FARMERS, ATTENTION!! **Poultry Wanted**

The C. J. Roberts Poultry Co. will load a carload of Poultry at Cass City in November and again in December. Present outlook indicates better prices for November and December. If you have any poultry to sell please let us know about how many head you will have for our November car. This insures you a direct quotation and delivery date by mail. At the same time you are under no obligations, whatever, and do not bind yourself in any way to deliver your poultry to us.

Our object is to let our friends know we will positively load in November and again in December, and to try and get some idea of the number of cars we will need, as we intend to take every pound offered.

We assure you the same square deal we have always given you and would like to hear from you as early as

We have established a temporary headquarters at the Irwin House, Bad Axe, Mich., and certainly want to hear from all of our friends just as early as possible.

The Vassar fire department was called out about 1 o'clock Sunday morning by a fire in the rear of the plumbing shop of C. N. Brett. It was tions have been added to the high discovered by William Curry and in a very short time three lines were playing on the fire which had spread to the store of Fred Gohsman, who carries a line of groceries, the upper part of this store being occupied by S. Sturgis and his wife, they having moved into the rooms but two days before. With a full force fighting the flames, they were finally subdued, although for a time it looked as though the whole block would go, the store of C. N. Brett being a total wreck, stock and store fully covered by insurance.

The upper part of Gohsman's store as well as the rear of it is burned, entailing a big loss to the stock which was soaked by the immense amount of water put on the fire. The tailor shop of A. M. Gibson was damaged considerably by water and much of the stock is ruined. The Gohsman stock and the Gibson stock are all covered by insurance.

The worst loss comes to Mr. and Mrs. S. Sturgis, two old people, both past 80, who had just a few days ago sold their home and had moved into the rooms over the Gohsman store for the winter. Their savings were burned in the fire and now they are just in time to avoid being burned to death. No insurance was carried by Miss Skinner contemplates leaving Sturgis. A year ago he lost all his

Detecting Women Who Smuggle.

A fine appearing woman of middle age whose fascinating dark eyes have way of looking you all over at a single glance, a bright, dignified lady whom no one would suspect of being engaged in the detection of wrong-doing for a living-such is the description of Miss -, one of the women whom Uncle Sam employs to foil the smugglers at the port of Detroit. A good sized book might be written of the experiences of Miss ---, who by her special gifts and training, is considered one of the most valued servants of the custom house. Detroit is one of Uncle Sam's most important ports. The receipts for the past fiscal year on imports amounted to \$2,123,209.96; domestic exports \$37,399,290.00; foreign exports \$125,480.00.

Seventy-eight officials are on duty at this port empowered to do the work of this department and protect our national interests. In the somewhat primitive office at the foot of Woodward avenue, I asked Miss — to tell me something about her work but she politely referred me to another official. I learned from him and other sources that an inspectress must be a very keen observer. Since they attend only to the women who try to evade the payment of duty, it's necessary therefore that they be expert judges of feminine beauty, of the rightful proportions of the female form. The peculiar style of ternoon. the modern woman's dress gives excellent opportunity for the padding out of the waist or skirt with smuggled goods. Dutiable goods of large bulk are seldom smuggled, the risk of seizure being too great and the gain too small. But laces, diamonds, opium, gloves, buttons and other dainty articles are being constantly brought over from Canada by women passengers who are willing to cheat the government if they can. A hundred yards of expensive lace, for instance, could be easily wrapped around a woman's arm and never detected if the inspectors were not quick and accurate in the use of their eyes. "Many women seem to have the smuggling instinct," said my informant. "I do not say that nearly every woman attempts it, for that would Gleaner business. be too sweeping a statement. But the desire is there. Women who are honorable in every other transaction seem to regard this not as a criminal tained a number of friends at a barn act but rather as a clever dodge, the successful performance of which gives dance on Friday evening. them a sort of prestige among their associates to whom they confide their exploits." There is not near as much smuggling as there was formerly for the reason that the prices on goods in Canada are about the same as they are Mrs. Charles McLean. here.

Social Malaria.

I read the other day that some down-to-date preacher in New York said that the reason that so many people were non-church goers was that the present generation was more intellectual than the past. That's bosh. If I ter, Mrs. George Callow, of Pontiac. chose to take the time I could prove that there are just as many brainy men and women in the church as there are out of it. In fact, I know that some of our most intellectual people are in the church. The fault lies entirely in our social conditions. The question of pleasure has become absorbing. People live for pleasure and amusement. They exhaust every possible energy in the pursuit of pleasure. It is no longer a means to an end, but it is the end itself. Take Detroit for an example. When the Tigers won the pennant thousands in this city went mad. This is what the Detroit Journal said about it: "Detroit behaved badly last night. Hordes of half-grown hoodlums seized upon the popular good nature and the congestion of the streets and the troubles of the police to commit depredations and nuisances for which, on normal occasions, they would have gone quietly and properly to jaii. Intemperance, buffoonery and unpleasant excesses of various kinds, however, were not confined to the hoodlums. There were scenes in hotel corridors and buffets, in every saloon, on street corners, that did not be peak the good taste and good judgment of Detroit. If victory must be attended by bacchanalian celebrations and destruction of property, we'd better forego victory, professional baseball and a remunerative entertainment enterprise for a while. When a metropolis of 400,000 is given over into the hands of drunken roisterers merely because a professional baseball team has won it is evident that the popular imagination has been fired too generally for the public good."

Our social conditions are becoming more and more artificial. Simplicity of the good, old-fashioned sort is not to be found in the cod fish society of our day. If a family has been fortunate enough to make a few dollars and can dress better than their less fortunate neighbors, then Mrs. Better-Than-You tosses her head to one side and will not recognize you. Here is a family who were very poor. But finally things came their way and they felt the weight of their dollars to such an extent that the church which proved such a blessing in their poverty was abandoned because "it had no style," and the shouting of amen was "very old-fashioned and made them nervous." Pride always comes before the fall. Present day society has developed a malady which is unknown and I cannot find a term to express it better than social

Honor Your Father.

My boy! You love your mother and you take occasion to show your lov for her in ways that she well understands. But your father, my lad. You play given under the auspices of the love him, too, in a different sort of way. But do you honor him? And do Royal Neighbors last week, was such you show that you do?

Deep down below the crust, of course you honor your father. But not peated on Wednesday evening of this until you have a boy of your own will you know how much you hurt your week. father's heart when you treat lightly his advice or show by your manner that you think the "old man" is a kind of a back number.

Just so certainly as you live there will come a day when you will remember your ungrateful attitude toward your parent and be sorry for it. And then it will be too late. The keenest remorse you will ever know will be the memory of your ill treatment or lack of respect for your father. Father's ways may not be your mother's ways. Father has had to fight the world for your bread and butter and the world has taught him to conceal his feelings. He loves you just as much as mother does only he cannot show it. Under his vest he yearns for your filial smile. And when you do anything to be proud of nobody on earth is prouder of you than father. You may think father is not in every respect up-to-date; that he hasn't kept up with the procession a distinct shock to his many friends. and that sometimes he is unnecessarily firm and arbitrary. All that may be true. But the chances are father knows more about almost everything than a number of young lady friends on you do. When you are, say thirty years old, you will realize that fact. If Thursday evening in honor of Miss you live a long time in this world you will always be led to say that the safest Ethel Walker. Miss Walker sang sevadviser you ever had was your father. Honor him.

The Boy and His Home.

What to do with the boy during the long winter months is a question which bothers many parents. If a boy is to grow up with a strong attachment for his home his material environments requires one's care. The home must be made attractive no matter how plain it may be, and a good place to begin with is the boy's own room. It should be clean and neat and airy. His wishes should be heeded in the arrangement and decoration of the same. Mr. John T. Kcalcy, a well-known business man, located in the Stevens Bldg., Detroit, Mich., was recently cured of a bad spend many happy hours. Books and games may be provided at small expense though in the matter of both these sources of pleasure the boy needs the guidance of the parents. Some children do not care for books. They need to be taught the value of good books which will help much toward formation of Salve, and in four weeks was entirely cured. the reading habit. Among our boyhood memories which I still cherish is that of the "treat" which my mother used to give after some faithful service. She always had on hand some tempting edible and it was so much easier to reduce the size of the wood pile when I was sure that at the end of the job mother would distribute something good to eat. Parents too often make the mistake of regarding too lightly the various schemes that enter the neads of their boys. The following incident was told me recently. There ived in the same neighborhood two boys, both of good families. During a certain summer vacation one of them was seized with an ardent desire to build a boat. The father, instead of objecting, devised a way by which the boy might himself earn the materials for the proposed boat and in other ways encouraged him in carrying out his project. The other boy, after spending a few days watching his friend at work, expressed to his own father a wish to try his hand at the same thing. The man harshly refused the request of his boy. The first boy has become a successful business man; the second one has become a disgrace to his family. The story is valuable in that it shows how to deal with a boy. One should remember that a boy's straying begins when he is but seven or eight years old, when he first spends his evenings on the wf ne q of se q sec 25 Akron \$1600. street or around the corner grocery. This is the time when he should be made to feel that there is no place like home. Happy is the boy who is made

to feel that the best place to work and play is where father and mother live Last of all, avoid doing what a boy hates more than he hates a whipping, that is, nagging. If you have any commands to make do it in a way that will not cause him to lose respect for you and for himself, too. Whining will not accomplish much and it has done untold harm. Let your boy feel that home is what it should be, a place where peace reigns and love abounds.

She's no good." "Very likely she was consulting him

about something," said Righy quietly. "She soaked a friend of mine for a thousand when she was singing in the chorus in one of the theaters here."

"Do you know her well?" "I-er-did see something of her at one time. Say, don't mention it to Rosie, will you? She's not strong for chorus girls," said Eddie anxiously. "A few days ago I saw a woman come out of his office heavily veiled. She was crying, because I could hear the sobs. I don't go much on Bansemer, Mr. Rigby. Darn him, he called me a pup one day when I took a message up for Judge Smith."

"See here, Eddie," said Rigby, leaning forward suddenly, "I've heard two or three queer things about Bansemer. I want you to tell me all you hear from Droom and all that you see. Don't you think you could cultivate Droom's acquaintance a bit? Keep this very quiet-not a word to anybody. It may mean something in the end."

"Gee whiz!" murmured Eddie, his eyes wide with interest. From that day on he and Bobby Rigby were allies-even conspirators.

Later in the day Rigby had a telephone message from Graydon Bansemer suggesting that they lunch together. All he would say over the wire was that he would some day soon expect Rigby to perform a happy service for him. Bobby understood and was troubled. He suspected that Graydon had asked Jane Cable to marry him and that she had consented. He loved Graydon Bansemer, but for the first time in their acquaintance he found himself wondering if the son were not playing into the father's hands in this most desirable matrimonial venture. With a shudder of repugnance he put the thought from him, loyal to that good friend and comrade.

James Bansemer came into his office late that morning. He had not seen Graydon the night before, but at breakfast the young man announced his good fortune and asked for his blessing. To his son's surprise the elder man did not at once express his approval. For a long time he sat silent and preoccupied to all appearance, narrowly studying his son's face until the young man was constrained to laugh in his nervousness.

"You love her, you are very sure?" asked the father at last.

"Better than my life," cried Graydon warmly. "She has good blood in her," said

"She is too good for me," lamented Graydon happily.

"I can't very well contradict her future husband," said the lawyer. There was a hungry look in his eyes as he glanced from time to time at the face of the boy who had his mother's unforgettable eyes.

A messenger brought Mrs. Cable's note to Bansemer soon after his arrival at the office. He and Elias Broom were in the back office when the boy came. They had been discassing the contents of a letter that came in the early mail. The lawyer accepted the note and dismissed the boy with the curt remark that he would telephone an answer in person.

"It looks to me as though this is going to be a rather ticklish affair," Droom resumed after the boy had closed the outer door behind him. Bansemer's mind was on Mrs. Cable's note. A queer smile hung on his lips.

"I'm rather touched by her astuteness," he said. "She's cleverer than I thought. Oh," suddenly remembering that it was not Mrs. Cable's letter they were discussing, "you always see the dreary side of things, Elias!" "I haven't forgotten New York," said

the clerk dryly. "Ah, but Chicago isn't New York,

"That's what Mrs. Norwood promised to do also, Elias. But she was like a lamb in the end."

"I wouldn't be very proud of that affair if I were you."

"See here, Droom, you're getting a trifle too familiar of late. I don't like it," said Bansemer sharply.

"I beg your pardon, Mr. Bansemer," said Droom, scraping his foot across the floor and looking straight past his master's head. "It's for the good of the

"We shan't quarrel, Elias," he said. 'Speaking of Graydon, he is to be mar ried before long."

"I trust he is to do well, sir. Graydon is a fine boy."

"He is to marry David Cable's daugh-"Indeed! I did not know that David

Droom after a long pause. "Certainly! Jane is a splendid girl. She's beautiful, accomplished andwell, she's thoroughbred," said Bansemer steadily, turning to face the old

"It is not necessary to remind you that her parents are unknown," said Droom.

"Still," said Bansemer, and he sat down and leaned forward eagerly, "she has good blood from both sides.' "Yes—the so called best."

"You speak as if you know the truth."

"I think-yes, I'm sure I know. I have known for twenty years, Mr. Bansemer. I had the same means as you of finding out whose child she

"There are portraits of her ancestors hanging in Fifth avenue," said Droom promptly. "Here," and he picked up a able task from day to day: "He'll kick parents. You do the same, and we'll see that they tally." He quickly scratched four letters on a pad of pa-Bansemer hesitated and then slowly wrote the initials on the back of an envelope. Bansemer turned on him like a tiger, his steely eyes blazing.

"Game? There is no game. Listen to me, Droom. We'll settle this now. I'm a bad man, but I've tried to be a good father. People have called me heartless. So be it. But I love that boy of mine. What little heart I have belongs to him. There can be no game where he is concerned. Some day perhaps he'll find out the kind of a man I've been to others, but can always remember that I was fair and honest with him. He'll despise my methods. and he'll spurn my money, but he'll have to love me. Jane Cable is not the girl I would have chosen for him, but she is good and true, and he loves her."

For the first time in his life Elias Droom shrank beneath the eyes of his master. He hated James Bansemer from the bottom of his wretched soul, but he could not but feel at this moment a touch of admiration.

They heard some one at the outer door at that moment, and Droom glided forth from the inner room to greet the visitor. It was Eddie Deever. "Say, Mr. Droom, do you suppose

Mr. Bansemer would object if I sat down for a few minutes to look over his books on 'Famous Crimes In History?' Old Smith hasn't got 'em.'

"Go ahead," said Droom, taking his seat at the desk.

CHAPTER XI.

EVERAL weeks later Eddie Deever announced quite breathlessly to Rigby that he was going to visit Droom in his Wells street rooms. The two

Rigby was now morally certain that James Bansemer was all that Harbert and painted. To his surprise, however, the man was not openly suspected by other members of the bar. He had peen accepted as a man of power and ability. Certainly he was too clever to expose himself and too wary to eave peepholes for others engaged in that business. Rigby was debating the wisdom of going to Bansemer with his accusations and the secret advice to leave the city before anything happened that might throw shame upon Graydon. The courage to do the thing alone was lacking. Graydon was full of his happiness.

He had asked Rigby to act as his 'best man" in September, and Bobby had promised. On occasions when the two young men discussed the coming event with Jane and Miss Clegg, Rigby's preoccupied air was strangely in contrast with the animation of the others. Graydon accused his liver Far from that, the old quarterback was gradually preparing himself to go to James Bansemer. To himself he was saying as he put off the disagree-"I'll write the initials of her me out of the office, and that's all the reward I'll get for my pains. Graydon will hate me in the end."

James Bansemer had proposed a trip to Europe as a wedding journey, a present from himself, but Graydon declined. He would not take an extensive leave of absence from the office of Clegg, Groll & Davidson at this stage of his career. The morning after his visit to the

abode of Elias Droom, Eddie Deever Fifth avenue would be amazed if they strolled into the office of Bobby Rigby. knew the story of Jane," said Droom, He looked as though he had spent a sleepless night. "Gee, you're getting touchy of late. I'll move the letters.'

"No, you won't," she objected. "Besides, it doesn't look well. What if some one should come in suddenly?" "Well, it wouldn't be the first time I got out suddenly, would it?" He re-

At that instant Rigby came in. Without a word Eddie popped up, a bit red in the face, and followed the lawyer into the private room, closing the door behind him. Rosie's ears went very pink, and she pounded the keys so viciously that the machine trembled on the verge of collapse.

"Gee, Mr. Rigby, that old Droom's a

"Never fear. I'm going there for holy terror. He kept me there till after soon some night. He's got an awful joint. But that isn't what I wanted to see you about. I ran across May Rosabel, that chorus girl I was telling you about. Saw her downtown in a restaurant at 1 this morning. She wanted to buy the drinks and said she had more money than a rabbit. There was a gang with her. I got her to one side, and she said an uncle had just died and left her a fortune. She wouldn't say how much, but it must have been quite a bunch. I know all of her uncles. She's got three. They work out at Pullman, Mr. Rigby, and they couldn't leave 30 cents between them if they all died at once."

After hearing this Rigby decided to confront Bansemer at once. It did not occur to him until later that the easiest and most effective way to drive Bansemer from Chicago without scandal was through Elias Droom. When the thought came to him, however, he rejoiced. The new plan was to sow the seeds of apprehension with Droom. Bansemer would not be long in reaping their harvest—of dismay. Ten apparently innocent words from Eddie Deever would open Droom's eyes to the dangers ahead.

Young Mr. Deever met with harsh disappointment when he came forth to renew his conversation with Rosie Keating. She was chatting at the telephone, her face wreathed in smiles.

"Thank you," she was saying: "it will be so nice. I was afraid I had an engagement for tomorrow night, but I haven't. Everybody says it's a perfectly levely play. I'm crazy to see it. What? About 7:30. It takes nearly half an hour down on the Clark street cable. Slowest old thing ever. All right. Goodby." Then she hung up the receiver and turned upon Eddie, who stood aghast near the desk. "Oh, I thought you'd gone."

"Say, what was that you were saying over the phone? Didn't I ask vou''—

"I'm going to the theater with Mr. Kempshall. Why?" "Why? Why, you know I asked

you to"-"You didn't specify, Eddie, that's all. I'll go some other night with you. Clackety clack went the Goodby.'' machine, throwing insult into his very face, as it were. He tramped out of

the office in high dudgeon. "Confound this detective business anyhow." he might have been heard to remark. Three nights later, however, he took Rosie to the play, and on the fourth night he was Droom's guest again in the rooms across the river. He was well prepared to begin the campaign of insinuation which was to affect Bansemer in the end. Sitting stiff and uncomfortable in the dingy living room overlooking Wells street, he watched with awe the master of the place at work on the finishing touches of a new "invention," the uses of which he did not offer to explain.

He was without a coat, and his shirt sleeves were rolled far above the elbows, displaying long, sinewy arms, hairy and not unlike those of the orang outang Eddie had seen in Lincoln park.

"I've got a new way of inflicting the death penalty," the gaunt old man said, slipping into a heavy, quilted dressing gown. "These rascals don't mind hanging or the penitentiary. But

He was without a coat, and his shirt steeves were rolled far above the elbows. if they thought their bodies would be everlastingly destroyed by quicklime they'd hesitate before killing their fellow men."

"But they already bury them in quicklime in England," said Eddie oftily.

"Yes, but not until after they're dead," said Droom, with a cackle. He grinned broadly at the sight of the vouth's horror struck face. "Go ahead and smoke, my boy. I'll light my pipe. Make yourself at home. I keep the window closed to keep out the sound of those Wells street cars. It's good of you to come over here and cheer up an old man's evenings. I'm-I'm not used to it," he said, with a wistful touch which was lost to Eddie.

"You ought to have a wife and a lot of children, Mr. Droom," said Eddie, with characteristic thoughtlessness. Droom stirred the fire and scowled. 'Were you ever married?"

"No. I don't believe in marriage," said Droom sullenly. "I saw the girl

today that young Graydon Bansemer is to marry-Miss Cable." "Say, she's swell, isn't she?" said

Eddie. The old man slunk into his hair. "She's very pretty. Mr. Graydon in-

roduced me to her."

"Gee!" was all Eddie could say. "They were crossing Wells street down below here on the way home from a nickel plater's in Indiana street. I saw her years ago, but she didn't re-

member me. I didn't expect it. how-

ever." "I-how could she have forgotten you?"

"Oh, she'd have forgotten her mother at that age. She was but three months old. I don't think she liked me today. I'm not what you call a ladies' man," grinned Elias, puffing at his pipe as he picked up the volumes on Napoleon. Eddie laughed politely but uncomfortably.

"How old are you, Mr. Droom?" "I'm as old as Methuselah."

"Aw, go way!" "When he was a boy," laughed Elias, enjoying his quip immensely. "Miss Cable seems to be very fond of Graydon. That will last for a couple of years, and then she'll probably be like two-thirds of the rest of 'em. Other men will be paying attention to her and she looking for admiration everywhere. You'd be surprised to know how much of that is going on in Chi cago. Women can't seem to be satis fied with one husband. They must have another one or two-usually some body else's.'

"You talk like a society man, Mr. Droom."

"Well, I've met a few society menprofessionally. And women, too, for that matter. Look out for a sensa tional divorce case within the next few weeks. It's bound to come unless things change a good deal. Terribly nasty affair."

"Is Mr. Bansemer interested?" asked Eddie, holding tight to his chair.

"Oh, no. We don't go in for that sort of thing."

"I wonder if Mr. Bansemer knows

about the mistake that came near happening to him a week or two ago. I got hold of it through a boy that works in the United States marshal's office,' said Eddie, cold as ice now that he was making the test. Droom turned upon him quickly. "What mistake? What do you mean?"

"It would have been a rich joke on Mr. Bansemer. Seems that some lawyer is likely to be charged with blackmail, and they got Mr. Bansemer's name mixed up in it some way. Of course nothing came of it, but-I just wondered if anybody had told him of the close call he'd had."

Droom stared straight beyond the young liar and was silent for a full minute. Then he deliberately opened the book on his knee and began to turn the pages. "That would have been a joke on Mr

Bansemer." he said indifferently. "I don't think he would have enjoyed it, do you?" "No one enjoys jokes from the Unit-

ed States marshal's office," said Droom grimly. "By the way, who is the lawyer that really was wanted?" "I never heard. I believe it was dropped. The young fellow I know said he couldn't talk about it, so I

didn't ask. Say, who was that swell

woman I saw coming out of your office this afternoon? I was up at Mr. Hornbrook's.' Droom hesitated a moment. He seemed to be carefully weighing everything

he said. "I suspect it was young Bansemer's future mother-in-law," he said. "Mrs. David Cable was there this afternoon

about 3.' "Gee!" laughed Eddie. "Does she need a lawyer?" "Mr. Bansemer transacted business for her some time ago. A very small matter, if I remember correctly. Here, listen to this. Now, here's a little incident I found this evening that interests me immensely. It proves to my mind

one of two points I hold in regard to

Marshal Ney. Listen." And he read at

monotone that grated on the ear until it became almost unendurable. The little clock on the mantelpiece clanged 10 before they laid aside Napoleon and began to talk about something that interested Eddie Deever far more than all else-Elias Droom himself and such of his experiences as he cared to relate. The old man told stories about the dark sides of New York life, tales of murder, thievery, rascality high and low, and he told them with bloodcurdling directnessthe Walker wife murder, the inside facts of the De Pugh divorce scandal, the Harvey family's skeleton-all food for the dime novel producer. Eddie reveled in these recitals even while he shuddered at the way in which the old

man gave them. "Ah, this is a wicked old world!" said Droom, refilling his pipe and showing his teeth as he puffed. "That's why I have those pictures of the Madonna on the wall-to keep me from forgetting that there are beautiful things in the world in spite of its ugliness and hypocrisy. I haven't

He stopped short and listened intently. The sounds of footstens on the stairs outside came to his ears. They clumped upward, paused for a moment down the little hall and then approached Droom's doorway. Host and guest looked at the clock instinctively. Eddie heard Droom's breath as it came faster between puffs at his pipe. Then there was a resounding rap at the panel of the door. Eddie Deever never forgot the look that swept over the old man's face-the look of wonder, dread, desperation. It passed in an instant, and he arose unsteadily, undecidedly, to admit the late caller. His long frame seemed to shake like a reed as he stood cautiously inside the bolted door and called

"Who's there?"

"Messenger," was the muffled response. Droom hesitated a moment, looking first at Eddie and then toward the window. Slowly he unbolted the door. A small A. D. T. boy stood beyond.

"What is it?" almost gasped Elias Droom, quickly drawing the boy into the room.

"Mr. Droom? No answer, sir. Sign here." The boy, snow covered, drew a letter from his pocket and handed it to Droom.

"Where from?" demanded the old clerk, the paper rattling in his thin.

"I don't know. I'm from Chicago ivenue," said the boy, with proper impudence. He took one look at Droom's face as the man handed the slip back to him and then hurried downstairs, far less impudent at heart than he had

New Rustless Iron. The American public will soon have

a chance to test upon a proper scale the new English process for making iron and steel "rust proof." Consul Halstead writes from Birmingham that an American firm will place steel and iron manufactures which have been 'sheradized" by the new process upon the market here. He adds: It is claimed for this process that it

coats from and steel with zinc as well as or better than ordinary wet galvanizing and that the iron and steel thus coated can be brilliantly polished. In the process zinc dust is placed in a cylinder which has been brought to a temperature below the melting point of zinc. The articles it is desired to "sheradize" are put into the cylinder, which is then revolved. The zinc in this process is not actually meded, but forms an alloy through the surface of the articles absorbing the zinc, and then a coating covering the whole visible sufface is deposited to any desirable thickness. It had been found that the use of the

wet galvanizing process upon articles on which threads are cut made it necessary afterward to recut the threads. This, it is claimed, is obviated in the new process. thus avoiding both the additional work of recutting the threads and, also, making the threads themselves rust proof. Another advantage claimed is that because articles are not heated to a high temperature the temper of the steel is little affected, while its tensile strength and that of iron remains the same. The owners of the process assert that it will obviate the necessity of using brass in the manufacture of many articles that may rust. Aluminium and antimony can be

substituted, it is said, for zinc with success, while when copper and its alloys are subjected to this process their surface is so hardened as to even turn the edge of a steel tool. A cheap and length from his book, a dry sepulchral | widely serviceable rustless metal will be welcomed in nearly every branch of American industry.

> The fish caught in Newfoundland by Newfoundland vessels are "barred from their natural market in this country by a 25 per cent tariff, while fish caught by natives and sold to American vessels or caught by natives in their hire enter our ports duty free. What Newfoundland would like would be to trade the freedom of its waters for the freedom of our ports." And that would be best for all interests. It is well, however, that the old grievance is to be sent to The Hague.

> Although the Spanish police declare that they have captured the men who have engineered the old "prisoner with a hidden fortune" swindle, it is safe to predict that in the years to come more than one Yankee will be caught by the often exposed bait.

Skating On Thin Ice.

Scores of Skaters Meet Their Death Every Winter Through Disregard of the "Danger" Sign.

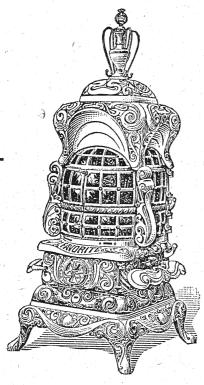

While thin ice in spots marked "Danger" brings death to scores of overbold and reckless skaters, disregard to the warnings given by Nature kills off thousands who neglect their bronchitis or asthma, sore throat, coughs or colds.

The congested air-passages with the irritation produced by incessant coughing are the best breeding-places for the deadly germs of pneumonia and consumption. Mortality arising from these terrible diseases is on the increase, and yet they can be arrested in their early stages.

Abbey Syrup, Cloister Sancto Paulo, has established a marvelous record in Europe for the cure of all bronchial and lung affections.

Try a bottle today, it will convince you. You simply cannot afford to be without it. Saves doctors' bills, sickness and misery.

Refugees From Burning Village Attempt to Escape on Special Train, Which Was Derailed In Midst of Fires-Others Die In Their Burning Homes

Alpena, Mich., Oct. 20.—The horror which the hundreds who were confronted by terrific forest fires raging around and about here endured, with all chances of escape for them apparently cut off, cannot be described.

A Detroit & Mackinac relief train met with a terrible fate. It had on board some eighty passengers in box cars, bound for any place where they could safely land their

The train consisted of three empty freight cars and two coal gondolas. It was made up and rushed to Metz in charge of John E. Kinville, conductor; William Foster, engineer; Arthur Lee, fireman, and William Barrett, brakemar.

When the train arrived at Metz, all were invited to get on board, and men, women and children soon filled the cars. The train at once started south. Near Koniecazy crossing, two miles from Metz, the engineer saw great piles of blazing cedar ties on both sides of the track. Opening the throttle, he tried to dash through at full speed. When about half way, the ty, is dead of heart failure, aged rails, which had become loosened by the heat, spread, and the locomotive happy married life of fifty-nine years. and the five cars left the track. The cars at once caught fire from the blazing ties.

A relief train which went from Alpena to the scene of the holocaust has returned with the remains of Arthur Lee and Will Barrett of the train crew, John Nowicki and George Cicere, wife and three children. The bodies of the other victims were taken to Posen.

When the relief train reached Kon iecazy crossing, the black ruins of the freight cars were the only things in sight. In the cars were the bodies of the victims, with their household goods. All that remained of William Barrett, the brakeman, was gathered up on two spades.

Reports from stations along the D. & M. indicate that the hamlet of Case has been burned and that a good part of Le Grand is, in ruins. No loss of life is reported. La Rocque was saved by a shift of wind, which bore the flames to one side of the village. All points are now reported out of danger. North of Metz more than half the farms in Belknap township are

ruined. It is believed that unknown fatalities have occurred deep in the woods on farms and in the camps. Many friendless and almost unknown laborers in the camps may have perished. and their names may never be known. The death list resulting from the

fires is placed at thirty-five Governor Warner has issued the fol-

lowing appeal: "To the People of Michigan:

"The destructive forest fires which have raged over the northern part of the state during the past week, and which have been attended with such fearful loss of life and property, have already rendered about 500 of our people homeless and dependent upon inimediate public charity.

"The men, women and children who have narrowly escaped death are shelterless and destitute. Food, clothes, bedding, furniture, money and building materials and forage for animals should be donated at once, to the end that the suffering of these unfortunate people may be lessened, and that none may perish from hunger or exposure. I therefore urge upon the charitable people of this great state. so bountifully blessed with comfort and wealth, to immediately come to the relief of these stricken people.

Governor Warner visited this section Monday.

"I am surprised at the appalling amount of damage done," he said. "I had no idea that the fires were so fierce or extensive.

"There will be no special session of the legislature. That is unnecessary. fifteen years in Jackson for burglary. The people of Michigan are capable of taking care of the sufferers until from Jackson to Ionia. the regular session."

Detroit, Mich., Oct. 21.--All Detroit is rallying to the aid of the sufferers in the fire-swept territory. Nearly \$10,000 in cash contributions has been turned in to the city relief committee and the Red Cross society. Besides this, thousands of dollars' worth of clothing have been received.

Saved by Bed Tick.

Sault Ste. Marie, Mich., Oct. 20.-Clyde Seaman seventeen years old, was drowned off Nine Mile point in Hay lake at night when the launch in which he and three others were riding was run down by the steamer John A. Donaldson. In the launch with the day. boy were his parents, Mr. and Mrs. Seaman, and James Burns. The boy was placed on watch in the stern of the boat, but went to sleep and did not see the freighter as it approached. In the launch was a large bed tick, and when they were so suddenly precipitated into the water, the two men placed Mrs. Seaman upon it. They were later picked up by a passing steamer.

Major Alonzo Keeler Is Dead.

Richmond, Mich., Oct. 21.-Major Alonzo M. Keeler, familiarly known as the "Grand Old Man" of Macomb couneighty-two years. His death breaks a Major Keeler had been prominent in religious, educational and fraternal circles of the county for more than sixty-seven years. He organized a company at the outbreak of the civil war, bringing back sixty-eight of the original 101 who accompanied him. At the battle of Chickamauga he was acting major, and the command fell upon him. He was afterward double breveted colonel and lieutenant colonel.

Father and Son Drown,

Detroit, Mich., Oct. 19.—Gottlieb the Detroit Gas company, and his son, Raymond, eight years old, both lost their lives when the small skiff in which they were bringing home a load of firewood filled with water from a passing freighter and capsized near the foot of the Grace Harbor Lumber company's slip. The father, known from one end of the river front to the other as an expert swimmer, heroically went to his death trying vainly to save his son. Both bodies were

Fires Drive Out Bears.

Bay City, Mich., Oct. 19.—Bears, driven from their winter quarters by forest fires, are appearing in great north of here, and their number upsets the idea that the bear was nearly extinct. In Mills township, Midland county, less than fifty miles from Bay City, R. D. Gotham and Henry Hoff. while walking along the road bordering their farms, ran into a drove of twelve bears. They killed three, the others fleeing,

Karle was sweeping the floor near the machine, when the pickers of the carding machine caught the leg of his overalls and drew him into the machine, killing him in a moment.

Four Scalded to Death.

Chief Engineer John Petersen and three assistants were cooked to death on board the steam barge Maggie Marshall from Manistee, in the middle of Lake Michigan, off Kenosha, Wis., when one of the steam pipes in the engine room burst. Escaping steam killed the men at their posts. Three members of the crew reached Kenosha after swimming a mile in the teeth of a north wind

The steamer was making its last trip of the season, and the crew of thirteen was making merry when the steam pipe burst, dealing out death to the four members of the crew who were below.

The main valve of the engine was blown into the stairway, and the men on the upper part of the steamer closed the hatches. The steamer then anchored, started the bells and put up a flag of distress. As no assistance came, three sailors volunteered to attempt to reach shore. The sea was high, and when within a mile from shore their boat capsized, and the men were compelled to swim the rest of the distance.

Brought to Life.

The timely intervention of a physician at Ellis, Kas., who was not satisfied with the appearance of the body, prevented the burial alive of Mrs. Thomas Chapman, sixty years old, who was supposed to have died suddenly of heart disease on Saturday. The body was prepared for burial, but was not embalmed. A few minutes before the coffin was sealed, a physician required permission to see the body. After confirming his suspicions that the woman's body was made rigid by suspended animation, the woman was removed from the coffin, placed in bed and revived. While her heart is weak, it is believed that Mrs. Chapman will recover.

Three Burned to Death.

In New York city, three persons were burned to death, and the lives of 100 tenants of a six-story tenement on East Third street were imperiled in a fire that broke out in the building early in the day. A SACRIFICE TO CUPID

By GUY BOOTHBY ŏ\$\$\$\$\$\$\$\$\$\$\$\$\$\$

I have often wondered how it is that Fate, usually so tolerant, ever permits itself to create such absurd beings as millionaires. To my sorrow be it said I happen to be one myself and I can assure you at the present moment I am far from being proud of the fact. We made our money, out of candles - Briggs' Patent-Long-Burning-Candle. We began life in a small shop in what was then aristocratic Bloomsbury, and died worth a quarter of a million. My father invested his inheritance with the same acumen which had distinguished his sire and in due course left me, his only child, what is called, in city parlance, "a cool couple of millions," and the double-barreled hyphened cognomen of

It was at a musical at home that I first made the acquaintance of Miss Muriel Beverley. I am prepared to confess that I fell in love with her at first sight. Nothing sweeter could possibly be imagined than she looked in her white frock and big picture hat. Her father I had met repeatedly at a club of which we were both members.

Adolphus Leicester-Briggs, which is

perhaps worse than all the rest put

It may, or may not, surprise you to hear that three months later I was engaged to Miss Muriel. Goodness only knows I had never been so happy in my life before. There never was a sweeter or more lovable girl, and I worshiped the very ground she walked upon. Everybody appeared, and I say it advisedly, to be delighted with the match, her father in particular. She was one of the acknowledged beauties of the year—while I well I was Briggs' Patent-Long-Burning Candle, and a millionaire.

How Muriel felt about it I know only oo well now-but at the time I lived in a fool's paradise.

Her father was not burdened with wealth-to put it bluntly he was as poor as the proverbial church mouse. As a matter of fact I have reason to know that he lived up to every cent of his income, and it was therefore only fit and proper that he should desire to see his daughter well settled in life. It was not long after that I was

invited to a house party by Muriel's father where I met Capt. Gainsbor ough, a young army officer.

Gainsborough, by the way, was emarkably handsome young fellow

but without a penny to bless himself. I might mention here that my age is 42-that I am short and stout and inclined to baldness.

It was only a few evenings later that Gainsborough came to me and told me he had an urgent call and was obliged to leave immediately. I well

knew the cause of his departure. The problem I was called upon to solve was a difficult one, and I did not quite see how I was going to do it.

Next morning I was a trifle late for breakfast. Mrs. Beverley never made her appearance at that meal, her daughter officiating in her stead. On this occasion Muriel looked as if she had passed a sleepless night. Her Briggs' Patent-Long-Burning-Candleseyes were red and swollen, and her conversation was not as fluent as usual. Her father also struck me as part of it in which they burn to a conbeing somewhat quieter than usual. Capt. Gainsborough was not to be salubrious atmosphere of the Argenseen.

Unfortunately, however, I was not things. in the humor to enjoy it. I had passed the statue of Apollo and was about to descend the steps to the path below when a sound reached my ears which made me pause. As a rule I am not given to a display of sentiment, but I believe on this occasion I permitted myself to indulge in the luxury. In something less than five minutes I knew everything, and a pitiful tale it was.

Over my brief, but important interview with the father half an hour later I will, with your permission, draw a

"Confound it, Briggs," he growled.. You're as bad as that fellow Gainsborough. I ask you to stay, and two or three days later you bolt off declaring that you have important business, It isn't very complimentary to my hospitality."

I gave him my most positive assurance that the business which necessitated my sudden departure was of such a nature that it would admit of no delay; but that I hoped to come back again as soon as it was completed. Somewhat mollified he permitted me to depart, and an hour later I was on my way to town on one of the most curious errands I fancy it has ever fallen to the lot of a lovelorn man to execute.

Having arrived in the city I hailed a cab and drove to a certain club where I expected to find the man I wanted. My lucky, or unlucky, star as you may please to call it, was in the ascendant, for he had just arrived. That he was surprised to see me admitted of no doubt. "What on earth has brought you to

town?" he cried, throwing down the paper he had been pretending to read. "I have come to see you," I replied. "I want to have a little conversation with you.' "Not about Muriel," he answered. There is nothing to be gained by it

and it can only mean pain for both of "Wait till you have heard what I have to say to you. I presume thereis not doubt as to the stability of your

affection for Miss Beverley?" "Look here, Briggs, I can't tell what you are driving at, but don't you think it's a trifle hard on a man to hit him. when he's down? I have loved that girl ever since I was a boy, and I shall continue to do so till the end of my life. If I had been rich, I might have been able to marry her; but as: I am only a poor fellow with no pros-

"She marries me? Yes. I see the position exactly. Well, as it happens, I had a talk with the young lady this morning. If I were a vain man I should not have been flattered by what she said to me—but as I am only an ordinary commonplace individual I put my pride in my pocket and come to you. Is it true that you are clearing out of the country?"

"Quite true," he answered. "I engaged my ticket three days ago." "And what do you propose doing now?" I asked. "I shall try my luck somewhere

"Very good. In the meantime, however, you will marry Miss Beverley." I heard him gasp and he turned un-

deniably pale. "What do you mean?" he asked in a husky voice. "Is this one of your

jokes? "No," I replied, "but you may call it so, if it gives you any satisfaction."

"Well, if it is, it is one that I am unable to appreciate. I am not very keen on that sort of humor myself. Even if she were not engaged to you, how could I marry her? You know as well as I do that I am as near poverty: as a man can well be and manage to kep his head above water. Besides. knowing how fond you are of her, is it likely you would give her up to

"My dear Gainsborough, when a young lady tells me to my face that her affections are bestowed elsewhere and that she is only marrying me for the sake of her family, I should be less than human, if I were to accept such a sacrifice at her hands. Therefore with the best grace I can muster, I yield to circumstances and resign her to the more favored suitor."

"My goodness, Briggs, you are a man!-but it is impossible for me to accept."

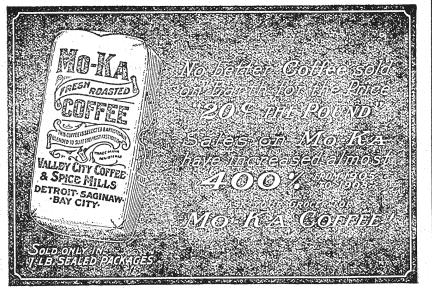

"In which case you will break her heart. The poor child loves you."

"But I tell you I have no money." "Well, I have a proposition to make you. You have doubtless heard that according to the advertisements-illumine the world. HOUSE OF POET HAS BEEN TURNED INTO MUSEUM.

Formally Dedicated as a Memorial by Prominent Men-Place Restored to Appearance of His Boyhood Days.

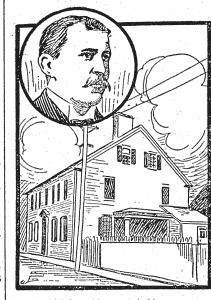

Portsmouth, N. H.-An event of un isual importance to people of the literary world as well as to others was the dedication and formal opening of the Thomas Bailey Aldrich Memorial museum in this city, recently. The exercises were held in Music hall and a large number of prominent people from New York, Philadelphia, Baltimore, Boston and other places were present. Prominent among those who took part in the exercises were Gov. Guild, of Massachusetts; Hamilton Wright Mabie, Richard Watson Gilder, Samuel L. Clemens and Thomas Nelson Page.

On the conclusion of the exercises the guests from other cities visited the Nutter house on Court street, in which "The Story of the Bad Boy" is laid.

The old house on Court street in which Mr. Aldrich passed his boyhood days has been fitted up in a way to perpetuate his name, down to the smallest furnishings.

The house belonged to Mr. Aldrich's grandfather. Thomas Darling Bailey. It is a two-story and a half frame structure, the main entrance from Court street leading into a broad hallway, which passes completely through the building to the large garden in the rear. On the big front door is an ancient door plate, bearing the name of T. D. Bailey, as well as the big brass knocker which did service when Mr. Bailey was alive and Eunice Wentworth visited her Mr. Aldrich was a little boy. On the right of the main entrance is the room that is known as "Grandfather Nutter's sitting-room," which contains chairs and tables of that period, including a center table of rare mahog any with brass claw feet.

A closet in this room contains a fine display of the best pink china,

which was used by the household Township, described as follows: when they entertained. Facing the closet, on the opposite wall, is an oil- S w ¼ of section 24; and n ½ of painted portrait of little Tom Bailey Aldrich, dressed in a continental uni- n w 1/4 of Section 25. form that he wore in 1846 when he commanded the Portsmouth Continentals, a boy's company of 25, for which his mother made all of the uniforms worn by the lads.

The main hallway is furnished after the custom of old times. The kitchen is situated in the rear of well on each place. Will be sold Grandfather Nutter's sitting-room, and with its open fireplace cranes, separately or together. pots, kettles, hand bellows and other utensils in vogue a hundred years ago, carries the visitor's thoughts back to that period. The old blue Ridgeway crockery dinner set, which has been in the Bailey-Aldrich family for a period of 150 years, occupies a conspicuous place on the wooden shelves.

Miss Abigail's bedroom is directly over the kitchen. In one corner is a large high top canopied bed. In another is a small work table with Miss Abigail's work basket, also a silver sewing bird screwed to the table. On the opposite side of the upper hall is Mrs. Aldrich's room, with a high posted bedstead and dimity draperies, and all other fittings that belonged to the old period.

Over the front hallway is a small room which was occupied by little Tom Bailey Aldrich, and here can be seen the bed on which he slept which is complete in all of its details, even to the patchwork quilt. On the wall at the head of the bed is a small bookshelf containing books of that period that were the property of Mr Aldrich when he was a youth. The same high backed chair stands be side the bed, and on its back is hung the little continental coat that Mr Aldrich wore so proudly when he commanded his company over 60 years

So complete has the idea been carried out of having the interior of the house present the same appearance, room for room, as described by Mr. Aldrich, that even the garret has not been overlooked. It was a favorite resort for Mr. Aldrich and his boy associates. Here can be found all of the castoff articles on which Mr. Aldrich dwelt at length in his interesting story. At one end can be seen the old scenery and the green curtain which figured so prominently when he and his associates gave a show, for which it if I had to mortgage the farm to get the admission was a pin, and Kitty it."
