The Beauty of Our Cut Glass

Is beyond our ability to describe. We have tried it many and many a time and have never done the subject justice.

Always we feel that there is something that we have left unsaid.

At the present moment, as we survey our cut glass display, our desire is to tell you people that we consider it away up above the average in weight, skill in designing, and real inherent worth.

Certainly our opinion is that we have never had anything quite so desirable before to offer you.

There is a wide range of articles, all of them the best possible examples of Cut Glass beauty.

We invite lookers.

Prove these things anytime occasion arises.

A New House Every Hour.
A new house is built on the average every hour in the day for every day in the year in Philadelphia. This is a unique record and explains the reputation which we have long enjoyed as the city of homes. There have been years when the building operations of the city have been remarkably large and other years when they have been moderate, but in the past decade it can be said that we have been building at the rate of twenty-four houses for each twenty-four hours in the day.—Philadelphia Public Ledger.

Real Presence of Mind.
An efficiency engineer was talking about presence of mind.
"For presence of mind," he said, "no body can equal John X."
"When John X. lived in Cleveland his next door neighbor said to him one morning:
"Smith's cow got in my garden yesterday and ate a lot of grass and flowers."
"Yes," said John X., "it got in my garden, too. I milked it to the value of the damage done, and then drove it out."—Washington Star.

His Disposition.
During a concert tour of the late Theodore Thomas and his celebrated orchestra one of the musicians died, and the following telegram was immediately dispatched to the parents of the deceased:
"John Blank died suddenly today. Advise by wire as to disposition."
In a few hours the answer was received, reading as follows:
"We are heartbroken; his disposition was a roving one."—Washington Herald.

HELPING MANKIND.
When the heart is wearied by the hard conflict of life it is well sometimes to withdraw to solitude for rest and inspiration. There may come peace and courage and renewed strength, but it will not do to stay there inactive, thinking to serve God. The service of God is the service of one's fellow men.—H. C. McDougall.
