Now that most of the inauguration
visitors have gone, there are none of
the signs visible which usually belong
to the first week of a new adminis-
tration. As not a single change has
been made in the head of an execu-
tive department, the office-seekers,
who are usually such a striking fea-
ture of a new administration, are con-
spicuous by their absence, and the
fact that few changes are to be made
in those places filled by direct appoint-
ment of the President has operated to
keep the number of White House of-
fice seekers down, although no Presi-
dent is ever entirely clear of them,
and just now some of those who re-
tired from both branches of Congress be-
cause their constituents failed to re-
elect them are very persistent in
their demands for Presidential ap-
pointments.

No credence was given in Washing-
ton to the press dispatches from Ha-
vana alleging that Gen. Wood had
told members of the Cuban Constitu-
tional Convention that the conditions
imposed by Congress for the with-
drawal of American authority were
not intended to be final, but merely
as a basis for negotiation. Officials
know that Gen. Wood could not have
made such a statement, because he
knows that it is the reverse of fact;
that the conditions imposed by Con-
gress were the result of the most care-
ful consideration and were intended
by Congress and the President to be
final. They know further that the
conditions were heartily endorsed by
men of all shades of politics in Con-
gress and that public sentiment has
since been practically unanimous in
approving them, and that the only
way for the Cubans to get the Ameri-
cans out of Cuba is to accept them;
and they believe they will accept them.

The Senate, now in extra session
for executive business, has 86 mem-
bers, there being two vacancies from
Delaware and one each from Nebras-
ka and Montana. There may be
another vacancy from Nebraska. If
the legislature fails to elect, Senator
Allen, who was appointed by the gov-
ernor to fill a vacancy, will cease to be
a Senator.

Congress having failed to provide
for any of the proposed junkets, mem-
bers of several of the old House com-
mittees, who expect to be members of
the same committees in the new
House, are going on junkets at their
own expense, on which they expect to
gather useful information as well as
enjoy themselves, which will be much
better than having their expenses
paid by the public treasury, because
it frees them from criticism. Some
members of the old committee on
Rivers and Harbors have already
started on a trip to Florida, which
will be extended to Cuba, and the
same party will in June visit the Pa-
cific coast. Some members of the old
Military committee are preparing to
visit Cuba and Porto Rico, while
members of the Naval committee are
contemplating a similar trip. Mem-
bers of the Insular committee are
talking of going to the Philippines,
but have not yet fully decided to do
so.

Like Oliver Twist, children ask for
more when given One Minute Cough
Cure. Mothers endorse it highly for
croup. It quickly cures all coughs and
colds and every throat and lung
trouble. It is a specific for grippe and
asthma and has long been a well
known remedy for whooping cough.

EXPOSITION MAKING.
THE PAN-AMERICAN TO EXCEL IN
MANY PARTICULARS.

**The Most Delicate and Intricate
Plastic Work Ever Attempted For
Exposition Purposes—Color and
Horizontal Embellishment.**

The development of the Pan-Ameri-
can Exposition at Buffalo is observed
with profound interest throughout the
western world. Almost every day
shows some new feature of the magni-
ficent enterprise completed. Some new
tower rears aloft its ornamental pin-
nacle, some new dome presents its
rounded top to the sky, or some new
decoration of form or color is added to
the wonderful bouquet of architectural
loveliness.

Never was there an Exposition so
novel, so unlike what the world has
learned to expect, as this. With the
glorious examples of the Exposition
builder's art and genius to look back
upon with fond remembrance and ad-
miration, the world has wondered if all
that has been promised for the Pan-
American would be realized. If one
may judge by the present stage of the
vast work, the millions of visitors to
Buffalo during the exposition season,
which begins on the 1st of May next,
will suffer no disappointment.

The Pan-American Exposition will
outshine its distinguished predecessors
in many particulars. Of these the
court settings are of first importance.
In order that there may be abundant
room for the elaborate decorative ef-
fects, 33 acres are alone devoted to
courts. This area is two and a half
times the area of the courts at the
Chicago Columbian Exposition. About
these broad courts are grouped a score
of great buildings, in which the multi-
tude of exhibits from all parts of the
western world are to be displayed.

As a second important feature may
be mentioned the ornate architecture,
the use of plastic ornamentation of
very intricate and beautiful design and
the employment of original sculptured
groups in the exterior decorations of
buildings, entrances and architectural
features. No less than 125 original
sculptured groups, modeled by some 30
or more distinguished American sculp-
tors, will be used in this feature of the
decorative work.

The use of an elaborate color scheme
has never before been attempted at an
exposition. The appropriate title of the
"Rainbow City" has already been
applied to this great group of brilli-
antly colored buildings, and lovers of color
will find the exquisite harmony of
tints that has here been produced a
most delightful subject for contempla-
tion and study.

As a fourth point of superiority may
be named the hydraulic and fountain
features. In all the courts are broad
pools containing numberless cascades
and fountains. These will add to the
beauty of the great work in no small
degree. Many of the fine sculptures
will form a part of these charming
fountains. A broad and stately canal,
a mile and a half in length, banked
with grass and lined with a double row
of young trees, completely encircles the
main group of buildings.

The horticultural embellishment of
the grounds constitutes a fifth point of
excellence. Ornamental trees, shrubs,
lawns and flowers of brilliant hue will

delight the eye everywhere. Sunken
gardens and formal beds of flowers
will surround fountains and pools and
border upon the walks throughout the
courts.

Crowning the great work of produc-
ing unparalleled vistas and an expo-
sition picture of unrivaled beauty will
be the electrical illumination. Only
when a great volume of power is avail-
able, such as Buffalo possesses in the
newly harnessed Niagara, could elec-
tric illumination be undertaken on so
grand a scale. With unlimited power
to draw upon, the electrician has had
no restraining conditions in his work.
The electric tower, 375 feet high, of
rich and elaborate design, will form the
centerpiece of the electrical brilliancy,
while every building, fountain and ar-
chitectural feature and even the broad
surfaces of the artificial lakes and
pools, with floating lights, will glow
with electrical radiance and luster. The
scene will be one of unsurpassed love-
liness, hitherto impossible and unlikely
soon to be repeated again on account of
the vast expenditure of electrical en-
ergy necessary to produce it.

It makes no difference how difficult,
or what your case may be, nor how
many have failed to cure you, there is
always hope for you, until you have
consulted the Detroit Clinic, and been
told that your case is incurable. The
reputation of this Clinic has been made
by curing cases that were supposed to
be incurable.

not curable, you will be so informed,
and it costs you nothing.

FACTS FOR SICK PEOPLE.
The News-Tribune of July 30th, 1898,
said: "It is no invidious comparison
to say that no specialist in Detroit or
in the State of Michigan, has had such
a wide experience, and as an expert
diagnostician there are few equals in
this country."

Mrs. Edna Johnson, of Detroit, who
has been seriously afflicted with a com-
plicated of diseases for years, makes
the following unsolicited statement.
She says: "I wish to state that for
years I have been a great sufferer from
heart disease, and catarrh of the stom-
ach, with nervous debility. I would
have nervous spells every few days in
which I would lose consciousness.
Having treated with more than a dozen
different doctors, with no benefit, I
determined to try the Detroit Clinic,
having had a number of friends who
were cured there. I placed myself un-
der treatment at the Clinic, and am
happy to say that I improved right
along, and all of the distressing symp-
toms have left me, and I most heartily
recommend the wonderful treatment to
all sufferers."—Edna Johnson.

Mr. George Lancelwood, of Mar-
quette, says: "I can never repay the
Detroit Clinic for the great benefit I
have received from them. When I
commenced treatment I only weighed
108 pounds, and had a distressing
cough and night sweats. After taking
six months' treatment I have gained
twenty-three pounds; cough is all gone,
and I am as well as ever. After two
months' treatment I was well enough
to resume my work, that of a station-
ary engineer, and have been at work
since. The treatment did not inter-
fere with my work."—George Lancel-
wood.

Mrs. C. M., of Birmingham, Mich.,
was cured of Bronchitis and Catarrh
after she had been given up by several
physicians, who said she had consump-
tion.

Mrs. L. C. Smith, of Detroit, was
cured of Epilepsy (or fits) after having
had this terrible disease for seven
years.

The great success with which the
Clinic treats all kinds of diseases is
the wonder and admiration of all sci-
entific men. The specialist in charge
is noted for his skill, and the care
with which every case is treated. No
case that is not curable will be treated,
but curable cases are treated with the
latest scientific methods, and in no case
does it interfere with the work of the
patient.

Remember, it costs you nothing to
consult this specialist, such an oppor-
tunity does not offer itself very often
to people outside of large cities, and
our citizens will certainly do well to
take advantage of this one. It is best
to consult the specialist personally, but
question blanks will be sent on appli-
cation, and all communications will re-
ceive prompt attention, if they are ad-
dressed to

Back from any cause, I offer you my
NEW DOLLAR ELECTRIC BODY BATTERY FREE.

Unquestionably the Neatest, Lightest, Most Scientifically Constructed Body Battery ever in-
vented. Made of finest quality goods, lined throughout with black rubber cloth, has six gener-
ators, contains a ten triple power cell battery, will produce an electric flash like a mild flash of
lightning, will last a life-time. Is superior in every way to any \$20.00 or \$30.00 Electric Belt ever
manufactured anywhere, and is the only genuine Electric Body Battery manufactured in the
Dominion of Canada. Nothing so stimulates the failing energies or tones up the nervous system
as a continuous current of electricity during the hours of slumber. When used in conjunction
with Dr. Donald McTaggart's Scotch-Tone, there is no disease or weakness of man that cannot be
speedily and permanently cured. Write today. Delays are always dangerous. You can be
made a strong, manly man. Samples of Scotch-Tone sent free. Address

McTAGGART REMEDY AND ELECTRIC APPLIANCE CO., Windsor, Ont.
P. S.—To my thousands of friends throughout the Dominion who have for the past eleven
years been patrons and patients, send me your name and address at once. I want you especially
to benefit by my liberal free offer.
