LARGEST ATTENDANCE IN HISTORY OF THUMB ASSO.

Special Trains and Automobiles Brought Hundreds of Odd Fellows and Rebekahs to Cass City Wednesday.

Twenty-first Anniversary One of the Most Successful in Point of Interest, Good Fellowship and Pleasure. Caro the Place for Meeting in 1912.

The twenty-first meeting of the Thumb Anniversary Association held at Cass City on April 26, 1911, has passed into history as having had the largest attendance since the association was organized and being one of the most successful in point of interest, good fellowship and pleasure.

The number of visiting Odd Fellows and Rebekahs has been conservatively estimated at 500. The special train from Vassar and Caro brought 215 and the special for Brown City, Marlette, North Branch, Clifford, Silverwood, and Kingston brought 240 more. In addition to these, several automobiles brought visitors from the points mentioned and also from Elkton and Akron. During the day's proceedings 13 different lodges were represented.

The train from the south was over an hour late and necessitated the opening of the public meeting at the Presbyterian church much later than scheduled in the printed program. This made it necessary to make other changes during the day.

In the march from the depot to the church between 250 and 300 Odd Fellows and Rebekahs were in line, headed by the Brown City band and Canton Lodge, City of Caro. The church was completely filled. J. H. Hays, president of the association, presided and introduced the speakers.

A quartette composed of Messrs. Landon, Wood, Tindale and Usher led the audience in singing the opening ode, Miss Ethel McGregory presiding at the organ. This was followed by an invocation by Rev. A. O. Knapp. Later in the program, the quartette pleasingly rendered another selection, "Sweet and Low."

Address of Welcome.
The address of welcome was delivered by Edward Pinney and the response by Rev. Terrant of Brown City, who spoke in place of W. S. Wixson of Caro, who was unable to be present. Mr. Pinney said:

"Mr. President, Members of Subordinate Odd Fellow and Rebekah Lodges, Ladies and Gentlemen:
"We are gathered today in obedience to a proclamation from the Sovereign Grand Lodge to celebrate the ninety-second anniversary of Odd Fellowship and to celebrate the twenty-first anniversary of the Thumb Association of Odd Fellows. We are also gathered together to cement closer these links that unite us in Friendship, Love and Truth, to which we are all pledged. As a resident of our village and as a member of Cass City Lodge No. 203, I am delegated and I am pleased to say unto you, and it comes from our hearts, that you are welcome, welcome, brethren and sisters to our midst. It has been the aim, the whole thought, of our several committees and the members of our two lodges to make this welcome sincere and heartfelt, so that each of you when you shall return to your several homes, you will go with the feeling that your time has been well spent, that it has been enjoyable and instructive, so that your enthusiasm for Odd Fellowship may be kindled anew and that the fires of Friendship, Love and Truth may burn the brighter.

"The founders of our illustrious and now the largest fraternal society on the face of the globe, comprising as it does over two millions of our best and noblest citizens, wisely chose as the tenets of our order these supremely cardinal virtues, Friendship, Love and Truth.
"Friendship, which is one of the basic principles of our order, has always appealed to me as one of the strongest bonds that unites our civic society, and that it is also absolutely necessary for the proper development of the individual. In primitive times certain people having common interests joined together and formed a tribe. These tribes or communities were in their early stages simply a number of friends joined together for mutual support and protection. However in time some tribes became stronger than others and of necessity these must wax stronger and comprise more people. In this development or evolution, we can easily trace the growth and formation of great states and nations as we

now know them. The body politic became very complex, and the individual member found that he was becoming smaller and more infinitesimal in comparison, and also that he was becoming more and more insulated from his fellowman. It was with this feeling that an instinctive impulse of fraternalism broke forth and man desired to be more serviceable and closer united to his fellow. In this spirit we find the growth of societies such as our own dear Order of Odd Fellows.

"When we come together in the lodge rooms we find first and foremost an air of companionship and good cheer and we can feel it throbbing in our hearts and we hark back to the words of Shakespeare, who said, "These friends thou hast, and their adoption tried, Grapple them to thy soul with hoops of steel."

"Thus our friendship draws us closer and closer together until it blossoms forth like a bright flower of love along the dusty highway of life. Before long the individual member finds developing in his soul a feeling of love for his fellowman that was before unexpressable and for which he could not find the proper medium for such expression. He now feels bound to perform the offices of brotherly love, which causes the strong to support the weak, the young to reverence the old, the rich to help the poor, the educated to instruct the ignorant, the well to nurse the sick, and thus by noble acts and deeds to reflect the goodness of the Father of all men. It is this beautiful flower of brotherly love that our order implants in the heart of every Odd Fellow, and which brings down the king and baron to the level of the weak and humble and binds man to man with never a thought of party, caste or creed.

"The third link of Odd Fellowship is Truth and it is denominated the Imperial Virtue. Our order not only exhorts its members to be good and true, but makes them also searchers after truth. In fact truth is the virtue that crowns the fabric of our institution. An Odd Fellow is impressed with the idea that he must be true on all occasions and to all persons. Thus he manifests to the world that he has learned the valuable

lessons of our order and proves by his life that his fraternity is one exerting a great moral influence. Thus erected upon the sure foundation of universal brotherhood with the doors of sympathy and relief opening on the right hand and on the left, our great institution imparts the beautiful and sacred sentiments of friendship.

FULL OF HEART INTEREST.

"An American Hustler" Promises to Be Delightful Play.

The scenes of "An American Hustler," the local talent play which will be given here next Tuesday evening, May 2, are laid in Idaho and Chicago, and the play is full of heart interest with just enough western flavor to make it fascinating.

The plot opens when Francis Rawdon, a gambler, discovers that Old Joe Harper is a murderer and that Amelia Harper is not his daughter but an heiress. He agrees to keep the secret if Amelia marries him, but she is in love with Steve Dallas and objects. The scene is transferred to Chicago where Steve strikes it rich, finds Major Belter, an American hustler, and learns that Amelia is about to marry Rawdon. The major finds Rawdon's deserted wife, succeeds in uniting Amelia and Steve, and also wins again his boyhood sweetheart Priscilla.

The following young people are included in the cast: Leo Tyo, James Klump, Arthur Atwell, Wm. Deming, Clifton Champion, Orrin Deming and the Misses Cora Schwaderer, Leone Kile, Irene Tindale and Gladys Parker.

SUMMARY OF NEW LAWS

BIG BUDGET OF BILLS PASSED BY 1911 LEGISLATURE.

Many Needed Measures Fail. Senate Refuses to Act in Impeachment Proceedings.

Lansing, Mich.—During the session of the legislature of 1911 much was done in enacting progressive legislation and much left undone.

The legislature adjourned to May 2 when it will close the journals and adjourn sine die.

The total number of bills introduced in the senate was 448 of which number 111 were enacted into law. In the house 620 bills were introduced and 195 were enacted.

Up to the time of temporary adjournment Governor Osborn had vetoed nine bills, chiefly those increasing salaries of court stenographers and several special appropriations.

In passing the budget the legislature provided for certain exigencies in the state treasury and appropriated the sum of \$750,000 for the existing deficit and the sum of \$100,000 for emergency purposes.

Governor Osborn states that he will hold down the total appropriations to \$12,000,000. He has already vetoed about \$130,000 and will cut out about \$500,000 more to keep the budget within the \$12,000,000 limit.

Power was given the governor to investigate the state institutions.

P., O. & N. NEW SERVICE BEGINS

FIRST THREE DAYS' BUSINESS SHOWS INCREASED TRAFFIC.

Five Cars per Day is the Record Made Since Opening of New Service.

The through merchandise service which was inaugurated from Saginaw to all points on the P. O. & N. via the Michigan Central through the efforts of Secretary Joseph P. Tracy of the Board of trade has proven in the first three days of its operation to be a distinct success. It shows by the magnitude of the business offered and transferred that it fills a long felt want in shipping between Saginaw and the points all over the line.

In the past shipments have been irregular and consignments arrived anywhere from two and three days to two weeks from the time they were consigned. Now a shipment leaves Saginaw in the evening and is received at the farthestmost point along the line of the P. O. & N. the next day.

As a sample of what the first few days of the service is giving it has taken five cars to handle the business offered each day since the inauguration of the service. In the past 1,000 pounds has been a big day's offering. The service is expected to open up a new field of outlet for Saginaw business. The fact that there is no transferring makes the service of the very best.

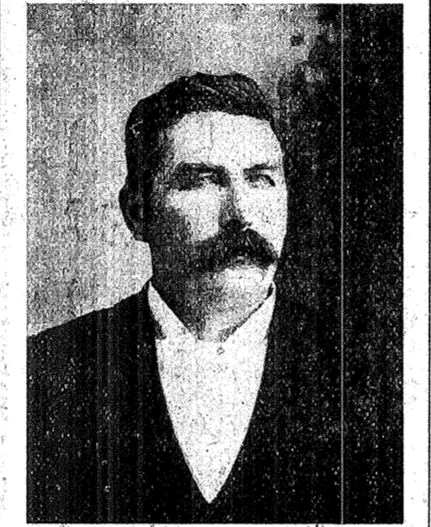

CASS CITY LODGE ORGANIZED IN '73

HELD FIRST MEETING IN THE TENNANT HOUSE.

Well Known Pioneer Farmers and Business Men Initiated at First Meeting.

It was way back in 1873 that Cass City Lodge No. 203, I. O. O. F., was organized. The exact date was March 19, 1873. Grand Master Thomas E. Douty of Saginaw presided and he was assisted by C. R. Curtis, Past Grand Master. The proceedings were held in a room in the Tennant House, Cass City's first hostelry, which occupied the site where the New Sheridan now stands. Members from Caro and Tuscola lodges were present at this meeting.

S. H. Camburn, pastor of the M. E. congregation at Cass City, Warren Weydemeyer, P. R. Weydemeyer,

H. S. WICKWARE
Charter Member of Local I. O. O. F. Lodge.

Robt. Tennant and H. S. Wickware were the charter members and the following candidates were initiated into the mysteries of the order on organization night: Robt. Warner, Chris. Murphy, James Doying, E. R. Hunt, Jas. W. Adamson, John C. Laing, Joel Hendrick, Frary Karr and John C. Karr.

S. H. Camburn was elected Noble Grand; Robt. Tennant, Vice Grand; Warren Weydemeyer, Recording Secretary; P. R. Weydemeyer, Financial Secretary; H. S. Wickware, Warden.

The lodge continued to meet in the rooms at the Tennant House until Elkland township erected its town hall and about 1884, the lodge removed to the top floor which it has since occupied.

H. S. Wickware, the only charter member remaining in Cass City, has held various positions of trust in the lodge. For 13 years he occupied the office of financial secretary, and he was released from the office at his request when he was seriously ill several years ago.

Mr. Wickware has been an ardent enthusiast in planning for the erection of a lodge home and he is now confident that his hopes will be realized in the near future and that Cass City Odd Fellows will have a building to which they may point with pride.

DUAL FIELD MEET.

Cass City High School Goes to Bad Axe May 26.

A dual field meet has been arranged between the high schools of Cass City and Bad Axe at the latter place on May 26. Both schools have some fine athletes and a strongly contested meet is anticipated.

In base ball, the local high school team will open the season with Marlette this afternoon at the latter's grounds. On May 5 they will play on local grounds with the high school team from North Branch.

NEW CAR FOR J. D. CROSBY.

J. D. Crosby has placed his order for a "Schacht" automobile with the factory at Cincinnati and expects to have the new machine here in a few weeks.

The car is equipped with many features which appeal to the particular man driving an auto. It has the left hand drive and inside control and the wheel base is long. With many modern conveniences, the car promises to be a nifty one. It is finished in a buff color.

SCHOOL LAW AMENDED.

Anent Payment of Tuition for Eighth Grade Pupils in Rural Schools.

The department of public instruction at Lansing has given out the information that the free tuition law has been amended by the present legislature and now provides that in order to have his tuition paid a child must possess an eighth grade diploma or shall have evidence of having completed eight grades of work in a graded school district. The department rules, therefore, that all children applying for tuition this year must either possess an eighth grade diploma granted by the county board of examiners or submit proof that he has completed eight grades of work in a graded school district. Of course, a child who had his tuition paid last year under the working of the old law but who did not possess an eighth grade diploma is entitled to have his tuition paid this year without it.

GRAND TRUNK TO EXPAND SERVICE

WILL DOUBLE ITS PRESENT TRAINS OUT OF BAY CITY.

Handy Bros.' Line Into "Thumb" to Play Important Part in Road's Traffic.

After having been content with what was practically the fag end of the railroad business out of the Saginaw valley ever since it acquired the road from Durand to Bay City, the Grand Trunk is now preparing to fight for the trade of northeastern Michigan. May 7 it will inaugurate a new train system for both passenger and freight traffic that will equal for eastern and western travel and business, any of the other roads says the Free Press.

The company is spending between \$750,000 and \$1,000,000 in the purchase and development of a new terminal on the east side of Bay City, in the heart of the business district, and the construction of the largest railroad bridge in the state, necessary to reach the east side. The property has been purchased, the necessary franchises have been granted by the city and the war department's hearings on the bridge have been held. Col. Townsend of the war department, having sanctioned the plans for crossing the river.

The Grand Trunk has now two trains daily out of Bay City, making the usual connections at Durand. May 7 four trains will be put on, including a through Pullman service to Chicago on a noon train. The night train will take from the Pere Marquette G. T. Chicago sleeper that is at Bay City on the Pere Marquette and at Flint is transferred to the Grand Trunk. The noon train will cut the time from the terminal in Bay City to Chicago nearly two hours under the fastest time now made on any road.

The road will, with its terminal in the business district, make a strong bid for the through traffic from the north, all of which is now handled by the Pere Marquette and Michigan Central.

The affiliations between the Grand Trunk and the Handy Bros., who have now a regular schedule on their new road into the "Thumb" district, have been marked during the last few weeks by renewed activities in inspection and surveying of routes between Caro and the near points on the P., O. & N., owned by the Grand Trunk. Officials and employees of both roads have been going over the ground and Handy Bros. are arranging for a series of conferences with local authorities in the district that must be traversed. Handy Bros. have meanwhile been quietly purchasing a right of way from their depot to the river front, and with little trouble, can connect with the Grand Trunk yard lines. It is now practically settled that the Grand Trunk will eventually operate Handy Bros. line and the through connections thus secured will give it a position towards traffic equalling that of the Michigan Central.

New Brown Bread Recipe

Never soggy—Easily made

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

Nearly everybody likes Boston brown bread, but so many have experienced trouble with its being soggy, they have become discouraged. Here is a new recipe that cannot fail if the few simple directions are carefully followed. You will be delighted with the results.

K C Brown Bread

One and one-half cup yellow corn-meal; 1 1/2 cup entire-wheat flour; 1 tea-spoon salt; 1/2 cup sweet milk; 1/2 cup molasses; 5 level teaspoonfuls K C Baking Powder.

Sift together, three times, meal, flour, salt and baking powder. Mix molasses and sweet milk and stir into dry ingredients to make a smooth batter. Turn into two empty K C Baking Powder boxes, thoroughly buttered, and let steam three hours. This bread is particularly good to serve with salads or raw oysters also at breakfast, as toast of all kinds.

Raisins or currants may be added, though some prefer it without.

Readers of this paper may obtain The Cook's Book containing this and 29 other delicious recipes free by sending the colored certificate packed in every 25-cent can of K C Baking Powder to the JAGUES MFG. CO., Chicago. Send for The Cook's Book today.

A Reliable Helper.

If your stock doesn't look well or do well, just go at once to the nearest druggist or general store and purchase without delay a package of Harvell's Condition Powders. The packages are small but the price places them within the reach of all. There are no food stuffs in the package, each and every drug or different substance being chosen solely for medicinal properties, and for your money you are getting a better article than any one can give you along the same line, and at the same price. Over seventy years old and sold everywhere for 25c per package. Wood's Drug Store.

Tuscola Co. Farmer

Nobody in Tuscola county has been kind or wise enough to help me out of this Wright brother tangle so far, and I feel as though I have to give it up. But there's another new thing just out, and this time it's in the hog line. I got a letter from a man up in Canada, who read about those valve cattle down in California, and he says that California ain't in it by a long shot. He says that he has hogs up there that beat anything that ever walked a slick wire on August 16. They are no post hole diggers as mine are, but are raised mainly for the different forms of meat they supply for the farmer.

I am so much impressed with these hogs up there that I am going to get some down to Tuscola county before Christmas rolls in. These hogs, by the way, have eight legs, four hams and four shoulders. While they walk, four of the legs point to the clouds and the other four rub the clouds. I didn't believe it at first but in his letter he sent a photograph of each leg taken separately and that settled all doubt in a hurry.

As I said before, four of the legs point up and four point down. The biggest advantage in this explains itself in the following. You know that hog sheds in Canada (and some in Tuscola county) are usually poor in winter during snow time, and the floors get sopping wet when the water run in. Well, sir, when the mud in these sheds gets so deep that the hogs can't navigate there anymore they put the upper legs to work and walk on the ceiling. While they are making their home on the ceiling they use the lower legs for ballast to keep themselves from rolling over.

In summer time, he says, these hogs would be great for the farmers down South—there would be no danger of having them killed by lightning. All that is necessary is to put a copper tip on each of the four legs pointing to the sky, and each hog will have four lightning rods for protection. Not the least bit of risk there; and, another thing, the electricity as it passes from the cloud to the hog will so treat the body that there will be no rheumatism among the animals. Packing houses will also pay a much higher price for these porkers because they can label their products as choice "electric ham", "electric bacon", "electric wurst", etc. You know that everything that's electric goes now-a-days, and if we farmers can get these "electric" hogs down pat we will all be Rockefeller in the delicious by and by.

But the biggest feature about these hogs is that the double running gear brings us twice the amount of ham and shoulder in hog killing season, and also another backbone from each hog. Some people will get up and say that this means more work, more hickory wood smoke, more salt, etc., but they are on the "wrong track to Richville and I don't pay any attention to them. Then there is the difference in the sausage. This is the peculiar part that is stranger than the funniest. Instead of being round the sausage from these hogs is square. This will save a lot of time at hog killing season and also for the packing houses, as it will be easy to figure out how many square inches of meat it will take to fill so many square inches of casings.

These are all the features I will outline today, or at least until I get a few of these hogs and learn more about them. But I will experiment further. When I get these porkers I will try to raise them with two heads a head on each end. Hold on! don't all stand up and say that these two-headed hogs will eat double the amount of feed, because I've got that part of the game cinched. When I get these animals bred up with two perfect heads I will prove that I won't use half the amount of feed for my double headers that we now use for the old-fashioned one-headed hog. Here is the way I will work it: When I go to feed I will stand the hog between two posts so it can't turn, set a bucket of slop on each end, and at the same time paddle and splash around in the bucket on one side to make a lot of noise. When the head on the other side hears this noise it will think that the head on the other side is eating and therefore won't make any effort to get the slop. At the same time the head on the noisy side thinks the other side is eating peacefully and so it won't bother the bucket I am paddling in either. I will repeat this every meal time and will practically raise my hogs on wind. And since the scientists say that the price of wind will never go up I see nothing ahead but profit, profit, profit!

Doan's Kidney Pills cure sick kidneys.

Many residents of this vicinity endorse them.

Mrs. V. Powell, Union St., Sebawing, Mich., says: "Doan's Kidney Pills have been very beneficial to me. About a year ago I had a severe attack of kidney trouble and my back became so lame that I could hardly get around to attend to my housework. The remedies I tried brought me no relief and it was left for Doan's Kidney Pills to drive away the trouble. Since they cured me I have had no cause for complaint. Other members of my family have taken Doan's Kidney Pills for similar difficulties and in every instance the results have been of the best. I take pleasure in recommending this excellent kidney medicine."

Granny Bags Coming In—Stripes and Checks For Young Girls.

Granny bags or reticules will soon undoubtedly come in, for the newest models are fast approaching that genre. Some are rounded off, some are flat and square, all are much embroidered.

Most of the new linen frocks are quite simply trimmed, this trimming running down the front of the bodice and skirt in the majority of one piece designs.

Many girls are making their combination skirts and covers of white wash silks.

For girls plaids will not be as much

avored as stripes and checks with material trimming.

This smart gown consists of a combination of chiffon, cloth and satin. The waist and skirt are separate, but can be easily joined if a one piece dress is desired.

JUDIC CHOLLET.

This May Manton pattern comes with the waist cut from 34 to 40 bust measure and the skirt from 22 to 30 waist measure. Send 10 cents to this office, giving numbers—waist 6883 and skirt 6870—and they will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

VOGUE POINTS.

Various Things to Help in Maintaining One's Smart Appearance.

A simple and useful combing jacket or peignoir may be made from a good large towel. Divide it into four even parts; cut off the two of these parts nearest the ends and sew them at right angles to the central portion. Sew tape where the pieces join to tie the peignoir on.

The sailor collar has been very smart during the winter and promises to continue in favor with the coming of the warm weather. These collars of sheer batiste or linen, edged with a narrow frill or embellished with handwork, are seen on some of the handsomest models of summer gowns.

FANCY WAIST.

Pointed jabots with edgings of real lace are used on many simple undecorated blouses.

Trains on the evening gowns are square or pointed.

A fancy waist occupies an important place in every woman's wardrobe, and the one illustrated would answer this purpose very nicely. It is made of striped marquisette with trimming of lace and banding.

LARGEST ATTENDANCE IN HISTORY OF THE THUMB ASSOCIATION

Continued from first page.

ship, and love, and sends forth its emissaries clothed with the dignity of truth to bless and purify and uplift humanity.

"My brethren, and sisters as well, live up to the high ideals and tenets of your respective orders and the day will not be far distant when your total influence will cause its principles to embrace the world, as the glorious rainbow, based on its mythical pile of gold, spans the sky.

"Finally, my brethren, I would say that Oddfellowship stands for fraternalism and the true brotherhood of man. It is in this splendid spirit of fraternalism that I come to you in behalf of the Odd Fellows and Rebekahs of Cass City and bid you a fraternal and brotherly welcome. Not only do we bid you a hearty welcome but we would be delighted for a few hours at least to charm away every shadow from your brow, every burden from your heart, and would bestow upon each of you, if it were in our power, length of days, honor and wealth.

"Again, and again, and again, I bid you welcome, not only to our village, but to our homes, and to our hearts."

Three Clergymen Speak.

Mr. Terrant of Brown City, who responded to the address of welcome, said that he was certainly glad to meet with the Odd Fellows at Cass City at this time and that all appreciated the hearty welcome that was accorded them. The visitors, he stated, had come for pleasure, cheer and the strengthening of the links in the Odd Fellow chain of friendship, love and truth.

The speaker related an experience in his early life when for the first time he was far away from home and had an intense hankering for mother's apron strings. Here he realized most strongly the great principles of the order and learned its benefits. Odd Fellowship spent more money for the benefit of humanity during the past year than any other three orders, he stated, and they were the "citizens of no mean city." He emphasized the fact that the members of the order should so live and so move that the city would never be ashamed of them. The visitors were proud to come to Cass City as members of the order and were here to make the people of Cass City love them, because they might wish to come back again.

Rev. S. Waite Phelps of Bay City, Grand Chaplain of the Odd Fellows, stated that he turned down four other invitations to give addresses in order to be present at the Thumb Anniversary meeting here. Prefacing his talk by several humorous stories, Mr. Phelps began his address on "Best Be the Links That Bind" by stating that this was the 92nd anniversary of the establishing of Odd Fellowship on American soil with the first lodge of five members and that the order had made good. "What better things can I talk about than the principles of the order—friendship, love and truth?" he remarked. Nothing in life is more precious than true friendship. It is a great source of happiness and true friends are one of the mightiest helps to fight the battles of life.

There are several kinds of love, but the highest character is that which binds together husband and wife, parents and children, true lover and sweetheart—the love that is sacrificial as embodied in the parables of the Good Samaritan, the Good Shepherd and the Prodigal Son. Of such love is the cornerstone of Oddfellowship.

The grandest thing on earth is the man who speaks the truth and of whom it may be said that "his word is as good as his bond." The life and profession of an individual should correspond. The Bible is against all sham and hypocrisy. As Grand Chaplain of the order, the speaker asked his listeners to live such a life that each could challenge his neighbors to prove that he had not given everyone a square deal.

Rev. Phelps also spoke of the practical work of Oddfellowship in disbursing of large amounts of money in relief work, caring for the sick, assisting members in distress, etc. Odd Fellows are doing more than any other institution on earth for the benefit of humanity, he said.

Rev. R. T. Kilpatrick of Brown City gave the closing address at the church, taking for the subject, "Love is the Fulfilling of the Law." He said that this world would be a cold, dreary place without love, and gave a lot of wholesome advice on the subject, concluding his statements by exhorting the members to lead lives consistent with the teachings of the order, the cornerstone of which is love.

Business and Degree Work. The business meeting held at the opera house early in the afternoon

resulted in choosing Caro as the place for holding the anniversary meeting in 1912, that lodge having the power to select the officers of the day from their membership. Akron lodge joined the association at this time.

The degree work of the Odd Fellows was exemplified in the opera house during the afternoon and evening, Brown City taking the initiatory, Marlette lodge the first and Caro the second. The work was performed in an impressive manner and the lectures and charges given by the various officers were especially well delivered. The opera house was artistically decorated for the occasion. An electric design consisting of electric lights of red, white and blue and the three letters "F. L. T." in pink bunting within three links of evergreen was placed above the stage. Above this design hung an electric flashlight representing the "All Seeing Eye." Flowers graced the front of the stage.

At half past two o'clock, the Rebekahs assembled at Odd Fellows' hall to witness the exemplification of the Rebekah degree by Marlette lodge. Under the supervision of Mrs. Kate McGill, twenty-seven ladies performed the intricate new ritualistic work in a splendid manner. The attendance at the meeting was nearly 150, the largest held in the history of the association. At the conclusion of the ritualistic work the Cass City lodge served refreshments consisting of punch and wafers and the following program was given:

Solo L. W. Usher
Reading Cora Schwaderer
Recitation Carolyn Lee
Quartette Misses Anna Foster, Hazel Mead, Jessie and Margaret Duncanson.
"Violet's Victory" Misses Laverne Hays, Dorothy McKim and Naomi Fritz.
Recitation Belva Tibbals
Duet Anna Foster and Jessie Duncanson
Reading Hester McKim
Solo L. W. Usher
Reading Mary McArthur
Pantomime Belva Tibbals and Laverne Hays.

The guests showed their appreciation of the program by the hearty applause and congratulations extended to the persons participating. Every number brought forth expressions of delight, the selections varying from humor to pathos, making the whole pleasing to all. The Odd Fellow hall had been prettily decorated for the occasion and presented a tasty appearance with its bunting, potted plants and palms, together with emblems of the Rebekah degree everywhere in evidence.

During the afternoon the Canton Lodge, City of Caro, gave a drill on Main street. The members of the corps wore uniforms which were very becoming and the maneuvers of the company were well executed throughout. Our neighboring village may be justly proud of this organization. The Cantons are officered by the following gentlemen: D. C. Narmor, Captain; A. C. Wilson, Lieutenant; Frank St. Mary, Ensign.

Anniversary Notes. The weather was delightful. A brighter and more pleasant day could not be wished for.

The Presbyterian ladies cleared about \$125 over expenses in serving the dinner and banquet Wednesday. Nearly 600 persons were served.

Oscar O'Kelley of Caro has the distinction of attending 19 of the 21 meetings of the Thumb Association. He was here Wednesday as a member of the Canton City Lodge.

Several of the Odd Fellow visitors dropped into the Chronicle office and watched the Junior Linotype set the type for this week's issue. They all were greatly interested in the operation of this complicated machine and said it was a "dandy."

All the business places were nicely decorated in the colors of the fraternity and several windows were the subject of many complimentary remarks. The decoration committee also added to the attractive appearance of Main street by displaying welcome banners and bunting across the thoroughfare.

Probably few realized that the band which played here Wednesday was entirely composed of Oddfellows. Several of the band boys at Brown City were not members of the fraternity and their places were supplied by Oddfellow musicians from Marlette and Clifford. They played well.

The Brown City Band did not arrive in time to head the procession bringing the visitors from the first train uptown, and members of the local lodge prevailed upon L. I. Wood to bring together several members of the Cass City Band which disbanded over a year ago, to furnish music for this hour. Only a badman realizes what an undertaking this was, for the "hardened lip" of the amateur horn player is not worked up in a few practices after several months' vacation. Mr. Wood mustered out eight men, all told, and though the instru-

ments had a tendency to run down the fellows' throats on the first piece played on the march, the boys did very well under the circumstances. The introduction of some young blood would make it possible to have a band in town and the citizens would be willing to help support such an organization. The village owns enough instruments. All that's needed is a few young men of energy to start the ball rolling.

A FREE Prescription ADVICE

From a physician of 52 years' experience in colleges, sanatoriums and general practice. Weak, nervous men, regain your strength and vigor. So great was my sympathy for weak men in the early years of my experience that I have made it a special study, and formulated two prescriptions, one for men under 50 and one for men over 50 years of age. In my declining years, I want every man to have the benefit of my long years of careful study, research and long experience. I am now 73 years old and as strong and vigorous as at 40 and the rest of my life will be spent in aiding suffering mankind. I realize that my time is short, but will do all in my power to aid men and women who are helpless and seeking relief. I know there has been a great many disappointed when they thought relief in their grasp, but let me send you my free prescription and booklet of private lectures to men which is the result of study since I began lecturing to student classes, way back in '71. Since that time I have cured many cases that are now pleased to recommend me. **YOU NEED AID.** Let me help you to regain your former standing among men. In short, let me assist you to be yourself once more. If you are suffering from falling memory, lame back or weakened manhood or nervous ailments, **LET ME SEND YOU A RECIPE** in a plain sealed envelope that you can use in your own home. I am confident that you will thank me every day in your life after you have tested it for yourself. Take advantage of this offer **NOW** before it is too late. Address me personally. **DR. ANDREW B. Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, their heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is Dr. Pierce's Golden Medical Discovery, which contains no dangerous narcotics nor alcohol. The ingredients, as attested under oath, are Stone root (*Collinsonia Canadensis*), Bloodroot (*Sanguinaria Canadensis*), Golden Seal root (*Hydrastis Canadensis*), Queen's root (*Silphium Virginicum*), Black Cherry bark (*Prunus Virginiana*), Mandrake root (*Podophyllum Peifatum*), with triple refined glycerine, prepared in a scientific laboratory in a way that no druggist could imitate. This tonic contains no alcohol to shrink up the red blood corpuscles; but, on the other hand, it increases their number and they become round and healthy. It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing. Stick to this safe and sane remedy, and refuse all "just as good" medicines offered by the druggist who is looking for a larger profit. Nothing but Dr. Pierce's Golden Medical Discovery will do you half as much good.

DEFORD.

Mrs. Charles Kelley, whose maiden name was Ella Sargent and who died last week in Flint, was known and loved by a host of friends in this community. She was of a very sunny disposition and was always thoughtful of others' happiness, rather than her own. She leaves to mourn a husband and two small children, father, mother, two sisters and one brother besides other relatives. The funeral Thursday was attended by a large crowd with A. J. Knapp as undertaker. Elder Beedon preached the sermon the text being "Not by Might or by Power, but by my Spirit, Saith the Lord." Many and beautiful were the floral tributes. Burt Curtis has moved into the Cuer house, south of town.

Midnight in the Ozarks.
And yet sleepless Hiram Seranton, of Clay City, Ill., coughed and coughed. He was in the mountains on the advice of five doctors, who said he had consumption, but found no help in the climate, and started home. Hearing of Dr. King's New Discovery, he began to use it. "I believe it saved my life," he writes "for it made a new man of me, so that I can now do good work again." For all lung diseases, coughs, colds, lagrippe, asthma, croup, whooping cough hay fever, hemorrhages, hoarseness or quinsy, it's the best known remedy. Price 50c and \$1.00. Trial bottle free. Guaranteed by L. T. Wood & Co.

SUMMARY OF NEW LAWS

Continued from first page.

tion committee which visited the Marquette prison and which culminated in the bringing of impeachment charges against Warden Russell. Representatives Straight of Branch, Kalmbach of Washtenaw and Flowers of Detroit were elected as a committee to prosecute the charges against the warden in the name of the house.

The senate, by resolution, refused to entertain the impeachment charges brought by the house against Warden Russell of Marquette, by a vote of 13 to 9. The reasons stated by the senators are that Warden Russell is not a civil officer; that the consent of the senate is not necessary for his appointment, and that, consequently, the senate has no jurisdiction to try an officer who receives his appointment by the governor, without the consent of the senate, or by any appointive state officer or board of control.

Governor Osborn's suggestion for a small secret service fund was combined with by the house, but the senate amended the bill so that the governor with the advice and the consent of the attorney general may appoint such agents, but the number and their salary is to be fixed by the state board of auditors. As no secret proceedings could be had under this bill, the house killed the measure.

After the house had passed a bill providing for workmen's compensation, the senate killed the bill and substituted an amendment providing for the appointment by the governor of a commission of five members to report to the next legislature on the question of workmen's compensation, employer's liability and workmen's insurance.

Appropriations were made to provide for the employment of convict labor on state account, and the present system of hiring the convicts to contractors for a stipulated sum was abolished.

The Flowers bill to amend the primary election law and fix up flaws in the present instrument passed the house. The senate excluded circuit judges from the provisions of the act, and the house then killed the bill.

The holiday bill, giving saloons the privilege of keeping open on certain holidays, was agreed to by both houses after the governor insisted that New Year's and Christmas must be excluded from the bill. The local unit bill fell by the wayside. An effort was made in the senate to revive the bill, but failed. A commission to investigate liquor conditions was provided for in a bill originating in the senate.

The legislature passed the two-cent fare bill for the upper peninsula, for which the people of that part of the state have been fighting for the past sixteen years.

The Lucas-James bill, providing for the election of mine inspectors, instead of their appointment by board of supervisors, became a law.

The central board of control bill, in consideration of which the house spent several days, was never reported by the senate committee to which it was referred.

The Lord bill providing for a uniform system of accounting for state and county officers was amended by the senate so that the auditor general is charged with the execution of the provisions of the act; also leaves it optional for the several counties to select whether they want to come under the act or not.

The Ogg bill providing for a central purchasing agent to purchase all supplies for state institutions was snuffed in the senate.

The Ashley bill providing for better regulation of fraternal insurance companies passed the house. The senate tabled the bill at the last minute.

The Glasser bill abolishing the pardon board fell by the wayside in the house. Governor Osborn made a statement that the duties of the board could be transferred to the chief executive.

The senate killed the Woodworth-Dunn resolution proposing to submit to the voters of the state an amendment to the constitution for the referendum, initiative and recall.

The Mapes civil service bill originated in the senate, but the house never had a chance to consider the measure as it was killed by the senate in committee of the whole.

The senate also acted adversely on the suggestion of the governor to amend the constitution providing for a four-year term for governor and limiting the length of office to one term.

The bills to abolish the offices of oil inspector and salt inspector were both killed in the senate.

The Dusenbury bill calling for the abolishment of the office of land commissioner was never reported out of the judicial committee of the house to which it was referred.

The forestry, game and fish commission, to have charge of the state forests and the execution of the game and fish laws, was lost in the senate.

The house never reported the Ball bill providing for regulation of private banks.

The house also killed the Oppenborn bill prohibiting fraudulent advertisement and wildcat mining schemes.

An appropriation of \$15,000 for the Zach Chandler statue passed both houses.

Representative Oppenborn succeeded in passing his bill providing for a normal school in Alpena.

A number of bills appropriating state reward for the building of good roads passed both houses.

The office of commissioner of mineral statistics was abolished upon recommendation of the governor.

The Hally home rule bill, giving the cities the right to enact certain legislation, passed both houses.

The legislature repealed the act which compelled the justices of the supreme court to reside at Lansing.

A law exempting wood lots, as recommended in the governor's message, was enacted.

Following is a brief synopsis of other bills which passed both houses.

JOSEPH MOSACK DEAD.
For Seventeen Years a Resident of Gagetown.

Joseph Mosack, aged 77 years and a resident of Gagetown for the past 17 years, died Sunday morning, April 16, at the home of his brother, Anthony, after a lingering illness of over five years with Bright's disease. Mr. Mosack was born in Waterloo county, Ontario, in 1834, and when a young man was married to Miss Thressa Houser; no children were born to them. A few years later they moved to Buffalo, N. Y., where he was engaged in the hotel business and from there moved to Cincinnati, where he again engaged in the hotel business. About 17 years ago they came to Michigan and engaged in the same business at Elkton where they lived for about two years, returning to Gagetown where he again entered the hotel business for a number of years. In all he was in the hotel business 32 years. About ten years ago his wife died, since which time he has lived with his brother, Anthony, most of which time he has been a great care to the family, and was given every care possible, and was made as happy and cheerful as possible. He is survived by two brothers, Anthony, of Gagetown and John, of Walkerton, Ont.—Times.

A BANNER DAY.

Sunday, April 23, was a time of special interest to the Bible school of the Baptist church.

The theme of the morning service was "The Sunday School." State Sunday School Supt., Magnus Burgess, of Detroit, was present and gave the address.

The attendance at the school was the largest this year. Members of the Home Department and Cradle Roll and other visitors were present. An interesting feature of the opening exercises was the setting forth of an aim for the school: "Every member present, every Sunday, on time, with his own Bible, a studied lesson, a liberal offering and a mind to learn."

It is hoped that the enthusiasm and interest created by numbers, songs and the presence and advice of Supt. Burgess may result in better equipment and greater efficiency in the work of the school.

BAPTIST CHURCH NOTES.

The pastor, accompanied by wife and little son, had the privilege of attending jubilee services at Brown City last week.

Subjects for next Sunday are as follows: 10:30 a. m., "The Beloved Dorcas." 7:30 p. m., "The tragedies and triumphs of the human will." A cordial welcome will be extended to all who attend the services.

NEWS OF THE TOWNS NEARBY

MAY CASE LANDON SENT TO INSANE WARD AT IONIA.

Money Has Been Subscribed for Dredging Channel at Cassville; Other Items.

The deal, mentioned recently regarding the sale of the Owendale Herald, fell through.

It is said that Brown City hotel men will close up shop on May 1 owing to the continued drouth in Sanilac county.

H. Linstead, for several years manager of the Morrow House at Bad Axe, has purchased the Owendale House from Geo. Hopkins.

At a meeting of the board of supervisors at Bad Axe last week it seemed to be the sentiment that the question of building a new court house should be voted on again at the next spring election.

John J. Conway, the editor of the Owendale Herald, was united in marriage on April 19 to Miss Lucile Schluchter. The ceremony was performed at the home of the bride's mother, Mrs. Joseph Schluchter, at Pigeon.

Wm. Leggett has left Sandusky for a ten days' trip to Ohio and Pennsylvania to secure chinery labor for the coming summer. He will distribute hands between Bad Axe and Sandusky.

Mr. and Mrs. M. R. Truesdell expect to return to Gagetown May 1, and resume possession of the hotel which has been leased during the past year. Mr. Truesdell says they will try running it awhile and if it does not pay he will close it and board up the windows.

Judge Beach on Tuesday declared May Case Landon, who has been held in the county jail at Sandusky for some time on the charge of having caused the death of her sister, Laura Case, to be criminally insane and ordered that she be confined in the insane ward at the Ionia prison until she is restored to sound mind.

On Wednesday morning Mrs. Landon, in custody of Sheriff Graham, and accompanied by her husband, William Landon, of Brown City, left Sandusky for Ionia to start her treatment. Her child, which is but one year old, is still at the jail in charge of Sheriff Graham, and some disposition will be made of it later.—Farmer.

Caseville Critic—It was no idle rumor we published two weeks ago, regarding the advantages of a dock, to our fishing industries as well as to the town and country. The necessary amount was subscribed on Tuesday for dredging the channel which is to be completed within the next thirty days. The water in the channel will be five feet deep so that a small freight or passenger service will be one of the coming summer advantages.

The Saginaw Bay Fish Co. had decided to build a private dock, but through their president, W. J. Orr, of Bay Port, made the people a liberal offer and the contribution by the citizens and business men will now be duplicated by the company, which amounts in all to about \$3000—not a large sum but there is this to consider, the government sometimes helps a community that has the vim to help itself—and Caseville is waking up.
