LAWS ENACTED ARE IMPORTANT

STATE LEGISLATURE LEAVES NOTABLE RECORD.

Progressive Policy Shown. Legislation Sought for Many Years Finds Way to Statute Books.

LANSING, April 29.—Exactly at 1:05 Saturday afternoon the Forty-seventh session of the Michigan legislature closed its business and passed into state history. The closing moments of the session were devoted to action upon the reports of conference committees upon several appropriation measures. These disposed of the legislature closed one of the most important sessions in the history of the state.

Progressive Legislation.

While the house and senate were largely Republican in majority, there was a strong sprinkling of Democrats to keep them in check and a not inconsiderable number of Progressives who were heard from during the session. All parties had given platform pledges in the recent campaign affecting progressive legislation, and when the books are written it will be found that in this respect, in liberal measure, the campaign promises have been carried out. Laws that have been prayed for during the past several years are now upon the statute books. Amendments to the constitution that have been pleaded for by popular demand have been placed before the people and expressions made at public election. The women and their supporters demanded another chance to have the people vote upon equal suffrage and it was given. It was defeated, but the opportunity was not withheld. The people clamored for the initiative, referendum and recall and the legislature yielded to the popular will. The result is a victory in that direction along progressive lines.

For years election of United States senators by the people has been a popular cry. A resolution authorizing the expression of the people upon the question was adopted without a dissenting vote and the people of the state at the polls ratified the proposition.

Primary Legislation.

For years the primary election law has been shown defective. A new law is now on the statute books which promises relief from existing inconsistencies. The new act eliminates the percentage clause and enrollment. Incidental to this legislation is a law providing for the election of members of state committees and national committeemen of all parties by primary vote.

Appropriations Reach $11,134,000.

The total of the appropriations will approximate $11,134,000 as against $9,500,000 two years ago. The total asked for was about $20,000,000. It was the general desire of the legislature and the expressed wish of Governor Ferris that the needs of the various state institutions be met without hardship to the institutions. Realizing that most of the state institutions were denied what they really needed two years ago, the governor declared that all just demands should be respected. While there was considerable pruning of amounts requested, the operation was performed by the committees and not by the chief executive, who believed the responsibility of the acts of the legislators should rest upon their own shoulders and it was not his desire to place any handicap in their way.

Important Laws Enacted.

This session will have the credit of enacting several laws of very great importance that have been the subject of bitter contention in previous years. Home rule was granted in one act that met with a good deal of opposition. The banking laws were amended in many important essentials to provide for the protection of depositors and stockholders and to facilitate methods affecting public safeguards. The so-called "blue sky" law, designed to protect the public and innocent purchasers from the machinations of unscrupulous promoters, was finally made a law. A state insurance bureau providing for the state to carry its own insurance upon its institutions and other property, is established, thereby protecting the commonwealth against the ravages of fire. Pure food legislation was a popular theme of the session and several far-reaching and effective laws are on the statute books. After a combat of several weeks' duration a law was passed requiring the state, through certain commissioners, to compile and publish its own laws, the process of enactment effectually defeating a measure indorsing the compilation of a Chicago publishing concern. While a desperate effort was made to secure a law affording free textbooks, the next best thing was secured, a law permitting school boards to purchase books at wholesale prices and to sell to pupils at ten per cent above cost. The law requires publishers to file prices and to sell for not more than the prices made in other states.

Another law was passed which abolishes the state land office, thus enabling a large saving and requiring the work now being done in that department be done in another.

Important Measures Killed.

Some of the measures defeated were the subject of bitter controversy and prolonged battles on the floors of both houses. Notably the proposed uniform and free textbooks bills. Another was the proposition to appropriate $100,000 for representation at the Panama exposition. There has been considerable dissatisfaction expressed over this action, as practically every state in the Union will be represented in the Pacific exposition. A bill providing for the enlargement of the capitol building at an expense of $750,000 was also defeated. Representative Glasner's celebrated pure marriage law passed the house but was killed by the senate. Several propositions for vice commissions

CELEBRATED THEIR SILVER WEDDING

MR. AND MRS. J. H. MOORE MARRIED 25 YEARS.

Both Active in Church Work. Mr. Moore Supervisor in Grant Ten Years.

Friday, April 25, was the 25th anniversary of the marriage of Mr. and Mrs. John H. Moore of Grant township, and this was not overlooked by the relatives. A small company gathered at the home in the evening and after spending an hour in conversation and partaking of refreshments, presented Mr. and Mrs. Moore with several articles of table silverware.

Mr. and Mrs. Moore (Mrs. Moore's maiden name being Anna Littlejohn) were married at the home of Mrs. Moore's uncle, L. R. Richardson, in Strathroy, Ontario, in 1888.

In 1890 they moved to Michigan and settled on the farm since occupied by them, located in Section 26, Grant. Four children were born to them, all of whom live at or near home. Philip Marvin at home, Arthur Harold of Grant township, Florence Beatrice (Mrs. Glenn Hoffman) of Elkland township and Wilmot Littlejohn, pastor M. E. church, Armada.

Mr. and Mrs. J. H. Moore.

Mr. Moore has been interested in township politics for a number of years and has been honored with some of the important township offices and is now serving his tenth year as supervisor.

Both Mr. and Mrs. Moore have been identified for a number of years with the Grant Methodist Episcopal church and have helped to bear its burdens and to share in its sorrows as well as to rejoice with it in its victories. Both have held and hold today offices in the Sunday school, church, Epworth League, Ladies' Aid Society and the Womon's Home Missionary Society, and have alwys been indefatigable in their labors for all these societies and interests of the church.

MAY 15 ANNUAL CLEANING UP DAY

CITIZENS AND PROPERTY OWNERS URGED TO USE RAKE.

Everyone To Work to Make Cass City Look as Spick and Span as Possible.

Thursday, May 15, is the day which has been set aside by the village council as the annual clean-up of Cass City. Citizens and merchants as well as school children, are expected to take part in the cleaning up work to make the city look as spick and span as possible.

Although hardware dealers have not had their stocks of rakes depleted, it is hoped that many people will wield the many toothed implement to comb the wrinkles out of their lawns and clean up the winter's deposit of dirt. Ash heaps, leaves, dead grass, papers, boxes, twigs, garbage, loose lumber, tin cans, bottles, old shoes, and anything that constitutes rubbish or makes an eyesore to citizens and the visitors within the gates of the city, should be attacked in the campaign for cleanliness.

Already many citizens have cleaned up their yards and gutter lines, not even waiting for the official clean-up day. A few vacant lots show the efforts of their respective owners to contribute towards the sightliness and health of the neighborhood and city. While May 15 has been named the official clean-up day, that work need not wait until that date, but the earlier completed the better.

The alleys in the business districts will all undergo a good cleaning up under the supervision of merchants and street commissioner, and made as sanitary and sightly as possible. This work will be done mostly by men.

When the daily sessions in schools are terminated, it is the desire f the council that school children take an active hand in the work of beautifying the city by making it clean and sanitary. They could do a great deal of work in a couple of afternoons and for this reason it is urged upon parents to gain the co-operation of the children, in the residence districts.

APPROPRIATION GRANTED

Council Votes $400 for Repairs for Fair Ground Buildings.

The Driving Park Association has found it necessary to expend a sum approximating $500 in repairing and putting in proper shape the buildings and fences at the fair grounds which were wrecked in the recent wind storm. The association had the agricultural and floral halls properly replaced on their foundations and then found that their resources were exhausted.

At a meeting Saturday evening, the directors decided to ask for an appropriation of $400 from the village, and accordingly Monday evening, Messrs. J. D. Crosby, I. B. Auten and E. H. Pinney appeared before the council in behalf of the Driving Park Association and pleaded their case. Their request was granted.

The Driving Park Association has never paid dividends on the shares held by the members, but they have been subject to assessment. The citizens of the village have used the fair grounds as a public park since the grounds were plotted 23 years ago without expense to the village and the appropriation voted Monday evening is the first money that the village treasury will yield towards this institution.

Schiedel, F. E. Kelsey, Meredith Auten and Spafford Kelsey. Mr. Kennedy and Miss Jessie Duncanson favored the company with excellent readings.

HEALTHY COWS, SANITARY MILK

DUTIES OF LOCAL BOARDS OF HEALTH.

Officers Throughout State Are Making Earnest Efforts to Improve Health of Citizens.

In the year 1910, there were in Michigan 2,214 babies under two years of age who died from cholera infantum. In 1911 the number was reduced to 1,487, and in 1912 it was further reduced to 1,280, almost 1,000 less than for the year 1910. Health officers throughout the state are making an earnest effort to improve the record this year and are calling attention to some factors of primary importance in caring for the babies so as to prevent their sickness and death.

Dr. D. P. Deming, local health officer, has requested the following paragaphs relating to this subject, printed in Chronicle columns:

"The Healthy Cow—Two years ago, in New York, one thousand baby deaths from diarrhoeal enteritis were carefully investigated. It was found that ninety-one per cent of these babies who had died of intestinal disease were bottle-fed babies. This fact therefore warrants especial consideration of the conditions surrounding bottle-fed babies.

"The importance of the healthy cow, then, is self-evident. No one disputes that fact, but the great majority of parents know absolutely nothing for or against the cow that furnishes the babies' milk. To the majority of households 'milk is milk,' even when it is to be used for infants' food. Relatively few have the opportunity to investigate the herd or the cow furnishing the milk for

FREDERICK S. WHEAT

Prominent Caro Attorney Died on Sunday Afternoon.

Frederick S. Wheat, a prominent lawyer of Caro, died of heart failure, at his home on Sunday afternoon, April 27. Mr. Wheat was one of the first enrolled attorneys in Tuscola county and has been very successful in his work. In the more recent years Mr. Wheat has been looking after the legal part of the drain commissioner's work and he has been instrumental in putting the records of that office into their present state of efficiency. Mr. Wheat's connection with the legal part of that office has been a great help to the drain commissioner as he is recognized as one of the leading tax lawyers in this state.

TUSCOLA PLACED IN 7TH DISTRICT

BILL IS NOW UP TO GOV. FERRIS.

Rep. Lindquist Will Fight With Rep. Fordney for Nomination in 8th. Dist. in 1914.

Congressional and representative re-apportionments are assured. The house concurred in the senate amendments to these bills and Gov. Ferris says that he will sign them. The county of Montcalm to which almost every district in the state objected strenuously because of the advertising congressman from Greenville, Francis Lindquist, was put in with the eighth. This will mean that Con. Joseph Fordney, of Saginaw, and Con. Lindquist of Greenville, will battle for the republican nomination in the eighth district at the primary election in 1914. Tuscola county has been taken from the eighth district and placed with Huron, Sanilac, Lapeer, St. Clair and McComb counties in the seventh district.

As the result of the congressional re-apportionment Congressman-at-Large Patrick H. Kelley, will be out of a job as the thirteenth congressman goes to the city of Detroit. This will probably mean that Con. Kelley and Con. Samuel W. Smith will fight it out in the sixth, as both men are residents of that district. Kelley resides at Lansing and Smith at Pontiac.

On page 3 the Chronicle prints a map of Michigan showing the new congressional districts.

WEDDINGS AT HOLBROOK

Homes of James Hewitt and Alonzo Hill Scenes of Happy Events.

The home of Mr. and Mrs. Alonzo Hill was the scene of a pretty home wedding on April 23 at 3 o'clock when their eldest daughter, Miss Grace M. Hill, was united in marriage with Dwight Barnes, eldest son of Mr. and Mrs. Allen Barnes. The bride was becomingly gowned in white embroidered silk and carried pink roses. She was attended by her sister, Miss Myrtle Hill, and the groom by his brother, Leoret Barnes.

After the ceremony, which was performed by Rev. John Willerton, the twenty-five guests sat down to a sumptuous repast. The happy couple are at home to their many friends on what is known as the John Jones farm.

The home of Mr. and Mrs. Jas. Hewitt at Holbrook, was the scene of a pretty wedding on Wednesday, April 9, when their eldest daughter, Ruth, was united in marriage to Lorne Trathan, also of Holbrook. The ceremony was perfromed by Rev. Wm Davis, of Sheridan.

At the appointed hour the bridal party entered the parlor to the sweet strains of the wedding march, played by Mrs. A. H. Shier of Holbrook. The bride looked charming in a gown of pale blue silk with lace trimmings and carried a beautiful boquet of white carnations. The bridesmaid was Miss Goldie Stocking of Grand Rapids, while Lorne Hewitt, brother of the bride, assisted the groom. After the ceremony the happy couple received the hearty congratulations of those present and then all repaired to the dining-room where a sumptuous repast was partaken of, after which a most enjoyable evening was spent in music and social intercourse. The bride received a number of beautiful presents showing the high esteem in which she is held. Their many friends unite in wishing them every happiness.

NOKO.

No preaching here Sunday evening as the weather proved too stormy.

A few of our humorous ladies gathered at the home of H. Cameron Friday evening to give him a serenade, hearing he had lately taken a bride, but to their dismay the rumor was a false one and the ladies found no one at home.

Will Heronamus, who had his buggy badly damaged in R. Daunt's barn during the severe wind storm of a few weeks ago, after sending for repairs to the firm where it was made, it is now ready for use.

Lilly Harp, who was in quite poor health, is now taking treatment of a specialist in Pt. Huron and we hear is fast recovering.

Some of the farmers had quite a lot of oats sowed before the last cold wet storm struck us Saturday.

A variety of agents are coming through here each week to tell us our old implements are no longer of any use in order to sell the new ones.

The late wind storm that swept through here did so much damage it has been a harvest to some of the insurance companies as nearly all the farmers who were not previously insured have since taken out policies.

Look to Your Plumbing.

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does for the house, and they should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get quick relief. For sale by all dealers.—Adv.

An Imitation

Is never as good as the article it imitates. And so it is with Renne's Pain-killing Magic Oil. Hundreds of imitations have been offered to the public in place of the genuine but none of them have quite answered the purpose. Renne's does the work expected of it, both internally for cramp colic and cholera morbus, and externally for rheumatism, sprains and for sore muscles. The public know it well and use it regularly. Price 25 cts. Sold by Wood's Drug Store.—Adv.

BEAULEY.

Erwin Peacock is welcomed home by his many friends after an absence of about five months at college in Lansing.

Rev. and Mrs. W. L. Moore and daughter, Margaret, returned home to Armada last Saturday after visiting the former's parental home here.

Albert Reader's have rented a farm near Elmwood and moved there last week.

Miss Carrol and Miss Bell Fletcher from Elkton visited the latter's parents over Sunday.

N. L. Patterson returned from a short visit in Detroit.

Rev. Cope of Ellington preached here Sunday afternoon and M. McIntosh in the evening in the absence of our pastor, Rev. Hidebrand, who has undergone an operation at the Hubbard hospital in Pad Axe. Last reports are that he is improving nicely. His Beauey friends wish him a speedy recovery.

Epworth League next Sunday evening conducted by Miss Gertrude Turner. A cordial invitation is extended to all. Come and help in the good work.

Mrs. T. H. Wallace visited her daughter, Mrs. C. E. Hartsel, last week.

Mrs. C. M. Wallace and son, Lyle, made a trip through Beauley last Friday and called on friends.

The ladies of the W. H. M. S. spent a very pleasant afternoon with Mrs. H. F. Martin Friday and opened their mite boxes. There were $7.00 in the mites that were brought and the ladies thought that they each had something to be thankful for each day of the year. One lady had a penny for every day of the year. So a few like that would make quite an opening. It is not the great deeds but faithful lives that God rewards.

Friday, Apr. 25, the relatives of J. H. Moore and wife gathered at their home to remind them that they had been twenty-five years married. The guests left them many beautiful presents and after partaking of a sumptuous supper and spending a pleasant evening the guests returned home, wishing them many more happy years.

Mrs. J. B. Hartsell of Kingston is spending a few days in Beauley visiting friends.

Miss Ethel Reader, Miss Belle Hoffman and Frank Holshoe spent a pleasant evening at the T. Heron home.

Bashful Backers.

A minor Missouri politician who was a pestiferous and continuous office seeker was a candidate for nomination as lieutenant governor. He made a canvass, and everybody seemed to be for him.

On the day of the convention he came to a friend in great distress.

"Bill," he said, "I am in a terrible pickle. Seventy per cent of the convention delegates are for me for lieutenant governor, but I can't get anybody to nominate me!"—Philadelphia Saturady Evening Post.

SO EASY TO
FIXALL
YOUR FLOORS AND MAKE THEM LOOK LIKE NEW

Nothing makes a room look more seedy and rusty than the worn, unsightly paths across the floor that you can no longer cover up with rugs. You can refinish every floor in your home—do the work yourself with very little trouble or expense—and have floors as smooth as glass, clear as a mirror, yet withstanding the severest wear and tear of continual walking and scraping of chair legs, if you apply

FIXALL
"THE FINISH THAT LASTS."

It is the most dependable finish for woodwork, floors, and furniture, which stains and varnishes by a single application, transforming any old surface into a perfect imitation of oak, mahogany, or other expensive hard woods. You can apply it yourself—easily, successfully—and it produces a hard, durable lustrous surface to which dust and dirt do not easily cling.

SCHOOL NOTES.

Prof. Kennedy's history classes enjoyed a vacation last Thursday and Friday while he visited the Legislature at Lansing. He brought back some interesting news to the Am. history students.

Miss P. kindly reminded us the other day, when some of the boys indulged in their childish whim of trading coats, that "one mustn't judge the man by the coat he wears." We didn't.

The chapel exercises Monday morning provided by the juniors proved very entertaining, the participants being Misses Carola Fritz and Ora Stockmeyer, Miss Adams of Caseville, Mrs. Lee, Reverends Kelsey and Kennedy and Guy Landon.

Eng. IX. Miss W.—What different kinds of bicycle tires are there? F. K.—I know of only one kind and that's rubber.

Nine rahs for the juniors, winners of the cross country run, Yakes, McGillvray and Hoadley.

Eng. IX., Miss W.—What is manual training? C. M.—Learning carpenter work for boys and dish washing for girls .

Heard as the F. H. and D. party was breaking up the other night. She—What shall I do? Drive? He—No, you are going to sit on my lap.

Mr. S. (studying color) What makes that barn over there red, Miss B? Miss B.—Because my father painted it so.

Miss W. in poetry—How many feet do we usually have?

Oh, you standard time! High school alarm clocks will have to get busy again.

Baseball Wednesday. Juniors vs. IX., X. and XII.

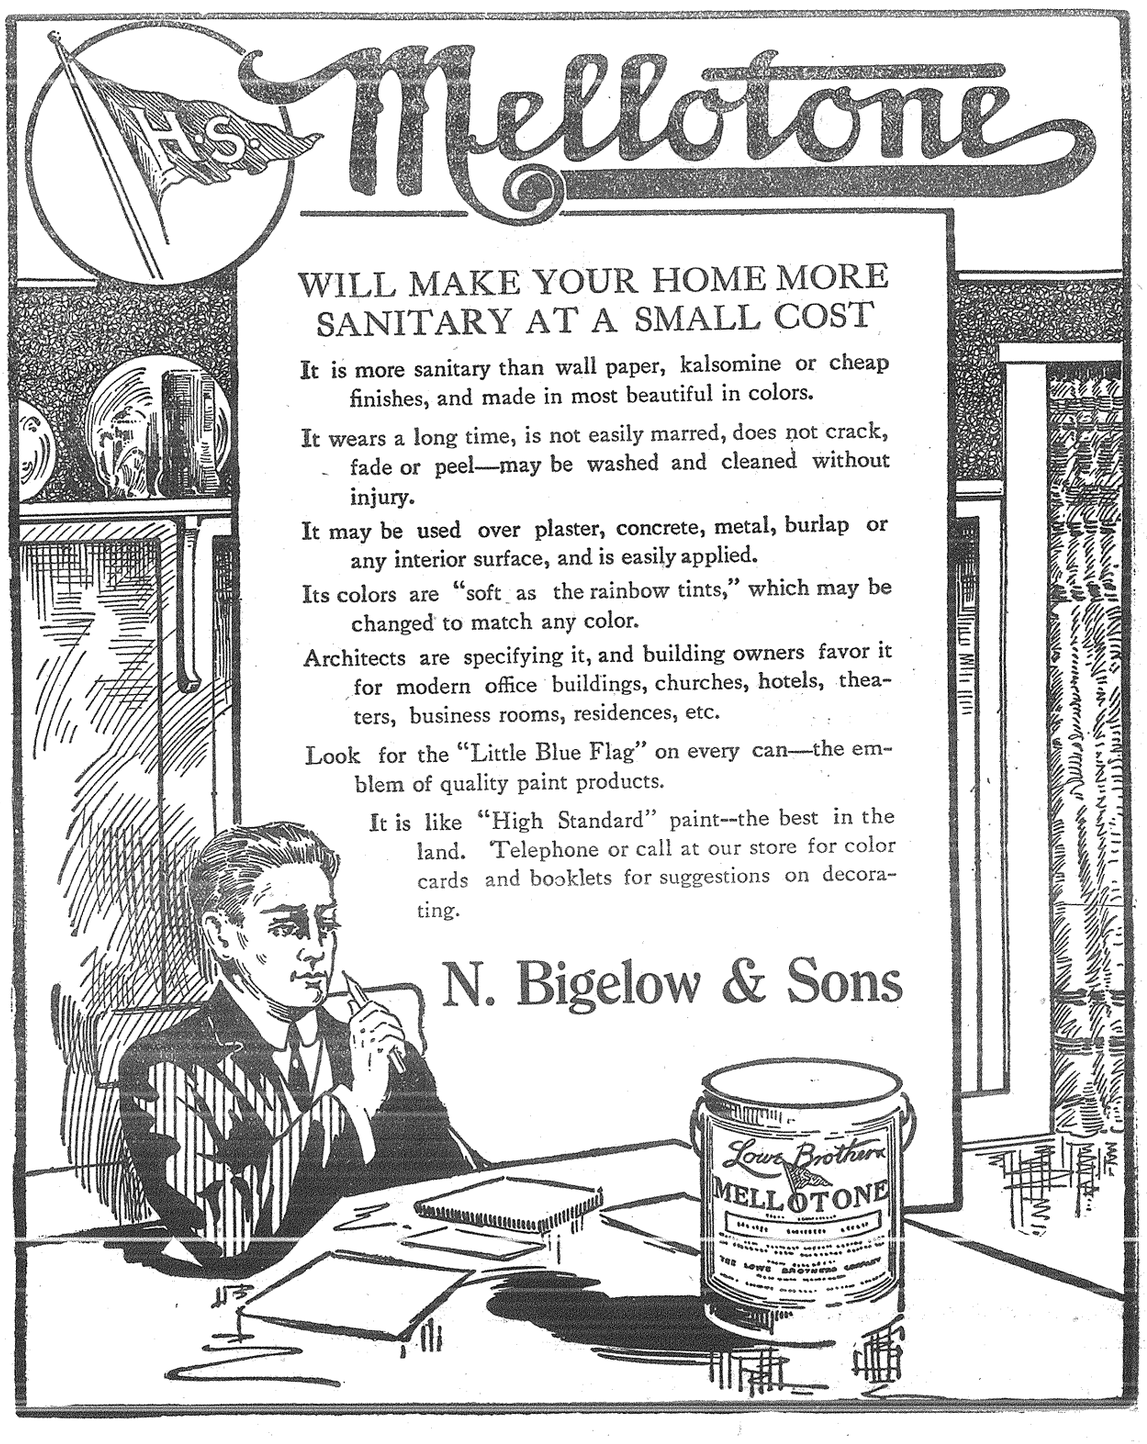
GREENLEAF.

The jolly bunch of seniors and juniors of the Cass City school came to Barnard Dolwick's Friday evening. It was certainly a jolly bunch. R. Yakes, the champion runner, does not only run well, but can sing also. He and four of his gentlemen friends sang songs which were very good. Games, amusements and music were enjoyed, after which lunch was served.

For Burns, Bruises and Sores.

The quickest and surest cure for burns, bruises, boils, sores, inflammation and all skin diseases is Bucklen's Arnica Salve. In four days it cured L. H. Haflin, of Iredell, Tex., of a sore ankle which pained him so he could hardly walk. Should be in every house. Only 25c. Recommended by L. I. Wood & Co.—Adv.

Mellotone



WILL MAKE YOUR HOME MORE SANITARY AT A SMALL COST

It is more sanitary than wall paper, kalsomine or cheap finishes, and made in most beautiful in colors.

It wears a long time, is not easily marred, does not crack, fade or peel—may be washed and cleaned without injury.

It may be used over plaster, concrete, metal, burlap or any interior surface, and is easily applied.

Its colors are "soft as the rainbow tints," which may be changed to match any color.

Architects are specifying it, and building owners favor it for modern office buildings, churches, hotels, theaters, business rooms, residences, etc.

Look for the "Little Blue Flag" on every can—the emblem of quality paint products.

It is like "High Standard" paint--the best in the land. Telephone or call at our store for color cards and booklets for suggestions on decorating.

Lumber, Above All Building Materials

HAS kept pace with the demands of home builders. Notwithstanding the many substitutes that are today offered under the guise of "just as good" there's an abundance of evidence right here at home to cause the conservative home builder to move cautiously in selecting his material. The real value represented in the lumber we handle these days is 50 per cent. to 75 per cent. above what it was when your father built his home. This is due to the modern day way of manufacturing.

We've lots of good sound lumber suited for finishing and interior work that can be put right into your house without your carpenter touching a plane to it. This means a saving in dollars to you. Now, don't jump at conclusions when you hear about exhorbitant (?) prices of lumber; come in and see us.

LOCAL ITEMS.

Mr. and Mrs. Geo. P. Dodge welcomed a little daughter at their home on Apr. 22. She has been named Leila Mae.

A number of the girl friends of Miss Eva Cooper gave her a prenuptial shower of tinware at her home Tuesday evening. A social evening was enjoyed and a delicious luncheon consisting of sandwiches, pickles, olives, coffee, fruit salad and cake was served.

Mrs. E. G. Fancher, formerly of Cass City, died at the home of her daughter, Mrs. Burgess, in Detroit the first of the week. The remains are expected here today (Friday) and will be laid to rest in Elkland cemetery. Rev. H. C. Hayward will conduct a brief service at the grave and members of the Venus Rebekah Lodge will attend.

Now is a good time to take a glance over your back yards and devise some plan to ostracise the fruit cans and rubbish which have accumulated since the last installment was removed. You can generally judge of the occupants of a house by the condition in which the front and back yards are kept. In a general sense we all pride ourselves on being cleanly and tidy. Home and its surroundings above all places in the world should be scrupulously guarded against contaminating influences.

Spring is here without a doubt; the small boy has doffed his shoes and stockings, donned his last year's straw hat and with his pockets full of marbles can be seen down on his knees in the dirt deep in the mysteries of knuckle and taw. A few days later when tired of marbles you will find him on the banks of a creek with a can full of worms, a hickory pole and a fish line, having a glorious time. The buds on the tree will hardly show a tint of green before he will be swimming, taking cramps and just missed being drowned, having oceans of fun, bad colds and sore throat. Oh, halcyon days of youth, oh spring time of life, oh days of mumps, measles and stone bruises, all too quickly you fly; the boy grows to manhood; old age grows on apace, a few more years and he totters on the brink of the grave; yet a man never grows so old but that in the spring when the boys first get out with their marbles he will stop a moment to watch the game and memory will recall days long since past.

A Royal Reprimand.

A tutor was once employed to teach the son of a king. The young prince was sometimes disobedient. But in the esteem of the tutor it was not quite proper to whip the son of a king with a common switch. So to the lapel of the boy's coat the teacher pinned a piece of purple ribbon. When the young prince manifested a disposition to defy authority the instructor pointed with the end of the rod to the purple ribbon on his coat. This was an appeal to his royal blood.

THE G. A. R. BUTTON.

The following peroration on the Grand Army button was written by the Secretary of the Chicago Board of Trade, George F. Stone:

"I have heard that our Lord's Prayer has been inscribed on a disk the size of a dime, but on the Grand Army button is recorded in ineffacable and living characters the history of Grant and Sherman and Lincoln, of Sheridan and Thomas and Logan, of Custer and Meade and Farragut and Porter; the history of the campaigns of the Army of the Potomac, of the Cumberland and of the West; of the march to the sea, of Vicksburg, of Forts Henry and Donelson; of Atlanta, of the Wilderness, of Winchester, of Fisher's Hill and Cedar Creek; of sieges and battles and skirmish lines; of days of daring and nights of waking; of weary marches by day and by night, in cold and storm and heat; of parting of lovers and maidens; of farewells of husbands and wives; of prayers and blessings from fireside and camp, ascending on high as a divine incense; of agony and death, in prison and hospital, of great captains and heroic soldiers; of valor on sea and land; of the proclamation of Abraham Lincoln giving freedom to 4,000,000 slaves and wiping forever from the National escutcheon human slavery; of Gettysburg and Appomattox; of the downfall of a rebellion wicked as hell itself; of a reunited country, and the perpetuity of the Union, with its countless and unspeakable and eternal blessings, a priceless gift from the great dispenser of good things to men. This record shall never fade away. It shall grow brighter and brighter as the years go by, scattering sparks of inspiration among the generations as they come and go. And when time shall be no more, when all the sounds of earth shall be stilled, then the bells of heaven shall ring in commemoration of American patriotism and undying fame of the American soldier."

HEALTHY COWS, SANITARY MILK

Continued from first page.

their use. The public should not be required to investigate these conditions. That is one of the reasons for local boards of health. Every village and city board of health should have absolute authority over the milk supply and should use that authority so certainly that the mothers and fathers need not have serious concern regarding the conditions under which the milk they feed the babies is produced and marketed. Local boards of health should have as part of their duties the examination of dairy herds and every condition relative to the production and distribution of milk in their communities. Any effort to diminish the authority or the efficiency of any board of health in this respect must be considered as detrimental to the best interests of those who are entitled to be served but are unable to serve themselves. The local board of health should have authority to determine the positive facts regarding all dairy conditions, not excluding the health of the cows.

"Sanitary Dairy Barn.—Almost as important as the healthy cow, must be considered the sanitary dairy barn. It is impossible to get clean milk in a dirty barn. A survey of hundreds of dairy barns in this state only tends to establish the fact that a large proportion of the milk put upon the market is secured under insanitary disease-conducing conditions. Every cow should be curried and brushed, the udders should be washed and dried before milking and the milking should be done only in a clean room. This is another feature very important in the milk production proposition which the individual consumers cannot and should not be expected to investigate and control. The question of the sanitation of dairy barns, milking rooms, etc., justly belongs to the duties of the local boards of health. Very few local boards of health, however, have the authority granted them by local ordinances and by state law to make such investigations in respet to mik supplies as would assure the public that the conditions on the dairy farms are satisfactory and what they should be. Many people, paritcularly in the smaller cities and villages, do have the opportunity if they will take advantage of it, of inspecting the dairies supplying them with milk, and it is urged that this point be given, not simply thought, but action. Take a few hours—a half-day or a day, if necessary—go out to the dairy from which your milk comes, and ascertain if conditions are such as to be likely to assure you of clean milk.

"Milk Delivery—If milk is to be carried any considerable distance, particularly during warm weather, it should be kept cool by the use of ice. Milk should be delivered to the consumer in closely capped bottles. Milk that is dispensed from open cans into open pans or basins must certainy be considered as probably unsafe. The oportunities for contamination by dirt, dust, flies and other insects, are too great to warrant such a method of distribution. In a great many instances, milk is delivered by the milkman under proper conditions and then is allowed to sit on the step, in the sun, for an hour or more before being taken care of in the household. This, of course, is not right, and such milk is bound to deteriorate to a considerable degree and rapidly."

CANBORO.

Got your house cleaning done?

Quite a few of the farmers have their oats in.

One of our Canboro women was out plowing last week.

Judas Carr was a caller at the Easton home Sunday.

George Baskin of Ubly was a caller around this vicinity last week.

Our minister, Rev. Hildebrand, underwent a slight operation at the Bad Axe hospital last week. Canboro people join in wishing him good luck and a speedy recovery.

Lloyd Stafford had the misfortune to get kicked by a horse. It struck him in the neck slightly cutting his windpipe. He was taken to a Detroit hospital, and is doing very nicely at this writing.

Mrs. Hildebrand and Rev. Cope took the place of our minister at church last Sunday. They took dinner with Mr. Kenitz and family.

GREENLEAF.

The F. H. and D. Club with a number of their friends were entertained at the home of Minnie and Clara Dolwick Friday night. The evening was spent in instructing the young people to dance in the good old fashioned way. The music was furnished by S. H. Brown. Refreshments were served and everyone left voting Dolwicks the best people ever.

LAWS ENACTED ARE IMPORTANT

Continued from first page.

were turned down, but an entering wedge was offered for future important legislation. Several other proposed laws of importance will repose in the archives of the various committees, which would have become laws had there been time before the date fixed for final adjournment. Teachers' pensions were among the notable measures defeated.

Important Fisheries Laws.

Among the most notable of the laws enacted are the amendments to the fisheries laws. The state's relations with adjoining states in the matter of commercial fishing have been placed upon a more effective and harmonious basis of operation and the state game and fish laws have been given a healthy rearrangement.

Congressional Reapportionment.

The reapportionment of the counties of the state to provide for a thirteenth congressional district was the cause of a good deal of political manipulation. The result is a law which seemed to be generally approved, although bitter protests come from the new eleventh and eighth districts from political leaders whose future influence and usefulness are said to be jeopardized.

Following is a summary of the more important acts of the session:

SENATE BILLS.

By Senator Leonard D. Verdier—Concurrent resolution ratifying the proposed amendment to the constitution of the United States providing that senators shall be elected by the people of the several states.

By Senator James C. Wood—To define powers and duties of boards of supervisors and to confer certain local administrative and legislative powers.

Success depends largely upon Good Health

In your race for success don't loose sight of the fact that only through good health can you attain success.

The tension you must necessarily place upon your nerves, and the sacrifice of proper exercise you have to make at times must be balanced in some way.

Dr. Pierce's Golden Medical Discovery

is the balancing power—a vitalizing power. It acts on the stomach and organs of digestion and nutrition, thus purifying the blood and giving strength to the nerves, indirectly aiding the liver to perform its very important work. *Dr. Pierce's Golden Medical Discovery* has been successful for a generation as a tonic and body builder. Sold by medicine dealers in liquid or tablet form—trial box of "Tablets" mailed on receipt of 50 one-cent stamps.

If in failing health write Dr. R. V. Pierce's faculty at Invalids' Hotel, Buffalo New York.

DR. PIERCE'S GREAT FAMILY DOCTOR BOOK, The People's Common Sense Medical Adviser—newly revised up-to-date edition—of 1008 pages, answers hosts of delicate questions which every woman, single or married, ought to know. Sent FREE in cloth binding to any address on receipt of 31 one-cent stamps, to cover cost of wrapping and mailing only.

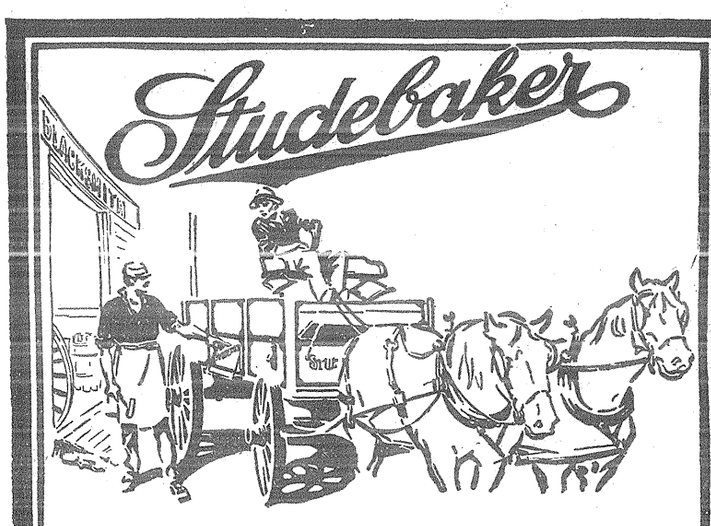
Headquarters for the Best Repair Work in the Thumb of Michigan. Our work not only is durable and workmanlike in every respect, but the finish is pleasing and fine. With Crosby & Son.



"Yes Sir! Studebaker wagons are made to back up a reputation."

"I know, because wagons of every make come into my shop for repairs, and I have a chance to see how few are Studebakers."

That's the opinion of thousands of blacksmiths who know the quality of *Studebaker* wagons.

The owners never regretted that they bought *Studebakers.*

Tested materials, accurate workmanship insure a wagon unequaled for durability, and this careful selection of wood, iron, steel, paint and varnish has been a fixed rule with the *Studebaker Company* for sixty years. That is why a *Studebaker* wagon runs easiest and lasts longest. It is built on honor.

Whether you live in town or country, there is a *Studebaker* vehicle to fill your requirements for business or pleasure — and harness of every description made as carefully as are Studebaker vehicles.

An Ideal Outing Shoe

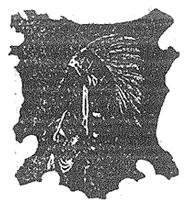
For the Man Who Works

A shoe that is modeled along those easy lines that insure the comfort a man so much desires, but made from stock that is especially adapted to hard service.

The soles are water-proof chrome sole leather, of exceptional wearing quality.

The farmer, or the day laborer, will do well to give these shoes a trial. Get into a pair and see how they wear.

They are "Wolverine Leather Well Put Together." From "Hide to Shoe" they have been under our direct supervision. We know they are right. A trial will convince you.



Ask your dealer for No. 442 tan, or No. 447 black.

Look for the trade-mark on the sole. This is our guarantee of quality.

OWENDALE — Gorden A. DaFoe, shoe dealer, has filed bankruptcy papers in the United States court at Bay City. His assets are given at $3,944.77, on which he claims exemptions to the amount of $575, and he has liabilities amounting to $4,702.67.

YALE—A suit is started in circuit court to prevent Leslie Silverthorn from obtaining a liquor license and to prohibit the county treasurer from issuing it. The complaint is made by Geo. A. Hosmer and Eldred Charles, clergymen of this city, under the provisions of the Warner-Crampton law, that only one license be granted to every 500 population.

VASSAR—The Vassar high school Alumni Association has made arrangements for the annual banquet, to be held during commencement week. The following officers were elected: Mrs. T. M. Stephen, president; Frank Tinglan, vice-president; Tillie Norris, secretary; Vina Johnson, treasurer.

CARO—Ed. Cutler of Almer had a narrow escape from lightning Friday afternoon. He was driving a three-horse team on a harrow when a bolt of lightning from the storm that passed north of here about 4 o'clock struck one of the horses just back of one ear, killing it instantly. Mr. Cutler fell forward insensible on the drag. His little daughter found him and ran back to the house for assistance. When the mother arrived Mr. Cutler was reviving. His face was badly cut but otherwise he has recovered and is able to work. —Courier.

SEBEWAING—Drain Commissioner Healy was in town Monday and took a look over the river while here. Mr. Healy says the last congress made an appropriation of $1,200 for surveying the river as a preparatory work for the proposed deepening and widening of the stream to facilitate the flow of the water during the spring freshet season. Mr. Healy says the survey calls for a 12-foot depth from the mouth to Center street bridge. The drain commissioner has also written to federal authorities asking what can be done relative to the moving of the railroad bridge from the river bed, but has not yet received an answer to his communication.—Blade.

MARLETTE—Two more townships in this county are going to vote on the question of bonding for good roads. The townships of Washington and Bridgehampton in the east part of the county, adjoining each other, (the latter lying directly north of Washington) will have a special election on May 12 to determine whether each township will spend $20,000 for the construction of state reward roads. In Washington township the petition calls for the $20,000 to be equally divided in the four quarters of the township and the location of the roads will be agreed upon by the township board and the taxpayers of each quarter. If both elections result favorably it will mean the building of 34 miles of gravel road. The contracts would be given to the lowest bidders.—Leader.

Reply to Mr. Thiel

I wish to thank Mr. Thiel for giving me the opportunity to bring the school book problem before the readers of the Chronicle.

For several years I have tried to get officials at Lansing interested in a bill (outlined below) who are in a position to force the legislature to knock the American Book Co., (school book trust) off the backs of the school book buying people of Mich., but they seem to fear the American Book Co. or— something else.

Outline of Bill.

"A state printing plant for the purpose of publishing uniform text books for all grades used in public schools in Michigan. All convicts in state prison to be employed on the work of printing, binding, etc. All text books to be furnished to every school district in Michigan at cost of production and delivery."

A law like this in operation would be a benefit to all the people and would not interfere with any private industry in the state. Millions of dollars which now leave the state would remain in Michigan. The school book buyers would pay the expense and maintenance of the printing plant, convicts, officials, etc., besides saving to themselves about three-fourths of the price they now pay for school books.

Scores of men and women in Michigan are competent to furnish manuscript for text books as good if not a great deal better than those now used in our schools. If this is not true, then it is high time to close our state educational institutions until some competent educators could be imported.

The above was presented to a man who is familiar with the methods used by the American Book Co. After a little figuring he said, "A LAW LIKE THIS IN OPERATION WOULD DRIVE THE AMERICAN BOOK CO. AND ITS HIRELINGS OUT OF MICHIGAN. A DOLLAR SCHOOL BOOK WOULD COST FIFTEEN CENTS."

If the school teachers of Michigan would organize for the purpose of agitating for such a law—they would realize their desire for a 'RAISE IN SALARY,' and the schools would have better books at a cost of about 85 per cent less than at present.

There is one serious objection to a law which would give the people school books at cost of production and delivery, viz.,

IT WOULD DESTROY RELIGION and BREAK UP THE HOME.

F. LENZNER.

Coughs and Consumption

Coughs and colds, when neglected, always lead to serious trouble of the lungs. The wisest thing to do when you have a cold that troubles you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown, of Muscadine, Ala., writes: "My wife was down in bed with an obstinate cough, and I honestly believe had it not been for Dr. King's New Discovery, she would not be living today." Known for forty-three years as the best remedy for coughs and colds. Price 50c and $1.00. Recommended by L. I. Wood & Co.—Adv.
