

# Miraculous CURES

BY THE

# DETROIT CLINIC

The Eminent Specialist who performs such marvelous cures that patients from the east and west visit the Clinic, will make the following regular monthly visits.

**At Cass City, Friday and Sat., April 26 and 27.**

The best the world has to offer in the way of scientific treatment. There is no chance for comparison. No comparisons are possible.

**CONSULTATION FREE!**  
and Strictly Private in Every Case.

It makes no difference how difficult, or what your case may be, nor how many have failed to cure you, there is always hope for you, until you have consulted the Detroit Clinic, and been told that your case is incurable. The reputation of this Clinic has been made by curing cases that were supposed to be incurable.

After examination, if your case is not curable, you will be so informed, and it costs you nothing.

### FACTS FOR SICK PEOPLE.

The News-Tribune of July 30th, 1898, said: "It is no invidious comparison to say that no specialist in Detroit or in the State of Michigan, has had such a wide experience, and as an expert diagnostician, there are few equals in this country."

Mrs. Edna Johnson, of Detroit, who has been seriously afflicted with a complication of diseases for years, makes the following unsolicited statement. She says: "I wish to state that for years I have been a great sufferer from heart disease, and catarrh of the stomach, with nervous debility. I would have nervous spells every few days in which I would lose consciousness. Having treated with more than a dozen different doctors, with no benefit, I determined to try the Detroit Clinic, having had a number of friends who were cured there. I placed myself under treatment at the Clinic, and am happy to say that I improved right along, and all of the distressing symptoms have left me, and I most heartily recommend the wonderful treatment to all sufferers."—Edna Johnson.

Mrs. George Lancewood, of Marquette, says: "I can never repay the Detroit Clinic for the great benefit I have received from them. When I commenced treatment I only weighed 108 pounds, and had a distressing cough and night sweats. After taking six months' treatment I have gained twenty-three pounds; cough is all gone, and I am as well as ever. After two months' treatment I was well enough to resume my work, that of a stationary engineer, and have been at work since. The treatment did not interfere with my work."—George Lancewood.

Mrs. C. M., of Birmingham, Mich., was cured of Bronchitis and Catarrh after she had been given up by several physicians, who said she had consumption.

Mrs. L. C. Smith, of Detroit, was cured of Epilepsy (or fits) after having had this terrible disease for seven years.

The great success with which the Clinic treats all kinds of diseases is the wonder and admiration of all scientific men. The specialist in charge is noted for his skill, and the care with which every case is treated. No case that is not curable will be treated, but curable cases are treated with the latest scientific methods, and in no case does it interfere with the work of the patient.

Remember, it costs you nothing to consult this specialist, such an opportunity does not offer itself very often to people outside of large cities, and our citizens will certainly do well to take advantage of this one. It is best to consult the specialist personally, but question blanks will be sent on application, and all communications will receive prompt attention, if they are addressed to

DETROIT CLINIC,  
Detroit, Michigan.
