WEDDING BELLS

Miss Ida Beach Became the Bride of Elmer P. Butler.

On Wednesday afternoon, August 18, at the home of the bride's parents, Mr. and Mrs. Chas. Beach, one mile south of Gagetown, occurred the mar-

riage of their youngest daughter, Ida, to Elmer P. Butler.

As the beautiful strains of the wedding march rendered by Miss Fisher of Caro, floated through the rooms the couple unattended took their places in front of a bank of ferns. Overhead was a beautifully constructed bell of daisies. Rev. Corkery, pastor of the Baptist church at Caro, spoke the words which united the two hearts for the remainder of life's journey.

The bride was charmingly attired in a gown of white swiss and the groom wore the usual conventional black. The house decorations were in green and white.

Immediately after the ceremony, an elaborate luncheon was served, covers being laid for 30 guests. Mr. and Mrs. Butler left on the afternoon train for a two weeks' trip. They will visit in Cleveland, Thompson and Ashtabula, Ohio.

The love and esteem in which this worthy couple is held was shown by the numerous and beautiful presents. The many friends of the bride and groom wish them a long, pleasant and prosperous life.

Mr. and Mrs. C. L. Robinson of Cass City were among the guests. Mr. Butler is a brother of the latter.

EXCELLENT LINE OF ATTRACTIONS

Has Been Engaged for the Cass City Fair.

Good Outlook for a Nice Showing of Live Stock and Other Exhibits.

The outlook for abundant crops, the prosperity of the farmer and the good feeling which exists between the fair association and the man who tills the soil bespeaks for the Cass City Fair excellent exhibits this fall, while the erection of the new exhibit hall and

ROUNDS' LADIES ORCHESTRA.

the repairing and alterations which will be made to other buildings will make the displaying and arranging of exhibits much more convenient for exhibitor and visitor.

Next to a fine showing of live stock, agricultural products and other exhibits, nothing interests old and young more than the special attractions. President Corkins and Secretary Campbell are of the opinion that the line they have engaged is an excellent one.

Paloro Bros. are the men who do an amusement trick which is declared to be one of the funniest on the road. It is called "Fun at the Mill" and consists of acrobatic stunts through a wind mill propelled by power machinery.

Balloon ascensions interest more people than any other attraction and the society has secured Burton Ely to give ascensions each day of the fair. These will be double ascensions and the torpedo drop of the parachute in which this apparatus drops 3,000 to 4,000 feet before unfolding adds still more excitement and interest to the event.

Rounds' Ladies Orchestra will furnish music at the fair. In the morning, band instruments will be used and the organization will favor the

FARMERS' PICNIC.

At the solicitation of several of his neighbors, D. C. Cole has decided to hold a farmers' picnic in his grove in Novesta township on Wednesday, Aug. 25. Three ball games are scheduled on the day's program, the Ellington, Deford and River teams participating. The grove is situated on the first farm north of the Quick school-house, well known as the N. Hamilton farm. Farmers are cordially invited to be present and bring their lunch baskets. Mr. Cole suggests that an extra bit be placed in the baskets for the members of the base ball teams, who have the reputation of possessing hearty appetites.

BIG CROWD AT FARMERS' FESTIVAL

Everyone Was Happy and Went Home Satisfied,

Good Ball Games and Races and Plenty of Amusement For All.

"One of the best and cleanest celebrations Cass City ever had" is the expression of everyone when you ask about the success of the farmers' harvest festival on Wednesday. The performances at the electric theatre, the merry-go-round rides and dance, combined with the caledonian and base ball games and horse races—all of which were free—contributed a program which provided amusement for the entire day and left an impression with the people that the festival was an occasion for entertainment and amusement and not a money-making venture. The absence of rowdiness and the fair was noticeable. Everyone seemed satisfied and so well pleased are the citizens over the occasion that there is no doubt that there will be similar celebrations in future years.

Much interest was taken in the caledonian games while the merry-go-round and the electric show amused large crowds all day. In the afternoon, the ball games and horse races brought as large a crowd to town as is seen on the day when the fair draws the largest number of people.

Kingston lost to Elkton in the first game at a score of 6 to 1. Cass City played Elkton and won the second game by a 4 to 2 score. Both games were well played and interesting.

The horse races were real ones and the drivers were in to win. J. D. Brooker carried off first money, C. F. Knowles took second and N. Karr third in the free-for-all. In the farmers' running race, Mr. Quinn won first and Pat Hennesey second.

The winners in the caledonian games are here given: 100 yard dash—McComb, McGeorge. Ladies' ball throw—Mrs. Eugene Maxwell, Mrs. Hock.

Potato race—McGeorge, Auten. Wheelbarrow race—McComb, McGeorge.

Running broad jump—Koeptgen, McComb. Running hop, step and jump—Koeptgen, McComb.

Three-legged race—Ward and Dorus Benkelman, Schwarzer and Auten. Tug of war—Smith's team.

NOTES.

The officers and the entertainment committee under the leadership of A. J. Knapp provided plenty of amusement and there was something doing all the time.

J. B. Cootes suggested the festival and the carrying out of his hints resulted in a much bigger success than even Mr. Cootes anticipated.

The Ugly Band furnished some fine music. The band shows a big improvement over their playing when here last fair time.

Dr. D. P. Deming as chairman of the decoration committee did the work in a taste style. The doctor know how.

The dances were well attended in the evening. No accidents.

P., O. & N. DEPOT BURNED TO GROUND

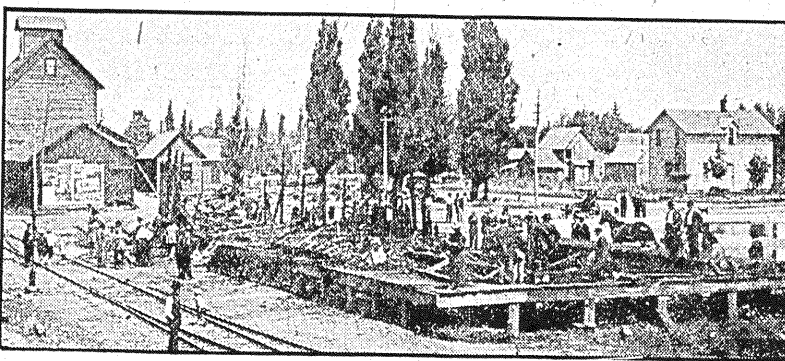

Building Was Struck by Lightning Sunday Morning.

Temporary Quarters Have Been Taken in the Sioux City Seed Company's Building.

Fire destroyed the P., O. & N. depot and its contents at Cass City early Sunday morning. The flames had gained such headway when the fire was discovered that it was impossible to save anything and it is a total loss.

A heavy electrical storm passed over this section earlier in the day and it is thought that the depot was struck by lightning and the fire originated from that cause. It was discovered shortly after five o'clock. Citizens and firemen responded promptly to the alarm and the fire apparatus was hustled to the scene of action. Two streams of water soon played on the flames. Another hose belonging to the Cass City Grain Co. had been attached earlier by those who arrived first.

Only one building was exposed to

crowds with the latest selections, while in the afternoons the orchestra will be found in front of the grandstand. It is hardly necessary to add any more words regarding these musicians as they have appeared before in Cass City, playing at commencement exercises, and the talent displayed at that time and the good words which have been spoken by others who have had need of their services since, influenced the officers to engage them for this occasion.

The premium lists are now in the hand of the printer and will be ready for the public about Sept. 1.

The dates of the fair are Sept. 28, 29 and 30 and Oct. 1.

MASONIC PICNIC.

The 12th annual picnic of the Huron County Picnic association will be held Tuesday, August 31, at Caseville. Special trains will be run over the P. O. & N. and P. M. R. R. A base ball game between Masons of Sanilac and Huron counties, boating, bathing, fishing, and dancing are on the program of amusements.

any danger and that was the hay shed across the track. By hard fighting, fire which caught in the south end, was extinguished. The heavy rain which fell during the night protected the other buildings in that vicinity.

The freight train arrived late Saturday night and fortunately very little freight was unloaded into the freight house. Among that unloaded were five caskets for H. P. Lee, the undertaker. The contents of the freight room consisted chiefly of rejected goods and goods which were damaged and for which merchants were seeking an adjustment with their wholesalers. Among these was a valuable shipment of dry goods and cloaks for A. A. Hitchcock. W. W. Bender and J. N. Dorman also had goods in the fire.

RESOLUTIONS.

Whereas, the great and supreme Ruler of the universe has in his infinite wisdom removed from among us one of our worthy and esteemed fellow-laborers, George W. Heberton; and, whereas, the long and intimate relation held with him in the faithful discharge of his duties in this order of Maccabees, makes it eminently befitting that we record our appreciation of him; therefore,

Resolved, that the wisdom and ability which he exercised in the aid of our order by service, contributions and counsel, will be held in grateful remembrance;

Resolved, that a copy of these resolutions be spread upon the records of this organization, a copy printed in the local paper and a copy forwarded to the Maccabee paper.

Took a Long Chance at Fortune by Stopping Off in Idaho on Return From Exposition.

Frank Pitcher, a machinist for the A. R. Welch Motor Car Co., at Pontiac, and until a few years ago a resident of Cass City, figures that he is ahead at least \$3,000 as the result of stopping over at Couer da Lene, Idaho, on his return from the Alaska-Yukon exposition in Seattle, Wash.

Mr. Pitcher, who lives at 87 Willow avenue, visited the exposition from July 3 till Aug. 6, leaving for the east on the latter date. During his stay in the west he had heard a great deal of the opportunities in that section of the country, and, having always nourished an ambition to be a fruit rancher, was attracted by the tales told of the great possibilities of this industry says the Pontiac Press Gazette. When he read that the government was

AMPUTATED THE COW'S LEG. Photo by Maier.

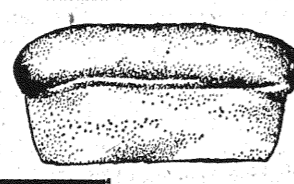

Several weeks ago the cow whose picture is show above had her leg broken in two places—at and below the knee—by an automobile. Morris & Bradshaw, local veterinary surgeons, amputated the member above the knee Aug. 1 and the animal survived the operation well and is apparently as healthy as ever. This is the first operation of its kind in this section and possibly in the state.

The cow is able to lie down and arise in her stall and hops around with little difficulty. She is unable to forage much for herself in pasture and a greater part of her food must be brought to her. "Deck" Bradshaw is the man at the left of the picture. His partner, Wm. Morris, stands at the right and Wm. Kile, the owner, of the cow, appears in the background.

Telling a Cow's Age.

A cow's age is indicated by her horns. At the age of two a ring of thick material forms at the base of each horn, and one ring is added every year after this becomes apparent. To find the age, therefore, count the rings and add two. In the case of a bull, however, the first ring does not appear until he is five years old, and one annual ring appears after that, so to the number of rings on a bull's horns five must be added. The result attained is, however, only approximately correct, for not only is the time of appearance of the first ring uncertain, but occasionally two rings appear in one year, and then again sometimes a year is omitted, no ring being formed. A dishonest dealer can also change the apparent age of the animal by filing off some of the rings from its horns, so that complete reliance on this sign is sometimes very deceptive.—Exchange.

J. A. Carr & Son, Lansing, Mich., writes—
"We have used Harvell's Condition Powders on our livery horses for about three years and have always found them superior to all others. We have found that livery horses are subject to great abuse and Harvell's Condition Powders always bring back the appetite and puts them on their pins." E. A. Ryan's drug store.

Anxious Mother—I cannot permit you to have such late callers. It was after 11 o'clock when Mr. Huggins left last night.

Pretty Daughter—Why, mamma, I don't see how you can class Mr. Huggins as a late caller. It was only 7:30 when he came.—Chicago News.

At a marriage service in Budapest the bride was so overcome by emotion that when about to give her assent her false teeth dropped out.

Cured Hay Fever and Summer Cold
A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar with the same success." L. I. Wood & Co.

"I admit I have the fault you mention," said the conceited man self complacently, "but it's my only fault, and it's a small one."

"Yes," replied Knox; "it is just like the small hole that makes a plugged nickel no good."—Catholic Standard and Times.

"Mary, after the week out I shan't need your services," the boarding house keeper told her cook. "Your cooking doesn't suit me."

"But the boarders seem to like it, ma'am."

"Yes; that's why I must get another cook."—Bohemian.

J. Dilman's new barn adds quite an improvement to the appearance of his farm.

"What I Think of Grand Valley," written by Mrs. A. H. Brown of Palisade, Colorado:
I came to the Grand valley a few short years ago,
By chance I stopped at Palisade; I thought there was a show.
I found a place that pleased me well; water in plenty and good mesa land,
And I've stayed right with it, you see, in the valley of the Grand.

You may talk of farms and ranches, and men that trade for boot,
But I never expect to rue the choice I made by locating at Palisade,
We've stores, schools, churches, two railroads on one track,
That takes our stuff to market and brings the proceeds back.

The husbandmen are smiling and the ladies kindly greet,
The children 'round the schoolhouse all happy and dressed so neat,
The orchards and vineyards are spread on every hand,
Health, wealth and prosperity rules in the valley of the Grand.

Fruit buyers, too, will come in and crowd around like leeches,
With cash our fruit to buy, pears, apples, plums and peaches;
Our fruit isn't wormy, there's none finer in any land,
And there is room for many people in the valley of the Grand.

Home-seekers with enterprise will quickly flourish here,
And their labor will be rewarded with good crops every year;
All it takes is courage, and with a little aid
They'll soon fill their pocketbooks in the valley of the Grand.

Rice went to Detroit Thursday morning for a visit and expects to return home sometime next week.

The W. C. T. U. met last Friday, August 13th, with Mrs. Wm. Anderson and a short program was rendered which apparently pleased all present. Mrs. Caroline Fenn-Bigelow favored them with a solo and Mary Akerman gave a recitation. Rev. Weaver and Rev. Schweitzer each delivered a short address and an article on the temperance cause was read. They will meet at the home of Mrs. Henry Wetlaufer next Friday, Aug. 27. A cordial invitation is extended.

While Dr. Wm. Morris was acting as marshal at the fair grounds Wednesday, some fellow who was opposed to his actions as an official struck his pen knife into the shoulder of the horse ridden by the marshal. Doc is indignant over the affair and says if any one held a grudge against him he would be better satisfied if the man had inflicted the punishment on himself instead of the innocent animal. Doc says he'll get even if he finds out who was guilty.

The barn on the farm of A. E. Boulton north of town was struck by lightning Monday morning and besides splintering a few boards, it set fire to the hay, burning a space one and a half feet in diameter and five feet long before the fire was extinguished. An alarm was sent over the telephone and many neighbors and several auto loads from town hurried to the scene. Mr. Boulton and his son are very thankful for the prompt response and all are pleased that little assistance was needed and little damage done.

The 'Campaign against tuberculosis' was the subject of the address given by Dr. A. S. Martin of Ann Arbor at the Bijou theater Monday evening. It was illustrated by numerous pictures and proved to be both interesting and instructive. The speaker gave alarming figures of deaths resulting from tuberculosis, stating that more persons die of this dread malady than from any other disease. He explained that various ways in which the tubercle bacilli contained in the spit of a consumptive are transferred to other persons and also how this can be avoided. The theater was crowded.

FORMER RESIDENT OF GRANT KILLED

Auto Turns Over Causing Death of Mrs. H. M. Young.

Motor Gives Out When Electric Runabout Begins Steep Ascent and Brakes Fail.

Residents of Grant township were saddened by the news of the death of Mrs. H. M. Young of Seattle which was caused by the overturning of an automobile occupied by the lady and her husband. Mr. and Mrs. Young lived in Grant several years ago and Mr. Young is a brother of Mrs. D. McDonald of Beaulieu.

The following clipping from a Seattle daily describes the accident in detail:

Mrs. H. M. Young, 3830 Whitman avenue, was crushed to death, and her husband injured when their electric runabout got beyond control on Thirty-ninth street, not a half a square from their home yesterday evening, and turned upside down at the foot of the hill. Mr. and Mrs. Young were returning from a ride and turned from Woodland Park avenue into Thirty-ninth street on their way home. The grade up the hill is very steep. Half the distance had been climbed when the power gave out. Mr. Young got out of the machine to push it up the hill, leaving Mrs. Young at the lever and to manage the brakes. The machine got beyond her control and started backwards down the hill. Young tried to stop it by bracing himself against the machine, but failing, climbed in and tried to apply the brakes. By that time the auto gained such momentum that the brakes were either not effective or refused to work.

The machine attained a terrific speed in the half square it traveled. It suddenly veered to one side of the street, and striking the terrace of A. E. Dearborn's yard, at the corner of Thirty-ninth street and Woodland Park avenue, stopped short and turned completely over. Mrs. Young was pinned to the sidewalk under the heavy part of the car, while Mr. Young was thrown out. He gained his feet and tried to lift the machine off his wife, but could not move it.

In a few minutes persons living in the neighborhood and pedestrians came to the rescue. Mrs. Young was carried home on a cot and Mr. Young was able to walk with assistance. Dr. Maxson was summoned, but Mrs. Young died within an hour after the accident. Several of her ribs were broken, her chest was crushed and her skull fractured at the base. Mr. Young's injuries are not regarded as serious. He is badly bruised and his back is strained. The accident happened so quickly that he has no clear idea of what took place from the time the machine started down hill.

Besides her husband, Mrs. Young leaves a son, Avery, 18 years old; a sister, Mrs. L. Highfield, who made her home with Mrs. Young; and a brother, James Hewitt, living in Ontario. Young is in the coffee roasting business at Jackson street and First avenue south, and is a brother to J. W., George and A. A. Young.

FRANK PITCHER WINS \$5,000 FARM

Continued from first page.

opening an Indian reservation in Idaho to settlers, he was more than interested—he was positively excited! Of course, he didn't expect to win in the lottery that the government operates when it disposes of the rich Indian lands, but he was willing to risk the few hours' time and the small registration fee necessary to make him an applicant. On his return trip he stopped off at Couer da Lene and performed the necessary ceremonies. He has received a telegram notifying him that he has won 160 acres. He is No. 558 in the drawing, which means that 557 men have the right to make their selections before him. As there are about as many more in the list, Mr. Pitcher is not worrying about this.

"First choice is supposed to be worth about \$30,000 to the lucky man" he said. "My place after I get it will represent about \$5,000 in value, and, as it will cost me, counting my railroad expenses and all; not over \$2,000, I figure I'm ahead by \$3,000. "There are two ways in which I may acquire title to the property. One is by paying one-third down and the remainder in five instalments. By this method I have to live on the place five years. The other is to remain there 14 consecutive months and pay up entirely.

"The district is in the western part of Idaho and is considered one of the richest in the state. The city of Couer da Lene is 30 miles west of Spokane, Wash., and the reservation is 30 miles south of the town. "I have thought for a long time that I would like to quit my trade and run a fruit ranch. This is my chance."

STATE OF OHIO, CITY OF TOLEDO, Lucas County. ss. Frank J. Cheney makes oath that he is senior partner of the firm of F. J. WHEAT IS OF GOOD QUALITY

Average Estimated Yield in State Is 17 Bushels.

Lack of Spraying Has Resulted in Heavy Dropping of Fruit in July.

Lansing, Mich., August 6, 1909.

Correspondents very generally report wheat of excellent quality and the yield somewhat above the average; the prevailing opinion of the greater number of correspondents is that the final estimate which will be made October the first will considerably exceed the present figures. The average estimated yield per acre in the southern counties is 19 bushels, in the central counties 16, in the northern counties 15 and in the state 17 bushels. The per cent of plowing done for wheat in the state, southern and central counties is 11, and in the northern counties 10.

The total number of bushels of wheat marketed by farmers in July at 91 mills is 115,792, and at 55 elevators and to grain dealers 117,894, or a total of 233,686 bushels. Of this amount 220,806 bushels was marketed in the southern four tiers of counties, 11,505 in the central counties and 1,315 in the northern counties. The estimated total number of bushels of wheat marketed in the twelve months, August-July is 3,500,000; add to this amount 2,000,000 bushels used by the farmers for seed and home consumption and the indications are that the crop of 1908 has been entirely disposed of by the producers. Eighty-eight mills, elevators and grain dealers report no wheat marketed in July.

The average estimated yield of rye per acre in the state and southern counties is 15 bushels and in the central and northern counties 14 bushels.

The condition of corn as compared with an average in the state and southern counties is 84, in the central counties 83 and in the northern counties 87. The condition one year ago was 75 in the southern counties, 82 in the central counties, 92 in the northern counties and 79 in the state.

The estimated average yield per acre in the state, southern and central counties is 29 bushels and in the northern counties 26 bushels.

The condition of potatoes as compared with an average in the state and central counties is 86, in the southern counties 85 and in the northern counties 90.

The condition one year ago in the southern counties was 71, in the central counties 82, in the northern counties 89 and in the state 77.

The condition of beans compared with an average per cent in the southern and northern counties is 89, in the central counties 91, and in the state 90.

The condition one year ago in the southern counties was 78, in the cen-

tral counties 89, in the northern counties 93 and in the state 84.

The condition of sugar beets as compared with an average in the state and southern counties is 88, in the central counties 89 and in the northern counties 85. The condition one year ago in the southern counties was 80, in the central and northern counties 87 and in the state 83.

The almost universal lack of spraying has resulted in a heavy dropping of apples during the month of July, which is the principal cause of the reduction in the prospect for a crop in the state from 66 per cent on July 1st, to 53 per cent on August 1st. The prospect for an average crop in the southern counties is 43, in the central counties 61, in the northern counties 82 and in the state 53. One year ago the prospect in the southern counties was 45, in the central counties 46, in the northern counties 59 and in the state 47.

The winter varieties that promise best are in their order: Northern Spy, Baldwin, Greening, Ben Davis, Wagner, King, Russet and Wealthy. Of the early sorts the most promising are Dutchess, Maiden Blush, Red Astrachan, Early Harvest, Pippin, Fameuse and Yellow Transparent.

The prospect for an average crop of peaches in the Michigan Fruit Belt is 77 per cent and in the state 67. The varieties that promise best are, in their order: Elberta, Gold Drop, Crawford, Kalamazoo, Hill's Chili, New Prolific and Baraard.

You May Need It

Ask your doctor about the wisdom of your keeping Ayer's Cherry Pectoral in the house, ready for colds, coughs, croup, bronchitis. If he says it's all right, then get a bottle of it at once. Why not show a little foresight in such matters? Early treatment, early cure.

Many a boy is called dull and stupid, when the whole trouble is due to a lazy liver. We firmly believe your own doctor will tell you that an occasional dose of Ayer's Pills will do such boys a great deal of good. They keep the liver active.

P., O. & N. DEPOT BURNED TO GROUND

Continued from first page.
 ant, Jas. Adams, are in the bean house of the Sioux City Seed Co. As the company will need their building within a few months, and as there seems to be no other building available for temporary quarters, a station will probably be erected at once. Receiver Loundsbury and Manager Carroll of the P., O. & N. Co. were here Monday and stated that it would be necessary to receive permission from the court to make this expenditure, owing to the company being in financial straits. These proceedings would require four days' time after the application for same was made.
 This is the second time that the depot has been destroyed by fire, the first occurring Feb. 21, 1903. As Cass City is the best town on the road for passenger and freight traffic, it would seem that the company would find it advisable to erect a more substantial and fire proof structure.
