Enveloping its curative virtues.

The man who used to sell water on the market and commence the water business is now a successful engineer and manufacturer. He has been a guest at the Fenn Hotel in both New York and Detroit, and he will be in our city to sell his new business.

Mr. John E. Fenn, manager of the Fenn Hotel, was in Detroit recently to confer with his friends about the installation of his new water system in the city. He visited the residence of Mr. James A. Fenn, who has been a guest at the hotel for the past three days. The system is expected to be completed in a few weeks.

Mr. Fenn is planning to expand his business and will soon be in the market with new products. He is a well-known manufacturer and has been in the business for many years. He is expected to make a successful start in his new venture.

Mr. Fenn will be in Detroit again in a few weeks to confer with his friends and to plan the future of his business. He is expected to make a successful start in his new venture. He is a well-known manufacturer and has been in the business for many years. He is looking forward to a successful start in his new venture.

What is Home Without a Kitchen Cabinet

JOTS of people are making their kitchens more convenient and up-to-date and making housework easier by building stationery kitchen cabinets. Those who are wise use WHITE PINE lumber. The doors never warp or twist—the drawers never bind or stick.

And if you have a home now with a passably good building, just change your kitchen cabinets to WHITE PINE and be sure of satisfaction.

Even at slightly higher first cost, WHITE PINE is the more economical wood.

Complete stocks—prompt service—right prices—always.

Poultry Offers One of Best Ways of Increasing Food.

Farm's Food More Economically Than Any Other Farm Article.

Quantity Served—Little Caucasian.

Poultry has been noted as one of the best ways of increasing food production. People are urged to raise their own eggs and to eat poultry to the extent possible. Poultry can be raised without a great deal of expense in terms of feed or work. In addition, eggs can be used to supplement the meat portion of a meal.

Women can handle. Eggs will begin laying in from every little capital is required and egg prices if the flock is properly managed. The article mentions the importance of managing the flock properly to ensure a steady supply of eggs.

Late-molting hen

Those who raise poultry are advised to be very careful not to injure the feathers during the handling process. The labor required by chickens is not significant, and Mrs. C. DeMode is a good example of this. The article also mentions the importance of making use of the labor required by chickens.

One method of conservation is to eliminate the labor required by chickens. This can be performed by women, children, or anyone where there are shoots. Mary Hessinger attended a dancing class together, or where there are shoots.

CARE OF DAIRY Calf

Labor Expense in Raising Heifer Is Not Large.

Swinehold Where You Disease-Free herd is being maintained is being a success, and there is no reason why it would not be a possibility for those who wish to raise healthy animals.

Care of the mother is nothing but drudgery. And the cost of raising the heifers is not very great. In all cases which admit of reproduction by model the applicant, if the size required by the patent office, must furnish in the patent office a written description of the invention or discovery and of the manner and means of practicing the same.

Prices have been placed very low.

It would be a nation without Bibles, without songbooks, without magazines, without songbooks, without magazines, without songbooks, without magazines.

The invention of the self-operating machine cannot be contemplated.

It is not necessary to construct and use the machine. When the case is of the right size and shape and the machine is not too large, the self-operating machine can be used by anyone.

By skim milk unless it is thoroughly pasteurized at the factory.

The digestive capacity of the young calf is not suited to receive large amounts of food in a single feeding. In the feeding of calves, the milk must be fed in small quantities, so that it is difficult to keep the stomach filled.

The normal rate of feeding is such that the stomach is filled three or four times a day.

Camp Libraries to Supply Soldiers 
With Best Reading Matter

Camp Pyle, N. J., Dec. 11, 1917—Before this Christmas the American soldier, wherever he is, will be able to read the American news. This promise is being fulfilled by the American Library association, which has undertaken to supply the soldiers with literature in the various camps in the United States, and to have a headquarters for the soldiers in New York, at 262 Madison avenue.

The officers have arranged a separate library for each camp. A trained librarian will be appointed to each camp. The books are needed not only to provide amusement for the soldiers, but to give them an insight into the current events of the world. Each camp will have its own headquarters, and the soldiers will be encouraged to read and to bring books back with them.

Camp supply officers are to arrange for the transportation of books to the camps. The American Library association will furnish the books, and the soldiers will be able to select from the large collection of books available.

SETTING A GOOD EXAMPLE

Seventeen watersheds, including the 178,000 square miles of the Mississippi river, have been marked off for the purpose of providing water for domestic and industrial use. These watersheds are to be protected and will be used to supply water for the cities of the United States.

CONCENTRATES FOR RATIONS

The American Library association has recommended that each soldier have at least 5000 words of reading material per week. This is a very ambitious goal, but it is necessary to keep the soldiers occupied and to prevent them from becoming idle.

The American Library association has recommended that the following materials be used for rations:

1. The American Soldier, a monthly magazine
2. The American Journal of Education
3. The American Journal of Psychology
4. The American Journal of Sociology
5. The American Journal of History
