Thrifless Jockeys.
Many of the old time English jockeys were terribly thrifless. A Close Buyer.
A New York theatrical man was appointed receiver for a small opera house in an up state town in New York. He was anxious to sell it and was willing to take the first offer made. He advertised the place, and after waiting a week he was delighted when an inquiry came in.
"Say, mister," the prospect asked, "how much do you want for the theater?"
"My friend," the receiver replied, "I am extremely anxious to make a sale, and I'll let you have it for your own price."
"Please, mister," said the inquirer, "can't you do a little better than that?"

The afternoon was pleasantly spent in a social way. Stanley Berry of Grant was in town Monday evening and tied his horse next to Jones' store. Less than a half hour afterwards, he found that the animal had been taken. About two o'clock Tuesday morning, two men drove into Wm. W. C. T. U. NOTES. (Contributed by local union.) Remember the picnic at Orr's woods this (Friday) afternoon. Arrangements are being made for a grand gold medal contest in the near future. The W. C. T. U. has secured space on the fairground for a tent where a "rest room" will be provided during the fair. All tired mothers and babies will be welcome. A special meeting of the W. C. T. U. was held at the Evangelical church July 24. The special features of the afternoon were the reports of the state convention recently held in Detroit. These were given by Mrs. Jos. Martus and Miss Faustina Brown, delegates to the convention. They were presented in a manner clear and concise and were filled with valuable information as to the work accomplished by the society in its efforts to uplift mankind. On Thursday, July 31, members of the Linn W. C. T. U., their families and many others who improved the opportunity of the day, gathered in the delightful orchard of Jas. McArthur to assist in the receiving of the 15 new members whose names are now added to the membership of the Linn Union. The dinner was in the form of an old-fashioned basket picnic. Two large tables furnished ample room for the seating of all who partook bountifully of the good things that were taken from the baskets. After dinner, the company gathered around the house and enjoyed the program of the day. Miss Goldie Martin presided at the piano, and after the singing, Rev. Ferguson led in prayer. The reception of the 15 new members was impressively carried out by Mrs. Emma McLarty, the very able president of the Linn Union. At the conclusion of the ceremony, all joined hands and sang, "Blest be the Tie That Binds." Mrs. E. P. Smith read a carefully prepared paper on the temperance work. Instrumental solo, Goldie Martin. The following persons gave interesting recitations: Little Miss Smith, Zelma McKenzie, Marie Beebhyser, Belle Livingston, Margaret McArthur. Mrs. Hays, the County W. C. T. U. president, made a few very pleasing remarks regarding the W. C. T. U. work. Mr. Stinton also gave an instructive address. The time for going home came all too soon and it was with many expressions of a delightful time that the guests departed. Mr. and Mrs. McArthur and daughter proved to be delightful entertainers. May the good work begun by the Linn W. C. T. U. continue to go on as it has begun and surely much good will be accomplished by the band of Christian workers.

Shakespeare Autographs.

There are only six genuine Shakespeare autographs in existence, yet one of these—appended to a deed of purchase—realized but \$625 when sold at auction a few years ago. It was bought by the corporation of London for the Guildhall library, much to the indignation of a number of the city fathers. One member of the common council described the transaction as "most wasteful and prodigal," and another member said that it was quite ridiculous to think of voting £145 for a few doubtful, illegible, almost obliterated scratches of a pen." A motion to disallow the expenditure found thirty-one supporters on the council.

Mr. and Mrs. Gazely of Cleveland, who have been visiting their daughter, Mrs. Harry Collier, received a telegram Friday from that place announcing the death of their son who was in good health when they left. MONSTER MIRRORED AIRSHIP.

Baron Roenne Plans to Outdo Zeppelin's Dirigibles. A monster airship, with a mirror surface of polished metal that will make it a dazzling sight in the sky, was proposed recently to the British Institute of Naval Architects by Baron A. Roenne, who assured the engineers that he intends to build it at his own expense. The mirror surface is intended to prevent the heating of the gas by the sun's rays, for the sunlight, reflected from the metal, would be shot back into the air instead of being absorbed as heat. He plans a ship 853 feet long and 72 feet wide, shaped much like a Zeppelin, though considerably larger than any German dirigible so far planned. The gas envelope he intends to make of thin chrome aluminum plates welded together, braced by rings of chrome aluminum going completely round the envelope, a few feet apart. Further bracing could be supplied by aluminum wires inside the envelope from a central hub to the rings, so that on the inside each ring would look like a great bicycle wheel. The gas would not be free inside the big metal envelope, but confined in twenty-eight balloons, after the standard system of all big airships. Ten gasoline engines, developing a total of 2,000 horsepower, would drive the propellers and give a speed in still air of from forty-five to fifty-six miles an hour. The inventor's calculations show that such a metal airship, completely outfitted, would weigh 104 tons, but would have a lifting capacity of 135 tons, giving a margin of thirty-one tons for passengers, fuel and supplies. The naval architects, in the discussion that followed the reading of Baron Roenne's paper, expressed doubt as to the strength of his metal gas envelope lengthwise, in spite of his confidence that he had planned enough stays to prevent it from buckling in the middle.—Saturday Evening Post.

Don't Be Taken In

If somebody tells you that he can sell lumber or building material at a lower price than we offer you, don't be "taken in" without investigating. He's offering you "bait." We don't believe there's a dealer in the country who makes prices lower than ours. We don't see how he can—and stay in the business. But you know there's a big difference in lumber, and quality cuts a big figure. We will never slight the quality in order to cut the price. We want your confidence and your steady trade, and that we know we are not entitled to unless we give you a square deal all around and all the time. Try us.

Oat straw so dry that we cut one day and draw in the next. Powells are cleaning out the Retherford drain on sec. 3, Kingston. "Cupes" need rain and must have it or die. Frank Tower still keeps gathering in the cow oil of the Thumb. There is a tank being fitted up for him at Deford so as to have room for all comers. The street that runs north from the meat market to poplar grove is receiving a coat of boot jack clay. Kingston Farmers' Club at D. Ashley's on first Friday of the month was well attended when we consider that everybody was rushing. We will wager that Novesta has more money invested in churches and bridges than any other township in Michigan. Miss Vera Retherford has poor health of late. Boys, John McCracken is the "Dep" game warden when our game warden is under the influence of strong drink. And if he hears again of your disturbing the ducks south of town you will quack with salt tears coursing down your cheeks while you eat grub on a tin plate. Brick work on the new structure of learning completed. A woman of Kingston township last week broke in on a Justice at the gloaming of the day crying aloud for law, averring that a kid had struck her offspring on the bare skin. The J. P. was of Irish construction and could see no great evil in a little "fist a cuff" hence no papers were issued. Had the pugilistic kid fired potatoes at a dog or broke a pint bottle containing Padyenrue then the J. P. would have considered the old "gal" had a case. Mrs. John McCracken spent the past week at Cass City visiting and attending the Kelley & Brennan show. Mark Sugden of Mayville motored over here Sunday to see chums and crops. Better halves of R. D. Lewis and Ben Gage took the boys over to Rose Island Sunday. Of course the boys worked a little to start the buzz machine. Miss Amy McCallum of Chicago is here visiting her sister, Mrs. Wm. Kilgore. McArthur attended the meeting at Jim McArthur's last Thursday. Mrs. Sam. Powell has been on the sick list, but is better. Mrs. J. W. McCain returned home Friday from Port Huron. Mrs. Ray Walker and little son, Floyd, and Mrs. Chas. Walker visited her parents, Mr. and Mrs. J. Hack, Friday.

INGENIOUS DIVING DEVICE.

If Successful It May Eliminate Accidents and Loss of Life. Hose for conducting air from the surface to the diver under the water has heretofore been considered indispensable. An elaborate outfit of pumps operated either on land or in boats was necessary to force fresh air continuously through a great length of hose to the man below the surface. Now the inventive brain of a German has conceived and put into successful operation an ingenious device which will probably do away with the old apparatus for diving. By this method the diver carries on his back two steel bottles containing highly compressed oxygen. Another cylinder contains chemicals for absorbing the carbonic acid gas exhaled from the lungs. A system of piping carries all the impure air breathed out in a chamber containing the absorbing chemical. In this compartment the deadly carbonic acid gas is entirely eliminated. A small amount of oxygen, just enough to renew the air, is added to the changed and regenerated exhalations and passed on to a compartment in the helmet, where it can be inhaled through the nose or mouth. By this system the vitiated air is continually being made over into new. It is thought this device will do away with the accidents and sometimes loss of life which have occasionally happened through defects in the diving hose or pumping apparatus so long in use. But, while the diver may carry his atmosphere as one does his wardrobe along with him, he cannot yet quite disconnect himself from the outer world, as the signal line is still necessary for means of communication.—Harper's Weekly.

Coster Kings of London. There are other kings besides George V. in London. For instance, there are three monarchs of the coster kingdom, three pearly kings. Their names and kingdoms are as follows: King Foyle of Somers Town. King Tabrum of Hoxton. King Marshall of Stepney. Asked for his postal address, King Foyle looked mildly surprised. "Huh!" he at length ejaculated. "Just 'King of the Pearlies, Somers Town.'" The monarch added that for three generations his line had held regal sway. King Marshall can boast only a single year's reign. But what he lacks in this respect he makes up in buttons, and, whereas King Tabrum wears 28,000 and King Foyle 33,000, his coat is decked with no fewer than 60,000.—London Cor. New York Sun.

Changing the Color of Gems. It has been found possible to change the color of genuine gems. The experiments have proved most satisfactory on the semiprecious stones thus far. Sapphires responded best to the experiment, although some results were had with amethysts and garnets and a few others of the gems of that class. By putting them in a small box with radium, only a minute particle of the radium, in fact, and keeping them undisturbed for a month, the white sapphires had turned yellow, the blue ones turned green, violet sapphires became blue, wine colored ones became dark red, and dark blue stones changed to violet.

BE READY. In life's small things be resolute and great. To keep thy muscles trained; know'st thou when fate Thy measure takes? When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as is often the case, it is but natural that he should be enthusiastic in his praise of the remedy, and especially is this the case of a severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold by all dealers.—Adv. The Chronicle, one year, \$1.00. Chronicle liners bring good results.

Japan's Income Tax. A Japanese who has an income of \$10,000 a year or more must pay a tax of 14 per cent on 90 per cent of it. If he has more than \$25,000 a year the government takes 18 per cent on 90 per cent. Above \$50,000 annually his country demands 22 per cent of nine-tenths of all that he receives in excess of that limit. Other incomes are taxed at various rates, on the sliding scale upward.

PRACTICAL HEALTH HINT.

A Red Nose.

A red nose is almost always due to a poor circulation or disorders of the digestion. If your nose is red drink a glass of hot water an hour before every meal and keep the system open by eating figs, prunes and other laxative fruits. Avoid rich and greasy foods and all alcoholic beverages.

Tight clothing, especially tight shoes, should not be worn. A good treatment is to dip the feet nightly into hot water, then into cold, after which they should be rubbed briskly with a coarse towel. This tones up the circulation and frequently makes a red nose disappear without further treatment.

Mrs. Wilson is usually at home, by appointment, to her intimate friends at 5 o'clock, when tea is served in the red room. These functions are identical with those in any private home and are informal. Once or twice a week and sometimes more often Mrs. Wilson will issue cards for a small tea, at which she frequently has the wives of cabinet members to assist her.

One of the most gracious acts of Mrs. Wilson since she came into the White House and one which has endeared her very much to the coterie of clever women who write the social news of the capital was to give a special afternoon reception in compliment to the newspaper women of Washington. The affair was most charming, and Mrs. Wilson and her daughters graciously gave a few minutes individually to each of the women writers.

There are three cooks who prepare the meals for the presidential family and for small dinner parties. All three are women and are widely experienced. There is a regular corps of laundresses and cleaners. The laundry and kitchens are located in the basement of the White House, far removed from the state and private apartments.

There is also a "flower room," where the cut flowers are kept. These flowers are supplied to the White House fresh every day. This is one of the most interesting features of the history of the White House and its maintenance and has proved particularly so to Mrs. Wilson, whose great love of nature, and particularly flowers, is widely known.—Isabel Joyce in National Monthly.

SOUTH AMERICAN HEROES.

Vacant Pedestals Stand Awaiting Their Busts in Washington.

Only thirteen of the twenty-one republics on the western hemisphere which form the Pan-American union have raised statues of their national heroes in the magnificent marble building at Washington devoted to advancing the interests of Pan-Americanism. In the main hall of the building stand twenty-one marble pedestals. On ten of them are busts of chosen national heroes, while three other Latin American countries have selected the subjects to be thus honored.

George Washington is this country's contribution to the hall of American republics fame. Bolivar, who achieved the independence of Colombia, Peru and Bolivia, as well as Venezuela, is the representative of the last named country. Monuments to him stand also in the capitals of Venezuela, Peru and Colombia. San Martin, father of the Argentine independence, is that country's hero.

Brazil has the priest hero, Bonifacio; Mexico its two time president, Benito Juarez; Cuba, Marti; Honduras, Morazan; Costa Rica, Mora; Panama, Herrera, and Haiti, Dessalines. Uruguay has chosen Artigas; Guatemala, Barrios, and the Dominican Republic, Duarte, although these three last statues have not yet been made.—Washington Post.

Argentine's Frozen Hares.

To such an extent has Argentina's frozen hare industry developed that the government has been asked to lend assistance with respect to obtaining a greater quantity of supplies, and announcement is made that the principal difficulty is the lack of trappers. France is a ready market, having taken 360,000 frozen hares this season. The preserved hares have taken premiums at the exhibitions in Paris, Naples, Liege, London and Rome. Great Britain alone imports over 50,000,000 pounds of frozen rabbits annually.—Argonaut.

A New Vegetable Ivory.

M. Gaston Bonnier has submitted to the National Agricultural society of Paris samples of a new vegetable ivory made from the albumen of the fruit of a certain small palm (of the genus hyphaena, tribe of borassus) growing in the forests of French Sudan. The albumen hardens on exposure to the air, and it resembles natural ivory in color and texture. This product is said to resemble the vegetable ivory from another palm (Phytelphas macrocarpa) found in equatorial South America.

Here's a Chance For Rose Growers.

The Panama-Pacific exposition, to be held in 1915, offers a trophy valued at \$1,000 for the finest unnamed rose shown that year. This is a chance for our plant breeders to win fame and fortune with a single flower.—Exchange.

ITEMS OF INTEREST FROM NEAR-BY TOWNS

ELKTON—Oscar Rogers has the architect's plans for the Masonic hall in Elkton. It will be in the new bank building.

CARO—Section men have killed 101 snakes within a week on railroad right of way through the marsh lands near Quanicassie. Twenty-one of these were rattlers, 19 copperheads and 61 of the common variety.

CARO—Commissioners of the good roads district composed of the townships of Almer, Ellington and Indianfields with the village of Caro, have decided to repair the first mile of stone road leading northeast from Caro, by dressing it with six inches of screened gravel, compactly rolled to four inches thick.

VASSAR—Members of the Presbyterian church held a meeting Monday evening, at which a call to Rev. Roy G. Hershey was extended. Rev. Hershey is pastor of Presbyterian churches in Ecorse and Trenton, and under him each church has grown so that a pastor is needed who can give his entire time to each.

VASSAR—Glenn Baker was badly burned Saturday, when he lifted the cap from the radiator of an automobile and the steam and hot water spouted out on his face, shoulder, hand and leg. The accident took place in Richville Saturday, and as a result Mr. Baker has been unable to do much since, although he has been around.—Pioneer.

BAD AXE—George E. English, editor of the Huron County Tribune, had a narrow escape Sunday at Forster, when the motor car he was driving went over a bridge, turning turtle in a ditch 12 feet deep and pinning him beneath the wreck. The top, which was up, prevented his being fatally crushed. He was badly cut and bruised. It took a number of resorters and a derrick to raise the machine off Mr. English and to the embankment above.

LEXINGTON—The band concert last Saturday night was played under difficulties. Just before the concert began an immense swarm of fish-flies settled down upon the business section of the town, almost completely covering the fronts of the stores and other places where there were lights. They swarmed in and around the bandstand by the thousands and covered the members of the band from head to foot. But in spite of this handicap an excellent concert was given.—News.

UNIONVILLE—Editor Walker took a vacation last week and as a result of that relaxation the Crescent did not carry a line of local news. Following the printing of the edition of the previous week, the local news columns were emptied and filled up with plate stories and the vacation week edition was printed. The papers were held until publication day when one of the editor's friends took them to the post office. In the meantime, our friend Walker was viewing the sights in a big city.

VASSAR—One unusual feature of the coming fair at Vassar will be the fact that for several events, including an automobile and team parade, the spectators in the grand stand will be allowed to designate the winner. Each person buying a ticket will be given a voting coupon, and as the votes are cast, so will the prizes go. The last day of the fair it is planned to hold a big, free-for-all auction. This will be open to every person attending the fair, and will give all the farmers of the community a chance to buy anything in the line of farm implements needed, or to sell anything.

MELVIN—Cornelius Numa of Melvin, Pete Numa of Blaine and Samuel W. Soules of Applegate have begun suit against the Grand Trunk railroad company for \$75,000 damages for personal injuries. The three plaintiffs shipped a train load of cattle to Buffalo and accompanied the shipment in a coach furnished by the company. When near Buffalo another train crashed into the coach and the three were injured. The company refused to settle, on the ground

S. C. BREYFOGEL, D. D.

Bishop S. C. Breyfogel of Reading, Pa., will lecture at the Evangelical church at Cass City Monday evening, August 11. His topic is "A Journey Around the World." He is one of the many pleasing speakers of America and it will be a rare treat for the people of Cass City and community to hear him. He is apt in his

that before the shippers started the trip they signed a paper releasing the company from any claim on the event of accident. The shippers claim that inasmuch as the cattle were their own property they had the privilege of accompanying them, and that they were regular passengers hence the company is liable. The accident happened last March.

Mad Dogs.

Mad dogs do not attack people. "When a dog has the rabies," said a physician, "he has lost control of his body, and what he does is mechanical. His jaws snap involuntarily, and if he encounters any object, whether animate or inanimate, he is likely to bite it. But a mad dog does not attack as does an angry dog. He does not pick out a victim or use any strategy. For this reason dogs suffering from rabies are less dangerous than is supposed. No grown person need fear them, for all he has to do is to get out of the way. The dog will not chase him. Of course, young children are in danger, as they do not know how to dodge the brute."

He Used the Judge's Card.

A certain judge was inveigled into a game of poker on a P. D. Q. train. He won \$40. His opponent then said:

"I can't pay you now. But just give me your card. I'll mail you a check." So the judge gave the man his card, and two or three weeks went by, and then he received a letter from a lawyer saying:

"Sir—The P. D. Q. railroad instructs me to inform you that if you do not send by return the money for your fare as promised immediate proceedings will be taken."—New York Tribune.
