

# Miraculous CURES BY THE DETROIT CLINIC

The Eminent Specialist who performs such marvelous cures that patients from the east and west visit the Clinic, will make the following regular monthly visits.

**At Cass City, Friday and Saturday, April 26 and 27.**

The best the world has to offer in the way of scientific treatment. There is no chance for comparison. No comparisons are possible.

**CONSULTATION FREE!** and Strictly Private in Every Case.

It makes no difference how difficult, or what your case may be, nor how many have failed to cure you, there is always hope for you, until you have consulted the Detroit Clinic, and been told that your case is incurable. The reputation of this Clinic has been made by curing cases that were supposed to be incurable.

After examination, if your case is not curable, you will be so informed, and it costs you nothing.

## FACTS FOR SICK PEOPLE.

The News-Tribune of July 30th, 1908, said: "It is no invidious comparison to say that no specialist in Detroit or in the State of Michigan, has had such a wide experience, and as an expert diagnostician there are few equals in this country."

Mrs. Edna Johnson, of Detroit, who has been seriously afflicted with a combination of diseases for years, makes the following unsolicited statement: "I wish to state that for years I have been a great sufferer from heart disease, and catarrh of the stomach, with nervous debility. I would have nervous spells every few days in which I would lose consciousness. Having treated with more than a dozen different doctors, with no benefit, I determined to try the Detroit Clinic, having had a number of friends who were cured there. I placed myself under treatment at the Clinic, and am happy to say that I improved right along, and all of the distressing symptoms have left me, and I most heartily recommend the wonderful treatment to all sufferers."—Edna Johnson.

Mr. George Lancwood, of Marquette, says: "I can never repay the Detroit Clinic for the great benefit I have received from them. When I commenced treatment I only weighed 108 pounds, and had a distressing cough and night sweats. After taking six months' treatment I have gained twenty-three pounds; cough is all gone, and I am as well as ever. After two months' treatment I was well enough to resume my work, that of a stationery engineer, and have been at it since. The treatment did not interfere with my work."—George Lancwood.

Mrs. C. M., of Birmingham, Mich., was cured of Bronchitis and Catarrh after she had been given up by several physicians, who said she had consumption.

Mrs. E. C. Smith, of Detroit, was cured of Epilepsy (or fits) after having had this terrible disease for seven years.

The great success with which the Clinic treats all kinds of diseases is the wonder and admiration of all scientific men. The specialist in charge is noted for his skill, and the care with which every case is treated. No case that is not curable will be treated. Brittle cases are treated with the latest scientific methods, and in no case does it interfere with the work of the patient.

Remember, it costs you nothing to consult this specialist, such an opportunity does not offer itself very often to people outside of large cities, and our citizens will certainly do well to take advantage of this one. It is best to consult the specialist personally, but question blanks will be sent on application, and all communications will receive prompt attention, if they are addressed to

You will waste time if you try to cure indigestion or dyspepsia by starving yourself. That only makes it worse when you do eat heartily. You always need plenty of good food properly digested. Kodol Dyspepsia Cure is the result of years of scientific research for something that would digest not only some elements of food but all kinds. And it is the one remedy that will do it.—Amos Bond.

A young man who resides north of Lexington and has a fine bird dog, was overheard bragging to his best girl the other day about the wonderful keen scent of the animal. "Why," he said, "I wanted to go to the north-western part of the county on business, and fearing that the dog would follow me I chained him up. I had been gone two hours and was fifteen miles from home when he broke loose and tracked me, found me merely by scent. What do you think of that?" "Well, I think you ought to take a bath," charmingly replied the young lady. And then he went home and licked the dog.—Lexington News.  
At about three o'clock Sunday morning Mr. and Mrs. Jeneroux Soper, living three miles southeast of Marlette, were awakened by a bright light in their window and sprang out to find the whole wing of the house in flames. It was only by the most hurried effort that they succeeded in getting their children out of the building and nothing in the furniture line was saved. Most of Mr. Soper's papers were also burned, together with \$300 in cash which he had taken in on Saturday. The house was practically new and was worth upwards of \$1,800, which will bring the loss up to about \$3,000. A policy of \$1,800 was on the building and contents. There is no way of knowing how the fire originated, it was so far advanced before discovery, though there had been no fire in that room since Sunday noon. About eight years since a barn was struck by lightning and burned near the house, and Mr. Soper has every reason to think he is getting his share of troubles in that line. He says that the fire has shown that he has lots of friends who are not backward in extending assistance when needed. The house will be rebuilt at once.—Marlette Leader.

prayed that no liquor licenses would be granted for the coming year.  
The Caro Journal published by a stock company composed of Montagues has not been recognized by the post office department as a regular newspaper and is therefore required to place a one cent stamp on each copy mailed. The probable reason for this is that a large share of the space printed in the Journal office not occupied by an advertisement of some one of the stock holders is devoted to free advertising of the mistakes made by Postmaster Fred Slocum and his employees which goes to show that the Journal is to use base ball parlance, weak at the bat, or they would have knocked Slocum out of the box before this.

The grocery business of James Bourke has expanded to such proportions that he will put in a stock of dry goods. Mr. Bourke started in modestly but a good business judgment has made his store venture a success.  
A camp of Modern Woodmen of America was organized last Friday evening consisting of 30 members. Officers elected are as follows: Consul, F. A. Bickel; advisor, James McLaughlin; clerk, John Doyle; treasurer, Byron Fraser; physician, G. S. Tweedie.

Farmers are taking advantage of the dry weather to plow and seed. Some have sheared their sheep already, some are building barns, waiting for a good shower of rain before starting spring work. Fall wheat and grass are at a standstill for want of rain.  
Carpenters and masons are in such demand that much work is delayed for the want of help. The carpenters have taken advantage of this demand in asking for higher wages. Some farmers have undertaken the construction of their barn wall rather than wait until they can get help.  
The supervisors of Custer and Watertown have commenced their annual assessment. This year they ask for no sworn statements except on personal property and ask for the dogs as of old. The dog tax is assessed by the supervisor and collected by the township treasurer. The dog collar and tag are furnished by the treasurer. If the tax is not paid returns are made to the sheriff of the county who is required to shoot them and collect a dollar for so doing.
