Robert Johnson Brings Suit For Injuries Received.

Fell Down the Elevator Shaft in the Opera House Block November 6.

Robert Johnson has brought suit against George L. Hitchcock, Archibald A. Hitchcock and Mrs. Caroline Hitchcock, owners of the opera house Caro Sugar Factory Gladdens the block, for damages to the amount of \$2,000 for injuries received in falling down the elevator shaft at the opera

about to enter the opera house on the tributed. first evening of the company's appearbelow the first floor.

calendar for the February term. The munity. ownership of the opera house block is one-tenth.

NOWLAND GETS JUDGMENT.

A lawsuit, one of those occurrences that is so rare in Cass City, was held at the council rooms Tuesday afternoon, Justice Brooker presiding. The complainant was Henry Nowland, who resides one mile south of the village, and the defendant was George Hopkins of Owendale. The trouble arose over the amount of money which should be paid by Hopkins to Nowland for the latter's work in superintending the moving of the former's saloon and hotel in Owendale. Nowland claimed \$50 additional to the \$10 which he had received from Hopkins. Hopkins thought the job was worth less and didn't want to pay that amount.

Six men-James Henry, L. E. Curtis, Albert Wickware, B. Bertrand, J. W. Armstrong and W. A. Andersonreceived the munificent sum of 50 cents each for their afternoon's work as jurors and they rendered a verdict in Nowland's favor allowing him a judgment of \$50.

Brooker & Corkins were the attoreys for the complainant and Geo. M. fendant.

VILLAGE FINANCES LOW.

The village finances were at low ebb this week and the probabilities are that it may be necessary to borrow money before next year's taxes are collected. On Wednesday evening, the village treasurer's books showed a balance of \$58 on hand. This balance was not half large enough to pay the guest of relatives in this place and at orders which had been drawn, but had Argyle for a couple of weeks, left last | not yet been presented for payment. Friday for Niagara Falls, Ont., where At that time, however, Commissioner he is a telegraph operator for the Padfield had not turned in his monthly collections to the treasurer for light, water and telephone services. When this money is placed in the treasury, the village will have several hundred dollars to its credit.

DROVE HORSE INTO WINDOW

Wm. H. Haskin and Wife Have Narrow Escape from Death.

Wm. H. Haskin and wife, both about 70 years of age, and residents of Millington, had a remarkably narrow escape from death in a runaway at Vassar Tuesday. As it was they both escaped with slight injuries.

The horse, which is blind, became frightened and dashed down Huron street toward the Cass river. Fearful lest they be thrown over the rail, the old man put his entire strength on one rein, turning the animal into the plate glass window of J. L. Root's store near the river. The horse was badly cut and though Mr. and Mrs. Haskin were thrown to the pavement, aside from some minor cuts and bruises they were unhurt.

THUMB NOTES.

The first corn husker victim in the vicinity of Imlay City this year is Asa Muir, who lost his hand Thursday afternoon. He was helping out on his brother's farm, five miles from there. His hand was torn off at the

Control of the contro

U. OF M. FOOTBALL TEAM LOSES BIG GAME AT ANN ARBOR BY SCORE OF 6-0.

FIRST MICHIGAN DEFEAT.

Pennsylvania's Only Score, Made in First Half, Was Culmination of Fluke Play, Three Michigan Men Missing Low Kick Over the Line.

Saturday was a day for the shattertory, was taking its fourth successive defeat in the game that figures big in the eastern championship, Michigan rooters, gathered in greater number than Ferry Field has ever known, saw a Michigan team defeated for the first time since that bit of turf became the battling ground of the elevens that defend the Maize and Blue.

In a way, for those who had followed the fortunes of the Ann Arbor team closely, it was the expected. There was balm in the hour of defeat in the fact that it was by a very small score, and that that score was in a sense, the culmination of a fluke play.

The Michigan goal line, heretofore clear this season, was crossed. But it was crossed but once. That, with the added noint that kicking the goal gave, accounts for the six points that are credited to Pennsylvania's account. That was the score, 6 to 0. Michigan, because of the rulings of the officials, being denied a count when once she crossed the Pennsylvania goal marks. She carried the ball over, on the most spectacular play of the day, a beautiful working out of the forward pass. For many a day it will be subject of argument whether the Michigan team erred in the making of this play, or Referee Murphy in the making of his decision.

Child Burns to a Crisp.

When Mrs. Henry Curtis, of Cassopolis, returned from a neighbor's house she found her 4-year-old daughter lying dead on the floor, her clothing, except her shoes, all burned off her body, and her flesh burned to a

That's the white race of the same chance you would ask for the home merchant—trade at home. Train Hits Open Switch.

Incoming Lake Shore passenger rain No. 47 due at Hillsdale at 9:05 ran into an open switch about three blocks from the depot and crashed into the engine of the second section of freight No. 94 Thursday night, wrecking the engine and injuring six, one perhaps fatally.

The passenger train was running at the rate of about 10 or 12 miles an hour and the switch signal showed a clear track. There are two versions as to the cause of the accident. One is that the switch was left open by mistake or thrown to wreck the train, and another is that the freight engine was switching on the main line and opened the switch to avoid the possibility of a greater wreck. There is a steep embankment on the main line at this point and freight cars on the ing of traditions at Ann Arbor. While track would have caused a probable Princeton, for the first time is its his fatal collision, whereas less chance would be taken on the even grading at either side of the siding.

Wants Mixers as Pastors. Mayor William Thompson, of Kalamazoo, somewhat shocked members of the Michigan Sunday School Association in welcoming them to the city for their annual convention, by saying that ministers were not the "jolly, good fellows they should be," and that they ought to be good mixers and make people feel more comfortable in their company.

He also declared that every church in the country should have a bowling alley and billiard rooms for boys and young men. These, he said, would keep them away from bad influences.

MICHIGAN BREVITIES.

A county normal training school for Sanilac county will be established at Croswell next year, as authorized by the board of supervisors.

George Roberts, of Kalamazoo, aged 11, was shot below the heart by Cecil Coleman, aged 12, who "didn't know the gun was loaded." He may

The right hand of a man which apparently had been torn from the arm was fished out of the river at Pontiac by Hart Curtis, who was playing on the bank.

Anna Kurkeva, of Austria, who crossed the ocean to come to her sweetheart, Frank Nomecik, will be married to him in the Catholic church at Imlay City.

Calvin Knapp, of Port Huron, Grand Trunk brakeman, became violent and his friends bound him with ropes in the caboose to prevent him from jumping from the train.

William Barnes, a Bedford farmer and former protege of Indian weather prophets, says that the muskrats are building their nests high, indicating the approach of a severe winter.

A strong indication that the recent financial flurry is fast subsiding came when the National Body & Box Co. of Pontiac received word to rush all outstanding orders and put on a full force of men.

Fire in the Cheboygan Pea Canning Co.'s warehouse did \$9,000 damage to stock. The factory was not damaged. The stock was fully insured. The blaze started from a stove in the building.

George W. Tubs, of Lansing, who claimed self-defense in his trial for life, made the same plea in asking a pardon, but the board refused to over-rule the courts. rule the courts.

Principal Paul T. Hickey, of the Battle Creek high school, declined the neatly dressed. A physician an presidency of the local anti-cigarette ficers were hurried to the office. league, because Lucy Page Gaston charged that nine out of every ten in his high school smoked cigarettes.

Leslie Sutherland, aged 17, who dishome at Mt. Clemens with a strange tale of having been kidnaped by circus people, but his parents believe veloped into the picture of Mr. Lamhe ran away with the circus.

and Clinton counties, has learned that he is an alien, because of the failure out more than his first naturalization papers.

In trying to save his cart from the wheels of a train while picking up coal in the Ann Arbor railroad yards at Owosso, Paul Willoughby, aged 10, sprang in front of a locomotive, crying, "Don't run over my cart," and was crushed under the wheels, dying shortly afterward.

George A. Hill, of Ann Arbor, who lost a watch worth \$30, was the only victim of pickpockets at the Michigan-Pennsylvania game. Detectives Baker ailroad detectives, were on guard for 'Harry Sinclair" as suspects.

Henry Bell, of Perry, had an experience of the hunter being hunted, which cost him a severe injury. Bell went coon hunting and treed one of the animals in a tall oak tree. He started to climb up to get his quarry, but when 35 feet from the ground met the coon coming down. This so starcoon got away.

On invitation of the state agricultural board, officers of the M. A. C. alumni appointed the following advisory council to act with the board in natters pertaining to the college: Chairman, Ray Stannard Baker, East Lansing; William K. Prudden, Lansing; L. Whitney Watkins, Manchester; Prof. Eugene Davenport, Urbana, Ill.; George J. Jenks, Harbor Beach; E. N. Pagleson, Detroit.

With flour at \$5.50 a barrel, Lansing bakers say that they cannot furnish a 16-ounce loaf for five cents and will ask the common council to amend the ordinance so that the weight of loaves may be reduced to 14 ounces.

Recently James S. Kennefick, of croswell, past 80 years of age, a prominent and prosperous civil engineer of that vicinity, left for his nativity, Ireland, saying, "America is good place to live in, but I want to lie in Ireland." Now comes a letter from the aged man asking that a few dollars be sent him that he may have a decent burial. Needless to say that purse has been raised and sent.

THE STATE IN

LAKE SHORE PASSENGER AND SWITCH ENGINES MEET HEAD-ON NEAR HILLSDALE.

EIGHT PERSONS HURT.

Four Men Are Wounded While Tramping Woods-One Falls From Tree, His Gun Exploding, Necessitating Amputation of His Leg.

Railroad Wreck Near Hillsdale.

Eight persons were hurt when Lake Shore & Michigan Southern passenger train No. 414 collided head-on with a switch engine running light from Hillsdale to Jonesville.

No cause for the accident has been assigned. Fireman Morgan, of the switch engine, said that he and his engineer thought they had the right of way to Jonesville.

The switch engine was running backward and had left Hillsdale without orders and only six minutes before the other train was due.

The passenger train was bound from Jackson to Fort Wayne. It was running on time and at a fairly high rate of speed when the crash came The impact threw the tender of the switch engine into the ditch. The passenger locomotive was able to haul its train into the city later. The crew of the switcher escaped by jumping.

Four Hunters Shot.

Shot through the lungs, causing instant death, was the fate of a hunter, as yet unidentified. The tragedy oc-curred about eight miles south of Houghton. The victim was about 25 years of age.

While hunting near Sault Ste. Marie, Emerick Campau was shot in the shoulder by a shotgun in the hands of a friend who was crawling through a wire fence. The hammer caught and the full charge struck Campau. He may recover.

While hunting, Joseph Rozich, of Mohawk, fell from a tree, his gun exploding. The wound necessitated the amputation of his leg.

Reports from South Range said a young unidentified hunter had been killed there. An unidentified foreigner is dead in

a hospital at Negaunee from the effects of a gunshot wound received while hunting deer yesterday. He was shot by his companion. Gustavus Makki and Gustavus Lehtomen were hit by stray bullets while hunting. The former was shot in the

foot and the latter in the arm. Agent Shot by Robbers.

John Ferris, assistant agent on the Oscoda & Au Sable Union Steamboat Co.'s dock at Au Sable, was fatally shot by a robber, who entered the office and at the point of a revolver demanded the company's money.

Ferris was alone in the office and unarmed, but he pluckily refused to turn over the funds and the man shot him in the abdomen and in the back.

He gave a meager description of the man, who was of medium hight and neatly dressed. A physician and of-

WILL BORROW \$150,000,000

\$50,000,000 TO BE ON PANAMA CA-NAL BONDS AND \$100,000,000 ON THREE PER CENT CERTIFICATES,

BIDS INVITED FOR EACH

Object Is to Relieve the Treasury Department of the Necessity of Withdrawing Funds Now on Deposit in National Banks.

Secretary Cortelyou made the im-

portant announcement that, as a means of affording relief to the financial situation, the treasury would issue \$50,000,000 of Panama bonds, and \$100,000,000 certificates of indebtedness, or so much thereof as may be necessary. The certificates will run for one year and will bear 3 per cent interest. The secretary's action in coming to

the relief of the financial situation meets with President Roosevelt's hearty approval, and the plan is the outcome of the several White House conferences which have been held within the past few days when the financial situation was under consider-

Secretary Cortelyou says that the Panama bonds will afford most substantial relief, as the law provides that they may be used as a basis for additional national bank circulation. He also states that the proceeds from the sale of certificates can be made directly available at points where the need is most urgent, and especially for the movement of the crops, which will give the greatest relief and result in the most immediate financial returns.

Need Not Withdraw Deposits. Secretary Cortelyou adds that these relief measures will enable him to meet public expenditures without withdrawing for that purpose any appreciable amount of the public moneys now deposited in national banks throughout the country. Two treasury circulars, one inviting proposals for the issue of bonds and the other asking for the certificates will be sent

In his letter to Secretary Cortelyou, approving the treasury plans, President Roosevelt states that he has been assured that the leaders in congress have under consideration a currency measure, "which will meet in perma-nent fashion the needs of the situation, and which I believe will be passed at an early date after congress convenes two weeks hence.'

Say Uncle Sam Cheates Them. The railroads are protesting against a postoffice order requiring them to handle empty mail equipment in the mail cars from November 15 to December 15. The question may reach the courts.

The trouble arises out of the refusal of the government to include empty mail bags, blank postal cards and stamped envelopes in the mail during the recent weighing period. This reduced the total amount of mail matter 25 per cent and as the roads are paid on a basis of weight it

resulted in a loss to them of between \$10,000,000 and \$15,000,000. Under the new law the empty equipment shall Eugene Welcher, of Kalamazoo, aged 55, to his daughter, Mrs. Frank Gear, and after his wife again refused to be sent by freight. Bryan Is-Willing.

William J. Bryan will accept the Democratic nomination for president in 1908, but he will neither ask nor make a fight for it.

He gays that for a year or more he has been pressed to answer the ques-"Will you accept the nomination: tion?" and he believes the public entitled to an answer and to know the position he occupies. The question that ought to weigh most, he says, is whether his nomination will strengthen the Democratic party more than

the nomination of some one else. Not only will he not seek or ask for the nomination, but he will not assume to decide the question of availability, and if the prize falls to another he will neither be disappointed nor disgruntled. At the same time, he denies that he has waited this long in a desire to see whom the Republicans are likely to nominate, or to ascertain the chances of victory.

Salvation Army Fleet.

According to the Shipping Gazette there is a probability that the Salva-Army will soon own several trans-Atlantic steamers. The steamers will be used in connection with the army's scheme for promoting Co nadian immigration.

Valuable Data Lost.

Photographs and official data secured by the international boundary surveyors the past summer in th work of delimiting the Alaska line have been lost by the upsetting of a canoe in the Bradfield river. The work may have to be done all over again.

Executive Mansion Sold for Taxes. Gov. Sheldon, of Nebraska, was notified today that the executive mansion had been sold for delinquent taxes of 1899, and unless the taxes and costs were paid, a tax deed would be issued according to law. The taxes amounted to \$332 and the interest and cost to \$83. The state bought the mansion in 1899 from D. E. Thompson, United States ambassador to Mexico, for \$20,000.

COPYRIGHT, 1904. By EDWARD J. CLODE.

CHAPTER VI.

HILIP knew that a fresh ordeal was at hand. How could he preserve his secret, how hope to prevail against the majesty of the British law as personified by the serene authority of the man whose penetrating glance now rested on him? His was a dour and stubborn nature. though hardly molded as yet in rigid lines. He threw back his head and tightened his lips. He would cling to his anonymity to the bitter end. no matter what the cost. But he would not lie. Never again would he condescend to adopt a subterfuge "Philip Morland," began the magis-

"My name is not Philip Morland,"

interrupted the boy.

"Then what is your name." "I will not tell you, sir. I mean no disrespect, but the fact that I am treated as a criminal merely because wish to dispose of my property warns me of what I may expect if I state publicly who I am and where I live." For the first time the magistrate heard the correct and well modulated flow of Philip's speech. If anything, it made more dense the mist through which he was trying to grope his way. "What do you mean?" he asked.

"I mean that if I state who I am I will be robbed and swindled by all with whom I come in contact. I have starved, I have been beaten for trying to earn a living. I was struck last night for saving a girl's life. I was arrested and dragged through the streets bandcuffed this morning because I went openly to a dealer to sell a portion—to sell some of my diamonds. I will take no more risks. You may imprison me. but you cannot force me to speak. If

you are a fair man you will give me back my diamonds and let me go free." court. Philip could not have adopted a more domineering tone were he the governor of the Bank of England crown. The magistrate was as sur-

"I do not wish to argue with you," he said quietly, "nor do I expect you to commit yourself in any way, but you must surely see that for a poverty stricken boy to be found in possession of gems of great marketable value is a circumstance that demands inquiry, however honest and-er-well bred you may be."

"The only witness against me has said that the diamonds could not have been stolen!" cried Philip, now thoroughly aroused and ready for any war

"Quite true. The inference is that you have discovered a meteoric deposit of diamonds."

"I have. Some-not all-are before

A tremor shook the court. Isaacstein swallowed something, and his head sank more deeply below his shoulders. "Then I take it that you will not inform me of the locality of this deposit?"

"And you think that by disclosing your name and address you will reveal that locality?"

Philip grew red. "Is it fair," he said, with a curious iciness in his tone, "that a man of your age should use his position and knowledge to try to trip a boy who is brought before you on a false charge?"

It was the magistrate's turn to look slightly confused. There was some asperity in his reply. "I am not endeavoring to trip you. but rather to help you to free yourself

from a difficult position. However, do I understand that you refuse to answer my questions?" "I do!" The young voice rang

through the building with amazing fierceness.

Mr. Abingdon bent over the big book in front of him and scribbled some-

"Remanded for a week," he mut-

"Downstairs," growled the court jailer, and Philip disappeared from The magistrate was left gazing

at the packet of diamonds, and he called Isaacstein, the clerk of the court and two police inspectors into his private office for a consultation. Meanwhile London was placarded with Philip's adventures that Saturday

evening. Contents bills howled in their blackest and biggest type, news venders bawled themselves hoarse over this latest sensation, journalistic ferrets combined theory and imagination in the effort to spin out more "copy," Scotland Yard set its keenest detectives at work to reveal the secret of Philip's identity, while Isaacstein, acting on the magistrate's instructions, wrote to every possible source of information in the effort to obtain some clew as to recent meteoric showers.

No one thought of connecting the great storm with the "diamond mys-Meteors usually fall from a clear sky and are in no way affected by atmospheric disturbances, their normal habitat being far beyond the influence of the earth's envelope of air.

And so the "hunt for the meteor" commenced and was kept up with zest for many days. "Have you found it?" became the stock question of the humorist and might be addressed with

mpunity to any stranger, particularly if the stranger were a nice looking girl. No one answered "What?" because of the weird replies that were forthcom-

The police failed utterly in their efforts to discover Philip's identity or residence. Johnson's Mews, Mile End road, might as well be in Timbuktu the door. It was locked. They both for all the relation it bore to Ludgate Hill or Hatton Garden. An East End policeman might have recognized Philip had he seen him, but the official description of his clothing and personal appearance applied to thousands of hobbledehoys in every district in Lon-

Two persons among the 6,000,000 of the metropolis alone possessed the knowledge that would have led the inquirers along the right track. The doctor | broken panes in the small window opwho attended Mrs. Anson in her last illness, had he read the newspaper comment on the boy's speech and mannerisms, might have seen the coincidence supplied by the Christian name and thus been led to make some fur- for the bed one would imagine that ther investigation. But his hands were full of trouble of his own account. A dispenser mixed a prescription wrongly and dosed a patient with half an hard case, some one told me. I rememounce of arsenic instead of half an ounce of cream of tartar. The subsequent inquest gave the doctor enough to do, and the first paper he had leisure to peruse contained a bare reference to the "diamond mystery" as revealing no further developments. He passed the paragraph unread.

centered in old O'Brien, the pensioner. Now it chanced that the treasury had discovered that by a clerical mistake in a warrant the old man had been drawing twopence a day in excess of his rightful pension for thirty-three years. Some humorist in Whitehall thereupon sent him a demand for £103 and 15 shillings, and the member of This outburst fairly electrified the the Whitechapel division was compelled to adopt stern tactics in the house before the matter was adjusted. and O'Brien was allowed to receive charged with passing a counterfeit half the reduced quarterly stipend then due. During that awful crisis the poor old fellow hardly ate or slept. Even when it had ended the notion remained firmly fixed in his mind that the "murdherin' government had robbed him of a hundred gowlden sovereigns an' more."

As for newspapers, the only item he read during many days was the question addressed by his "mimber" to the chancellor of the exchequer and the

brief reply thereto, both of which were fixed beforehand by mutual arrange-

In one instance the name given and afterward repudiated by the boy did attract some attention. On the Monday following the remand a lady sat at breakfast in a select West End hotel and languidly perused the record of the case until her eye caught the words "Philip Morland." Then her air of delicate hauteur vanished, and she left her breakfast untouched until, pervous clutching of hands, she had read every line of the police court romance. She was a tall, thin, aristocratic looking woman, with eyes set too closely together, a curved nose like the beak of a bird of prey and hands covered with a leathery skin suggesting talons. Her attire and pose were elegant, but she did not seem to be a pleasant sort of person. Her lips parted in a vinegary smile as she read. She evidently did not believe one word of the newspaper report in so far as the diamonds were concerned.

"A vulgar swindle!" she murmured to herself. "How is it possible for a police magistrate to be taken in in such a manner? I suppose Isaacstein knows more about it than appears on the surface. But how came the boy to give that name? It is sufficiently uncommon to be remarkable. How stupid it was of Julie to mislay my dressing case! It would be really interesting to know what has become of those people, and now I may have to leave town before I can find out."

How much further her disjointed comments might have gone it is impossible to say, but at that moment a French maid entered the room and gazed inquiringly around the various small tables with which it was filled. At last she found the lady, who was breakfasting alone, and sped swiftly toward her.

"I am so glad, milady," she said, speaking in French. "The bag has found itself at the police station. The cabman brought it there, and, if you please, milady, as the value was given as £8, he claimed a reward of £1." "Which you will pay yourself. You

lost the bag," was the curt reply. "Where is it?"

The maid's voice was somewhat tear-

ful as she answered: "In milady's room. I paid the sov-

Her ladyship rose and glided grace fully toward the door, followed by the maid, who whispered to a French waiter-bowing most deferentially to the guest as he held the door open—that her mistress was a cut. He confided his own opinion that her ladyship was a holy pig, and the two passed along a corridor.

Lady Morland hastily tore open the recovered dressing case and consulted address book.

"No. 3 Johnson's Mews, Mile End road, E. What a horrid smelling place. Mowever, Messrs. Sharpe & Smith will now be able to obtain some definite intelligence for me. Julie! My carriage in ten minutes."

"Oh, here it is!" she cried triumphant-

Thus it happened that during the afternoon a dapper little clerk descended from an omnibus in the neighborhood of Johnson's Mews and began his inquiries, as all Londoners do, by consulting a policeman. Certain facts were forthcoming.

"A Mrs. Anson, a widow, who lived in Johnson's Mews? Yes, I think a woman of that name died a few weeks ago. I remember seeing a funeral leave the mews. I don't know anything about the boy. Sometimes when I pass through there at night I have seen a light in the house. However, here it is. Let's have a look at it."

The pair entered the mews and approached the deserted house. The solicitor's clerk knocked and then tried went to the window and looked in. Had Philip hanged himself, as he intended, they would have been somewhat surprised by the spectacle that would have met their eyes. As it was, they only saw a small room of utmost wretchedness, with a mattress lying on the floor in front of the fireplace. An empty tin and a bundle of old letters rested on a rickety chair, and a piece of sacking was thrust through two posite.

"Not much there, eh?" laughed the

policeman. "Not much, indeed. The floor is all covered with dirt, and if it were not the house was entirely deserted. Are you sure Mrs. Anson is dead?"

"Oh, quite sure. Hers was rather a ber now. It was the undertaker. He lives near here."

'And the boy. Has he gone away?" "I don't know. I haven't seen him

lately." Each of these men had read all the reports concerning Philip and his diamonds. Large numbers of tiny, white pebbles were lying on the floor beneath their eyes, but the window was not clean, and the light was far from good as the sky was clouded. Yet they were visible enough. The clerk noticed them at once, but neither he nor the policeman paid more heed to the treasures almost at their feet than was given by generations of men to the outcrop of the main reef at Johannesburg. At last they turned away. The clerk gave the policeman a cigar with the remark: "I will just ask the undertaker to

give me a letter, stating the facts about Mrs. Anson's death. I suppose the boy is in the workhouse?" "Who knows? It often beats me to

tell what becomes of the kids who are left alone in London. Poor little devils, they mostly go to the bad. There should be some means of looking after them, I think."

Thus did Philip, bravely sustaining his heart in the solitude of a prison. escape the greatest danger that threatened the preservation of his secret, and

all because a scheming woman was too clever to tell her solicitors the exact reason for her anxiety concerning the whereabouts of Mrs. Anson and her

The boy passed a dolorous Saturday night and Sunday. Nevertheless the order, the cleanliness, the comparative comfort of a prison were not wholly ungrateful to him. His meals, though crude, were wholesome, luxurious even, compared with the privations he had endured during the previous fortgood, and, being under remand, he had nothing to do but eat, take exercise, read a few books provided for him and sleep.

With Monday came a remarkable change in his fare. A pint of first rate cocoa and some excellent bread and butter for breakfast evoked no comment on his part, but a dinner of roast beef, potatoes, cabbage and rice pudding was so extremely unlike prison diet that he questioned the turnkey.

"It's all right, kid," came the brief answer. "It's paid for. Eat while you can and ask no questions." "But"—

The door slammed, and at the next meal Philip received in silence a cup of tea and a nice tea cake. This went on during three days. The good food and rest had already worked a marvelous change in his appearance. He entered the prison looking like a starved dog. When he rose on the Thursday morning and washed himself, no one would have recognized him as the same boy were it not for his clothes. After dinner he was tidying his cell

and replacing the plates and the rest on a tin tray when the door was suddenly flung open, and a warder cried: "Come along, Morland. You're wanted at the court."

"At the court!" he could not belo saying. "This is only Thursday."

"What a boy you are for arguing! Pick up your hat and come. Your carriage waits, my lord. I hope you will like your quarters as well when you come back. A pretty stir you have made in the papers the last five days." Philip glanced at the man, who seem-

ed to be in a good humor. "I will not come back," he said quietly, "but I wish you would tell me who supplied me with food while I have been here."

They were passing along a lofty corridor, and there was no superior officer in sight. The warder laughed. "I don't know, my lord," he said, "but the menoo came from the Royal

Star hotel, opposite." Philip obtained no further news. He passed through an office, a voucher was signed for him, and he emerged into the prison yard, where the huge prison van awaited him. He was the only occupant, just as on the first memorable ride in that conveyance.

When he came to the prison from the police court he had several companions in misery, but they were "stretched." His case was the only "remand."

During the long drive Philip endeavored to guess the cause of this unexpected demand for his presence. Naturally, he assumed that Johnson's Mews no longer held safe the secret of his meteor. Such few sensational romances as he had read credited detectives with superhuman sagacity. In his mind. Johnson's Mews was the center of the world. It enshrined the marvelous-how could it escape the thousands of prying eyes that daily passed through the great thoroughfare of the East End but a few yards Judging from the remark dropped by the warder, all London was talking about him. A puzzling feature was the abundant supply of good food sent to him in prison. Who was his unknown friend-and what explanation was attached to the incident?

Philip's emotions were no more capable of analysis than a display of rockets. Immured in this cage, rattling over the pavements, he seemed to be advancing through a tunnel into an unknown world.

At last the van stopped, and he was led forth into the yard of the police court. He followed the same route as on the previous Saturday, but when he ascended into the court itself he discovered a change. The magistrate. a couple of clerks and some policemen alone were present. The general public and the representatives of the press were not visible. He had scarcely faced the bench

when the magistrate said: "You are set at liberty. The police

withdraw the charge against you." Philip's eyes sparkled, and his breast heaved tumultuously. For the life of him he could utter no word, but Mr. Abingdon helped him by quietly directing the usher to permit the lad to leave the dock and take a seat at the solicitors' table.

Then, speaking slowly and with ome gravity, he said:

"Philip Morland-that is the only name by which I know you—the authorities have come to the conclusion that your story is right. You have unquestionably found a deposit of diamonds, and, although this necessarily exists on some person's property, there is no evidence to show whose property it is. It may be your own. It may be situated beyond the confines of this kingdom. There are many hypotheses. each of which may be true; but, in any event, if others lay claim to this treasure trove-and I warn you that the crown has a right in such a matterthe issue is a civil and not a criminal one. Therefore you are discharged and your property is now handed back to you intact.'

A clerk placed before Philip his parcel of diamonds, his key, the rusty knife, the pieces of string and the two buttons—truly a motley collection. The boy was pale and his voice somewhat tremulous as he asked: "May I go now, sir?"

Mr. Abingdon leaned back in his chair and passed his hand over his face to conceal a smile.

"I have something more to say to you," he answered. "It is an offense against the law to withhold your name and address. I admit the powerful motives which actuated you, so I make the very great concession that your earlier refusal will be overlooked if you privately tell me that which you were unwilling to state publicly.'

Philip instantly decided that it would be foolish in the extreme to refuse this offer. He pocketed his diamonds, looked the magistrate straight in the face and said:

"I will do that, sir. As the information is to be given to you alone, may I write it?"

The policemen and other officials sniggered at this display of caution, but the magistrate nodded, and Philip wrote his name and address on a sheet of foolscap, which he folded before handing it to the usher.

To his great surprise, Mr. Abingdon placed the paper in a pocketbook withbut opening it.

"I will make no use of this document anless the matter comes before me again officially. I wish to point out to you that I have brought you from prison at the earliest possible moment and have spared you the publicity which your movements would attract were your case settled in open court. You are not aware perhaps that you figure largely in the eyes of the public at this moment. There are newspapers which would give a hundred pounds to get hold of you. There are thieves who would shadow your every movement waiting for a chance to waylay and rob you-murder you if necessary. I have taken precautions, therefore, to safeguard you, at least within the precincts of this court, but I cannot be responsible beyond its limits. May I ask what you intend to do?'

Philip, proud in the knowledge that he was cleared of all dishonor, was at no loss for words now.

"First I wish to thank you, sir," he said. "You have acted most kindly toward me, and when I am older I hope to be permitted to acknowledge your thoughtfulness better than is possible today. I will endeavor to take care of myself. I am going now to see Mr. Isaacstein. I do not expect that he will send for a policeman again. If he does, I will bring him before you." The magistrate himself laughed at

"You are a strange boy," he said. "I think you are acting wisely. But-eryou have no money-that is, in a sense. Hatton Garden is some dis-

tance from here. Let me-er-lend you

a cab fare." "Thank you, sir," said Philip. And Mr. Abingdon, unable to account for the interest he felt in the boy, quite apart from his inexplicable story, gave him 5 shillings and shook hands with

Miss Cynthia's attic was fragrant with aromatic herbs. Little bags of lavender and of dried rose leaves hung from the rafters and mingled their delicate perfume with the coarser aroma. of sage and sweet marjoram and thyme and summer savory.

On autumn afternoons the attic was golden with sunshine, and from the little peaked window one could see the long white road and the blue hills It was to this fragrant and gold

lighted attic that Miss Cynthia would come when the summer rush was over and in its peace and quiet try to forget that she was worn and worried and withered.

At thirty-five one should not be worried and withered. But hard lives do not make for youth and freshness, and Miss Cynthia had always drudged. Work had been the watchword on the farm, and when prosperity had come in later years the habit of keeping summer boarders had become fixed, and even after the death of her parents Miss Cynthia had continued it.

But with September came rest and freedom, and it was then that Miss Cynthia sought the attic and wrote in

The diary was a safe outlet for her woes. There were pages blotted with the tears she had shed when she had closed the volume of her first romance, and two leaves on which she had penned a poetic swan song of affection were pinned together with a black pin.

Miss Cynthia had old fashioned ideas about love. She had loved once, and hence there could be no other affair. It mattered nothing that the man in the case was married and had grown fat and puffy and uninteresting. It was not the man, but the idea, and to that idea Miss Cynthia was true.

To be sure, no second suitor had entered her life, so that there had been no severe tax upon her constancy. But the roses had gone out of her cheeks when she was twenty, and she had twisted her hair in an uncompromising knot and had at that early date given herself up to mourning and to memories.

"You're silly," Martha Ann told her one bright September morning as Miss Cynthia, with her black diary in her hand, prepared to ascend to the attic. 'Why don't you go out and visit and have a good time instead of writing in that dark old place?"

Martha Ann was an old and privileged servant, but Miss Cynthia would brook no interference with her acts of affliction. "I don't think good times are my

portion, Martha Ann," she said and went up the stairway thoughtfully. Halfway up she paused to sav: 'Make a good vegetable soup for lunch, Martha Ann, I'll throw down a bunch of my herbs. Soup will taste

good on a cool day.' "Love," wrote Miss Cynthia in her little book, "is of man's life a thing part: 'tis woman's whole existence!"

When she had rounded off the last prim letter she bit the end of her pencil and sighed and looked out of the peaked window.

cloud of dust. Coming nearer, the it will be a match"cloud showed itself the forerunner of an automob‼e.

The big machine swerved out of the road and into Miss Cynthia's own drive. It stopped at her door, and she had to lean far out of the peaked window to see Martha in her gingham pron speaking to the occupant.

Miss Cynthia could not hear a word, and she almost fell over the sill in the effort to satisfy her curiosity. She saw Martha Ann go in, and presently she felt a pull at the back of her dress.

'Goodness," Martha Ann said crossly, "I called and called, and I couldn't make you hear. That man wants some-

thing to eat." "What?" Miss Cynthia gasped. "But he doesn't look like a tramp, Martha

Ann.' "Tramps don't ride in automobiles," Martha Ann sniffled. "He says he's been riding all the morning, and he just couldn't find a place to eat, and he would be glad to pay for a meal. He understood that we took boarders,

he said." "Well, you go down and hurry the oup and make an omelet and some hot biscuits, and I will talk to him, Martha Ann."

"You'd better stop in your room and rimp a little," Martha Ann advised. He's awfully good looking.'

"The idea!" said Miss Cynthia, with lignity. She was a little sorry, however, when

she reached the sitting room that she had not taken the girl's advice, for the man that she greeted was big and blond and prosperous looking. It developed that he slurred his grammar, but as he leaned back in the biggest rocking chair and talked in his hearty voice Miss Cynthia decided that he was very attractive. "I expect you think it's queer my

droppin' in on you this way?" he said as Martha announced lunch. "But couldn't pass the poppies and the peonies in the yard. My mother used to have an old fashioned garden, and there was something about yours that reminded me of it, and I felt as if you'd give me a home cooked meal. A man gets tired of hotels." Over the steaming, savory soup he

expanded still more. "This is the kind I like." he said.

Bearsson Market "With all the vegetables in it and herbs. I'll bet you've got a lot of herbs tied up in your attic. My mother had. She said the attic was the pleasantest place in the house, and I used to think

so too." Miss Cynthia felt that at last she had met an understanding soul.

'Would you like to go up after lunch?" she asked eagerly. "There is a fine view from the little dormer win-

"My, how nice it smells!" said the big man as he seated himself in Miss Cynthia's favorite corner. The black diary lay open by his side. His eyes caught the lines:

Love is of man's life a thing apart; 'Tis woman's whole existenc

"Oh, tommyrot!" he said. "Did you write that?" "Yes," Miss Cynthia admitted. "By-

ron said it, you know." "Well, he didn't know what he was talking about. Why, if I loved a woman I should just love her all over-

no halfway business for me." "Oh!" Miss Cynthia gasped. There was something in his tone that made his statement next door to a declaration—a fervency that positively thrill-

"I am awfully glad I came," he said

as they went downstairs. "I am a stranger in this neighborhood, but if you will let me come again I will be mighty glad. It seems like my own folks.' "You must come real often," Miss

Cynthia urged, and hoped that Martha Ann would not hear her invitation.

"Gee! This is the way to live," said her visitor as he stood on the steps and surveyed the quiet garden, the family of gray pussy cats in the sunny porch corner, the gray horse in the paddock. "I should think traveling around in

your automobile would be interesting," Miss Cynthia ventured. "Well, 'tis," he agreed. "Do you like

"I have never been in one," Miss Cynthia admitted.

"What?" he asked. "Oh, look here! You run right up and put on your hat, and I'll take you." "Oh," said Miss Cynthia, all a-flutter,

"I wonder if I-can?" "Of course you can," said the gentleman securely. "I won't run away with

Safe in her own room, Miss Cynthia consulted Martha Ann.

"You'd better go with us." she said. 'I don't think it's quite proper, Martha Ann, do you?"

"I wouldn't go in one of them things if you'd give it to me," Martha Ann said. "and he's all right. I saw his name on a bundle of papers he left in the automobile. He's Andrew Briggs, the millionaire that's bought the factory. He is building a church and a library for the town, and I guess he's respectable."

Miss Cynthia dressed in a whirl. Of what account was that little romance of years ago when at her gates was a prince like this?

She came down with four yards of white chiffon tied around her hat. It had been bought for a waist, but, worn as a veil, it made a fascinating frame for her flushed little face. She had loosened her hair, and the soft brown curls gave youthfulness to her expression.

Mr. Briggs eyed her with apprecia-

"I'm awfully glad I met you," he said again as he helped her into his Martha looked after them as they

whirled down the long white road. "Well, I never!" she remarked to the pussy cats. "Did you ever see two peo-Far down the road she could see a | ple take to each other like that? I bet

And it was.

Both Won That the average Broadwayite is a

"natural born gambler" was well illustrated the other morning. Two men met, and one confessed the want of breakfast. The other "made good" the deficiency, and during the meal No. 1 remarked that he had received notice that there was a registered letter in the postoffice for him.

"Nobody would send me money." he added, "so it's a waste of car fare to go after it."

"I'll give you a dollar for a half interest," said No. 2. "You're on if you pay care fare,"

was the quick reply. After breakfast the pair went to the postoflice, got the letter, opened it and found a five dollar bill-

"Anyhow I'm \$3.50 ahead," said the owner of the letter as he "split the bill." "That's from a man I never expected to make the loan good."-New York Globe.

Could Not Cure Himself.

Something of the irony of fate is exemplified in an anecdote related by the New York Times concerning Professor Poirier, who until his death was the most famous cancer expert in France. Professor Poirier gave much of his time without pay to aiding poor people afflicted with cancer. One day there came to him a woman on whom he had operated and who feared the growth was coming again. "Fear nothing," said the physician

when he had made an examination. "It will be some years before you will need a fresh operation-which, by the way. I shall not be able to perform." "But, doctor, you will not refuse to treat me?"

"No, my poor woman, but I shall not be there to do it. I also have a cancer, and it will be more rapid than yours."

A Counter Charge. An elegant young man seized a thief

on the platform of a train, saying. "Are you not ashamed to follow so disgraceful a profession?" "And are you not ashamed," demand-

ed the other, "to go so well dressed without a pocketbook about you?"

A Thanksgiving Dinner

Can be pre= pared after a fashion on an old "elevated oven" and some will say to this, that e veryt hing tasted better when cooked by the fireplace or the old=fashi oned stoves which

of course is a notion mistaking the keen appetite of childhood for perfection in cooking. Ask anyone who uses

HE MALLEABLE RANGE

or buy one and prove for yourself. Ask for one of the "Malleable Cook Books" and try some new dishes next Thursday.

TWO WAYS

Of getting Glasses. One is to let some slick tongued fakir who peddles through the country come into your home and sell you a pair, and run the risk of ruining your sight. This is easily done, for they know how to fit a glass that makes one see splendidly to-day but it is an unnatural glass and the eye cannot stand up under it, and you find that -fomorrow you cannot stand to wear them at all. Then you turn to your pedler—he is gone. Have had long experience and guarantee satisfaction. You take no chances as I am always here to make necessary changes. We are here to stay.

Mulholland will preach in the they reached that place and who at the time of Mr. Hick's departure, had not won his trophy.

> The presence of several ladders of different lengths leaning against the residence of O. C. Russ on south Seegthe curiosity of ye Chronicle folks and upon inquiry it has been learned that Mr. Russ had been giving a free demonstration of the proper method of cleaning stove pipes and chimneys. The stove pipes and chimneys at his house had been "smoking up" and nearly drove the occupants away from home. Matters grew desperate and it was then that the head of the family decided to take matters in hand and straighten them out. He cleaned all the stove pipes and then procuring numerous ladders climbed upon the roof and with broom and other weapons, went after the chimneys, putting them in fine condition. Now, however, the story has leaked out that when he had finished all that hard work, clambered down the steep roof, descended the dangerous length of those wabbly ladders, proceeded to the rear of his own house, and opened the back door, his wife who was in the kitchen at the time, mistook him for a foreigner or wanderer owing to his slightly discolored features and clothing. After some parleying, he finally convinced her who he was and having established his identity, he was admitted to the house, once more a happy man.

Willing Workers met last Tuesday

A number from here attended the "hand" social at Sand Fly last Friday

Mrs. G. B. Gotham has returned dist preacher for over twenty years-

On the 28th of October, 1907, at the home of J. B. Williams, Brooklyn, N. Y., by Rev. H. Weston, D. D., Rev. William Richards, pastor of the Shabbona M. E. church, was united in holy matrimony to Miss Jenny Lawry, Lawry of Porth Towan Redruth,

Guild worker, Sunday school teacher and Town Mission Band leader. The happy couple spent a few days in New York City, proceeding thence to Niagara Falls, where they spent a couple country enumerating over a hundred, were very beautiful and expensive, which the young couple are held by beloved friends across the water; in New York who were guests at the

parsonage to give them a royal welcome to their new home. After a bountiful supper was served, Mrs. Dr. Truesdell arose and in response to the

welcomed the pastor and his wife in behalf of all the people of the church. Mr. Richards replied in a few well chosen words. After singing and prayer the company dispersed. May the Spirit that breathed over Eden be the guide of the happy couple on their life's journey is the prayer of a

Do It Better.

Sylvester Taylor, 63 Almira Martin, 63

Enterprising business men who do 'things' better than their competitors succeed in business. This is the secret of the success of The Greening Nursery Co., Monroe, Mich. This firm began doing business in a small way in 1883 and by their push and business ability have built up a business that covers the entire country. They write that the reports published in the daily papers to the effect that the trosts of last fall and this spring had injured nursery stock in the southern part of the state were ficti-tious and that they will have a complete line of trees, shrubs, plants, roses, etc., for delivery this fall and next spring. They sell thousands of trees in this vicinity.

Destroys Hair Germs

Recent discoveries have shown that falling hair is caused by germs at the roots of the hair. Therefore, to stop falling hair, you must first completely destroy these germs. Ayer's Hair Vigor, new improved formula, will certainly do this. Then leave the rest to nature.

Does not change the color of the hair. Formula with each bottle Show it to your doctor ers Ask him about it, then do as he says Recent discoveries have also proved that

dandruff is caused by germs on the scalp. Therefore, to cure dandruff, the first thing to do is to completely destroy these dandruff germs. Here, the same Ayer's Hair Vigor will give the same splendid results. -Made by the J. C. Ayer Co., Lowell, Mass.

A Rejected Claim.

An insurance broker got a request a few days ago for an immediate cal. upon one of his wealthy women cus-

tomers. "I've had a fire," she explained, "and I want you to make my claim at once. It is very imperative and is embarrassing to me until it is settled. You see, my false teeth-such a beautiful setthey cost me \$25-I laid them on the dining table. My servant girl, so careless, picked up some papers, my teeth among them, and tossed all into the fire. And such lovely teeth, and I'd had them so long they just had become set to my palate perfectly and were worth to me twice what they cost, so I think you ought to get me

The claim is in the company's list of "not allowed," and the broker is "a horrid old thing."-New York Sun.

In the Foolish Days.

They had only been married two months and still loved each other devotedly. He was in his den seeking inspiration for his new novel.

"Jack!" she called at the top of her voice. "Jack, come here quick!"

He knew at once that she was in imminent danger. He grasped a stick and rushed up two flights of stairs to the rescue. He entered the room breathlessly and found her looking out of the window.

"Look," she said; "that's the kind of a new hat I want you to get me."-London Tatler.

With the exception of Great Britain and America there are no two countries in the world where the mile is of equal length.

A Criminal Attack on an inoffensive citizen is frequently

made in that apparently useless little tube called the "appendix." It's gener-ally the result of protracted constipation following liver torpor. Dr. King's New Life Pills regulate the li er, prevent appendicitis and establish regular habits o he bowels. 25c at L. I. Wood & Co. and Ryan's drug store.

Mortgage Sale.

Thursday of last week.

Several of the neighbors gathered at the home of Jacob Bushlin Tuesday evening in honor of Mr. and Mrs. Jas. Denton.

Mr. and Mrs. Jas. Denton are visiting relatives and friends here. Mr. Denton has just returned from Palisade, Colorado, and is so well pleased with the country he would like to have his friends move out there. He

part thereof. Whereby the power of sale contained in said mortgage has become operative.

Now therefore notice is hereby given that by virtue of said power of sale and in pursuance of the statute in such case made and provided the said mortgage will be foreclosed by a sale of premises therein described atpublic auction to the highest bidder at the front door of the court house in the village of Caro in Tuscola County, Michigan (that being the place where the circuit court is held) on the 3rd day of January A. D. 1998, at one o'clock in the afternoon to satisfy the amount due as aforesaid with interest then accrued at the rate of six per cent (6 per cent) per annum together with the expenses of such foreclosure and sale including an attorney fee of twenty-five dollars (\$25.00); which said premises are described as follows: The southeast quarter (\$4) of section four (4) township twelve (12) north or range cleven (11) east in the township of Kingston, Tuscola County, Michigan, containing forty (40) acres more or less.

Cortelyou Says If Hoarding Stopped Conditions Would Be Normal

in a Day. "I believe," said Secretary Cortelyou to the Merchants' association in New York, "that if the money of the country, wherever hoarded, were at once put back to fulfill its functions in the channels of trade, there would be within 24 hours an almost complete resumption of business operations." It is upon the situation thus re-

ferred to that attention converged in the financial world during all of the past week.

The premium on currency is increasingly understood to be, in reality, a discount on bank checks, caused by the dislocation of exchange operations growing out of the widening effects of the shock of the upset in banking affairs following the runs on trust companies in New York. It is acutely observed, however, that the payments for the currency and for the premiums in these transactions have been made in certified checks on banks and that the proceeds of the transactions have found their way into bank deposits, notwithstanding that the holding of the currency was supposed to involve a distrust for the banks.

Increase in Circulation.

The monthly statement of treasury department showed amount of all kinds of money in cir-Eulation on November 1 to be \$2,876,-368,000, which was an increase compared with October 1 of upward of \$75,000,000, represented largely by the deposits of government funds which were made with the banks after the crisis developed in October.

Since that time receipts from abroad of upwards of \$33,000,000 of gold and a rapid expansion of bank note issues has liberally replenished the November 1 supply. With the stream of incoming gold running still at full tide early relief is looked for from the present condition.

Moreover, with this evidence of distinct relief it is expected that all barriers will quickly fall which are at present withholding cash from the channels of activity and the return flood will come with a rush. The time when this will happen depends on a state of mind of the whole people rather than on events in the material

Millions for Defense.

Estimates of appropriations aggregating \$23,461,911 are made by Gen. Alexander Mackenzie, chief of engineers of the army, for fortifications work during the fiscal year 1909. This contemplates work in the United States proper, Cuba, Honolulu, Porto Rico and the Philippines. It includes: Gun and mortar batteries, \$4,489,900; electrical installations, at seacoast, fortifications, \$1,000,000; sites for fortifications and seacoast defenses, \$3,-478,500; searchlights for harbor defenses, \$1,000,000; preservation and repair of fortifications, \$300,000; seacoast batteries at Guantanamo, \$1,-020,000; Honolulu and Pearl Harbor, \$1,110,000; Manila, \$6,488,000; installation of electric plants at these places and at Subig Bay, \$502,992; for searchlights at San Juan, Porto Rico, Guantanamo, Pearl Harbor, Honolulu, Guam and in the Philippines, \$502, 000; torpedo structures at defenses of Honolulu and Parl Harbor, Hawaii,

The modern works of defense now constructed represent an expenditure of approximately \$28,000,000 for engineering work alone.

COPYRIGHT 1907 BY C.N.LURIE

OME scattered sod buildings and a sod corral pitched on a treeless bank constituted the lone Circle Dot horse camp on the Rickaree. There the sun in summer blazed fiercely, and through other seasons the wind made ceaseless assaults. But the weather was well warded off by the sod structures, each with its heavy projecting dirt roof and thick walls, without other opening than a door in one gable end.

Each heavy door, stanch in its deep casing, had its rough surface further roughened by innumerable circle dots burned into the wood with a small branding iron. The corral itself, with its circling wall and its snubbing post in the center, was another circle dot branded on the wild spot, marking its subjugation by the Circle Dot outfit. Subjugation, indeed, went on daily

n the circular corral, where the prisoned range horses raced round and round in unavailing attempts to escape the dreaded rope. The Circle Dot outfit numbered some twenty veteran riders. Even Bradley, the youngest of them, had passed a good part of his twenty years in the saddle.

He was the "breaker," a dangerous office, requiring the dashing courage and supple body of youth. Brad had also a supremacy of spirit which so raised him above the rest that the foreman held him as one with himself.

By the corral gateway the boys had gathered one morning to see Brad mount a tough range mare whose vicious origin was betrayed by the Spanish character brands scarred on her blue roan hip and thigh.

covered her short coupled back as she

stuck in a potato at his plate flared dimly down the great pine board, where tins were often laid for twenty riders.

"Thanksgivin' in a hoss camp!" Brad

"They 'lowed I had to eat lots of wil' meat to sorter brace me up," he muttered, a little shamefaced, as he glanced at his plate, where the remnant of a slapjack and the rind of a slice of "salt hoss" told of a Spartan supper.

chanically. On the first page were some headlines that meant much to a plainsman's eye-"Another Indian Scare; Cheyennes Driving Off Stock on the

Brad took up a late weekly paper me-Republican." But from repeated reading they had lost their first startling effect and gave Brad only the pleasurable thought that the Indian scare might hasten the return of the Circle Dot outfit. His eyes passed to a column where, unnoticed before, were a few paragraphs headed "Thanksgiving Proclamation.'

ejaculated, with a horse laugh. Then, as if the idea had pleased him, he laughed in a minor key.

"The boys hev been a-tendin' on me a long time-a long time," he said to himself. "The boys was mighty good." He thought of the evidences in the adjoining storeroom-the humps and hams of buffalo, the saddles of antelope and white tail deer, the braces of wild geese, ducks and prairie chicken, all lavishly provided for him alone.

"That's the sort of grub the boys is gittin' now," Brad went on in apology to himself. "An' it's good enough for

grin on the face of the Indian as he pointed within when the others rode up. Then there were laughs, cries of pleased surprise and distinctly audible sniffing of the gratifying odor from the open door. Five savage riders dismounted and vanished in the cook house, leaving the man of the goose to guard their ponies. The sight and, above all, the sounds of their feast made Brad's soul rage

the dust.

within him. Nor was it at all quieted when, now that the Indians about the corral were gone, he looked over in it and saw that they had rounded up every Circle Dot horse on the range.

For an instant only in looking in the corral he had taken his eyes from the Indian watching over the ponies, but ne man had vanished in that moment. Brad surmised that, seeing no sign of life about the place, he had joined his fellows at the feast within.

After stuffing themselves they would. he well knew, search for the maker of that feast with other intent than thanksgiving. It was useless for him to lie there. Where should be conceal himself securely? Somewhere he must go, and that quickly.

Brad slipped to the ladder, clasped either long side piece with a knee and arm and began to slide down. But as he started his eyes swept over the corral and saw every horse in it looking up to him. Their eyes, staring and glassy, seemed to appeal to him for

succor plainer than any speech. Swiftly down he slid, and the corral wall, rising up, hid the horses from his sight, But as he struck the ground on his sound leg he had no further thought of seeking a hiding place for himself. He stepped to one side of the stack and boldly surveyed the cook house. Not an Indian was in sight. The six ponies, with heads down and reatas

Forgetalone knew the trick of tying when at hay was stacked, and up the long lad- ting then all about his lame leg, Brad last Brad was permitted to try his | der against one of the high stacks | made a rush for it, his six shooter

cocked in his hand. On the threshold he encountered the guardian of the ponies coming out. So boyhood had been under gray eastern close were the two that Brad actually skies. Now his eyes noted a white thrust the muzzle of his six shooter against the buckskin clad breast of the Indian, who with a yell of surprise and through its filmy intervention the and terror darted nimbly back and instinctively swung the door shut against Brad's extended weapon.

Brad snatched the chain and hooked to any homelikeness the sod buildings it over the staple. Hardly had he stepped to one side when there came a volley, muffled, from within. Half a dozen bullets splintered the door and whistled harmlessly over the prairie of dust on the horizon away beyond beyond.

"Blaze away!" Brad chuckled. "Ef where the Rickaree lost itself in the you can stan' the smoke in thar, I can sands on its way to the Republican. stan' to hear them bullets sing out Brad's heart was in his eyes as he here.

A chorus of coughs came from withcoming on with whirlwind speed, it in. Then, half strangled by the powtook shape on either side in rounded der smoke pent up in the tight strucpuffs that rose and broke and were ture, the prisoners made a rush against ever renewed. Noting this, the broncho the door.

"Say, thar, let up on that!" said Brad coolly. As the rush was repeat ed he stepped directly in front of the loor and in turn sent a shot through it.

The report of his big six shooter was answered by a yell from within, accompanied by the sound of scufling flannel shirt, his amazed eyes caught feet as the Cheyennes sought the corners at each side of the door for safety. Then all was silence, broken only by an occasional cough.

"I reckon I'd better light out," said Brad, to whom the very stillness of that cage of tigers was ominous. "'Twon't the stack. Along the center line of its take 'em long to claw outer that, an' I top a heavy pole had been laid to hold reckon when they do I'll jes' leave 'em to hoof it."

He had no difficulty in catching the pression made by the pole in the yielding hay Brad now flattened himself ponies by their trailing ropes. Tying them securely nose to tail, he led them thus to the corral. There he threw open the double gates and with a whoop and a whirl of his lariat sent dered in the open corral, and he heard the glad herd scurrying in safety out on the plain. Then he climbed on one of the captured ponies, led the others in a string behind him and took his closed violently, and the rattle of the slow way down the Rickaree with chain that held them. Then voices, many a backward glance at the silent harsh, discordant, speaking Indian cook house.

Brad's faith in the coming of the boys, after all, was not ill founded. Late in the afternoon he met them returning. And, though his lame leg pained him severely from the unwonted exercise, he kept his place among them as they raced for the camp spurred on by his tale.

They reached the camp at nightfall but it was only to find Brad's prisoners had withdrawn the stovepipe, enlarged its hole through the roof and so escaped.

Brad's chagrin was evident as he gazed at the bones of the bird and beast that covered the table where the Cheyennes had stuffed themselves before leaving. "Well, I reckon they've eat up pretty

nigh everything," he said disconsolately. But he gradually brightened up as the boys demonstrated to his satisfaction that there was still enough left for twenty hungry riders.

Romance of a Great Painting.

No picture perhaps has had so romantic an adventure or so miraculous an escape as Raphael's "Christ Bearing the Cross." It was ordered by the fraternity of Mount Olivet at Palermo, the brothers wishing to have a specimen of the celebrated Italian painter's work hanging in their monastery. The picture is remarkable for the truth with which the painter has portrayed the suffering of the Saviour as he bends beneath the heavy load. Raphael painted it in Rome, where he carried out so much of his work, and the picture was carefully packed and dispatched by sea to Sicily. During the short voyage a storm arose, and the wind and waves became so violent that the vessel was wrecked. The crew and passengers perished, and no trace of the ship or her cargo was seen again, save the picture, which, floating in its case on the water, was washed ashore and discovered by the expectant monks. On the case being opened it was found that the sea water had in no way injured the divine beauty of the painting, which was hung up at Palermo amid great rejoicing and thanksgiving at its miraculous escape.-London Standard.

Wild Tribe of Poets.

Among the wild tribes to be found in the Philippines are the Bogobos, the most picturesque people in the tropics. Their origin is unknown and all sorts of opinions have been expressed concerning them. One tale told of them is that their first ancestors were all poets and musicians and that the dislike for the practical which is always noticeable among them has come down through the generations Those that have taught among the Bogobos say that given a song or a poem to learn they will study and dream over it for hours, but give the Bogobo a problem in arithmetic and he immediately becomes ill and wants to go home.-Manila American.

The Modern Test.

The full dress life wanes in this country. Those who came before us and had the necessary disposition and means, in their manners, conversation and dress, led, from birth to death, this full dress life, and even in their last moments endeavored to close the term of their existence with full dress behavior and a full dress epigram. The notes of restraint, dignity and effort in this direction are seldom sounded now in England. It is all noise, tion of the pain it cost him. Indeed, by by the pain it cost him. Indeed, of consequence but cash. "What will he be worth?" is asked at the birth the back of the building, slipped along of a child, "What is he worth?" when he is a man and "What was he worth?" when he is no more.-London Truth.

> By Their Works Ye Shall Know Them. "Yep," replied Si Whipple, the landlord of the Benson Bend hotel, "ther sausages I've ben a-feedin' my guests air made from kanines."

"How'd yer find thet out?" inquired the postmaster.

"Waal, I fed 'em sausages fer a week, and by Saturday every guest I had begun ter growl."-Judge's Libra-

One of the saddest sights in life is that of a young man who has spent six months in coaxing a mustache into a respectable size and shape and then in the act of lighting a cigar with a slip of paper burns and scorches the whole institution into an unrecognizable mass of singedness.

If It's Neuralgia

and those sharp, shooting, agonizing pains drive you almost crazy, take Dr. Miles' Anti-Pain Pills. and get relief. They drive out the pain by their soothing effect upon the nerves. When taken as directed they are harmless. and leave no bad after-effects. That's the reason they are so popular with all who use them. Your druggist can tell you what others in your locality think of them.

think of them.

"I do positively think that Dr. Miles' Anti-Pain Pills are the best medicine ever put upon the market. I find them so restful and soothing, and without any bad after-effects. I have suffered with neuralgia so that my system would just ache and quiver, and I cannot take oplates; but I can take these tablets, and they always relieve me. No one that suffers with neuralgia need fear to take them as I know they will not form a habit, for if there was any oplate in them I could not take them. Just one in the morning when I feel bad, and I can do my work all day."

Cured in less than four weeks.

Those who have had experience with this disease can hardly believe at first that Wonderful Dream Salve can and does cure Eczema.

There is no doubt about the matter whatever. A great many letters are on file in our office from grateful patients, telling of the quick and easy way in which Won-derful Dream Salve has removed all traces of this torturing skin affliction.

Mr. John T. Kealey, a well-known bus-iness man, located in the Stevens Bldg., Detroit, Mich., was recently cured of a bad case of Eczema of fourteen years' standing. After treating with many doctors and taking many remedies without relief, Mr. Kealey was induced to try Wonderful Dream Salve, and in four weeks was entirely cured. He says:

He says:

"I certainly consider this a remarkable cure, inasmuch as I have spent hundreds of dollars in the fourteen years of annoyance with this troublesome itching skin ailment. I have since the cure of my case heard of other cures, some of them even more remarkable than mine, which go toward demonstrating the value of Wonderful Dream Salve as a great skin healer."

If you have Eczema, why not try a box of Wonderful Dream Salve. If it fails, your druggist will refund your money. Isn't that fair enough? Keep it in your-

home for Chilblains, Chapped hands, Piles, Cuts, Burns, Frost-bites, Boils and Sores of any kind. You will never use anything else. 25c a box at your druggist or mailed pre-paid direct. Writefor Free Sample and Dream Book containing 300 Dreams and their meaning. 4

Monarch Malleable Range.

Nothing is nearer a good housekeeper's heart than a good range. We can tell you some things about good ranges because we are sole agents for the best

Monarch Malleable Ranges are an accumulation of new ideas, valable improvements in stove-construction on a scientific basis.

Malleable iron is used in those parts which in the ordinary range are made of cast iron. Cast iron is crystalized and is very susceptible to contraction and expansion caused by heat, often cracking at inopportune times. In the production of malleable iron the metal is subjected to 3600 degrees of heat and afterwards annealed so as to give it the quality of toughness. This toughness permits the use of rivets, making absolutely tight joints. There are no bolts or screws to work loose in a Monarch.

The tops being of the same material, will stand a tremendous amount of heat and hard usage without cracking. They are ground smooth and polished before leaving the factory and with use turn permanently steel-blue. To clean them use a damp cloth and no

The oven is made of the heaviest steelplate, securely riveted to the body of the stove. The seams are air-tight and dust-tight. The relative size of the flues surrounding it has been fixed upon only after exhaustive experiment. The result is an even heat on all sides of the oven and baking temperature with an ordinary cooking fire.

It can easily be proven that for every extra dollar spent in buying a Monarch Range, you will receive \$2.00 additional value in higher grade construction, economy of fuel, and perfect satisfaction

An examination will interest and cannot fail to convince you of the superiority of Monarch Ranges. They are reasonable in price.

Also have a complete line of Heaters for Wood, Soft Coal and Hard Coal,

EHLERS @ NIQUE SHABBONA, MICH.
