Last week 30,000 wall-eyed pike were deposited by Messrs. Pinney and Frost at the place called Deadwaters near Pinney's resort. Those deposited last year seem to be thriving as several measuring a finger's length have been seen by Mr. Pinney.

McKenzie, secretary; Mrs. J. D. Brooker, treasurer. Mrs. W. D. Schooley and Mrs. A. J. Knapp, who were members of the Circle and Mrs. O. K. Robb & Coon's music store is a popular place for music lovers. Last Saturday evening the store was crowded by ladies and they were nicely entertained by Mr. Robb, who is an expert pianist. The sidewalk was blocked for a time so great was the attraction of the music.

G. S. Farrar, the hustling manager of the Bay Port hotel, was in town the latter part of last week. He expects to open his resort the 27th of this month. From the present outlook the coming season will be a busy one. Bay Port is favorably known all over the country and most of his guests come from the southern states.

Very careful preparation is being made for the services of Children's Day next Sunday at the M. E. Church. The pastor has arranged with Miss Emma McCready of Vassar to be present and speak at 10:30 a. m. She is a specially gifted worker with the children and young people and all these are requested to be present, but all will find her words full of spiritual help and inspiration. In the evening an unusually fine concert program will be given.

Dr. Morgan left on Wednesday to present Bible study and a second topic at the Epworth League Institutes held at Romeo and East Tawas for the Port Huron and Bay City Districts. Mrs. Morgan went at the same time to the state W. C. T. U. convention at Marshall on behalf of the movement she has undertaken for the unprotected girlhood of the Philippine and Hawaiian Islands, which cause will probably be taken up by the national W. C. T. U. organization.

Elmwood's poet, Henry Dodge, was in town on Monday. Mr. Dodge is out of politics, at least for the present. He says his farm demands his entire attention and for this reason he would not accept a renomination for the supervisorship in his township during the last campaign. However his poetical genius is as active as ever.

That does not take any of his valuable time. His incomparable hyperbolic rhythmic flash forth by day and by night without any volition on his part. In this particular Mr. Dodge differs from most all other poets. Mr. Dodge is a genius and like all other great men makes an indelible impression upon all with whom he comes in contact.

MADE A DEAL

Harry Guppy and William Heller are now the proprietors of the big Vaughn store at Elkton. Mr. Vaughn takes the Guppy farm in exchange for his stock of goods which consists of general merchandise. The stock is the largest and most complete in Elkton. Mr. Heller left for Elkton on Thursday and will take immediate charge and Mr. Guppy will follow in the near future. Both Mr. Guppy and Mr. Heller are excellent citizens, their families are highly respected and will be missed by a host of friends. The Chronicle wishes them the best of success in their new field of activity. What is Cass City's loss will be Elkton's gain.

Settlement Desired.

Being soon to remove from Cass City, parties owing me will please settle either by cash or note on or before June 15th next and greatly oblige.

Very respectfully,

MORE CHEAP MUTTON.

Well, Bro. Wilcox, I have read your reply and feel for you. I see you are joined to your idols (sheep) and that is why I make another effort to knock the scales from your eyes. You ironically term me a limb of the law, and tell of selling winter lambs for a good price and in every way evade the downfall of wool till the reader may readily imagine that you are the "sprig of Blackstone" and as Daniel O'Connell put it, "tricks upon tricks and twists upon twists." Why don't you come to the mark Bro. H. J. and admit that you have been wandering in the fog on the sheep question and hereafter the Jersey cow will crop the herbage that springs forth on your domains. You tell me in sweeping terms that good sheep will pay but were careful not to itemize the matter so I must do it for you.

One year ago I received 20¢ per pound for my wool at Cass City. This year for the same wool and at the same place I got 15¢ per pound. One-fourth drop in a year; at this rate in three more years my wool crop can be computed at a string of ciphers. Now, Bro. Wilcox, when I was a kid I "lugged" the butter to town on my arm and the price would average about a shilling a pound the year around. The price is the same today on the average. Generations come and go but the product of the cow remains firm but how is it with the product of "Mary's little lamb?" Back in 1863 wool brought \$1 per pound and before the 60's had departed it fell until farmers had a hard time to sell their sheep for \$1 per head. The fall of 1869 sheep were a drug on the market at \$1 apiece and wool has been up and down fluctuating with the fancy of a frivolous people ever since. The sheep industry is a lottery; it is like rolling the wheel of fortune. You and I cannot make such ventures—besides we should produce better things. Men at the stock exchange expect to gamble but for the honest farmer to do into wild speculation—oh! brother tiller of the soil! The Chronicle before me quotes wool at Cass City from 10¢ to 15¢ per pound and if you and I have the highest price wool it cost us more to get it; so don't quibble and tell how George Walker sold your class of wool at 10¢ per pound, for you are only offered 15¢ today. Wool then is coming down gradually and by the time you think you should sell, my 11¢ figures will catch you.

Now don't try to make me waver from duty by charging me with being in cohorts with Cleveland some years ago, sailing the Ship of State. Cleveland is off fishing and I am in the horse business and wool is going down—down under another rule. Tell me why, yes, tell me why.

Now, Bro. Wilcox, be calm and cast aside foolish notions and when you sell your wool, remember the price you have placed on each of your flock, \$7; four would buy a Jersey. Count up; for you can figure when there are no sheep wheels in your head. Bro. Wilson, will tell you what a good cow well kept, as you say of the sheep, will make in a year. Then you will see that you are deeply in the fog. Rush to the business heights and bless the day that cowology was brought to your notice.
