Advertising rates made known on application. Entered as second class matter April 27, 1906, at the postoffice at Cass City, Michigan, under the Act of Congress of Mar. 3, 1879. H. F. LENZNER, Publisher.

THIS PAPER REPRESENTED FOR FOREIGN ADVERTISING BY THE AMERICAN PRESS ASSOCIATION. GENERAL OFFICES NEW YORK AND CHICAGO. BRANCHES IN ALL THE PRINCIPAL CITIES.

SCHOOL NOTES. Miss P. (on Monday)—Mr. F., how long did you study your German lesson? Mr. F.—Well, I studied from the time I got home last night until bedtime. Miss P.—But, Mr. F., we have no way of knowing what time you keep on Sunday night. Mr. F.—Neither have I. Misses Goldie Martin and Irene Retherford visited the H. S. Friday. Miss P. has been giving her opinion on politics in Latin IX. She must have gone to the lecture Friday evening. If N. C. doesn't be careful he will be scheduled for an unskated wrestling match with Mr. S. and will get his eye blacker than he ever did in foot ball.

The two divisions of the Latin IX. class met one night last week to decide on the penalty against the losers are to give the winners a party at the home of one of their members with a good supper and a still better time. One of our "Jolly junior girls" enjoyed a post card shower on her birthday last week. Anyone having any gum to spare, notify Miss P. and receive the thanks of Mr. S. Several of our boys who have been absent during bean harvesting are back in school. Mabel Harrington has entered the freshman class. Mr. S.—(in physics after explaining the meaning of couple)—Now, Mr. McG., can you give me a good definition of a couple? N. McG.—A couple is two equal parallel forces pulling in opposite directions.

The American history class enjoyed discussions on the three most prominent presidential candidates. Which was the winning side will be decided after election. Our foot ball boys can't always expect to win but they're doing pretty well, and we're proud of them. If they could only beat Marlette now! Mrs. Seed, Mrs. Jacobs and Mrs. Fritz visited the high school Thursday afternoon.

Any one who doesn't know the latest idea in wearing apparel for statutory inquire at the school room. A poultry yard was started at noon the other day but it was discontinued the same day because it caused too much work for the boys.

FAIR EXCHANGE. A New Back for an Old One—How a Resident Made a Bad Back Strong. The back aches at times with a dull, indescribable feeling, making you weary and restless; piercing pains shoot across the region of the kidneys, and again the loins are so lame that to stoop is agony. No use to rub or apply a plaster to the back if the kidney are weak. You cannot reach the cause. Follow the example of this Cass City citizen. W. C. Dickinson, Main St., Cass City, Mich., says: "I received great benefit from Doan's Kidney Pills and therefore feel justified in recommending them. Straining was the cause of my kidneys becoming disordered. My back was weak and often I was seized by a catch in my loins when I attempted to lift. The kidneys secretions were also unnatural and irregular in passage, causing much annoyance. After using Doan's Kidney Pills, procured at Wood & Co.'s Drug Store, my condition improved greatly and I was soon free from every symptom of kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other. 39.—Advertisement.

Have you ever seen a copy of the Cortright Metal Shingle Advocate, that little magazine issued by the Cortright Metal Roofing Co. of Philadelphia? If not you ought to send them your name and address. It is full of interesting information about roofing, and has a lot of other data that is well worth reading. Just tell them that you saw this notice in the Chronicle.—Advertisement.

The young people northeast of Cass City met at the home of W. D. Striffler Thursday evening to organize a club and provide amusement during the winter months.

William Hurley was chosen president, Miss Carrie Hurley, vice president and Russell Gillies, secretary. A committee to form a constitution was appointed and other necessary business transacted. The club will meet every two weeks on Thursday evenings and will meet at the home of A. Marks the next time. A name will be selected at the next meeting and some debates planned. After the adjournment of the meeting wafers and coffee, grapes and apples were served and the remainder of the evening was devoted to vocal and instrumental music.

MAKE MONEY SAVE YOUR BEANS Do not let your Beans spoil if you got them in damp. Thresh them and bring them in. We will dry them for you. If the price we are paying is \$2.40 per bushel, hand picked basis, we will pay you \$2.30 for DAMP BEANS (deducting 10c per bushel for drying) and 2 to 5 pounds per bushel for shrinkage, according to how damp they are. If you try to DRY them at home they will shrink in weight 2 to 5 pounds per bushel and it will cost you nearly 10c per bushel in labor, besides your quality would be much poorer. You are also taking a chance of the market going lower. Sincerely yours, Cass City Grain Co. Both Phones: Valley 61, Bell 9

A SURE SIGN OF A GOOD STOVE. The inside or twin-flue construction of a Laurel Range is the root of its unequalled cooking and baking qualities and fuel saving features. These points will be made clear to you by a demonstrator direct from the factory at our LAUREL STOVE EXHIBITION... Now Being Held At Our Store. We cordially invite you to be present Thursday, Friday, or Saturday of this week and see for yourself how a LAUREL Range will heat six griddles without heating the oven, the oven without heating the reservoir, or the reservoir without heating the oven. You'll be convinced that a Laurel Range makes good every claim made for it. \$8 Premium Free. With every Laurel Range purchased during this exhibit, we will give choice of a 26-piece chest of silverware, a 5-piece set of "Wear-ever" aluminum cooking utensils, or an electric toaster. Don't decide on your range, at least, not until after you have read the valuable little book entitled "Before Buying Your Range." Come in and get one, or a postal to the Art Stove Company, Detroit, will bring you one by mail. And don't forget the dates of our exhibit. Oct. 31 Nov. 1 and 2. On Saturday afternoon at 2:00 the stove will be given away. Every one holding a ticket should be present at that time. Special Three prizes of the aluminum ware to be given to the ladies bringing in the best of any kind of baking, on Saturday, baked in a Laurel Stove. J. A. Caldwell, Cass City

MRS. JENNY C. LAW HARDY.

Mrs. Jenny C. Law Hardy is a native of Australia and comes of a family that has suffered much for its convictions. Ludwig Feuerbach, the philosopher, and Anselm Feuerbach, the artist, were relatives of hers. One of the family wrote a pamphlet against the great Napoleon and fled to Scotland, where he became a friend of Walter Scott, who mentions him in his diary, and he died in exile.

Mrs. Hardy participated in the suffrage victory in New Zealand in 1893, was through the suffrage campaign which culminated in the granting of the ballot to the women of Australia in 1902, and she has lectured for suffrage for the last seven years in Michigan, besides speaking in Austria-Hungary and Italy for the same cause. She is a member of the Royal Geographical society, of the Australian Society For the Advancement of Science and holds a diploma of honor from the Dante society in Rome. She was chairman of the legislative committee of the Michigan Equal Suffrage association when the legislature passed the suffrage bill and is now chairman of the press committee.

Having circumnavigated the globe three and one-half times and lived in many countries, Mrs. Hardy has been able to see personally the great progress of the suffrage countries—the humane laws for the benefit of women, children, the destitute, the aged and the worker, culminating in the marvelous success and prosperity of New Zealand, where there is not a pauper in the land.

**SHARE RESPONSIBILITY.**

Dr. Vaughan of the U. of M. on the Right of Women to Vote.

Dr. V. C. Vaughan, dean of the department of medicine and surgery at the University of Michigan, is reputed one of the greatest physiological chemists and experimental therapeutists in the world. He is known in all the hospitals of Europe as well as in this country. A large part of his life has been spent at the University of Michigan, where he began as an assistant in 1876.

Dr. Vaughan thus tersely states his reasons why women should be given the ballot:

"I am in favor of woman's suffrage because I am sure that there are many things, such as the employment of women in factories, etc., municipal hygiene, the pure food laws, etc., to which women will give more attention than man has given. These things are of the greatest importance, and the men should have woman's help in solving this problem. There is another reason why I believe in woman's suffrage. I believe that women should bear the responsibility with men. I think that woman herself will be benefited by having the electoral responsibility fall upon her. I am deeply interested in the subject, and I will be glad to do everything I possibly can to aid the cause and secure for woman the right to vote."

**LET WOMEN VOTE.**

They Will Know How to Use Ballot For Civic Housecleaning.

Men are responsible for the conditions under which the children live, but we hold women responsible for the results of those conditions. If we hold women responsible for the results must we not in simple justice let them have something to say as to what these conditions shall be? There is one simple way of doing this. Give them the same means that men have—let women vote.

Women are by nature and training housekeepers. Let them have a hand in the city's housekeeping, even if they introduce an occasional housecleaning. Let them vote in Michigan.

**PLAIN JUSTICE TO THE WOMEN**

**Demands That They Be Given Right to Vote.**

**EQUAL SUFFRAGE STANDS TEST**

What the Women of Colorado Have Done Since Receiving the Ballot. Many Reforms Promoted and Good Laws Enacted—They Have Never Been Responsible For a Bad Law.

By HARRIET G. R. WRIGHT, President of Colorado Equal Suffrage Association.

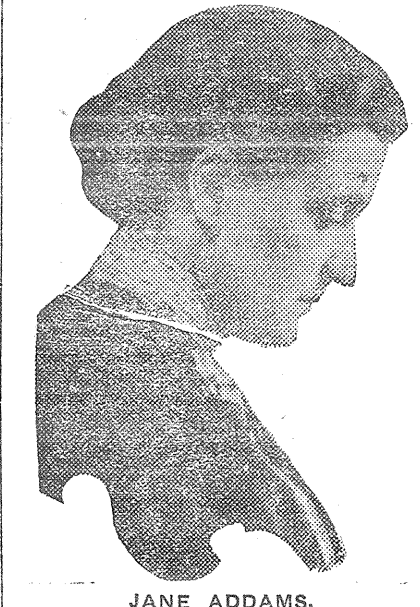

It would take much time to tell all the various new laws in Colorado that women have helped to pass, all the reforms they have initiated and all the abuses they have corrected. I will give a few touching the most important legislation in which they have been interested.

The real reason for demanding suffrage is that it is a matter of plain justice, and I like to see emphasis laid on this argument. As a prominent friend of suffrage said a few days ago, a man of splendid legal ability, "There are no valid arguments against woman suffrage that might not apply against manhood suffrage."

If we believe in self government, the right of people to make their own laws and regulations, then surely women are entitled to participation in all governmental functions.

One of the first laws in the first legislature held after women obtained suffrage was an act making women joint guardians of their own children. An act raising the "age of consent" to eighteen years. An act for establishing a state home for neglected and dependent children. Then an act establishing an industrial school for girls. An indeterminate sentence and parole law. Compulsory education law for children between eight and fourteen years. Prohibiting a woman from working more than eight hours in any store, factory, etc.

Another law introduced at the request of the State Federation of Wo-

JANE ADDAMS.

In a current booklet on "Why Women Should Vote" Jane Addams says: "If woman would fulfill her traditional responsibility to her own children, if she would educate and protect from danger factory children who must find their recreation on the street, if she would bring the cultural forces to bear upon our materialistic civilization and if she would do it all with the dignity and directness fitting one who carries on her immortal duties, then she must bring herself to the use of the ballot, that latest implement for self government. May we not fairly say that American women need this implement in order to preserve the home?"

men's Clubs and unanimously supported by all women was a splendid pure food and drug law. Then the act for establishing juvenile courts, with all its amendments for improving and strengthening the law, has had the enthusiastic support of all the women of the state. This law has been copied in many other states and praised by all who are interested in juvenile work.

Another law that women supported was a schoolteachers' pension act.

There are two other measures that were initiated by women's clubs—the first a primary law and the next an act establishing an initiative and referendum law.

Then there has been nothing that women have worked harder for than a factory inspection law, providing for a woman factory inspector who should inspect all places where women work, to see that all conditions are decent and sanitary, and among the last laws to be obtained was an almost perfect child labor law. We have very little child labor, but we wished to provide against possibilities.

There are many other questions women are interested in, but these stand out large in our minds. As time to enumerate is limited and space also, I have gathered up the most important as they seem to me. There is one thing to our credit—we have never been responsible for a bad law.

To take an equal number of citizens new and unused to public business and let them make such a record is something to their credit. We know the women of Michigan will do as well, and we shall rejoice if they do better.

We are waiting impatiently for the returns from Michigan. Will your men prove as just as the noble men of Colorado?

**Corelli and Caine.**

Marie Corelli's first story, "A Romance of Two Worlds," which made her name, was sent to the London publishing house of Bentley. Hall Caine was the principal reader of that house, and his report condemned the book so strenuously that it was rejected. Miss Corelli was deeply discouraged, but after some time she was persuaded to send the manuscript to another publisher. He accepted it eagerly and made a big fortune out of it and out of her later novels.

Thought Well of Themselves. Gibbon wrote in his dally: "I am the greatest historian that ever lived. No one can equal me in this direction."

Victor Hugo wrote to Bismarck: "The giant greets the giant, the foe the foe, the friend the friend. I hate thee furiously because thou hast humbled France. I love thee because I am greater than thou art."

And Wordsworth said of the "swan of Avon": "There is an immensity of trick in all he wrote. If I had a mind I could write exactly like Shakespeare."

 The Wide Awakes met at the home of Mrs. Cleaver on Tuesday evening for a six o'clock dinner. The table was prettily decorated in Hallowe'en style. Through the kindness of Messrs. Crosby and Frutchey, the party were taken out and back in autos. A pleasant evening was enjoyed.

"Oh, girls, have you seen McGregory & Farrell's show window? It's all fixed for Hallowe'en and really the black cats are just too cute for anything." And off they go to have a look. Two large jack-o-lanterns with their grinning faces laugh mockingly at them and autumn leaves are scattered about very naturally. Black cats with arched backs and bristling tails look ready for their witch to come; a caldron also awaits her before it gives forth its smoky secrets. The background is a dark sky with twinkling stars and the cold moon just as mischief makers wish it to be on Hallowe'en.

A large audience, both ladies and gentlemen, listened to an interesting lecture given by Mrs. Mattie French of Hillsdale on "Equal Franchise" Friday evening in the opera house under the auspices of the W. C. T. U. The speaker expressed her ideas favoring woman suffrage very forcefully and ably refuted the arguments usually spoken against the right of women to vote. She left no doubt in the minds of her hearers as to the qualifications of women being as good if not better in many instances than those of men. Mrs. French was introduced by Mrs. Wm. McKenzie, president of the local W. C. T. U.

**Your Coal Bills Will Shrink**

Pretty soon the leaves will begin to turn scarlet and yellow and brown. The cold days are coming—are you ready for them?

It's not too early to plan for heating during the cold months. You'll probably need a new stove—and you want the best one.

You can have every room in your home warm and comfortable day and night this winter---and with less expense than you paid last year for heating one or two rooms---if you buy a Favorite Base Burner.

The Favorite is the only base burner that pours heat into the house from every square inch of its surface. Every nook and corner---upstairs and down---may be luxuriously and evenly warmed with a Favorite.

You cannot afford to buy a stove without investigating the Favorite. Come and see us now, and we will show you why the base burner that bears this mark will throw out more heat, and consume about half as much fuel as other makes.

**DOWN FORDNEY**

Figures on the Purcell-Chandler-Fordney Congressional Contest.

A large number of voters in and about Cass City have been asking how they can cast their ballot to insure the defeat of Congressman Fordney for re-election. Everyone wishing to beat Fordney desires to be sure not to waste his ballot in this cause.

The vote of 1910 should form a good basis upon which to make deductions on this election. In 1910 Fordney received approximately 15,000 votes and Devereaux, his Democratic opponent, received approximately 10,600. Thus Fordney's plurality was 4,400 votes. In Saginaw county Fordney received 6,800 and Devereaux 6,500 votes in 1910. In 1912 we find Fordney and Purcell, both prominent men of Saginaw, pitted against each other and it is reasonable to suppose that each will receive a fair vote in their home county. The same with Chandler in Shiawassee, his home county. He will receive a complimentary vote there that will be considerable.

This contest between Taft and Roosevelt is a Republican split-up and cannot be considered as affecting the Democrats, their policies or their candidates. It is therefore fair to assume that the Democrats will hold substantially their entire vote in this congressional district, in this state and in the nation.

In this district two years ago the Democrat candidate polled 10,600 votes. Chandler, in order to win, must poll and draw over 10,600 votes from the Republican candidate, Mr. Fordney, in order to beat Mr. Purcell. He has to do this in the face of Saginaw county, Mr. Fordney's home county, which polls one-half of the entire vote in this district. Should Mr. Chandler fail to poll over 10,600 votes and poll only 5,000 in this whole district then it becomes a very close race between Mr. Purcell and Mr. Fordney. With all the backing Mr. Fordney has among the moneyed classes and the regular politicians and being on the regular Republican ticket, which many people will vote because of a fear of spoiling their ballot by splitting it, he has a tremendous advantage.

Voters, if you desire to defeat Mr. Fordney your great opportunity lies in voting for Mr. Purcell, who has over 10,000 good votes in this district to start with, whereas Mr. Chandler must work for each and every vote he gets.

Your opportunity is open now, to oust Mr. Fordney by voting for Mr. Purcell.

# Expert Inspection of Studebaker Buggies

Every Studebaker buggy, surrey or driving wagon is set up and carefully inspected before leaving the factory.

In building, the greatest care is taken to guard against the use of defective material.

Then, to make assurance doubly sure, before any Studebaker spring vehicle is crated for shipping it is set up ready to run and (under a strong light) undergoes a final and rigid inspection by an expert.

Every Studebaker buggy we offer for sale has passed this rigid inspection.

You can depend upon any vehicle that has been O. K'd by Studebaker.

Women should vote because it would increase the moral and law abiding vote very much, while increasing the vicious and criminal vote very little.

THE TIME HAS COME FOR WOMEN TO VOTE. Have you ever thought why your mother, wife, sister and daughter are not allowed to vote?

One hundred and twenty-five years ago girls were not admitted to the public grammar schools; women were not admitted to the colleges; women were not admitted to many of the trades and professions; married women could not own property, and married women did not own their own children.

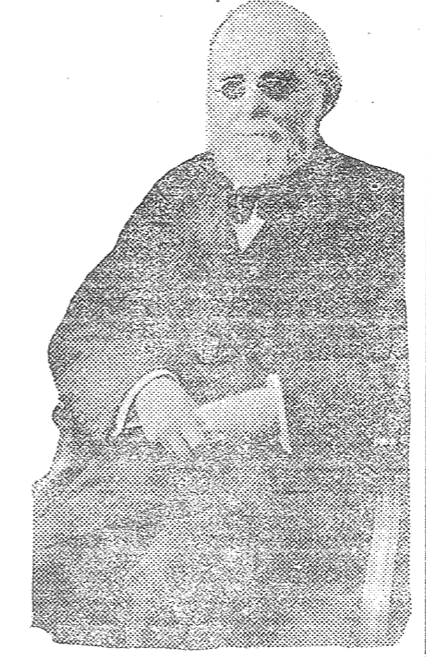

The mental competence of woman is now recognized in all phases of social responsibility, except that of the franchise.
