CASS CITY WINS COUNTY TRACK MEET

WALKER OF CASS CITY BREAKS CO. RECORD AND IS HIGH POINT WINNER.

Millington Defeats Locals in 4-3 Contest of 14 Innings Which Is Declared Best Game Ever.

in county track meets but her record cers to keep the crowds back from the at Caro on Friday, June 15, surpassed base lines were lacking. all others. Winning over 70 per cent of the total number of points, she took the lead from the first and be- START PLACING MACHINES fore the meet had proceeded far, her opponents had to concede that Cass City would land on top. Out of a total of 104 points, Cass City won 73, Cement Work Practically Completed; Vassar 20 and Caro 11.

Arthur Walker of Cass City was the highest point winner not only of his team but of all athletes competing. He has 181/4 points to his credit and the local schools also ranks high as an is fast nearing completion. Brick-

Miller of the Vassar schools established an excellent record for Freshmen in Friday's meet. He won one cing the 2,600 panes of glass used in first place, two seconds and one third, securing 12 of the 20 points credited to the Vassar schools. Freshmen of the local schools showed up well. Brooker was first in the pole vault; Colwell, second in the mile; and Gowen, third in the hundred yard and a participant in the relay race.

The following is a record of the various events and the winners:

100 Yard Dash—1st, Guinn, Cass

1½ in. 880 Yard Run—1st, Miller, Vassar; 2nd, Wood, Cass City; 3rd, Medcalf, Caro. Time 2:17 1-5.

Summary: Struck out by Torrey 12, Dickinson 9. Passed balls Champion 1, Graham 1. Base on balls, Torrey 1, Dickinson 1. Double plays—Doerr to Harris to Walters. Umpire, Helmar of Alma College. Scorekeeper, S. J. Edmunds of Caro. Time, 2 hours, 5 min-

County athletes are talking strongly of passing the meet around to different points in the county in the future. In these days of the automobile, Tindale.

the travel of a few miles more or less is not of much consequence and one town is reached almost as easily as

Caro evidenced comparatively little interest in Friday's meet. Participants in the jumps complained that the grass was so high in the runway that they had difficulty in locating the starting board until they were within a few feet of it and even the grass on the base ball diamond had not been cut. A short time before the game, Supt. Osgerby of the Vassar schools got hold of a scythe and cut the hay crop on the infield, swinging that implement in regular farmer style. Foul lines and base lines were not indicated, Cass City has often been victorious however, and ropes and sufficient offi-

IN MILK PLANT MONDAY

Bricklayers and Glaziers Busy on Building.

With all the re-inforced concrete work completed and 90 per cent of established a new county record in the all the cement work finished, the running high jump. Hazen Guinn of plant of the Hires Condensed Milk Co.

individual point winner. He has $16\frac{1}{4}$ layers are now approaching the home to his credit, having won three first stretch in placing the 100,000 brick places and participating in the relay. used in the structure. Steel sash are being placed in position as fast as possible which keep glaziers busy plathe building. Each pane is approximately 12 by 18 inches in size and a ton of putty is required to hold them in place.

> Doors of wood are being built and they are the only part of the building which is not fireproof. As these are covered by tin, they are made as near fire-proof as possible.

All the laboratory equipment and all the chemicals, sugar, etc., used in City; 2nd, Miller, Vassar; 3rd, Gowen, manufacture of condensed milk are Cass City. Time, :10 3-5.

THE SIGN OF THE RED CROSS

Millions and millions of stricken people in devastated Europe must depend on the activity of the Red Cross society alone for the most meager necessities of life-just enough to keep body and soul together. The Red Cross organization is the universal helping hand. But in order to extend this hand to the sorrowing and afflicted, it must have your support. In fact, if you would do your part to relieve the suffering in the world, you can do it most directly and efficiently through the Red Cross. Become a member today. Give one dollar-two dollars-five dollars-as

Get your Tennis Rackets at Wood's

Some one entered David Law's barn early Sunday morning and stole his Ford car, and when Mr. Law went after the machine about six o'clock that morning to start out on a trip, he found it missing. Tuesday morning, Mr. Law found the Ford near the plant of the Sioux City Seed and Nursery Co. As Mr. Law is the local manager of that company, the joy riders evidently thought he would soon discover the machine if it was left there; that is, if they were acquainted with the owner, and their actions in this regard would indicate that they were. A bent fender was the only damage done to the car. No arrests have been made as yet.

To get as much POWER as Studebaker offers in a Four at \$985, you must pay on the average \$2753. To get as much POWER in a six as the Studebaker Six at \$1250, costs on the average \$4078.

S a matter of fact, there are very few FOURS A on the market that equal the Studebaker Four in Power, just as there are but few Sixes that match in Power the Studebaker Six. And they are all very expensive, as the figures show.

In ratio to power, Studebaker is the most economical car made, because Studebakers are the lightest cars in the world in ratio to their power.

This lightness, together with the enduring strength that characterizes Studebakers, is the evolution of four years' intense study of the performance of hundreds of thousands of Studebakers in actual use under all sorts of service conditions. Let us show you some other points of Studebaker value. You owe it to yourself to know them before you buy.

> Studebaker Value may only be judged by comparing Studebakers with cars costing many hundreds of dollars more.

Mr. and Mrs. Joseph Frutchey and daughter, Irene, left Saturday on a motor trip to Fort Morgan, Colorado. day motored to Ubly and enjoyed a They expect to make the return trip to Cass City by rail and will either sell their automobile on arriving at Fort Morgan or ship it back home.

Miss Edna Colwell, who completed two year course at Albion College last week, left Albion Tuesday as a member of a jolly crowd of young lady students who journeyed to Lake Geneva, Wisconsin, for a ten day outing. Miss Colwell will teach in the Akron high school next year.

Harvey Dunham of Bay City and Miss Lillian Schneider, daughter of Mr. and Mrs. Daniel Schneider were united in marriage Saturday at the Presbyterian manse by Rev. J. W. Hamblin. Mr. and Mrs. Dunham left Saturday afternoon for Bay City where they will make their home.

"Cass City should adopt and enforce traffic rules on her streets at once," says a local business man. "Observation of motorists and others for the past week show many daily violations of the rules of the road and sooner or later a serious accident may happen that might have been avoided. The village council should set up 'keep to the right' traffic signs in our business section and instruct the marshal to enforce the legal rules of the road. It is no more trouble for the driver to keep on the proper side of the street boys. Best of wishes for all our Cass and by doing so he avoids accident to himself and others."

CHANGE IN LINE 130.

Farmers line number 130 has been divided. Nine more farmers have purchased an interest in the company. John Connell has been added to 130. His letter is K.

The following have been changed from 130 to 35. Their letters remain the same. Wm. Mudge, Geo. Palmer, Robert Craig, John Fox, Albert Kitch-

in, Robert McInnes (farm res.). The new ones added with their rings and letters are: Line 35-

Joe Towle and James Mudge have also been added to the company but have not yet installed their phones. Joe Towle at present occupies the Wm. Mudge house and uses his phone.

INDEPENDENCE DAY IN 1835

Revolutionary Officers and Soldiers Still Living and Taking Part in the Celebrations.

(From Files of New Hampshire Tele-graph, Nashua, N. H., 1835.) Revolutionary Soldiers: -The committee of arrangements for the celebration of the Fourth of July respectfully invite all the remaining officers and soldiers of the Revolution in this and the neighboring towns to join the citizens in celebrating the anniversary of our national independence on Saturday the Fourth of July next. They are requested to meet at the Washington house on the morning of said day.-Is-

sue, June 22, 1835. The presentation of a standard by the ladies of this community to the Nashua guards will add much to the interest of the coming celebration of the Fourth. We anticipate for those who take part an excellent and highly interesting celebration.

Its coming was welcomed with appropriate manifestations of joy and rejoicing through the medium of bells and cannon. The procession formed under direction of Capt. Thomas G. Buck, as chief marshal, with able assistants, at half-past ten on the green, near Tyler's Coffee house, and proceeded under escort of the Nashua guards commanded by Capt. Daniel M. Fisk, to the Oval, where the standard was presented by Miss Ann G. Smith, assisted by Misses Belinda Gibson and Sarah Knowlton, her aids. It was accepted by Ensign Sheldon.

Procession then moved to Rev. Mr. Nott's church. Order of exercises:

1. Select music, by the choir; 2, prayer by Rev. Mr. Pratt; 3, hymn, "My Country, 'Tis of Thee," etc., read by Rev. Mr. Emmons; 4, Declaration of Independence, by B. F. French, Esq.; 5, oration, by Jonathan Lewis Clark: 6, prayer, by Rev. Mr. McGee; 7, music, by the choir; 8, benediction, by Rev.

The procession was again formed and proceeded to the Washington house, where a splendid dinner was

Citizenship Imposes Duty.

Citizens of a free nation owe a duty, not only to their country and themselves, but to the whole world-to humanity. There is hardly a moment in the life of any man when some sacrifice for liberty and free government is not called for. This is as true in peace as in war. The lesson is being impressed on the national conscience today as it has not been before for many

A Trifling Affair.

A gentle sprinkle of rain dampened the ground and caused the plowman to leave his work. When his master saw him at home and learned the reason he advised him not to leave his work in future for such a trifling affair. "Wait till it rains downright."

A day or two later the plowman was caught in a heavy downpour, his clothes being well saturated when he

"Oh, my good man, you should have left sooner!'

"I should, but you said I was not to come before it rained downright, and it has not rained downright yet, for it was aslant all day."-Chicago News.

Cautioning Him. "Er-h'm-Mr. Pet," began the land-

lord of the Petunia tavern, addressing the Kansas City drummer, "I don't want to be personal, nor nuth'n' that-away. But if I was you, knowing what I know, I don't believe I'd try to get light and airy at the dinner table with that there new waitress-the hefty one with red hair. "It's all right with the other girls;

they are used to it and think it is cunning, but Clytie-her name is Clytie Crystabelle Scrodd-was r'ared in a different school of gastronomy, as it were. She has been for three years a waitress on a boarding car for a railroad construction gang, where everything was dreadful matter of fact. Why, yesterday, when a gent objected to the way his steak was cooked she deftly took it by the tail and slapped him in the face with it and went on out without skipping a note in her humming of 'Old Bill Bailey, With His Yew-kew-lay-lee!" -Kansas City Star.

The history of Abyssinia dates very far back. Before Christ the country formed part of the ancient country of Ethiopia. The queen of Sheba was an Abyssinian queen, and kings of Abyssinia claim descent from her.

Some idea of the great number of different races in Europe may be obtained from the fact that in that continent there are nearly 600 different languages spoken,

Cold Settled In His Back

"Foley Kidney Pills always give me prompt relief."-Ed Velton, Rogers, Nebr.

prompt relief."—Ed Velton, Rogers, Neb..

Ed Velton, of Rogers, Neb., writes:
"I have used Foley Kidney Pills for backache, the result of catching cold which settled in my back. Foley Kidney Pills always give me prompt relief and I can cheerfully recommend them."

The reason Foley Kidney Pills act so satisfactorily is because they neutralize and dissolve the poisonous waste matter that remains in the blood because the kidneys do not do their work properly in filtering and casting out from the system uric acid and other poisons.

Relief usually follows in a few days and such symptoms as pain in the sides or back, stiff joints, sore muscles, Frheumatism, too frequent action of the bladder at night, and other painful and annoying ailments disappear. Foley Kidney Pills contain no harmful ingredients. They are safe as well as quick acting.

This day only

SUNSHINE.

Mrs. Smith Luther made some calls in this neighborhood last Monday. Mrs. Austin Hobart and daughter,

Gladys, will visit at the Dosser home this week.

Mr. and Mrs. Maxwell of Flint were entertained for supper at the home of Robert McCreedy Sunday The six months old baby boy of

Mr. and Mrs. Fred Hutchinson died last Friday. They have the sympathy Mr. and Mrs. Burdette Webster and

daughter, Neva, of Grant visited Sunday at H. T. Pardo's.

The Children's Day program was fine. Each one did his part so well. There were ten small children christened Sunday at the church.

Continued from first page.

"Tonight I am sitting in a small un- heavy bed he lies on. derground cellar of a public building, acting as a sort of timekeeper for the beginning to break, and I hear the cars (ambulances) going up to our chief's car coming in from the sap,

ais head in a bucket of water. He turns to the wounded man, gently feels his nose, lifts up his closed eyelids, and at his nod the stretcher is again lifted and the wounded man is carried into the operating room, and soon after into the little room of sorrows.

"In answer to my eager question, the surgeon shakes his head. "'Not a chance.'

"A brancardier and I gather the soldier's belongings from his clothes to be sent to his wife, but even we have to stop for a few minutes after we see the photograph of his wife and their two little children.

'An hour later, as our night's work is slacking up and several cars have driven up and been unloaded, the infirmier comes in from the little room and says something to the brancardiers. Two of them get a stretcher, and in a moment the 'blesse from Belleville' comes past us with a sheet over him. They lay him down at the other end of the room and another brancardier begins rolling and tying him in burlap for burial. As I look he changes to a shapeless log. Then, out to the dead wagon with it.

"Soon after, I go into the little ward again to see how the others are coming through the night, and am glad the little German seems in less pain, though his breathing still shakes the

"Through a chink I see that day is

Proper Celebration of Anniversary of the Nation's Birth lips'.

When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have con-nected them with another and to assume among the Powers of the earth the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the sepa-

HUS wrote Thomas Jefferson for the Continental congress in the famous Declaration of Independ-It was signed at Independence hall, Philadelphia, July 4, 1776. With the pealing of old Liberty bell that summer day the birth of a new nation was announced. Like her sturdy sons, that nation was conceived in hardship. Her heritage of devotion to principle was the noblest gift brought by the Mayflower. Innate courage grew fearless in the face of constant danger, and her sons grew skillful by constant toil. They craved not courtier favors but demanded the right to develop to see them all quieted down. Even along the lines of a new democracy the nation then born. Contact with the wilderness had taught them that-

> 'Tis as easy to be heroes as to sit the idle Of legendary virtue carved upon our fathers' graves.

For them to be convinced was as though the thing had been decreed of God. They were convinced and they Meredith were callers in Argyle Sunproclaimed their birthright by declar-day. ing their independence and then fighting for it against one of the proudest, strongest nations of the earth.

Nation Wholly Worthy.

It was inevitable that such a beginning should produce a nation of stalness they made up in manliness. De- of school at that place. votion to principle left no room for compromise with policy. The result was a people chosen by fitness for great place in the economy of the world's progress.

At this season we celebrate the anniversary of the nation's birth. The 140 anniversaries since then have not all been to our credit. We have turned from the serious to the frivolous, the national birthday has become a carnival. In the name of patriotism all kinds of follies have been permitted. Instead of real honor to the nation the day has been made an occasion for gain. People have made for themselves hardship in a vain attempt to have nore noise than their neighbors make.

Fitting Celebrations. But we rejoice in the change to be noticed in the way of observing the nation's birthday. People are beginning to see that noise is not patriotic and that the youth of the present need In most of the large cities men of prominence and foresight are arranging for public games. What could be there is no day better than July 4 for arousing the latent strength of manhood or exhibiting what is already de-

A REAL EXPLORER

First Woman to Visit Parts of Amazon Wilds.

Making Her Home Among the Paraphernalia of a Scientific Journey, Mrs. Rice Accompanied Her Distinguished Husband Through South America,

With a homemade wireless outfit in the primeval forests of the interior of South America, thousands of miles from home, the party which accompanied Dr. and Mrs. Alexander Hamilton Rice on their recent exploration were in constant touch with this country and the news of the world as the United States entered the war against Germany.

The Rice party returned recently

Photo by American Press Association. MRS. ALEXANDER H. RICE.

made wireless apparatus," said Dr. Rice, describing his adventures, "constructed by a man who had been in Brazil and knew the requirements. And it was simply wonderful to be able to be in those primeval forests thousands of miles away and receive from the Arlington station the tickings. that spelled so much for science.

"After New Year's day we started back from the first stage of the trip which took us 2,100 miles up the Amazon river to Iquitos, Peru, which is 1,100 miles farther than Commodore Benedict took his yacht, the Oneida, several years ago.

"We started back, stopping at Manaos, a thousand miles from the mouth of the Amazon. Leaving the Alberta at Manaos, we went on our tour of exploration up the Rio Negro in a forty foot launch especially constructed for

who ever penetrated that almost inaccessible region of the South American continent. She bore the hardships and dangers of the expedition most courageously and was received with a respect bordering upon worship by the native women. They knew me from my previous trips there during the fifteen years of exploration which I have spent in those regions and were untiring in their efforts to lend every assistance in their power. I speak their language, Tupi Guarani, which is the vernacular Indian means of communication throughout Brazil from Paraguay to Venezuela.

"These Indians are a very hospitable and intelligent people. They would not accept money, but we brought them many presents of knives, fishhooks, jewelry, machetes, looking glasses and beads and left them a goodly store of medicines, with instructions how to use them.

"One of the purposes of our expedition was to make a good hydrographic and geological map of the Rio Negro, to link up the work on which I have been engaged so many years-the mak. ing of a map of the northwest Amazon valley. Another purpose was to test the practicability of determining the difference of longitude by wireless telegraphy. To accomplish this we'employed the Arlington station's signals, using Washington as the primary meridian, being thus enabled to check up secondary and tertiary meridians."

Mrs. Rice was the widow of George D. Widener, who perished on the Lusi-

Summer Hats.

The larger brimmed hats will certainly make their charming appearance as the summer days approach and Old Sol's rays threaten feminine complexions. And as the hats widen they will assume a much flatter outline. Some designers have shown the Watteau shepherdess hat for summer, that having the very bewitching turned up

How About That Hog House?

EVERY farmer who goes into the hog business right makes good money.

No farmer makes the maximum profit on his farm unless he raises hogs. And there never was a time when hog raising was so profitable as right now.

To go into the business right you need first of all a good hog house-you must give brood sows and young pigs the best possible protection from extreme heat and cold.

Come in and talk over hog houses with us—or let us come and talk to you. We have complete, practical working plans for the hog houses shown here, and will gladly give you prices on them.

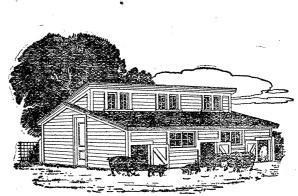

We also have plans for a number of other farm buildings. Whatever you are going to build this year, we can help you. We are better equipped than ever to serve you-and our service is free.

To get the greatest value for your money use White Pine for the outside of every building you build. It lasts longer, when exposed to the weather than any other wood, and does not warp, twist, split or open at the joints.

DRAFT EXEMPTIONS.

According to the Washington correspondents, the machinery for carrying out the terms of the Draft Act is not yet complete. The rules governing exemptions are now being framed. But the general principles which will govern, writes David Lawrence in the New York Evening Post, may be stated as follows:

"(1.) The individual will not be required to make a plea for exemption if his name is drawn in the drafting \$40,000. If an employer considers that the services of an employee are indispensable to the successful conduct of his business, he will be given for the first ten kilowatts and 8 cents an opportunity to say so under oath. for all above ten. The above change But the point of view will not be the was necessary because of increase in advantage or disadvantage to private the cost of coal and supplies which are business, but to the Government and the national defense. Enterprises in now over 100 per cent higher than a no way related to the national defense year ago. and the war will find it more difficult to get their men exempt than those immediately connected with the manufacture of supplies or agriculture.

will not be permitted to pass on in- along as rapidly as possible so that it dustrial or agricultural exemptions, but upon the question of dependent will be ready as soon as relatives and whether the individual self is ready to deliver t is or is not an official of the executive, "juice" for illumination. egislative or judicial branches of the state or national governments. They will examine for serious physical disabilities, but a second examination card dated in 1911, addressed to a lady will be given on entrance to the ar- in Chelsca, Mich. He left it at the

my itself.
"(3.) The Federal Review Boards, about fifty in all, will travel through several judicial districts of the United States and hear and examine the card. He received a letter dated applicants for exemptions. The composition of the Federal Review Board s one of the most important things on which the special committee in the engineer or technical man, a leading during the storm.—Imlay City Record. business man, and a lawyer, and possibly a labor representative, all to be ty by the Federal judges."

In a statement issued by the Govormation on June 7 we read:

"Two facts appear from the early egistration figures, although complete

until the President has promulgated the regulations covering exemptions.
"The general plan for the exemption

machinery in connection with the further operation of the selective law is as follows: There will be a local expointing these boards rests with the that a general plan for their selection has been outlined by the President. tion depends only upon the determinaa man is a Federal. State, or judicial Horses from 22 states will be there. officer; whether he is a clergyman, or whether he comes in any other way within any classification for which exemption is specifically provided in the

"In each Federal Federal district there will be at least one board of review, which appeal may be taken from local her home in Novesta Monday. which will have also original jurisdiction in the exclusion or discharge from the selective draft 'persons engaged in industry, including agriculture, found to be necessary to the mainterance of the military establishment or the effective operation of the military forces, or the maintenance of national interests during the emergencies.'

It will take weeks, if not months, the correspondents tell us, to analyse. summarize, and classify the cards which were filled out on June 5, and it may be late in the fall before the War Department will be able to call up the first draft of men for training.
