NEW MILL TO OPEN

REMOVING WORKMEN MACHINERY TO MAKE ROOM FOR NEW.

Business in Three Weeks if Machinery Is Not Delayed.

The Elkland Milling Co., a new comwill re-open the flour mill at Cass City and commence the manufacture of flour within three weeks. That is the prediction of Harvey Hyde, former owner and miller of the Shabbona Mills, who has been engaged as manager of the new company's plant at

Cass City.
Mr. Hyde is superintending the work of removing the old machinery from the flour mill building and making such alterations in the structure as are necessary to accommodate the new Midget Marvel flour mill and the new feed grinder which have been purchased. Mr. Hyde expects to receive these machines together with the electric motors to drive them within two weeks, and if there is no delay in shipments, the plant will be ready for business the latter part of November.

The old machinery of the present plant is being stored in the feed mill building. The new company will house all their flour manufacturing and feed grinding machinery, together with the office room, in the present flour mill building, using the two buildings used heretofore as feed mill and office for storage purposes only.

SAFETY FIRST.

The season of the year has arrived then parents should warn the children of the danger of bonfires. Every precaution should be taken to prevent children from being burned to death while playing around burning leaves. During the past few months twelve small children lost their lives in Michigan and many others were seriously burned when their clothing caught fire from bonfires. The list of fatalties is always greater in the fall of the year Elkland Milling Co. to Be Ready for when bonfires of burning leaves near every home cause children to congregate. Your child may be the next little victim to be brought home a burned and blackened corpse or hurried to the hospital burned and disfigured for life. Don't let this happen, keep matches pany now in process of organization, out of the reach of children and if you can not prevent them playing around bonfires look after the burning of leaves yourself and watch the children closely. SAFETY FIRST and ALWAYS.

With nearly all business places offering articles of merchandise in the several different lines at bargain prices, the buyers have many opportunities to practice economy—and they do. Buyers are coming from all directions to make their fall and winter purchases of clothing, footwear, foodstuffs and other necessaries.

Bargain Week inducements offered by merchants are proving a strong attraction in drawing purchasers from long distances. Many are the bargains which are being picked up and many also are the purchases being made in other lines.

The merchants' special prices still continue. There are still two days remaining of Bargain Week-Friday an who spoke,

ELECTION RETURNS

Women Refused Ballot in Three Eastern States.

Elections in ten states Tuesday emphatically defeated woman suf-frage amendments in New York, Massachusetts and Pennsylvania and gave the republicans an additional representative in congress and a new go ernor in Massachusetts.

The democrats apparently elected a governor in Maryland and an entire state ticket besides a majority in the state legislature.

In Kentucky both parties claim a victory in the gubernatorial contest but incomplete returns from 111 of the 120 counties gave former Congressman Augustus O. Stanley, demoerat, a lead of 9,029 over Edwin P. Morrow, his republican opponent. Mississippi, the only other state to elect a governor, went as usual demo-

cratic.
In New York the republicans retained their control of the lower house of the legislature although they ost one assemblyman. They also elected a majority of the mayors chosen in cities of this state.

In addition to defeating the suffrage amendment by about 210,000 votes, the people of New York repudiated the new state constitution drafted by a convention of which Elihu Root was president and for which Mr. Root had conducted a vigorous speaking campaign. Samuel McCall, the republican, who

will succeed David I. Wash, a democrat, as governor of Massachusetts, won by a plurality o. 6,663. The republicans retained control of the Massachusetts legislature. The republicans returned to power

in Philadelphia, where their candidate, Thomas B. Smith was elected mayor by 75,000. In New Jersey the republicans gained two state senators and two

members of the assembly and will

continue in control of both-houses of the legislature. State-wide prohibition was rejected in Ohio by a majority of from 30,-000 to 40,000. The last time the

Mr. Keefer is an exceptionally versatile young man on the platform, including as he does in his programs, ventriloquism, impersonating, character portrayal and readings of a varied nature. He has been eminently successful for the past several years on the lyceum platform and besides this work, he has been the reader and entertainer touring with the Albion College Glee Club and has appeared in most of the cities and towns in the state.

His repertoire includes not only humorous and mirth provoking selections, but also numbers of a very classical nature, including, besides selections from the modern poets, excerpts from that greatest of writers Shakespeare. His interpretations of Shakespeare show a deep insight and sympathetic understanding into the work of this poet, both in the matter of tragedy and comedy.

The Epworth League is exceptionally fortunate in securing this entertainer for the Cass City public, and a packed house would be only a requisite testimonial of the appreciation which the people of this town should show in this regard.—Advertise-

The fullest knowledge of the liagnosis and treatment of tuberculosis is of recent acquirement, and physicians who learned their art two or three decades ago, and have been so ousied with practice as to be unable to keep up a progressive course of study, simply do not know what may be termed "the fine points" of modern diagnostic science with reference to Blaine, n ½ of se ¼ and w ½ of sw this disease. This, however, is seen to be a most mistaken policy. It is an evasion which sooner or later is exposed, and thus confidence is irre-

Some doctors simply refuse to eport either to the authorities or to he patient's family the existence of onsumption because of the stigma it. report either to the authorities or to the patient's family the existence of consumption because of the stigma it is supposed to bring with it. They would shield the patient at the expense of the public.

4. Other doctors do not tell the patient that he has tuberculosis because the patient is, in certain stages, un- 1 likely to believe him, to regard him as an alarmist, and to transfer his consultation to another physician. This Mr. and Mrs. E. P. Smith visited at sometimes leads some doctors to put with remarks about "a weak chest" or "a run-down condition" what is really a case of incipient tuberculosis needing prompt and strict atten-

tion in the proper way. These are some of the reasons why physicians do not report. These have been ascertained from actual incidents. The facts are well enough known to the better informed members of the profession. They have led to some pretty plain statements from physicians to physicians with regard to the matter. But these reasons are not reasons at all. It is to the doctor's advantage, the patient's advantage and the public's advantage that tuberculosis cases be reported at once. To the doctor's advantage because it shows him to know his business. To the patient's advantage because it enables Chronicle Printery.

To the public's advantage because it informs the health forces where danger has broken out, and enables them to combat it.

What happens when the physician does not tell his patient what the trouble is and does not report the case (whether from ignorance of the disease or not does not matter)? This happens: the patient does not avail himself of the means necessary for arresting the disease. He does not wuz in this part of the country, an' I avoid those conditions which aggrawuz jest thinkin' as I seen yew fellers vate and hasten the progress of his making a lot of mistakes in that 'are ailment. And this happens: the sick one's family is in ignorance of their own danger, and do not take those simple precautions which will prevent contagion. There are in Detroit today hundreds of persons infected with tuberculosis contracted from members of their own family whom they were not

And this happens: the patient, as long as he is able to be about, takes no care whatever to destroy his danger-

And this happens: where no report is made, the house or room inhabited by the consumptive is not disinfected after his or his family's removal, and innocent citizens and their families move in, only to be struck down by the invisible plague which lay in wait in that house or room. Some of the stories of "house infection" resulting from a mere refusal to report a case are most heart-rending. As we go on, we shall meet with them. Where a case is reported, the Board of Health takes special care that the habitation is not permitted to infect later occupants of the same premises. This, if nothing else, would justify the law re-

however. The state health officer has stated that perhaps the offer of 50 cents per report may have helped to obtain fuller reports.

The question arises, why do not the doctors report their cases of tuberculosis? Here are some of the reasons:

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Beggar-Could you assist me to get to Washington, sir? Jones-What party ticket?-Chicago

An Irish farmer was particularly fond of sausages, and one Friday the parish priest, calling unexpectedly while Michael was at dinner, found his parishioner enjoying sausages. "Michael," said the priest, "you must not ' indulge in meat on this day." "Sure, father, it's not meat I'm eating; it's sausage." "But, Michael, sausage is meat." "Oh, no, your reverence; sausage is not meat!" "Well, Michael, you know better, so I'll say no more, but I am in need of firewood, and you may bring me a load."

The next day Michael appeared at the priest's residence with a load of sawdust. "Michael, I did not want any sawdust," said the priest. "It was "Sure, father, it wood I wanted." was wood I brought," replied Michael. "No, it was not; it was sawdust," answered the father. "But, father, if sausage is meat isn't sawdust wood?" asked Michael.-London Express.

HANDSOME PRESENTS FOR FEMININITY

Lingerie Always a Charming Gift.

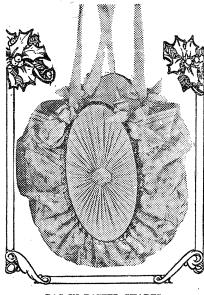

ET milady be frivolous occasionally. Life is serious enough at best, and if the fripperies of femininity delight her soul let's provide her with them. So here is a suggestion: Buy a few yards of sheer batiste and some lace and ribbon and fashion her the bit of lingerie in which soul delighteth. The picture of a pretty piece of combination lingerie is shown herewith.

Traveling has become so common in he average American home that little conveniences for the trunk or grip are ways welcome. A tray cover will nelp the girlish traveler to keep her waist fresh, and it is easily made. A strip of linen, denim or crash is cut he exact size of a trunk tray and

bound all the way around with braid of a contrasting color. The center is embroidered with the initials of its owner in mercerized floss to match the braid, and pieces of tape are fas tened near the corners of the cover in length sufficient to tie under the tray. Such a cover, of course, is not needed with the old fashioned trunk, whose single tray has a lid attached, but the new trunks are made up from innumerwashable cover is most useful.

A most welcome gift to the woman who goes out much in the winter is an opera bag. Crochet in very open stitches, rings in single stitch or squares made by crocheting four solid stitches to a chain of four stitches until a long piece has been made which, when folded and everseamed on the

edges, forms a bag. Into this place a bright colored silk lining and then twist a thick cord of the silks used in the lining and crochet, with tassels at the ends. Crochet over eight brass rings in single stitch and then sew the rings to the bag, one inch below the top, and run the cords' through these rings before the tassels have been added, one cord entirely around each side, to draw together.

Caps for children, purse covers, book covers, pillowshams and small table covers are now made of solid crochet-

The Drama of Humanity. 5-reel Production by Ambrosio.

Rex Theatre Friday evening, Nov. 5

The most impressive and startling picture ever made. Depicting the temptations of man from the time of Adam until the present day.

Picturing Satan during four great periods of human history--the era before Christ, the time of Christ, in the middle ages and finally the modern Spirit of Evil.

These pictures embody a most profound, gripping and tragic conception of Satan, the tempter of mankind, going to and fro in the earth and walking up and down in it.

Including a most sublime presentation of incidents in the life of Christ. A wonderful conception wonderfully produced.

The most pretentious picture ever thrown on a screen.

The thirty-first annual convention of the Woman's Christian Union of the tenth district was held in Baptist church at Vassar Thursday and Friday, Oct. 28 and 29. A goodly number was present and all officers except one. Thirty-two delegates responded to roll call. Mrs. uJlia Parish was with us and gave three instructive talks on the work and how to do it. Interesting papers were read and singing and instrumental music. All officers were re-elected. Friday evening a medal contest was held. As the contestants were numbered the name of the winner was not announced. Convention closed with the feeling that

the time was profitably spent. Kentucky Church Goes on Record.

The Lexington township board has appointed James Tait, a man 85 years naw, L. Z. Hiser of Lincoln and Mr. old, to the office of constable for the served for 46 years as under sheriff, deputy sheriff and constable. It is said that he is the oldest acting constable in the United States.

> Chas. Montague will erect an opera house in Caro. The building will be about 48 by 100 feet, two stories high and the main floor will have a seating capacity of 600 and the balcony will probably increase it to 750. The walls will be laid this fall and the building erected in the spring.

Mrs. Alvin Wooley of Snover was using gasoline in her wash water. The gasoline exploded and in the excitement Mrs. Wooley spilled two quarts of the fluid on the stove and her dress badly burning her hands and face. She managed to extinguish the fire on her clothing and then rushed to the neighbors for help to save her home. P. N. Sawyer, superintendent of the Bad Axe schools, met with an unfortunate accident which resulted in the breaking of one of his legs. Mr. Sawyer was standing among a crowd of spectators at a football game when the ball happened to be thrown outside of the foul line. When a number of players ran after the ball the crowd surged back and in his hurry to get out of the way, one of the spectators collided with Mr. Sawyer, knocking him down. He fell in such a way as to fracture the bones below the knee.

Findlay Bros., who own the big stock farm in Juniata township received from the State Fair officials at Detroit, two large silver cups, one being for the grand championship female Ayrshire, and the other for the championship male Ayrshire. In addition to this they received a silver trophy from the Ayrshire Breeders' Association. The Findlay Bros. have a fine herd of Ayrshire cattle and these prizes place them at the head as breeders. This is certainly a fine advertisement for Tuscola county cattle.

WHY NOT SETTLEMENT DAY?

Observed with Success in many Places and Could Be in Cass City.

A day for settling up all accounts. Sounds funny, doesn't it? Yet this is just what is being done in many localities once each year and it is meet-Christian services are held every ing with unqualified success. A day, usually early in November, is appointed as "Settlement Day," and on this day everyone makes an especial effort to get around and settle up all his accounts in some way, in order to have a clean slate for the coming winter. Old accounts that have been running for a year are balanced up and both creditor and debtor feel better to know just how they stand. New friends are made by the day, old friendships are cemented and renewed and credits have a new foundation.

Why not appoint such a day for Cass City and vicinity, and then every person who owes an account go to the creditor and settle up. This should not apply to any class, but to every person, high or low, rich or poor. Get the old bills settled, start over with a clean slate and feel better.
