BAND TOURNAMENT; AUTUMN FESTIVAL

MOVEMENT ON FOOT FOR ONE
AT CASS CITY.

Foundation for Business Men's As-
sociation for Cass City Started
Tuesday Evening.

Some of the live fellows about town started the foundation for a Cass City Business Men's association. The following officers were selected to act until a full organization is completed:

President, J. C. Farrell.
Vice President, L. I. Wood.
Secretary, F. A. Bigelow.
Treasurer, A. H. Higgins.

A movement is on foot to hold a Thumb-band tournament in Cass City about Oct. 13 and the business men's association will add a big program of field sports and such other attractions as can be given on the street.

A subscription paper now circulating is being rapidly filled with liberal amounts, thus assuring a success from the start. At this writing definite details cannot be published, but the boys propose to "whoop 'er up" as soon as the details are worked out.

MICHIGAN POSTMASTERS HIT THE ONE-CENT RATE

Are Opposed to Penny Postage But
in Favor of Better Service
For Small Towns.

Michigan's postmasters are strongly and directly opposed to Postmaster General Hitchcock's plan of penny postage for the United States, according to resolutions adopted by the Michigan association and just made public.

Instead, they are demanding that the service, shall be improved and that free delivery shall be given to all sections of larger cities and to the small villages and cities, as well as to the rural districts, inferring that this cannot be done with penny postage.

Postmaster Seymour Foster of Lansing of the committee on resolutions, states that the sentiment at the recent convention was unanimously against changing the price charged for first class postage. Homer Warren of Detroit and others united in saying that from the poorer people to the concerns who send out hundreds of letters a day there is no demand for penny postage. It was the general sentiment that only powerful business interests in the east are back of the movement.

"We commend the postmaster-general for having reduced the \$17,000,000 deficit, but if the department has reached a self-supporting and profit-bearing basis, the service should be improved," said the postmasters. "It hardly appears right for a rural carrier to go nine miles into the country to deliver the mail, while poor fellows in the town walk a mile or more to get their's," says Foster. "With small added compensation, the same carriers might serve the people living in small towns and cities."

GOLDEN WEDDING.

Frank Nettleton has received an invitation to attend the 50th wedding anniversary of Mr. and Mrs. B. F. Nettleton, an uncle and aunt, at their farm home near Caro on Friday, Sept. 29. Mr. Nettleton is well known in Tuscola county, having conducted the Exchange Hotel at Caro for 35 years.

Not a Bit Too Soon
To begin to think of fall—not in the Tailoring business. Our thoughts have to be a couple of months ahead of the season's needs. For quite a while we've been getting ready to do the biggest fall's trade that we've ever done. We'll have everything to do it with—the facilities—the help—the goods. W. H. Ruhl, Tailor.

IDEAL LOCATION FOR SUGAR BEET FACTORY.

This year's sugar beet crop in Michigan is reported considerably above the normal and it may run from 15 to 20 per cent in excess of the production of last year. The season has been favorable to the growth of this important product of Michigan farms and the acreage for the current year exceeds that for any previous year.

For the past few years Huron and Tuscola counties are said to have been raising more beets than the local factories could handle and usually all contracts have been refused after March 1, shutting out many farmers who would have been glad to raise beets.

With these conditions prevailing, there seems to be a need of more factories in the Thumb country and Cass City would be an ideal location for one of them. An abundant water supply, healthfulness, every modern improvement, and a rich farming area in the immediate vicinity, all combine to make our town ideal as a business and manufacturing center.

POTATO AND BEAN YIELD IS LOWER THAN IN 1910

Secretary of State Says Average
Yield of Wheat in State is
17 Bushels.

The monthly crop report issued by Secretary of State Martindale shows that during the month of August approximately 2,500,000 bushels of wheat were marketed in Michigan. The average estimated yield of wheat in the state is 17 bushels, while the quality as compared with the average in the state and central counties is 87. The estimated yield of oats in the state is 27 and rye 14. The report shows that potatoes and beans are not in as good condition as one year ago.

A Michigan bean crop of 5,400,000 bushels, with a value of \$11,000,000, was prophesied at the opening session of the Michigan Bean Jobbers' Association at Detroit last Thursday.

Reports from 34 counties of the state were to the effect that while a 10 per cent greater acreage has been devoted to the crop this year, the yield will be but 90 per cent of that of 1910. This will be due to the summer's drought. Last year's output was 6,000,000 bushels, worth \$12,000,000. Michigan raises about 65 per cent of the bean crop of the country, the white pea beans and red kidney beans forming the larger part of the amount.

TOURISTS FROM DETROIT

Will Invade Thumb District in
October.

Not to be outdone by Bay City and Saginaw, Detroit is making a stir and plans are being perfected by the Detroit Wholesalers' and Manufacturers' association for a three days' trip into the "Thumb" district. It is to be pulled off sometime in October. Detroit business houses will make the trip.

The tourists will eat and sleep on the train, and will carry along a baggage car for provision supply and for the souvenirs to be distributed about the country. The run will make the three sides of the Pere Marquette triangle in the Thumb, and the trade tourists will visit Port Huron, Carletonville, Harbor Beach, Pointe aux Barques, Grindstone City, Vassar, Millington, Lapeer, Oxford, Imlay City, North Branch, Cass City, Marlette, Brown City, Yale, Crosswell, Sandusky, Deckerville, Bad Axe, Pigeon, Sebawaing, Saginaw and other places to a total of about 100.

HERE'S A PLEA FOR THE STUPID CHILD

SECRETARY OF STATE ISSUES A
SCHOOL BULLETIN.

Close Attention Should Be Paid to
Physical Wants of Child as
Well as His Clothes.

Secretary Robt. L. Dixon, of the state board of health, is out with a plea for closer attention to the physical wants of the school children. This is it:

The school year has just begun, and fond parents are carefully selecting new outfits of clothes so that their children may compare favorably in appearance with their neighbor's children.

But why only see that their stock of clothes is complete? Clothes do not make the man. It is far more important to see that both mind and body are in the best condition possible for development.

Many a child is forced backward toward the foot of the class because of some minor ailment which might be easily corrected by proper treatment.

Do not neglect a child because he seems stupid. Then is the time that he needs attention. Any child who is weak or does not learn easily should be taken to a competent physician who can often find defects in the child, the correction of which will make the child strong and robust both mentally and physically.

Our cities are fast coming to a realization of the fact that many of the children are backward, not because of lack of brains, but because their defective bodies do not supply the brain with enough good rich blood to develop properly. They hire reputable physicians whose duty it is to examine these children carefully, and, if any defect is found, to take steps to have it removed.

If a child is unable to see properly it cannot be expected to learn its lessons. The concentration and attention.

JOURNALIST WRITES BOOK ON MICHIGAN THUMB.

"The Thumb" of Michigan has been written up in a history from the pen of a U. of M. graduate, and has just come from the press.

It appears among the books of 1911 as "The House of Unfulfilled Desire," by Harlan P. Rowe of Bad Axe.

The volume consists of short stories, several of which are of historical interest to people connected with "the Thumb." One of these is based on the great fire of '81 and another on one of the disastrous wrecks within the history of the life saving service on the great lakes.

Rowe was graduated from the literary department of the University of Michigan in 1905. While in college he specialized in English, rhetoric and journalism and was actively interested in several college publications. He was a member of the Acadia fraternity and was at one time national president of that organization. After graduation he was for a time connected with the Associated Press of Chicago and later with one of the Chicago dailies. Although known as a successful newspaper man and magazine writer, the volume just published is the first collection of his stories in book form. Rowe has other work which will be published soon.—Detroit Journal.

JOAN OF ARC.

Raymond Drager, manager of the Rex Theatre, will produce Joan of Arc, a character in ancient history, in motion pictures at the theatre tonight and Saturday night. This production, Mr. Drager says, will be as instructive and entertaining as the "Fall of Troy" produced recently and caused so much favorable comment.

Reaches Detroit Sept. 18 and Will
Visit Prominent Cities of
Both Peninsulas.

President Taft is scheduled to leave Boston Sept. 15 on his trip of 13,000 miles through 24 states and to conclude the long and strenuous jaunt at Washington, Nov. 1. In the course of the journey stops will be made in over 100 cities for speeches on tariff, reciprocity, arbitration, conservation and Alaska.

The president will spend four days in Michigan as follows:

Detroit, Pontiac, Saginaw, Bay City, Sept. 18; Bay City, Sault Ste. Marie, Marquette, Sept. 19; Marquette, Sept. 20; Grand Rapids, Battle Creek, Kalamazoo, Sept. 21.

SCHOOL NOTES

Boys and Girls Organize Athletic
Associations.

Hurrah for school!

Seat arrangement is in alphabetical order.

Foot ball practice every evening after school hours.

Hazel Seeger has returned to school after a few days' absence.

The German XII class is ready to take up the book "Immen See."

Student in physiology: "When a person dies from heat, does his body get cold?"

Irwin and Norman Cooke entered high school Monday. Two more prospective foot ball players.

Miss Pell, "Please do not talk in the halls." We wonder if this applies to the teachers too.

Visitors during the past week were Jessie McCallum, Nina McWebb, Joana McRae, Alex Cleland and Harry Striffler.

Lost, strayed or stolen—A pair of hose belonging to Jas. K. Found—The above hanging on the western wall of the high room.

The first day in ninth grade algebra but one boy appeared in class. The rest of the freshmen did not know the way to the class room.

The flies have been so annoying that some of the students placed "Tanglefoot" in the northwest corner of the room. Freshies, beware!

A meeting of the Boys' Athletic Association was called and the following officers were elected: Robert Orr, president; Norman McGillivray, vice president; Dorus Benkelman, secretary; Eugene Schwaderer, treasurer; Ray Wickware, manager.

A meeting of the Girls' Athletic Association was called and the following officers were elected: Leone Kile, president; Jessie Duncanson, vice president; Clara Poster, secretary and treasurer. The girls are very enthusiastic over athletics as well as the boys and have organized a basket ball team and a regular schedule of games will be prepared.

Last Monday evening a reception was given in the Presbyterian church in honor of the teachers of the school. All were invited and many attended. After everyone was carefully introduced to each teacher, wafers and punch were served. Then a short entertainment was given consisting of music, duets and recitations. After this a number of relay games were played, both young and old taking part in the contest. All then started for home feeling that they had spent a very enjoyable evening.

CALDWELL'S STORE WILL BE ENLARGED

ADDITION, 45 BY 64, WILL BE
BUILT.

Main Building Also Being Remodelled
and New Front Placed
in Same.

Workmen are busy making cement blocks for the erection of an addition to J. A. Caldwell's implement store on Main St. east. It will be 45 by 64 feet in size and one story, high. The foundation for the structure is already laid and the building will commence as soon as the cement blocks are all made.

The main building is also being repaired and remodelled. A new front is being placed and the business office will be moved to the front of the building.

The completion of the new building and the changes in the older one will provide a big improvement over the present quarters and Mr. Caldwell will be in better trim to look after the wants of his increasing patronage.

Thumb Notes

The work on the new railroad grade from Caro to Wilmot is progressing and two grading gangs are now employed on the work.

A deal has been closed whereby the Thumb Telephone Co. purchased of D. E. Wise the Crosswell, Lexington and Harbor Beach plants. Immediate possession of the property will be given, and the Crosswell plant will be at once reconstructed, something that it greatly needs in order to give patrons satisfactory service.

Returning from a trip to Millington, Mrs. Douglas Cole found the lifeless body of her 18-year-old son hanging from the door of his own room. He had been with his father in the field and had brought the horse to the barn but had not cared for the animal, and went to the house and deliberately took his life. No motive is known. The family is highly respected and lived happily on their farm in Arbela township.

Christopher Kastner of Gaegtown, who had pleaded guilty to violation of the local option law, was released on suspended sentence and placed on probation for one year when his case was considered in circuit court last week. Conditions, respondent to pay \$50, costs of prosecution, and refrain from selling intoxicants. Violation of the latter condition to result in re-arrest and penalty prescribed by law.

MRS. GEORGE JACKSON

Greenleaf Lady Died at Her Home
Sept. 7.

Mrs. Geo. Jackson died at her home in Greenleaf township Thursday, Sept. 7, at the age of 33 years. She was formerly Miss Isabella Morrish and her girlhood days were spent near Port Huron. In 1887 she was married to Mr. Jackson.

Besides her husband and six year old son, she is survived by her mother, three sisters and a brother, all of Port Huron, and a brother living at Pontiac. All were with her at the time of death.

The funeral was held Sunday at the Greenleaf Baptist church, Rev. Willer ton officiating.

MACCABEES WILL RAISE THEIR RATES

New Members To Be Put on Plane
With Old Ones in New
Rating.

The report of the committee in session Wednesday afternoon, recommending the raise of rates for the old members in the Knights of the Maccabees was adopted almost unanimously late that night. The opposition did not show itself very strongly at any time during the convention which was held at Port Huron, a plan developed by the insurgents on Wednesday afternoon being swamped by an overwhelming vote.

The executive committee was immediately empowered to revise the laws of the organization so far as it is necessary to conform with this action.

Further distinction in the classes, one and two, was erased by a later amendment. The action places the new members on a plane with the old ones. The distinction has been in existence for five years.

THE AUTOMOBILE HAMPER.

A pretty salad that is easy to serve out in the open is a pineapple salad, served in lemon cups, placed in a nest of lettuce. The pineapple may be either fresh or canned; garnish with a spoonful of mayonnaise. This salad may be kept with its ingredients separate until the time of serving.

Basket Salad.—The basket may be made of green peppers cut in the form of baskets and filled with any desired mixture, or lemon baskets may be made.

Chicken Salad.—A very nice and dainty salad can be made from canned chicken, using celery and a mayonnaise dressing. The lettuce to serve it on may be carried rolled in a cloth after washing.

When meat is to be broiled or coffee made, carry a heavy piece of wire screen and a bag of charcoal and a few kindlings. Four stones may be found to support the screen and under it a good fire may be laid with the charcoal. Steak may be broiled, or fish, and the pot of coffee heated over the same fire.

Soups of all kinds can be quickly prepared from the canned soups that are such favorites with many.

Prince of Wales Cake.—Dark part: Cream one-half a cup of butter, add a cup of molasses and a cup of strong coffee; sift one teaspoonful each of soda, nutmeg, cinnamon and cloves, with two cupfuls of flour. Add three well-beaten egg yolks and a cup of raisins. Light part: Cream one-half cup of butter, add a cup of sugar gradually. Mix and sift together one cupful of flour with half a cup of cornstarch and two teaspoonfuls of baking powder; add the dry ingredients alternately with a half cup of milk. Cut, and fold in the whites of three eggs. Bake in layers. The filling may be simply bottled frosting, as the cake itself is sufficiently rich with a plain filling.

SUMMER NOVELTIES.

Made of Cretonne In Many Useful and Attractive Forms.

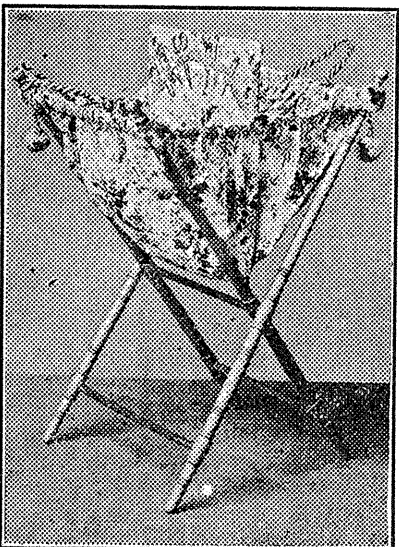

The cretonne sewing stand pictured here is not only pretty, but is a convenient adjunct to the summer porch or sewing room. It is made of cretonne mounted on a wooden frame and may be folded up and carried about to suit the convenience. All the sewing utensils and the threads are mounted on a flat section that slides down inside the stand when it is closed. A plain lining of silkoline or sateen matching the chief tone of the cretonne is put inside the stand. The home carter might provide the frame, and the housewife then could easily drape it and fit it for use.

A most convenient collar box covered with cretonne is of octagonal shape and has a groove in a little inside flap for holding the elusive collar buttons, which can be easily slid in and out.

Among the most useful and attractive of the numerous bags being shown are those of tapestry woven in pictures. Some of these are for carrying slippers, fan or opera glasses. One particularly well adapted to the latter purpose is made of a three inch wide strip of tapestry interlined with stiffening. This continuous strip forms the sides and bottom of the bag, the front and back of which are of plain fabric which is gathered at the top with a cord.

A new voluminous darning bag of cretonne has applied pockets and a needlecase on the outside. A particularly dainty and unique fancy bag is in the form of a Chinese lantern.

In the needlework department of one of the big stores was some pretty and effective work which is quite new. It is made from a heavy wiry silk thread which stands up like ribbon and by means of which beautiful work is easily and quickly accomplished. The colors are handsome, and,

PORCH SEWING STAND.

while the finished work exhibited was chiefly pillows, it has been used upon gowns and also in millinery. The method of use is taught where the materials are sold. In the French and Dresden bouquet effects now so popular this is especially striking.

Casement cloth is the name for the new stencil printed scrim for use in country or beach homes. It is less expensive than the usual scrims and has just enough color to make it appropriate for use in the summer cottage.

Wash Day Made Easy.

In an ordinary wash boiler put one and a half inches of water, then put in three-fourths to one bar of good laundry soap thinly sliced. Let it come to a boil, then put in one and a half to two tablespoonfuls of kerosene oil.

When the soap is all dissolved add enough water to fill the boiler two-thirds to three-fourths full, then put the clothes in. After boiling five to eight minutes they can be removed thoroughly white and clean. Without changing the water you can boil two or three successive batches of clothes.

This method beats all the washing machines ever made. In this way clothes require no rubbing. It saves nine-tenths of the labor on wash day. Try it and be convinced.

Raffia Slippers.

There are new bath slippers which are sanitary if not artistic. They are made of raffia, lined with blue or pink crash, and when soiled can be scrubbed inside and out and put in the sun to dry.

Tub Lore.

Do you know that a band of washing silk or soft linen the size of the waist sewed inside a knitted golf jersey before it is washed will prevent it from stretching and keep it in perfect shape?

To remove wet paint from white material wash the stain with soap and water, then boil in water to which a little kerosene has been added. Again rub between the hands, using soap and hot water.

Dry paint on white material can easily be removed by soaking the stain in turpentine to soften the medium which hardens it to the fabric. It should then be rubbed in the turpentine and washed in soap and water, finishing with ordinary washing.

Paint stains that are old and dry may be removed from woolen goods with chloroform. First cover the spot with olive oil or butter. When the stain is on a fabric the color of which is apt to be destroyed moisten first with a little oil, then remove with ether.

GAGETOWN.

Herbert J. Rogers of Detroit was the guest of his brother, O. A. Rogers, and family Wednesday and Thursday of last week.

Chas. Newton of Vassar was here Thursday and Friday looking over farm property with a view of making a purchase.

Glen Rogers accompanied his uncle, Chas. Newton, on his return home on Friday.

Miss Gertrude Come of Ann Arbor was the guest of Miss Mina Wilson a few days the past week.

A. M. Conley of Caro stopped a few hours in town Saturday on his return from the Elkton fair where he won first money on the "track."

Frank Dear of Birmingham, brother of Charles Dear, was in town Friday and Saturday on business.

Joseph Jasper, while carrying grain from the machine to the granary on Miles Keho's farm west of town on Friday, dropped dead and on examination the blood in his veins was so thick it stopped heart action.

Mrs. Will Greer (nee May Dear) of Kilmanagh visited friends here the past week.

Mr. and Mrs. Cummings of Caro was the guest of Mr. and Mrs. M. R. Truesdell Sunday.

Lloyd McGinn with his car took O. A. Rogers and family to their farm near Vassar Sunday. The weather was fine and all enjoyed the ride especially the children.

Forced to Leave Home.

Every year a large number of poor sufferers, whose lungs are sore and racked with coughs, are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. R. Nelson, of Calamine, Ark., "when all else failed and gained 47 lbs. in weight. It's surely the king of all cough and lung cures." Thousands owe their lives and health to it. It's positively guaranteed for Coughs, Colds, LaGrippe, Asthma, Croup—all Throat and Lung troubles. 50c and \$1.00. Trial bottle free at L. I. Wood & Co.'s.

Pretty soon the leaves will begin to turn scarlet and yellow and brown. The cold days are coming—are you ready for them?

It's not too early to plan for heating during the cold months. You'll probably need a new stove—and you want the best one.

You can have every room in your home warm and comfortable day and night this winter---and with less expense than you paid last year for heating one or two rooms---if you buy a Favorite Base Burner.

The Favorite is the only base burner that pours heat into the house from every square inch of its surface. Every nook and corner---upstairs and down---may be luxuriously and evenly warmed with a Favorite.

You cannot afford to buy a stove without investigating the Favorite. Come and see us now, and we will show you why the base burner that bears this mark will throw out more heat, and consume about half as much fuel as other makes.

LAME EVERY MORNING.

A Bad Back is Always Worse in the
Morning. Cass City People Are
Finding Relief.

A back that aches all day and
causes discomfort at night is usually
worse in the morning. Makes you
feel as if you hadn't slept at all.

Can't cure a bad back until you
cure the kidneys. Doan's Kidney
Pills relieve sick kidneys—make you
feel better, work better, rest better
and sleep better.

The following statement proves the
merit of Doan's.

Fred Hintze, E. Grove St., Sebawa-
ing, Mich., says: "Doan's Kidney
Pills have benefitted me greatly. I
was afflicted with dull, heavy pains
across my loins and mornings when I
arose, my back was extremely lame
and weak. The kidney secretions
were highly colored and there was
sediment in them. In a few days
after I commenced taking Doan's
Kidney Pills, the pain and lameness
was greatly relieved and my back
has not troubled me since. I recom-
mend Doan's Kidney Pills at every
opportunity."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,

ABOUT THE STORY

OF JOAN OF ARC

The Rex Theatre Offers Another
Big Feature Picture for To-
night and Saturday.

Joan of Arc, a Domremy peasant's
daughter, hears supernatural voices
urging her to assist and deliver her
suffering countrymen from oppression
of English invaders.

Orleans was besieged by combined
forces of English and Burgundy. Be-
sieged were reduced to greatest de-
pendency. Joan of Arc is presented
to the Court of Charles VII at Chinon
and is given an audience. The King
places so much confidence in her
plans and determination to lift the
siege of Orleans that he gives her
command of his entire army.

Through deeds of valor and success-
ful terminations of sorties made upon
the besiegers, which she commanded,
great faith is placed in the "Maid
of Orleans." Her enemies began to
greatly fear her. Great terror even-
tually spreads among them and the
siege ends. Joan is greatly honored
and is hailed as the deliverer to the
people.

Later, Joan triumphantly escorts
Charles from Chinon to the corona-
tion services held in the great cathed-
ral at Rheims, where he is crowned
king. The army of Joan of Arc suf-
fers great repulse later in an assault
made upon Paris then held by the
English and is wounded by an arrow.
In the following year she succeeds
in making her way into Compeigne
at that time invested by English. In
May 1430 she headed a sortie against
the besiegers. The movement ends
disasterously and Joan is captured
and held prisoner in an old fortress.
Later she was transferred to the
prison at Rouen.

So great was the hatred of her
enemies and so successful were their
conspiracies against her that she
was finally accused of being a sor-
ceress and condemned to death by
death by burning at the stake. So
terminates the brave and unselfish
career of Joan of Arc.

The increased cost of securing these
pictures compels us to advance the
price of our admission for to-night
and tomorrow night. Admission for
adults will be 15c and children 10c.

Huron County has been doing things the past five years, ordinary fast horses
have been too slow and they have had to have Earth Skimmers in the shape of fast
automobiles. The Huron County Fair Managers have sized up the situation, the great-
ness of Huron County have concluded that nothing was good enough for the Huron
County people except the best. They will therefore exhibit to them the latest mode
of locomotion and allow them to inspect, discuss and witness the only genuine Flying

AS with an expensive, high-power racing automobile, so with groceries. The human machine needs the best fuel to get the greatest efficiency from it—just like the motor car.

GIVE the finest auto bad gasoline and you get poor speed—feed the best man alive on improper food and you see a human wreck. You owe it to yourself—for your health's sake, for your pocket's sake—to feed your stomach with the finest groceries—with good wholesome food. That is YOUR fuel.

Mr. Hall says the company contemplates the erection of a boiler house separate and east of the company plant and installing a steam boiler for the purpose of furnishing steam for heat and power. The steam engine will be placed in the basement of the new elevator building.

Mr. and Mrs. W. H. Murphy left Friday morning for Mackinac Island where they will spend a week with the latter's sisters, Mrs. Chas. Calhoun and Mrs. Todd, and a brother, Richard Jeffrey. On the return trip, they will spend a week with Mrs. Herb Frutchey on the Frutchey ranch near Hubbard Lake and then spend a few days at the state fair. From Detroit, they go to Cleveland to visit friends.

The remains of Mrs. James Ramsey were brought here Wednesday noon from Detroit. The funeral services were held at the M. E. church that afternoon, Rev. W. B. Weaver officiating, and the remains laid to rest in the Elkland cemetery by the side of those of her first husband, Wm. Wallace. Mrs. Ramsey resided in and near Cass City several years, previous to moving to Detroit a few years ago where she has since resided. She is survived by a son and a daughter.

THE END OF TUBERCULOSIS

Protecting the Child.

By DR. EDWARD L. TRUDEAU.

At present the most needed agencies are hospitals for advanced cases and measures to protect the child at home and at school. The advanced case is the most productive source of infection and as yet perhaps the most neglected. The need of protecting the child is shown by the fact that about 50 per cent of children living in the crowded districts become infected by the time they are five years old. Regulation of home conditions, better school hygiene, the segregation of actively tuberculous children and open air schools for those who have latent tuberculosis are measures that should be applied more extensively, the more so because the child shows a strong tendency to recover and the application of open air methods seems even more effectual in children than in adults in preventing and curing the disease.

She Talked Too Much.

She was pretty, as pretty as any bisque doll that any one ever admired and then grew tired of. She met a young chap. "I just love an educated person," she said, giggling. "Why, the man that I go with is just the best educated man I ever seen. He went all through high school and then went to Hartford college." "What college?" asked her escort. "Why, Hartford," she said, "the one that is opposite to Yale." Then her escort fled.—Cincinnati Times-Star.

Everybody Knows Something About Lumber Values

These days, but the homebuilder who listens to the cry of "wait until lumber is cheaper" is not apt to be any nearer his goal on his deathbed than he is today. The Government recommends Timber Conservation and this alone is proof that lumber has a fixed value.

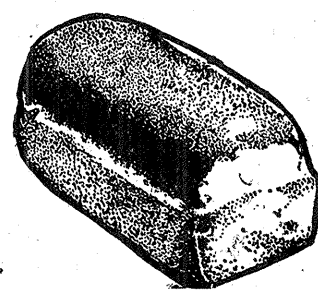

Our years of experience in buying and selling lumber lead us to advise our friends that

NOW'S THE TIME TO BUILD

There's but one crop of timber for most of us. If you contemplate a new home we want to talk with you—we have all grades of lumber. The lowest quality starts at good and goes up. Give us a call and learn the facts about these lumber values.

JOHN SCHWADERER.

A Laird's Mistake.

Some years ago a Scotch laird found on succeeding to his estates that the house contained two portraits of a distinguished member of the family who had flourished during the reign of George III., one by Reynolds and the other by Raeburn. He knew no more of pictures than a Newfoundland dog, and he decided that two portraits of the same individual need not be kept. The Reynolds was retained, while the Raeburn was presented to a public gallery. The worthy man was struck with consternation some time afterward when he found that his gift had been valued at 5,000 guineas, and probably the picture would now fetch double that sum.—London Truth.

A GRUDGING SPIRIT.

Much depends on the way a thing is done. An act which might be taken as a kindness if done in a generous spirit, when done in a grudging spirit may be felt as harsh and even cruel. When Ben Jonson lay ill in poverty the king sent him a paltry message, accompanied by a gratuity. The sturdy, pain stricken poet's reply was: "I suppose he sent me this because I live in an alley. Tell him his soul lives in an alley."—Samuel Smiles.

A Change of a Letter.

A hotel in Switzerland bore on one of its walls the time honored inscription "Hospes, salve!" ("Welcome, stranger!") After rebuilding the legend had to be restored, but the painter, who must have had some experience as a traveler, made a very slight alteration in one of the words and caused it to read "Hospes, solve!" ("Pay, stranger!")

AUTOMOBILE SPEED KING OF THE WORLD.

THREE VIEWS OF "WILD" BOB BURMAN, WHO WILL BE AT THE MICHIGAN STATE FAIR AUTO RACES WITH HIS BIG BENZ CAR.

This is the man who has traveled through space faster than any human being ever traveled before and lived. He has dared to do something that no other mortal ever accomplished before, and through his daring has gained the title of the "World's Speed King." Robert Burman is shown here at the wheel of the monster Benz car which he will pilot in the Michigan State Fair auto races. Burman is the holder of the world's straightaway records for the kilometer, mile and two-

mile distances, and during the past five years has left behind him a trail of records broken and victories won. Burman is one of the most peculiarly constituted men in the world today, living what might be called a dual existence. In every day life he is quiet and unassuming and a thorough business man, but behind the wheel of a racing motor a mania seems to seize him and Burman becomes a man semi-frenzied in his desire to conquer time and set space at naught. Unlike for-

mer drivers who have reached the pinnacle of fame in the world of speed, Burman refuses to retire from hard fought competition with others and relies upon exhibitions of his skill to increase his fame. Traveling through space at the rate of almost two and one-half miles a minute is not conducive to the best of complexions, so the speed king has devised the unique mask shown above to protect his face during his thrilling drives in his monster Benz car.

SATURDAY NIGHT SERMONS

BY
REV. SAMUEL W. PURVIS, D.D.

THE HOLDUP ON THE JERICHO ROAD.

Text, "And who is my neighbor?"—Luke x, 29.

I do not wonder that a great fraternal organization has made this story the basis for their magnificent ritual. They couldn't better link divine and human. The fascinating parable gives us an insight into the heart of God and man. Fifteen miles from Jerusalem is the city of Jericho. The trail led down a wild canyon, through dense forest and giant bowlders. Robbers and outlaws most desperate frequented the road. It was "Your money or your life"—or both. Down the lonely path comes a Jewish trader, his pack on back, his wad buckled tight in belt. At a sharp turn in the road a half dozen desperadoes leap from bushes. There's a short, fierce struggle, a crushing blow on the skull of the wayfarer, and he lies bleeding and senseless.

"Passed by on the Other Side."

The traveler's most naked and half dead. Toward sundown comes returning consciousness. Footsteps are nearing. "God, the merciful," he mutters. "A priest of the temple!" He closes his eyes, half comforted. He hears rustle of sacred apparel, but it quickly passes away. He's gone by "on the other side." The man doesn't belong to his parish, and it's growing dark; it may be a scheme to rob him. There's a meeting of church officers he must attend. He will notify the authorities when he reaches town. But there's another coming! Surely he will help! "A Levite, an officer in the house of God," hopefully whispers the sufferer. "God is gracious after all." He tries to call out, but nearly swoons. The Levite turns and looks at him. "It's a fellow Jew. Too bad some people are so unfortunate. There ought to be better enforcement of law against thieves!" He'll notify some city missionary or slum worker about this case. He must hurry on. His footsteps grow fainter and fainter. Yonder upon a donkey comes a third. The wounded man groans. It's a Samaritan—a mongrel, despised, half heathen Samaritan! How the Jews hated the Samaritans—can't expect anything there! Samaritan will give look of contempt; Jew will give curse. But no, see! He dismounts, gives wine, bathes with oil, soon has crippled Jew on his back, bears him to a wayside inn. Next morning he pays the bill. "Take care of him. If there's any more I'll pay the bill when I come back."

A little group is drinking in greedily the story from Christ's life. "Of these three, who was neighbor to the Jew?" says the Master. There's but one answer, "The Good Samaritan." Nothing in all teachings of Christ brings out the whole gospel better than this parable. The matchless story will never lose its force. Accident and want are still the common lot of mankind. All men are liable to fall among thieves. Disease is the thief that robs men of wealth. Misfortune snatches away the savings of a lifetime. Slander flitches a good name. Strong drink is a robber that deprives men of health, happiness and hope of heaven.

Three Sources of Misfortune.

The miseries of mankind are of three sources. First, from God. "Whom the Lord loveth he chasteneth." "Many are the afflictions of the righteous." Certain ills there are not of human origin. God permits and uses them, if he does not actually send them. The second source is from self. There's a certain inseparable connection between conduct and suffering. "He's his own worst enemy, chaplain," I've had the attendant say to me in prison and hospital. The victim nods his head. "It sure gets ye in the end," he vouchsafes. "It" refers to the life he has led. Dirt, drink and dissipation have as by-products distress, disease and death. A third source is from our fellows. "Man's inhumanity to man," etc. The traveler in the parable fell not among wild beasts, but human beasts of prey: Robbery and murder are not confined to the desolate Jericho road, but are matters of daily occurrence in New York, New Orleans, Chicago and San Francisco. That coughing, emaciated girl I attended and buried yesterday from the tenement was not a victim of a highwayman's club, but overwork, inadequate wages and finally seduction in the shop of a broadcloth robber. He sent a bunch of flowers. My blood boiled. I vow I saw on them serpent's slime. The chief robbers of today are appetite, lust and greed—these three, but the greatest of these is greed. They haunt our national highways too. "Business interests," "wars for markets," "dollar diplomacy" constitute their yeggman vocabulary. Nation and corporation are stained with blood of the helpless. They even rob and fatten on the souls of women and children.

"Who is your neighbor?" A black man stood on a car roof at Johnston, the waters dotted with drowning humanity, he extending his hand, not asking whether Odd Fellow, Methodist or Republican, nor did they notice his hand black or white. They were simply "neighbors" in need. A "bum lamb" in western drover parlance is one too weak to keep up with the flock. He's left to perish with hunger or devoured by coyotes. I pass so many on my way down to the city mission, "bum lambs," weak and wounded outcasts of the flock. God help me! I hear their despairing sob-like cries even now. I wonder if ever I "pass by on the other side?"

EXCESS.

Too much noise deafens us; too much light blinds us; too great a distance or too much of proximity equally prevents us from being able to see; too long and too short a discourse obscures our knowledge of a subject; too much of truth stuns us.—Pascal.

Eskimo Mourning Customs.

All Eskimos are superstitious about death, and, although they hold festivals in memory of departed friends, they will usually carry a dying person to some abandoned hut, there to drag out his remaining days without food, medicine, water or attendance. After the death of a husband or a wife the survivor cuts the front hair short and fasts for twenty-five days.

It Beats the World to cure Rheumatism

Aching and enfeebled muscles should remind you of slowness of tissue repair. Eruptions of the skin and catarrh of the mucous membranes show diminished nerve power in the tissues.

In health or disease there is need of an internal bath. This is best obtained by drinking a glass of pure water with one or two teaspoonfuls of San-Jak 20 to 60 minutes before breakfast, washing the blood. This passes quickly from the stomach and stimulates the bowels to increased peristalsis, overcoming constipation and its attendant ills. It is quickly absorbed and entering the blood stream bathes the cells of the liver and heart, then passes to the brain and washes out the cobwebs and awakens to new life every cell in the body.

San-Jak dilutes theropy secretions and dissolves all abnormal crystalline substances that may be in the blood and urine. SAN-JAK greatly promotes elimination, creates downward peristalsis, stimulates a flow of digestive juices. It dissolves the sticky mucus in the mouth and throat, allowing the membranes to be bathed in their natural secretions. San-Jak is the great medium of exchange in the body, by enabling the kidneys to absorb and eliminate alkaline sulphates which are the products of intestinal decomposition and in renal weakness or the real cause of Bright's disease.

Man does not wear out like a piece of machinery by constant disintegration for he is self renewing. When he loses his ability to self-renewal or fails in process of making young blood, the nerve tissue is not sufficiently nourished and his strength and health fail.

SAN-JAK is the only medicine which will enable you to keep a perfect balance between elimination and renewal of the body. Decay of the body at any time of life is unnatural. Permanent waste of the system can be avoided by the use of SAN-JAK.

Rheumatism, catarrh and bladder trouble, the source of trouble to humanity, is due to a too high or low specific gravity which may be regulated to normal by taking SAN-JAK. Swelling under the eyes, grayish white or waxy color of the skin denotes granular disease of the kidneys. The cure is SAN-JAK.

ESSENTIALS IN JOB PRINTING

THE essential demands of the buyer of ordinary commercial job printing today are Quality, Price and Dispatch. Procrastination is usually the buyer's prevailing characteristic, therefore the printer must rush. While Quality and Price are not logical handmaids, they are in demand by the autocrat of the pocket book and must have consideration. This requires of the printer the faculty of knowing how in the estimating and execution, and, by the way, we're there. As for dispatch, that is merely a matter of capacity, and we regret to state we have not so far succeeded in outstripping our equipment. We will be glad to demonstrate our ability at your convenience.

A FREE Prescription ADVICE

From a physician of 52 years' experience in colleges, sanatoriums and general practice. Weak, nervous men, regain your strength and vigor.

So great was my sympathy for weak men in the early years of my experience that I have made it a special study, and formulated two prescriptions, one for men under 50 and one for men over 50 years of age. In my declining years, I want every man to have the benefit of my long years of careful study, research and long experience. I am now 73 years old and as strong and vigorous as at 40 and the rest of my life will be spent in aiding suffering manhood. I realize that my time is short, but will do all in my power to aid men and women who are helpless and seeking relief. I know there has been a great many disappointed men when they thought relief in their grasp, but let me send you my free prescription and booklet of private lectures to men which is the result of study since I began lecturing to student classes, way back in '71. Since that time I have cured many cases that are now pleased to recommend me.

YOU NEED AID. Let me help you to regain your former standing among men. In short, let me assist you to be yourself once more.

If you are suffering from failing memory, lame back or weakened manhood or nervous difficulties, **LET ME SEND YOU A REMEDY** in a plain sealed envelope that you can use in your own home. I am confident that you will thank me every day in your life after you have tested it for yourself.

Take advantage of this offer NOW before it is too late. Address me personally.

THE END OF TUBERCULOSIS

Fake Cures For Consumption.

By SAMUEL HOPKINS ADAMS.

Any nostrum which claims to cure tuberculosis is a detriment to the patient, since, if it does no worse, it at least diverts him by falsely inspired hopes from the careful regimen of life wherein lies his best chance of recovery. Tuberculosis nostrums, therefore, may be divided into the positively harmful and the negatively harmful classes. In the first class I should put all these containing opium, nash-eesh, chloroform and any considerable quantity of alcohol. Every physician whose work takes him into the slums well knows the typical history of the consumptive working man who puts his faith in this class of nostrums. Stimulated by the alcohol or lulled by the morphine into fictitious hopefulness or security, he continues his unchanged habits of life until the final breakdown comes with appalling swiftness. To those of the medical profession I leave it to say how swiftly incipient tuberculosis becomes galloping consumption under the influence of these drugs.

A Tree With a Pedigree.

Trees with pedigrees are uncommon enough, but there is one in Washington with a pedigree of unusual interest. This tree grew from an acorn that the late Ethan Allan Hitchcock, secretary of the interior, took from an oak that grew from an acorn Charles Sumner picked from a tree over the tomb of Washington and sent to the czar of Russia. The emperor had the acorn planted in the grounds of the Peterhof palace, in St. Petersburg, and it was while Mr. Hitchcock was ambassador at that capital that he got his acorns and had them planted at his home in Missouri. So, it chances, the young tree in the White House grounds is the grandchild of the Washington oak.—Washington Star.

As usually treated, a sprained ankle will disable a man for three or four weeks, but by applying Chamberlain's Liniment freely as soon as the injury is received, and observing the directions with each bottle, a cure can be effected in from two to four days. For sale by all dealers.

When Chocolate Was Denounced.

Strong passions were roused in the seventeenth century among those who thought chocolate was an invention of the devil. A formidable treatise was written in order to denounce the use of the beverage by monks. The treatise appeared in 1624, but the monks saw to it, by destroying every copy that came their way, that its circulation was small and brief. Chocolate houses succeeded coffee houses in London as centers of a supposed greater refinement, although Roger North described them as centers for the benefit of "rooks and cullies of quality, where gaming is added to all the rest," and where plots against the state were hatched by idle fellows.—London Graphic.

"That boy of Joggins' started out very ambitiously. When his father wanted him to settle down to steady work he said he meant to do things in breaking records."

"Well, did he keep up a breaking pace?"

"Rather. He broke his father, then he broke into a bank, and now he's breaking stones."—Baltimore American.

Foley's Honey and Tar Compound.

Still retains its high place as the best household remedy for all coughs and colds, either for children or grown persons. Prevents serious results from a cold. Take only the genuine Foley's Honey and Tar Compound, and refuse substitutes. L. I. Wood & Co.

Smoothered Genius.

Genius unexercised is no more genius than a bushel of acorns is a forest of oaks.

A Great Advantage to Working Men

J. A. Maple, 125 S. 7th St., Steubenville, O., says: "For years I suffered from weak kidneys and a severe bladder trouble. I learned of Foley's Kidney Pills and their wonderful cures so I began taking them and sure enough I had as good results as any I heard about. My backache left me and to one of my business, expressman, that alone is a great advantage. My kidneys acted free and normal, and that saved me a lot of misery. It is now a pleasure to work where it used to be a misery. Foley's Kidney Pills have cured me and have my highest praise." L. I. Wood & Co.

LOVELY MRS. ASTOR.

Wherever She Appears She Outshines the Debutantes in Beauty.

The beautiful Mrs. Astor, who, since her divorce from her husband, John Jacob Astor, has made her home in England, was one of the few American women hidden to the royal inclosure on Ascot day. This ought to be a contradiction of the reports that Queen Mary snubbed this charming American woman, for had the queen chosen she could have erased Mrs. Astor's name from the list of invitations to the inclosure. Mrs. Astor's gowns have long been noted for their beauty and originality. On Ascot day she intro-

MRS. AVA WILLING ASTOR.

duced to English eyes the idea of wearing flesh color as lining for a gown. Her costume was of pink, the flesh color showing on the shoulders and at a distance giving the blouse the effect of being very décolleté. On coronation day Mrs. Astor, on the invitation of the Duchess of Portland, the queen's intimate friend, viewed the ceremonies from the peeress' stand.

Mrs. Ava Astor, as she now calls herself, is practically the only member of the Astor family which the elder Waldorf Astor tolerates. His feud with the New York branch of the Astor family has been of long standing. Mrs. Astor is the friend of Mrs. Waldorf Astor, who was Miss Nannie Langhorne of Virginia and is a sister of Mrs. Charles Dana Gibson. Owing to the fact that she is a divorcee Mrs. Waldorf Astor is also persona non grata with the straitlaced English queen, who is intolerant of divorcees, no matter where the fault may lie. Rumor says Mrs. Ava Astor is tiring of England and is contemplating returning to America soon. It is expected that she will visit relatives in Philadelphia.

WASHING GLOVES.

A Method That Keeps Chamois Soft and Supple.

Chamois or doekskin gloves may be washed at home. Into a basin of lukewarm soapsuds they are plunged, but not on the hands. Wooden trees are ideal for drying them. With trees they need not be taken off when wet, as one must do if hands are used. When soaking in the suds squeeze and rinse arduously and if very dirty give a second bath of fresh suds. The secret is never to rinse in clear water. Stick to the suds. The soap left to dry in keeps doekskin supple and soft. When removed from the basin, after squeezing out as much water and soap as possible, wring them well in a towel, then pull gently into shape, button them together and hang out over a line in the open air to dry.

They should not be hurried and dried before a hot fire, though a warm place will do no harm. When practically dry they must be rubbed in the hands, when the kid will be found quite soft and pliable.

Cheap Disinfectants.

Disinfectants are sometimes easily made. The following is a refreshing one for a sickroom or any other room that has an unpleasant odor: Put some freshly ground coffee into a saucer and in the center place a small piece of camphor gum. Light it with a match. As the gum burns allow sufficient coffee to consume with it. The perfume is very pleasant and healthful. It is far superior to pastilles and much cheaper.

Powdered charcoal is another good disinfectant. It is prompt in absorbing effluvia and gaseous bodies and renders harmless and even useful those bodies which are easily changed.

A third is common copperas, called sulphate of iron, which in its crude stage is quite cheap. It should be dissolved in water in the proportion of one pound of copperas to two gallons of water and thrown over ill smelling places. It is one of the simplest and most convenient deodorizers and is applicable to sinks and gutters.

New Meat Platters.

The new stands to hold a meat platter, which come in openwork silver, in oval form, have silver feet to raise the dish slightly from the table.

The stand divides in the middle and can be adjusted to hold any platter. One of the models has a small alcohol lamp beneath the opening to keep the meat hot.

While in solid silver such a stand is extremely costly, yet very good designs can be found in plated ware. These stands are highly useful, as they do away with unsightly asbestos mats and make scarred tables impossible.

Deford Items

Jess Sole is able to labor again.

More new side walk is being built in our burg.

Mrs. William Cooper spent Sunday at Owendale.

Dredge on Mud Creek is nearing section 34, Kingston.

Andrew Stephens contemplates to build a new barn this season.

Nelson Brown is in poor health. Don't seem to come back under any treatment.

Alex Modrey of the town line has a good work horse, purchased from Albert Wilson.

It will take this week and in some cases two weeks to make the late beans what they should be.

Eight tubs will cover the amount of "cupes" at Wilmot this season. Price not enough—people think.

There is talk that the cream plant will become a full developed stalk ere the first of October. Wait and see.

We are informed that Wilmot will link hands with Caro this fall so that sugar beets from the former named will go to the plant by railroad.

Deford is a bee hive every day now, Sunday excepted. No sluggard here. Everybody hunts up his aunt when hungry and gets wise for a good meal.

The new street running on the east side of A. A. Livingston's store northward is graded to mail carrier Reed's new barn. Yes, and well done.

Deford is laying out streets northward and if she does not meet Cass City more than half way it will be because M. H. Quick won't sell his bean land for less than New York prices.

If the doctor is called to pick out shot out of the corporal structure of a rash sinner down near ———. It don't pay to fool too long with popular timber, whether silver leaf or lombardy.

On the 7th Everett Niles of the town line sold all his worldly goods. Can't say for sure where he is going for when asked in regard to the matter he gave us something between a song and a prayer that staggered both our hearing and understanding.

Napoleon and "Julius Caesar."

Bonaparte was one night at the play in Paris, and it happened to be "Julius Caesar." Talma performed the part of Brutus, and when he knelt to Caesar and said, "Give us back our liberties," the acclamations all over the house were so great that nothing could be heard on the stage for many minutes. Bonaparte meanwhile was taking snuff in his most violent way, which he always did when agitated. The next day he sent orders that that play was not to be acted any more.—Journal of Hon. Mr. Calvert.

An Uninstructed Delegate.

An Iowa representative was telling a colleague of the struggles a congressman had encountered in his efforts to mount the ladder of fame.

"And," the Iowan concluded, "he never went to school in his life! All the same, he is a successful business man and was prominent enough long before his election to be sent as a delegate to the Chicago convention."

"I see," mused the new congressman, "one of those uninstructed delegates we hear so much about."—Chicago Record-Herald.

A Drop of Blood

Or a little water from the human system when thoroughly tested by the chief chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., tells the story of impoverished blood—nervous exhaustion or some kidney trouble. Such examinations are made without cost and is only a small part of the work of the staff of physicians and surgeons under the direction of Dr. R. V. Pierce giving the best medical advice possible without cost to those who wish to write and make a full statement of symptoms. An imitation of nature's method of restoring waste of tissue and impoverishment of the blood and nervous force is used when you take an alterative and dyer's extract of roots, without the use of alcohol, such as

Dr. Pierce's Golden Medical Discovery

Which makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgment. Get what you ask for!

PLEA FOR THE STUPID CHILD

Continued from first page.

plication necessary to accomplish this is impossible. And yet one-third of the school children are found to suffer from defective vision in various degrees. This is a condition which is easily remedied in the majority of cases by proper treatment.

One of the common causes of backward children are adenoids and tonsils. These are lymphatic growths in the throat which fill up the upper part of the throat and render breathing through the nose difficult or impossible. Such a child has a characteristic facial expression and is known as a mouth breather. Not only is the face affected, but backwardness in the development of the entire system is also caused. These are readily removed by a slight surgical operation.

See that the child receives plenty of fresh air and exercise. The body needs plenty of systematic exercise in the open air. A healthy body and a healthy brain go hand in hand and one seldom finds one without the other. See that the child's study and sleeping rooms are well ventilated so that it will not be poisoned by foul air.

A healthy start in life means health, wealth and happiness in later years. See that the child lacks none of the opportunities for this development.

If the child is frail or does not learn readily, look for a cause. There are many minor ailments and defects, the correction of which may be the turning point in the life of your child.

The best is none too good for him. See that no stone is left unturned in bringing the child to a healthy maturity and you will be astonished at the results.

THUMB NOTES.

Sandusky has a badly bungled job on its hands in its water works system according to the Farmer. That paper says that nine-tenths of the joints in the water pipes leak and will have to be taken up and repaired.

Miss Evelyn Bland, who was arrested at Vassar in company with Robert Davis and Charles Connellen after they had flagged a Pere Marquette train at Wedham, has been deported into Canada at Port Huron. Connellen says he will follow her and marry her. The trio were fined for carrying concealed weapons, dark lanterns, etc.

Directors of the Michigan Sugar company at a meeting in Detroit on Monday decided to increase the capacity of the plant at Sebawaing to 1,000 tons of beets a day. This will mean nearly doubling the plant's slicing capacity, which is about 600 tons a day. It was decided also to install at the Sebawaing plant a Steffen's house, similar to those al-

ready added to the company's plants in Saginaw, Caro and Croswell. The purpose of this addition is to bring greater economy in operation by a conservation of material.

Raphael Phillips, 16 year old boy living in Wisner township, Tuscola county, lost both hands last Wednesday morning by the accidental discharge of a shot gun while starting out on a hunting trip. Both barrels were discharged when he rested his hands on the muzzle of the gun and they were so mangled that amputation of both at the wrists was found necessary when he was taken to a Bay City hospital.

There was not anyone playing poker at C. M. Oldfield's store, Port Sanilac last Saturday, and the great American game is not played there, but Mr. Oldfield would not have hesitated to sit in a game of the rest of the players would have let him hold the five pairs of twins that were in his place of business at one time last Saturday afternoon. The incident was quite an attraction for a while and drew a large audience. It was not an advertising scheme, but one of those unusual happenings that occur now and then.—Sandusky Republican.

Wednesday morning during the heavy blow the tug Sarnia City came into Harbor Beach for coal. The tug Sarnia City, Reid and Fisher were towing a raft of logs from Georgian Bay to Sarnia and when about twenty-five miles northeast of Pte. Aux Barques the tow line parted and the crews had a hard time in the heavy sea and the wind which was blowing a gale at that time, but they succeeded in recovering the logs and the Fisher and Reid held them while the captain of the Sarnia City made the run to Harbor Beach for coal. He returned immediately after sending some dispatches. The raft is one of the largest ever towed down the lake. It contains 6,000,000 feet of logs.—Harbor Beach News.

Clicksby Warner, son of F. W. Warner, five miles southeast of Marlette, was the victim of a peculiar accident Monday evening, in which he had his nose nearly cut off. Late in the evening he stepped out of the house for a moment, leaving the door open behind him. On returning he supposed it still open and started to walk through the open space. Instead he found that it had swung back and he crashed into the glass in the door, running his head through it before he could stop. The glass made a vicious cut in his nose. On one side it was cut clear to the nostril and the gash extended up over the bridge and around on the other side. Dr. Atkinson was called and dressed the wound which caused Mr. Warner considerable loss of blood.—Marlette Leader.

FUTURE OF AUTOMOBILE.

Prices Are Coming Down to Reasonable Levels.

Manufacturers of automobiles are seeing the light. They have gradually come to realize that the permanency of their business cannot rest entirely upon high priced cars. Therefore, they are coming down now to turning out cars which are within the reach of the thrifty masses and are doing big advertising to popularize these low priced cars. An example of this tendency is found in the recent move on the part of the U. S. Motor Co. to manufacture a two-seated runabout at the cost of but \$350, and for the purpose, as the company says, to bring its products within the reach of buggy users. Other manufacturers, while not openly cutting prices, are doing so secretly, but eventually they will see the wisdom of taking a square stand for more reasonable prices for their machines.

A good many manufacturers are also making a bid for the commercial truck business. Therein lies a great future for the industry if properly handled, but not before the cost of trucks is more reasonable and not beyond the reach of the vast majority of retailers. Manufacturers may preach to retailers until they grow hoarse, about the great economy of automobiles over horse-drawn vehicles but they cannot overcome their prejudice against putting between \$1,800 and \$2,500 in a truck. To them this represents a small fortune. But let the cost of trucks become more reasonable and this end of the automobile industry will flourish as never before.

The bicycle industry went through such an experience. When bicycling was a fad manufacturers had no difficulty in getting all the way from \$75 and \$125 for a machine. But there came a sudden drop in the demand until now as good a wheel may be had for \$25 as that produced years before for \$100. However, the automobile is by far the most useful conveyance and because of that reason may escape the many disasters that overtook bicycle plants when the craze for whelming suddenly vanished.—Harbor Beach Times.
