## COME, WITH THE BOOSTERS STAND

CASS CITY IMPROVEMENT ASSO-  
CIATION ORGANIZED.

Permanent Officers Will Be Elected  
Oct. 3 and Meetings Held  
Once a Month.

Be a booster!  
At a meeting of citizens held Tues-  
day evening an improvement associa-  
tion was formed, by-laws adopted  
and a date selected for the election  
of permanent officers. The associa-  
tion is broad, embracing all citizens  
in town and country, who are desir-  
ous of devising ways and means for  
the common good of the entire com-  
munity.

Here are the by-laws adopted:  
Realizing that an association among  
those especially interested in the de-  
velopment, growth, prosperity and  
beauty of Cass City and the neigh-  
boring territory would prove more ef-  
fective to bring about these ends,  
and also would be beneficial and  
helpful individually and collectively,  
we, the residents of this locality,  
have decided to form such an associa-  
tion, and to adopt the following by-  
laws:

First—The name of this associa-  
tion shall be "The Cass City Im-  
provement Association."

Second—The aim of the associa-  
tion shall be to develop a united ac-  
tion among its members so that we  
might be in position to aid and as-  
sist any movement tending to develop  
this village and the country sur-  
rounding same, to urge the estab-  
lishment of industries that might be  
interested in this section, to keep in  
touch with civic improvements, and  
to keep and develop a lively interest  
in all matters in which our inhabi-  
tants should be interested, and to  
boost Cass City.

Third—Any person is entitled to be-  
come a member of this association  
who is interested in the objects for  
which it is formed as above outlined,  
and on payment of annual dues of  
one dollar.

Fourth—The officers of this associa-  
tion shall be as follows: President,  
vice-president, secretary and treasur-  
er, each of whom shall hold office six  
months. The first meeting for the  
election of officers shall be on Oct. 3.

Fifth—The duties of the officers as  
above outlined shall be those that  
are usually incumbent upon such of-  
ficers. There shall be an executive  
committee of five members appointed  
by the president. The president and  
secretary shall be members ex-  
officio.

Sixth—There shall be a meeting of  
the association at least once a month.

## SUPPLEMENT TO DIRECTORY.

A number of new telephones have  
been installed recently in country and  
city residences and business houses  
by the Cass City Telephone Co. The  
company has just issued a supplement  
to their telephone directory which  
contains the names of the new pa-  
trons of which there are 132. A copy  
may be secured at the company's of-  
fice.

## CROP RECORD OF W. F. SKINNER AND ROBT. WARNER

One Brings in News of Big Yield  
of Squash and the Other of  
Beans.

Robt. Warner of section 17, No-  
vesta, picked 491 pods of beans from  
5 stalks all grown on the same row  
within 10 rods distance. The aver-  
age number of pods to the stalk was  
98 and the largest stalk held 149 pods.  
All the stalks were grown one to a  
hill and all the pods were filled with  
beans.

The row in which these beans were  
grown was put in with a drill. The  
machine ran out of seed when this  
row was planted and it only put in  
one occasional bean. Mr. Warner be-  
lieves this remarkable growth was  
due to thin drilling and that that  
method might prove more profitable  
than when more seed is planted. The  
thin drilled were about 10 days later  
than the remainder of the field,  
though the seed was of the same var-  
iety.

Squash Record.  
W. F. Skinner of Greenleaf has got  
the squash record up to date. From  
one vine he picked four Golden Hub-  
bard squash which balanced the scales  
at 226½ pounds. The smallest one  
weighed 40 pounds and the largest  
one 76½ pounds.

## PROPOSITIONS ADOPTED BY MODERN MACCABEES

Options in Rate Adjustment as Ap-  
plied to Old Members in  
Class 1.

The propositions adopted by the  
Modern Maccabees for their rate re-  
adjustment, as applied to the old  
members in Class 1, are as follows:

Any member may transfer to Plan  
B (sixty year term), Plan C (seventy  
year term), Plan D (whole life),  
Plan G (seventy year annuity), by  
paying the rate-provide for in such  
plans, at three years less than his  
attained age.

He may transfer to Plan D (whole  
life), or Plan G (seventy year annu-  
ity) by paying the rate as provided  
for said plans at age of entry into  
the society, by having the present  
value of the difference between his  
rate at entry age and attained age,  
charged against his certificate to be  
deducted at death without future in-  
terest on the amount of said lien.

If he does not elect before Decem-  
ber 1st, 1911, to transfer to any of  
these plans, he may continue to pay  
his present rate and the value of the  
difference between said present rate  
and the rate at his attained age, will  
be charged against this certificate  
and be deducted at death with com-  
pound interest at 4 per cent.

Our prices on Suits and Over-  
coats will stop you from looking  
around. Crosby & Son.

of underwear for men, boys, ladies,  
misses and children. Will sell for  
25c, 50c, 75c and \$1. Call and in-  
spect them. A. A. Hitchcock. 9-22-1p.

Mrs. A. W. Thomas of Saginaw will  
be at the home of Miss M. Murphy  
from Thursday until Saturday of next  
week. Would be glad to meet any  
one interested in Viavi. 9-22-1p.

## PT. HURON LOOKS THUMBWARD NOW

PT. HURON BUSINESS MEN WANT  
ANOTHER RAILROAD.

Thumb Business Men Will Meet in  
That City Soon to Dis-  
cuss Project.

Pt. Huron is to be the center of  
discussion for another transportation  
line into the Thumb at a meeting to  
be held in that city during the lat-  
ter part of September. At a recent  
meeting of the Pt. Huron Young  
Men's Business Association a com-  
mittee was appointed to make all ar-  
rangements for this event, which will  
consist of a conference of the lead-  
ing bankers, merchants and shippers  
of Huron, Sanilac and Tuscola coun-  
ties and representative citizens of  
Pt. Huron. They will thoroughly dis-  
cuss the proposition at this meeting.

The various cities and towns of the  
Thumb district will undoubtedly lend  
their support to this progressive  
movement on the part of the Pt. Huron  
business men.

With Saginaw on the west and Pt.  
Huron on the east, both looking to-  
wards the rich Thumb country and  
its vast resources and both launch-  
ing campaigns for railroads, the se-  
curing of more transportation facili-  
ties for this section looks more prom-  
ising each day.

## PATTERSON-PULFORD

Miss Vida Coates Patterson Becomes  
Bride of Chester M. Pulford of  
Detroit Wednesday Evening.

Wednesday evening, at the resi-  
dence of Mr. and Mrs. James Ten-  
nant, Houghton street, occurred a  
pretty wedding when Miss Vida  
Coates Patterson was married to  
Chester Melbourne Pulford of Detroit.  
About forty guests were present to  
witness the ceremony which took  
place at six o'clock and was read by  
Rev. J. A. Schweitzer, pastor of the  
Evangelical church, the Episcopal  
service being used.

The home was beautifully decorat-  
ed, the color scheme being yellow and  
white with quantities of asters in  
evidence. Miss Ethel McGregory pre-  
sided at the piano and played the  
wedding march. The bridal party in-  
cluded Miss Mable McKillop of Walk-  
erville, Ont., maid of honor; Miss  
Beatrice Pulford of Detroit, sister of  
the groom, bridesmaid; George Duck  
of Windsor, best man.

The bride wore a gown of white  
duchess and brocade satin with sil-  
ver bugle trimming. The convention-  
al veil was held with orange blos-  
soms and she carried a shower bou-  
quet of brides' roses. The gown of  
the maid of honor was of golden-col-  
ored satin and the bridesmaid was  
dressed in yellow marquisette over  
white satin. Both carried white as-  
ters tied with golden colored tulle.  
The groom's gift to the bride was a  
ring, a half hoop of pearls, and to  
the bridesmaid, maid of honor and pi-  
anist, each a set of gold cuff links.  
The bride's gifts to them were four-  
leaf clover pins of pearls. The  
groom's gift to the best man was a  
case of pipes.

Following the ceremony, a two-  
course buffet supper was served by  
the Misses Miriam Fritz, Vernita  
Treadgold and Donna Patterson.

An array of wedding presents at-  
tests the esteem of an unusually  
large circle of friends and well wish-  
ers. The out of town guests were:  
Mrs. Clinton, Misses Lillian and  
Nellie Clinton, Mrs. E. S. Wigle, Miss  
Clarice Coulter and Miss Lucille  
Cruise, of Windsor, Ont.; Dr. and  
Mrs. F. W. Pulford, parents of the  
groom, Detroit; Mr. and Mrs. D. L.  
Killop, Walkerville, Ont.; Mrs. D. L.  
Patterson and daughter, Donna, Rod-  
ney, Ont.; Mr. and Mrs. Rupert Par-  
is, Lansing, Mich.

The bridal couple left Wednesday  
evening by auto for Saginaw and after  
a trip through the eastern states  
and northern Ontario, they will be at  
home to their friends after Dec. 1  
at 145 Webb ave., Detroit.

A good place to meet your friends  
is at the Rex Theatre. Always a  
good show.

## STANDARD CONDENSED MILK COMPANY

TAKE OVER CONDENSED MILK  
PLANT AT DEFORD.

Company Intends to Install More  
Machinery and Increase  
Size of Plant.

The Standard Condensed Milk Co.  
has taken over the creamery and  
condensed milk plant of W. M. Neep-  
er & Son at Deford, and will enlarge  
the plant by building an addition to  
the present factory. The company  
also intends to install more machin-  
ery and confine its products entirely  
to the highest grades of condensed  
and evaporated milk.

The Standard Condensed Milk Co.  
has been organized under the laws  
of the state of Michigan with a cap-  
ital stock of \$60,000, divided into  
6,000 shares at \$10 each. The offi-  
cers are: W. M. Neepner, Deford,  
president and general manager; H.  
G. Carter, Detroit, vice president; M.  
Poole, Detroit, treasurer; Fred L.  
Hall, Cleveland, secretary; Chas. R.  
Louds, New York, chairman board  
of directors.

Mr. Neepner says that material for  
building will be placed on the  
grounds the latter part of next week  
and the work will be rushed from  
that time on. Strong efforts will  
be made to have it completed within 90  
days. The plant will have a capacity  
for handling 40,000 pounds of milk  
daily and receiving stations will be  
established at various points within  
a 15-mile radius of Deford. E. J.  
Neepner will assist his father in the  
management of the plant.

"We expect to employ from 35 to  
40 hands in the factory besides the  
managers of the receiving stations  
and the milk haulers," said Mr. Neep-  
ner to the Chronicle Tuesday. Deford  
citizens are enthusiastic over the  
improvements contemplated in the  
company's plant.

R. S. Brown, for many years a  
resident of Elkland and who has held  
the office of justice for a number of  
terms in that township, celebrated  
the 75th anniversary of his birth on  
Sept. 3. In honor of that event, the  
members of the Masonic and Eastern  
Star lodges at Gageton gave a party  
Wednesday evening. The gathering  
was also in the nature of a farewell

## BALL-SOUDEN.

A quiet wedding took place at the  
farm home of Mr. and Mrs. John  
Ball, 4½ miles northeast of Cass City,  
Wednesday evening, Sept. 20, when  
their daughter, Minnie, was united  
in holy wedlock to Luther Souden, a  
prosperous young man of Greenleaf.  
The ceremony was performed in the  
presence of only the immediate rela-  
tives and friends. About nine o'clock  
the young couple, attended by Miss  
Grace Ball, sister of the bride, and  
Floyd Reid, took upon themselves  
the solemn vows pronounced by Rev.  
Willerton of Argyle.

After congratulations, the assem-  
bled company retired to the dining  
room where they were served to a  
bounteous wedding supper. The  
bride was the recipient of a large  
number of beautiful gifts.

Guests from Cass City were Mr.  
and Mrs. John W. Ball, Mr. and Mrs.  
Henry Ball and Clifton Ball.

Both young people are highly re-  
spected and their many friends join  
in wishing them a long and happy  
life. Mr. and Mrs. Souden will begin  
their wedded life on the groom's farm  
in Greenleaf township.

## W. J. CAMPBELL BUYS NEAR KALISPELL, MONT.

Writes to His Friends Through the  
Chronicle About the Crops  
of Montana.

Kalispell, Mont., Sept. 10, 1911.

Dear Chronicle:  
Please change the address of my  
paper from Fortine, Mont., to Kalis-  
pell, R. F. D. No. 2, Mont. We have  
purchased property and now live just  
outside of the city. We are very  
much pleased with our new home.

Kalispell is a nice little city of  
8,000 people, situated in the Flathead  
valley. This valley is one of the  
richest valleys in Montana. It pro-  
duces hay, grain, stock and fruit. The  
climate is just grand. Does not get  
very hot, the nights are always cool  
and the winters are not severe. High  
winds, electric storms, blizzards, etc.,  
are almost unknown here. In talk-  
ing with the secretary of the Farm-  
ers' Insurance Co. he said the com-  
pany never had but two losses from  
lightning and they were only small  
damages.

Fruit is one of the principal crops.  
Apples at the present time are  
showing up well and promise a big  
crop. The usual price for apples is  
\$2.00 per box (40 lbs.) and find a  
market in New York and other east-  
ern cities and in London, England. It  
may seem strange why the western  
fruit brings such prices when it  
comes in competition with eastern  
fruit where a barrel of apples holding  
three boxes brings about \$1.50 to the  
grower. This sunny climate seems  
to put the proper coloring on every  
apple and no wormy apple is allowed  
to go into a box. In fact if one  
wanted to find an apple with a worm

valuable prize for a suitable rally-  
ing cry—one that will stick to Cass  
City until it is old and silver-haired.

Cass City has a number of good  
points and attractive features. The  
slogan that best fits the bill in the  
opinion of the Improvement Associa-  
tion will take the prize.

## The KITCHEN CABINET

A MAN is the healthiest and happiest when he thinks the least of health or happiness. To forget an ill is half the battle.

### A FEAST OF GOOD THINGS.

The following are a few dishes that may be acceptable when looking for something out of the ordinary:

**Almond Pudding.**—Line dessert cups with strips of sponge cake. Make a boiled custard of two eggs, a half cup of sugar and a pint of milk. When cool flavor with vanilla and add two-thirds of a cup of chopped blanched almonds. Chill and serve very cold.

**Caramel Trifle.**—Take three well-beaten eggs, add a half cup of sugar, one tablespoonful of blanched, chopped almonds, four tablespoonfuls of boiling water, some slices of sponge cake, a teaspoonful of almond extract and a tablespoonful of gelatine. Take two tablespoonfuls of the sugar and brown in a saucepan, add the gelatine dissolved in the boiling water, then the rest of the sugar and the eggs, stir over the heat until thick, but do not boil. Remove from the fire and add the extract. Arrange the slices of cake in a glass dish and decorate with whipped cream and finely chopped almonds.

**Braised Tongue.**—Put a fresh tongue into a kettle and cover with boiling water and cook slowly two hours. Take the tongue from the water and remove the skin and roots. Place in a casserole and surround with a third of a cup each of celery, carrot and onion, cut in dice and a sprig of parsley; then pour over four cups of sauce. Cover closely and simmer two hours, turning after the first hour.

**Sauce for the tongue:** Brown one-quarter of a cup of butter, add one-quarter of a cup of flour and stir until well browned. Add gradually four cups of water in which the tongue was cooked, season with salt and pepper. One and a half cups of stewed and strained tomatoes may be used instead of the water.

A delicious tea cake may be made by using any simple cake recipe, lay on top just before putting into the oven sliced or quartered peaches, sprinkle with sugar and a dusting of cinnamon, and bake.

### LAME EVERY MORNING.

A Bad Back is Always Worse in the Morning. Cass City People Are Finding Relief.

A back that aches all day and causes discomfort at night is usually worse in the morning. Makes you feel as if you hadn't slept at all.

Can't cure a bad back until you cure the kidneys. Doan's Kidney Pills relieve sick kidneys—make you feel better, work better, rest better and sleep better.

The following statement proves the merit of Doan's.

Fred Hintze, E. Grove St., Sebawing, Mich., says: "Doan's Kidney Pills have benefited me greatly. I was afflicted with dull, heavy pains across my loins and mornings when I awoke, my back was extremely lame and weak. The kidney secretions were highly colored and there was sediment in them. In a few days after I commenced taking Doan's Kidney Pills, the pain and lameness was greatly relieved and my back has not troubled me since. I recommend Doan's Kidney Pills at every opportunity."

## BIG IDEA BEHIND THE SAGINAW INDUSTRIAL EXPOSITION

The exposition which is to be held in Saginaw this year, from September 22 to 30, the fourth one, by the way, which the ambitious city has offered, is more than a mere display. It has a larger idea behind it than the mere exhibition of products or raw materials, or frivolous entertainment. The industrial exposition this year is built on a broader base, has a more definite purpose and a conscious aim. The selfish may call it utilitarian, the wise will see in it a beneficial proposition. There is a mighty object-lesson behind it. There is understanding and progression woven into the fabric of the exposition. Compared to other expositions it is radically different in both scope and character. Any city can put up a display, invite the world of jobbing interests to assist and make a large volume. But when the lights are turned into the big sign on the front of the Auditorium where the exposition is to be held it will announce to the world this truth, "The goods displayed here are made in Saginaw and used everywhere." And it will be absolutely true. Every article on display in the huge building will be the product of Saginaw's factories. This

zens that they may avail themselves of the example.

### The First Land Show.

With the exposition this year comes a new development. The element which is bringing Saginaw to the front so rapidly has not been slow to recognize the fact that all the attention must not be devoted to the city. The development of the rural communities is seen to be as important in the comprehensive scheme of development, and for this reason the products of the soil will be arranged in an additional building where Saginaw county may point with pride at the things her sun and soil can produce. More than that, there will be a liberal education along with the exhibit. Not only will it show what the farmer can do, but how he does it. There will be shown all the modern appliances which the progressive farmer finds valuable aids to him. There will be shown all the pests which assail him, the manner of exterminating their treatment, the method of treating together with illustrated lectures on the ways and means of prevention and cure.

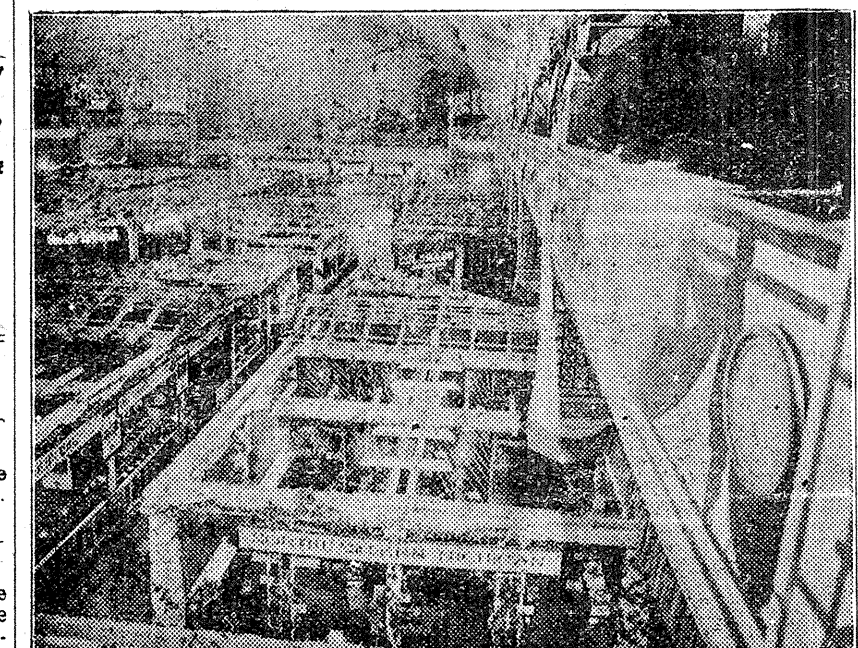

MICHIGAN FRUIT AND VEGETABLE DISPLAY.

in itself is no mean accomplishment when one considers the great capacity of the building and reflects that only a city of wonderfully diversified industries could make such a boast and make it good with a great variety of products in which there is little if any duplication. The exhibit is truly representative in character.

But it is more than that. Statistics show that Saginaw has added to her manufacturing resources, assets and capital during the past decade nearly three hundred per cent, that it is a progressive community of widely divergent manufactures. The reports show that there has been no commercial stagnation in Saginaw, even when panic afflicted other parts of the country. The reason is believed to lie in great measure with the diversified industries, together with a uniform cooperation and a consistent plan of development. To gather together these threads and lead them to a focal point where the results could be shown in concrete form, where results tangible and visible could be presented to the world; where correct

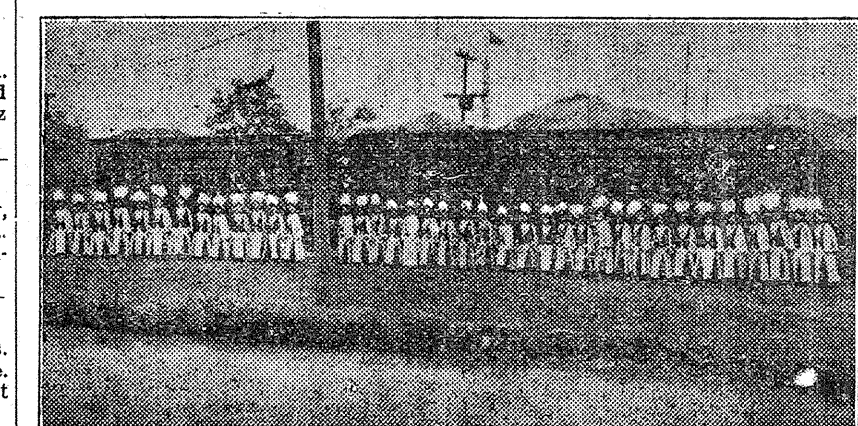

Development of the highways as arteries of trade and travel will be shown graphically. Stone road building in all its phases will be illustrated and there will be analyses of soils, approved methods of construction under all conditions, examples of all the machinery used in the construction of the ties that bind the city to the country. This also is a great development feature and has behind it the big idea of a community progressing as a whole.

Entertainment Features.  
Attractions have not been neglected. Events which will rest the serious attention and divert the mind for a brief time will be present in abundance, for the scope of the exposition is big enough to accommodate all these phases. Chief of the attractions is the NaVassar Ladies' Band of forty pieces, under the leadership of Augusta Dial, who ranks with the great band masters of the world. It is the first appearance of this superb musical organization in Saginaw, and so far as known, in Michigan. But they have

ARTISTIC ARRANGEMENT OF BOOTHS.

economic principles of growth could be shown in a panorama of products and where the spirit of a progressive community could be typified by articles of manufacture and by methods of production was the great idea behind this present exposition. That this idea has been consistently worked out is believed by the men behind it. That the world may judge for itself there has been a great campaign of publicity that the world and his wife may come and see for themselves. They are not invited to confetti carnival, there is no pink tea ment of a city. And this is the thing

THE WAY THE NAVASSAR ARRIVES.

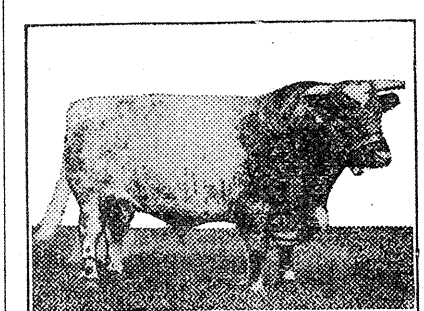

nonsense about this show. It is serious, instructive, educational, co-operative. It embodies that undefined spirit which differentiates a progressive community from a stagnant one. It shows in a series of living pictures what can be done when there is a conscious motive to guide the development that is offered to other cities and

But none of these are great enough to overshadow the prime purpose of the exposition and through all the obvious ways this idea is uppermost and can be seen on every hand. In this respect it is unique and on this base has been erected what is generally believed to be a permanent institution.

## WINTER FEEDING OF BEEF CALVES.

One of the best and cheapest methods for feeding beef calves, writes R. C. Forbes in the Breeder's Gazette, is to let the calves follow the cows in pasture without any grain until early fall, when they are separated and the calves placed in a small pasture by themselves and allowed to nurse night and morning, with what grain they will clean up twice a day. The grain ration should consist of equal parts by measure of coarsely ground shelled corn, oats, bran and finely chopped alfalfa or clover hay. If plenty of alfalfa hay is at hand the calves should have access to mangers or racks filled with it when the grass becomes short. Care should be taken in starting calves on alfalfa, as too much of it will cause them to scour. Allow the calves to nurse twice per day until they are on nearly full speed; then let them nurse but once per day for a time, and finally the milk can be taken away entirely and no difference will be noticed in their gaining flesh.

This method is for calves dropped in the spring or summer, but fall and winter calves, as a matter of course, must be handled differently. Such calves should be put on feed just as soon as they are old enough to eat and allowed to nurse twice per day. They should have free access to open sheds in inclement weather, but should never be housed more than is necessary.

The superiority of a steer of beef type for the economical production of meat has been demonstrated scientifically by Dr. H. P. Armsby in tests at the Pennsylvania experimental station. It was found in the most careful trials that a pure bred steer had about the same digestive capacity as a scrub steer of range type. The amount of nutritive materials required for the mere maintenance of life was one-third greater for the scrub steer. The rate of gain per unit of feed was practically the same for the two steers owing to the fact that the scrub made more of its gain in lean meat, which contains much water. The pure bred steer had a greater capacity for consuming feed, and it produced more fat, representing the storage of more energy available for human food. The Shorthorn bull hereafter pictured was champion at the recent royal show, England.

as they will be far more healthy if reared in the open air. It is not uncommon to find bull calves reared in this manner weighing 100 pounds per month of age. This, however, is an excellent weight, and the feeder must not expect to have all of his calves attain this growth.

Cows nursing calves during the winter months should be well taken care of. They should be fed grain at least twice per day and have plenty of alfalfa or clover hay. One should always bear in mind that the mother's milk is the best and cheapest feed the calf can get. Therefore the more milk the cow is made to give and the longer the calf is allowed to nurse the better he will be. This will perhaps seem rather hard on the cow, but one of the greatest merits of the Shorthorn cow is her ability to fatten quickly when dry, so there need be no fear in pulling her down thin in the winter, for if given the range of a good pasture she will be in fine condition by early fall.

Indigestion in Foals.  
Indigestion in young foals is often caused by the youngsters eating litter, such as straw, horse manure and, in fact, anything they can find. Often the foals eat such matter when only a few hours old, though they eat it at any age. The trouble usually comes on under one week of age. The foal's stomach is unable to assimilate such material, and often the intestines become impacted, and the foal is likely to succumb in a few days.

The best treatment is prevention. This can be done by placing a muzzle on the young foal. Such a muzzle can be made of wire. It should be removed often to let the foal suckle the dam. In case the foal is troubled the best treatment is to give physic and injection. For this olive oil is preferred, and it may be given in two ounce doses three times per day until relief is gained. — M. W. Harper, Cornell University.

A Cause For Wonder.  
We often wonder why bull service is usually held at such a low figure, ordinary charges being \$1, \$2 or \$3 and very seldom over \$5 except in rare instances, says the Jersey Bulletin. Horse breeders pay as high as \$50 for ordinary service and \$10 at the very least for the service of a very ordinary stallion, and they get an animal useful in its sphere, it is true, but of no greater benefit to mankind than the cow, if as much. Now, why is it?

Feed Judiciously.  
There is often danger that the inexperienced man will feed too liberally. Remember there is a chance of being injudicious either through too free a use of the feed or by being too saving of it.

## Dr. A. B. Spinney will be at Sheridan Hotel, Cass City, Thursday, October 5,

From 11:00 a. m. to 9:00 p. m.

Consultation Free.

### ANDREW B. SPINNEY, M. D.

FIFTY YEARS of active practice; TWELVE YEARS in general practice of medicine and surgery; TWO YEARS Professor in Detroit Medical College, filling the chairs of Anatomy and Physiology; FIFTEEN YEARS in Sanitarium and Hospital Work; TWENTY YEARS giving public lectures to the people in Churches and Opera Houses in nearly every town in the State upon all subjects pertaining to Life, Health and Disease,—and thousands of lectures upon Temperance.

I could publish hundreds of testimonials of cures I have made,—yet will publish only a few,—many being of a delicate and private character.

THIS IS TO CERTIFY,—That I, Edward Flynn, of Whittemore, Michigan, consulted Dr. Andrew B. Spinney, at the Griswold House, Detroit, after I had been operated upon by Dr. Walker of Detroit, Mich., for CANCER OF THE STOMACH, with closing of the canal between stomach and intestines. After operating on me, Dr. Walker of Detroit sewed me up and sent me home as A HOPELESS CASE—TO DIE! I then consulted Dr. Spinney in November, 1907, to June, 1908. During this time I grew stronger each day, food! I was so weak I could hardly stand on my feet. I was starving to death! Dr. Spinney sent me directly from Detroit to his Sanitarium at Belding, Michigan, where I remained from November, 1907, to June, 1908. During this time I grew stronger each day, could retain my food, and worked in Sanitarium six months of this time, and my weight increased to 130 pounds. And I am now working and able to take good care of my family. I feel that I OWE MY LIFE TO DR. SPINNEY'S SKILL! MY RECOVERY IS A LIVING MONUMENT TO HIS REMARKABLE ABILITY AS A SPECIALIST IN THIS LINE! MY WEIGHT NOW IS 155 POUNDS. EDWARD J. FLYNN (L. S.)

Subscribed and sworn to this 5th day of January, 1909, before me, a Notary Public in and for Huron Co., Mich. Fred H. Brown, Notary Public, Huron Co., Mich. My commission expires November 6th, 1912.

Some 16 years ago I consulted Mr. Andrew B. Spinney. I had a dreadful cough, from which I had been suffering for several months. He said I had BRONCHIAL CONSUMPTION! Our Physicians here in Tekonsha said I was past all help! Dr. Spinney treated me for two (2) years, and completely CURED ME! I feel that I OWE MY LIFE TO HIM! MRS. EMMA C. PROCTOR (L. S.)

State of Michigan, County of Calhoun, ss. Before me this 8th day of February, 1909, appeared Emma C. Proctor, who under oath states that the above is true to the best of her knowledge and belief. W. A. Howard, Justice of the Peace. My term expires July 1, 1909.

THIS IS TO CERTIFY,—That I, Mrs. George Koyle of Whittemore, Michigan, consulted Dr. Spinney, after doctoring with three doctors. I was suffering from CANCER OF THE STOMACH, and would have died from it within a short time! I went to Dr. Andrew B. Spinney's Sanitarium for treatment, where I took his medicine and received benefit of special treatments, strict diet, etc. I weighed when I went to his Sanitarium, 111 lbs., while before I was taken sick I weighed 197 lbs. I was at his Sanitarium for eleven weeks,—the first five weeks I could retain nothing but raw eggs and milk and Eskey's Food. I was allowed solid foods at the end of the seven weeks I was able to go to dining-room, and take long walks,—and went home at the end of eleven weeks,—and did my own farm house-work, without a hired girl! I CAN SAY I OWE MY HEALTH AND LIFE TO DR. SPINNEY! As my cure was completed 1½ years ago, I feel pleased to give my testimony to the public, in hope that some sufferer may see it and believe, and be benefited by his treatment, even as I have been. MRS. GEORGE KOYLE (L. S.)

Some 16 years ago I consulted Mr. Andrew B. Spinney. I had a dreadful cough, from which I had been suffering for several months. He said I had BRONCHIAL CONSUMPTION! Our Physicians here in Tekonsha said I was past all help! Dr. Spinney treated me for two (2) years, and completely CURED ME! I feel that I OWE MY LIFE TO HIM! MRS. EMMA C. PROCTOR (L. S.)

State of Michigan, County of Calhoun, ss. Before me this 8th day of February, 1909, appeared Emma C. Proctor, who under oath states that the above is true to the best of her knowledge and belief. W. A. Howard, Justice of the Peace. My term expires July 1, 1909.

TO ALL WHOM IT MAY CONCERN.—I, Isaac Bechtel of Brown City, Michigan, do hereby state that I OWE MY GOOD HEALTH AND LIFE TO DR. ANDREW B. SPINNEY! I consulted him first December 1st, 1897. At that time I was suffering from chronic diarrhoea of many years standing, liver, diabetes, weak heart and constant pain in my right leg and foot! On December 10, 1907, I went to his Sanitarium, where I remained for three months and took his medicine and special treatments prescribed by him, then took Hot Treatment at home for six (6) months, and SINCE THEN, I HAVE ENJOYED THE BEST HEALTH I HAVE KNOWN FOR YEARS! ISAAC M. BECHTEL (L. S.)

Signed and sworn to before me, a Notary Public for Sanilac Co., Mich. Hugo MacLeod. My commission expires Sept. 13, 1909.

As I have not room here for any more certificates I will give you the names and addresses of the following persons I have cured of the diseases named and you can write to them.

John Spinney, Alma, Michigan, suffered from nervous prostration for two years and was cured at my Sanitarium by the aid of the lymph which was used one month.

Nathan Clapp, Northville, Michigan, had apoplexy and was incapacitated from all mental labor for one year, was at my sanitarium for four months, and took the lymph for 41 days, and is now writing for seven farm journals each week and attending farm institute four months in the year. He will tell you what I did for him.

Mrs. W. S. Hall, Whittemore, Michigan, had piles for 20 years. She was cured five years ago and has been well ever since.

Mrs. A. E. Swan, Erie, Michigan, consulted me over 20 years ago, was given up by all her home physicians to die with consumption. I cured her in one year, and she has been well ever since. She has given me her sworn statement, indorsed by Mrs. Betsey Brown, Kelsville, Michigan.

Mrs. Wallace Wagner, Colon, Michigan, was given up by the home physicians to die of bronchial consumption. I treated her for two years some 15 years ago. She can tell you what I did for her.

Lyman C. Howe, of Fredonia, New York, suffered for years with bronchitis, dyspnoea and nervous diseases; six years ago he came to my sanitarium and took the lymph for three months, it has given him a ten years lease of life.

Mrs. Henry Brandt, Boynton, Michigan, had chronic diarrhoea for four years and was given up by all the physicians in Hillman and Alpena. I have treated her one year and she is entirely well and wishes others to know what I did for her.

If anyone wishes I will give the names of those I have cured of Epilepsy, Paralysis, Blood Poison, and eye and ear diseases,—and Piles.

During these years I have had two finely equipped Sanitariums,—of my own burn to the ground, at a loss of over \$25,000.00 above insurance,—yet I am better established than ever at Smyrna, Michigan,—with one Large, General Hospital,—where all forms of Chronic Diseases are treated and Surgical Operations are performed! Also have a maternity ward, and a few private rooms devoted to RESCUE WORK AMONG UNFORTUNATE GIRLS children adopted by Christian Families; poor girls can work out fees.—Bea of Care and Treatment!

Also, have a cottage of seven rooms separate from Large Sanitarium,—where all forms of Nervous Diseases are treated. In these cases we use Swedish massage, Wier Mitchell Rest Cure,—all forms of electrical treatments, including Leucodescent Light. And in cases where everything else has failed,—called hopeless.—Locomotor Ataxia, Chronic Articular Rheumatism, Bright's Disease, Diabetes, so called hopeless cases of Paralysis, cases bordering on Dementia and Brain Softening we have used for Light Years! The Roberts-Hawley Lymph, which has NEVER FAILED! While using the Lymph, we use all the other Sanitarium Treatments mentioned above, as well as medicine. Also an eight room house across the street from Sanitarium with no communication with other patients, I have a Consumptive Home, with every modern improvement,—and in addition to what is used in ordinary Lung Hospitals, I use Dr. Roberts' Specific, of New York City,—that cures 75% of so called "hopeless cases"! Plenty of fresh air, pure Jersey milk, and Fresh Eggs. ALL CONSULTATIONS FREE! EVERY OPINION FRANK AND RELIABLE! EVERYONE GIVEN THE WHOLE TRUTH, AND NOTHING BUT THE TRUTH! My Sanitariums are quiet and home-like, no style; BEST TREATMENTS AT LOWEST PRICES OF ANY PLACE IN THE UNITED STATES! CONSULT ME AT PLACE AND DATE BELOW, or WRITE,—ANDREW B. SPINNEY, M. D. SANITARIUM CO., SMYRNA, Ionia Co., MICHIGAN.

Dr. A. B. Spinney, of Detroit, a specialist of 52 years' experience in treating chronic diseases will give free consultation and be at the above named hotel on said date.

## THE END OF TUBERCULOSIS

### Value of Early Diagnosis.

By Dr. CHARLES L. MINOR.

In any given case of tuberculosis a sensible doctor can usually tell you whether there is any chance of getting well, but it is worth remembering that quite a number of very bad and apparently hopeless cases do at times recover when it seemed impossible for them to do so. Thus, however bad the outlook, it is sensible not to give up hope, but to start right in to make the bravest fight you can.

In any case your chance of getting well depends largely on the earliness of the discovery of the trouble and the grit and the courage of the patient, and a brave and determined patient with bad trouble often stands a better chance of recovery than a silly, weak willed one with much less trouble.

Now and Then.  
Aiming to do right is not enough. You must score an occasional hit.—New Orleans Picayune.

## Bathing in Ancient Times.

The ancient Spartans were very definite as to the right and wrong kinds of bath. A daily dip in the river was permissible, and so was a dry bath in a chamber heated with warm air by means of a stove. But the warm water bath remained a mark of effeminacy, as it had been in Homeric times. No public warm baths were permitted in the vigorous days of early Athens. Antiquity comprises the extremes of practice in this matter of bathing. There were the Dardanians, a Balkan people, who were said to bathe only three times—at birth, at marriage and after death. At the other end of the scale stood the later Roman emperors, with seven or eight baths a day. And they are all dead!—London Graphic.

### MASONS AND EASTERN STARS HONOR R. S. BROWN

Continued from first page.  
citizens of our neighboring village regret the loss of this excellent citizen.  
Sketch of Life.

R. S. Brown was born Sept. 3, 1836, in London, Ont., and in 1848 came with his mother, a widow, to Michigan. They made the trip by way of Sarnia, and crossing on the ferry, made inquiry how to get to Lexington. The captain of the ferry told them there was a scow going to Lexington to load with lumber and he hailed the captain of the scow. The latter drew up alongside and Mrs. Brown and her son went aboard.

Mr. Brown describes his first experience in navigation in the following terms: "We got up in the current at the light house. There wasn't wind enough to stem the current and we were drifting back. The captain hailed a man on the beach who had a team of oxen getting sand and asked him to take a line and haul him up into calmer water. He did so and a breeze came up and some time that night we reached Lexington."

At Lexington, Mr. Brown attended school under Robert Jenks, late of St. Clair, Michigan. When about 17 he took a position in a general store when shaved shingles were the same as cash for any commodity. In 1856 he became of age and cast his first ballot for Gen. Fremont. In 1860 he voted for Abraham Lincoln and has cast a ballot at every presidential election from 1856 to 1908, and only lost his vote twice.

In 1860, at the close of President Buchanan's administration he was working in the store of Spafford, Haywood & Co. A change in the postoffice was made and Clark Haywood, a member of the firm, was appointed postmaster, and Mr. Brown was installed chief clerk in receiving and putting up the mails. "At the election in the fall of 1860," Mr. Brown says, "I was requested not to vote, as Mr. Haywood, being a radical Democrat, might take umbrage at my action, and I would be dismissed and the Republican party lose my valuable services. But to his credit Mr. Haywood never mentioned the matter, and I was bound to vote for Mr. Lincoln and I did."

Time passed on and in September, 1863, Mr. Brown was made a Master Mason and in a few weeks thereafter enlisted in Company B, 11th Michigan Cavalry. While in camp at Kalamazoo, he contracted typhoid fever and was taken to the private residence of a Mr. Hill where he had excellent care. When well enough to be moved, he was taken to his mother's home in St. Clair by a sister. In the February following, he joined his regiment at Lexington, Kentucky. He served two years of a three-year enlistment, was mustered out of the service Sept. 10, 1865, at Detroit, and on Oct. 21 of that year was married to Miss Cornelia Fullmer at Lockport, N. Y.

They settled at Lexington, Mich., for two years and in the fall of 1867 went to Pendleton, N. Y., and opened a grocery on the canal, seven miles from Lockport. They lived there two years and then returned to Lexington, Mich., where Mr. Brown engaged in various pursuits until the spring of 1879 when he and his family came to Tuscola county, settling on a farm west of Gageton.

In 1880 he took the census of Elmwood township and in the spring of 1882 moved to Gageton, opened up a store and was appointed postmaster to succeed N. A. Vaughn. He held the position until after Mar. 4, 1885, when the administration at Washington changed and Ed Hennessey was appointed. In 1886 Mr. Brown traded his stock of merchandise with Wm. Vansteenberg for the Simon Campbell farm where the residence has been ever since.

If the choir went on a strike, would Luther J. Carroll?

If the minister preached long, would A. J. Knapp?

If she is feminine, what about Henry Herr?

If the corn was all cut, would Walter Schell?

If the Novesta farmers run, will Michael Race?

If the governor died, would Wm. Ruhl?

If it rained all day, would Thos. B. Cross?

If his wife went on a vacation, could Chas. Cook?

If he fell from the door step, would John W. Ball?

If Wm. Read would John Wright?

If Greenleaf won from the base ball team at Wickware, would Claude Root?

If it should be decided that Ira Reid and Archie Mark, where would Geo. Land?

If he had a big load, would Chas. Hall?

### FAREWELL PARTY.

About 25 of the members of the Lamotte M. E. church drove to Shabbona Friday evening and held a farewell party in honor of their pastor and his wife, Rev. and Mrs. W. L. Moore. During the evening, Mrs. Alex G. Adam, in behalf of the company, presented Mr. and Mrs. Moore with a 100-piece dinner set and their baby with a silver set. Mrs. Adam expressed the regret of the Lamotte congregation in losing their pastor and wished them happiness and success in their new field. The pastor responded.

Mr. Moore left Cass City on the Monday afternoon train for Flint where he will attend the annual conference of the Detroit district.

#### CANBORO.

Mrs. Chas. had the Jones telephone installed in her house one day last week.

Miss Sadie Burleigh of Owendale spent Saturday and Sunday at her home here.

Wilbur Ellis was the guest of Miss Gladys Duffield near Beaufort on Sunday.

Mr. and Mrs. B. F. Parker are entertaining their nephew and wife from Canada.

Mrs. Perry Parker spent part of last week with friends in Sebawaing.

Miss Hazel Brackenbury is again very ill in a hospital in Detroit with little hopes of her recovery. Her father left Saturday to be at her bed side.

School commenced last Monday with Irwin Peacock as teacher.

The Canboro church is receiving a new coat of paint. Crouch Bros. are doing the work.

Mrs. Geo. Cosgrove of West Grant is visiting with her mother, Mrs. Adrian Easton, at present.

Richard Ellis has returned from Orion where he has been receiving medical treatment in the hospital. He is feeling much improved.

Mrs. Ben Parker spent last week with her daughter, Mrs. Tom Gussell, west of Owendale.

Mrs. Wm. Parker is recovering from her recent illness.

#### CONVINCING.

Grace—But do you really and truly love me, Horace?  
Horace—I assure you, Grace, I love you as much as I love myself.  
Grace—Then I am yours, dear.  
Greater love than that no woman could ever dare to hope for.

#### PINGREE.

Schwederer Bros. bought up some stock here this week.

Owen Bearup and family are assisting N. E. Bearup in painting and refinishing his house at present.

Irwin F. Cooke and Norman W. Cooke are attending the high school at Cass City this term.

William Gardner is building a machine shed for the housing of farm implements.

We are much pleased to hear of the prosperity of the city of Deford and think a word of praise would be in line toward the efficient writings of the Deford correspondent. We care not to miss them at any rate.

Mr. and Mrs. Frank Collins of Vassar called on old acquaintances in this locality very recently.

Mr. and Mrs. Richard Summers of Grant township Sundayed at John Fox's recently.

Albert Bearup is giving his house and barn a thorough painting. The barn is finished in dark green, making it somewhat conspicuous compared with the usual color of dark red.

Dougald Duncanson has traded roadsters with Drayman Smith of Cass City.

Grandpa Summers is on a visit at J. Fox's of this place.

Dougald Duncanson drives a pair of gray drivers these days.

Rainy weather for harvesting the bean crop.

William Flint of this place caps the climax in this locality for a man near the 70th mark, taking into consideration what an early settler goes through in succeeding to gain a good farm and providing for his family as well. He has now 19 acres of wheat sown, in good shape and ought to be fairly recompensed with a good crop another year if all goes well.

## It Beats the World to cure Rheumatism

Aching and enfeebled muscles should remind you of slowness of tissue repair. Eruptions of the skin and catarrh of the mucous membranes show diminished nerve power in the tissues.

In health or disease there is need of an internal bath. This is best obtained by drinking a glass of pure water with one or two teaspoonfuls of San Jak 30 to 60 minutes before breakfast, washing the blood. This passes quickly from the stomach and stimulates the bowels to increased peristalsis, overcoming constipation and its attendant ills. It is quickly absorbed and entering the blood stream bathes the cells of the liver and heart, then passes to the brain and washes out the cobwebs and awakens to new life every cell in the body.

San-Jak dilutes the ropy secretions and dissolves all abnormal crystalline substances that may be in the blood and urine. SAN-JAK greatly promotes elimination, creates downward peristalsis, stimulates a flow of digestive juices. It dissolves the sticky mucous in the mouth and throat, allowing the membranes to be bathed in their natural secretions. San-Jak is the great medium of exchange in the body, by enabling the kidneys to absorb and eliminate alkaline sulphates which are the products of intestinal decomposition and in renal weakness or the real cause of Bright's disease.

Man does not wear out like a piece of machinery by constant disintegration for he is self renewing. When he loses his ability to self-renewal or fails in process of making young blood, the nerve tissue is not sufficiently nourished and his strength and health fail.

SAN-JAK is the only medicine which will enable you to keep a perfect balance between elimination and renewal of the body. Decay of the body at any time of life is unnatural. Permanent waste of the system can be avoided by the use of SAN-JAK.

Rheumatism, catarrh and bladder trouble, the source of trouble to humanity, is due to a too high or low specific gravity which may be regulated to normal by taking SAN-JAK. Swelling under the eyes, grayish white or waxy color of the skin denotes granular disease of the kidneys. The cure is SAN-JAK.

Sold By

## A FREE Prescription ADVICE

From a physician of 52 years' experience in colleges, sanatoriums and general practice. Weak, nervous men, regain your strength and vigor.

So great was my sympathy for weak men in the early years of my experience that I have made it a special study, and formulated two prescriptions, one for men under 50 and one for men over 50 years of age. In my declining years, I want every man to have the benefit of my long years of careful study, research and long experience. I am now 73 years old and as strong and vigorous as at 40 and the rest of my life will be spent in aiding suffering mankind. I realize that my time is short, but will do all in my power to aid men and women who are helpless and seeking relief. I know there has been a great many disappointed when they thought relief in their grasp, but let me send you my free prescription and booklet of private lectures to men which is the result of study since I began lecturing to student classes, way back in '71. Since that time I have cured many cases that are now pleased to recommend me. **YOU NEED AID.** Let me help you to regain your former standing among men. In short, let me assist you to be yourself once more.

If you are suffering from falling memory, lame back or weakened manhood or nervous difficulties, **LET ME SEND YOU A RECIPE** in a plain sealed envelope that you can use in your own home. I am confident that you will thank me every day in your life after you have tested it for yourself. **Take advantage of this offer NOW before it is too late. Address me personally.**

## Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten-fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c per bottle.

Take Hall's Family Pills for constipation.

## THE END OF TUBERCULOSIS

A Winning Fight.

By DR. WILLIAM OSLER.

This is not a battle of a year or a generation. The probabilities are that it will take two or three generations at least before we have the mortality from tuberculosis reduced to the rate, say, of that of typhoid fever in well regulated countries. This will probably be a matter of two or three generations. Whether tuberculosis will be finally eradicated is an open question. It is a foe that is very deeply entrenched in the human race, but when we think of what has been done in one generation, how the mortality has been reduced in some localities 50 and even 100 per cent, we at least feel that we can continue the battle with hope, and so long as we are fighting with hope the victory is in sight.

**Foley's Kidney Remedy (Liquid)** Is a great medicine of proven value for both acute and chronic kidney and bladder ailments. It is especially recommended to elderly people for its wonderful tonic and reconstructive qualities, and the permanent relief and comfort it gives them. L. I. Wood & Co.

Gilbertian Wit.

Once Sir W. S. Gilbert was standing in front of his club, absently staring out at the line of vehicles by the sidewalk, when a pompous member strolled out and, without glancing at Gilbert, said to him:

"A cab, my good man; call me a cab."

"You are a cab," Gilbert answered solemnly.

"The flustered member looked about suddenly and did not recognize the writer, but he did demand of him on what grounds he was insolent enough to call him a cab.

"You asked me to," Gilbert responded, "and you certainly could not have expected me to call you handsome."

As usually treated, a sprained ankle will disable a man for three or four weeks, but by applying Chamberlain's Liniment freely as soon as the injury is received, and observing the directions with each bottle, a cure can be effected in from two to four days. For sale by all dealers.

Old English Tracts.

English tracts and sermons of the seventeenth and eighteenth centuries are decidedly interesting on account of the strange phraseology—a kind of religious slang—which they reveal. Their titles exemplify this slang well, and the following are a few examples of them:

"The Spiritual Mustard Pot, to Make the Soul Sneeze With Devotion."

"The Snuffers of Divine Love."

"Crumbs of Comfort For Hungry Hoses."

"Biscuits Baked In the Oven of Charity. Carefully Conserved For Chickens of the Church, Sparrows of the Spirit and Sweet Swallows of Salvation."

A Dreadful Sight

To H. J. Barnum, of Freeville, N. Y., was the fever sore that had plagued his life for years in spite of many remedies he tried. At last he used Bucklen's Arnica Salve and wrote: "It has entirely healed with scarcely a scar left." Heals Burns, Boils, Eczema, Cuts, Bruises, Swellings, Corns and Piles like magic. Only 25c at L. I. Wood & Co.'s.

Inherent Dread of Cats For Dogs.

The instinctive fear which cats have of dogs is illustrated very amusingly by stroking a dog and then caressing a blind and newborn kitten with the same hand that has touched the dog. At once the kitten will spit and flinch itself up in the most absurd way, distinguishing the smell of the beast which experience for thousands of generations has taught it most to dread.

Foley's Honey and Tar Compound.

Still retains its high place as the best household remedy for all coughs and colds, either for children or grown persons. Prevents serious results from a cold. Take only the genuine Foley's Honey and Tar Compound, and refuse substitutes. L. I. Wood & Co.

A King's Library.

Frederick the Great employed architects to build a library, but they fought with true professional etiquette over their designs. The monarch who had braved the might of Europe was not to be defeated by a parcel of nagging professional men. "Confound you," said the king, "don't waste any more time! This cupboard opposite me is of a very good design; copy that." They did as they were ordered.

A Great Advantage to Working Men

J. A. Maple, 125 S. 7th St., Steubenville, O., says: "For years I suffered from weak kidneys and a severe bladder trouble. I learned of Foley Kidney Pills and their wonderful cures so I began taking them and sure enough I had as good results as any I heard about. My backache left me and to one of my business, expressman, that alone is a great advantage. My kidneys acted free and normal, and that saved me a lot of misery. It is now a pleasure to work where it used to be a misery. Foley Kidney Pills have cured me and have my highest praise." L. I. Wood & Co.

## Deford Items

The town line Ladies Aid meet with Mrs. Jessie Sole for dinner on Thursday, Sept. 28. Married people, single people, old maids and all youths are invited as a heavy purse is to be made up that day.

Edward Patch is here for a week's visit and a rest in country air.

Jesse Sole has a new spring vehicle. 'Tis a fine one and Jess can now grow old beautiful.

The article in last week's Caro Courier headed "Fair Echoes" wishes to impress the readers that it was all a joke. Yes, a joke, and if we had been with the Caro boys we would have labored hard to make our wives think it was a joke—with no time "to buy."

John Moshier, sec. 35, Novesta, has the foundation of his new house made and will erect the frame this week. Thos. O'Rourke is head carpenter.

Hiram Lester is helping his son, Frank, of Kingston for a week or more.

Frank McCracken is building a barn.

Several new buildings will be erected in town this fall. If the new venture pans out as expected our population must double and they will be renters.

There is a project on foot and quite sure to go through in which Deford will have the largest plant of the kind in Michigan. Think of a plant in a burg employing sixty men. Smile if you wish but if we make the rifle you must give us credit for weighing sixteen ounces to the pound.

Jonathan Whale, Arthur VanBlaricorn, Cyrus Wells and John McCracken went to Caro on the 11th and received full papers of citizenship.

Mud Creek dredge is now over on section 34, Novesta, and doing a good job. Of course, they can't please everybody.

Elder Beedon will go from among us this year having been here for three years. As a minister and a citizen, we call him a good one. Of course he did not please all, but there are many who expect a pastor that would fill the Irishman's description, "A man that meddles with neither politics nor religion."

In the Beattie trial of old Virginia, twelve men who prayed, were found without searching. Men who all asked guidance from on high before they decided the case. The answer was the same to each individual member of the jury. Could our own Tuscola have a like jury? Without a search and picking out? All this leads us to believe Virginia is great for piety, democrats and darkies.

Mr. and Mrs. Geo. Lee of Harvey, Ill., are here visiting their sons and calling on old friends.

Mrs. Fordyce of Cass City visited Mrs. C. McArthur and called on other friends here Sunday.

Twenty-five of Fern Roberts' little friends were invited to her birthday party Saturday afternoon at the hotel Daughery. Ice cream and cake were served and a jolly good time was had by all. Miss Fern received a large quantity of mementos of the occasion.

Mr. and Mrs. Ray Walker of Imlay City are visiting at Geo. Walker's.

Mr. and Mrs. Bemis Bentley are the proud parents of a baby girl.

who came to stay at their home on Sunday, Sept. 10.

Mrs. Job Hartwick has been on the sick list but is better.

News of the wedding of Harold Silverthorn of Port Huron and Miss Lillian Wright of Sandusky on Wednesday, Sept. 20, was received here. The young people were both formerly of this place and well known and highly respected.

Mr. and Mrs. Ben Gage made a trip to Port Huron Saturday by auto. They will visit for a few days.

Albert McConnell and wife of Albion and Rev. Aaron McConnell of the upper peninsula are visiting with their mother, Mrs. Frank Spencer. Edd Patch and Laverne Springer are visiting at Wm. Patch's.

Mr. and Mrs. Ransom Spencer and children visited at Fred Chadwick's Sunday.

Miss Annice McCallum of Chicago, sister of Mrs. Wm. Kilgore, is here visiting for a short time.

Mr. and Mrs. Hannah of Northeast Sunday evening.

Wm. McCracken will erect a new house on his lots in the near future.

Mr. and Mrs. Wm. Parks attended the state fair.

Deford has a lively band with Len Patch as leader. We heard them playing "John Brown" Tuesday evening and the strains made us wish we were young and handsome again.

The original town plot which lies south of the main street was enlarged recently when a surveyor was engaged and land on the north side of the road plotted. Ten more lots were put on the map.

Bruce Bros. are erecting a potato store house. It is made of cement, 30 by 60 feet in size, with cement floor. The inside walls will be sealed and an air space left between the cement and wood. Thus Deford's industries continue to grow.

Wm. McCracken, who thus far in life, has eluded the life of a Benedict, is now engaged in superintending the erection of a residence. The fact that the cottage will be plenty large enough for two makes it an interesting topic for discussion among the charming maidens in town and country.

Dr. Howell, when not busy mending broken limbs and healing wounds, devotes time to his farm on the outskirts of Deford. Just now he makes frequent trips to superintend the erection of a new barn on the place. The doctor also raises live stock and saves considerable time in feeding by having two calves come to the house for their daily rations. Possibly the doctor has also improved on the old method of serving the feed whereby the animal makes life miserable for the person who holds the pail. If he has, Chronicle readers would be glad to learn of it.

## NOVESTA.

Mr. and Mrs. Morris Greer are visiting at Thomas Greer's this week.

Archie Livingston of Greenleaf, who has been visiting friends in this vicinity the past week, returned to his home Saturday.

Mrs. Mertie McPhail and children, Gladys and Clare, of Turner are visiting friends here.

Mrs. R. Fletcher left Monday for Lapeer where she will visit friends before returning to her home in Florida.

John Livingston spent Saturday and Sunday in Greenleaf.

Mrs. T. Greer is suffering from an attack of tonsillitis.

A little lady has come to make her abode at the home of Clarence Quick. She calls herself Miss Beatrice.

Ladies Aid at the home of Robert Warner was well attended. The proceeds were \$6.20.

## NORTHEAST KINGSTON.

Friends from Tuscola visited at Geo. Lombard's over Sunday.

Mrs. John Hickey spent a few days at her old home in North Branch.

Mr. and Mrs. Geo. F. Lee of St. Joe are visiting at their old home here.

Mr. and Mrs. A. Stevenson visited at Will Wood's Sunday.

Mrs. Mason Leek returned last week from a two weeks' visit with friends in Jackson and Detroit.

Bean harvesting is the order of the day.

Mrs. Sage of Vassar is visiting her parents, Mr. and Mrs. Jas. Cooper.

Mr. and Mrs. Curtis Cooper are taking in the state fair.

The brick work in the new school house in district No. 4, Kingston, is completed.

## Let's Get Better Acquainted

We have a proposition to make every man who is figuring on a new house, barn, or other building. It is a proposition that means the saving of quite a sizeable pile of dollars and should be taken advantage of by every prospective builder.

But don't wait till you want to build to get acquainted with us. We have an equally desirable proposition for the small buyer.

If you want a few boards for fixing up about the place, we will make it worth your while to buy from us.

It Wasn't Theology.

Scotland, whatever other virtue or vice she may have, possesses the theological "bump" to a wonderful degree. From the mother church or state church sprang two dissenting churches, and from these again sprang subsidiary "bodies." There is a little village in Scotland which is said to possess more churches than inhabitants. One day a stranger, visiting it, said to a villager, "Surely there must be a great deal of theology here." "Na, na," replied the inhabitant; it's na theology; it's only ill temper."—London Queen.

## LET YOUR LIGHT SHINE.

As the sun does not wait for prayers and incantations to be prevailed on to rise, but immediately shines forth and is received with universal salutation, so neither do you wait for applause and shouts and praises in order to rise up and do good, but be a voluntary benefactor and you also will be beloved like the beneficent sun.—Epictetus.

## Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman.

Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for women's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

## IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

### BEAULEY.

Mr. and Mrs. T. McIntosh spent Sunday at J. Tiffin's near Bad Axe.

Rev. Horton has gone to conference.

Mr. and Mrs. Hugh McDermott called on old friends here Tuesday.

The funeral of the little child of Arthur Helwig was held Wednesday

afternoon. Much sympathy is extended to the bereaved parents. Interment was made in the Elkland cemetery.

Our people at the south end of Beasley were surprised by the ringing of dinner bells and shouts of people about one o'clock on Tuesday and everybody turned out to see the cause of the disturbance, when there peacefully and happily driving by was Roy Russell and Miss Anna Jarvis sitting in the back seat of a surrey and being followed by a covered carriage. Everybody surmised at once by the white ribbons that they were enroute to be married and this proved true. They were married by Rev. Fenn of Cass City and went at once on the four o'clock train to call on friends in Attica and Lapeer, before going to the state fair in Detroit. Mr. and Mrs. Russell are both well known and highly respected young people here, Mr. Russell being one of our prosperous young farmers, a successor to the McDermotts on their fine farm property here. Mrs. Russell was born and educated here although she taught school last year at Eaton Rapids. Her friends are all glad to have her back to live here again. The marriage was witnessed by Miss Gladys Duffield and Wilbur Ellis; also the parents of the groom. A number of friends accompanied them to the depot where the usual amount of rice and old shoes were thrown over the happy couple, who took it all in good part. Good-byes were said

and amid shouts of good wishes they went on their journey, to return on Monday of next week.

### SHABBONA.

J. B. Proctor left last Friday for Pontiac and the state fair.

Mrs. E. VanConant returned home Sunday. Miss Zinnecker is the nurse in charge.

Mr. and Mrs. W. F. Ehlers and G. H. Jones were in Cass City Monday.

Rev. and Mrs. Moore left Monday for their new home in Armada. They will be missed greatly and the good wishes of the community go with them.

Mr. and Mrs. Ed Phetteplace and W. F. Ehlers are attending the state fair this week.

The friends and neighbors of Mrs. R. Brown gave her a surprise at the home of her parents Tuesday evening. Light refreshments of ice cream and cake were served and all had a good time.

Mr. and Mrs. A. Lorentzen and grandchild, Mary, were in Palms Wednesday. The latter two remained for a week's stay.

Mr. and Mrs. Roy Brown returned from their wedding trip Friday. Mrs. Brown will visit her parents for a week. They will live near Wickware where Mr. Brown has a farm.

Miss Andrews of Ithaca is visiting her aunt, Mrs. Hyde.

Mrs. Addie Marshall will have her millinery opening Sept. 25 and 27.

### SCHOOL NOTES.

A senior boy had music in his soul (sole) last week.

Florence Jones expects to leave school next week.

Naomi Fritz was a caller in the fourth grade Friday.

Hester McKim and Gladys Lenzner were Friday callers.

Andrew and Charlotte Walmsley entered the first grade.

Mrs. Hays was a visitor in the lower grades last week.

Misses Gillies and McRae visited the second and third grades Friday.

We notice that talking in the halls still exists, especially among teachers.

Misses Cecil and Elsie Krapf and Ethel Gallagher visited school last week.

Wanted by Miss W.—Information whether Cecil is a boy's or girl's name.

Irene and Helene Bardwell were absent last week on account of the illness of their parents.

Seniors forget they were once "Freshies", when a freshmen class meeting is announced.

One of the beginners in chemistry attempted to extinguish lighted magnesium in working an experiment.

Some seniors are very enthusiastic over foot ball. Hope they keep up their courage. Nine games are scheduled.

Last Thursday after school our science teacher was seen walking towards school in the rain and carrying a lady's umbrella and rain coat. We wonder to whom they belong.

If you are threatened to kill anybody for losing your physics experiment, it is a wise idea to give him three days grace. You are apt to find it in your own desk.

Found—A new ideal method to work the science teacher. Tread him to water melon. If you can't swipe them, buy them. A local merchant has nice ones on sale for 20 cts. A junior boy tried it and he says "it works fine."

Class officers are as follows: Freshman—President, Dougald Duncan; vice president, Everett Higgins; secretary and treasurer, Marvin Dodge. Sophomore—President, Everett Mudge; vice president, Wm. Blen; secretary and treasurer, Ray Yakes. Junior—President Eugene Schwaderer; vice president, Cecil Brown; secretary and treasurer, Norman McGillvray. Senior—President, Ray Wickware; vice president, Carrie Hurley; secretary and treasurer, Mildred Weaver.

We call the seniors dignified, And in their honor praises sing. Still some of them seem satisfied To play cats cradle with a string.

hole he would have to hunt even in the orchard.

Flathead County fair will be in October. Much interest is taken in products of the soil at farms here. The farmers keep the windows of business places well supplied with samples of their crops. It is quite common to see sheaves of grain, samples of timothy, alfalfa clover, potatoes, etc., exhibited in the windows in town.

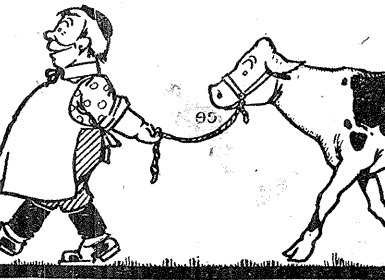

We are enjoying good health and have spent a very pleasant summer in this fine climate. With kindest regards to all old friends in and around Cass City and wishing success to the Chronicle, I am,

Very truly,

## Big Free Offer

Don't stay away and afterwards  
feel envious of those who secured  
one of these valuable spoons.

Pictures of the Beattie Murder Trial are the attraction for next Friday and Saturday.

WHAT MR. DRAGER, MANAGER OF REX THEATRE, SAYS:

"In order to stimulate interest in my theatre and as an inducement to secure increased patronage, I am going to make a Big Free Offer to the people of Cass City. In doing this I will be operating at a loss 'tis true, but I am going to give as cheerfully as I take.

"The spoons offered will be just as represented and must not be considered in the light of a cheap, inferior article. Each spoon has the manufacturer's name stamped on back and each set is accompanied with Rogers Bros.' Guarantee.

"This is just an idea of mine, but a set of these handsome spoons could be secured by any enterprising housekeeper by interesting your friends to come.

"On Friday and Saturday we will run an extra long show in connection with our spoon offer."
