Mrs. M. P. Freeman at her home on Main St., entertained the Thimble club last Thursday night. After the social and business session was over, a sumptuous luncheon was served in the dining room where covers were laid for fourteen. The place cards and favors were reminders of Thanksgiving. Two new members joined the club. The next meeting will be held with Mrs. J. L. Purdy.

Mrs. L. T. Hurd, who died last Thursday and was buried on Saturday in Hillside cemetery, was a member of the Eastern Star Lodge and Cleaner Lodge. The funeral was held at the house at 2:00 p. m. Saturday under the auspices of the Eastern Star Lodge. Flowers were contributed by the fraternal orders, the family, school and friends. Rev. Morrison officiated at the services. Besides the husband, three sons and one daughter are left to mourn the loss.

WILMOT.

BRONZE BEST LIKED

Beautiful Plumage and Large Size Has Given This Turkey First Place.

THE bronze turkey holds the place of honor among its tribe. It is a cross between the wild and the tame turkey. Its beautiful, rich plumage and its size have come from its wild progenitors. To maintain these desirable qualities crosses are continually made. In this way the mammoth size has been gained. Their standard weight ranges from 16 to 36 pounds, according to age and sex. Probably more of this variety are grown each year than of all others.

The coloring of this variety is a ground of black, blazoned or shaded with bronze. This shading is rich and glowing, and when the sun's rays are reflected from these colors they shine like polished steel.

The Narragansett turkeys are next in size to the bronze. They are of black ground color, each feather ending with a band of steel gray, edged with black. This imparts a grayish cast to the entire surface plumage. Mixed with this is the finish of metallic black and bronze luster.

The standard weights of this variety are, for males, from 24 to 30 pounds; for females, from 12 to 18 pounds. Some old males of both this and the bronze variety weigh over 40 pounds.

The buff turkey is not generally known throughout the country. In many localities it is almost unknown. The standard calls for a pure buff color throughout, but this shade of coloring is seldom seen. As bred for market these turkeys are of a reddish buff or light chestnut color mixed with white and some dark shadings. They are highly valued in some localities for their quick growth and for their attractiveness when dressed. Their average weight is several pounds less than that of the Narragansett.

The slate turkey might be called a blue turkey. They about average in size with the buffs and blacks. They range from 10 to 25 pounds, according to age and sex. The black color ranges from small spots to larger markings, but the less of this the better for exhibition purposes. It might be surmised that the slate turkey originated from a cross of white and black turkeys.

In America the white turkey is called the white Holland turkey. The reason for this is not apparent, though some think it is so called because it originally came from Holland. White turkeys were formerly quite delicate and rather small, but now are more generally developed. The standard of weight is less for the whites than for other varieties. They range from 10 pounds for young hens to 26 pounds for old toms. In color of plumage they should be white throughout (except that each has a black beard on the breast), with shanks and toes pinkish white.

REAL CAUSES FOR GRATITUDE

Thankfulness for the Vaster Blessings of Life Should Be the Duty of All.

To give thanks for the more particular benefits, valuable in a small way in our own lives, would seem to me dispensable, and of proportionately little value; but to show gratitude and appreciation for the vaster blessings with which the life of each one of us is enriched, this, it would seem to me, is indispensable.

We are usually down on our knees, thankful if some project of our own succeeds, if something we desire for ourselves or for our friends comes to pass; but high noons and sunsets, stars and great rivers, cities glittering in the night, plains and valleys silent under the moon, dawn across the sea, the mantle of the storm and fringes of the rain, and a world made new each day; and that large companionship of joy and sorrow and hope shared with men and women whose lives merely brush ours in passing, and in whose faces we may perhaps not look again—for these, these royal gifts, what gratitude of high and noble living do we offer?—From the Delineator.

Turkey-Producing States.

It may be surprising to learn that only 3 per cent of the New England farms produce turkeys. Texas leads in raising this fowl with over 364,000 to her credit, while Missouri, Indiana, Illinois and Kentucky follow her closely.

Just a Thought.

The Puritan fathers couldn't really have been such ascetics as they made themselves out to be, according to the feast which they left to their descendants, one of their chief memorials.

NOVESTA CORNERS.

Wm. Patch, sr., is visiting his sons in Detroit.

Mrs. A. E. Bartlett spent the past week with friends at Minden and Sandusky.

Mr. and Mrs. Vern Allen and children have been suffering the past week with tonsillitis.

BROOKFIELD.

Harold Ricker is in Pontiac working.

John Ross went to Pontiac Monday for a visit.

The social given at the Orange Hall Tuesday was a success. Proceeds were \$40.60.

The Brookfield Chimes Club will give a Thanksgiving chicken supper in the Orange Hall Tuesday, Nov. 28. All are invited.

Mr. and Mrs. Howard Dhyse returned home Friday night. Howard is better. It seems good to have Erma with us again at church.

BEAULEY.

Geo. Jennings of Owendale is the guest of his sister, Mrs. Marvin Moore.

THUMB NOTES.

The citizens of Ubyly will decide on Tuesday, Nov. 28, whether the village will bond for \$10,000 for an electric light plant.

Dr. H. H. King and family of Colwood, have moved to Unionville where the doctor will take up the practice of the late Dr. Lowthian.

While shoeing a horse Monday, Mel-Moore, blacksmith at Elmer, was kicked by the animal and one bone in his right arm was fractured.

An election bet in Peck will be settled Saturday afternoon. Edward Clothier and Postmaster Reynolds made a wager on the presidential race that the loser was to creep from the Clapsaddle garage to the Tenniswood corner in case his man was defeated. Clothier pinned his faith on Hughes while Reynolds picked Wilson to win. As this is written the election is in doubt but the event will take place on Saturday.

A miscellaneous shower was given the bride elect, Miss Irene Mullin, at the Mrs. Richard Case home at Gagetown Friday night by her friends at which a number were present. A dainty serve self luncheon was enjoyed. Many useful and dainty gifts were left by the friends. The Young Ladies' Sodality presented her with a set of silver spoons. She left for Detroit the next day with the best wishes of all. The wedding will occur in Detroit next week.—Gagetown Times.

The board of supervisors of Lapeer county at its recent session authorized, for submission to the vote of the electors at the next election, the raising of \$30,000 for the erection of a new county house to replace the one recently destroyed by fire. The actual cost will no doubt exceed that amount, but it is the limit to be formally submitted.—Lapeer Clarion.

A new school district has been formed in the western part of Sanilac county and will be known as District No. 2, fractional, Elmer and Marlette. The new district is one that was formerly swamp land, but which has now been reclaimed. The schoolhouse will cost \$1,800 and the contract calls for its completion by Jan. 1st. The building will be erected according to plans furnished by the superintendent of public instruction and will be modern in every way. The school will be the fourth "standard school" in Sanilac county.

Nelson Deming, of Utica, N. Y., field agent for the Borden Condensery company, who is in Sandusky on an inspection tour of this vicinity to ascertain the amount of milk that can be obtained in the event his company should locate here, reports a kindly reception from our farmers. He has covered about one-fourth of the territory. It will depend on his report to the company as to whether the condensery is established here. Therefore it behooves every farmer to agree to increase his herd of cows to the largest possible number. Dairying will eventually become the chief industry of Sanilac county. We trust the importance of this matter will escape nobody.—Sandusky Farmer.

These Tremendous Advantages—

- More power—35 horsepower motor.
- More room—112-inch wheelbase.
- Greater comfort—long, 48-inch cantilever rear springs and 4-inch tires.
- Greater convenience—electrical control buttons on steering column.
- Bigger, safer brakes—service, 13 3/8 x 2 1/4; emergency, 13 x 2 1/4.
- Better cooling—you never heard of an Overland motor overheating.

These are tremendous advantages over anything to be had in other cars that sell for anywhere near as low a price. And they make it hard for us to keep up with orders. The factory has never yet caught up with the demand. You ought to own one of these cars—nothing else so big and fine for the money. Come in and order yours now.

ROAST PIG SUPPER

One of the biggest and most successful social events which the Masonic Lodge of Brown City has ever attempted was carried through to a successful conclusion on Monday evening when the Masons acted as hosts to their wives and several other invited guests and visiting brothers.

Immediately after the degree work which consumed part of the evening the guests began to arrive and at about nine thirty were ushered into the spacious dining room of the lodge where they were confronted with a table set fit for a king. The center piece consisted of a fine eighteen pound roast pig fully stuffed with delicious dressing and roasted to a beautiful brown. Two other pigs of similar size were provided and Charles Noble who, by the way had been given the head of the table, was set to work carving the beast, a job which he performed in a very workmanship manner. Along with the pig, escalloped potatoes, dressing and apple sauce were served while a liberal supply of rolls, celery, olives and apples completed the menu. Sweet cider and coffee were served.—Banner.

FINDS TANLAC GREAT BOOM

Thousands of our best people are now using Tanlac with the most gratifying results. We can only account for this by the fact that Tanlac is a medicine of extraordinary merit.

J. B. Ockert of 1214 Cleveland Avenue, Flint, told Mr. Copp, the Tanlac man "I saw Tanlac advertised and indorsed by many whom I knew, I noticed particularly the name of a man who works with the Chevrolet Company, highly indorsing it because of the good he had received from it. That is how I came to take Tanlac in the first place, then after the first few doses I was ready to tell what it had done for me, I was so delighted with it."

"I am employed at the Mason Motor Co. Plant, in the shipping department. For some time I have not had a good appetite and have felt all run-down and tired-out. Even in the morning I got up tired and did not feel like going to work. My breakfast would sour on my stomach and form gas until I almost quit eating. I did not eat enough to keep up my strength."

"I am certainly on the mend now since I took Tanlac. No more trouble with sour stomach or gas. I have a splendid appetite and I get up in the morning feeling like a working person should. Tanlac was just the medicine I needed."

"I am satisfied that Tanlac is all they say of it because I have tried it and know from experience and am glad to recommend it to others."—Advertisement.

A HEAVENLY HOST.

On the evening of Nov. 20 a lady living just north of Cass City was awakened by most heavenly music rendered by a band of archangels who descended in her yard. "I knew they were archangels by the sound of their voices," she said in relating the incident to the Chronicle Tuesday morning, "and I waited for the song to end before extending them an invitation to enter the house and partake of cold tea and crackers. By the time I reached the door they had fled and I could only hear the flutter of their wings. They must have traveled by aeroplane they disappeared so rapidly. The music was divine."

Some Farmers Still Use Oil Lanterns to Light Their Barns

Of course—back in the old days—30 years ago—you couldn't get anything better. But—these last few years have so changed living conditions that up-to-date farm families won't be satisfied any longer—with poor light.

The modern farmer is quick to see the value of good light—its safety and the convenience it brings him and his family. There are now hundreds of thousands of farmers who have chosen the

Pilot-Carbide-Outdoor Lighting and Cooking Plants

for it gives them not only all the fine, bright, inexpensive light they can use—but cooking fuel as well.

This wonderful machine stands out of doors—on top of the ground, anywhere. It has totally changed the old-fashioned methods of barn and house lighting.

You can now flood your barn with safe brilliant light—instantly. No matches needed. No dangerous lanterns to tip over or upset.

Think what this means to you! Think how much better and quicker you can work, with plenty of good bright light in place of a smoky, dim oil lantern.

You will find the barn lighting feature alone worth the entire investment for the PILOT. And its use in the house, as well,

means added happiness—safety—comfort and convenience for your whole family.

Just because your father and grandfather used oil lamps and lanterns is no reason why you should, any longer, put up with their danger and poor light. Light the modern way, the safe way, with the PILOT.

Find out today about this modern light plant. You owe it to yourself. You owe it to your good wife and to your children. You can well afford the little it will cost.

Write for our illustrated catalogs and descriptive booklets giving all the facts.

Slip a few Prince Albert smokes into your system!

You've heard many an earful about the Prince Albert patented process that cuts out bite and parch and lets you smoke your fill without a comeback! Stake your bank roll that it proves out every hour of the day. Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

There's sport smoking a pipe or rolling your own, but you know that you've got to have the right tobacco! We tell you Prince Albert will bang the doors wide open for you to come in on a good time firing up every little so often, without a regret!

You'll feel like your smoke past has been wasted and will be sorry you cannot back up for a fresh start.

You swing on this say-so like it was a tip to a thousand-dollar bill! It's worth that in happiness and contentment to you, to every man who knows what can be gotten out of a chummy jimmy pipe or a makin's cigarette with Prince Albert for "packing"!

This is the reverse side of the tidy red tin

THE Prince Albert tidy red tin, and in fact, every Prince Albert package, has a real message-to-you on its reverse side. You'll read—"Process Patented July 30th, 1907." That means that the United States Government has granted a patent on the process by which Prince Albert is made. And by which tongue bite and throat parch are cut out! Everywhere tobacco is sold you'll find Prince Albert awaiting you in toppy red bags. So, tidy red tins, 10c; handsome pound and half-pound tin humidors and in that clever crystal-glass humidior, with sponge-moistener top, that keeps the tobacco in such fine condition—always!

Mothers--This Child Was Cured of Bed-Wetting

Mrs. C. W. Peters, Lancaster, Pa., R. 3, writes: "My six-year-old girl has wet the bed since she was a baby. I found no relief until I tried your sample of Foley Kidney Pills. I saw they were helping her, and bought two bottles of my druggist and she is altogether cured. Thanks to Foley Kidney Pills for the benefit I have found in them, as it takes a lot of washing off me. I have told a number of mothers since I found the cure."
 Parents no longer scold or punish a child for bed-wetting. Instead, they improve the little one's physical condition, until the annoying and mortifying act is done away with.
 A few simple rules aided by the use of Foley Kidney Pills will stop any ordinary case of bed-wetting that is not caused by obstruction or malformation of the parts. They are safe to take and absolutely free of harmful drugs. Foley & Co., 2335 Sheffield Av., Chicago, will send their leaflet on bed-wetting to any one asking for it.

Much Cheaper Toothless.
 With a view to advertising his business a dentist in an English town announced that he would supply artificial teeth to the first twelve aged ladies in poor circumstances who applied for them.
 The earliest application on the appointed day was an elderly woman in shabby but respectable clothes.
 Scarcely was she seated when a red faced old man came to the place and announced that he had come "about them teeth."
 "You are making a mistake," the dentist replied. "I only made my offer to ladies. In fact, there's one lady waiting now."
 "An' it's about 'er I've come," retorted the old man gruffly. "Tell 'er 'er 'usband's waitin' for 'er and if she don't 'op out quick there'll be trouble. She's got a huppette like an 'oss already and if you set 'er up wi' a strong lot o' teeth she'll eat both me an' 'er into the work'us in a week. Send 'er out at once!"

How It Is Done.
 "Dear Sir—Will you kindly publish directions for trying a bow tie? Roger Coot."

Well, Roger, you hold the tie in your left hand and your collar in the other. Slip your neck in the collar and cross the left hand end of the tie over the right with the left hand, steady the right end with the other hand. Then drop both hands, catching the left with the right and the other with the other. Reverse hands and pick up the loose end with the nearest hand. Pull this end through the loop with your unengaged hand and squeeze. You will find the knot all tied, and all you have to do is to untangle your hands.—Dartmouth Jack-o'-Lantern.

 There will be a social and entertainment at the Moore school, 3 1/2 miles west of Deford, on Thanksgiving eve, Nov. 29. Girls, bring a pie and a ball of carpet rags with a bow of ribbon inside; wearing another bow exactly the same. The balls of carpet rags will be sold at auction; each one to the highest bidder, after which the buyer has to unwind the ball to get the bow, and then hunt up the girl with a bow on just like it. The same will be his partner to eat pie. To the Girls—Narrow ribbon will be O. K. to make your bows and be sure and wear them in plain sight. Another word—There will be a good place to put your pies where they won't be made into jam. To the Boys—Although the road is rough, it won't be much farther to go around, so everybody come. 3 1/2 miles west, on the trail of the lonesome poplars.

 The writer is in good cheer. He saves the price of a lock. Some farmers have enough that they keep the granary secure at night. We don't have to trouble over material things.
 James Osburn is going down the side of highway between sections 2 and 3, Kingston, with wild bird speed. We refer to the construction of a drain. Jim is only part Irish but the mixture seems to improve his ability in excavating soil.
 We once read a book entitled "Small Things and Great Results," and now we are reminded forcibly. Back in 1913 the north 1/2 of the southeast 1/4 of section 4, Kingston, was returned by the treasurer for drain tax. But in describing the section, he made a 3 in place of a 4 and that showed Clarence Vorhes' 40 acres and Jacob Hilderbrand's 40 acres loaded with back taxes. Hilderbrand was exchanging lands with parties in Sanilac county, and in looking up title, the error was found. Parties have bought the taxes but when the state is appraised of the facts all will be arranged satisfactorily. Yet much trouble and some expense is the result.
 If you are watching the moves in Europe where the governments tell the people how to save the food, you know that in some countries house wives are not allowed to pare the potatoes raw. To save the tuber, it is boiled first and then skinned. And should there be another potato failure in the U. S., our government may have something to say. As it is now when potatoes are sixty cents per peck, every female should be able to pare the

tuber thin or she is not a saving cook. Why not help in the good work? Have a contest at our Farmers' Clubs. A number of potatoes selected about the same size. All girls eligible from 10 to 90 in the trial and the one who pares the potato best in the shortest space of time wins a prize, and a good prize can be offered. The contestants can select the judges from the crowd before the trial of skill begins. Such instructions might bear good fruit for those who are now young, after the older ones are sleeping.
 South Novesta Farmers' Club met on the 17th at the home of John and Ida Retherford on the town line. Because of a good day and a busy time the number was not large that belonged to home club, but the visiting members from Kingston did us kindly in numbers and the meeting was a "thumper." The question of feeding corn to milch cows was the important question discussed. All agreed that it paid well to feed the corn crop to the cow and get the returns in cream. And all who had silos considered the only way was to feed the crop through the silo. Farmers who have had experience put forth the claim that one acre of land will keep a cow for a full year, and we cannot afford to pasture the beasts on plow lands. An admirer of the silo said the food was cooked as could be demonstrated by placing a thermometer in the stuff and it registered 130. The result of the discussion was that those who owned silos rejoiced, and those who were without looked heavy of heart.

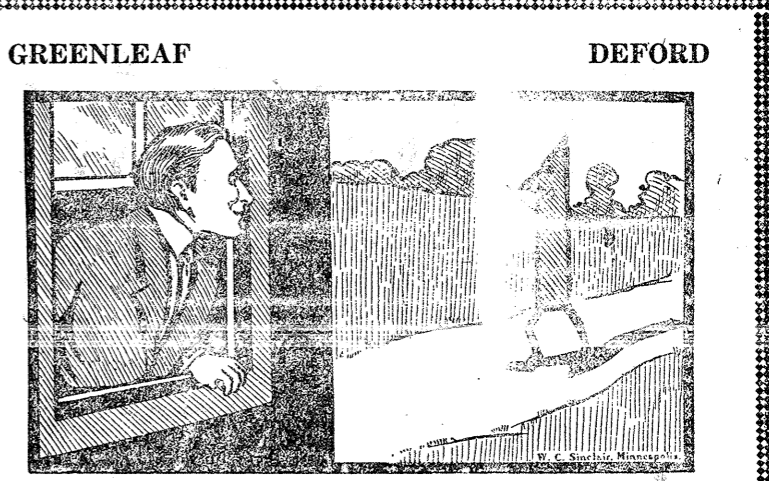

We can recall clearly what was said and done for more than fifty-five years. We remember at bees and raisings when the crowd would say, "that man is smart enough in other respects but he thinks that taking a drink is wrong. Yes, I see he is a fanatic." And now the thought comes to us that fanatics have increased in Michigan "till they are in the majority, and fanatics (as believed in time past) will soon be in the majority in our nation. We believe this is in a great measure due to the medical fraternity for when I was young, good people really believed that whiskey was a medicine. When the early settler built his log house he always set out a tansy bed—and tansy and whiskey were medicine for all ills. Our settlement in Michigan was near Utica which has had four distilleries and we have been there and brought home medicine for our settlement as they were able to buy—half gallon, gallon, or two gallons—sometimes 20 cents and never more than 25 cents per gallon, or could trade a bushel of corn for a gallon of whiskey clear as spring water. After a time the doctors said alcohol is not a medicine and because of its other bad conduct people began to think.

HIDDEN DANGERS
 Nature Gives Timely Warnings That No Cass City Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are weak. Well kidneys excrete a clear, amber fluid. Disordered kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.
DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, suggest weak kidneys and in that case warn you of the danger of dropsy, gravel and Bright's disease. Doan's Kidney Pills are endorsed by thousands. Here's Cass City proof:
 Mrs. Emma Murphy, West & Third Sts., Cass City, says: "I am very seldom without a box of Doan's Kidney Pills in our home, for they are the only remedy that gives me quick relief. Once in awhile, I am subject to spells of kidney trouble and my kidneys act irregularly. In a general way I feel depressed, but after I have taken Doan's Kidney Pills for a few days, I feel as well as ever. When I run out of this medicine I get more at Wood's & Co's Drug Store."
 Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Murphy uses. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv. 3

GREENLEAF

DEFORD

Are You Looking Out for No. 1?
 You ought to be. Do you know that every time you send out of town for Lumber or Building Material you're robbing the community of something that rightfully belongs to it?
 Your building material money spent here helps to build good roads, schools, churches, taxes, etc. Sent out of town, it is gone forever—you never get another whack at it.
 Your dollars spent here go from one merchant to another. The lumber dealer pays the grocer—the grocer pays the butcher—the butcher hands it to the hardware man—and finally it finds its way back to the farmer again to pay for his produce.
 That's looking out for No. 1. You are looking out for "the other fellow when you buy out of town"
 We can give you just as good stock and as good prices as any out of town concern, quality and freight charges considered.

EVEN PASTE COMES HIGH.
The Inlay City Times announces a raise in its advertising rates. Even the flour for making paste to stick on labels is out of sight in price. Read the advertisements.

SCHOOL NOTES.
Marion and Catherine Wallace have returned to school after a two weeks' absence on account of illness. Last Thursday, twenty-six in the sixth grade had perfect spelling lessons. There were only eight misspelled words in the room. Donald Seed is absent from school because of illness. The sixth grade have started the study of interest in arithmetic. Clifton Heller has been ill with bronchitis, but has returned to school. Gordon Bliss expects to sit up in a few weeks and the little tots are anxious to help him to school in his wheel chair. Children in the first and second grades have begun constructive work, relative to the reproduction of an Indian sand table, an Indian and Pilgrim village in connection with the story of Hiawatha which the second grade are reading. Rev. Zanders, pastor of the Baptist church, gave us an interesting lecture on the subject, "Know Thyself," "Control Thyself," and "Deny Thyself," taken from the sayings of Socrates, Plato and Christ. Because of the frozen condition of the field at Marlette last Friday, the foot ball game was postponed until Thanksgiving. Three years ago this month, the Class of '17 hung their black and gold banner while freshies. This custom has been carried out ever since, and we are glad to welcome the freshman's blue and gold banner. Joe Dickinson and Virginia Wisley attended the foot ball game at Ann Arbor last Saturday.

COLWOOD.
Mr. and Mrs. Warren McCreedy spent a part of last week visiting with Fairgrove relatives. Samuel McCreedy has purchased the Manville Adams eighty and intends moving on it at once. The Sunshine L. A. S. met with Mr. and Mrs. Clayton Hobart last Thursday for dinner. About 30 were present. Table collection was \$5.76. Mr. and Mrs. P. H. Muck, Miss Emma Muck and Mr. and Mrs. Elmer Conant attended the Hill revival meeting at Caro Sunday afternoon. Mr. and Mrs. C. D. Andrews entertained for dinner and supper Sunday. Mr. and Mrs. John McCarthy, Mr. and Mrs. Samuel McCreedy and

daughter, Margaret, Mrs. H. H. King and Geraldine. It was Mr. and Mrs. McCarthy's fourteenth wedding anniversary. Mr. and Mrs. Barney Perry, formerly of this place but now of Caro, are rejoicing over the arrival of a 9½ pound son, who was born Sunday, Nov. 19. A few of the Remington ladies' aid members met with Miss Maude Rutledge last Friday. They spent the day sewing and planning for their bazaar which they intend to hold in the near future at the Colwood Hall. At noon a fine pot luck dinner was served.

PINGREE.
Mrs. L. B. Stone of Lapeer is visiting her sister, Mrs. Fred White, and calling on relatives located in Cumber and this locality. Chas. Klinkman has gone to California to spend the winter with his

brother, John Klinkman, who has been a resident there for a number of years. Mr. and Mrs. Henry Klinkman have gone to Buffalo to visit relatives and old acquaintances for a few days. Mrs. Jud Vanallon of Alpena is the guest of her sister, Mrs. Geo. P. Dodge.

CHURCH NOTES.
Baptist Church—William F. Zander Pastor. Morning worship 10:30. Sunday School 11:45 with classes for all cordially invited.
