

EXPECT RECORD CROWDS AT CENTENNIAL

School Costs Creep Higher

Cass City Schools should be in a healthy financial condition at the end of the 1965-66 school year, judging by the budget adopted Monday night at the regular meeting of the board at the school.

It is estimated that the revised State Aid formula adopted in Michigan this year will jump the total revenues available to the school to \$578,697.25, an increase of \$17,492.

Supt. Donald Crouse also said this week that he expects the school to end the year with a cash balance.

This year's budget shows

Still Need Two Teachers at Cass City High School

Supt. Donald Crouse reported to the school board at its regular session this week that teachers for English and mathematics have been hired, but that the search is still on for a senior girls' physical education teacher, as well as a chemistry instructor.

We have an outside chance to hire a Chemistry teacher, Crouse reported, but we have no prospects at all for an instructor for the physical education course.

If we don't find one, he explained, there will be no ninth grade physical education offered.

The new English teacher is Linda Isbister of Lansing. She is a graduate of Alma College and this will be her first teaching position.

The new math teacher is Ronald Bass. Bass taught for a year and a half in Flint before accepting the Cass City post. He is a graduate of Central Michigan University and his home is in Kingston.

Bass will probably be the new JV baseball coach. If he is, he will receive an additional \$150 for accepting the post. The supplemental fee was authorized at Monday's board meeting.

In other business, the board authorized Kenneth Maharg and Donald Koepgen, board members, to open bids for fuel oil and gas for the school.

Arrest Youth After Wild Chase

A wild attempt to elude police by driving with his lights out at speeds up to 100 miles an hour early Sunday morning cost a Decker man \$100 Monday when he appeared before Justice Frank Rolka in Caro.

Peter William Kritzman, 25, of Decker, was fined \$100 plus costs of \$6.25 or 60 days in jail. He had been released from County Jail Sunday on bond of \$85.

Kritzman tried to outrun Police Chief Carl Palmateer in a 19-mile chase at speeds up to 100 miles an hour. At least twice Kritzman was driving without lights and, according to Palmateer, ran at least four stop signs.

At one point Kritzman lost control of his car and flattened a mail box belonging to Luke Tuckey, just west of Cass City. His two-month-old car was damaged on the right front and rear fenders.

Kritzman gave up the chase, according to a report filed by Deputy Ron Iseler, who assisted Palmateer for part of the chase, when his fiancée, Miss Barbara Palister, pleaded with Kritzman to stop.

Pleads Innocent

Manley J. Endersbe Jr., 39, Cass City, pleaded innocent to drunk driving before Justice John P. Guza in Bad Axe Monday and was released on \$150 bond to await trial.

Mrs. Herb Bartle Adopted by "Pet" Raccoon

Mrs. Herb Bartle has adopted a pet . . . or rather a pet has adopted her. She reported this week that a raccoon has moved under the porch of her home and will not leave.

I just don't know what to do about it, she said, the dogs don't seem to bother it any, but I'm afraid it may chew up the house or something.

\$9,562.25 for contingencies and could be carried over as a cash balance the following year.

"I believe," Crouse said, "that this is a healthy condition. If we can operate without having to borrow money, we can spend that \$1,000 or more we are paying in interest charges for something constructive."

The Expenses

The estimated expenses for 1965-66 are \$34,234 over the amount actually spent in the recently concluded school year.

Much of the increase is for teachers' salaries. In the elementary system, including Deford, costs jumped because of the addition of a principal to Deford. This year's budget shows costs of \$14,950 as compared to expenses last year of \$7,556.25.

Total costs for elementary teachers rose from \$145,949.32 to \$151,475, an increase of over \$7,500.

In the high school, instructional costs went from \$192,366.63 to an estimated \$205,610, an increase of over \$13,000.

Crouse explained that the proposed budget allows for a full complement of teachers. Last year we had teachers doing double duty in the study halls, he explained. These teachers were paid extra for the work, but at a rate less than the \$5,000 starting salary for teachers. With a full staff, these teachers will be relieved of this duty, but costs will rise a little because of the pay differential.

Reflecting the times, cost of most other departments of the school are expected to increase. One exception is in administration costs where total expenses are expected to drop a little over \$200. Last year \$27,565.94 was spent and the budget estimates costs at \$27,280 for 1965-66.

The school district will net \$10,650 more in local taxes through an increase in valuation, according to budget estimates. Last year \$194,697.97 was realized in local taxes and this year \$205,348.40 is expected.

Not figured in these anticipated local tax revenues is the additional five-mill levy for the new school which goes into effect in 1966. Some of this money will be coming to the school in March, but is not figured for general operating expenses.

New Pastor Outlines Plans For Church Work

The Rev. Richard Eyer officially took over the reins of his first church Sunday in an impressive installation ceremony attended by 199 persons and clergy from neighboring communities.

Looking into the future briefly, Eyer said that his immediate plans call for visitation with every member of the congregation. "After that, probably in the fall, we can proceed with plans for building the church."

The Lutheran Church of the Good Shepherd is the first church for Eyer who recently graduated from Concordia Seminary in St. Louis, Mo.

The new pastor met many of the congregation at a social hour following the installation service.

The Rev. Carl Schinnerer, of Bad Axe, installed Eyer Sunday. The Rev. John Boerger of Caro preached the installation service, pointing out the responsibilities of the pastor and the congregation.

Also assisting in the service were the Rev. Paul Waschlewsky of Kilmanagh, the Rev. Elmer Schreck of Bach and the Rev. Lewis Keinath of Sandusky.

APPALLING BEARERS—Ray Zor may not have been well known in Cass City the past few months but these four men vaguely recall being acquainted with him at some time or other and volunteered to act as pallbearers. Ray was buried in solemn ceremonies Friday, July 9. Pallbearers are, left to right: James Ware, Clinton House (rear) Ferris Ware and Cliff Ferguson. (Chronicle photo)

From the Editor's Corner

Cass City is constantly surprising me.

When the Hills and Dales General Hospital was built, I felt that a half million dollars was too much for our community to muster.

When, just a few years later, the Cass City Hospital staged a fund drive, I thought it was too soon after the previous drive to be successful. I was wrong both times.

When the Centennial was first discussed, I felt that it would be a moderately successful event. But events leading up to next week's celebration lead me to believe it will be wildly successful.

Mei Eckerstrom, the visiting expert, says that never in any town, large or small, has he experienced the cooperation he has received in Cass City.

He was kind enough to single out the Chronicle's pre-Centennial coverage as the most outstanding that he has received anywhere.

Other signs of enthusiasm are evident everywhere. The usually staid resident prancing down the sidewalk in Centennial garb for a promenade, the laughter at the tugs-of-war, the queen candidates selling tickets and volunteers dancing in the streets of neighboring communities on caravans all spell an outstanding event in Cass City.

Last week the Chronicle spent a couple of days changing its mailing list to conform with new mailing methods and adding the zip number when necessary.

In the confusion we left the name of one subscriber's town (Alma) off the label, but the zip number on it.

You guessed it, Monday of this week the paper came back to us for insufficient address.

Next week the Chronicle will list all of the prizes, together with the donors, that will go to the queen and the six princesses. It is an impressive list. Each will receive 10 gifts, ranging from a trip for two to Chicago to a pearl necklace.

One thing overlooked in the Sunday story in the Detroit News, Cultural Center authorities say, is that the antiques in the building were loaned by Bob Barrons of Wilmet.

"How about mentioning it in the Chronicle, since the News didn't feel it was part of the story?" said authorities. It will let him know that we value his contribution.

Okay Help for Two County Offices

Part-time help in the Juvenile Social Service of the Probate Court and extra help for the County Nurse's office were both approved by Tuscola County Supervisors Wednesday, July 7, at their July session.

Both questions were brought before the board and then sent to the Salary Committee for study. Approved was \$400 for extra help in the Juvenile Social Service and the hiring of extra help in the nurse's office for half-day work at part-time salary rates.

Seek Annexation

An annexation request from the village of Caro to bring in several acres of property at the west village limits was tabled until the August meeting.

The land sought contains the Baptist Church, Caro Community Hospital, Caro High School, Indian Hills subdivision and several businesses.

Supervisors Art Haley and Milton Hofmeister were appointed to a committee headed by Sup. Carson

Travel to Europe Is Easy, But Costly-Walpole

A glimpse at life, business conditions and the ease of travel abroad was presented to members of the Cass City Rotary Club Monday noon at the New Gordon Hotel by W. E. Walpole, president of Walbro Corporation of Cass City.

Commenting on business, he explained that one of the noticeable differences in the operation of industry in Europe, as compared to the United States, is that they try to produce everything in their own shops.

American plants specialize and buy many components of their products from other suppliers, he said, and for this reason, manufacturing costs are lower in the United States than in Europe.

However, he cautioned, don't get the idea that all plants are behind ours. "A couple that I visited in England are the last word in automation and equal to any we have here," he said.

It's easy to travel today, the general president said. Floyd Stevenson (another Walbro executive) and I left Detroit at 4 p.m. and were in London at 7 a.m. the next day.

Traveling in Europe is fun because the service is so good, Walpole believes. In the hotels, in the stores and everywhere else we found people anxious to give good service . . . in marked contrast from service received in the United States.

It's Beer They Want

England is known as a tea-drinking nation, but that's only in the morning, Walpole said. For the dinner meal and later they want beer and they drink a lot of it in England, he concluded.

NOT SERIOUS—Cass City fireman Richard Root leans out the window of a Frutchey Bean elevator cupola and sprays water on a spot where a few minutes before, flames had been seen. Damage was slight. Caro firemen were called to the scene but were not needed. (Chronicle photo)

Firemen Quickly Quell Blaze

A fire that might have turned into a disaster was quickly doused Thursday night, July 8, at Frutchey Bean's former Farm Produce installation at the east village limits.

Fire Chief Nelson Willy was unable to pinpoint the cause of the fire which caused about \$200 damage in the roof of a small cupola atop one of the elevators.

Queen's Ball Kicks off Gala Celebration

Starting Saturday night, all roads lead to Cass City as the Cass City Area Centennial gets underway with the crowning of a centennial queen at the Coronation Ball at the high school auditorium.

From that moment on, a week of fun and festivities await villagers, area residents and visitors. Planned for those who visit the town will be a huge Happyland Midway at the Recreation Park, nightly presentations of the historic pageant, nightly fireworks displays, and daily activities with each day designated as a special day honoring industry, children, pioneers, agriculture, and the ladies.

State and area dignitaries are expected to attend, including a visit Monday, July 19, by Gov. George Romney.

Parades are scheduled throughout the week with the Grand Parade, featuring numerous floats and bands, being held Saturday, July 24, at 1:00 p.m.

Coronation Ball

A queen will be crowned Saturday night and from the moment the crown is in place, the Cass City Area Centennial, seven days long, will be underway.

Some lucky Cass City area girl will receive the crown from Judge Timothy Quinn, court of appeals, as the high point of the Coronation Ball Saturday night at the high school at 8:00 p.m.

Besides receiving a host of merchandise and cash prizes, her majesty will reign over all centennial festivities.

Arless Woodward and his orchestra will play for the semi-formal and costume ball. Village attics have been rummaged and many authentic costumes are expected, along with costumes specially made for the occasion.

Tickets for the dance, sure to be the social event of the year, are on sale at the Cultural Center, Wood Rexall Drug, Mac & Scotty Drug, Kitzman's and the Ben Franklin Store at \$3.50 per couple.

Sunday Schedule

Sunday has officially been designated "Religious Heritage Day" with special combined ceremonies slated Sunday evening at the Recreation Park at 8:00 p.m.

The Rev. Robert Pelletier, chairman of the ecumenical commission of the Diocese of Saginaw, Roman Catholic Church, will be the guest speaker. He serves the St. Katherine parish in Alpena.

Ministers from all area churches are expected to participate in the services and a massed choir, made up of choirs from various area churches will present several num-

bers. During the afternoon, many area churches will hold open house, giving area residents and visitors an opportunity to see the various church facilities.

Romney to Visit

Michigan Gov. George Romney's visit and participation in various ceremonies and programs will be the highlight of Monday's festivities.

Previous scheduling has had Romney arriving in the village at 2:00 p.m. Centennial officials reported Tuesday, however, that the governor will not arrive until 5:30 p.m. Monday.

At that time, he will be given the key to the city and will then dedicate the newly remodeled Elkland Township Cultural Center which has been serving as Centennial Headquarters.

Earlier reports also stated that Mrs. Romney would also be a guest of the village. Now, however, the governor's staff has announced that she will not be able to attend. Previously scheduled activities in her honor will still be held, however. Immediately after the dedication, the governor will go to the Recreation Park for the Governor's Chicken Barbecue. He will also deliver a pre-pageant address.

Solid Values In Sales

The largest summer sale in the history of Cass City starts Thursday and continues through the week end as local merchants have gone all out to promote Cass City and their businesses with a pre-centennial sale.

Most every merchant in the community has hopped on the band wagon with special buys designed to lure folks from the entire area into their stores.

This week's sale is the first of two planned by the retail division of the Chamber of Commerce to highlight the Centennial in Cass City.

The second will be next week when an old-fashioned sidewalk sale should fit in well with the Centennial observance.

Other addresses by village and centennial officials and the centennial queen will also be given.

Pageant Kick-off

Monday night will also be highlighted by the first presentation of the huge pageant, "The Facesetters: From Wilderness to Wonders," at 8:45 p.m. It will be presented each night.

A cast of over 200 persons is expected to take part in the costume dramatization of the story of Cass City's first 100 years. Various aspects and happenings that have taken place in the past century will be portrayed under the direction of Mel and Judi Eckerstrom, John B. Rogers Co. centennial co-ordinators.

Following each nightly presentation of the pageant, a gigantic fireworks display will be set off, each one ended with an "atom bomb" explosion.

Copies Limited

Brochure Is Well Received

The Cass City Centennial commemorative brochure, with 88 pages of stories, pictures and advertisements, is now on sale at the Cultural Center. The work is bound with a long-lasting leatherette cover.

Preliminary response to the results of months of work by many, many interested Cass City residents indicates that the 1,800 books will be gobbled up at \$1.00 per copy.

The brochure is packed with pictures of pioneer days, as well as the Centennial celebration itself.

The complete Centennial program is listed by acts, together with a listing of all persons in Brothers of the Brush and Centennial Belles chapters.

For instance, did you know that at one time Cass City had an Olympic caliber athlete who competed in Europe?

You'll read all about him and see his picture in the book.

Pictures of the staffs of many of the local businesses, the business history and pictures of early commercial buildings abound in the book.

Second Union Vote Slated at Walbro Friday

Walbro Corporation of Cass City will vote on a proposal to join the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America, UAW, AFL-CIO Friday.

It will be the second union vote at Walbro. About a year ago a vote was held that resulted in a tie. The tie was a defeat for the Union and the company was not organized.

According to law, another vote could not be called for a period of one year.

The vote will involve about 100 persons and includes leaders, set-up men and shipping and receiving employees of the corporation.

Teachers Boosted \$200 by Board At Owengage

Teachers in Owengage-Gagetown will start at \$5,000 yearly with a BA degree, it was decided Wednesday, July 7, at the regular meeting of the district's school board.

A June graduate of Bethel College, Mishawaka, Ind., Mr. Knight is married to the former Faith Bridges. He is originally from South Bend, Ind.

Mr. Knight has announced two changes in his church notes. One is the naming of a new secretary, Mrs. Irma Kennedy. He also announced that he may be reached by phoning 872-2053.

Michigan Waterfalls

Among the things which make Michigan a Water Wonderland are its northern falls which punctuate rivers and creeks with a surging display of their restless beauty. Pictured at the top is Luce county's Tahquamenon Falls, mightiest of the Midwest's waterfalls and one of Michigan's most famous scenic gems. Located in the state park which bears its name, the Tahquamenon each year attracts thousands of viewers who marvel at its powerful charm. The Upper Peninsula chains this great attraction just as it does all other waterfalls in this state except one—the Ocqueoc in Presque Isle county (bottom photo). More waterfalls like the Tahquamenon and those in Porcupine Mountains state park need to be preserved for the public. The best hope for doing this is through the generosity of private landowners and conservation-minded organizations such as the Women's Farm and Garden Association which several years ago gifted to the State Wagner Falls south of Munising. —Mich. as the Tuscola County Road Commission announced this week that the bridge on Cemetery road, south of Cass City, will be replaced.

The new bridge is expected to cost about \$80,000. A few weeks ago the county placed a load limit on the bridge and it has been a serious inconvenience to truckers who use the route regularly.

Giants Unbeaten In League Play

The Giants became the first team in the history of the Cass City Little League to go through a regular season without defeat as they edged the runner-up Pirates Friday, 5-4.

It was the best game of the year. In a see-saw battle, the league champions rallied in the last inning to win.

The Giants scored first on a key home run by Robbie Alexander that scored three runs. The Pirates bounced back to take a 4-3 lead in the third to set the stage for the winning Giant rally in the sixth.

Leading sticker for the Pirates was Kim Hopper with a double and Clinton Warner with a single. Fred Harbec and Richie Bridges picked up hits for the Giants.

Cubs-Yanks
The Cubs shoved the Yanks into the league basement Saturday night in the last game of the regular season. The winners notched a 5-2 decision on the strength of a three-run homer by Lee Taylor. Dennis Little picked up two hits for the Yanks.

Thursday night, in a battle for third place, the Cubs beat the Tigers in a close game, 7-6.

Little Minors Set To Decide Title

The Dodgers and the Indians, who share the lead in the Little Minor League, were scheduled to play Wednesday night to decide the league champion in the final game of the season.

Tuesday, July 6, the cellar-dwelling Angels lost to the White Sox, 19-3, in a game called at the end of four innings.

Rick Damm was the winner and Dave Hillaker the loser. Damm

picked up a single and a double and Rick Erla and Steve Wells each singled. There were many walks in the contest.

Braves-Indians
The Braves handed the Indians their second loss of the season, 12-6, and the loss cost the Indians a chance to be alone on top of the league.

Thursday, the Dodgers had little trouble with the White Sox, as they won, 15-9. David Brooks, Ed Stoutenburg and Scott Guinther each picked up four hits. Home runs were hit by Jim McCreedy, Craig Helwig and Ed Stoutenburg.

In the slugfest of the season, the Dodgers defeated the Angels, 34-15. Leading the attack for the winners was Jim McCreedy with three home runs, one with the bases loaded.

The standings

	W	L	GB
Dodgers	5	2	-
Indians	5	2	-
Braves	4	3	1
White Sox	2	5	3
Angels	2	6	4

Grant Temporary Alimony in Divorce

Temporary alimony of \$20 per week was granted to Linda Rosenstangel, Gagetown, defendant in a divorce action being brought against her by her husband, Kenneth.

The alimony was granted at a July 7 session of the Circuit Court in Caro, Judge James Churchill presiding. The couple were married July 1, 1963, at Neosho, Missouri, and have no children. The suit charges extreme cruelty and a countersuit has been filed by Mrs. Rosenstangel.

Lee Hartel and Jim Knoblet picked up Erla's two hits.

Want ads are newsy, too.

Tennis Court Ready For Play Now

Dave Binder, recreation playground director, reports that temporary lines have been painted on the tennis courts and the courts can be used.

Also installed are new basketball backboards, Binder said, and a league is proposed with play starting following the Centennial. Full details will be revealed in a story in the Chronicle before the league starts, Binder said.

If enough adults indicate that they are interested in night swimming, Binder said, a night will again be reserved for them after the Centennial.

Name Mulaney Chief of Staff

The medical staff at Hills and Dales General Hospital elected officers at its regular meeting last week and named Dr. James Mulaney of Bad Axe as Chief of Staff.

Serving as vice-chief of staff will be Dr. H. T. Donahue of Cass City.

Other officers include: Dr. Herbert L. Nigg, Caro, secretary-treasurer; Dr. James Ballard, Cass City, chief of medicine; Clark C. Harrington, Bad Axe, chief of surgery, and Dr. Edward J. Miles, Caro, chief of obstetrics.

Little League Slates All-Star Game Wednesday

An all-star Little League game at 5 p.m. Wednesday, July 21, will be one of the features of the Cass City Centennial celebration.

The game is slated at the Little League diamond at Cass City Recreational Park. Each squad includes 15 boys. One will be managed by Theron Hopper and the other by Bob Alexander.

Playing for Hopper will be Scott Guernsey, Wayne McNeil, Peter Mulrath, Kim Hopper, Randy Brown, Fred Harbec, Tim Knoblet, Gary Zellar, Larry McCreedy, Gene Hopper, John Haeber, Jeff Kniff, Brad Groth, Billy Chippi and Kip Hopper.

Playing for Alexander will be: Duncan Wallace, Clinton Warner, Craig Ryland, Lee Taylor, Randy Kozan, Danny Calster, Dennis Francis, Ron Corby, Tom Hunt, Raymond Smutek, Robbie Alexander, Carl Zawilinski, Craig Guernsey, Randy Horne and Greg Eshelman.

Tops Talent Show

Paula Karr's rendition of "Edelweiss" was selected as one of the acts to represent Tuscola County in the district "Share-the-fun" program to be held August 7.

Paula was in competition with other groups of two or less, Thursday evening, July 8, in the county contest in Caro.

Others from Cass City in this category included three more piano

solos played by Becky Loomis, Sharon Clarke and Susan Koeptgen and a piano duet played by Margie and Carol Clarke which was selected as an alternate.

The entire Needles and Kettles 4-H Club was selected to perform in the district contest in the large group division with their medley of three songs, accompanied by Mrs. Stanley Kinn and directed by Mrs. Arlington Hoffman.

Two dance groups from Unionville were also selected for Tuscola County. Janice Marker and Peggy Martens were selected from the small groups and the Dapper Denims from the large groups.

The Needles and Kettles Club held their regular meeting Monday evening, July 12, and discussed the float for the Centennial parade. They also signed up for work in the 4-H booth and chicken barbecue.

Plans were made for the annual overnight camp-out to be held August 10 and 11. This time will also be used as the August meeting and each member is to bring a sample of the cooking she will exhibit at the fair.

Tent Meeting Still On Near Marlette

"The New Life Crusade" tent meetings are still in progress at the corner of Peck road and M-53, five miles south of Marlette. The meetings will continue nightly this week at 8:00 p.m. including Saturday.

A Great Rally will be held at 3:00 p.m. Sunday with music under the direction of Ray DaFoe of Flint with Marv Hollenbeck at the Hammond organ and Judy Monti of Caro at the piano. The final service will be Sunday night at 8:00 p.m.

Rev. J. C. Shrier of Ottawa, Ontario, Canada, is the guest speaker. Rev. Shrier's ministry has taken him throughout the United States and Canada, ministering in large summer conventions and city-wide crusades. In the near future he will be traveling to Africa to minister to missionaries and native Christians as well as to the unchurched in Africa.

CENTENNIAL STARTS

Concluded from page one.

Tuesday Activities
Tuesday will be "Industrial Day" with most activities, except the pageant, centering around Cass City and the area's industrial growth.

At noon, the Rotary Industrial Luncheon will be held at the New Gordon Hotel. Tours of the individual factories will be held throughout the day (see story), and industrial exhibits will be on display all day at the old IGA building. A special salute to area industry will precede the presentation of the pageant.

Kid's Day Wednesday
A host of activities for area youngsters have been scheduled for Wednesday, beginning at 10:00 a.m. Contests ranging from a half-dollar hunt to watermelon eating will be held throughout the day.

Complete Schedule
For a complete look at next week's festivities, see page two of the third section of this week's Chronicle. A recap of this week's activities and next week's scheduled events will appear in the Centennial issue of the Chronicle slated to be on the streets Wednesday, July 21.

Mrs. Lemanski Still Top State Shooter

Mrs. Oarlie Lemanski and her sister, Marianne Jensen of Allen Park, continued to dominate the Michigan Smallbore Prone Championships held at Ionia July 10-11.

Mrs. Lemanski repeated her winning streak of last year when she took all four titles, the Metallic Sight Championship, with a score of 1590 of a possible 1600; the Any Sight Championship, with 1596 of a possible 1,600; the women's and open titles, with an aggregate score of 3,186 out of a possible 3,200 points.

Miss Jensen won two of the remaining individual matches. Eighty-six competitors were entered in the annual event.

Mrs. Lemanski won the National Women's Championship in 1963, 1960 and 1963.

Mrs. Lemanski will teach Eng-

lish at Arthur Hill High School this fall. Her husband, Oarlie, recently resigned at Cass City to accept an assistant coaching job at Saginaw High School.

Set Bible School At Novesta Church

Novesta Baptist Church will hold its annual Summer Bible School July 19-23 with "Uncle Bob" Morgan conducting the classes. Sessions will run from 9:00 to 11:30 a.m.

Programs will include songs, contests, third-dimensional visuals and other activities.

For further information or transportation, contact Pastor George Harmon, Decker, by phoning 872-2788.

Workers Worry About Last Minute Details

Chairmen of various committees are hustling around with last minute details to assure success of their parts of the Cass City Centennial.

Be sure to announce that the kids' parade that is slated for Wednesday at 4 p.m. will start at the corner of West and Main streets. Dick Hampshire reports.

The parade is open to every child in the area, he said, and we would like everyone of them to participate.

How about reminding citizens to take a last look at their windows, buildings, back yard and alleys to be sure they are in top shape, Mrs. Lucile Bauer requested.

We haven't had much publicity on Saturday's dance at Cass City High School, Tom Proctor said. It's open to all, you can come in Centennial garb or anyway you want to, he said.

A highlight of the Queen's Ball will be the presentation of the queen and six princesses who will reign at the Centennial.

Industrial Tours Tuesday

Industrial tours will be offered to visitors and residents on Tuesday, July 20, Industrial Appreciation Day of the Cass City Area Centennial, according to Gib Albee, committee chairman.

Tours will be held at Walbro Corp., General Cable and Anrod. Walbro tours will run from 1:00 to 3:30 p.m. and Cable tours will be held from 1:00 to 3:00 p.m. Anrod tours will be held in the morning from 9:00 to 11:00 p.m.

All tours will form in the lobbies of the respective plants.

Cumber Grads Sorry to See Old One-Room School Fading from Scene

THESE ARE THE OFFICERS of the Cumber School reunion. Left row, front to back; Treasurer Mrs. Stella (Lowe) Shaver, Uby; Secretary Estella King, Argyle, and

Mrs. Verena Vader.

Second row: Sam Lowe, George Putman, who attended from Camden, Alabama, and President Milford Robinson.

An estimated 30 former pupils and teachers attended the reunion of Cumber rural school Saturday, held at the one-room school building.

They came to visit with old friends and hear laudatory remarks about the worth of education presented by a single teacher for eight grades.

Ted Gracey, a former rural teacher, said that he felt that the students received the finest training possible in reading, writing, and arithmetic.

The one-room school is fading rapidly, Gracey said, and for one an very sorry to see them go.

A poll of the persons attending would probably give a nearly unanimous support to his feelings of regret.

Most of the persons attending were senior citizens....some were hard of hearing...others found it difficult to sit in the desks made for youngsters and nearly all were suffering from one or more ailments.

but all were enjoying the nostalgic remembrances of yesteryear, as poems were read and the former students brought their friends up to date on their activities. One member, George Putman, made his third trip from Camden, Ala., to attend his third reunion.

The meeting was informally conducted by Milford Robinson, president, and the business of the session was quickly dispatched by Mrs. Cyrus King, secretary.

"We don't need much money," she said, "Four or five dollars takes care of our expenses for the year."

Before adjourning, the group

quickly voted to hold the meeting again at the same time in 1966 and re-elected all officers by voice vote with the exception of the treasurer who resigned because of ill health.

Brush Brothers to Vie with Pie

Eating pie will become a "hair" experience for several Cass City area men as they take part in a Brothers of the Brush pie eating contest Friday night, July 16, at the Cultural Center.

A representative from each of the brothers chapters will take part

and the only qualification contestants must have is that they have the fullest beard in their chapter.

The pie-eating contest will get under way at 7:30 p.m. at the Cultural Center and will be followed by a promenade through town and back to the Cultural Center for the regular Kangaroo Court session.

On other fronts, the very solemn burial of Ray Zor last Friday was marred by the theft of the casket and remains from a shallow grave in a lot next to Neitzel's Studio.

Centennial officials expressed a great deal of concern over the theft, most of it tongue in cheek.

Thursday, July 15—An auction sale will be held on the premises located at 6128 W. Main St., Cass City, to settle the estate of Gene L. Corkins. The sale will include automobiles, shop equipment, household furniture and miscellaneous items.

Saturday, July 17—An antique auction will be held at the home of Robert Benkelman, 6583 Houghton St., Cass City. The sale includes household items and antiques of the late Mr. and Mrs. G. A. Striffler.

After the burial, centennial celebrants trudged to the Recreation Park for an ice cream social, a cake walk, a tug-of-war (won this time by the Unbeatables), a Kangaroo Court trial and square dancing.

Queen's tickets purchased for \$1.00 must be exchanged for general admission tickets before July 19, according to ticket chairmen.

After July 19, an additional 25 cents will be charged as the price of the tickets goes to \$1.25.

Indian Trail Marker?

This gnarled old tree in the Allegan state game area, which seems to be just right for climbing by youngsters, years ago may have guided Indians in their travels through the wilderness. According to a long-standing opinion shared by some and scoffed at by others, these early natives of Michigan marked their trails by bending saplings and staking them down so that the misshapen trees could be easily spotted. Happily for today's sightseers, many of these so-called trail-marker trees are still found in Michigan. They have been reported in Allegan and Ottawa counties and near Traverse City, Whitmore Lake, Brighton, Sparta, Muskegon, Whitehall, Glen Lake, Northport, Elk Rapids, Acme, St. Johns, Rose City, Munising, Au Train, and Ironwood. Whether these trees are indeed old Indian trail markers or whether they were deformed by the forces of nature is a moot point but, whatever the case may be, they add a curious touch of interest to any outdoor trip. —Mich. WALPOLE SPEAKS

Concluded from page one.
In France and Italy, he said, most everyone drinks wine. In fact, if you refuse your host's wine it is considered impolite and can cause strained feelings, Walpole, a nondrinker, said as he recounted an incident when this happened to him for the amusement of the Rotarians.

Travel is fine, but expensive, Walpole reported. It costs between \$600 and \$1,000 per person for flight costs alone to get to Europe and back, depending on which travel class you choose, he said.

His Favorite

In describing the various tourist attractions, Walpole was most impressed by Windsor Castle in England, the construction and activity at Milan in Italy, and the Normandy countryside in France.

Walpole also told Rotarians to forget about the language barrier. "Neither Mr. Stevenson nor I speak any language other than English, but we had no trouble getting around. English is getting to be a universal language, he concluded.

Dear Editor:

Hutchinson Reunion Held Sunday at Caro

The Hutchinson Reunion was held July 11 at the Caro Fairgrounds with 36 members present.

The following officers were elected for the coming year: president, Chester Hutchinson of Caro; vice-president, Elmer Simmons of Cass City; secretary, Mrs. Harland Lounsbury of Cass City; and treasurer, Mrs. Ernie Hutchinson of Silverwood.

The oldest member present was Delbert Hutchinson of Bay City and the youngest was the baby of Mr. and Mrs. Jack Smith of Caro.

ICLE fifty-five years ago (plus or minus a week or two). I had just finished college in Pennsylvania and was hired as a mathematics and science teacher at Cass City. I read those early copies carefully and surprised many of the "natives" with what I knew about them on my arrival.

I wish to congratulate the people of the "Hub of the Thumb" on having such a fine paper. I hope to be in your city July 18 and 19 and hope to see a lot of friends.

Sincerely,

Wilber E. Harnish
718 S. Lynn St.
Champaign, Illinois

Want ads are newsy, too.

IT WAS A SAD and solemn ceremony that tickled the funnybone more than it touched the heart as Village President Lambert Althaver (striped coat) spoke a few last words over the remains of "Ray Zor" in services conducted Friday night,

July 9, in a vacant lot next to Neitzel Studio. Ray Zor was not to rest in peace, however, for a few nights later his remains, casket and all, were spirited away from their shallow resting place.

Still Need More Pioneers' Names

Nearly 100 names of Cass City area old timers have been sent to the Pioneers Committee and will be used to select the oldest man and the oldest woman as well as the persons living the longest in the area.

Those persons chosen will be recognized in ceremonies Saturday, July 24, Pioneer's Day of the Cass City Area Centennial.

"Obviously," states Rev. Melvin Vender, committee chairman, we do not have all the names of area pioneers. Persons qualifying as pioneers are asked to send their names, age, address, and number of years lived continuously in the area to The Centennial Pioneer's Committee, 6473 Church St., or to the Cultural Center in Cass City by

July 18.

Vender said also that his committee is particularly interested in hearing from those persons 90 years old or older.

Persons coming the farthest to attend the centennial will also be recognized and are asked to register at the Cultural Center.

THE TRUTH

Every man has a right to his own opinions, but he has no right to juggle the facts.

UP AND UP

Today the high cost of living very seldom stands still long enough to be investigated.

County Draft is Highest in Area

Tuscola County's quota of 12 persons for the draft in August is higher than any county in the Thumb. Huron needs to send only two men; Saginaw, eight; Lapeer, six; and St. Clair, 11, to meet their quotas, a spokesman for the Selective Service system said this week.

Michigan's draft quota is down 58 persons from July.

High Adventure on Our Inland Sea

If you're the rugged type who likes boating, camping, and seeing new things, here's a package deal for real outdoor adventure: Round up another hardy mariner or two and pack your gear for a motorboating trip along the Great Lakes shoreline of Michigan. Before casting off, safety check your boat which should be at least 14 feet long and powered by an outboard motor that's big enough to do the job. Any of Michigan's Great Lakes shorelines will serve for your voyage, but as a smallboater you should look with caution on certain places such as the granite shores and brooding waters of Lake Superior. For those skirting the Lower Peninsula, the Inland Waterway (see map inset) offers an interesting shortcut. Passing through it requires portaging between Petoskey or Harbor Springs and Conway. Whatever route you take, this is a rough pleasure trip. However, it promises a closeup look at Michigan you won't soon forget. --Mich. Dept. of Conservation

WATERING THE HAIR

Q. I have always heard that use of water to keep the hair in place is harmful. Is this true?
A. Daily use of water to facilitate hair grooming is harmful because it permits brushing neglect, and brushing is one of the best stimulants for the scalp. The same taboo applies to oil or grease if used as a "lazy man's" way of keeping the hair groomed. Most scalps, if the hair is well brushed every day, will produce enough oil to keep the hair in place without artificial means.

HEAD NOISES AND GUN FIRE

Q. Several months after being discharged from the Navy I began to have a constant ringing or hissing sound in my ears. Could this be due to exposure to gunfire? Is there any treatment?

A. Head noises following exposure to excessive noise is due to injury to the acoustic or hearing nerve. There is no effective treatment either medical or surgical. However, avoidance of further exposure to loud noise, may result in improvement in the condition with time.

Remember — the diagnosis and treatment of disease is the function of the patient's personal physician.

Today's drugs, in terms of relief from pain and swift recovery from illness, are priceless — yet their cost is mere pennies per dose. Our professional skill is an important ingredient in each prescription we fill.

SHADES OF THE '30's—Dave MacRae, son of Dr. and Mrs. K. I. MacRae of Cass City, caused a stir in the placid waters of the Recreation Park pool Friday night when he turned out in the latest in Centennial swimwear. He strikes a classic pose but decided an instant later that the water was too cold, even for this suit. (Chronicle photo)

COMMENTS BY KRAFT

By That Time It Will Be Morning

By Dave Kraft

I was sitting around the other day thinking about ways to save the world from self-destruction and wondering if I really should when this totally unrelated problem cropped up.
I read someplace that if a person has trouble getting to sleep all at once, a sort of progressive relaxing sometimes helps. By this I mean

putting individual portions of the body to sleep until the whole body succumbs...if that's the term.

This is done by concentrating on the toes and saying to yourself, "Go to sleep toes. Go to sleep toes."

until they are completely relaxed and are, in effect, asleep.

Do the same thing with the ankles, the shin, the knee, the thighs, the hips, the stomach, the chest, the fingers, the wrists, the lower arm, the elbow, the upper arm and so forth.

And by the time you get done, it'll be morning and you'll have forgotten why you went to bed.

Just joking. Actually, it works. I frequently use the system myself.

Now here's the poser. Suppose... just suppose, that you put your stomach asleep first. What then? I'll tell you what. You'd be laying there with both ends awake.

Somewhere in this issue is a story on the various window displays. Jay Sugden has a real old Edison console record player, the window type and a sizable library of records.

The records are quite similar to present-day records except that they're a quarter of an inch thick.

Many of the numbers are vaguely familiar but many of them are of a bygone era. Little dandies such as a prohibition ditty entitled "Everybody Wants the Key to My Cellar."

Here are a couple of prize winning typographical errors caught before printing by our proof reader.

"He took a tour of the Smithsonian Institute, Mt. Vernon and the White House." And after that he stopped at the Pink Pussy Cat.

"... cars driven by so and so, age 3, and so and so collided." He'd never have passed his driving test except that he bribed the examiner... with a lollipop.

"Any man can join the stage production simply by singing (singing) at the Cultural Center." If that doesn't work, he can try dancing at the Municipal Building.

"Wedding plaques are indefinite." Not only that, they don't even know where they're going to spend their honeymoon.

Bud Peasley had a slight run-in with one of his customers the other day and was still a little agitated when I came in for his ST&H Service Station ad.

Seems he'd done a favor for a customer and she'd thanked him by chewing him out for something.

He suggested I run an ad reading: "Due to the many complaints about our free service, it will no longer be offered. Contrary to popular belief, this is a profit organization."

Time is an unusual commodity. It can be spent, or killed, or saved, but time can never be stored.

You have this minute, this hour to use now and then it's gone. All about us, people complain of not having enough time to get things done, yet the cross-word puzzle business, the playing card industry and TV are all big businesses.

There are spare minutes in everyone's day that could be put to use: time wasted in a doctor's waiting room, talking with people you couldn't care less about, waiting for the wax to dry on the kitchen floor.

Some people keep a book in the car glove compartment, or their purse. It's surprising the number of books you can get read this way. One man claims he read an entire encyclopedia waiting for his wife to get ready in the 10 years they've been married.

A local lady keeps her mending by the phone, with needles threaded in the necessary colors. Another carries stationary and envelopes in her purse. One knitted 12 sweaters last year at meetings and watching TV.

Time used in meditation, planning or thorough relaxation is well spent. Most situations don't allow the mental depth these require, and we meander through surface thoughts, Walter Mitty daydreams or brooding about things we can't change. Much too much time is killed passing on gossip about people when we don't know what is actually going on.

Petty minds concern themselves with personalities, average minds with what is going on, big minds are occupied with ideas.

There are just so many minutes in a day. It is your choice whether these are spent watching soap operas or reading Anne Morrow Lindberg; talking about Mary's operation or Viet Nam; playing solitaire or getting to know your children.

You have to decide which you will wish tomorrow you had done today.

Here Is Your Last Chance to Guess the Man

Mrs. Elton Willis was the first to correctly identify Al McDonald as last week's man-behind-the-beard. Second to name him was his mother, Mrs. Richard McDonald. Others with correct answers were John Frankowski and Laurie McRae.

This week's mystery beard concludes the series that has run for several months prior to the Centennial. Each week a local resident was awarded a free subscription if they named the man correctly first. The Chronicle was never able to stump its readers...although one week only one correct guess was received.

In contrast, when a well-known figure was pictured, such as Jack Esau, the answers came in droves, up to 100 and more.

Enemies are friends in disguise; they keep us on our toes.

The sarcastic remarks you left unsaid will never haunt you.

It's money that's talking when circumstances alter cases.

Success and bad habits are very seldom on speaking terms.

Methodists Welcome Guests

The Cass City Methodist Church welcomes former residents and visitors who will be in the area for Centennial Sundays, July 18 and 25. Worship is at 10:00 a.m. The Worship Commission will observe Religious Heritage Day with a special presentation Sunday.

The chairman is Mrs. Ed Baker. Members taking part will be Dean Toner, Mrs. Ronald Walker, Mr. and Mrs. Keith McConkey, Mrs. Harold McGrath, Mrs. Grant Hutchinson and Lay Leader Tom Dobbs. Special music will be offered by

a sextet composed of Tim Knight, Dave Kraft, Bill O'Dell, Tom Proctor, Leo Tracy and Ron Walker. The pastor, Rev. James Braid, will preach on "Hungers of the Human Heart."

The secret of getting things done seems to be the ability to do a little at a time.

Men who are afraid to risk failure can never attain success.

Uncle Tim From Tyre Sez:

Dear Mister Editor:

The fellers at the country store Saturday night was about decided that, next to poverty, the biggest problem in this country today was the automobile. Ed Doolittle was reporting some figgers he had clipped from one of the Government agencies about folks gitting killed walking on our streets and highways.

First off, Ed reported, wimmen was safer walkers than men on account of these figgers for 1964 showed only 30 per cent of folks killed was wimmen. But 23 per cent of them pedestrians killed had been drinking, 9 out of 10 had never drove a car, and 38 per cent of them was over 64 years old.

With a mess of stew beef like that, allowed Ed, it was hard to tell from the figgers who had ought to be walking on the highway and who had ought to be riding a mule.

Furthermore, said Ed, it was gitting to be a big problem for folks driving cars. He claimed he had saw a piece in the papers where a Judge sentenced a feller to one year in jail for running over a hitch hiker. Ed said it had come to the point where it was about as risky to run over a hitch hiker as to pick one up.

Zeke Grubb was agreed with Ed, claimed everybody was ganging up on car drivers. He reported he was reading a piece where some feller in Chicago had patented a parking meter that automatic turned back to zero when a car pulled out of the parking space. This was going to stop all freeloading on unused time, said Zeke. According to Zeke, the way this meter works is it sends out some sort of rays and if they wasn't reflected back by a car in the parking space, the meter flipped back.

All of the fellers was agreed, Mister Editor, that this was about as sneaky as sneaky can git and they was surprised that President Johnson would allow a thing like this in the Great Society.

Clem Webster, that is the official press agent for the Great Society in our community, reported the Russians was now leaning in that direction. He said he saw a piece in the papers where the Kremlin had took the restrictions off wimmen's hats. Up to this time, the piece said, Russian wimmen couldn't wear nothing but simple head covering, but now they was allowed to make 'em out of fruit baskets and rabbit tails like American wimmen.

I reckon, Mister Editor, you'd call this sorter taking the lid off the lid. Judging from what I have saw of wimmen's hats in the last 30 years, I figgered they was be-

yond control or reason anywhere in the world. Just goes to show you how far them Russians has went in the direction of trying to do the impossible.

Yours truly,
Uncle Tim

Mexican Bean Beetle Appearing In County Again

Many Tuscola county bean growers are again finding evidence of the Mexican bean beetle moving into their bean fields, reports Alfred Ballweg, county extension director.

The ability of the beetle to reproduce rapidly under favorable conditions is remarkable. A female may deposit an egg mass every two or three days. As many as 1,800 eggs have been deposited by one female, while the average number observed is 450.

Late in summer and early in fall the first beetles seek winter quarters, and others follow until about the first frost, at which time practically all beetles have left the fields. All stages are present in the field from spring until frost in the fall, but eggs and larvae may become scarce late in the summer and early in the fall.

The beetle is sluggish in its movements, but is a comparatively strong flier and may fly many miles. Marked beetles have, within 2 days, been captured 5 miles from the point where they were liberated.

Only the adult beetles live through the winter. As many as 400 beetles have been found in one group covering an area of about 3 square feet, under pine needles and oak leaves on a well-drained woodland hillside near cultivated bean fields. Some may remain in the fields and others about the field or garden under rubbish and plant remnants and along fence rows and in uncultivated land.

The Mexican bean beetle is primarily an edible-bean pest, preferring the common bean, such as snap (green or string), kidney, pinto, navy and lima beans to other kinds.

For the control of the Mexican bean beetle, the following are recommended: 1 to 2 lbs. 50 percent wettable Sevin powder per acre (1/2 to 1 lb. active ingredient), or 2 1/2 lbs. 57 percent liquid Malathion per acre (1 1/4 lbs. active ingredient).

Good intentions often fizzle out before a man can use them.

Don't waste other people's time while wasting your own.

This year, be a winner!

Local 4-H'ers Tops at Show

An estimated group of 40 4-H members from Tuscola County participated in the annual Share-the-Fun Show Thursday evening, July 8.

This year Tuscola County had a great deal of talent displayed at the program. The winners are as follows: In the small group division, which included one or two members, there were two winners: Paula Karr from the Needles and Kettles 4-H club of Cass City, with a piano solo entitled "Edelweiss", and Janice Marker and Peggy Martens from the Dapper Denims club of Unionville, with their Hula

dance. The alternate in this same division was a piano duet given by Margie and Carol Clarke also from the Needles and Kettles club. Their selection was entitled "Shooting Star".

The winners of the large group division, which included three or more members, were as follows: Needles and Kettles 4-H Club Chorus of Cass City. The members were Margaret Battel, Susan Brown, Margie, Carol and Sharon Clarke, Ruthann Cummins, Connie and Donna DeLong, Janet and Susan Koepfgen, Paula Karr, Becky Loomis, Mary Lee and Carol Rus-

sell, Mary Beth Esau and Susan and Carol Tuckey. These girls sang a selection of three songs, entitled "Cuckoo, White Coral Bells, and Prayer from Hansel and Gretel." Another winner in this same division was an eight-member dance team from the Dapper Denims 4-H Club of Unionville.

The winners of this Share-the-Fun program will attend the district, which will take place August 7 with Tuscola County as host. This district includes Huron, Tuscola, Sanilac, St. Clair and Lapeer counties.

CASS CITY CHRONICLE

VOLUME 59, NUMBER 13

CASS CITY, MICHIGAN THURSDAY, JULY 15, 1965

Greenleaf News

The regular meeting of Fraser Ladies Aid will be held Wednesday, July 28, instead of July 21.

It's a pity people can't exchange problems—everyone can solve the other fellow's.

The fellow who breezes around is usually the one who blows in the most money.

McConkey's Holstein Herd Leads DHIA Tests in June

The grade Holstein herd owned by Maynard McConkey of Cass City produced an average of 60 pounds butterfat during the month, to place first in the 30-pound herd class, according to Alfred Ballweg, county extension director. Tying for second place were the grade Red Dane and

herd owned by Edward Golding of Cass City and the grade Holstein herd of Clinton K. Blackmore of Vassar, with an average production of 53 pounds for each herd. Tying for third place were the grade Holstein herd owned by Don Koepfgen of Cass City and the registered Holstein herd owned by Clarence Merchant, also of Cass City, with an average of 52 pounds fat each.

Other herds which produced an average of 45 pounds fat or more were those owned by Blaylock and Rupperecht, Vassar; Charles Crittenden, Kingston; Dolan Sweeney, Uby; Grover and Jack Laurie, Cass City; Howard Loomis and Sons, Gageton; Dan Lukasavitz, Cass City, and Ronald Hampshire, Deford.

In the 70-pound-cow list a registered Holstein cow, Faith, owned by Clayton Rohls and Sons of Fairgrove, was in first place with a production of 126 pounds butterfat for the month of June. In second place in this class was a grade Holstein cow, No. 69, owned by John Graham and Sons of Caro, with a production of 110 pounds fat, and in third place was a grade Holstein cow, owned by Harold and Raymond Schlattman of Mayville, with 104 pounds fat. Other dairymen having cows which produced 92 pounds fat or over in this class were Wilfred and Richard Leix of Fostoria; Mrs. Fanny Hutchinson, Cass City; Frank and Mike Satchell, Caro; Henry Hohman, Vassar; Charles Crittenden, Kingston; Blaylock and Rupperecht, Vassar, and Clarence Merchant, Cass City.

In the 305-day records class, a grade Holstein cow, No. 81, owned by Ronald Opperman of Vassar was top cow with the production of 843 pounds butterfat and 17,771 pounds milk. In second place was a registered Holstein cow, Loch, owned by Ronald Hampshire of Deford with 690 pounds fat, and in third place

was a grade Holstein cow, No. 31, owned by John Graham and Sons of Caro, with 661 pounds fat. Other dairymen having cows which produced 575 pounds fat or more in this class were: Charles Crittenden, Kingston; Harland Lounsbury, Cass City; Frank and Mike Satchell, Caro, and Dolan Sweeney, Uby.

41 Attend Dinner At Clarkston Sunday

Forty-one gathered at the L. E. Sovey home at Clarkston Sunday for a family dinner and celebration of birthdays. Special guest of honor was Mrs. Carrie Wendt, head of the family. Present were Mrs. Wendt's son, Lawrence Sovey, and daughter, Mrs. Maurice Joos, five of her grandchildren and 20 great-grandchildren.

Other birthdays celebrated were those of Maurice Joos, Mrs. Leo Stachowiak and daughter Susan of Detroit and Mrs. Melvin Diesing of Petersburg. Two birthday cakes were served with the picnic dinner.

Attending were Mr. and Mrs. Richard Joos and children of North Branch and Mrs. Joos' sister and husband, Mr. and Mrs. Mitch Eldridge of Orlando, Fla., Mr. and Mrs. John Sovey of Rochester, Rev. and Mrs. Warren Wilson of Clawson, Mr. and Mrs. Leo Stachowiak and family of Detroit, Mr. and Mrs. Melvin Diesing and family of Petersburg and Mr. and Mrs. Maurice Joos and son Don and Mrs. Wendt of Cass City.

Agent's Corner

Barbara Henriksen

People who need something often go about getting it in a backward way. Since love is needed by all and it has been proven that a baby deprived of love will die as surely as one deprived of food, let's look into some of the ways a person can try to attract love, or at least its cousin whose name is attention.

Love is a large family. The Greeks had three words for Love: Agape for reverent or religious love; Eros for adult physical love, and Philo for brotherly or family love. Philo is the member of the family we'll talk about today.

A child who has had lots of love will feel free enough to say "I need love." He may say it in words or merely by throwing his fat arms around your neck. When Mother and Father don't respond he turns to another relative or a neighbor.

This may take the direct form, or he may even demand love or material goods. The child who runs to any stranger for a kiss and hug usually has not been getting enough love at home.

Or he may try to attract love with a complete reversal, showering a person with attention and presents to the point of making him feel obligated, irritated and uncomfortable. The recipient senses the attached strings.

New Books for Library Patrons

Among new books at the Cass City and Elkland Township Public Library are: "The Source" by James Michener, "Don't Stop the Carnival" by Herman Wouk, "The Making of the President in 1964", "Is Paris Burning?" by Collins and Lapierre and several mysteries.

At the June meeting of the library board, members voted to dispense with July and August meetings. Announcement was made of the receipt of penal fines for Kingston township, which extends services of the library to township residents.

Michigan Mirror

School Opens to Borderline Students

Northern Michigan University at Marquette may become a haven for high school graduates with difficulties enrolling in overcrowded colleges.

The philosophy of Northern President Edgar L. Harden is that education must become more inclusive to allow more young people "the right to test themselves against the realities of college or university life."

Harden described his view recently at the summer meeting of the Michigan Press Association at Marquette. "Higher education must serve a handful of people, not a handful," he said.

Students who find other colleges closed to them because of low entrance examination results or other problems might do well to try Northern Michigan.

"We do not believe that test scores alone can measure ability. We do not believe that arbitrary percentages or inflexible admission policies should turn the key that locks the classroom door to the student who wants to make the effort."

"Neither do we believe that admission should be contingent upon the size of dad's pocketbook or mother's position in the social register," says Harden.

Currently one of the smaller of Michigan's state-supported colleges, Northern is looking toward tremendous growth which likely will be helped partly by its president's view of the role of higher education.

"Those who would limit higher education contend that too many of our young people already are in college," in reply, Dr. Harden contends. "Our greatest concern should not be for those who are in college but for those who should be. When you diminish the opportunity for education, you compound the growing problems of delinquency, unemployment, irresponsibility, immorality and indifference."

Not So Bad

Predictions are sometimes interesting to view in retrospect. One such was made last November and in succeeding months by Harry R. Hall, executive vice president of the State Chamber of Commerce.

Immediately following the November election, Hall set out through the state to fulfill part of his responsibility. This is to keep Michigan businessmen informed of state legislative activities.

At that time Hall felt compelled to warn businessmen that there would be troubled times ahead. The 1965 session was to be the trouble spot because of the new majority control by Democrats.

One obvious factor was cited by Hall in his gloomy series of remarks. The sheer newness of many legislators would make it more difficult to foresee what would happen. He termed the session "the most staggering challenge" in the history of Michigan business.

Hall thought, however, that "Some developments can be predicted with a high degree of fidelity."

"The power struggle between the Democratic Legislature and the Republican executive office will make previous battles between these two, when party alignments were switched, seem like summer picnic games by comparison," he said.

In this his main prediction, the legislators fooled him. Relations between Gov. George Romney and the lawmakers were relatively good. The few battles were very mild when compared with those of previous years.

One good score goes to Hall for his foresight in predicting the flood of legislative proposals for increased employer-paid benefits. In this area, however, Republican lawmakers also agreed some changes were needed in the law.

To be judged well, Hall's forecast should be reviewed again next year at the end of the session. If Romney decides to run again in 1966 for Governor and Democrats think he is aiming himself at a presidential attempt two years later, it is a certainty the 1966 session could meet Hall's prediction.

The man with ability and talent has a mighty good mascot.

Ambition and ability boost a man up the ladder of success.

BIG 7-FOOT GEHL boosts capacity 12%*

You'll make fewer field trips with the new Gehl Self-Unloading Forage Box. It has 7-ft. inside width. Increases crop hauling capacity 12%*.

This new width gives you an even wider selection of box dimensions... one just right for your needs. Choose the new 7-ft. width or the standard 6-ft. 3-in. size. Length: 16 feet or longer or shorter. Available with 2, 4, or 6-ft. sides, plus a 2-ft. screened extension. Also available is a galvanized roof.

Whatever the size, Gehl Boxes are built for your tough jobs (with fine-grained, penta treated lumber and welded structural steel parts). Big ton-a-minute unloading capacity. Controls are up-front. So is the new safety bar — touch it to stop all unloading action.

Let us show you these and other features of the Gehl Self-Unloading Forage Box. Ask us for a demonstration. Soon!

*Comparing 7' and 6'3" inside widths.

LEONARD DAMM & SON
Cass City

Uncle Tim From Tyre Sez:

Dear Mister Editor:

Most people that reads the big daily newspapers start on the front page to see how we were getting along with our brush wars around the world. Personal, I'm like them feller in the State Department. I can't tell heads from tails in these matters, so I turn to items I can understand.

And, incidental, the papers has been full of interesting items lately about matters right here at home.

For instant, I was reading where we got 13,000 Americans that was past the age of 100 and about 5,000 of 'em was wimmen. I reckon the difference is on account of men start getting ready fer old age by working hard and saving and the wimmen by going on a diet and setting in the beauty parlor. This piece didn't give no reason for it, but that's my personal idea on why so many more wimmen make it to 100. Maybe you got a different opinion, Mister Editor. But if I was you I'd be mighty careful what I said on this subject in the paper.

And I was reading this piece where Senator Stephen Young of Ohio was feeling a little bit optimistic about Government waste. He has reported three of them agencies in Washington has come up with plans fer saving money.

ORDER OF PUBLICATION

State of Michigan, Probate Court for the County of Tuscola.
Estate of Jean Louis Corkins aka Gene L. Corkins.

It is Ordered that on August 4th, 1965, at nine a.m., in the Probate Courtroom in Caro, Michigan, a hearing be held on the petition of Catherine Cornett for appointment of an administrator and for a determination of legal heirs.

Publication and service shall be made as provided by Statute and Court Rule. Dated: June 21, 1965.

The Senator didn't say but I'd reckon three economy plans in one year was a new record fer them federal agencies.

First off, the Senator reports the Post Office Department has now got a spray that was keeping dogs from biting the mailman. He says this Department has been spending a million dollars a year on dog bites.

Then the Veterans Administration has switched from "percale to muslin" bed sheets. On account of muslin being a heap lighter, he reports, it is saving \$65,000 a year on the laundry bill.

But the biggest item in this new economy drive in Washington was a dollar bill. Them folks that prints our money had come up with a new kind of paper that increases the "life expectancy" of the dollar bill from 12 months to 18 months. Senator Young reports this will save more'n a million dollars a year in the printing and paper bill. Personal, I been mighty patriotic about saving the wear and tear on a dollar bill. I ain't been able to hold on to one more'n a couple days since we crossed the New Frontier. Somebody else is wearing 'em out, Mister Editor, not me.

And I see where a Congressman from Georgia was lamenting that politics has now got mixed up in education at the first grade level. Maybe the time is coming when we can get a little first grade education mixed in with politics. That'll be the day when matters in the Congress might take a turn fer the better.

Yours truly,
Uncle Tim

CITY FARM

Cools In The Summer Yet Heats In The Winter

The secret of this amazing statement is the fine flakes of real aluminum which are suspended within the coating as parallel layers. These layers automatically arrange themselves, upon application, to form a brilliant, continuous film that reflects as much as 80 per cent of the sun's radiant heat; thereby reducing interior temperatures as much as 20 per cent in the summer and increasing interior temperatures by 20 per cent in the winter.

This rubberized surface contracts and expands with the seasons while silicones prevent any moisture or water penetration.

FOR USE ON: Water Tank Exteriors, Storage Tank Exteriors, Silo Exteriors, Fire Walls, Parapet Walls, Bus and Trailer Tops, Bridges, Structural Equipment, Skylights, Signal Equipment, Aluminum Siding, Asbestos Siding, Galvanized and Corrugated Metal, All Type Roofs, Foundations, Concrete, Basements, Metal, Wood, Gutters.

CITY FARM

MULTI-PURPOSE FLEXIBLE DURABLE COATING

Canadian long hair asbestos fibers fortified with Hydrocarbon minerals and Polymer Plasticizer Preservative give Inject-Alum coatings body and toughness as well as adding to the insulating qualities. When dry, Inject-Alum is so adhesive that it cannot be pried loose from any surface.

Inject-Alum is formulated to remain elastic, year after year, with no discoloration, peeling, chipping, cracking, crazing, bulging or alligating.

Black is used where the surface to be coated cannot be seen or where the beauty of aluminum isn't necessary.

FOR USE ON: All Types Roofs, Water Trough Exteriors, Rain Gutters, Fence Posts, Foundations, Storage Tank Exteriors, Silo Roofs, Farm Buildings, Cellular Walls, Bus and Trailer Tops, Sub-Surface Interiors and Exteriors, Basements, Pipe Lines, Brick, Concrete, Stucco, Masonry, Wood and Flashings.

QUESTIONS & ANSWERS

REGARDING THESE NEW AND UNUSUAL INJECT-ALUM COATINGS.

How many types of Inject-Alum are there?

Inject-Alum comes in Fibrated, Non-Fibrated and Mastic in both Aluminum and Black.

Where is Aluminum used?

Aluminum is used where beauty and insulation, in addition to protection, are needed.

Where is Black used?

Black is used where beauty and reflectivity aren't required or where the surface to be coated is out of view.

What is Fibrated?

Inject-Alum Fibrated is a heavy bodied material for foundations and surfaces in need of extra heavy duty protection, and insulation. Good where extreme water pressure is encountered or for badly deteriorated surfaces.

What is Non-Fibrated?

Inject-Alum Non-Fibrated is a free flowing, light bodied material (primer and sealer) with great hiding power, used to coat most average surfaces. Used where insulation isn't required.

What is Mastic?

Inject-Alum Mastic is a thick, heavy bodied compound used on splits, cracks, breaks, etc. So thick and concentrated it must be applied with a putty knife or trowel.

How is Inject-Alum applied?

Outside of Mastic, all coatings can be applied with brush, roller, mop or spray. Full, simple directions are on each can. If there are wide cracks, breaks or crevices, we recommend you fill these with Mastic then apply either fibrated or Non-Fibrated. If used on a roof that is not completely dried out and cracked, use Non-Fibrated. If the roof is in worse condition and needs insulation, use Fibrated. The thicker the applied coat, the longer the protection. Walls shed the heaviest rainfall one hour after an Inject-Alum coating.

Can Inject-Alum be applied over painted surfaces?

Definitely yes, because after application, the coating penetrates through the paint and clings to the raw surface. Because of the nature of some paints, it is advisable to use a primer prior to application.

BOOK REVIEW

Here's A Fine Book For A Summer Day

By the Rev. R. J. Searls

This book has some features to offer you for your summer reading. With no cast in effect for more than one chapter, it is capable of being understood no matter where you put the book down. THE LISTENER, by Taylor Caldwell - one of the most successful of women novelists - is an intriguing novel in many ways. I think I would not be too far wrong if I ventured an opinion that this novel (if it can honestly be termed a novel) is Miss Caldwell's attempt at basically a religious theme.

At first the book seemed like a case history, written for a professor in theological seminary. I can recall reporting on such calls regularly, during my days in seminary, where alert professors tried to get it into our heads that silence is the golden virtue when it comes to helping those people who are mature enough to bring their problems to a pastor. By definition, almost, the clergyman often seizes on the very first segment of the problem, offering what he assumes is a solution along with ample advice, ushering the desperate person out before the real problem has had an opportunity to be aired!

Allow me to sketch the framework to the novel. In her "Foreword," Miss Taylor runs through the great need in today's world for listeners; persons trained in the disciplines of listening. She writes of man's needs today by saying, "He needs to tell someone of what he thinks, of the bewilderment he encounters when he tries to discover why he was born, how he must live, and where his destiny lies." Later, she adds: "Until we free our shepherds (clergymen) from our insistence that they be our servants let us remember that there is someone who listens. He is available to all of us, all of the time, all of our lives. The Listener.

Now, to the story. Old John Godfrey was alone in his retirement days, having lost his wife after 10 years of marriage. He had saved money, being naturally frugal, and spent it on a marble cathedral-like building. You entered one room, where there was a place to write a question. You were then summoned by a chime, knowing intuitively, "when the bell tolled for thee." You were to see nothing but a comfortable chair and a curtain, plus an engraved direction informing the reader that by pushing it, the curtain would part.

Naturally, in its beginning the temple caused much comment. But no one ventured to take the building down. Rather the usefulness of

the temple increased with the passing of time; hotel guests would discover invitations in their hotel rooms. A wide-spread group of people accept the invitation to visit "The Man Who Listens." All of them are helped by this experience; all find forgiveness and understanding. Broken marriages, betrayals in important relationships, and a loss of meaning in life, are just a start at listing the troubles that were brought to the man who listens.

There is one bit of theatrics that does not seem necessary. In the inner chamber the lighting seems to be brighter when some times the person (patient, client, what have you?) gets his thinking nearer the Christian teaching, and, of course, darker when he reaches conclusions that are unacceptable to The Listener. No one succeeds in finding any sign of a heating system, even though it maintains an even temperature the year round.

Of course, the mystery is the identity of the Man Who Listens. Minister, doctor, teacher, social worker are suggested. He is on hand 24 hours a day. Those who know have just a smile when they are questioned. Finally, at the book's conclusion, the man is unveiled, and the reader is hardly surprised to discover that he is—!

THE LISTENER by Taylor Caldwell, Doubleday & Co., Garden City, N.Y. 1960. Available from the Elkland Township and Cass City Library.
