GYPSUM DEPOSITS ARE PLENTIFUL

C. S. WHEATON FINDS IT IN BEDS 9 TO 27 FEET DEEP.

Miner Says There Is Practically No End to Quantity; Wants Plant Located Here.

If Chas. S. Wheaton of Evergreen cownship thinks he knows one thing better than any other about the country surrounding Cass City, it is its mineral wealth and possibilities. He has drilled holes in Mother Earth in nearby townships, from Alpha to Omega and from the A to Z strata. Whenever he has a spare day, he hurries from his farm to his prospector's outfit and there he abides until farming operations make it imperative for him to return from his underground operations to those which require his attention on the surface.

Mr. Wheaton is confident that mineral deposits in the vicinity of Cass City are of great value and in sufficient quantities to make mining a successful venture. He is particularly interested at present in the gypsum deposits which he says are plentiful, and as the beds in this vicinity are close to the railroad and are favorably situat-Complete returns from 27 counties ed in reference to Bay City, Saginaw,

Mr. Wheaton says there are three other more than nine feet. He says there is practically no end to the

Mr. Wheaton has had considerable correspondence regarding these deposits. R. A. Smith, Geologist of the Geological and Biological Survey of Michigan writes:

I am in receipt of your letter of May 25 accompanied by bag of sample rock material. I have made an examination of the samples and find that both specimens are gypsum, one largely of the coarsely crystalline selenite variety and the other finely crystalline rock gypsum. Gypsum is used in the manufacture of plaster of Paris, stucco, patent wall plaster, and land plaster. The samples furnished are apparently from the exposed surface apparently from the exposed surface since they contain thin partings of clay. Gypsum of this grade would be suitable for grinding into land plaster and possibly could be used for higher class products. I suspect from the nature of the samples that further exploration would show that the bed from which these samples came is of better average grade than the sam-

ples would indicate. We have known f beds of gypsum occurred in the rock as yet have not been able to obtain the Gagetown—Hazel E. Martin, Irene be in college, will be approached vid E. Heineman making a good inthrough organizations known as the crease over his earlier figures.

It must be said, however, that the mining of gypsum for the raw material itself is on the whole unprofitable. In the 7th Congressional district, The value lies rather in the manufacraw material is merely an incident of

the gypsum industry.° At present the centers of the gyp-sum industry in Michigan are at Grand Rapids and at Alabaster, Arenac County. I am enclosing under separate cover Publication 19, The Mineral Resources of Michigan for 1914, and would call your attention to sum industry, chara ter, and occurrence of beds and the production and value of the output. Most of the gypsum plants now in operation are controlled by strong organizations and competition is very keen. These plants have a combined capacity of production greater than the present market, hence are in a position to supply any demand made upon them. Cass City is favorably situated in reference to Bay City, Saginaw, Port Huron and Detroit therefore a plant located in this vicinity would be able to reach these markets better than the Grand Rapids plants. have to say about cream separators this week

YOU will find the De Laval is the easiest and most satisfactory to use and keep in good running order. There is nothing about the operation, cleaning, adjustment or care of a modern De Laval which requires

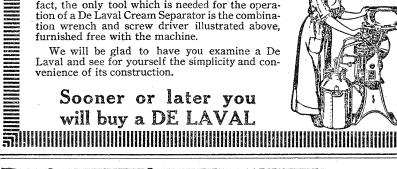

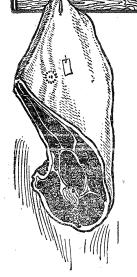

expert knowledge or special tools.

There are no parts which require frequent adjustment in order to keep the machine running smoothly or to conform to varying conditions in the every day use of a cream separator.

There is nothing about this machine that cannot be taken apart, removed or replaced by any one who can use a wrench or screw driver. In fact, the only tool which is needed for the operation of a De Laval Cream Separator is the combination wrench and screw driver illustrated above, furnished free with the machine.

The fourth quarterly conference of the Cass City Methodist church was Ferris and Mrs. MacGregor. Accord-held on Monday, Aug. 21, Dist. Supt. A. B. Leonard presiding. A good attendance of members and friends of the Bethel church was a noticeable feature of this meeting. Owing to various conflicting engagements and the busy season for the farmers, less than half the official members were able to be present. Reports from the proved. The W. H. M. S. showed an increase over last year which in turn was a considerable increase on the year previous.

The pastor's report showed general progress all along. A slight gain in membership and upwards of \$1500.00 were raised by the church in addition to the regular budget for local exnominated by the pastor and approved by the conference:

BECOME SLIM QUICKLY

Be Moderate in Your Diet, Breathe Deeply, and Take Tassco.

Fat persons, particularly those weight will be interested to learn that they may easily reduce their weight without starvation diet or tiresome exercise.

This can best be done by being moderate in your diet, so that you will not over-tax your assimilative organs, by getting plenty of fresh air, by breathing deeply and by taking tassco four times a day.

Tassco may be obtained from any druggist in 5-grain tablets, take one after each meal and one before retiring at night. They cost little, are absolutely harmless, are pleasant to take and are designed to reduce fatty accumulations in the system wherever

A few days' treatment should show a noticeable reduction in weight, the flesh should become firm, the skin smooth and the general health improved, in fact your footsteps should even become lighter, your work seem easier and a lighter and more buoyant feeling take possession of your whole

being. Every person who is 10 or 20 pounds over normal weight should surely give this treatment a trial. You will probably find that it is just what you need.—Adv. 9-1-4

TONOLINE IS BEAUTY AID,

INTEREST TO WOMEN

As health is a first aid to beauty this story, told by Mildred Louse, beauty specialist, of Boston, Mass., is of runsual interest.

"I can recommend no better health giver than tonoline," said Mildred Louise.
"I was for many months a victim of stomach trouble and nervousness. I had suffered terribly from pains that followed eating. Headaches also would add to my worries. Poor digestion finally brought on nervousness.
"Relief came, however, when I took the advice of several women who said, "Take tonoline."

"Not long after I started the tonoline treatment, my patrons began to remind me of the improvement in my condition. And because health is the quickest way to beauty, the improvement was particularly noticeable in my face.
"What tonoline really did forms I counter to the said of the said of the said of the said."

provement was particularly noticeable in my face.

"What tonoline really did for me I cannot say. I am so grateful that I am very willing to recommend tonoline publicly."

Tonoline is a purely vegetable preparation which goes to the seat of common maladics—stomach and kidney trouble, catarrhal affections of the mucous membranes, liver ailments and impurities of the blood-and quickly restores proper action. Tonoline is being explained daily to many people ly all druggists.

Notice: As tonoline is a wonderful flesh builder it should not be taken by any one not wishing to increase his weight ten pounds or more. Although many reports are received from those who have been benefited by tonoline in severe cases of stomach trouble and nervous dyspepsia, chronic constipation, etc.

Recently a man named Hays-in an Ohio town-held a public sale of his household effects. Among the articles offered, was a Range Eternal which he had purchased in 1914.

After spirited bidding, the Range Eternal was sold to Mr. Albert Ferguson of Grove City, O., for only 50c less than Hays originally paid for it. But that is not all. Later on, four of those who bid for Hays' Range Eternal, bought new ones from the local dealer.

All of which simply goes to prove that the Range Eternal is "legal tender" and has an established reputation for SERVICE.

Why Don't You Get a Car?

Stop putting it off. Don't hold to the old fashioned idea that an automobile is an expense. It is not. It's an economy.

Take this splendid new Overland, for instance. It costs only \$635. It's a beauty. Large enough for your whole family; easy to run; your son and daughter can do it; has a big, powerful $31\frac{1}{2}$ horsepower motor and is as complete as the most expensive cars in the world.

Also it uses very little gasoline.

How to Build Up or Tear Down This Community By J. O. LEWIS

The Menace of the Mail Order Houses.

HAT the mail order houses in the large cities have BECOME MENACE to the smaller cities, towns and communities is proved by the large patronage they enjoy from all over the entire country and further substantiated by the number of packages carried by transporta- bound to be impressed with the stertion companies, which under the law must bear the name or some mark of identification by which the shipper is known.

This mail order business got its inception from men who made a habit of buying up secondhand goods, stocks from bankrupt firms and fire damaged or salvage goods from fire losses. To these were added goods that were culled by manufacturers and graded seconds and thirds, etc.

These were shrewd business men, men who believed in advertising, and, These were shrewd business men, men who believed in advertising, and, That our merchandise offers the realizing the possibilities of advertising, commenced their business entirely along these lines, and to PROVE THE SUCCESS OF ADVERTISING no prices. See our stock of Ladies' better evidence could possibly be offered than the fact that every weekly pa Ready-to-wear Apparel, Dry Goods, per-farm, industrial, social or religious—carries their advertisements and also Carpets, Rugs and Draperies. that they send out catalogues of enormous sizes, beautifully illustrated and embellished, costing hundreds of thousands of dollars to publish.

Today they have grown to such enormous size that they own and control factories, while they contract to sell the entire output of other factories. However, the plants they control and operate manufacture what is termed in commercial parlance as competitive goods-something that every merchant

can sell at a low price to meet the demands for cheap merchandise. BUT AS TO STANDARD AND HIGH CLASS GOODS MADE DY LARGE AND RELIABLE FIRMS YOU NEVER SEE THESE GOODS AD VERTISED BY MAIL ORDER HOUSES, OR IF YOU DO THE PRICE 18 JUST THE SAME AS FIXED BY THE MANUFACTURERS FOR ALL

Therefore when one orders articles of the low priced and cheaper kin HE IS SURE TO GET JUST WHAT HE BUYS-cheaply made good and seconds and no cheaper than he can buy right at home when freight charges, money order fees and postage are added.

Thousands of dollars annually are being sent to these mail order houses from this vicinity, thus DEPRIVING THE HOME MERCHANT OF HIS RIGHTFUL PATRONAGE. And yet, no matter how much the merchant may be dependent on the patronage of members of his community, he is sup posed to give and to aid in every work undertaken for the material betterment of his town, and he does, being often coerced into giving by the demands of attract more than passing attention his customers, fearing to offend them because of the fear of loss of patronage. will be found at the studio of

THERE CAN BE NO QUESTION BUT THAT ALL OF OUR PEOPLE ARE IN DUTY BOUND TO PATRONIZE HOME MERCHANTS. TO THEM YOU OWE ALLEGIANCE AND SUPPORT, AND I NOW ASK YOU CANDIDLY, ARE YOU GIVING IT TO THEM?

If you are buying goods out of your home town-more particularly from mail order houses and merchants in other cities-I say to you that you are UNDERMINING THE HOME MERCHANT and likewise the very founda tion of your own well being. Every dime that you send to a mail order house makes that much harder the success of your home merchant and likewise retards the growth of your town. The money you send to mail order houses is taken entirely out of local circulation—is gone forever.

WHEREAS, IF YOU SPEND IT WITH A HOME MERCHANT HE IN TURN WILL SPEND IT WITH SOME ONE ELSE-PERHAPS PAY IT BACK TO YOUR FATHER, YOUR SON OR BROTHER, SISTER CR handling the Choicest Meats at Reas-DAUGHTER AS SALARY, AND THUS IT COMES BACK INTO THE FAMILY, DOING A UNIVERSAL GOOD.

That many of our home people are ordering goods from mail order houses is a well known fact. One has but to visit the depots and express office to find therein daily many packages addressed to them and likewise bearing the name or address of certain mail order houses. These people are known to our merchants, and that's a fact. These packages consist of clothing, dry goods, groceries, drugs, toilet articles, furniture, hardware, carpenters' tools, farm implements and what not, ALL OF WHICH COULD BE PURCHASED FROM OUR OWN HOME MERCHANTS, QUALITY CONSIDERED, FREIGHT CHARGES ADDED AND TIME IN TRANSPORTATION, JUST AS CHEAPLY AS FROM ANY MAIL ORDER HOUSE IN THE COUNTRY.

Supposing the merchants should band themselves together and refuse credit to those who patronize these mail order houses and further refuse to employ members of families who do this or refuse to buy the wares of these people? Wouldn't they find living mighty hard? To be continued under the title, "THE HOME MERCHANT HAS EARN-

In short, any proposition for the development of local deposits of gypsum should be carefully investigated with reference to the mining and manufacturing conditions, transportation fa-cilities, and markets. It may be well to add, however, that the gypsum de-posit in itself has very little value since the amount of gypsum actually in sight is sufficient to last the country for ages to come.

If I can be of further service in any

Geologist. Another Letter from Mr. Smith. Under an earlier date, R. A. Smith,

Geologist, writes Mr. Wheaton: Concerning further samples of gyp-sum, I would say that the samples al-ready sent are sufficient as they indicate without question the presence of pure gypsum. We would like to have the borings or outcrops and a full log or record of each hole. This information I infer you wish to hold strictly confidential. I can assure you that any information you may give us will not go beyond this office until you give us permission. Personally I am very much interested in working out the geology of the formations in your vicinity and anything you can do for me in the way of records of your borings would be considered as a personal favor.

I am sending you under separate cover the geological report on Tuscola County by Prof. C. A. Davis.
