Explain Yearly Cost Of New High School

Cass City's proposed \$1.6 million high school will cost residents in the village of Cass City approximately \$2.50 per \$1,000 of State equalized valuation.

Supt. Donald Crouse gave this example this week in explaining what the proposed high school would cost each resident if the 5-mill bond issue is approved June 14 at the annual school election.

"This is based on State Equalized Valuations and will depend on the value of the property," he states. "State equalized valuation is supposed to be 50 per cent of the actual value of the property . . . normally, it is lower."

As another example, he remarked that a resident owning a house and property in the village valued at \$10,000 would pay about \$25.00 a year and a \$20,000 valuation would accordingly be assessed \$50.00 a year.

The assessment would vary throughout the district, depending on the equalization factor which differs in the various townships. State equalized valuation of the district is \$19,143,774, according to

Crouse.

He stressed that the \$1.6 million figure is an absolute figure. "If approved by the voters, we are committed to that figure and no more can be tacked on later."

The figure would include the building, property, utilities and interest.

Crouse offered a tentative budget as set up by the architects. In releasing the budget, he remarked that it could be "more in some areas and less in others."

The budget is as follows:

Building	\$1,237,000
Site	\$40,000
Site development	\$50,000
Survey and Borings	\$500
Special Utilities	\$28,000
Equipment	\$148,000
Planning and Supervision	\$67,000
Attorney fees	\$4,000
Bond qualification	\$800
Builder's risk ins.	\$1,250
Capital interest	\$15,000
Contingencies	\$8,050

The past five years has been a period of continuing school expansion in the area. Nearly every school in the Thumb has under-

gone a building program of some extent, either complete new facilities or expansion of existing buildings.

Two such building projects completed within that five-year period include high schools at Sandusky and Caro.

Most recently completed is the Sandusky High School. Voters there approved a four and a half mill bond issue for \$895,000 after three attempts, according to Supt. Raymond Kahler.

Built for 600 students, but able to accommodate more, the new high school features a gymnasium with a 1,500 seating capacity and a "cafetorium" which doubles as a cafeteria and study hall and can be used for dances. Square footage is 59,700.

Kahler reported that a swimming pool is under study for the new facility. It is hoped that the \$170,000 needed for the pool can be raised by popular subscription.

Caro's building program has actually gone on over a 10-year period with portions of the school built in 1955, 1957, and a new addition just completed.

Supt. Jim Sutherland reports that the 1955 Kern Hall section cost \$200,000; the major portion, built in 1957 totaled \$900,000 and the new addition ran \$240,000.

These figures do not include an additional \$160,000 for equipment.

Total capacity of the school was estimated by Sutherland to be 1,000 students with 49 teaching stations. Comfortable gymnasium capacity is 2,300 persons.

The cafeteria is a dual purpose room being used as a part-time study hall and large group, team teaching with closed circuit television.

The new addition also has a large room which can be divided into three class rooms and will be used for similar team teaching.

Sutherland reported that Caro had considered a pool but had not offered it to the voters. "The day is not far off . . ." Sutherland commented. "A year-round pool would be a tremendous boon to the community."

Three Injured As Area Reports Minor Mishaps

Three persons were injured in a crash on M-53 Saturday and several property damage accidents were reported by the Cass City Police Department during the week.

Saturday, William A. Andrus, 33, of Cass City reported to Patrolman William R. McKinley that the left rear fender of his car was damaged Mar. 16. The damage occurred while the car was parked on West Main street.

A car driven by Harold McGrath, 54, of Cass City hit the fender of the Andrus car. McGrath was unaware that he hit the Andrus car.

Friday two cars collided at the corner of Main and Leach streets. Michael Cieslinski, 19, of Ubyly, driving east on Main, was struck by a car driven by Keith H. Klinkman, 43, of Cass City. Klinkman was attempting a left turn onto Leach. Klinkman said that he failed to see the approaching car.

Both cars were badly damaged. Three persons were injured in an accident Saturday on M-53, eight miles south of Bad Axe, Bad Axe State Police reported.

David Ruthig, 21, of Ubyly, driver of the car, suffered a cut on the head. Millie McClorey, 29, of Cass City, sustained lacerations of the face and head. She was treated at Hills and Dales General Hospital.

William Kolacz, 29, of Cass City was shaken up. Police said that Ruthig lost control of his car on snow and the car went over a bank and struck a tree.

Deer Killed

A car driven by Edwin L. Osburn, 19, of Akron struck and killed a deer on M-53, about a half mile north of M-81. State Police report it was one of several deer killed in this vicinity in recent months.

The deer was one of a large herd in northwestern Sanilac county between M-81 and the Huron county line.

IT'S APRIL FOOL TIME—it was inevitable, with all the beards in town, that someone would try to beat the Brothers of the Brush by donning false facial fur. If you haven't guessed who these two jokers are, the one on the left is John Sommers and the

hermit on the right is Ed Golding Jr. John's is a man's toupee and Ed's is the remnant of a lady's wig. The Chronicle joins the pair in extending a not too subtle "APRIL FOOL!" greeting. (Chronicle photo)

Move Closer to Finish of Hectic Street, Alley Program

It is essential that we have curb and gutter and sidewalk on Leach and West streets by July 1, Lambert Althaver told the council Tuesday night in its regular monthly session.

The area referred to are the blocks that run north and south of Main street where preparation work was completed last year.

Cost to property owners for this work will be \$1.75 a running foot for curb and half of the cost of sidewalk which is estimated at 50c per square foot or 25c a foot to the land owners.

Dr. D. E. Rawson will contact the land owners to get a petition signed to start the work.

One of Many

The curb and gutter project was one of many that were discussed by the council. Another slated for almost immediate attention are the alleys adjacent to Main street. The question that has been debated for several years returned to haunt trustees again Tuesday. How much to charge business property owners for the work.

Suggestions ranged from 75 per cent of the cost of the blacktop to nothing, if the owners will agree to blacktop the land on their property adjacent to the blacktop. In

any case, the village will pay for all of the cost of preparing the surface for blacktopping, trustees said.

Fred Auten and Mrs. Gladys Albee will start to work again and it is likely that action may be seen this summer.

Village Dump

The village dump program is at a standstill because of the weather, Barney Freiburger reported. Tests cannot be taken until the land thaws.

Another detail to be ironed out is the amount Elkland township will pay. Township officials are waiting for an estimate on the cost of building a road to the site southeast of Cass City before acting.

Skidding Car Kills Girl, 11

Gail Marchand, 11, of Drayton Plains was killed and her brother, Joseph, 10, was severely injured when a car swerved out of control and left the road and hit them as they were standing several feet from the roadway.

The youngsters are the children of Mr. and Mrs. Gerard Marchand of Drayton Plains. They are the grandchildren of Charles Brown and the late Mrs. Brown of Holbrook. The boy and girl were the only children in the family.

The tragedy occurred when a car driven by Lora Maguire, 17, Drayton Plains, went off Lansdowne road in Waterford township and struck the youths. Police said that Miss Maguire skidded on a curve. She was not held.

Funeral services were held Wednesday morning at the Catholic Church at Drayton Plains. Burial was to have been Wednesday afternoon at Elkland township cemetery.

Joseph Marchand is reported recovering from his injuries.

Chronicle Reward Offer Finds Six Non-Readers

Mrs. Betty Andrus, whose husband is a contributor to the Chronicle, is one of seven persons found by Chronicle readers who does not read the Chronicle.

The Chronicle last week offered \$750 to anyone turning in the names of non-readers in the trading area. Two non-readers were found on Caro route four, one in Decker, and two in Gagetown. Another was found on route one, Cass City.

Free three-month trial subscriptions were sent to: Wesley O'Dell and Wesley Clyne, Caro, route four; Mrs. Joe Miklovich and Mildred Monroe, Gagetown; Edwin Peters, Decker; Mrs. Manly Fay, Cass City route one, and Mrs. Andrus.

Bill Kritzman, president of the Cass City Chamber of Commerce, announced this week that Gordon B. MacKenzie, general manager of the Ford division of Ford Motor Company, will be the featured speaker at the annual Chamber banquet Tuesday, April 13, at 6:30 p.m.

Probably one reason that MacKenzie consented to speak here is that he has Cass City connections. He is a nephew of M. B. Auten and Mrs. Belle Knapp.

Tickets are on sale for the banquet now and are available from any board member for \$2.50. Kritzman reports.

In his post with Ford, MacKenzie is responsible for direction of the division's seven sales regions and 37 sales districts, and of the market representation, dealer relations, field operations and field services activities.

MacKenzie was born in Kalamazoo July 12, 1921. He attended Kalamazoo College and holds a master of business administration from U of M. He worked with Packard Motor Car Company and Willys-Overland Motors before joining Ford in 1954.

Ordinances

Three of the 10 ordinances under consideration are moving forward. The village tree ordinance will be examined by the committee of Rawson, Mrs. Albee and Village Attorney Clinton House Wednesday and then sent to the planning commission.

A ordinance to regulate truck traffic on residential streets has been sent to planning and a law covering fireworks, larceny and other points is moving near to completion, it was revealed.

Crack Down

The village will crack down on 15 users of water who are more than one quarter in arrears in paying for their water, it was decided. Rawson reported he is still searching for an over-all director for the summer recreation program and that several applicants for assistants' positions will be considered after the director is signed.

Honor Thumb FFA Students At Banquet

Five Cass City Future Farmers of America chapter members and advisor Lyle Clarke were among 27 advisors and 150 FFA members who attended a DeKalb corn awards banquet in Frankenmuth Tuesday, Mar. 23.

Attending were Charles Venema, Bab Milligan, David Burk, Jerry Krohn and Edwin Gordon.

The banquet was to honor v-o-g students with DeKalb corn projects who had made the best record on a corn growing analysis sheet supplied by DeKalb.

Top student from Cass City on total score was Milligan with a score of 86. He received a special wall plaque.

Twenty-eight schools were represented at the banquet.

Each student plants a variety of DeKalb corn and then compares it to another hybrid by keeping records of all field operations and costs. Edwin Gordon had the lowest cost per bushel of 32 cents.

Ford Executive to Speak At Annual Chamber Banquet

To Elect Circuit Judge

Light Vote Forecast Here

In areas other than those where special elections have created local interest, it is likely that an even lighter vote than that recorded in the primary will be recorded in the non-partisan election for circuit judge Monday, April 5.

Running for the judgeship vacated by Judge T. C. Quinn are James Churchill of Vassar and Robert L. Taylor of Lapeer.

In the February primary only 7,433 of an estimated 30,000 registered voters in the two counties went to the polls despite a hard campaign

by three candidates. Defeated in February was George Lutz, of Lapeer.

Churchill won a smashing victory in the primaries when he won over 57 per cent of the vote.

Since the primaries, Taylor has been concentrating on getting out the Lapeer county vote where he fared much better than he did in Tuscola county.

Churchill, on the other hand, has been working ceaselessly to drum up interest in the election so that Tuscola voters will be sure to vote.

He has arranged free car rides to the polls for Cass City area persons and has been shaking hands and meeting prospective voters every day.

Question Selection Of Bauer

What started to be routine appointments by President Lambert Althaver quickly changed when one of the men suggested by the president was challenged by Dr. D. E. Rawson.

Althaver had suggested that Jim Bauer and Lester Ross be reappointed to the planning commission. Rawson said that since Bauer had previously said that he was ready to step down that he should be relieved of duty on the board.

Althaver explained that Bauer had agreed to take the post, and that he was an experienced man in village government.

Rawson replied that he felt that the recent election indicated that the people desired a change with new men assuming an active role in government. He suggested contacting Donald Crouse.

Here the matter was tabled until the next meeting.

Other appointments were unchallenged. Mrs. Helen Stevens was reappointed health nurse and Clinton House was again named village attorney.

Rutkowski Seeks \$7,500 in Suit

A Cass City man has filed a \$7,500 suit in Caro charging an area youth with negligence in connection with a two-car collision July 4, 1964, on Cemetery Road, south of Cass City.

Lavern P. Rutkowski, 23, is seeking the figure for damages, loss of wages and time from his job and loss of property. He is also asking costs of the suit and five per cent per annum.

The suit was filed against Duane Pelton, 17, of Deford, as driver of the second car, and Harvey Pelton, owner of the car.

Rutkowski suffered head injuries and Pelton suffered bruises in the crash.

Supervisors

Look for Way To Revamp Taxes

Tuscola county supervisors will seek a full 75 per cent saving from the State Tax Commission's new accelerated depreciation schedules, it was decided Monday at a special meeting in Caro.

In a letter sent to Robert Purnell, chairman of the State Tax Commission, the board asked Purnell to "roll back the depreciation loss on tangible personal property for 1965 by 75 per cent."

Last week the commission offered counties the opportunity to hold up as much as 75 per cent of the new schedule.

The new schedule, allowing for accelerated depreciation of tangible personal property, mainly by Detroit Edison, would have cost the county \$690,000. The county will now take only 25 per cent of this loss.

The schedule was set up to bring personal taxes of business and industry in line with real property taxes. A number of counties in the state, including Tuscola county, feel that the resulting sudden loss of valuation would hurt local units of government.

The letter asked for the reduction of loss on the basis of the following:

"If the equalization of assessments is unbalanced between real

Scouters Banquet Set at Cass City

Scouters from Tuscola and Huron counties are slated to meet Monday night, April 5, at Cass City High School for the annual appreciation dinner, according to Horace Buten, teamster.

An estimated 50 to 75 scoutmasters and committeemen and their wives are expected to hear A. Craig Unceper, Saginaw district executive, give the principal address.

Tuscola and Huron counties make up the Thumb District, of which Curt Hunt of Cass City is district chairman.

From the Editor's Corner

Harry King of Cass City believes in moonlighting. For him a 40-hour week would probably be a vacation.

Every day King drives a school bus. He has what he claims is the longest route in Tuscola county. He drives pupils to the retarded children's class and logs 225 miles every day.

In addition to the driving, he has a full time job as policeman at Gagetown where he drives his own car.

King tops all of this off every week end by putting in two eight hour shifts at General Cable where he works as the night watchman.

The upcoming election for circuit judge is of more than usual importance this year. In by far the majority of judicial elections the incumbent is on the ballot. When this happens, it has been proven over the years that the incumbent is practically impossible to dislodge and most lawyers won't even attempt it in Tuscola county.

But the resignation of T. C. Quinn has thrown the race wide open and electors again have a chance to show their preference.

Personally, we favor James Churchill. But regardless of what your choice is, the point is that you have one and this year your vote is more meaningful than in most judicial elections.

Make it a point to get to the polls Monday.

Lambert Althaver presided at his first regular meeting as president of the village council Tuesday night.

It was a lengthy session, but Althaver had obviously completed his home work before the meeting started. With a planned agenda, distributed to members prior to the meeting, trustees waded through a mass of questions and decisions in the most business-like manner that we can recall in 14 years of covering the council.

The village is in good hands.

Extend Option Period

Cass City will sign an option with the Pinney State Bank for eight months, instead of six months as previously planned, it was decided at the regular meeting of the council Tuesday at the Municipal Building.

The option is for the former H. O. Paul building on Main street and will cost the village \$26,650 if it takes eight months to exercise the option. However, the cost will decrease \$200 each month that the village buys the property before the Nov. 30 deadline.

The reason for this change is to take care of the expense of building maintenance to the owner. The option price is \$1,000. If the building is purchased the amount applies toward the purchase price. If the building is not purchased, the money is lost.

Regardless of the ownership of the building, a lease with Pepsi-Cola Bottling Company for one year at \$280 per month will have to be honored, Fred Pinney explained to trustees, when discussing the lease.

Stands Mute

Margaret L. Northrup, Midland, stood mute during her arraignment for felonious driving. Mrs. Northrup was the driver of a car which struck and crippled LeRoy Keipinger, a student, last October 14, in Fremont township.

The Keipinger boy had just gotten off a school bus which had stopped to discharge children. The bus reportedly had all warning signals in operation and Mrs. Northrup is charged with failing to heed them.

Divorces

Agnes M. Howell of Cass City was granted temporary support of \$22.50 per week in her suit against her husband, John. A restraining order and attorney fees were also granted in the suit which charges extreme cruelty. The couple have four children and were married Jan. 4, 1947, in Port Huron.

A pro-con divorce was granted to Linda L. Root of Gagetown, against her husband Raymond, in a suit charging extreme cruelty. Custody of the couple's three children was granted to the mother, along with support of \$10.00 per week per child. A property settlement was also approved. The couple were married Jan. 14, 1960, in Cass City.

March 25, 1965
U.S. Naval Base
Gimo Bay, Cuba

I am writing in reference to the mystery picture in the March 18, 1965 paper.

I am Brent D. Connell, stationed at the U.S. Naval Base, Gimo Bay, Cuba. I receive your paper every week, although it is usually a week late. I haven't been around Cass City for the past 8 1/2 years. But I say the picture is: Mr. Barney Freiburger. Since it is impossible for me to call in my answer, would you please let me know if I am right or wrong?

I enjoy the Chronicle very much. It is nice to receive your home town paper when you are thousands of miles away from home. I have been stationed here since

June, 1964, and will be here until January, 1966. Although it isn't too bad since my wife is here with me.

My father lives at 6725 E. Main St., Cass City.

Hoping to hear from you real soon.

Thank you,
Mr. and Mrs. Brent D. Connell

Zing into spring! Corvair by Chevrolet

The steering's crisper, the ride's flatter, the style's racier—even the grass looks a shade greener from behind the wheel of this new Corvair

For all its finely calibrated instrumentation—tachometer, manifold pressure gauge, even an electric clock with a sweep second hand for rally buffs—the most important thing that happens when you get a Corvair Corsa

out on the road doesn't register on the dash. It registers on you.

You feel it in the steering—crisp and precise—as you double back on a curve. In the flat riveted-to-the-road stability of the new fully independent suspension. In the response of the rear engine (up to 180 hp available now in Corsa's Turbo-Charged version).

Drop down to your dealer's now—while the trading's extra good—and see for yourself.

Repeal of Voter Registration Law May Start Veto Trend

By Elmer E. White
Michigan Press Association
Too Much

Veto numbers could easily reach new highs in the next two years of state history.

Whether this occurs probably will depend largely on how much legis-lative reversing the Democrats do.

Already at least one reversal has been started. A bill to repeal the two-year voter registration law and restore Michigan to a four-year registration system is better than half way through the legislative process.

Bitterly fought by Democrats when they held the minority position, the two-year registration law just took effect for the last election.

It was an improvement, then-controlling Republicans said, be-cause it would help clean out dead wood in clerks' files and prevent vote fraud practices.

Democrats said the two-year system was designed to make it more difficult for the many people who normally vote only in presi-dential years. Most of these, they said, were Democrats.

Eager Beavers Win In 1st Competition

Deford's Eager Beaver 4-H Club walked away from the annual achievement day competition at Kingston Saturday with 22 blue ribbons and five red ribbons, ac-cording to Mrs. Gordon Holcomb, club leader.

The event was the first competi-tion for the recently formed club. The club presented a skit and sang the 4-H leader song during the pro-gram.

Blue ribbon winners in sewing were: Sandra Holcomb, Patty Hol-comb, Debbie Damm, Sue Nicol, Cheryl Nicol, Ava Edwards and Jeannie Daily. Paula Edwards re-ceived a red ribbon in that division.

In the knitting division, Patty Holcomb won a blue ribbon and Sandra Holcomb and Pam Kilbourn received red ribbons.

Handicraft

Handicraft blue ribbon winners included: Gary Pringle, Mike Phil-lips, Mike Stine, Fred Harbec, Jimmy VanAllen, Duane Damm, Raymond Vargo, Frank Holcomb, Donald Karr, Mike Lagos, Lee Deering, David Deering and Henry Cooklin. Red ribbon winners in that division were Kenny Hall and Den-nis Curtis.

Leaders for the group include Mrs. George Getchel, knitting; Duane Lester, handicraft, and Mrs. Holcomb, sewing and general leader.

Lenten Play Set At EUB Church

A Lenten play, entitled "The Three Faces of Easter," will be presented by the youth fellowship of Salem EUB Church Sunday, April 4, at 8:00 p.m.

Under the direction of Shirley Betts, several youths will be tak-ing part in the play, along with sev-eral adults. The theme centers around the various "faces" of Easter which have come into being down through the years, including such empha-ses as the Easter bunny and the fashion parade. These are drawn in contrast to the real mean-ing of Easter, that of Christ's resur-rection.

Music for the production will be under the direction of Mrs. Stanley Kinn Jr. The play will be about an hour long and will be presented in the sanctuary of the church.

The public is cordially invited.

Announce 1964 Wool Payment

Frank Light, chairman of the Michigan ASC Committee, an-nounced today that shorn wool payments for the 1964 marketing year will amount to 16.5 per cent of the dollar returns each producer received from the sale of shorn wool during the period from Janu-ary through December, 1964. This will bring the average wool price of 53.2 cents per pound up to the previously announced incentive level of 62 cents per pound under the National Wool Act.

Payments to producers will be \$16.50 for every \$100 received from the sale of shorn wool. This com-pares to a payment of \$27.80 per \$100 of marketings for the 1963 marketing year. This is the 10th year of the program.

BULEN MOTORS

There is a big change in buying habits throughout the United States. Quietly, almost unnoticed, broad changes are taking place in the way people spend their money in this country. The most significant change now under way is the revamping of the household budget! Much of this revision is to provide for bigger families.

There are now nearly 55 million people in this country between the ages of 5 and 21. That's 38 per cent more than 10 years ago.

Families with growing children have heavy expenses for food, clothing, medical and dental care, and household expenses of all kinds.

All of this means that every one must get more for their automobile dollar... and that is what BULEN MOTORS can do for you!

Tastes and desire of consumers for certain products also seem to be undergoing a major change.

Autos are cited as the prime example. The big desire is for economy. People want high gasoline mileage, low main-tenance cost.

Market researchers report that the automobile no longer is the prime "status symbol" it once was. Reason: Nearly everyone's got a car. Everybody must have a car and for the car that can give you the most for the money, see BULEN MOTORS today!

State FFA Elects Milligan Secretary

Cass City State Farmers copped two of the highest honors available at the 37th Annual Convention of the Michigan Association of Future Farmers of America last week in East Lansing.

Robert Milligan, Cass City senior, was elected State FFA Secretary, to bring home a state office for the first time since 1947 when Keith Little was also elected state secretary.

Lyle Clarke, FFA advisor, commented, in making the announcement of the election, that it was the first state office obtained under his advisement.

Milligan will serve from July 1 to June 30, 1966. He will attend a state leadership training camp and first business meeting during the second week of July. He will also attend a conference at Camp Minnewauka in August.

Elwood Morell was one of 22 state FFA members to receive the State Farmer Gold Award and Milligan received a State Farmer Silver Award. The pair competed against 215 State Farmers to win the honors.

Other state officers include: Richard Byron of Leslie, president; Lorence Albrecht of Carsonville, reporter; Tom Spike of Chesaning, treasurer; Gordon Behrenwald of Lakeview, sentinel; and Howard Falke of Romeo, regional vice-president.

Gov. George Romney was the main speaker at the banquet. Other speakers included Ted Malone, radio personality; Dr. Thomas K. Cowden, MSU dean of agriculture, and Kenneth Kennedy, National FFA president.

Also attending the convention were Carrie Dillon, humorous. Edward DeLong.

White Shrine Holds Installation Saturday

Bethlehem White Shrine installation was held in Bay City, Saturday, March 27, when Mrs. Charles Merchant of Cass City was installed as Worthy High Priestess. The retiring Worthy High Priestess, Mrs. Basil Wotton, was one of the installing officers.

Others from the area who were installed for the ensuing year were: Mrs. Leo Russell, noble prophetess; Edward Mellendorf, associate watchman of shepherds; Mrs. Basil Wotton, chaplain; Mrs. Harriett Schmidt, worthy shepherdess; Mrs. Marion Terrill, guide; Mrs. Leo Tracy, worthy guardian; Leo Tracy, soloist and color bearer; Mrs. Orville Hubbard, lady-in-waiting; Mrs. Donald Adams, herald; and Mrs. Edward Mellendorf, Mrs. Roland Layer and Mrs. Robert Love, queen's attendants.

Mrs. Merchant was escorted to the East by her two granddaughters, Ann and Becky Whittaker, and was presented with her gavel, a gift from her family.

The table centerpiece and decorations were the official flowers, orchids and Easter lily.

Refreshments were served following the installation.

Regionals Next For Tim Knight

Tim Knight, Cass City Forensic student, qualified for regional forensic competition Tuesday when he took a first place in extemporaneous speaking in a contest at Vassar.

Knight's topic was "Should the US close USIA libraries in Indonesia?" Students from Cass City, Caro and Vassar participated in the competition.

Other Cass City students attending were: Rosemary Fritz and Joyce Seelye, interpretative reading; Kathy Herhalt, declamation; Mary Lou Spencer, extemporaneous speaking; and Debbie Boylan and Carrie Dillon, humorous. Edward Doerr is forensics instructor.

Thought for Lent

(Fifth in a series)

The Rev. J. Clement Schott has for two years been the Associate Pastor of the area United Missionary Churches. He is well-known to pupils of our school system where he has been a substitute teacher.

Isaiah 53:5 But He was wounded for our transgressions. He was bruised for our iniquities: the chastisement of our peace was upon Him; and with His stripes we are healed.

Is it possible that we spend too much time during the Lenten season in a somewhat morbid contemplation of the suffering of Christ? Certainly it was an ignoble, heinous death, full of human and divine anguish, but it was also the gateway to life. Had it not been for Christ and His suffering there would be no hope for mankind, we would be separated from fellowship with God.

Christ's death on Calvary was a result of the disobedience of man, and being a member of the human race, I become responsible for His suffering and death. However, Jesus has already suffered and died; He has borne our sins in His body on the Cross, therefore we have peace with God through Him. In contemplation of this great truth, I feel a great surge of joy welling up within me, for now I need not fear God's judgment, but am free from the condemnation of sin.

In this consideration there is nothing to remove the significance of the suffering of Christ, for in realizing the great price Jesus paid for our redemption, we must also be willing to suffer for Him. James well said; "Count it all joy when ye fall into diverse temptations; knowing this, that the trial of your faith works patience." We read in Acts 5:41 where the apostles departed from the presence of the council, "rejoicing that they were counted worthy to suffer shame for His name."

It is impossible to consider the suffering of Christ without realizing the miracle of the resurrection. Had Jesus suffered and died without having been resurrected, His suffering and death would have been no more effective than any other person's suffering and death. But thanks be to God, He was raised from the dead, and has conquered death, and has given us hope of resurrection. Paul writes in I Cor. 15:55, 57 "O death where is thy sting? O grave where is thy victory? But thanks be to God, which giveth us the victory through our Lord Jesus Christ."

Therefore, today as we think upon His passion, let us also realize that His will for us is that we should receive personally the person of Christ who has already suffered once and for all, that we may have healing for our sin-sick souls. His stripes are healing stripes, they should have been placed on our

MATURITY

Any man can cash in on good resolutions if he keeps them long enough to earn dividends.

Key Leaders in Unique Farm Bureau Meeting

Key leaders from the county conducted a unique Farm Bureau leaders' meeting last week at the Farm Bureau Center in Caro.

Old Problem Poses New Threat

With Michigan's growing forests threatened by the new danger of fast-moving, hard-to-control "crown" fires like this one, the Conservation Department cannot stand "pat" with equipment and techniques which have worked so effectively in the past. In many cases, yesterday's best fire-fighting tools, such as fire-lane plows, have been outmoded by today's changing forests. This is reflected in the chart above which shows what has happened to fire damage in Michigan during just the past few years. True, recent acreage losses are small compared with those raging holocausts in the early part of the 1900's. What the Department is worried about is the possibility of some very large, individual fires in years to come. That's why it is working hard these days on new equipment and techniques in an effort to keep history from repeating itself.

4-H WINNERS—These three, Cass City area youngsters were among winners at the 4-H Achievement Day program held Saturday at Kingston. Marge Clarke, left, daughter of Mr. and Mrs. Lyle Clarke, will participate in a style revue this spring. George and Tom Russell were handicraft district winners, and LaDonna Brown, daughter of Mr. and Mrs. Dale Brown, won in hobby crafts.

Name District 4-H Winners At Annual Achievement Day

4-H'ers from the Cass City area won top honors at the annual district Spring Achievement Saturday night at Kingston High School. An estimated 350 persons attended.

In the handicraft division Lyle Curry, Kingston, was selected craftsman for his picnic table. George Russell, Cass City, won handyman honors with a mosaic lamp table and Tom Russell's entries won apprentice honors.

The Wolverine club of Ellington swept honors in the food exhibits.

Winners were Russell Keineth, Karen Keineth, Karen Darbee and Joyce Gordon.

Kathy Darling's knitting was chosen state show potential.

Selected for the county dress review were Marge Clarke of Cass City, Sharon Seeley, Mary Ann Bushard, Cynthia Ballweg, Mary Ann Magiera of St. Martha's Club of Caro and Judy Ross of Kingston.

Others selected were: Mary Gravin and Susan Fahner of Caro and Joan Orsella, Sandra O'Connell and Linette LaFave of Gagetown.

A flag ceremony was staged by the Cass City Club. Grant Goodall was narrator, Paula Karr, Tom Russell, David Little and Becky Loomis unveiled the flags. Bob Carpenter and Connie DeLong led the flag salute and 4-H pledge.

Win Ribbons

The Needles and Kettles Club entered in the clothing and knitting division. In the third year Junior Miss division, Connie DeLong, Marge Clarke, Margaret Battel, and Susan Tuckey won blue awards while Janet Koepfgen received a red as second year Junior Miss.

In Young Miss, second year class, exhibiting shift dresses, Carol Clarke won a blue ribbon and Susan Koepfgen, a red.

Susan Brown took a blue award and Mary Lee Russell and Mary Beth Esau red for their skirts in second year sewing.

Both first year students, Donna DeLong and Sharon Clarke, won blue awards on their aprons. Mrs. Lyle Clarke is the sewing leader.

First year knitting projects of Susan Tuckey, Paula Karr, Becky Loomis, Mary Lee Russell and Susan Brown received blue ribbons. Red awards went to Carol Tuckey, Carol Clarke, Marge Clark, Doreen Venema, Mary Beth Esau, Ruth Ann Cummins, Janet and Susan Koepfgen, Mrs. Arthur Brown and Mrs. Don Loomis are the knitting leaders.

Present Corsage

Members of the club presented their leader, Mrs. Clarke, with a corsage at the Achievement program.

A roller skating party is planned for April 6 at the Skating Arena in Bad Axe from 7:00-10:00, by members of the Needles and Kettles club, as a celebration to end the winter project session. All members of the Cass City Livestock club and their families are invited to attend.

Fourteen members of the handicraft group and 10 from the hobby-craft club submitted projects for exhibit and judging. Their fine showing yielded 17 blue awards and seven red ribbons. Mr. and Mrs. Keith Russell are leaders.

Outlook Dim in Track and Baseball for Cass City Hawks

Don't look for any Thumb 'B' League championships in spring sports this year, Orie Lemanski and John Oswald report as they busily work with their charges in baseball and track.

Last year Cass City finished third in track and baseball and the prospects are no better this season.

Cass City lost its top baseball player and track man when Walter Hempton graduated. In baseball Hempton hit over 500 and in track he was good for about 20 points per meet. His individual efforts almost singlehandedly won the regional meet for the Hawks.

Track Prospects

Besides Hempton, Cass City also lost Dale McIntosh, who starred in the 440 and the mile relay. Others who will be missed, Lemanski said, are Dave Bullock in the broad jump, Dave Parrott in the 880 and Jim Turner in the 380.

There are eight lettermen back to form the backbone of this year's team. They include Ed Retherford, Cass Pasieczny, Carl Weippert, Dean Stine, George Kloc, Jim Crane, Larry Groombridge and Dave Schember.

The balance of the squad will be selected from among 62 boys who have turned out for track practice. The weather has been a dampener on Lemanski's hopes of hammering out a squad before the opening meet April 7 when the Hawks will host North Branch.

The power in the league is expected to come from the same teams as last year.

Paced by state shot put record holder Bob Johnson, Vassar is expected to make a strong bid in defense of the title the school won last year. The Vulcans are very strong in the field events.

The most serious challenge to Vassar will come from Bad Axe which finished second last year. Paced by Dick DeChene, the dash speedster, Bad Axe will pile up plenty of points in the track events.

Baseball Team

The Hawks' diamond nine should be solid in pitching and behind the plate, but Oswald will have to play many holes in the infield and find some punch at the plate.

The entire left side of the infield, where Dave Stine and Milt Sherrard presided at shortstop and third base, respectively, needs rebuilding. The outfield boasted two of the club's top hitters in Hempton (.556) and Marvin Irner, who graduated last year. Finding someone to

stroke the ball as these boys did will be a major problem.

On the mound, Oswald can turn to three veterans. Jim Champion (.52), Wayne Copeland (.42) and Tom Kelley, relief pitcher, all are letter winners.

Champion also plays in the field when not on the mound and last year batted a lusty .333. Jim Knoblet, three-year veteran, will provide the Hawks with outstanding catching. He batted .280 last year. Others to win letters are David Schember and Al Wallace.

Little League To Have Two Ball Diamonds

There will be two fields devoted to Little and Minor League baseball at Cass City Recreational Park this year, it was decided by the village council Tuesday.

Vic Guernsey and Theron Hopper appeared before the council and asked that Minor League players be allowed to make a field in the outfield of the baseball park, in addition to the regular Little League diamond at the park.

The village agreed to this request and also authorized the necessary money to pay for the umpires, as it did last year.

Guernsey explained that last year the program expanded with 130 boys participating, as compared to 65 the previous year.

The total budget for the program was about \$1,800, most of which was raised by donations, Guernsey said.

Little, Minor League Players To Register

Minor League and Little League ball player registrations will be held at Willis Campbell Elementary School Gym on Thursday, April 8, at 7:00 p.m.

To qualify, boys must be seven by August 1 and not over 12 by August 1. Each boy must be accompanied by one of his parents.

A \$1.00 fee for insurance is required at time of registration. The Little League schedule is being prepared and the first game will be played May 24 with league schedule to be completed by July 16.

The total budget for the program was about \$1,800, most of which was raised by donations, Guernsey said.

Little League To Have Two Ball Diamonds

There will be two fields devoted to Little and Minor League baseball at Cass City Recreational Park this year, it was decided by the village council Tuesday.

Vic Guernsey and Theron Hopper appeared before the council and asked that Minor League players be allowed to make a field in the outfield of the baseball park, in addition to the regular Little League diamond at the park.

The village agreed to this request and also authorized the necessary money to pay for the umpires, as it did last year.

Guernsey explained that last year the program expanded with 130 boys participating, as compared to 65 the previous year.

The total budget for the program was about \$1,800, most of which was raised by donations, Guernsey said.

KOMMENTS BY KRAFT

**I'll Fool You
All Yet . . .**

By Dave Kraft

I don't know what to do about those beards. Either we have a lot of very perceptive readers or I'm not cutting enough of the picture off.

I think I've hit upon a solution which will probably cut down the correct answers. Instead of showing the whole beard, we'll show . . . one magnified hair.

Let's guess that. We're very happy with the response. If nothing else, we'll at least boost the subscription list.

Did you watch the Bob Hope special Friday? Hope and his long-time cronies Jerry Colona did this one bit in which they meet in the center of the stage.

Hope says: "Where are you going Jerry?"

Jerry, who seems to have something in his mouth, says "Fishin'." Hope says: "Oh, fishin'. What have you got in your mouth?"

Jerry's mouth is closed, but his cheeks keep moving as if he has something in his mouth and he says: "Worms."

Got a nice letter from Marge Lopez down in Venezuela. She seems to be having a great time. She tells all about carnival time, a complete village on poles over water and a host of other things.

Best thing, though, was her post script: "Hi Dave, I'm really enjoying the Chronicle! It keeps me posted on what's what at home."

I've said it time and time again. "The Chronicle is Cass City's leading newspaper." And who is to dispute me?

I went to Detroit a week ago on Centennial business. I followed this other car down. This other car, incidentally, was driven by a woman.

By the time we got where we were going, my ulcer was staging the "Battle of the Bulge" all over again, with a full cast of characters.

Actually, you can't blame the

driver. That Detroit and environs is a sick, sick place. Has to be. Any town that makes such a gosh-awful mess of getting from one side of the road to the other has got to have something wrong with it.

All roads do not lead to Mecca in Detroit. Some of them don't even lead any place.

We went to some of the various Ford Motor Co. buildings down by Dearborn. I'll say one thing for the Ford people. They don't fool around when it comes to building offices.

And the trappings. It's the type of building one appreciates appreciating. Full of art, light and airy, smacking of sophistication.

Wood's Drug Store gave away over 100 pounds of candy during its three-day introduction of its new candy counter. That's a lot of fat.

Only Tom Proctor says it's not fat, it's energy. I only know I burned up my share of energy getting my share of that 100 pounds.

I got tired of going in for the free samples. Actually, I wasn't tired, I just got embarrassed. Proctor kept giving me funny looks, especially when I spent my lunch hour leaning over the tray of samples.

To get around this, I started buying \$1.00 worth of merchandise for which I received a free five-piece box of candy.

I bought \$1.00 worth of photographic acid, \$1.00 worth of aspirins, \$1.00 worth of facial tissue, \$1.00 worth of razor blades and \$1.00 worth of distilled water.

I was going to buy \$1.00 worth of candy but I got ahold of myself. Proctor figured I'd spent so much time and eaten so much free candy that it was only right that I draw the name of the winner of the free box of candy for a month for a year.

I drew my name right off the bat, but I figured that was too obvious so I drew Judy Nicol's name. (I'll be over for my cut later, Judy.)

Release Fourth Term Honor Roll

Principal Arthur Zimmerberg has released the honor roll for the fourth marking period at Cass City High School. The period covered is from Feb. 2 through Mar. 12.

To be listed students must have attained a B or better in every subject. Among the students are six who achieved an A in every subject. They are indicated by an asterisk.

Everyone Knows Jack Esau, but It's Different Now

Often a bridesmaid, but never a bride, Mrs. Edward Schwartz must be thinking along those lines this week as she views the results of the second week of the beard guessing contest.

For the second straight time, Mrs. Schwartz was the second person to correctly guess the man behind the mystery beard. She called about five seconds after the correct guess was submitted by Jim MacTavish.

The person, as most of you guessed, was Jack Esau.

The next eight to guess right were: Bill Eberline, Maynard Helwig, Mrs. John LaPeer, Helen

Jezewski, Dale Ashmore, Bonnie Weippert, Rudy Patara, Susan Asher and Elden Stilson.

Change Rules

Starting with next week's picture the rules will be changed for three weeks. Only persons who receive the paper through the mail will be eligible to win the free subscription for the correct identification.

The rule change will give persons who receive their paper on Thursday instead of Wednesday afternoon a chance to win the prize and be first to identify the mystery beard.

This week's contest is open to everyone. The Chronicle feels that this one might give you oodles of trouble.

So get on your mark . . . go!

Better Health Through Knowledge

BALDNESS

Q. Do you have any information concerning the transplanting of hair to correct baldness?
A. Doctors have had limited success (and experience) in scalp transplanting. Small plugs are taken from the nape of the neck or fringe areas and transplanted to the bald spot. If the transplant "takes" the hair will grow, but for how long a time no one knows. The procedure seems logical but is of necessity rather expensive. Only a few "plugs" are transplanted at any one time. Another new approach to baldness is the use of male sex hormone ointment. However, the doctors who reported success with this method warn that their study was preliminary and urge against the indiscriminate use of the hormone in treatment of common baldness.

WINE FOR DIABETICS

Q. Is it safe for a person with diabetes to occasionally indulge in a glass of wine?
A. According to a diabetes research specialist, diabetics, who are ordinarily forbidden alcoholic beverages, can safely and even beneficially drink small amounts of dry (low-sugar) wine. However, before stocking your wine cellar, check with your doctor.

Remember — the diagnosis and treatment of disease is the function of the patient's personal physician.

No wonder a brigade of buyers is switching to Dodge. Join 'em for the new look of action, the real thing in performance . . . and savings.

HERE'S HOW DODGE'S 5-YEAR, 50,000-MILE ENGINE AND DRIVE TRAIN WARRANTY PROTECTS YOU: Chrysler Corporation confidently warrants all of its 1965 cars for 5 years or 50,000 miles, whichever comes first, during which time any such parts that prove defective in material and workmanship will be replaced or repaired at a Chrysler Motors Corporation Authorized Dealer's place of business without charge for such parts or labor: engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excluding manual clutch), torque converter, drive shaft, universal joints, rear axle and differential, and rear wheel bearings. REQUIRED MAINTENANCE: The following maintenance services are required under the warranty—change engine oil every 3 months or 4,000 miles, whichever comes first; replace oil filter every second oil change; clean carburetor air filter every 6 months and replace it every 2 years; and every 6 months furnish evidence of this required service to a Chrysler Motors Corporation Authorized Dealer and request him to certify receipt of such evidence and your car's mileage. Simple enough for such important protection.

Homemakers Hear of Accessories

Jean Schuble, clothing specialist from Michigan State University, presented a lesson on accessories for Extension homemakers and 4-H Leaders Friday, March 19, at Caro High School, according to Barbara S. Henriksen, county extension agent in home economics.

Miss Schuble, using slides, and choosing members of the audience for examples, spoke of functional and beautiful accessories.

"There are no hard and fast rules on accessories," Miss Schuble said. "It depends on the effect you want. The eye is drawn to the accessory. Flowers should be worn at the waist only if you have a pretty waist. Anyone who has figure problems should draw attention away from the figure by placing the accessories near the face, the natural center of interest."

"Never use bright or contrasting

colors where you don't want attention drawn. Gloves, draw attention to the hip line," she commented. "Be sure to scale accessories to body size. Huge beads weigh a little lady down and a large woman looks even bigger carrying a tiny handbag."

Marriages break up for two reasons—her love of dry goods or his love of wet goods.

TIP TO MOTORISTS

Drive to avoid accidents—many motorists push the law of averages too far when it comes to taking chances.

Top Entertainment In Summer Stock

By Elmer E. White
Michigan Press Association
Happy Productions

Some really fine entertainment becomes available in Michigan each summer. For those who love the excitement of the stage and have little opportunity to see live dramatic productions, the Summer Theatre offers much. For those who are bitten by the theater bug, it offers training, experience, hard work and fun.

Most theater organizations are similar. Backed by a few intensely interested people or a local organization, the group plans a series of productions during the summer season. They can usually entice nationally known actors to appear. This gives an opportunity for promotion and for local people to work with professionals. Tickets are relatively low priced; quality is rather high.

One of the most successful theater operations is going strong at the Cherry County Playhouse in Traverse City. Under the direction of Miss Ruth Bailey, the theater has presented such well known artists as Edward Everett Horton, Richard Arlen, Jill Corey, Wendell Corey, Veronica Lake, Julius LaRosa, Charlie Ruggles and many others.

Presentations are topnotch plays or musicals, both from the classics and contemporary theater.

At present the following Summer Theaters are listed with the Michigan Tourist Council: the Barn Theater in Augusta; Keweenaw Playhouse, Calumet; Clark Lake Playhouse; Tibbits Opera House, Coldwater; Ledges Playhouse, Grand Ledge; Circle in the Park, Grand Rapids; Ramsdell Theater, Manistee; Port City Playhouse, Muskegon; Holly Arbor Theater, Oscoda; Petoskey Playhouse, Oden; Irish Hills Playhouse, Onsted; Tip-O-The-Thumb Playhouse, Port Austin; Houghton Lake Playhouse, Prudenville; Red Barn Theater, Saugatuck; Sister Lakes Playhouse; Northland Playhouse, Southfield; Cherry County Playhouse, Traverse City, and White Lake Playhouse.

Defective Cars

Beat-up, defective cars on the highways have been a problem for a long time, but there has been a reluctance to produce a law which would require car owners to have brakes, lights, horn, steering and wipers checked. There has been a fear that such a law would be abused by those authorized to make inspections and that unnecessary repairs would be charged to un-

suspecting motorists.

In view of an experiment last fall, it seems the public will soon have to make up its mind between putting up with high percentage of defective cars we now have and a law which would require inspection and repair.

According to William Palmer, director of Associated Petroleum Industries of Michigan, that organization arranged with gas stations to offer motorists free two-minute inspections. Results were a good deal less happy than expected. An average of 35 per cent of the motorists stopping at gas stations refused a vehicle check. For the most part, these were cars which looked most obviously to need repair. Apparently owners were afraid it would cost them something to repair their cars.

Of cars checked, about 35 per cent needed some kind of repair to lights, brakes, wipers or horn. Many of these drivers did not have cars repaired promptly, stating that they were too busy or that they would take care of it later.

The choice is whether to risk fraud in a system which would require motor checks and repairs or to risk accidents which result from defective automobiles on the highway.

Gas station owners can't be blamed if they are a little sour on plans which try to accommodate the public. Earlier some proprietors had joined in a campaign to help "Keep Michigan Beautiful" by placing trash cans in their stations. These were meant for motorists who stopped so they could empty trash and litter which had accumulated during a trip.

There was wide-spread abuse of these cans. Neighbors filled them with leaves, garbage and other refuse from their homes, including, in one instance, a dead cat.

The plan was abandoned.

More Hospitals

Slightly less Federal funds will be available this year for hospital and medical facility construction than was used in 1964, reports Health Commissioner Dr. Albert E. Heustis.

Some \$8,272,050 has been allotted for 1965 as compared with \$8,809,600 last year. The funds assigned in Michigan last year allowed the start of 22 construction projects, completion of 14, and planning for 40 more.

Federal funds are allotted to states each year for projects such as nursing schools, county and local hospitals, psychiatric facilities and child guidance clinics.

A plan for use of the 1965 funds was drawn by the Health Department on the basis of a statewide survey of existing facilities.

This survey showed Michigan is in relatively good shape in one area of hospital care, but sharply lacking in another, said Heustis.

The plan indicated 82.8 per cent of needed acute care facilities are presently available in Michigan, but only 51.5 per cent of the necessary long-term care institutions are now in use, he said.

Mental retardation afflicts one out of every ten American children! Many victims of this particularly tragic disease can now be helped dramatically if given a 50c test shortly after birth. The test reveals the PKU chemical disorder. A corrective diet enables the baby to grow and develop normally. The test and diet must be employed before brain damage occurs. Expectant mothers will be well advised to request such test routinely after they give birth. Or, so it seems to me.

Said one observing citizen when asked his opinion about the Beatles, "I think that they're a barber-shop quartet that didn't get waited on."

Hansen's Disease or, as it is more popularly known, leprosy, now curable, still affects 10-15 million people. Needed desperately now is money to be used for missionary clinics to diagnose and treat cases of this dread disease among the backward peoples of the earth. Ear-marked funds sent to almost any church will help. Or, so it seems to me.

Amassing of 148 votes in the House of Representatives against the seating of the regular five-member Mississippi delegation has encouraged civil rights forces, according to Robert W. Spike, executive director of the National Council of Churches Commission on Religion and Race. "This means," he said, "that the climate for more civil rights legislation in this Congress is healthier than we had been told."

Writes Dr. John H. Melzer: "According to a recent news magazine, IBM unveiled a computer system capable of performing the work of four other IBM computer systems now in service." And friends, when computers start causing unemployment among other computers, it's time to start worrying. Or, so it seems to me.

Have you heard about the new organization being formed to help people give up smoking? It's the League to Save Mankind From Tobacco. The only difficulty is with its initials... Septic (after listening to several fish stories in the club) "And what about your catches, Brown? Haven't you caught one worth mentioning?" Brown's reply: "No. The last one I caught was too small to take home, so two men helped me throw it back!"

New York City is talking about its narcotic addicts; it has approximately one-half of our nation's

200,000 addicts. At least one authority says that our affluence is a large factor. He cites the ease with which today's youth have it, and suggests that the taking of certain drugs has become for many a status symbol. One woman said her son, an addict, would be better off dead. Governor Rockefeller has called for "a massive effort" to wipe out drug addiction at an estimated cost of four million dollars. We wish authorities of New York much success in their effort, but have serious doubts. Until churches and other groups can find ways to replace drugs' ability to make dull lives exciting, I fear that this problem is very much with us. Or, so it seems to me.

Seventy-one-year-old Harry Denman is soon retiring as director of Evangelism of the Methodist Church. Possessor of many honorary degrees, he has never accepted a salary. Space limitations make it impossible to list the testimonies concerning this fine Christian man but I will point out one more thing. Dr. Denman is not a clergyman, but is a layman who takes his faith seriously. Or, so it seems to me.

County Achievement Set at Gagetown

The Tuscola County Extension Homemakers will hold their achievement day in Gagetown public school, April 22, according to Barbara S. Henriksen, county extension agent in home economics.

Mrs. Frederick Garrison, widely traveled treasurer of the Associated Country Women of the World, will be the featured speaker. Mrs. Loren Ewald, Mrs. Elmer Roller and Mrs. William Tonkin will guide an armchair tour to Hawaii, and Dick Ross, IFYE delegate, will speak of life behind the Iron Curtain.

A roast beef lunch will be served at \$1.65. Further details are available from Study Group chairmen or the County Extension Office.

Hold Final Rites for Mrs. Ada Palmer

Mrs. Ada L. Palmer, 85, a life-long resident of the area, died Wednesday, Mar. 24, at the Fischer Nursing Home in Mayville. She had spent 15 months at the home and was in ill health for the month preceding her death.

Mrs. Palmer was born in Gagetown, Sept. 8, 1880, the daughter of the late Mr. and Mrs. Amasa Coons. She married Fred Palmer in Gagetown June 25, 1903, and they lived in Gagetown following their marriage. Mr. Palmer died Dec. 6, 1955.

Mrs. Palmer was a retired school teacher and a member of the Episcopal Church in Bad Axe.

She is survived by a number of nieces and nephews.

Funeral services were held Saturday at Little's Funeral Home. The Rev. Harold Arberg, pastor of the Episcopal Church of Bad Axe, officiated.

Burial was in Hillside Cemetery in Gagetown.

IT SEEMS TO ME A NEW MERGER IS IN THE WORKS

By the Rev. R. J. Searls

A new church merger is in the works. Sought is a church formed by the Presbyterian Church in the US (950,000 members) and by the Reformed Church in America (240,000 members.) The present timetable calls for consummation of the move toward unity in 1970, a climax to conversations which started in 1962. Much of the strength of the new church is (potentially) in the south.

Needed desperately now is money to be used for missionary clinics to diagnose and treat cases of this dread disease among the backward peoples of the earth. Ear-marked funds sent to almost any church will help. Or, so it seems to me.

Amassing of 148 votes in the House of Representatives against the seating of the regular five-member Mississippi delegation has encouraged civil rights forces, according to Robert W. Spike, executive director of the National Council of Churches Commission on Religion and Race. "This means," he said, "that the climate for more civil rights legislation in this Congress is healthier than we had been told."

Writes Dr. John H. Melzer: "According to a recent news magazine, IBM unveiled a computer system capable of performing the work of four other IBM computer systems now in service." And friends, when computers start causing unemployment among other computers, it's time to start worrying. Or, so it seems to me.

Have you heard about the new organization being formed to help people give up smoking? It's the League to Save Mankind From Tobacco. The only difficulty is with its initials... Septic (after listening to several fish stories in the club) "And what about your catches, Brown? Haven't you caught one worth mentioning?" Brown's reply: "No. The last one I caught was too small to take home, so two men helped me throw it back!"

Margaret Lee Shaw, who teaches at Lakeview High School, has been selected as one of five poster girls who symbolize the 50,000 greater Detroit area women who help conduct the United Foundation's annual Torch Drive.

She was selected as Macomb county's poster girl for 1965.

Miss Shaw, the daughter of Mr. and Mrs. Brewster Shaw of Cass City, has been teaching American history and government to 11th and 12th graders at Lakeview for two years.

She raised \$91 for the drive in the Shore Club apartment complex where she lives.

Miss Shaw reported that she met a number of people as a volunteer worker last year and reported that she was looking forward to the drive for 1966.

As a poster girl, Miss Shaw will participate in the United Foundation's current campaign to recruit volunteers for the 1966 drive.

WASTE OF TIME

If all the useless words spoken were placed end to end, they would reach some man trying his best to concentrate.

A man's imagination isn't the only thing that has to work if he expects to meet the high cost of living.

Uncle Tim From Tyre Sez:

Dear Mister Editor:

The fellers at the country store Saturday night was giving Ed Doolittle a birthday send-off. Ed reached the three score and ten mark Thursday and the fellers was taking note of the event.

Actual, what they give Ed was a hard time. Clem Webster, fer instant, said the Lord had to be mighty fergiving to let a feller live to be 70 when he had voted the Republican ticket fer 49 years. It was all in good fun and Ed was enjoying himself and had a answer fer all the cracks the fellers was taking at him, along with a few observations he asked to git on the record.

First off, Ed that is a strong Baptist, allowed as how if John the Baptist had lived in these times he would've been a shouting Republican, might even have run fer President. Ed said making it to 70 was sorter like a horse pulling at the molasses mill, going round and round. He was gitting the job done, but like old Dobbin, it was beginning to tell on him as the years rolled by.

Zeke Grubb ask Ed if he thought he'd make it to 80 and Ed said he was like the old widower taking the marriage vows for the fifth time. When somebody ask the widower if he thought he'd make it he said, "Always have, always have." Ed was shore he'd make it to 80 per- vided President Johnson didn't give him too much medicare and the Democrats didn't put no age limit on a feller in the "Great Society."

Somebody ask Ed the usual question about what he figgered was the secret to his long and healthy life and Ed had a unusual answer. He reported he had quit eating hog meat about 10 years ago. He was of the opinion freezer lockers would add a heap of years to a feller's life in the future. In the years afore we had freezer lockers, reported Ed, he had eat so much canned sausage and hog meat that, if he'd have had to have a operation, it would have took a hog doctor to do the job. Nowadays, al- lowed Ed, folks fill up their freezer locker with veal, fowl, venison and such items.

Everybody was mighty happy, Mister Editor, to see Ed make it to 70 and it was a enjoyable ses- sion. And Ed got in the last crack. He said he just wanted to live to see the day the Democrats could find out what their policy was in Viet Nam and he figgered that would carry him over the century mark.

I have knowed Ed fer 50 years and he has been a mighty good citizen. Him and his old lady has raised a fine set of younguns. They got one daughter working in the city that calls dinner "lunch" but they was always one black sheep in ever'family. And Ed is one of them old timey fellers that carries his change in a snap-open purse. I ain't never saw one of them kind of fel- lers on relief.

Yours truly,
Uncle Tim

Local Winners Prep for Regional Science Fair April 2-4

FIRST PLACE—medals were awarded to four students at Cass City High School, two in senior high and two in junior high. The annual Science Fair was held Saturday and Sunday at the elementary gym.

Steve Auvil and Richard Bringardner won the top Chemistry award for this display "Isolation of Nicotine from Tobacco."

MARGIE CLARKE took a medal for her work in botany in the junior high division. She calls this display "Basic Plant Foods."

ED RETHERFORD who is an all-around athlete at the school turned his basketball interest into a top science report in mathematics. He called it "A study of Prediction in Basketball."

13 Thumb Schools Set to Compete At Reese Gym

Thirteen schools will be competing for top awards in the Thumb Regional Science Fair slated April 2-4 at Reese High School.

The top boy and top girl winners at the Regional Fair will attend the International Science Fair held during May at St. Louis.

Awards will be presented at an assembly slated at 8 p.m. April 3. Following the assembly the exhibits will be open to the public. Another open house is scheduled from 1 to 4 p.m. Sunday.

To be eligible to exhibit at the Regional Fair, students must have earned a blue ribbon at the locally conducted fair prior to the Thumb event.

Agent's Corner

Barbara Henrikson

A friend of mine had ugly black and blue marks all over her arms. "What in the world happened to you?" I asked. "Oh, Baby is going through that biting stage. It's been going on for months now. He's teething."

When children are cruel to others, it's a problem. This time of year, it's worse because the little ones haven't any place to get rid of excess energy.

We've been taught that the angry child needs love. And when they need it most, they act their worst, making it difficult for us as parents to show that love.

This young mother had gone to the extreme, allowing the child to bite her whenever he felt the urge,

gritting her teeth while he gnawed on her arm.

A child psychologist once told me that the cruel child has one of three feelings—hurt, angry or scared. He fights these feelings by striking out at others, hitting, biting, kicking, making a mess, taking toys, etc. His victim is usually someone weaker than he is, or the person he feels safest with.

The worst problem is that when the child is allowed to express these feelings by being cruel, he feels that no one can control him. He doesn't want to be allowed to hurt someone else because this makes him feel guilty which increases his fear. Fear of what he might do, that others won't love him, that he is uncontrollable are added to whatever his original fear was.

This may have been fear that mother is going to leave him and not come back, that a new baby is getting all the love, that in growing up he won't get the attention he used to, or any of a dozen other fears.

But what can be done with the cruel child? The ideal solution is to give him loving attention and divert him before he hurts someone. The main troubles here are that most mothers don't have time to follow him around all day, and getting him used to that much attention which can't be maintained forever isn't good for the child, anyway.

It also reinforces the idea that being bad does get attention.

A more practical solution is to give the child lots of love. When he is cruel to someone, isolate him, preferably close to you, but away from the person he's hurt.

Explain to him that you love him, but don't like what he's doing, that this isn't for punishment, but because he's safer there.

Tell him you know he's angry, that everyone gets angry sometimes, but we can't hurt others. Help him express his feelings by telling him that he can pretend an old rag doll is baby sister and to bite it all he wants. Or make clay dolls and let him pound that flat. Let him punch a tip-up toy or pummel a pillow, or tear paper or jump on an inner tube.

Just as pulling weeds and slamming doors helps you work off steam, these "mean" acts vented on objects help him.

Let other children of his own size protect themselves against him. A punch in the shoulder lets him know where he stands. A swat on his round little bottom, provided for such occasions, from you if you are the victim, let's him know how thoroughly you disapprove, but should be accompanied by an explanation.

Be firm, be consistent, and be patient. Spring has always followed winter. It's doubtful if this year will be any different.
