funeral Home was in charge of arrangements.

Misfortunes that cause people to think become a blessing.

## The Plans Are Here

By Dave Kraft

Well, they finally arrived. I can at last report to the investors of Moonshine, Inc. that the plans for our liquid purification unit have been delivered.

In other words, the plans for the still are here.

Now that they've arrived, I'm a little dubious about the entire project. It's a little more complicated than I had imagined.

Also, I don't think the 51 cents I have left in the Moonshine Fund is going to cover the costs of the materials.

The plans arrived the day after I sent out a nasty letter asking where they were. I'll probably get an equally curt reply telling me where they are.

The plans and a detailed instruction sheet are hand drawn on two pieces of some kind of onion skin paper.

First you've got to build a brick fire box, over which sets an oak box which holds the mash. On top of the oak box is a hole into which fits a five gallon barrel.

A pipe runs from the first barrel, which contains nothing, to a second or Thumper Barrel, which contains liquid mash . . . whatever that is.

From the Thumper Barrel runs another pipe which connects with a third barrel, a 55-gallon open top drum, full of water. The pipe runs into the top of the barrel and this is where you get the twisted pipe effect so commonly associated with pictures of stills.

This is also where the condensation takes place and out of the end of the pipe slowly runs the liquid known as rot gut, panther juice, white lightning, mule kick or, for the uninitiated, moonshine.

Clear as can be. Not too detailed, but I imagine I could build it if I tried.

The rub is that it doesn't tell you how to make the ingredients. What the mash is, how to mix it, how to make the liquid mash or nothin'.

If you think about it for a second or two, you realize that we paid two dollars for two sheets of paper with some scribbling on them.

If somebody knows how to do these things, drop me a line and I promise not to use your name. Anybody wishing to examine the plans may drop by and look them over. I may even sell them to you for three dollars.

Why three dollars? After all, my investors expect some sort of a dividend. . . .

Some people get excited about the least little thing. A certain bakery co-owner told me that she woke up about midnight late last week and discovered two strangers monkeying around with one of the windows to their apartment.

She thought this was especially unusual because the apartment is located on the second floor, over the bakery. The incident, she reports, has made it difficult for her to go to sleep at night.

I tried to explain to her that they were probably from out of town and were just trying to find a short cut across the roofs to avoid all the traffic.

It didn't console her much. Just a word to the wise . . . don't try it again. You're liable to wind up with more holes in your than a tray full of donuts . . . if you see what I mean. . . .

I went out to the Michigan Livestock Exchange Yard Friday afternoon. I figured if things got so exciting the preceding Tuesday, it would really get lively on Friday.

Right off the bat, I noticed two men talking. One was waving his hands and slapping them to-

gether. I edged a little closer, just to hear what they were saying. I also wanted to be on hand with my camera when the action started.

I got as close to Waving Hands as I could and heard him say, "I don't care what you say, when Marlette set up their defense, Sandusky didn't stand a chance."

Football! I'm out there looking for mayhem and all these guys can do is argue about football.

I turned on my heel in disgust and strode away.

Actually, during the time I was out there, the NFO put on its most orderly demonstration up to that point. Complete cooperation and no agitation.

As news editor, it is my duty to report not one side or the other, but what happens . . . and what caused it to happen. On Tuesday we had all the action, I was covering it . . . just like I covered Dr. Donahue's barn fire.

I was in Caro . . . some 20 miles from the scene. I figure that's a good safe distance.

What bothers me most about situations where two large and excitable groups get together is that one of them is likely to forget what a friendly, like-everybody fellow I am and really hurt me.

Also I can't understand why only big guys want to fight. Especially with skinny guys like me.

So remember, NFO members, and other large bodies of persons, including police officers, never . . . never strike your friendly reporter . . . especially old Uncle Dave.

If you do, I'll retaliate in the most terrible of ways . . . I'll spell your name wrong in the story.

Too often a man's reputation is injured by his character.

It takes only adversity to show us what total strangers we really are to ourselves.

## Wheat Growers Sign-up Ends Oct. 2

Winter wheat growers in Tuscola county who are interested in taking part in the 1965 wheat program have only one sign-up period, according to Mike Singer, chairman of the Agricultural Stabilization and Conservation County Committee. The sign-up period extends through Friday, Oct. 2.

Signing up now will put a farmer into the program and will also permit him to change his intentions during the sign-up period for the feed grain program next February or March.

This provision is especially important for those wheat growers who intend to use the over-seeding privilege or to participate in the wheat program and the feed grain program and use the substitution privilege. Participation in both programs makes it possible to substitute wheat for

feed grains or feed grains for wheat.

Those who sign up to use the over-seeding provision of the wheat program may overseed their farm allotments by up to 50 per cent. By storing the excess wheat under bond and meeting other program provisions, these producers become eligible for certificates and price support.

For those who intend to use the substitution privilege and sign up for both the wheat and feed grain programs, failure to enter the wheat program now will make it impossible for them to become participants in both programs, said the chairman.

Remember, that if you grow winter wheat in Tuscola county, the only opportunity you have to sign up for the 1965 wheat program is from now through Oct. 2, the chairman added.

## BOOK REVIEW

### Story of Pioneer Jewish Peddlers

By the Rev. R. J. Searls

One of our nation's most loved writers in our day is Harry Golden, whose latest book to be published is *FORGOTTEN PIONEER*. Editor and publisher of "The Carolina Israelite," he was raised in the lower east side of New York and was the son of an immigrant. He was introduced to most of us when *ONLY IN AMERICA* was published, and carved a place for himself in most of our hearts with *FOR 2c PLAIN*. This is the sixth book from his prolific pen and mind.

If you have never been a Golden fan, get this book immediately! Harry Golden is a different writer of today's scene—he's a Jew, and is without apology for that. Consequently, we have from him the story of the American Jew; this is a rich legacy from our nation's beginnings which no one else has written about so extensively.

This book tells the story of a small handful of the real pioneers who were the real pioneers of our nation. With a small cash layout, the frontier peddler could buy enough stock for a week's journey. Packed into two knapsacks which he carried, he then took his merchandise on a week's selling trip, going to whichever settler's homes he could reach and still be sure of arriving home in time for the Sabbath. Often the peddler was called upon to settle arguments, only a part of which were on the subject of Jewish beliefs. We Christians owe a debt of gratitude to these early itinerants who helped many a Church School teacher understand what he taught.

As the peddler saved his money, he advanced to a wagon, enabling him to carry more and travel farther. Frequently, through careful planning, he would marry and educate his sons in college while still a peddler. When he had saved enough money, he would open a store in a likely community, becoming a good citizen there.

Fels (Fels laundry products) is just one of those early peddlers to start a new business to grow with a growing nation.

As soon as he could swing it, the peddler would extend credit, often selling something really necessary at the "high" rate of 10c per week. The peddler seldom had a bad debtor, instead finding that people would go to fantastic lengths to pay these debts even after they had moved. The "Travel Now, Pay Later" plans we hear so much about today, were a direct product of that earlier credit in our frontier. Those early peddlers were educated men, and did much to iden-

tify the trees and plants which they came across. Once in a while, all the peddlers would stop and carve their names on an oak. Golden tells of one such tree where these names mounted that oak like a ladder. Frequently such a tree displayed want-ads, telling of farms for sale, etc.

One timely bit of Americana has to do with the peddler and the Negroes of the South; frequently, the traveling peddler was the only merchant who would sell to the colored family.

To the fans of Harry Golden, I don't need to suggest that you get this book from the library immediately. To the uninitiated, you get the drift? Incidentally, the book is 150 pages of fast reading.

*FORGOTTEN PIONEER* by Harry Golden, The World Publishing Company, New York, 1963. Available from the Cass City and Elkland Township Library.

## Uncle Tim From Tyre Sez:

Dear Mister Editor:

Us one-gallus boys at the country store Saturday night was mighty disturbed over some figgers put out by Congressman Ed Foreman of Texas. He had one of them high voltage Government computing machines gift the facts on who was paying what to run this country.

Ed Doolittle brung the figgers with him and all of them was bad. Fer instant, they showed that if the Internal Revenue boys took ever cent of income made by all the millionaires in the United States in 1963 it would've run the Government 39 hours. If they took all the profits of folks making \$25,000 a year or more it would keep the Government three days. And if they took all personal income over \$10,000 the Government would eat it up in 18 days.

The figgers showed that 80 per cent of the national budget was paid by folks that had income tax rates at the rock bottom figger of 20 per cent. In short, Mister Editor, all that money they been wasting in Washington, like paying \$500 fer window curtains and such items, was being paid by the little man, us one-gallus boys.

Up till Ed announced these figgers, all the fellers was thinking it was the rich folks that was paying most of the freight. Now that we know it was us paying the bill, the fellers passed a resolution asking the President to turn off all the lights in the White House after 6 p.m. and to start hanging bed sheets in them windows fer curtains. On account of the little man paying the bills, he ain't been speaking his piece loud enough in these matters.

Clem Webster allowed as how the great trouble in Washington was that our elected representatives give a right-turn signal when they was talking fer publication and then made a left turn when they voted. Fer instant, he said our Congressmen was announcing all over the nation that Federal employees just had to git a raise so's they could make both ends meet. What happened, Clem ask. He had a clipping from the papers giving the results. The bill raised

the pay of office workers 4.3 per cent, 5.6 per cent fer post office employees and 83 per cent fer Congressmen.

Zeke Grubb brung up that item about the Texas Livestock organization taking a \$2,500 gold-plated saddle to President Johnson. He was a 100 per cent in favor of it, claimed it was the first thing in this generation to enter or leave Washington with no tax money in it.

But it could be, Mister Editor, the fellers at the store complains too much. Fer instant, Bug Hookum had a bumper crop of apples this year but he was fussing Saturday night on account of their wasn't no rotten ones fer the hogs.

Yours truly,  
Uncle Tim
