## COST OF EDUCATING H. S. PUPIL, \$34.14

TUITION RATES ADVANCED TO  
\$25 A YEAR.

I. A. Fritz and A. J. Wallace Elected  
Members of the Board of  
Education.

The total cost of educating a pupil in the Cass City High School, according to the report of Secretary Pinney of the board of education at the annual school meeting, is \$34.14. The tuition rates have been advanced to \$25 a year in this department so the district is losing but \$9.14 on the cost of educating each non-resident pupil. This is lower than it has been for some time. A large attendance in the high school the past year brought the cost per capita in the high school down to the \$34.14 rate.

In the grammar department the total cost of education per capita is \$31.46 and in the primary department \$22.72, making an average cost in the school of \$29.16. The number of non-resident pupils in the high school was 63.

The annual meeting was adjourned from the school building to the council rooms Monday evening, the electrical storm having put the electric lights in the school building out of commission. The total attendance was 38, considerably larger than last year.

In the election of trustees, Dr. I. A. Fritz was selected to succeed himself for a term of three years by a unanimous vote. A. J. Wallace was elected as the second trustee for a term of one year to succeed L. E. Lauderbach, recently resigned.

Secretary Pinney read the following letter from A. S. Whitney, Professor of Education of the University of Michigan:

"I take great pleasure in informing you that upon the recommendation of the Committee on Diploma Schools the diploma relation between your school and this University is continued for the years 1914 and 1915.

"The Committee is of the opinion that book-cases and catalogue for the library, modern sanitary toilets, maps for use in history, and additional apparatus for physics and botany would very materially increase the efficiency of your school."

The board of education submitted the following estimate of the expenditures for the ensuing year:

|  |         |

Pinney was passed authorizing the board of education to increase the amount of the direct tax from 5,000 to \$6,000 to provide for the toilets if they deemed it advisable to make the installation this year.

## TICKETS ON SALE FOR CHAUTAUQUA

WELL KNOWN ATTRACTIONS  
ARE COMING.

Five Big Days of Redpath Chautauqua at Cass City Aug. 14 to 18.

The committee, having in charge the sale of the Chautauqua tickets met at the Cass City Bank Wednesday afternoon and arranged for the distribution of the tickets this afternoon and evening. After today, season tickets will be on sale at practically all the business places in Cass City.

In arranging to inaugurate this Chautauqua this year, the local committee bought 600 \$2.50 season tickets which will be sold while they last for \$2.00 each. When this supply is exhausted, no season tickets thereafter can be had for less than \$2.50. Also, the price of season tickets will not be reduced from the first day to the close of the Chautauqua.

The single admissions to the different sessions of this Chautauqua aggregate more than \$4.00, so it will pay you to buy a season ticket even after the program has begun. Season tickets are transferable within the owner's family.

During the days of the Chautauqua, a playground or children's worker will meet with the children at the Chautauqua tent. She will conduct a story hour for the younger children and for the older ones will carry out a program of athletics and physical culture.

Friday, Aug. 14.  
The Bolander Orchestra open the five day program on Friday afternoon, Aug. 14, with a concert followed by a lecture, "Culture and Democracy" by Geo. L. McNutt, "The Dinner Pail Man."

The Bolander Orchestra is a feature of the Chautauqua and will soon begin its fifth year as a musical organization. The members of this company are all born musicians. Their father, John A. Bolander, is a violin maker. While mere children they all began to play musical instruments. Adeline Bolander at the age of seven years used a half-sized violin to play in public at recitals.

In their program the members of this company arrange themselves first into a brass and string orchestra and later into an all string orchestra. They render such selections as the Sextette from "Lucia," the "Poet and Peasant" by Verdi, "Ophus" from Offenbach, "The Bohemian Girl," by Balfe and a string number "Humoresque" by Dvorack.

Geo. L. McNutt, known as the "Dinner Pail Man," has been upon the platform for years and few men have had more return dates than he.

Mr. McNutt was a farmer boy, Hoosier born, from Douglas County, Illinois. A student for a year at Princeton University, a graduate of Wabash College, he became a Presbyterian preacher at Urbana, Ill.

After preaching fifteen years in Urbana, Indianapolis, New York City and the far West, Mr. McNutt entered the university of hard knocks to study first hand social and economic questions. Beginning as a roustabout in an iron mill, the preacher worked incog. through Indiana, Ohio, Pennsylvania, Maryland, New York, Boston, and through New England up to Maine.

Friday evening will be devoted entirely to a concert by the Bolander Orchestra.

Saturday, Aug. 15.  
The afternoon's program consists of a concert by the American Quartet and a lecture on "International Peace" by Wardner Williams.

The program of the American Quartet and Clayton Conrad, cartoonist, will consist of both vocal and instrumental music, interspersed with cartoons—just such a program as Chautauqua audiences delight in. The instrumental music will be presented.

## SERVICES A SUCCESS

Interested Audiences Gather on School  
Lawn.

The union out door services which the four local churches are conducting Sunday evenings are a success. The last two Sunday evenings have been ideal in regard to weather and a good attendance resulted. The lower terrace of the school lawn has been arranged with seats and a platform, the plat has been wired for electric lights and an organ is provided so that no one can use inconvenience as an excuse for non-attendance. As long as the weather is fair the meetings will be held on the lawn and should a rainy Sunday evening occur the service will be held in the church whose pastor has charge of the evening sermon.

Rev. H. C. Hayward preached a short and effective sermon to the audience on the opening night. His words were well chosen and he held the attention of the people from the announcement of his text until his closing thought.

Rev. D. J. Feather preached an excellent 20 minute sermon to the large audience Sunday evening. His clear speaking and plain yet effective statements were heard by an interested audience. Rev. G. A. Fee will give the sermon next Sunday evening.

## JOSEPH RUSHLO

Released by Death from Long Siege  
of Suffering.

The funeral services of Joseph Rushlo were held Tuesday morning at ten o'clock at the St. Pancratius Catholic church. Rev. Fr. Dolan of Sheridan had charge of the service and the deceased was laid to rest in Elkland cemetery.

Joseph Rushlo was born in the County of Perth, Ontario, in February, 1865. When 14 years old he moved with his parents and sisters and brothers to Caro where he made his home until his marriage. He was married to Miss Lena Goodwin of Caro in 1891 and they began married life on a farm west of Gageton. About ten years ago they moved to the farm where the family still lives, three miles west of Cass City. Six children were born to Mr. and Mrs. Rushlo, all of whom are at home. They are Pearl, Kenneth, Leila, Forrest, Norma and Elsie.

Mr. Rushlo has been in poor health for three years but was not confined to the house until last February. Since that time he has suffered greatly and his death on Sunday at 5:00 p. m. was an accepted release from pain. He was a member of Elkland Arbor, A. O. O. G., for the past 10 years.

Besides his wife and children, the deceased is survived by his father, Archie Rushlo, of Caro, six sisters, Mrs. Maggie Williams, Mrs. John Gordon, and Mrs. Oscar Cutler of Caro, Mrs. John Ensign of Wells, Mrs. Frank Blake of Detroit and Mrs. David Tyo of Cass City and two brothers, Peter Rushlo of Elmwood and Sylvester Rushlo of Nahma. All but the last brother were able to attend the funeral. Mr. and Mrs. John Vandemark, of South Ellington, the latter a sister of Mrs. Rushlo, also attended the funeral.

**Hitting the Pipe.**

When Jones got home the other night he found the family in a panic and the house being flooded from a burst water pipe. The first thing he did was to scold his wife for not having sense enough to go down to the cellar and hammer up the supply pipe to prevent the water from escaping. Then he went downstairs and was soon heard hammering vigorously. After some minutes' strenuous work, giving one last mighty blow, he asked, "How is it now?"  
"There is no difference in the flow of the water," his wife calmly replied, "but as the light has gone out I very much fear you have hammered up the gas pipe."—Exchange.

**Dodged.**

"I got my wife through advertising."  
"Then you'll admit that advertising pays?"  
"I'll admit that it brings results," was the cautious reply. — Louisville Courier-Journal.

**CLIMBING UPWARD.**

Every true life should be a perpetual climbing upward. We should put our faults under our feet and make them steps on which to lift ourselves daily a little higher. We never in this world get to a point where we may regard ourselves as having attained the loftiest height without our reach. There are always other rounds of the ladder to climb.

Teacher: Johnnie, into how many classes are motor cars  
divided?

Johnnie: Two, Fords and Automobiles.

Teacher: Correct. What is a Ford?

Johnnie: A Ford is a scientifically constructed four-wheel  
motor car intended as the safest and surest mode of travel at the  
least cost.

Teacher: Does it fulfill the purpose for which it is intended?

Johnnie: It does.

Teacher: What can you say of a day's outing in a Ford?

Johnnie: It consists of a continuous spin over hill and vale  
full of pleasure, fun and satisfaction.

Teacher: What are the necessities to take for a day's outing  
in a Ford?

Johnnie: A little gasoline in a tank, a little oil in the engine  
and a little water in the radiator, and your wife and babies in the  
car.

Teacher: Why are Fords more cheaply and satisfactorily op-  
erated than automobiles?

Johnnie: Because they are mechanically perfect, free from  
cumbersome adjuncts; in other words, they are simplicity simplified.

Teacher: Now, what is an automobile?

Johnnie: A car usually of heavy weight with big, expensive  
pneumatic tires, high rated horsepower, made up of storage batteries,  
magnetic clutches, a network of wiring, automatic pumps, air-pres-  
sure pumps, oil pumps, oil feed pipes, sight oil feed, odometers,  
clocks, volt-meters, aerometers, air pressure gauges, shock absorbers  
and other mechanical conglomeration intended as a medium of sep-  
arating the rich from their cash.

Teacher: Does it fulfill the purpose for which it was intend-  
ed?

Johnnie: It used to—but not now.

Teacher: What can you say of a day's outing in an automo-  
bile?

Johnnie: It consists of break-downs, bog-downs, lay-outs and  
blow-outs.

Teacher: What are the necessities to take for a day's outing  
in an automobile?

Johnnie: Four big extra casings, extra tubes, an electrician,  
a mechanic, an able-bodied chauffeur, a check book and a good ac-  
count with your local bank; and you will need to frequent gasoline  
stations, telephone stations and garages.

Teacher: Why are automobiles more expensive to operate  
than Fords?

Johnnie: For the same reason that it is impracticable to op-  
erate locomotives with pneumatic tires on dirt roads.—J. I. Chipley.

**Acetylene Ranges For Quick Cooking  
In Country Kitchens**

You housewives in the country who  
labor over hot stoves cooking big meals  
for hungry families—how would you like  
this convenience, which every city  
woman enjoys?

ing on a gas range?

How would you like to turn on your  
gas with a twist of your wrist—turn it  
up or down just as hot as you want it.

If you have ever been in a city kitchen  
you know how much such a range will  
shorten your cooking hours and relieve  
you of the trouble and work of handling  
kindling, coal and ashes.

You also know what pleasure and com-  
fort your household will derive from  
brilliant Acetylene lights throughout your  
house and barns. To date this conven-  
ience—Acetylene for Lighting—Acety-

lene for Cooking—has been supplied to

same work.) Add a pinch of salt.

nutmeg, chocolate, or cinnamon.  
Serve with straws.

**Kitchen Kinks.**

Get a few large knobs of chalk and  
lay them at the back and sides of a  
fire. They will burn as red as coal,  
give a lovely heat and save the coal.

If you want the best pie-crust it  
should be made the day before you  
wish to use it and put into a cold pan-  
try. Then the crust will be flaky and  
crisp. If you wish to retain the  
crispness after baking, let the pies  
cool thoroughly before putting away.

Very frequently when separating  
the whites from the yolks of eggs the  
yolk becomes broken and falls into  
the white. Dip a cloth in warm water,  
wring it dry and touch yolk with a  
corner of it, and the yolk will adhere  
to the cloth and may easily be re-  
moved.

Pounding meat before cooking is an  
old-fashioned method of making it  
tender, but while it has the advantage  
of breaking down the tough tissues it  
has the disadvantage of being likely  
to drive out the juices and with them  
the flavor. A very good way of escap-  
ing this difficulty is pounding flour in-  
to the meat; this catches and retains  
the juices.

Following is a table showing the  
time required for the proper boiling  
of meats:

For the past month a large bag of Aristos flour has stood in the window of B. F. Benkelman's store and every purchaser of this brand was privileged to enter an estimate as to the weight of the large sack of flour and the one who came the nearest to the exact weight was to have it. The flour was weighed Wednesday and it tipped the scales at 301 1/4 pounds. There is a tie for the prize. Levi Muntz had put his estimate at 301 pounds and John Remilong at 301 1/2, both only 1/4 pound out of the way. The flour will be given to these gentlemen and they can settle the affair to suit themselves. Other estimates which were very close were Mrs. A. Koppelberger's at 300 1/2 pounds and R. Cleland's at 302 pounds.

Very attractive programs of the Woman's Study Club for the coming year have just been distributed. They are new in design and their contents bespeak a year of solid work, with here and there a bit of fun to break the monotony of hard study. The special subject for study is Civil Government, with Mrs. F. J. Nash as instructor. The women are anxious to be intelligent citizens when that privilege is extended to them.

During the severe electrical storm which roused people in this community from their beds of slumber Monday morning, the residence on the John McLarty farm north of town, occupied by the families of C. W. Day and Grant McLarty, was struck by lightning. The bolt apparently came down the chimney, knocking the plaster off in one room upstairs and two rooms down stairs and giving the occupants all a slight shock. The damage was fully covered by insurance. Miss Cecil Patterson, a daughter of Charles Patterson, received a severe shock when a bolt of lightning entered the window near which she stood. She was unconscious for a short time, but was otherwise uninjured.

The W. C. T. U. will give a picnic for the children at Orr's woods, Friday afternoon, July 24. All children are invited to come and they are expected to learn a temperance verse of some kind. They will meet at the Presbyterian church at 2:00 p. m. and should the weather be rainy the picnic will be held in the basement of that church. Each child is asked to bring his own sandwiches and a dish and spoon and ice cream and cake will be served by the ladies. The W. C. T. U. are putting forth great efforts to educate the children along temperance lines and feel that these little social gatherings are very profitable. The parents are asked to co-operate with the union.

L. W. Rensler of Findlay, Ohio, is the guest of his nephew, J. A. Rensler, this week. Mr. Rensler says crops are maturing as early here as in the country surrounding Findlay and that he is surprised at the fine looking farm lands in the Thumb.

Mr. and Mrs. James Brackenbury and children visited relatives at Amadore Sunday and Monday. They made the trip by automobile and Monday's rain made the return trip that afternoon "something fierce", according to Mr. Brackenbury's description of the roads.

Eugene Otis is happy over the securing of a flowing well on his farm on the county line, three miles east of Cass City. Geo Burt had been engaged to drill a well for Mr. Otis and when he reached a depth of 248 feet, a fine flow of water resulted. This is the second well of this nature in that neighborhood. I wish to thank the farmers of this community for their loyalty and co-operation with us for the past four years. Your patronage has enabled us to become one of the largest, if not the largest buyer of beans bought at one elevator in the State of Michigan.

August 1910 to July 1911 purchased 53000 bushels  
 August 1911 to July 1912 purchased 62000 bushels  
 August 1912 to July 1913 purchased 70000 bushels  
 August 1913 to July 1914 purchased 97000 bushels

This years purchases amounts to thirty-five thousand bags

**ONE HUNDRED AND FORTY CAR LOADS**

The volume of business done has enabled us to handle beans on a very small margin of profit and has made Cass City the Banner Town in the State in amount of beans purchased and prices paid to the farmer.

**ANNUAL MEETING OF STOCKHOLDERS**

Will be held at the Town Hall, Tuesday p. m., July 21 for election of officers. We invite every farmer whether stockholder or not to be present. Come out; be friendly and help us keep our good record for another year.

**TICKETS ON SALE FOR CHAUTAUQUA**

Continued from first page.  
by three members of the quartet on the violin, cello and piano.

Wardner Williams, the lecturer, is a direct descendant of Roger Williams, the eminent scholar, theologian and pioneer, and is regarded as a wide authority on the subject of International Peace. In addition to his splendid ancestral qualities, Mr. Williams has had unusual educational advantages, both in this country and abroad.

Saturday evening will be given over entirely to a concert by the American Quartet.

**Sunday, Aug. 16.**

McCord's Trio will present sacred concerts both afternoon and evening. Wells Watson Ginn will give a sermon in the form of a monologue at the first session and C. A. Payne will present an illustrated lecture-sermon in the evening.

The McCord Trio will present piano, violin and soprano solos, readings, and a number of novelty features. Mrs. Flossy Hughes-McCord plays her own accompaniments on the violin as she sings. Roy McCord, as a reader, appears also in character impersonations. Miss Helen Ewing, a pianist of marked ability, will render piano solos and play accompaniments.

Wells Watson Ginn appears to advantage in the play, "The Man From Home," by Booth Tarkington and Harry Leon Wilson. In a personal letter Mr. Tarkington, the widely known author, expressed his pleasure at being privileged to hear his story enacted by Mr. Ginn. Mr. Ginn impersonates all the characters in the play in a manner most realistic.

The lectures of Chas. A. Payne, the world traveller, are the result of more than twenty years of intimate study among 40 races and nations. They combine history and legend, science and romance, nature and humanity and every form and interest of modern life.

**Monday, Aug. 17.**  
Dante and his band will give a grand concert both afternoon and evening.

Signor Dante, at the age of seven, was a student in the Conservatory of Naples and graduated from that college at the age of seventeen. Ten years later he began his work as a band leader. Signor Dante is also a great soloist, his skill with a trombone being widely commented upon by leading musicians.

Extreme care is taken in the arrangement of Dante's programs. Some popular music will be played, but special attention will be directed to classical pieces. Grand opera selections will be presented with a brilliancy and power, sure to enthrall an audience.

At Venice, in Southern California, where from 80,000 to 100,000 people gather each Sunday to hear band music and watch the waves of the Pacific roll up on the sweeping beach, Dante is a favorite and at Denver also his concerts were enjoyed each afternoon and evening for weeks.

**Tuesday, Aug. 18.**

Kirk Towns will give a musical recital both afternoon and evening. Mr. Towns, widely known baritone, has achieved success as a concert artist and teacher, both in Europe and America. In all, he spent eleven years sojourn in the European capitals. After returning to this country he became a member of the vocal faculty of the Chicago Musical College.

Hon. Joseph W. Folk is too well known to really need any mention here, and if the exigencies of public service admit of his coming to this Chautauqua it will be a notable event in the history of this community. The recital of all the reforms he inaugurated while he held office in Missouri would of themselves more than fill this page.

Governor Folk is regarded as the pioneer in the great modern fight against graft which is now going on everywhere, both in the state and the nation. As governor, he put an end to hoodling in legislative affairs. He abolished the practice of legislators and officials riding on free passes. He

procured the passage of an act, after a hard legislative fight, repealing race track laws whereby gambling was legalized, and put the most powerful and insolent race track syndicate in the world out of business. He stamped out grafters in the police departments, he appointed men of the highest character to all positions of public trust, closed the gambling dives in St. Louis and enforced the law closing saloons on Sunday in the face of intense opposition and denunciation.

Governor Folk is still carrying the banner for purity in politics. Whereas St. Louis was his battlefield, then Missouri, it is now a national issue, and Folk of Missouri is spreading a new civic gospel which reaches back to Calvary and the Golden Rule, and is spreading from the Empire State to California, is bearing good fruit on the bloody ground of Kentucky and raising new standards in Louisiana. Governor Folk recently resigned as solicitor of the State Department at Washington to take the position of counsel for the Interstate Commerce Commission.

Bennett Springer, entertainer in feats of magic for ten years has mystified and delighted people of all ages with his clever exhibitions of sleight-of-hand, cartistry, and illusions.

The popularity gained by his work has recalled him many times to the same places. His engagements have taken him to every New England city as well as many of the leading cities of the North and South.

There is not an uninteresting number on the program. One trick follows another in rapid succession, accompanied by a ready fire of witticism. An evening at the hands of Mr. Springer passes all too quickly. He presents his program in three parts, each part consisting of three distinct tricks or feats in magic.

**COMMUNICATION.**

"Music hath its charms" is reason enough for its use in public entertainments and church services.

Perhaps everyone in the congregation should be paid for singing just because the minister is paid for his work.

An orchestra does its work in perhaps 10 or 15 minutes while a speaker talks for two hours. But regardless of all this, according to F. Lenzner, the members of the orchestra, who are usually in a business or a profession and merely play on the side, should be paid as much for 15 minutes work as a lecturer who makes a profession of his work is paid for 2 hours labor. Reasonable isn't it?

A minister will work a month or more in preparing a baccalaureate sermon but he receives no more for his work than the thanks of the class and doesn't look for more. Funny ain't it?

Some people would kick if they had the key to heaven. Mr. Lenzner received his pay for what he did in instructing and why he should have anything more to say remains a mystery. If he does not feel fully remunerated for what he did, we would like to know it. He was paid what he asked and why kick?
