## Conserve energy

Heat loss through and around windows can be significant even in a home with adequate insulation.

But well-built wood windows with factory-applied weatherstripping and double-pane insulating glass help limit fuel waste from air infiltration and from heat loss through the glass area.

Wood patio doors with their large glass areas open rooms to views and lots of natural light.

Besides offering good looks, wood patio doors are available with insulating glass to cut down on heat loss.

Rural homeowners and farmers are now eligible for loans of about \$500 each to finance home improvements designed to reduce energy consumption. The loans are repayable over five years.

Agriculture Secretary Bergland estimates that energy savings from such improvements as adding insulation will repay a large part of the cost.

## Energy Savings You Can Count On

A.O. Smith  
gas water heaters

## TRADE UP TO SNAPPER DEPENDABILITY!

Before you buy a mower, tiller or tractor, compare the quality and performance features of a SNAPPER. You'll find a SNAPPER is worth more because it does more and its price is competitive with other quality mowers, tillers and tractors.

SNAPPER tractors with hydrostatic transmissions have a single pedal that controls both your speed and direction. Great for maneuvering on the lawn or in the garden. Shown with optional cutting unit 42", 48" and 54" units available.

All SNAPPER riders have on-the-go shifting without clutching. Plus a cutting unit which raises to prevent scalping. 6 or 30 bushel catchers available.

19" and 21" SNAPPER walk mowers are superior bagging mowers which can be converted to mulching mowers and leaf shredders.

SNAPPER tillers can be converted to walking tractors so you can also plow or cultivate.

SNAPPER  
Mowers - Tillers - Tractors  
Any way you cut it...it's a snap with SNAPPER!
