Red Cedar Shingles

For that barn or house. Ask us about the thickness.

We also have a large supply of

White Cedar Shingles

10 in. Clear Extra Star A Star
6 in. Clear Butts
4 in. Sound Butts

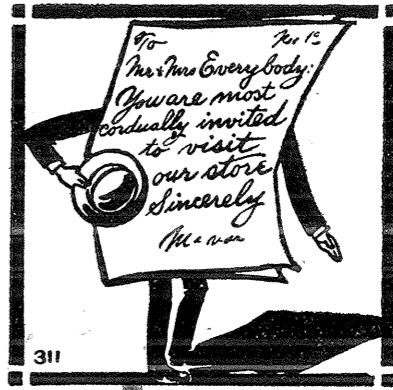

which are uniformly sawn and evenly butted. They make a lasting roof when carefully laid and the best nails are used. Don't condemn the shingles if they do not stay on the roof; investigate and no doubt but that you will find it is the cause of the nail.

Above all means purchase the best shingle nails that it is possible to get even if they cost 10 or 12 cents per lb. It is one of the best signs of economy when building. From 200 to 700 per cent is added to the efficiency of your roof. Does it pay? We don't sell nails but we don't want to see the best shingles made actually wasted.

Don't delay getting our winter prices; they're at the bottom now

The Bolster.

The crusaders are said to have brought home with them the bolster, and, according to Dr. Cantile, their wives, in ignorance of the only rational way of using the article (i. e., lengthwise as a support for the back of a person when lying on his side) and not knowing what else to do with it, put the bolster where it is still found on the beds of those who have not learned the wisdom of discarding it altogether—under the pillow.—London Saturday Review.

Bath Not Popular in Spain.

In the quaint Spanish city of Toledo the traveler is shown upon the banks of the Tagus below Wamba's palace the alcove in which La Cava was wont to bathe until seen by Roderick, and her fate was none the happier at the hands of the last of the Goths. To this day she is referred to as an awful example of the fate that awaits those who dare to bathe in water too often. The Spanish woman is sparing in her use of water for personal cleanliness, preferring oil or some other medium.—Exchange.
