### BEEF GROWERS INSIST ON \$10.

Committee Will Negotiate with U. S. to Obtain Adequate Price.

Resolutions were adopted at the convention of the Michigan Beet Growers' association at Saginaw Friday declaring the willingness of growers to go the limit of acreage for the season.

The resolutions stated that sugar beets in Michigan cannot be produced at a minimum less than \$10 per ton, and recognizing the necessity of an adequate sugar price, the growers recommended the selection of a committee of seven sugar beet growers to negotiate with the United States food administration and manufacturers of sugar, to decide upon adequate basic prices for sugar and sugar beets.

The committee was authorized to act immediately, and sugar beet contracts will be deferred until the matter is determined, if possible by Feb. 1.

### SHOULD BE NO LET-UP IN CORDWOOD CUTTING

Foresighted farmers who have woodlots capable of supplying cordwood should take time by the forelock, in the opinion of A. K. Chittenden, head of the department of forestry at M. A. C., and make ready now to meet 1919's fuel demands.

"The unusually heavy drain this season upon the available supply of dry cordwood means that much of this will be cleaned up this winter," says Professor Chittenden, "and if events follow their wonted course, this will bring about a shortage in 1919. Men who have woodlots from which cordwood can be obtained, and who have as well the labor necessary for cutting it, would do well to get out as large a supply as possible now. This green wood, if dried during the coming year, will stand the state in good stead in 1919."

We ask the milk producers not to forget the fact that this company made high prices in this territory, and we are maintaining the highest possible prices right along. The above prices are THE HIGHEST PRICES EVER PAID FOR MILK IN THE STATE OF MICHIGAN. There is no competition in either butter or cheese prices that can possibly keep up the pace with the price that we are paying and will pay at our condensary.

Give us the credit for the high price of milk. IT BELONGS TO US. We have made it so. We are the Pathfinders and the Pace Makers.
