ONE FOR THE ROAD

Hops, skips and jumps

By Dan Marlowe

Hops, Skips, and Jumps. . .

The average man is 65 pounds of muscle and 3 pounds of brains, which explains a lot of things.

couple and a home of their own is a popular teenaged daughter.

The trouble with opportunity is that it only knocks while temptation kicks the door in.

All the average woman wants is a roof over her head and the right to raise it occasionally.

Vacations date back to the time when Columbus started the fad of taking trips on borrowed money.

College youth's definition of father: the kin you love to touch.

Sign near school: "Watch out for our school children, especially when they are driving cars."

The vehicle you drive that costs the most per mile is the one you push down the supermarket aisle.

If you want a short winter, just have a note coming due early in the spring.

A man can always surprise his boss pleasantly by picking up flowers for her on his way home from the job.

Who was the genius who said that horsepower was much safer when only horses had it?

Under-the-breath whisper from the perfume counter salesgirl to female customer: "Don't buy that brand if you're bluffing."

Mothers are fantastic people: they can get up in the morning before they smell bacon frying.

All that stands between some Coming Auctions

Saturday, July 17 - Jack Pettit will sell antiques, tools and household items in Port Austin, one block east, three blocks south and a half of a block east of the stop light.

Saturday, July 17 - D & D Antiques at Caseville will auction their complete stock.

Saturday, July 24 - A household auction will be held at 6714 West St., Caseville. Mac Adams Greenhouse is the owner.

BETTER HEALTH

What is the meaning of abdominal pain?

BY DR. WALTER C. ALVAREZ

My friend, Dr. Stewart Wolf, of the University of Texas Medical Branch in Galveston, wrote a recent article on diagnosing the cause of abdominal pain, and he said something that I have found true in my years

4-H ACTIVITIES

Insect study interests 4-H'ers

By Bernard Jardot

There are more insects in the world than all other living things put together. Entomologists estimate there are over 1.5 million different kinds with nearly 1 million identified and given names.

Baptist WMS meets Monday

Twelve members and one guest attended a meeting of the Baptist Missionary Society held Monday evening at the home of Mrs. William Kretzschmer at Owendale.

Mrs. Myrtle McColl presided over the business meeting in which members voted to provide the Sheldon Peck family with a subscription to the Chronicle.

Devotions were in charge of Mrs. Vera Beards and prayer time in charge of Mrs. Fay McComb. Each member answered roll call with a verse of scripture which included the word "goodness". Refreshments were served at the close of the meeting by Mrs. Lloyd Streeter.

Be sure the theory you come up with is backed up by facts.

of practice -- that a good doctor can expect to make a fairly accurate preliminary diagnosis of the cause of pain arising in the abdomen, in about 80 percent of patients, simply by talking to the person and getting a good history.

The first question is, where is the pain? Is it localized, or widely scattered? Also, I want to know if the pain or distress complained of is out in the abdominal wall, and not deep in. Often the patient knows this, and would gladly mention it if he or she were only asked.

Often I learn much about a patient's distress by grasping a fold of the skin of the abdominal wall without touching the muscle, and pinching it as I lift it up. I may then find the skin hypersensitive, either in the region in which there is pain, or else all over perhaps one side of the abdomen. A normal person will not object to the pinching of the skin, but a highly sensitive person will cry out with pain. Many so-called abdominal pains are superficial, and due to fibrositis (a mild, non-crippling form of arthritis) out in the abdominal wall. Under such circumstances, an operation is not needed.

What is the pain like? Is it constant, or does it come in spells? Most pains of local organic origin tend to come in spells. A pain due to gallstones is likely to come at intervals of months or years. It helps

can get involved in many career opportunities.

4-H'ers enrolled in the 4-H entomology program "know their bugs," what they look like, where to find them and how to control the harmful varieties. The young people find the useful insects, raise insects for experimental purposes, trade specimens and exchange information.

Adding to the 4-H members' fun of working in entomology are the opportunities provided for recognition. For more information about this or other 4-H programs, how to enroll or how to participate as a volunteer leader, contact us at the County Extension Office.

Cass City forms club for area senior citizens

Harlan Hobart, a patient in Hillis and Dales Hospital for two months, came home last Thursday. Dr. and Mrs. Harold Hobart of Washington, D. C., spent Sunday with the Harlan Hobarts and visited other relatives and his father, Mr. and Mrs. Clayton Hobart in Mayville.

Carla Russo, daughter of Mrs. Floy Russo, fell at the home of her grandparents, Mr. and Mrs. William Ashmore, and fractured her ankle. Another daughter, Dawn Russo, had major surgery on her hand last Thursday at Grace hospital in Detroit when the tendons in her hand were cut.

Mrs. Blanche Wood had as guests July 4, her son, Mr. and Mrs. Don Wood and family and Mr. and Mrs. David Wood and family and Mrs. Virginia Adams of El Monte, Calif.

Mrs. Arthur Carolan, Mr. and Mrs. Roy LaFave, and from Detroit, Mrs. W. Connors, went to Bay City to attend the wedding of Michael Carolan, son of Mr. and Mrs. Keith Carolan, and Charlene Rose Able at St. Paul Lutheran church. The reception was held in the LFA hall.

Saturday overnight guests of Mrs. Mose Karr were Mr. and Mrs. Wellington Law of Venice, Florida, and Sunday evening guests were Mr. and Mrs. Elliot McKichan of Benfield, Canada, and Mrs. Mabel McKichan of Cass City.

Mr. and Mrs. Richard Chepko and family of Detroit and Mr. and Mrs. Frank Salgat and family of Ann Arbor spent the weekend with Mrs. Chepko's and Frank Salgat's mother, Mrs. Ada Salgat, and Douglas, Mr. and Mrs. William C. Hunter and Debbie went to Normal, Illinois, Friday to visit their daughter, Mr. and Mrs. Lynn Devore, until Monday. En route home they spent a short time in Adrian with their son, Mr. and Mrs. John Hunter.

A senior citizens club isn't exactly launched, kicked off or plunged into formation. It just sort of eases into motion, little by little until a lively over-64-group meets for potlucks, card playing and socializing.

The Cass City Senior Citizens Club was recently formed amid a spread of potato salad, baked beans and coe slaw Thursday, July 8, at the Cass City recreational park with about 45 persons attending.

The official billing of the gathering was to discuss and form the club. The unofficial discussions were more concerned with meeting old friends, comparing fancy work and exchanging travel tips.

In between discussions, the group decided to meet every second Thursday of the month at 12:30 p. m. for a potluck dinner at the Cultural Center.

Mary McIntyre, one of the chairmen for the affair, laughingly referred to the club as an "emergency exit", an outlet for retired persons to meet, eat and enjoy themselves.

The next potluck is scheduled for Aug. 12 with Mr. and Mrs. Harry Falkenhagen leading the program.

HELPING THEMSELVES to the goodies at the pot-luck dinner table are Mr. and Mrs. Frank Meiser.

Pesty Weeds Get Push In Play Areas

Are ugly weeds and unwanted grasses invading the patio, barbecue or poolside area? There's no need to waste weekends pulling and digging them out.

These family recreation areas can be kept free of pesty weeds throughout the year with a simple application of a soil sterilant, non-selective weed-killing chemical.

Such a herbicide destroys all vegetation on which it is sprayed, desirable as well as undesirable grasses and plants. It also sterilizes the soil to prevent further weed invasion.

This kind of weed killer is perfect for removing all unwanted grasses and broad-leaf weeds from terraces, sports areas, playgrounds, driveways, building foundations, fences and similar areas.

Under Control One application of a non-selective herbicide eliminates pesty plants for the entire summer. About a week after treatment, weeds start to turn white or brown. As a rule, most are dead in about three or four weeks.

This formulation may be applied any time when vegetation is growing actively. If weeds or grasses have already captured favorite backyard spots, cut them back to the ground. Use the non-selective spray when re-growth appears.

For best results, be sure the air is calm when you spray, according to agronomists, at Amchem Research Farm, Ambler, Pa. Spray drift from this type of general weedkiller can injure or destroy grasses, flowers or ornamental plantings.

Be Selective Most non-selective weed killers will not spread out to damage desirable grasses or ornamentals growing next to treated areas. Nor will they soak down to where there are tree or shrub roots.

Basically, it's impractical to use non-selective herbicides for killing weeds in lawns. Besides destroying troublesome weeds and grasses, they can whiten or kill good grasses, too.

It's wiser to control lawn weeds with selective weed killers to save grass.

JUST SITTING around visiting is one of the major attractions of the newly organized Senior Citizens Club in Cass City.

It hardly seems possible, but it's less than a year since the issue of parochialism was finally settled in Michigan.

The subject which split both parties down the middle in both houses of the Legislature last year didn't even get a mention this year.

And the seemingly unreasonable antagonisms which built up in the fight over the whole question of state aid to parochial schools are nowhere to be seen.

"It's just a matter of practicality," explains one lawmaker. "That constitutional amendment just eliminated parochialism as an issue. And with all the other problems we've got to cope with, we can't afford to fight over dead issues."

He referred to the constitutional amendment passed by the voters last fall which banned parochialism in the state.

The situation is just another reminder of the way issues grow great then diminish in Lansing. It's only been a few years, but it seems long ago that the battle of open housing or the question of a state income tax were fought tooth and nail on the floor of both chambers. And a year from now, people will probably be saying, "Gosh,

it seems like it's been a lot longer than a year since they were fighting over that income tax increase."

MAYBE BETTER BUSES

The best transportation methods for Michigan people should be identified following a new study by a California company. At least that is the goal of experts engaged to study mass transit problems here.

The firm, TRW System Group of Redondo Beach, Calif., will be paid \$54,000 for the study, which is to be completed by the middle of September. The contract calls for TRW to evaluate and compare many new urban transportation concepts, and to recommend what it feels would be the most efficient system or systems with the highest potential for early operation.

It's been told the key factors to look for are cost of both the equipment and its operation, technology, and such considerations as its effect on the environment.

Among the transportation methods being studied are light weight, rubber tired vehicles that operate on elevated guideways and monorail systems which are already in use in some parts of the world.

A special message was sent by Gov. William G. Milliken to the Legislature last February saying that a well balanced public transportation system is "essential" to the economic health of Michigan and "offers opportunities to alleviate school and environmental problems."

The Legislature is expected to go to work on his proposals for mass transit this fall. The most difficult part of the proposals will be to allocate half a cent of the state gasoline tax to rapid transit systems, rather than reserving the entire gas tax for highway construction as in the past.

The highway lobby is already hard at work trying to kill the idea before it gets any momentum, saying drivers of cars shouldn't pay taxes to set up transportation not using a car.

COURT WORK RISES

The increased caseload which plagues the nation's courts increases the work of the Michigan Supreme Court as well.

Last year, the seven-member tribunal disposed of 1,235 matters by court order or opinion. That was a full 13 per cent more than the year before, when 940 cases were handled.

Chief Justice Thomas M. Kavanagh says, however, that the total matters pending when this year started were down to 243, compared to 353 pending matters at the start of 1970.

The caseload continues to increase, he says.

Applications for appeal and related motions have risen 67 per cent so far this year.

A NEW TAX PROPOSAL

A completely different basis for taxing people is proposed by this writer. Individuals should be taxed according to height: perhaps a dollar per year for each inch over five feet six inches. If this does not bring enough revenue, a new dimension could be added: a dollar for each inch of waist measurement in excess of 32 inches. It is unlikely bust or hip measurements would fit into this overall recommendation.

Logic and advantage are easy to see: bigger people take up more space; use more air; are responsible for larger seats in movies, buses and airplanes, stadiums, etc. It is time they paid their way instead of getting a subsidy from the smaller citizens.

If a person wanted to diet, he could reduce his waistline and probably improve his health while he saved tax and food money.

It is fair to mention that the advocate of this plan is five feet, seven inches tall with a 35 inch waist.

RCA Color TV
 GM 521

RCA harnesses the speed and accuracy of the computer to bring you important advancements in color television

Computers are being used to design and inspect critical parts of TV receiver systems.

Come in and get acquainted with **BOB BAILEY** OUR NEW RCA FACTORY TRAINED SERVICEMAN

RCA's Symbol of Purchaser Satisfaction
 RCA Corporation backs these 100% Solid State Color TVs for 1 year with these basic warranty provisions: If anything goes wrong with your new set within one year from the day you buy it, and it's RCA's fault, RCA will pay your repairman to fix it—both parts and labor. Just present your warranty registration card to the service repairman and RCA pays his repair bill.

If your picture tube becomes defective within two years it will be exchanged for a reliable rebuilt tube; in the first year RCA pays installation, in the second year you do. In short, the warranty covers every set defect. It doesn't cover installation, antenna systems, adjustment of customer controls or foreign use.

AccuColor® quality, Early American cabinet beauty

Letters to Editor

Baptists oppose free abortion

Dear John:

There has been much written on the subject of Abortion in recent weeks. As you know, I have opposed the liberalization of the present laws.

Last week I was a messenger from our church to the Annual Conference of the General Association of Regular Baptist Churches. This conference with 5,000 in attendance and representing more than 200,000 members in over 1,400 churches passed the following resolution unanimously:

"Whereas an abortion requires an operation which kills the life of the unborn baby and endangers the life and health of the mother, and

Whereas many medical authorities have recognized that a child is in existence from the moment of conception (Smith vs. Brennan, New Jersey Supreme Court, 1960), and

Whereas man is created in the Image of God and given an eternal existence by his Creator Lord, and

Whereas life is sacred and the sanctity of human life is well documented in the Scriptures, and

Whereas an increasing number of nurses, required to be involved in delivery rooms where abortions are carried

out, report that they are sick in heart and body to be a part of destroying a human fetus which is perfectly formed and often not even dead when it is destroyed by the hospital disposal services, and

Whereas much legislation is being introduced to lawmaking bodies and fostered by such movements as Women's Liberation, and

Whereas such liberal legislation has resulted in a great increase in induced abortions (e.g. 34, 175 in New York State in the first four months of their liberalization law)

Therefore Be It Resolved that we, the messengers of the churches in fellowship with the General Association of Regular Baptist Churches, meeting in Winona Lake, Indiana, June 27-July 2, 1971, go on record as being thoroughly opposed to abortion on demand and, furthermore, that we recommend to the various legislatures that they give serious thought to the realization that their very existence is a result of the design of God Who established governmental authority, and that they soberly reflect on the consequences of legitimizing the murder of the yet unborn."

I thought some folks would be interested since this resolution expresses the position of our own local church. Thanks.

Sincerely,
Lloyd L. Streeter, Pastor
First Baptist Church

Bivens named new county extension dairy agent

An Extension Dairy Agent has been added to the Tuscola, Huron and Sanilac Counties Cooperative Extension Service Staff. Bill Bivens, Michigan State University Extension Agent, joined the present County Agriculture Agents Bill Bortel, Don Kebler, Tuscola; Lee Warschelsky, Tony Rapes, Huron; Rex Sieting and Ed Strong, Sanilac. The new dairy agent will be working with the dairy farmer in the areas of breeding, production, nutrition and the application of herd production records.

six county thumb area. His new position with the Extension Service will be a specialized dairy position and will reach across a three county area, Huron - Sanilac and Tuscola. This important dairy area includes 14% of Michigan's Dairy Farmers.

A 1965 graduate of Michigan State University majoring in dairy production, Bill returned to work for the University after he spent a year in Vietnam as a food and agriculture officer of a civil affairs company. There he assisted the

Vietnamese to grow and market rice, vegetables and swine. Married, and the father of two girls and a boy, his home was a 218 acre dairy farm near Dowling in Barry County.

BILL BIVENS

For the past two years, he was employed by the Dairy Department, Michigan State University. During this time, he worked with the Dairy Herd Improvement Association in the

Beer ruins park for local pastor

Dear John:

A word of commendation is in order for your good editorial last week. It expressed my feeling about booze in the park.

It seems that the village council yielded to pressure from two little groups without consideration for the rights of other people.

One of the most attractive things about our town is the park. It is a family place and I've been proud of it. But I do not want to expose my children to booze or boozers, so the new law ruins the park for us.

The First Baptist Church, meeting in a business session on Wednesday night, adopted, unanimously, a resolution to express our opposition to the council's decision and urging the citizens of Cass City to petition the council to reconsider.

I think the people deserve a hearing. Thanks again for your stand on the issue.

Sincerely,
Lloyd L. Streeter
Pastor

Park beer opens Pandora's box of problems

July 9, 1971

Dear Editor John:

I want to commend your forthright editorial in "The Editor's Corner," issue of July 8th. I agree with your views regarding the safe-guarding of children in the village park from example and influences that might be detrimental.

The seemingly "quick-swoop" of the Village Council - which usually has my endorsement of their judgments for the town's welfare and progress might open a Pandora's Box of Problems for them and later charges of discrimination, etc. You know the ancient fable of the camel getting his nose into the entrance to a tent.

It might be of interest to know that as a rule I am not "agin things" and changes - and that every balloting or election for town improvements has had my affirmative vote as will the voting on July 12 Re/Fire Hall.

Cordially,
Melvin Vender
