ELKLAND TOWNSHIP LOSES GOOD CITIZEN

ANDREW WALMSLEY CALLED BY DEATH ON SATURDAY.

Pioneer Farmer and Respected Citizen. Charter Member of Local M. E. Church.

Elkland township loses a good citizen in the person of Andrew Walmsley, who passed away at his home, one mile northeast of Cass City Saturday noon.

Mr. Walmsley was born in October, 1831, in the County of Down, Ireland. While yet a young man, he felt a desire to seek his fortune in the new world, and accordingly, after due consultation with his parents, started for America, arriving in Livingston county, where he had relatives living, the 28th day of June, 1854. In the early fall of the same year FAVORABLY COMPLIMENTED ON Mr. Walmsley with two companions planned to visit the Saginaw coun

Mr. Walmsley's stay there was of short duration, however. The uppermost desire in his heart was to make a home for himself and later in the fall, he with some others, hav-

GRAHAM'S WORK SHOWS UP WELL

ALL SIDES.

May Be Transferred to Washington Team Where a Good Young ^ Catcher Is Wanted.

Stanley Graham is showing up finely in his work on the Kalamazoo base ball team and every few days his praise is lauded in the state dailies. Sunday's Free Press contained the following paragraph:

"Paired with Clement is Graham, without a doubt the best catcher in the league, a high class performer in all departments, fielding, throwing, base running and hitting. He is a swatter par excellence and according to the last figures published had a juicy average of .362. He is one of those sweet hitters who can place the pill 'where they ain't' and if he has a weakness, it must be in his suit case, for he doesn't show it on the diamond."

Commenting on the rumor that Graham and Clement, his battery partner, were wanted on the Washington team of the American league, the Kalamazoo Evening Telegraph says:

"'Germany' Schafer, scouting for Washignton, saw Clement work against Flint Wednesday and was greatly impressed with his ability. and it is understood will suggest the advisability of his purchase. He also looked over Graham, for the Nationals need a good young catcher, and they can't find a better one than Stanley in any league below Class B.

even at that figure I would hesitate to let them go. It would break up the team and prove a very severe loss in the matter of future vic-

WHEN THE KAISERIN AUGUSTE VICTORIA PASSES THE STATUS OF LIBERTY.

[Copyright, 1910, by American Press Association.]

HEN Colonel Theodore Roosevelt, faunal naturalist, college lecturer and first citizen, steams up New York bay on June 18 he will be met by a reception committee of all the noises that ever have been and some others that are manufactured for the occasion. A faint suggestion of

these acoustic disturbances would look something as follows:

Crack! Boom! Toot-toot! Hurray! Has anybody here seen Teddy? Three cheers! (Followed by three cheers and several more.) What's the matter with- Oh, you Teddy! Siss-T-o-o-o-t! Whoop! Wow! boom! Roosevelt forever! He's coming! Y-e-e-e-h-o-o-o! Bing! Bang! Tump-etump-tump! Ow-ow-ow! Hurray for Teddy! Hoop-la! Hail to the chief! My country, tis- Toot! Boom! Crash!

Raise this to the nth power, then prolong it indefinitely, and you will have the beginning of a hint of what will happen on this noisiest of days.

It will be a wonder. Everybody will be in New York that day either in person or by proxy. And everybody that is at all vociferous will be making some kind of sounds. Most of these sounds will be loud-at least as loud as their authors can contrive. The din thereof will have New Year's night and the Fourth of July rolled into one and then have enough noise left over to supply a large and busy collection of boiler factories.

Twenty Thousand In Line.

The official program of the Roosevelt reception in New York catalogues the event somewhat as follows: The entire reception committee, headed by Chairman Vanderbilt, will steam down the bay to meet the Auguste Victoria on Saturday morning, June 18. It will take the colonel aboard and return to the Battery with all the craft following that can possibly get in line.

"THE WORLD IS MINE!"

Embarking at the Battery, Colonel Roosevelt will be officially welcomed by Mayor Gaynor. Then a land parade will take the place of the one on water, and the former president, former African hunter, former grand adviser and former and present big noise of three continents will ride up Broadway, preceded by the mounted police, mounted band and escort of rough High financiers are timid about every-

to get a place in the procession. It is estimated that there will be 20,000 men in line. Among these will be the Spanish war veterans, Syrians in fezzes, Mayor Jim Dahlman of Omaha with cowboys, Hungarians in national costume and every other nationality that goes to make up the composite product known as the American peo-

surgents, Ballinger-Pinchot, Cook-Peary and forty-seven different kinds of investigations the sound of the voice that has been smothered so long in the African jungles will bring back a feeling of mother and home.

Already there is a dental gleam across the Atlantic, and a fresh snap and vivacity are in the air. Teddy is coming home! Get the old bass drum down from the attic, pull the bunting from the closet under the stairway and take out your vocal apparatus and dust it off. The Teddy bear is once more in fashion, the big stick is waving in the breeze, and the spear that knows no brother is glistening in the sun. The trust busters' march need no longer be played with the soft pedal. Throw back the lid, stand on the loud one and come down on all the keys at once. Bang! There—that's better! What a relief it is to do it in the good old way!

Wall Street Not Celebrating.

What about the pessimists who predicted that the colonel was certain to get African fever or the sleeping sickness and those other Wall street prophets who hoped that every lion would do its duty? They are all talking small now. Did they imagine that anything in Africa could withstand the Roosevelt luck? What good are Wall street prophets anyway? Most of them cannot even predict the future movements of stocks and so have to depend on a sure thing game of working the lambs for commissions. "A prophet is not without honor save in his own country" was not spoken of the Wall street brand of soothsayer, He is without honor anywhere under the sun.

Wall street is not celebrating the return of the colonel. That is one rea son why the rest of the country is celebrating. Possibly the bulls and bears fear that Roosevelt is coming back to start another hunt in the financial jungle. On the way to Khartum he dropped one significant remark to the effect that he had harder work ahead than that done in Africa. Just what is that harder work to be? Not writing evidently, for he finished his African book before his return to civilization. Possibly the big trust game has reason for being apprehensive. riders and followed by everybody in thing except taking other people's the United States that has been able money, and the mere shine of the

Roosevelt eyeglasses and teeth gives

What will be do after his return? That is a question the answer of which is fraught with some moment to this country. Certain gentlemen of the press and of the conservation movement, popularly known as the "return from Elba" crowd, believe he will be a candidate for president in 1912. Certain other gentlemen of the press and of official station, known of all men as friends of the administration; are just as certain that he will get behind Taft. A man of the name of Herron-George D. Herron-expatriated as I recall because of certain matrimonial complications, thinks Roosevelt will become not only president, but virtual emperor, that he will end the republic and that he will be the beginning of "the new dark ages." Thus the thing is seen to be not without an element of the fantastic, especially when dealt with by a fantastic mind. It is perhaps as well to keep ourselves within the bounds of sanity when dealing with Roosevelt or with other things.

Will Go to Cheyenne.

come a presidential candidate he alone can answer. Of only two things are we sure—that he will have the greatest reception ever given an American citizen on his homecoming and that he will go to Cheyenne in August and presumably will greet certain bevies and swarms of delighted citizens on the way and back. This much will come of the suggestion of a western editor that the colonel return by way of San Francisco and tear up the vocal apparatus of the country on his way east. That he could not do because it would bring him home too late for his son's wedding. But he yielded to the suggestion to the extent of taking a later round trip to Cheyenne. Beyond these meager details it is given out that he will lecture, write books and help to edit the Outlook. What else the future holds for him and for us the American people and Theodore Roosevelt himself alone can tell.

Certain it is that he will have plenty to do after he informs himself of what has taken place during his fifteen months' absence, and whatever he does it will keep the country on the jump. It is impossible that his perennial energies should be bottled. They will find an outlet, and a political outlet at that. Of late the advices have linked his name with an ambitious tour of twenty-four states, with an address at one big mass meeting in each. This tour is to be made in connection with the Chevenne trip, and the fortunate commonwealths included are as follows:

New York, Ohio, Indiana, Illinois, Wisconsin, Minnesota, South Dakota, Nebraska, Wyoming, Colorado, Kansas, Oklahoma, Texas, Louisiana, Alabama, Georgia, Tennessee, South Carolina, North Carolina, Virginia, Pennsylvania. Maryland, Delaware and New Jersey.

him on the European tour, intimates that if the country demands it Roosevelt will again run for president. By the way. Wellman in one of his letters has a touch that is too good to be lost. It recounts how a young Englishman came down to the wharf in Egypt to see the former president. He gazed long and earnestly at that picture of health. Then he turned and said:

The condition of the apple crop is ported to be more than 8 points below last year's crop of 53 as compared with a normal condition. The 10-year average for apples is 69.8. In New England and on the Pacific coast the crop promises to be immense, but in such big apple states as Ohio and Missouri there will be only about one-

third of a crop.
On the other hand, the peach crop, due to the excellent prospects in such states as Georgia and Delaware, promises to be larger than last year, the condition on June 1 being 62, as compared with 54.1 last year and a 10year average of 65. The central states will produce a poor chop.

Frost evidently nipped the blossoms, for the conditions of blackberries was estimated at 80, as compared with 90 last year and for the last four years. Raspberries were estimated at 79.2, as compared with 88.4 last year and 82.1, the four-year average.

The watermelon and the canteloupe crops will be slightly off, it appears as the former was estimated at 77.4, as compared with 81.5 a year ago and the latter 77.8, as compared with 81.8

Sugar cane was reported at 84.7, as compared with 90.6 and sugar beets at 99.5, as compared with 89.

FATALITIES AND NEAR-FATALI-TIES REACH LARGE NUM-BER IN ONE DAY.

TWO DYING, 10 OTHERS ILL AS A RESULT OF DRINKING BOUT SUNDAY.

The auspicious inauguration of the summer season and the mad race for Sabbath-day pleasure on the first bright and sunny Sunday of the summer was responsible for an extraorlinarily large number of fatalities and near-fatalities about the state Sunday. Ten persons met violent deaths either by accident or self-destruction. Three are dead and 13 ill, three fatally, as the result of a wood-alcohol debauch near Cadillac. One woman was killed by the overturning of an auto near Drion, one man was drowned, one man attempted suicide at Flint, one boy was accidentally shot, and several were injured by automobiles, street cars or trains.

While driving to church Mr. and Mrs. Theodore Austin, wealthy farmers living near Marengo village, were struck by an M. U. R. car. Mrs. Austin was instantly killed and her husband died before a physician could each him. Their view of the track was obstructed by a deep cut.

Robert G. Chandler, 71, a civil war veteran of Coldwater, was burned to death in his room over a store, his clothes having caught fire in some mysterious manner.

Although he had been warned many imes not to walk on the railroad track, Walter Wyeth, of Riverdale, aged 70, was instantly killed on the Pere Marquette right of way. His hearing was defective and he did not hear the approaching train.

Morbid because of his wife's failure to write to him, George Alyssie, an Italian of Flint, jumped from the Saginaw street bridge into the Flint river, but the water was too shallow for him to drown and he was pulled out, bedraggled and shamefaced, by persons who saw him jump.

Henry Dowker, an Akron township farmer, near Vassar, was bitten in the lip and badly injured by a vicious mare which objects to the sight of women. The mare became enraged when two of his enemies entered the barn and caught Dowker's jaw between his teeth.

Mrs. Jesse Burch has identified John Anthony, a colored circus follower, as the man who shot her while she was watching a circus unload its cars at Battle Creek. Anthony denies the charge. Mrs. Burch has no chance for Anthony denies the recovery and an ante-mortem statement by her has been taken by the Jesse Tuttle, farm hand, George

Scouten and a bottle of whisky were a combination that proved fatal for Tuttle at Marshall. Tuttle's body was found on the bank of Montcalm lake his head submerged. It is thought he tried to take a drink of water and got too much. The 14-year-old son of R. Morrison,

Ir., was accidentally shot at Michigan Center. One of two boys accompanying him was handling a rifle, not knowing there was another charge in This went off accidentally, the bullet passing entirely through the boy's body. He will live.

As the result of a fatal drinking at Neawautaka, a crossroads town 13 miles northwest of Cadillac, three men are dead and two are dying, while 10 are seriously ill.

The dead: Al McCaskill, 36 years

old; Will Martin, 31 years old; George Teachout, 22 years old. The dying: Clarence Smith; Lee White.

All except Teachout and Smith were residents of Neawautaka. The latter

wo live in Cadillac. McCaskill came to Cadillac and secured four gallons of whisky, it is alleged. This the crowd is said to have entirely consumed by Saturday night, when they secured from Martin's home a gallon jug of wood alcohol, which Martin had for operating a moving picture machine. This they mixed with red pop, sugar and water and irank of it, repeatedly mixing up fresh quantities as rapidly as the supply ran low. They began to feel the effects

of the poisonous mixture about midnight Saturday, but kept on drinking. About 3 o'clock in the morning the three who are dead and the two who have but a few hours to live became unconscious and physicians were summoned from Manton and Cadillac, They arrived too late, however, and McCaskill died at 8 o'clock and Martin and Teachout about noon. A home-coming celebration is be ng arranged to take place in Port Huron June 18, when between 1,800 and 2,000 shopmen from Battle Creek, many of whom were formerly resi dents of the city, come on their annual outing. Fighting for his life, Elliott Smith,

the Saginaw district controlled by the Consolidated Coal Co. conceded the demands of the miners to pay the transportation of the men employed at the Jimtown, Shiawassee and Riverside mines, and work will be resumed. According to a decision in the case

of the people vs. Rice, handed down by the supreme court, a physician cannot be convicted of breaking the liquor law even though he knowingly fills out a prescription for a patient whose condition does not demand liquor.

The state military department has received a letter from the secretary of the Musicians' union, of Detroit, hat the new scale of musicians for the First regiment will in the future be \$3 for each member and \$4 for leaders. The department states that there is a law governing the pay of the musicians and that the price quoted by the secretary of the Detroit union will have nothing to do with the wages of the men.

Grief over the death of his wife a few months ago, following the demise of four of his children, is ascribed as the reason for the self-destruction of M. E. Collins, of Engadine, who shot himself. Mr. Collins was one of the most prominent men in Mackinac county. He had been a member of the board of supervisors for a number of years and was a leader in Re publican politics. Last fall he ran for sheriff and was defeated by only a narrow margin. At the conclusion of the session of

Benjamin, Portland; vice-president-atlarge, Mrs. Leona Field, Ann Arbor; corresponding secretary, Mrs. Julia I. Parish, Bay City; recording secretary, Mrs. Annie L. Andrus, Detroit; treasurer, Mrs. Stella Roben, Big Rapids. The speaker of the afternoon was Eugene Claffin, prohibition candidate for the presidency of the United States.

Rev. Christopher Prottengeier, 69, one of the best known clergymen in the middle western synod of the Luth eran church, died at his home in Saginaw, after suffering a third stroke of paralysis. A dividend of 5 per cent is being paid to the creditors of the defunct National bank of Ironwood, which failed a year ago as a result of the alleged peculations of its managers. The amount to be disbursed approximates \$33,000. Two dividends of 15 and 10 per cent respectively had previously been paid and had involved payments totaling \$167,000. The amount of the future disbursements will depend on the outcome of the various suits that Receiver Tillinghast has instituted against some 60 alleged debtors of the bank.
