The Rest of Your Farm Is Up-to-Date —What About Your Home?

You modern business farmer—with your up-to-date machinery, labor saving equipment and improved methods of farming—what about your home?

Have the improvements in your home kept up with the improvements you have purchased to save your labor on the outside?

Or, in your efforts to succeed have you been too busy to think of and provide the modern comforts and conveniences for your wife and children?

Chief among the modern improvements for the farm home is good light.

Times have changed. The dirty, dangerous oil lamps and lanterns have long ago gone out of fashion—where progressive farmers are concerned.

Pilot-Carbide-Outdoor Lighting and Cooking Plants

have totally changed the old-fashioned methods of house and barn lighting and cooking in the country home.

Hundreds of thousands of farmers—men like yourself—in all parts of the country—have already equipped their homes with this permanent improvement.

Some are friends and neighbors of yours. Their families are now enjoying this comfort, safety and convenience—without which your home will never be complete.

They have chosen the PILOT not only because it gives them all the bright, safe, clean light they can use—but cooking fuel as well.

Because they can light their houses and barns without matches. Because the PILOT entirely eliminates all the dirty, disagree-

able daily labor of caring for lamps. Because they have an abundance of brilliant light always on tap whenever they need it.

Because the PILOT takes up no room in the house, but stands out of doors—on top of the ground—anywhere. It is simple, automatic, dependable. Needs but a few minutes' attention once a month or so.

Write for our illustrated catalogs and descriptive booklets giving all the facts. Find out today about the PILOT.

**"JUST NATURALLY RUN DOWN.
NOT FIT FOR WORK. TANLAC
PUT ME ON MY FEET AGAIN."**

"I was just naturally run down and not fit for my work. In the first place my stomach troubled me. I could not eat, so I lost a lot of flesh and I could not sleep and get my rest at night. "What I ate would lie in the pit of my stomach and cause dreadful cramps. I did not know what to do. I had a bad taste in my mouth most of the time and my face was pale as could be, no color at all. "A friend of mine who works with me saw how badly I was looking and said "Why don't you try Tanlac?" I took some and I think it is great stuff. It fixed me up all right. This recommendation sounded so good to me I came right over and got me a bottle. I was not going to lose any time starting. "Well, the results were one bottle did me so much good I got another and now I have finished my third bottle of Tanlac. I can eat fine with no more cramps or lumps in my stomach. I have gained in weight and strength until my friends hardly know me. My color is fine. I can attend to my work and am in a good shape all around. I have no trouble sleeping and get up feeling refreshed. "I want to recommend Tanlac because it put me on my feet and now I say Tanlac is a wonderful medicine for stomach trouble such as I had and will cure that tired feeling." The above statement was made to J. A. Copp, the Tanlac man, by Otto Weingart who lives at 503 Rankin St., Flint, while he was calling at the Mercer Co.'s Drug Store, 415 S. Saginaw St.

CASS CITY ASTONISHED BY SIMPLE MIXTURE

Cass City people are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL removes such surprising foul matter it relieves almost ANY CASE constipation, sour stomach or gas. Because Adler-i-ka acts on BOTH lower and upper bowel, a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. Burke's Drug Store.—Adv. 4.

MARYLAND FOR WILSON BY LARGE PLURALITY

Baltimore.—President Wilson carried Maryland by a plurality estimated at 16,510, but Congressman David J. Lewis, "father of the parcel post," was defeated in the contest for the United States senatorship by Dr. Joseph I. France, whose estimated plurality was 6,367. Lewis' defeat was attributed largely to the openly expressed hostility of the democratic organization in Baltimore and to the anti-prohibitionists because of his vote in congress for a national prohibition amendment. Baltimore, which gave President Wilson 9,300 plurality, gave Dr. France 9,782 plurality.

Four democratic and two republican congressmen were elected, a republican gain of one. In addition to the five incumbents, Frederick N. Zilman, of Cumberland, republican, was elected from the sixth district formerly represented by Mr. Lewis.

Prohibition was defeated in seven of the 11 localities in which the proposition was voted upon in the state. Baltimore gave a majority of 43,000 against it. Annapolis rejected it by 500, while Havre De Grace, at which racing is conducted, went "dry" by 22 votes. Hagerstown voted "dry."

The budget amendment to the state constitution was adopted by about 90,000 majority.

DEMOCRATS SWEEP STATE OF UTAH

Salt Lake.—Woodrow Wilson has carried Utah by about 15,000 plurality. United States Senator George Sutherland, republican, has been defeated by Judge William H. King. Simon Bamberger, democrat, has been elected governor, and the entire democratic state ticket swept the state. Both democratic candidates for congress were elected.

Mr. Bamberger is the first democratic and the first non-Mormon to be elected governor of Utah.

Glenn Miller, republican state chairman, said: "President Wilson has carried the state by more than 5,000, and the indications are that Senator Sutherland is beaten. We hope to save the governor."

PRESIDENT WINS IN OHIO

Cincinnati.—President Wilson appeared to have a good lead in Ohio. His plurality over Mr. Hughes may run over 60,000. All doubt that Mr. Wilson had carried the state was removed Wednesday morning, when the republican state headquarters conceded the state to the president.

MARX ELECTED MAYOR FOR THIRD TERM

Detroit.—Oscar B. Marx was elected Tuesday to serve his third term as mayor. His majority over Judge Conolly was 10,000.

they are medically unfit.

Am doing nothing today and did nothing yesterday on account of having been inoculated for typhoid. We have to be done every year, and it is over a year since I was done last. Have been on long leave once since I came over. Was at Gravesend for five days. Some friends of ours live there so I enjoyed myself very much. Was up in London one day of the five and have been up once since then for a week end.

There isn't an awful lot to do here as I know no one anywhere near here, and when I do go out I can only look wise and wander around. I suppose I could get acquainted with some of the girls around here, but they are not the kind of girls I care to associate with. The number and the manners of the girls that you see about here are awful and the actions of a good many of the boys, it is no wonder that the Canadians have such a name. Not all over England, by any means, but in this district, they have a reputation that is not what it might be. However, there is lots of the country about here to be seen and I manage to see a good bit of it.

William is still in New York state with Uncle Herb and Aunt Susie and seems to be enjoying the work. I hear from him quite often.

Well, I guess I had better close now and let you have another grumble or two later on. If you can get any of the people I know to write to me I would be very glad to hear from them.

Your loving friend,
JOSEPH.

BISHOPS AND CATS.

Canon Liddon, like Archbishop Whately, was a lover of cats. His biographer relates that a little niece who lived with him at Amen Corner once dined with her uncle at Fulham palace. In the drawing room after dinner Bishop Jackson told the child that her uncle was splendid company "What times you must have with him in the evenings!" he added. "What does he talk about?" "Cats," she replied. "Oh, yes," said the bishop, "we all know of Canon Liddon's affection for cats, but he can't talk every night and all night about cats. What does he talk about when he is not talking about cats?" "Bishops," replied the little niece.—London Mirror.

If They Told the Truth.

Just received your dinky little present. Pity you thought it was necessary to give me anything, but consoling to think your reputation for general meanness remains unchallenged.

At the family dinner party, by the host, looking around: "Well, I have never realized before what a motley lot of relatives I have. My wife and I have been dreading this dinner for weeks, but now that it is almost over I'm beginning to feel positively cheerful. Here's to you. May we never meet again!"—Life.

Lime for the Soil

- LAND LIME RAISES GOOD GRAIN,
- ASSISTS IN PROPER GERMINATION,
- NEVER FAILS TO GIVE SATISFACTION,
- DENOTES PROGRESS IN AGRICULTURE.
- LEAVES PROFIT FOR YOUR WORK,
- INCREASES THE GRAIN CROP,
- MAKES FARMING PROFITABLE,
- ENRICHES ALL SOILS.

When to Spread Lime on Land.

The Carbonate of Lime or Ground Limestone can be spread on the soil at any time of the year without injury to the crops, but this is not true of burned lime which injures growing crops if placed in contact with them. Spread ground Limestone when soil is plowed, and as far ahead of seeding as possible. If land is plowed in autumn for spring crops spread lime in the autumn or winter as desired. Always spread on plowed land and harrow into soil. Always place the lime just ahead of such crop as may be used for a nurse crop for clover. If oats or buckwheat are used for clover seeding spread the lime in early spring unless plowing is done in autumn. If winter wheat is used for a nurse crop for clover spread lime at once when plowing is finished, in July or August. For Alfalfa plow in autumn and spread lime at once or during winter if the seeding is to be done in May or June. If seeding is to be done in August then plow in May and spread lime at once. Generous applications of lime where clover is to be seeded together with a small mixture of Alfalfa seed with the clover seed will later bring about a condition of soil properly adapted to Alfalfa growing. Alfalfa must be seeded on very firm soil, hence the reason for plowing so far ahead of seeding. The lime also should have time to act on the soil. These two factors are most important for Alfalfa seeding.

- REJUVENATE THE FARM. GIVE IT A CHARGE OF NEW LIFE.
- MAKE IT MORE PRODUCTIVE, IN CROPS AND PROFITS.
