## **VOTERS TO DECIDE**

ALL AMENDMENTS TO BE CERTI-FIED OUT TO CO. CLERKS.

Suffrage, Initiative and Referendum and Firemen's Pensions, to Be on Ballots.

The voters of Michigan will be given an opportunity to pass judgment on the initiative and referendum, equal suffrage and the amendment providing for the pensioning of firemen at the state election this spring.

Secretary of State Martindale said today that all of the amendments Mr. and Mrs. Reader and thus the and another small force is busy placwould be certified out to the clerks loss seems very great. of the various counties in ample time to insure their being placed on the ballots.

Several days ago it was a question as to whether the bills would be returned from the state printer in time to allow the secretary of state to make the necessary certification, but other measurs were sidetracked and the printers were ordered to rush the amendments through. The suffrage movement wa certified out by the secretary or state last week .

Each amendment submitted at the 16. election must be printed on separate ballots according to an opinion rendered by Assistant Attorney Generat T. A. Lawler. This will mean that each voter may have to mark five or wix separate ballots on April 7.

#### DARKEY WEDDING

Woman's Study Club.

The members of the Woman's the home of Mrs. M. M. Wickware ficiated. on Monday, March 17. The entertainment for the evening was a surprise to the majority of the guests, who upon arriving were received by Unusual the gold dust twins, who with brooms in hand very graciously ushered the guests up the golden stairs. After removing wraps, they repaired to follows, for some of the more imporparlors, which were elaborately decorated for the occasion with pumpkin blessoms, ferns, palms, shamrock and streamers of green and red.

About eight o'clock a darkey wedding took place. As the sweet strains | March 26. of the wedding march played by Prof. rocms the bridal party took their 27; Cass City, March 28. places before a bank of pumpkin blossoms and palms.

LOCAL OPTION QUESTION. Tuscola and Sanilac counties will for the third time vote on election day next April whether the sale of in-toxicating liquor shall be authorized by the people of the two named coun-

Shall we have the open saloon re turned to our midst? That is a most important question and every voter should consider it from every honest Personal prejudice point of view. should not enter in and appeals to anything but your better judgment should have no weight.

Local option in these counties has not brought entirely ideal conditions. There have been violations of the local option laws. There have also been violations of other laws enacted for the community's good. Though local option may have faults the Chronicle believes that it has bettered conditions in both Tuscola and Sanilac and that it is a stepping stone to still better things for the citizens of the commonwealth. The habits fostered by 40 or 50 years of saloon temptation cannot be entirely effaced in four short years.

Where the law has failed, the failure has been open and notorious. Where it has won its victories, they have been quiet and little heard of,

repeatedly and sober, many times who hauled them the rest of the way. With their wives by their side, both Returned back as far as Wm. Republireceiving treatment for his arm in can leaders by a vigorous effort de-Mr. and Mrs. Fred Ball of Union- to 37, the necessary two-thirds not

By the action of the legislature upon the propositions recited the people of the state are to be denied the privilege of voting at the spring election for amendments which have occupied the public mind since the opening of the session and propositions which have attracted the attention since the opening of the political campaign of 1912. All three propositions are in line with progressive legislation favored by all parties which has been the cause of much concern for many months, and all of them received the approval of the state senate.

#### Cash Basis Assessments.

One of the things which has been given much attention not only by the the week with relatives here.

Miss Ella Palmerton of North public but by the house and senate Branch visited her parents, Mr. and and by the state tax commssion. The matter of equitable assessments of property has given the tax commission a stupendous amount of work during the past year and the matter was brought before the legislature on a hearing on the resolution of Representative Middleton. The state tax commission outlined its policy which would entail radical changes in the system at present in force. The plan contemplates assessments upon a cash basis with power of local representation by a person appointed to act in conjunction with the tax commission. The system proposed is evolved after a year's investigation by the commission, the expense of which is borne by an appropriation made by the state. It was stated that several large counties had already agreed to the plan.

Fruit Packing Bill Passes House. By a unanimous vote the bill of Representative J. J. Jakeway passed the house after a season of spirited debate in which competition with th products of other states and its bearing on the proposition was an important factor. The bill provides that growers must label the package with date of and quality and is designed to compel an improvement of the Michigan product in the outside mar-

M. A.C. Appropriation Needs Favored. In spite of the movement to obstruct the purpose of providthe funds asked by the Michigan Agricultural College on account of opposition to President Snyder, which has been the subject of spirited comment for several days, there is a disposition to give favorable consideration to the needs of the institution regardless of the opposition to the president, who is firmly supported by the college board of trustees. A conference has been held between the board and the scu ate committee of the Agricultural college, and it is predicted that the needs of the college will be respected.

Governor Favors Vice Commission. A vigorous probing of vice conditions in Michigan is being heartily indorsed by Governor Ferris. The Glasner house bill was turned down by the senate, which gave the governor some alarm for fear the proposition was not to be given further legislative consideration, but the chief executive was relieved when Senator McNaughton introduced a bill providing for a commission of five to be appointed by the governor to make sweeping investigations throughout the state. The governor is convinced that the measure will pass and is prepared to lend his earnest co-operation in the work. Attorney-General Fellows has been exceedingly busy looking up the laws affecting the proposition. There is a purpose to wipe out glaring vices of the commonwealth and to compel the enforcement of the laws by officials. The proposed commission will have broad powers, if authorized, and will be required to make investigations of conditions and to exterminate the social evil. It would deal with the wage problem of women and the immoralities said to be resultant from low pay of females. The bill carries an immediate effect clause.

Taylor Primary Bill Shelved. Representative Taylor's bill to reform the primary election system was shelved is the house after a three hours' debate. The bill covered 50 pages and its reading was a tedicus process. Speaker Currie finally entered the argument and opposed the amendment, defending a 15 per cent clause and declaring that an amendment of a few lines would accomplish the purpose without the necessity of a proposition entailing the voluminous detail of the Taylor prop-

The Taylor bill not only eliminates the 15 per cent clause, the party enrollment feature, but all party conventions to nominate candidates, and provides for second choice nominations. The bill was defeated by a solid Republican vote, 52 to 43.

#### Motor Tax Law Agreed To.

Automobile owners and good roads advocates all over the state will be interested in the final outcome of the legislation affecting motor cars. Under the Smith-Bricker bill, the state fund for road building would be replenished to the extent of \$700,000 annually. The bill provides for a horse-power tax, the tax to be in lieu of all other taxes on motor vehicles. Many large manufacturers of automobiles have urged the passage of the proposed law. The house agreed to the measure after a lengthy debate in committee of the whole.

#### Fight Ahead on 'Phone Bill.

One of the sharpest fights of the session is expected on the administration telephone bill, action on which, with other telephone measures, was put over until March 19. The bill, which has been given the sanction of the governor and approval of the state tax commission, will bring together all the opposing strength of those in favor and in opposition. The bill provides that the board of railroad commissioners shall have authority to compel physical connections between rival exchanges or others that touch the same territory. The commission would also have authority to compel a standard of equipment so that connections between two exchanges shall be possible. The bill further puts the burden of showing a necessity for a raise in rates upon the company, also gives the right to the commission to determine whether new companies shall be organized.

No Protection for Bear or Rabbit. Representative Jensen, of the upper peninsula succeeded in waking up the house members by describing the dangers of the ravages of wild bear in the thinly settled portions of the state. The house devoted considerable time to proposed legislation affecting fur-bearing animals in the state. He won out by securing clause eliminating protection for bear. A similar action was taken in regard to rabbits. The Holland house bill providing for exemption for wild cut-over lands was also passed.

#### Health Bill Passes House.

Broad powers in supervision of state water supply sources and sewer systems are provided in the bill introduced by Representative Monteith. The measure places such supervision in the hands of the state board of health, and after considerable debate was agreed to by committee of the whole and finally passed by the house without material change from the original draft.

#### Gold Leaf.

Antiquity conceals the origin of gold leaf, but it was used in the eighth century before the Christian era, and the process of preparing it by hammering is believed to have been the same then

## How Michigan Farmers Are Successfully Fighting Live Stock Diseases

If you are not doing something to rid your farm animals of the deadly stomach and intestinal worms you are simply Letting Down the Bars to hog cholera and all the other fatal diseases which have cost the farmers of this country over fifty millions of dollars the past year. YOU can't afford to run this risk. YOU can't afford not to take preventive measures. The best way of preventing these deadly plagues from getting a foothold among your stock is to keep every animal worm free and in the best possible condition.

Worms are the cause of 90 per cent of live stock losses. Thousands of Michigan farmers have learned this fact and by effectually striking at the cause have successfully won their fight. They have found "an ounce of prevention is better than a pound of cure." Read how they have stopped the loss and improved the value of their live stock.

"I have fed SAL-VET to all my sheep, hogs and pigs, and also to one of my work horses that was not in condition. The horses have rounded out spiendidly: my sheep never looked so well at this time of the year and my hogs and spring pigs are in the best of health. I have always been slow to feed any of the stock foods or medicines, believing that good feeding, and ordinary conditions ought to keep stock in good health, but I am well satisfied with the results obtained from SAL-VET; it has certainly improved to a marked degree, the condition of mystock,"—W. H. SCHANIZ, Supt. Sheep Dept. Michigan Agricultural Society. Hastings, Mich.

"SAL-VET is a fine thing. It was well worth the price for my cows alone. I have Holstein

"We keep SAL-VET accessible to our sheep all the time and have found its use very effective in keeping out worms, and the sheep in a generally healthy condition. We have also found it an excellent conditioner and worm cleaner for horses. Our experience is that of many of the hest farmers in this locality."—A.A. WOOD & SONS, Per Roscoe M. Wood, Saline, Mich.

"I have been feeding your SAL-VET to my sheep, hogs, horses and cattle for some time, and feel that I would notw'llingly do business without it. It keeps all my stock in fine condition and in a high state of thrift, and since feeding your edy. I have seen no evidence of par fection. I can confidently recommend SAL-VET to every stockman."—WM. H. ANDERSON, Pres. Fourth National Bank, Grand Rapids, Mich. "Our horses are free from worms, and look sleek since giving them SAL-VET. I feed it just as I do salt-just keep it before them constantly."—FRED MANKER, R 2, White Cloud, Michigan.

"Having thoroughly tested your "SAL-VET," I have found it to be exactly as you say it is. I feed it to hogs and colts and never had better results in my life. Many hogs in the neighborhood died of cholers: I have had no trouble here." — JUHN H. LEYENDECKER, Rt. 63, Byron Center, Mich.

"My SAL-VET is all gone, and as common salt does not begin to take its place. I want you to send me another keg at once. I am sure that \$5.00 worth of SAL-VET saves me \$10.00 worth of

The Great Worm Destroyer and Live Stock Conditioner

## Look Out for These Danger

Coughing, rough coats, laggard steps, poor appetites and dull eyes. These are the common symptoms of worm infection and should disease break out in your neighborhood the chances are a hundred to one against you, and your entire herds may be swept away with a suddenness that will appall you. You can greatly lessen this danger from disease if not altogether avoid these heavy losses simply by letting your stock run to "Sal-Vet" -the cheapest and greatest worm destroyer as well as the best preventive of live stock diseases.

"Sal-Vet" is a medicated salt which works a wonderful change in all live stock. It first destroys and expels the deadly worms and gives nature a chance to put every animal you own in a healthy, vigorous condition. It is the best stock insurance you can get because it costs so little and does so much. For one-twelfth of a cent a day any hog or sheep can run to it freely and will doctor themselves. It costs only a trifle more for larger animals and requires no mixing, no dosing, no drenching, no starving-no bother at all. I prove all this or no pay.

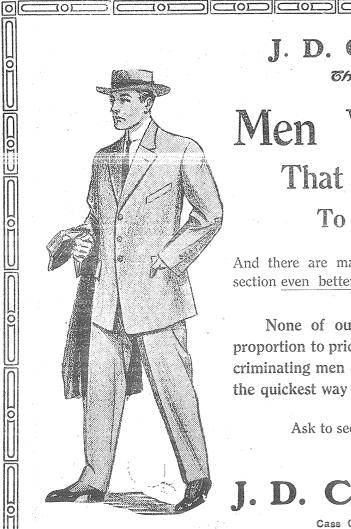

## Here is My Money-Back Trial Offer

Simply call at my "Sal-Vet" dealer's store and get enough "Sal-Vet" to last all your stock 60 days. Take it home with you and place it where all your farm animals can run to it freely. Then watch results. If "Sal-Vet" does not do what I claim—if it don't rid your stock of the deadly stomach and intestinal worms and prove entirely satisfactory TO YOU, simply notify the dealer and he will refund your money in full. You won't be out a single penny. I take all the risk. Remember, you get ALL your money back if you are not pleased. You certainly can't afford to risk the loss of a single animal when such a fair, square, liberal offer like this is made to you. You know

your dealer—he accepts your word as to the results. You take no risk whatever. SIDNEY R. FEIL, Pres., The S. R. Feil Co., Cleveland, Ohio

Get rid of the worms in your stock and watch your profits grow. "Sal-Vet" is giving wonderful satisfaction to our customers. We carry it in stock and will gladly arrange to let any farmer in this vicinity try it 60 days on Mr. Feil's liberal money-back offer. Come in and get a supply the next time you come to town. We guarantee Mr. Feil's liberal money-back offer. Come in and get a supply the next time you come to town. We guarantee "Sal-Vet" and back up every statement in this advertisement. You take no risk. You'll find it the cheapest stock conditioner you ever used.

Attention Builders!

**Estimates Promptly Furnished** 

It is natural for you to want the most and the best you can get for your money. But when you buy a bill of lumber without getting an estimate from us

how do you know that you're getting the best bargain that is possible for you to get? You simply can't tell a thing about it. You don't know whether you're losing money or not.

The only safe way is to always let us make you an estimate on what you want, before buying elsewhere. We have a complete stock of everything in lumber and building material.

Figures talk. So get our prices.

The A. C. Hayes Store

It was formerly believed that epilepsy could be cured by wearing a silver ring made from a coffin nail. Seven drops of blood from the tail of a cat and blood from a recently executed criminal were said to be valuable remedies for epilepsy. To cure a felon or run around hold the finger in a cat's ear for half an hour. For toothache trim your finger nails on Friday or eat bread that a mouse has nibbled or carry in your pocket a tooth from a soldier killed in battle. For ranula of the tongue spit on a frog. For alcoholism drown an eel in brandy and make the drunkard drink the brandy. To cure warts rub the wart with a potato and feed the potato to a pig.

Swords Bent Double to Test Them. If you have an opportunity at any time of examining a sword such as is used in naval and military services you may notice that just below the hilt, an inch or two down the blade, there is a small disk of brass welded into the blade. The meaning of this brass might well escape any one not possessed of a well developed sense of curiosity. Swords are subjected to very severe tests before being issued, and this brass piece indicates that one of the tacte to which the sword ed was to have its point bent right back until it touched the hilt at the chase it. The lot is on a corner and cola county and running east 100 brass spot. Swords that have success-makes an ideal building spot. Mr. rods, crossing the county line into

Largest Crater on the Earth.

The volcano Aso-san, in southern Japan, on the island of Kiushu, possesses the largest crater known on the earth. It is about fourteen miles across in one direction by ten or eleven in the other and is surrounded by walls of an average height of 200 feet. Although the volcano is still active, its eruptions consist only of ashes and dust. Indeed, a range of volcanic mountains, evidently of subsequent formation, extends directly across the old crater. In these particulars Asosan resembles some of the craters of the moon, where a long history of successive and gradually enfeebled outbreaks of volcanic force is graphically represented.

Nero and His Voice. The Emperor Nero took remarkable care of his voice. At night Nero lay on his back, with a thin plate of lead on his stomach. He abstained from fruits and all dishes which could hurt his voice. In order not to damage the purity of its sound he ceased haranguing the soldiers and the senate. He attached to his service an officer specially deputed to take care of his voice. He talked only in the presence of this singular official, who warned him when he spoke too loudly or forced his voice. and if the emperor, carried away by some sudden fit of passion, did not listen to his remonstrances it was his duty to stop his mouth with a napkin. -Modern Medicine.

The Minimum Wage. Willie-Paw, what does the minimum wage mean?

Paw-It means the smallest amount you can pay for a certain amount of work, my son.

Maw-It really means what a married woman receives from her husband. Now you go to bed, Willie.-Cincinnati Enquirer.

Thames Tunnels.

The first tunnel to be built under the Thames was the work of Sir Isambard Brunel, who was the inventor of the shield method of excavation. This tunnel, known as the Thames tunnel, was commenced in 1825 and took eighteen years to complete. Since 1865 it has been used for railway communication only and now gives through communication by electric trains between the whole of London north of the Thames and New Cross. In addition to the new Woolwich tunnel, the London county council has provided tunnels at Blackwall, Greenwich and Rotherhite, and the total cost to the rate payers of these four undertakings has amounted to nearly £4,000,000.-London Mail.

Men With Hearts. "I don't believe bachelors have any hearts," she said.

"Why, we're just the men who do have them," he replied. "Why is that?" she asked.

"Because we haven't lost them."

### To Our Friends and Neighbors

You know us. You know we would not—that we could not afford to-go back on our word. Nor can you afford to ignore this money-back-if-not-satisfied offer on this splendid laxative.

We honestly believe we have the best bowel remedy ever made—the most pleasant-to-take, most per-manently beneficial laxative for relief from the miseries and dangers arising from constipation.

We wouldn't say this if we didn't believe it to be true. We wouldn't risk our reputation by making such statements did we not feel sure you would find them true.

Ou. ... th is built both on the knowledge of what Rexall Orderlies are ... de of and on observation of ver many severe cases in which they have proven their merit.

#### Try them at Our Risk

If they do not abundantly prove their merit with you also—if you are not entirely satisfied with them we will refund your money—and we will do that on your mere say-so. We don't ask you to risk a penny. Isn't that fair?

Just let the bowels fail in properly doing their work—just let their action be delayed and incomplete and the entire system and every other organ suffers. Wastes that should have been dispelled remain to poison the system.

Headaches, biliousness, nervousness and other tormenting and serious ills are common when the bowels fail to act daily as nature intended. All this may be avoided, if you will accept our advice.

#### Revall Grderlies

taste just like candy. They are soothing and easy in action. They do not cause griping, nausea, purging or excessive looseness. They tend to tone and strengthen intestinal nerves and muscles. They promptly relieve constipation, and help to per-manently overcome it.

Rexall Orderlies promote better spirits and better health. In all of these things they are vastly superior to old-fashioued, harsh salts and other purgatives, which are not only unpleasant to take but which usually leave the bowels in worse condition than before. We particularly recommend Rexall Orderlies for children, ared and delicate persons. aged and delicate persons.

Rexall Grderlies come in vest-pocket tin boxes. 12 tablets, 10c; 36 tablets, 25c; 80 tablets, 50c.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all drug-ists. You can buy Rexall Orderlies only at The Rexall Stores. You can buy Rexall Orderlies in this community only at our stores

#### COMMUNICATION.

Kouts, Ind., Feb. 17, 1913. Editor Cass City Chronicle, Cass City, Mich.

Dear sir: I noticed by your paper that the "uniformity school book law" is again up in the Michigan legislature.

have taught school in Illinois and Michigan and am now engaged in teaching in Indiana. In Illinois and Michigan there is "county uniformity" to a great extent and you have a superior class of text books in use. In Indiana we have state uniformity and have an inferior class of books.

books. A great many teachers here use the state uniformity texts just sick list. enough so as to comply with the state regulation and do their real work from other texts because the books adopted by the state board are so very unsatisfactory.

Our books here are about ten per cent cheaper than your books up there and are worth a great deal I might state particulars if I so desired but be it enough to state that the city superintendents are now trying to have a law passed to exempt cities from the state uniformi-Is not that evidence enough of dissatisfaction of our present

Any one who quotes Indiana as an exemplary state in school legislation does not know what he is talking We have some good things here in Indiana but if those interested in the welfare of the Michigan school system will take the time to investigate matters in Indiana—and consult the teachers, not the politicians—they will thereafter quote Indiana with extreme caution because we have many things here that are certainly not worthy of emulation.

I am not in the employ of any publishing company but I say this that if the legislators of Michigan pass a state uniformity law it might be well for some of the members to seek homes in Adams county, Ohio, where life disenfranchisement can easily be obtained. County uniformity is to be desired

everywhere but when you have a larger unit you impair the efficiency of the school system.

I hope Michigan will be more interested in passing a "minimum teachers' wage law" to raise the efficiency of the schools and not waste time trying to adopt a "text uni-formity law."

Yours truly, J. W. Thiel.

#### COOK'S CORNERS.

Joe Patenode and two daughters visited friends at Ashmore on Tuesday. Roy Decoray has purchased a 60acre farm of Ceril Rabidue.

Mrs. Noah Concenia is visiting at the home of Louis Concenia in Gagetown.

Noah Tuechette and wife of Bay City are visiting at his mother's home here.

Ceril Rabidue is on the sick list. Miss Mildred Patenode has been sick the past week

Miss Lottie Goshlin has gone to Detroit to work.

Henry Rabidue of Caro visited relatives and friends here last week. Mrs. Burke of Nebraska is here on business and visiting old friends and

neighbors. Joe Wood's little baby has been sick, but is improving.

Henry Montreal is moving his family to the tenant house on Henry Risk's farm where he is engaged to work this summer.

Mr. and Mrs. Pete Bedore of Pinconning have come to live with their daughter Mrs. Alex Longway.

Men folks are busy buzzing wood these days. Chronic Stomach Trouble Cured. There is nothing more discouraging

than a chronic disorder of the stom-ach. Is it not surprising that many suffer for years with such an ailsurier for years with such an all-ment when a permanent cure is within their reach and may be had for a trifle? "About one year ago" says P. H. Becak, of Wakelee, Mich., "I bought a package of Chamberlain's Tablets, and since using them I have folt perfectly well. I had previously felt perfectly well. I had previously used any number fo different medicines, but none of them were of any lasting benefit." For sale by all dealers. Advertisement.

#### WICKWARE.

Mrs. Cole and her son, William, of West Branch are the guests of Mr. and Mrs. Walter Gracy. Ladies' Aid met last week with

Mrs. David Hartwick and 30 took dinner with her.

There will be a gold medal contest at Shabbona next Tuesday night. The contestants will be from Wickware and Cass City. While the judges retire there will be other speaking. All are invited. Collection taken.

Preaching next Sunday morning. We are going to have a new preacher from Canada.

Miss Cora Bartle and her friend, Mr. King, and his brother visited the Wickware school last week. Mrs. Shell spent a few days with

Mrs. George Cridland. James Brown and daughter, Hat-tie, have returned home after spend-

ing the winter with relatives in Canada. Mrs. Tom. Nichol entertained her

sister, Mrs. Ervin, and Mr. and Mrs. James Nichol and Laurel and Ethel Howey Sunday. Miss Anna Murray returned to De-

troit one day last week. Jol Murray returned to Lansing af-

er spending a few days at his home.

#### The Forty Year Test.

An article must have exceptional merit to survive for a period of formerit to survive for a period of forty years. Chamberlain's Cough Remedy was first offered to the public in 1872. From a small beginning it has grown in favor and popularity until it has attained a world wide reputation. You will find nothing better for a cough or cold. Try it and you will understand why it is a favorite after a period of more than forty years. It not only gives relief—it years. It not only gives relief—it cures. For sale by all dealers. ## Black Silk Stove Polish

ON'T imagine for a moment that all brands of stove polish are the same.

Don't get the idea that to keep a pice allowed.

ON'T imagine for a moment that all brands of stove polish are the same. Don't get the idea that to keep a nice glossy shine on your stove you must black it every few days. It's not a question of oft-repeated application. It's a question of the stove polish to use.

Black Silk Stove Polish is so much better than other stove polishes that there is absolutely no comparison—it's in a class all by itself.

It makes a brilliant glossy shine that don't rub or dust off. It anneals to the iron—becomes a part of the stove. It makes old stoves look like new and lasts four times as long as any other shine.

Get a can and give it a trial. Try it on your parlor stove, your cook stove, or your gas range. If you do not find it the best stove polish you ever used, your dealer is authorized to refund your money. Black Silk Stove Polish has been made by the same formula and sold under one name for 30 years.

Here is what some of the ladies write us:

Here is what some of the ladies write us:

"I sent to you for a can of Black Silk Stove Polish and found it so much better than any I had ever used that I asked my hardware dealer to order a supply. He did so, and is now selling nearly everyone in the place your polish. I had no idea there could be such a difference in slove polishes."

"I was visiting friends and they used Black Silk Stove Polish on their stoves. It made the best shine I ever saw, and after blacking, the polish did not rub or dust off. It is way ahead of any polish I have ever used."

Ask Your Dealer for Black Silk Stove Polish and refuse a counterfeit brand. Costs you no more than the ordinary kind, so why not have the best. Made in liquid or paste—one quality.

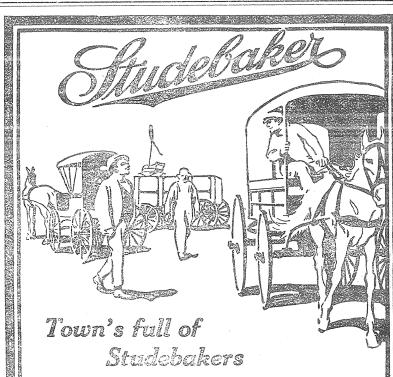

Black Silk Stove Polish Works, Sterling, Ill.

ACK SILK

Use Black Silk Air-Drying Iron Enamel for grates, fenders, registers, stove pipes, etc. Prevents rusting. Not affected by heat or cold. Produces a permanent glossy black surface. Can, with brush for applying enamel, only 25 cents. Ask your dealer. Use Black Silk Metal Polish for nickel, brass, silver ware or tinware. It has no equal for use on automobiles.

TAN EASTER MYSTERY

My Happiest Easter

By H. B. Sonneborn

Distinguished for sweet saintliness drew me nearer to the large and kindly side of human life.

budding after a winter of worldlyism, and each Easter we blossom forth ity, it's comforting that in thought, at find at close range. There was great and ambitions. because of this that I try to coax back to mind the incidents of genial goodfellowship which humanized the occasion of which I am about to speak.

Right after sunrise there assembled in the crowded combination room in through the blossoming plum trees the low frame dwelling, known for miles as Justins', thirteen of us, eight children and five adults. It was a rare company. The old grandfather, slightly bent—a luxury of bushy hair turned white-hands thin and knotty, always outstretched in welcome, and Janie, the dearest little minx that ever reigned, at his side, coaching him if he should fail to discern the speaker, graciously acted as hosts, and made us all feel very much at home. The atmosphere was so peaceful there that one could not help but be drawn to the others present. Like an enchanted fairy's, Janie's golden locks shed a splendor all about the room, but with this glimmer was outshone by the illuminated countenance of the grandfather which radiated the light from within.

Weeks ahead, Janie had confided to poor children to come up to her place for some Easter joy. To use her own phrase, "I want to give all the poor kids a lot of fun on Easter morn." In this I consented to act as procurer to the extent of inducing one little cripple to promise for my sake—that was the way I put it-to accompany me to Justins'. This little chit of a girl, Agnes, was weary of heart because of the thought that her own widowed mother, whose life's blood was going out fast, could not muster enough strength to attend, but she did not evince any sign of agitation for fear that it might cause a gloom to settle

on the enthusiasm of the others. have always believed that one of the happy moments in Agnes' life was when Janie embraced her in her arms, and literally smothered her in her small bosom with all the warmth that she could exude.

Hardly had the word been given that all was ready for the egg hunt, when I offered my arm to Grandpa, who, with his eyes always turned in my direction, from habit, nodded a gracious acceptance as he suited action to the word and hitched his arm into mine. Off we strode. The whole company, divided off in twos, threes and fours, scampered over the ground, examining every foot of soil to locate the nests of colored eggs, chocolate bunnies and other goodies which had been secreted the day before by John Choppe, who alone did not join in the search. One moon-faced, round, chubby broth of a boy, failing to extract any information from John Choppe as many years since. If in to the whereabouts of some of the "plants," was wandering off by himself, sulkingly, when there suddenly was great rejoicing and shouting.

Far away-yonder by the sharp elbow in the stream where the enormous chestnut tree branches hang low-in that secluded spot, Janie carrying a little tot in her arms and leading caressingly my crippled friend, And inasmuch as Easter is head what looked as a particularly Agnes was seen, holding high over her rich find. It was a large rooster in chocolate. Immediately from every anew with a desire for more spiritualious eyes who wanted to examine the

> After all the eggs that had been hidden by John Choppe had been uncovered, and there had been a generous distribution of the plunder, the company started to retrace its steps and peach trees, along an alley where the foliage in its symphony of green adorned the group of merry Easter children. It was here that Grandpa Justins drew us all nearer to him. He stood up in the center, all alone, and asked us to surround him, and be seated on the soft turf. His voice was like a song in a minor key.

"I have long yearned for this opportunity to say a word to you, and this occasion is most favorable to thought and meditation." He was not preachy. He spoke in that gentle tone for which he was known all his life. "I want to converse with myself and with you," he continued, "and make it possible for us to live closer to the inner life. I want to be more conscious that I am worshiping right, that I am using the God-given grace for silencing suffering and sorrow, me her design to get all the really and strengthening the weak and the meek." His state of soul was of that

delicate softness. As it is difficult to be happy and be away from divine influence, is it not best to creep up as close to the fountain head of the precious love of the Master and Savior of Man? It was this thought that I have carried with me since that sermon of Grandpa Justins on that memorable Easter morn,

Once More the Eastertide.

#### Don't Be Found Guilty

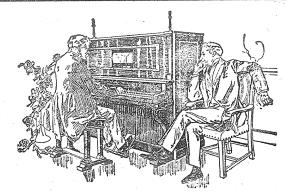

Give Your Children Music.

APPEAL TO EVERY MOTHER AND FATHER

Do you realize that in giving your children a musical education, you are preparing them for the battle of life, which they will be called upon, sooner or later, to fight without your assistance?

A musical education has not only a refining influence, but adds greatly to the natural brilliancy of the child, besides causing them to be greatly sought after at all social functions. Then, when you are no longer here to look after their welfare they have something to fall back upon to furnish a livelihood which is far better than wealth, for it makes them complete masters of the situation.

A musical education is the best estate you can possibly leave to them. It can never be lost or taken from

### Have You Ever Had

The fascination of personally producing music? Don't lose any time to experience the fascination at once. It is a pleasure unlike all others. This beautiful \$550 Player Piano now only

\$365 Including A Good Supply of Music, Bench and Scarf.

### Facts in Nature

FOR centuries it has been known that Nature's most valuable health giving agents for the cure of disease are found in our American forests.

Over forty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N.Y., used the powdered extracts as well as the liquid extracts of native medicinal plants, such as Bloodroot and Queen's root, Golden Seal and Stone root, Cherry bark and Mandrake, for the cure of blood diseases. This prescription as put up in liquid form was called

#### DR. PIERCE'S Golden Medical Discovery

and has enjoyed a large sale for all these years in every drug store in the land. You can now obtain the powdered extract in sugar-coated tablet form of your medicine dealer, or send 50c in one-cent postage stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N.Y., and tablets will be mailed, postage prepaid. The "Golden Medical Discovery" makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system. Skin affections, blotches, boils, pimples and eruptions—result of bad blood—are eradicated by this alterative extract—as thousands have testified.

Send 31 one-cent stamps to pay cost of mailing orly on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1068 pages, clothbound ADDRESS DR. R. V. PIERCE, BUFFALO, N. Y.

#### "MORE SOLD IN DRY COUNTY"

Refuted by Facts, Some Strong Arguments But Liquor People Must Answer.

The liquor forces, the rum barons outside of Tuscola are anxious for us to believe that there is more sold now than before. But Mr. Voter, if they did and do yet, why did they spend \$10,000 two years ago to force the saloon upon us, and why are they coming over again for the same pur-

It is claimed that more is being drunk the more we have local option. Come with us through Uncle Sam's stant will say any man is entitled to revenue books. In 1870 the per capita consumption was 7.7 gallons. In 1893 18.20 gallons an increase of 106 per cent. In 1910 the per capita consumption was 21.86 gallons, an increase in 17 years of only 10 per cent. If the ratio of increase had naw, and put out the fire. ment applies only to the office voted kept up as established from '70 to for at the primaries and has no bind- '93 we would have been drinking today 41 gallons per capita. But the local option movement started in

According to Inter-state Commerce reports last year there were shipped into dry states 20,000,000 gallons. There are 16,603,000 people in the 9 dry states. There is none manufactured in these states so the 20,000, 000 gallons represent the amount consumed which is 1.25 gallons per capita. Deducting the 1.25 gallon for the population of dry territory it will Notice is hereby given to the make the wet territory's part of liq-Qualified Electors of the Township uor consumption 64 gallons per capiof Elkland, County of Tuscola, State ta. In 1911 Minnesota was paying U. S. revenue on 64 gallons per capita, while Kansas was paying on only 1-100 gallon. Kansas is possibly the dryest and Minnesota possibly the wettest states, and the proportion of sessed of the necessary qualifications 64 gallons to one is not right. But of electors, who may apply for that it will hold good the country over, 64 to 1. So the liquor people want to sell us the other 63 gallons here in

The saloons would cost Tuscola County \$150,000. The extra cost of jails, courts, and loss of efficiency would equal another \$150,000. This Can we afford it?

In Kansas are found the least per cent of jail-inmates, the least per of feeble minded and insane, the being a citizen of the United States; Tuscola and the other counties back 'wet.

In Maine out of every 100 families there are 46 home owners. New Yor has only 17. Connecticut only 19. In Maine there is found the largest per cent in the public schools of any New England state. It also employs

There is not a "wet" county in the

The liquor business takes 42 cents vote at any election unless he worth of grain from each farmer an-

in which he offers to vote twenty days next preceding such election.

Said Board of Registration will be the cost of jail committments was liquor people say that conditions are

## HERE AND THERE

CLIFFORD-Fire broke out early Sunday morning in Odd Fellows' hall, and the whole building, a two-story brick, was destroyed. The general store of R. Smith occupied the first floor and the Odd Fellows the second. Smith's loss is \$5,000, and that of the Odd Fellows, who owned th building, about the same. The drug store of E. W. Keeler, next door, was somewhat damaged by smoke and water. It is believed that the fire started from an overheated stove in the Odd Fellows' hall, where a meeting was held Saturday night. The village has no fire department, but a steamer was summoned from Sagi-

SANDUSKY-Clare Orr, for years prominent hardware dealer here, died March 12 after a three weeks' illness. The remains were taken to North Branch, his former home, for

HARBOR BEACH — The Harbor Electric Co. was organized here March 12. The new company which is organized at \$10,000.00, numbers among its stockholders, some of our most progressive and enterprising citizens and no difficulty was found in placing the entire issue of stock. The following officers and directors will guide the destinies of the new enterprise during the coming year: President, J. G. Kiah; Vice President, Chas. H. Frame; Secretary and Treasurer, B. B. Huestis; Directors, Robinson Wellock, Capt. G. G. Scranton and Jas. I. Bennett. The purpose of The Harbor Electric Compnay is to supply electricity for lighting and power purposes throughout the city and to handle fixtures and appliances. To that end the electric lighting plant of Puddock & Lermont is soon to be taken over by the new concern and the old lines thoroughly overhauled and rebuilt. Electric current is to be supplied to the new company from the splendid modern powerplant of The Huron Milling Company, and 24-hour service for both lighting and power will be available at all times.—Times.

UNIONVILLE-The meeting held Wednesday afternoon, March 12th, at the Village Hall was attended by a great interest was manifested in orlowing are the qualifications of male electors in the State of Michigan:

Every male inhabitant of this state, being a citizen of the United State; this in Michigan, but not by voting from the Vassar Farmers' Elevator from the Vassar Farmers' Elevator Co., of Vassar, and the Farm Produce Co., of Cass City, where farmers co-operative elevators have been operated for several years very successfully and profitably and it was voted to organize with \$20,000.00 capmore teachers according to popula- ital stock. The following committee eighth day of November, eighteen ion.

90 per cent of the crime and 70 per cent of the pauperism comes from tions: C. H. Geyer, Wm. Bohn, Jas. Cent of the pauperism comes from T. Russell, W. W. Briggs, F. G. Yeythe saloon, and yet they ask us to er, Clint Honeywell, Henry Hageman, Cornelius Barriger, Theo. Causley and Otie Loomis.—Crescent.

member of any tribe, shall be an than any "dry" county. The saloon tion passed off quietly although there elector and entitled to vote; but no one shall be an elector or entitled. The liquor business takes 42 cents the two tickets in the field. A total of 160 votes was cast and the proposition to bond for \$4,800 for the completion of the water works and electric light plant carried by a large margin. The vote on the electric light proposition stood 138 yes to 13 no and the water works proposition stood 142 yes and 11 no.

> CROSWELL-An organized party started out Monday to search for Otis Jackson, who has been missing from his home, south of this city, since Wednesday morning. Jackson, who is 21 years old and married, left 2 home after telling his wife that he was going to a nearby neighbor to buy a horse. He is known to have visited a small store near his home, but since that time his whereabouts are said to have been unknown.

> CARO—Paul Schleicher has been promoted from the position of assistant superintendent of the Caro plant of the Michigan Sugar Co., to that of superintendent of the Croswell plant, and is preparing to move his family to that thriving town and enter upon | his new duties.

UBLY-A business meeting of the directors of the Business Men's Club was held with Judge Riopelle, promoter of the proposed gasoline road Shall the manufacture of liquor and the liquor traffic be prohibited within the county—[] YES.

Shall the manufacture of liquor and a similar bill passed in Lausing the Shall the manufacture of liquor and law will be kent. Try the Webb \$300 from Parisville, and the right the liquor traffic be prohibited within the county—[] NO.

Every legally cast ballot upon shall be sept. Try the Webb bill for two years and see how it works.—Advertisement by Tuscola townships. A committee was appointed, and at a meeting held Monday night the committee announced that Ubly's money was in sight—and a report says Parisville is also ready with the money. And as the right of way through both townships is field March 28 and at Kingston practically assured, the Judge has nothing to do now but go ahead and start the cars as soon as he is ready. -Courier.

> New shipment of popular 50e copy right books received at Treadgold's April 4. Drug Store.
