### Gas tax revenue increases

Lighter cars which get more miles per gallon and less traveling by the public are taking their toll on state gasoline tax and license plate revenues, most of which are earmarked for highways.

Revenue for the final quarter of 1979 did increase over the same period in 1978, according to the Michigan Department of Transportation, but only because of the 2-cent per gallon increase in the state gas tax that went into effect Jan. 1, 1979.

For the final quarter of 1979, Cass City is receiving \$12,284 as its share of the Motor Vehicle Highway Fund, compared to \$10,805 for the same period in 1978. Gagetown will get \$4,501 (\$3,702 for final three months of 1978), Kingston, \$2,842 (\$2,596), Owendale, \$2,994 (\$2,732), and Ubyly, \$5,031 (\$4,594).

The Tuscola County Road Commission will receive \$531,373, compared to \$464,918 received for the final quarter of 1978; Sanilac County Road Commission, \$499,376 (\$432,348 a year earlier), and Huron County Road Commission, \$462,080 (\$400,418).

Gasoline sales for the final three months of last year, according to the transportation department, totaled 1.076 billion gallons, a decline of 140 million gallons from the same period a year earlier. The present state gas tax is 11 cents per gallon.
