"WE WON'T WIN IF WE WASTE" Tested Wartime Recipes FOR USE IN MICHIGAN (Clip and save these recipes for future reference.)

- Sensible, Economic, Patriotic. If you are sensible, you are giving your family plenty of mineral salts. If you are economical, you are giving them to your family by serving fruits and vegetables every day. This is much cheaper than buying patent medicines. If you are patriotic, you are eating twice as many vegetables as you used to, and less meat and bread. Follow these recipes, and serve meals that are sensible, economical and patriotic. Suggestions for Preparation and Cooking Vegetables. 1. Pare thinly or not at all until after they are cooked, thus saving mineral matter and often 15% to 20% of the whole vegetable. 2. Allow one teaspoon salt to one quart of water. 3. Use enough water to cover vegetables but no more than is necessary. 4. Cook highly flavored vegetables uncovered. 5. Cook all fresh vegetables in boiling water. 6. Prevent loss of food value by steaming vegetables. 7. Save water from boiled vegetables for soups and gravies. 8. It should be remembered that all boiled vegetables may be served with white sauce. The sauce will add much to the nutritive value as well as the variety of the day's menu. White Sauce (Medium). 2 T fat, (butter, oleo, etc.) 2 T flour or 1 T corn starch 1/2 C milk 1/2 t salt 1/8 t pepper Melt the butter, add the flour, salt, pepper, and stir until mixture is smooth. Add milk. Stir sauce until it thickens. Cook five minutes. Eggs, beans, lentils and peanuts can be used as meat-savers but should be supplemented by milk, eggs and cheese. Vegetable Substitutes for Breads. Potatoes, sweet potatoes and bananas should be used as cereal-savers. A small potato supplies as much starch as a large slice of bread. It contains rather less protein but this can be made up by some other article of diet such as milk, eggs or cheese. All ripe fruits, and such vegetables as beets, carrots, turnips and sweet potatoes are valuable sources of sugars—sugars in a form which is particularly available for body needs. Vegetable Substitutes for Meat. Mock Sausage. 1/2 cup dried or 1 cup canned Lima beans 2-3 cup bread crumbs 3 tablespoons fat 1 egg 1/2 teaspoon pepper 1/2 to 3/4 teaspoon sage 1/2 teaspoon salt Cook beans, if dried are used, 1 1/2 hours. Put beans through strainer. Add other ingredients. Shape into form of sausage. Roll in crumbs (or egg and crumbs). Brown in fat. (Bacon fat or meat drippings give a meaty taste, but vegetable fats may well be used.) Tomato-Nut Loaf. 1 cup chopped nut meats 1 cup cooked rice 1 cup tomato pulp 1/2 teaspoon salt 1 egg 1/2 teaspoon pepper 1 tablespoon chopped onion Mix ingredients. Celery, salt or sage may be added in small amounts. Shape into loaf and bake in a moderate oven for about 30 minutes. This serves 6 or 8. Serve with a white sauce, or tomato sauce, well seasoned. Vegetable-Meat Loaf. 1/2 lb beef 1 cup cooked lentils, beans, peas, or rice 1 egg 1/4 cup milk 1/2 cup bread crumbs 1/4 onion 1/4 cup chopped nuts (if desired) 3 tablespoons fat Mix ingredients thoroughly, shape into loaf, place in greased pan, dredge with flour. Bake 30 minutes if cooked meat is used; bake about one hour if raw meat is used, basting occasionally. Raw Cabbage. Serve raw cabbage often. It is especially rich in mineral salts. You can get it all winter, if you try. Cold Slaw. Chop, grind or slice cabbage very thin. Season with salt and pepper. Add sugar and vinegar. Cabbage Salad. Chop, grind or slice cabbage very thin. Season with salt and pepper. Mix with boiled salad dressing or sour cream salad dressing. Ground, salted peanuts make an excellent addition. Sour Cream Salad Dressing. 1 C sour cream 2 T lemon juice 2 T vinegar 1 T sugar (scant) 1 t salt 1/4 t pepper 1 t mustard (mixed) A Dozen Ways of Serving Potatoes. 1. Creamed 2. Escalloped 3. Croquettes 4. Souffle 5. Potato and Cheese Puff 6. Potato and Peanut Puff 7. Potato Stuffing for Fowl 8. Potato Salad 9. Hot Potato Salad 10. Cream of Potato Soup 11. Potato and Celery Hash 12. Mashed potato crust instead of dough for meat pies. Potatoes and Cheese Puff. 1 cup mashed potato 1/4 cup milk 1/2 teaspoon salt 1 egg 1/2 cup grated cheese Beat milk into potato, add beaten egg and salt, and gradually stir in grated cheese. Bake in buttered muffin tins or ramekins in a slow oven. NOTE—In all of these recipes all measurements are level, and T equals tablespoon, C equals cup, t equals few grains, f. d. equals few drops.

INSTANT ACTION SURPRISES MANY HERE

This grocer's story surprises local people: "I had had stomach trouble. All food seemed to sour and form gas. Was always constipated. Nothing helped until I tried buckhorn bark, glycerine, etc., as mixed in Adler-Ika. ONE SPOONFUL astonished me with its INSTANT action." Because Adler-Ika flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. G. H. Burke, druggist.—Adv. 5. Notice is hereby given that you can register with Clerk of Elkland Township who will be at his office at Greenhouse on the following days for the purpose of reviewing the registration and registering such of the qualified electors as shall appear and apply therefore: on Saturday, the 9th day of March 1918, 8 a. m. to 8 p. m.; on Saturday, the 16th day of March 1918, 8 a. m. to 8 p. m. Sec. 3 of chapter 3, page 229, Act 126, Pub. Act 1917. Sec. 3. In every township and city the clerk thereof shall be at his office, or in some other convenient place therein (which place shall be designated by the township clerk or the city clerk, as the case may be), on the fourth and third Saturdays preceding any election or official primary election in said township or city, and on such other days prior to said third Saturday as shall be designated by the township board or legislative body of said city not exceeding five days in all, for the purpose of reviewing the registration and registering such of the qualified electors of said township or city as shall appear and apply therefor. Each said clerk shall be at the place designated at the hour of eight o'clock a. m., and there remain until the hour of eight o'clock p. m., of each said day. The clerk shall give at least one week's public notice of the days that he will be at his office, or other convenient place, designating it, for the purpose aforesaid, specifying the hours of each day as required by the provisions of this section. We Recommend Ralston Shoes for Men

We are always glad to sell RALSTON SHOES because we know that they surely mean a satisfied customer and satisfied customers are our best advertisement.

Ralston styles please, because while thoroughly up to the minute in every way, they have the added advantage of good fit.

The Ralston makers lay more emphasis upon this quality of fit than any others we know. "This must fit," is the stipulation in designing the new styles and they certainly do fit.

Let us show them to you.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. Hats for Early Spring—Or Now.

We used to wait for the arrival of spring or for signs that it was within hailing distance before we clothed our heads in hats that take no thought of winter, even in below-zero weather.

Here are three of these smart hats that are minded to turn their allegiance from winter to spring and pin their faith to its coming soon.

Braids that have heretofore been used for spring-summer hats are brought into service for the demiseason by covering them with a hard lacquer which gives them a high, hard luster or polish.

that is millinery patent leather in the form of braid or of millinery braids lacquered or varnished into the most lustrous surfaces.

Neutral colors are so popular at present that the brunette who took joy in the bright shades that were made for her peach-bloom cheeks feels somewhat slighted.

There is much talk about the coat dress for spring, the strictly tailored suit being somewhat passe.

SOLDIER BOYS' LETTERS

From Eldon Lamb. Columbus, Ohio, March 2, 1918. March 2, 1918.

Dear Mother: I just received your letter and was sure glad to hear from home. I feel good and am weighing more already.

Tonight a fellow by the name of Laurence Hoff from Cleveland, Ohio, and I are going to the Broad street church. You can see the people who do the playing. I am all through working in the kitchen.

Tell Randal I'll write to him next. Your letters are surely nice. All of the fellows are nearly crazy if they don't get a letter at least twice a week.

I hope Dad feels better this week. We can't feel sick here. They look after us too closely.

We had a fire the other night in our barracks. It didn't get a chance of a start. The fire guard sent the alarm in and was all over in about five minutes.

I belong to Company 10, Army Y. M. C. A., Box 238, Columbus Barracks, Ohio.

Camp Merritt, N. J., Mar. 1, 1918. Dear Folks at Home: Just a few words to let you know that I am well and enjoyed a nice trip across the states from Camp Pike to Camp Merritt, New Jersey.

Methodist Episcopal—Rev. J. D. Young, the pastor, will occupy the pulpit morning and evening. Communion service in the morning.

Christian Science—Services are held every Sunday morning at 11:00 and Wednesday evening at 7:30.

War Bread. By Dr. Samuel G. Dixon, Commissioner of Health of Pennsylvania.

Facing the great economies that must be practiced in the time of war and in the future as the population increases and the natural productions of the earth become depleted, it will be necessary for us to adjust what we have in the way of essentials.

It therefore becomes important to know what combinations can be made and the relative food value of such combinations with our standard food-stuffs.

They use corn flour, which heretofore has been almost unknown in our domestic bakeries, and it would seem to open the way for a very large saving of our wheat flour.

Reports made by the federal children's bureau show that the chances for life of a baby grow appallingly less as the father's earnings grow smaller.

Life of a Baby Depends On Care and Decent Home Conditions Given Mother

Reports made by the federal children's bureau show that the chances for life of a baby grow appallingly less as the father's earnings grow smaller.

Here are some of the statistics: One-fourth of all the fathers earned less than \$550 a year. It was found that in such families one baby in every six died.

The final deduction seems to be embodied in these words: "These studies show that to provide mothers' care and decent home conditions, the fathers must have adequate incomes.
