

## WAR SAVINGS STAMP CAMPAIGN IS ON

FINE SPIRITED MEETING HELD TUESDAY EVENING IN THIS CITY.

Speaker Advocates More Emphasis on Syllable "Pay" in the Word "Patriotism."

The War Savings Stamp campaign received a fine send-off in this city Tuesday evening when local and outside speakers gave splendid addresses at the opera house, with F. A. Bigelow presiding as chairman.

Rev. W. F. Zander, pastor of the local Baptist church, was the first speaker and placed the responsibility of the war upon the German Kaiser. He pointed out the need for quick action and the necessity of our people to sacrifice in order to back up the boys who have gone across.

Rev. Hartley Cansfield of Caro, chairman of the county speakers bureau, spoke briefly regarding the W. S. S. campaign.

Dr. Frederick Spence of Saginaw was the evening's headliner and his address is pronounced as ranking among the best patriotic speeches ever given here. He went straight to the heart of the issues for which America is battling and made a powerful appeal to the men and women of America to meet their responsibility to the country and to the world. Patriotism means sacrifice, the speaker said, and advocated more emphasis on the syllable "pay" in the word "patriotism". It was a very forceful appeal.

The musical program was unusually attractive. Miss Marie Gemmill gave a vocal solo that was well received and James Yakes and Mrs. Chas. Day sang a duet and responded to an encore. Mr. Church of Fostoria has been contributing his services as vocalist throughout the county in this campaign. He sang several solos, which met with vigorous applause. He also led the audience in the singing of "America" and the "Star Spangled Banner." The Cass City Band contributed several selections at the opening of the program and earlier in the evening the Home Guards gave an exhibition drill.

## LOCAL MASONS HONOR DEPARTING BROTHERS

Lieut. I. D. McCoy and Rev. J. W. Hamblin Are Presented with Remembrances.

Following the exemplification of the initiatory degree at Tyler Lodge, F. A. M., Monday evening, the members in attendance numbering about 50, adjourned to the dining room where a light luncheon was served. After the cigars, Chas. Travis called the craft to order and introduced Rev. J. W. Hamblin as the first speaker. Mr. Hamblin, who closes his pastorate here next Sunday and leaves for Santa Fe, New Mexico, to preach in the First Presbyterian church in that city, spoke of the pleasant associations in Cass City and the many happy occasions enjoyed with members of the fraternity here. In closing, he presented Dr. I. D. McCoy with a beautiful Masonic ring as a remembrance from the members of Tyler Lodge. Dr. McCoy responded in a happy vein and in his address related an incident at the beginning of his Masonic career which brought down the house. The doctor and Mrs. McCoy and little son left Cass City Wednesday morning to visit at the McCoy parental home in Emlenton, Pa., and next week he will enter the Medical Officers' Reserve Corps, having recently received his commission as First Lieutenant.

Following Lieut. McCoy's response, Mr. Travis again took the floor and in a neat little speech presented Rev. Hamblin with a gold Waldemar chain and knife.

Fred Striffler and B. S. Ransford, members of the Caro Masonic lodge, were present and brought the delightful session to a close with short speeches.

## DON'T SHOOT PIGEONS THEY MAY BE MESSENGERS

The U. S. Department of Agriculture urges hunters not to shoot pigeons in air, for they may be homing pigeons being trained in many sections by the Signal Corps of the United States Army, to carry messages across battlefields. Farmers and other breeders who allow their birds a few hours of liberty each day are liable to loss from shooting.

Make every day a thrift day and help your Government end the war days.

## WHEN PEOPLE CRITICIZE DRIVE THESE FACTS HOME

Some folks criticize the policy of going to the people of Michigan for \$70,000,000 in War Savings pledges on the heels of the Third Liberty Loan and Red Cross drives.

Drive these facts home:

1. The Government has already spent the entire proceeds of the Third Liberty Loan. In fact, the loan was largely spent in advance by temporary borrowing by certificates of indebtedness sold to banks.

2. The June income and corporation taxes have also been spent in advance.

3. In July certificates of indebtedness will be sold in anticipation of the Fourth Liberty Loan. In other words, Uncle Sam is borrowing money to tide him over until pay-day.

4. It is absolutely necessary to get this \$2,000,000,000, which the Government is depending upon from War Stamps.

5. This is War! War is hell! And there is no reason why the soldiers should get all the hell.

## REASONS FOR THE WAR SAVINGS PLEDGES

This Is a War of Nations and Everyone in Land Must Do His Share.

During the present intensive War Savings campaign we are asked by the President and by Secretary McAdoo to pledge ourselves to save and with our savings to buy at definite times a specific amount of War Savings Stamps. Why should we be called upon to do this and why should we do it?

We are called up to do it because, as President Wilson says, this is a war of nations, not of armies, and everyone in the land must do his share. So far more than 2,000,000 men have gone into the Army and Navy and 1,000,000 more are to join before August 1. These 3,000,000 men give themselves as their donation to the war. The remaining 97,000,000 people left at home must give something else as their share.

This savings pledge gives the stay-at-homes an opportunity for service. We are asked to pledge ourselves to save and economize, to use labor and materials only as necessity demands, and to invest our savings in War Savings Stamps.

The Government asks us to do this because the amount of labor and materials in the country is limited; there is not enough of either to permit us to use it in the same free way as we did in peace times and at the same time to leave enough in the markets for the use of the Government. It is purely a question of supply and demand. If we use the supply the Government does not have it for war needs. And the smaller the amount the Government has for use the longer will the war last. That is the primary reason for the savings campaign.

But there is another side to the question. The Government asks us to pledge ourselves to save to help win the war. It does not ask us to give it anything except our co-operation. In return for our help we receive a Government security which pays us a good rate of interest.

If we do as the Government asks, and as we should, this, then, will be the result: (1) We shall buy only those things necessary to maintain us in the best of health and spirits; (2) by refraining from buying unnecessary things we shall leave in the markets for Government use a greater supply of labor and material with which to win a quicker victory; (3) by not frittering our money away on things that do not make for efficiency we shall keep ourselves in better health and increase our powers of production; (4) by investing our savings in War Savings Stamps we shall be putting aside for those days which inevitably come, if we live long enough, the means to greater happiness.

When so much can be accomplished by joining in this War Savings campaign, why should we not do it?

## CHILD BURNS TO DEATH

Beet Family's Home Near Unionville Destroyed.

The family of Andy Huber, who attends the beet fields of Ernest Luther, Louis Kimmerly and Allie Loomis had the misfortune to lose their home by fire Wednesday morning during the high wind and lost all the contents. But worse than all, they lost their four months old baby boy which they usually take to the fields and kept in a tent and hammock. It being so cold Wednesday they left it at home with the eleven year old boy. The fire started in the upper part and had such a start before it was discovered the ceiling fell on the baby. Its little charred torso was found among the twisted iron of the baby buggy—Unionville Crescent.

## ENCAMPMENT WAS THOROUGHLY ENJOYED

HOME GUARD MEMBERS HAVE BIG TIME AT POINTE AUX BARQUES.

Cass City Band Accompanied Company and Gave Musical Program Sunday P. M.

The people of Cass City had an opportunity Sunday morning of observing how troops are moved. Promptly at 6:30 the big Republic truck from the Condensary drove up in front of the Home Guard Armory at the Town Hall to load tents and equipment for a three-day encampment at Pointe aux Barques. While the truck was being loaded, the cars to take the Guards were beginning to assemble. By the time each car had been filled with gasoline and oil, the company was ready to start.

A short stop was made in Bad Axe to load additional supplies. The last lap of the trip was made in good time, Lts. Heller and Farrell and 1st Sgt. Spittler leading the way in order to stake out the camping grounds before the arrival of the supply trucks. Within 30 minutes of the arrival of the trucks and the main body of the company, every tent was in place and dinner was being prepared under the supervision of Quarter-master Sergeant Karr.

Before mess the Company fell in and Capt. Kaiser assigned each man to his tent. 1st Sgt. Spittler read the details for police and guard duty.

In the afternoon, the Cass City Band who accompanied the Guards on Sunday, rendered a musical program for the benefit of the Company and camp visitors. At five o'clock assembly was again blown and the Company fell in for a short drill followed by "Retreat" and "To the Colors" at 5:30. Evening mess was at six o'clock and from then until 9:30 every man was free to go where he wished. At 10 o'clock "Taps" was sounded and everyone had to be in bed with all lights out except those on guard duty.

Monday morning saw the real start of the work. The following schedule of calls shows how near the boys were to army life: First call 5:30 a. m.; assembly 5:45, reveille 6:00, mess call 6:15, police call 7:00, drill 7:15, recall 9:30, parade 10:00, mess 11:30, drill 1:00 p. m., recall 3:30, retreat 5:00, mess 6:00, call to quarters 9:30, taps 10:00.

Capt. Kaiser gave the boys some hard drilling Monday and "Recall" came only too soon even though the men were tired. After morning parade the Company visited the Coast Guard Station where Capt. McVickers and his men gave an exhibition drill showing how they fire a line to a stranded ship and rescue the passengers by means of the breeches-buoy.

Noon mess was a decided success. Every man was hungry enough to eat a "raw dog." However, Chief Cook Schneider furnished a more palatable repast than that and every man landed at the mess tent for "seconds" before they were filled to the brim.

Afternoon drill consisted of skirmish drill and a sham battle and after "Retreat" at 5:00 p. m., the day's work was over.

Tuesday morning the same program was repeated with the exception that the Coast Guards gave a boat drill and showed how drowning persons were revived.

After noon mess camp was broken and by two o'clock the equipment had been loaded, the grounds cleaned up and the company had left. Every member of the Company had the time of their lives and feel that the trip was a decided success.

The officers and members of the Company feel that much of the success of the encampment was due to the fine treatment given them by Supt. Brown of the Pointe aux Barques association and Capt. McVickers and the men of the Coast Guard. They wish to thank Supt. Brown for the use of the grounds and other privileges and the Coast Guards for their interesting drills and their many other courtesies.

## LUTHERAN SYNOD PLEDGES LOYALTY

Loyalty was the sentiment of 100,000 Lutherans, claiming 30,000 votes, as voiced in the convention in the following pledge to President Wilson by the Evangelical Lutheran Synod of Missouri, Ohio and other states at Bay City June 19:

"We hereby affirm our loyalty to the government of the United States. We pledge our whole-hearted and undivided support to the government in its supreme hour of need. We abhor with all our heart every kind of autocracy with its inevitable accompaniment of junkerism and militarism."

## BOY SCOUTS RE-ORGANIZE.

Twelve boys met in the basement of the M. E. church last Friday evening and began the organization of a local troop of the Boy Scouts of America. They were under the charge of Rev. J. D. Young, who was assisted by Roy J. Striffler.

A second meeting was held Monday of which Roy Striffler had charge, owing to Mr. Young's absence. A school of instruction for the Tenderfoot examination was held. Among the things studied were: Scout law, history and composition of the national flag and forms of respect due to it, and the tying of practiced knots. Following this the boys engaged in a Cock fight and adjourned.

Manuals have been ordered so that the boys can begin work as soon as possible. The next meeting will be held Monday, July 1st, at 7:45 in the basement of the church. All boys over twelve years of age are invited.

## BROODING OVER WAR, ATTEMPTS OWN LIFE

Otto Kippen, an Argyle Farmer, Tried to Commit Suicide Last Thursday.

Brooding over the war causing his mind to become deranged, Otto Kippen, a German, living mile south and two and half miles east of Argyle, tried to commit suicide late last Thursday afternoon by hitting himself on the head and then attempted to hang himself.

Kippen, who is 35 years old, married and a father of two children, is a German citizen and had been brooding over the war and some private matters which deranged his mind and made him try to commit suicide. He went to the barn and took an axe and struck himself on the head, cutting a bad gash in his scalp. His children playing near the barn saw him and ran into the house and told their mother, who ran out to the barn and took the axe away from him. While his wife ran across the road to her parents to summon aid, Kippen attempted to hang himself from a rafter in the barn, where he was found when his wife returned with help. He has recovered.—Sandusky Republican.

## DRY REGIME SUCCESSFUL IN PORT HURON

Liquor Violations for Month But Seven as Compared with 29 a Year Ago.

"After six weeks of 'dry regime' I am confident the people right now would not think of voting John Barleycorn, even in the form of beers and light wines, back in Port Huron. I have tested the sentiment of the voters in nearly every township and I find that prohibition is not only working out satisfactory, but the people are highly pleased with it. I find that some of its strongest supporters today are men who were habitually getting drunk a few weeks ago."

This is the statement of Prosecuting Attorney Shirley Stewart as expressed in a letter to Gurd M. Hayes of Lansing, who is asking the prosecutors of the various counties to give him the results of prohibition's first month in their respective localities. There was practically no crime in this county during the month of May, says the Times-Herald. Liquor law violations dropped from 29 in Port Huron alone one year ago, to seven violations in the entire county during the same month.

Mr. Stewart further states that nearly every place formerly occupied by a saloon is now housing a legitimate business. Rents in the business section, instead of dropping have increased in the last month. The prosecutor says he does not consider the "dry law" a perfect law, but it is working out satisfactorily, nevertheless, and he believes that its continued operation will gradually bring about the elimination of its objectionable features.

"But three complaints for non-support were issued last month," said Mr. Stewart today. "With the liquor business flourishing our monthly non-support complaint average was 12. Men who formerly were habitually depriving their families of the necessities of life, are now supporting them in fine shape."

"I know of one certain case where the man was a drunkard. He is now saving his money and is buying trift stamps. While sufficient time has not elapsed to judge the law, the officers are having no difficulty in taking care of the evils resulting from the use of liquor."

When you buy War Savings Stamps you do not give your money, you loan it at 4 per cent, compounded quarterly. You help your Government, but you help yourself even more.

## SECOND NATIONAL LOTTERY READY

DRAWING TO TAKE PLACE THIS WEEK OF MEN ENROLLED LAST JUNE 5.

Procedure to Be Followed, Similar to That of Last Year When 10,000,000 Were Given No.

Washington—A second national lottery, to determine the order numbers of the 744,865 men enrolled last June 5 under the selective service law, will be held here this week. The date has not been definitely determined, but the drawing probably will be Thursday or Friday, depending upon the time the final complete reports are received from district boards.

The procedure to be followed, it was stated officially Monday, will be similar to that of last year, when nearly 10,000,000 men were given their relatives places in the draft.

The same bowl will be used with capsules containing numbers up to the largest number of registrants in any district in the country.

Last year 10,500 capsules were provided, but the number this year will be much smaller, and it is expected the drawing will be completed much more quickly.

The lottery system is based on the selection of master numbers, each of which governs similar numbers in every one of the 4,500 local districts over the country.

Distribution of questionnaire blanks, from which will be determined the class into which each man will go, has begun, and when the new registrants fill these out and return them, the numbers assigned them in the lottery, will then become operative at the foot of the class in which they are placed.

## "LONG-LOST" SON WRITES PARENTS FROM FRANCE

Verne Heller is Doing His Bit in Ammunition Train on French Soil.

Mr. and Mrs. C. W. Heller were delighted beyond measure Tuesday to receive a letter from their son, Verne, from whom they had not heard for a long time and who they feared might be dead. The young man visited his parental home here about six years ago, but for nearly five years no news regarding him has reached his family here.

The letter came from France where Verne is a member of Co. F, 116th Ammunition Train of the American Expeditionary Forces. Beyond stating that he was well and doing his "little bit" overseas, his letter contained little more. However, the brief message was most welcome and the prospects for longer epistles from the boy add to the joy of the parents.

## TREADGOLD-LEAVENWORTH.

The Episcopal church at Newton, Massachusetts, was the scene of a pretty military wedding on Thursday, June 6, when Miss Vernita Treadgold, daughter of Dr. and Mrs. A. N. Treadgold of Cass City, was united in marriage with Edgar S. Leavenworth, by Dr. McClure.

The bride was becomingly gowned in a plain taupe suit and carried a corsage of white rose buds and lilies of the valley.

Among the guests were the Misses Marie Barrett, Margaret Vernon, and Margaret Mark, classmates of Mrs. Leavenworth at Newton school.

Mr. and Mrs. Leavenworth left on the day following the wedding on a short trip to Rockport, on the point of Cape Ann, making their stay at the Straitsmouth Inn.

Mrs. Leavenworth has been a student at the Newton school the past two years. Mr. Leavenworth formerly taught science in the Cass City high school. He enlisted in the Navy last fall, and is now a student at a radio school at Cambridge, Massachusetts. He expects to go to France very soon and is one of eight chosen from this school to be an instructor in the radio work in France.

## RED CROSS NOTES.

Mrs. Dickinson, chairman of the knitting committee shipped 114 pairs of socks and 15 pairs of wristlets to Caro this week.

The surgical committee made 300 compresses in one afternoon and shipped them to Caro.

Mrs. L. H. Wood donated the yarn and knitted a sweater for the Red Cross Society.

The Government needs your money; you need the stamps.

## MRS. CHARLES ROBLIN.

(From Greenleaf Correspondent).

Death has again visited the neighborhood of New Greenleaf and called one of our highly esteemed citizens.

Mrs. Chas. Roblin died June 18 after a protracted illness. This illness she bore with Christian patience and fortitude, cheerful in suffering, always a smile for her friends and a quiet confidence in her Saviour.

Mrs. Roblin was the daughter of the late Daniel Black and wife. She was married to Charles Roblin six years ago. To them three children were given. The Master took the youngest to the Heavenly home last winter and little Winton and Hazel with their father are left in the home. They have the sympathy of their many friends.

The funeral service was held Friday, June 21, in the Greenleaf church conducted by her pastor, Rev. F. T. Kyle. The large attendance showed the esteem in which she was held.

Mrs. Roblin was a member of the Erskine United Presbyterian church. Her life was beautiful and her death was like the sunset in its beauty and peace. "Blessed are the dead which die in the Lord from henceforth, saith the Spirit "that they may rest from their labors, and their works do follow them."

## JOHNSON'S PARTY FINDS GOOD CROPS ON JOURNEY

"Archie" Says Outlook Is Good and Doesn't Think Our Soldiers Will Starve.

A. L. Johnson, who in company with Leslie Purdy and Terrace Wallace of Gageton and W. O. Stafford of Owendale, left June 18 on a motor trip to Oklahoma, sent the Chronicle the following bulletin on last week's journey:

Winamac, Indiana, Tuesday, June 18—We made 200 miles the first day. Crops are looking fine but not much wheat in Michigan.

Veederburg, Ind., June 19—We made 225 miles today. We are down in Indiana. The finest crops I ever saw. I do not think our soldiers will starve.

Greenville, Ill., Thursday—Everything going fine. We are still making 200 miles a day. Southern Illinois is a lot rougher than we found Indiana but crops are good everywhere. Wheat and rye galore.

Fulton, Mo., Friday—We are still making 200 miles a day. Crops are all good but the country is getting rougher all the time.

HOUSE APPROVES "NO LIMIT" ARMY

PRESIDENT GIVEN POWER TO CALL ALL MEN OF DRAFT AGE TO THE COLORS.

\$1,229,731,295 FOR HEAVY GUNS

Bill Submitted for Heavy Artillery Carries An Expenditure of \$5,435,096,224.

Washington—Approval was voted by the senate military committee Saturday of the provision in the \$13,000,000,000 army appropriation bill, as it passed the house, empowering the president to call to the colors all men of draft age who can be trained and equipped.

Plans of the war department for carrying warfare on the western front beyond the trench stage by a vast production of heavy mountain, siege and field guns were made known through the approval by the house appropriations committee of the largest fortifications program ever submitted by any government. The bill carries a total of \$5,435,096,224, the principal expenditures being for heavy artillery.

Based on the American army of 3,000,000 men, the plans which the measure supports have been approved by the inter-allied war council through General Pershing. It was stated by Representative Borland, of Missouri, chairman of the sub-committee which framed the bill. While the program provides for home defenses from possible German air raids and for coast defense, the chief concern is for the production of field artillery. The total appropriation for heavy guns is \$1,229,731,295.

The report shows that the new government plant for production of heavy artillery at Neville island, in the Ohio river, near Pittsburg, is to equal the famous Krupp plant in Germany. For the Neville island plant \$40,000,000 is appropriated.

Manufacture of heavy pieces will be carried on also at plants of the Bethlehem and Midvale steel companies, the report discloses. Because of the length of time required for building large guns, the government is not yet giving extensive concern to manufacture of the projectiles although machinery has been or is being established by which ammunition can be supplied in short order.

100,000 MEN CROSS IN WEEK

Gen. Peyton C. March Revealed That More Than 900,000 Yanks in France

Washington—Failure of Germany in her main purpose in transferring submarine operations to the American coast was disclosed Saturday when General Peyton C. March, chief of staff, revealed that more than 900,000 American soldiers are now in France, 100,000 of whom were sent across in the last week.

The undoubted purpose of the enemy in sending its undersea boats to American waters, navy officials declare, was to slow up movement of American troops and supplies to Europe. The German action was at the same time a confession of the failure of submarine operations in European waters.

The fact that the submarines cruised along the steamer lanes near the American coast for several days before the first vessel was reported sunk indicated, that they were hoping to waylay an unconvoyed troop ship.

Josephus Daniels, secretary of the navy, pointed out that the submarines have failed to sink or even to engage in battle with a single troop ship and he declared there has been no diversion of American destroyers from convoy work and pursuit of U-boats on the other side of the Atlantic.

TO LAUNCH 89 SHIPS JULY 4

Will Have a Capacity of 439,886 Dead Weight Tons.

Washington—Celebration of July 4 this year will be made notable for all time by the launching from American shipyards of the largest number of ships of the greatest total tonnage ever put into the water in one day.

Independence day's contribution to the merchant fleet on which the world is depending for victory over the Germans will be at least 89 vessels with a capacity of 439,886 dead-weight tons.

Three of these ships will take the water at the Boorse, Mich., yard of the Great Lakes Engineering Works, on the Great Lakes Engineering Works, on the Detroit river. The three hulls total 3,900 dead-weight tons.

May Imports Set Record.

Washington—Imports in May were the largest in the nation's history, and the total foreign commerce for the month, amounting to \$875,000,000, was second only to June 1917, when the total was \$879,000,000. Imports in May amounted to \$233,000,000, an increase of \$44,000,000 over April, according to figures issued recently by the bureau of foreign and domestic commerce. Exports were valued at \$552,000,000, which was \$52,000,000 more than April.

AUSTRIANS BEING CHASED BY CAVALRY OVER PIAVE RIVER

SECOND ARMY OF AUSTRIANS IN GREAT DANGER AS ITALIAN VICTORY CONTINUES TO GROW.

AUSTRIAN BRIDGES WASHED AWAY WHEN RIVER RISES

Austrians in Wild Panic On Western Bank of Piave River When Food Supply Was Cut Off.

London—Great possibilities are certain if the Italian soldiers are able to exploit their success over the Austrians, though it is a possibility the pursuers may have to halt on the original Piave line owing to other elements of the greater situation.

The Italian casualties, I learn, are less than half those of the Austrians, who have absolutely nothing to show for their offensive.

Italian cavalry, it is learned, has been thrown across the Piave over bridges hastily built by engineers and is driving the enemy in the long stretch on the eastern side of the river between Conegliano and Oderzo.

The Allied airmen are bombarding railways to those points and also as far south as Porto Gruauro, on the Oderzo rail. If these lines are severed the whole Austrian right will be jeopardized and the enemy's employment of reserves frustrated.

South of the bend of the river, a few miles below Oderzo, the Austrians are fighting a stubborn rear guard action in an attempt to cover the bridge heads at San Dona Di Piave and at Grisolra, a short distance southward.

Austrians Overwhelmed.

From Montello to the sea the Austrians, overwhelmed, are retreating in disorder.

The Rome war office thus sent out Sunday night the news of utter debacle of the Austrian attempt to reach the Venetian plains of Italy by crossing the Piave river.

The retreat is on a front of almost 50 miles and from the confusion which reigns in the enemy's ranks the losses have been large. The Piave has been swollen beyond all semblance of its former self during the last week and the hastily constructed bridges of the enemy over which he feared to bring his artillery have been washed away.

Austrians in Panic.

Austrians who had succeeded in the initial rush in reaching the western bank of the river were thrown into panic when they saw their lines of communication and their food supplies cut off. The food had been brought by aeroplanes and the Allied aviators, including Americans, concentrated successfully in cutting the line.

Panic, at first small, soon became general when the Italian pressure on the Montello and all the way along the line to the Adriatic sea slowly but surely turned into victory. Before the retreat the Austrians were whipped and whipped well and the defeated and overwhelmed attackers, or rather defenders of small slices of terrain, broke and rushed back across the river as best they could. Many are believed to have been drowned in the precipitous attempt to reach safety. Already the enemy casualties were estimated at 180,000.

Japan Ready to Strike At Germany.

London—In the house of commons Monday, Premier Lloyd George said:

"I have been informed on very good authority during the last few hours that hatred for the Germans is sinking deeper and deeper into the minds of the Russian people, especially in the parts occupied by Germans. My informant tells me that Russia is readier than ever to participate in any movement to drive the Germans from Russian soil.

"These things are full of hope, but here are difficulties of access to Russia. They only country having access on a great scale is Japan, but on this subject I doubt whether I can do good by saying anything."

"We are on the eve of a great event," the British premier announced and the benches of the chamber were transformed into a wild demonstration.

"There might be a blow coming within a few hours," the premier declared, in predicting the important events he was visualizing for parliament. "Certainly," he added, "it will come within a few days."

Allied Transport Sunk.

Paris—The transport Sant Anna, bound from Bizerta to Malta, carrying a large number of native troops, was torpedoed and sunk during the night, from June 10 to June 11. Out of a total of 2,150 aboard, only 1,513 were saved, making a total loss of 637.

The Sant Anna was a vessel of 9,350 tons, and was built in 1910. She hailed from Marseilles, and was owned by the French Steamship company (C. Fabre & Co.)

A Good Barn a Patriotic Duty

FEED is expensive nowadays. Every possible ounce of it must be converted into beef or milk or working energy for the teams.

Stock lacking the protection of a good barn consume most of their feed in fighting the cold—or lacking the cool refuge of a properly insulated barn during the heat of summer, become indisposed and lose weight.

Feed converted into animal heat doesn't make beef or milk or money—it doesn't help to win the war.

The essentials of a good barn are good materials, proper construction, light, air and insulation.

Other materials than wood have been used in barn building but nothing has yet been found that makes as warm and dry a barn as a well built wood barn. And for long life and minimum of repairs, your barn should be covered on the outside with

WHITE PINE

Practical working plans, specifications and bill of material for the above type of barn, or any other farm building, will be furnished on request, together with our estimate of the cost. We will gladly arrange the floor plan with you to suit your individual needs.

In terms of farm produce a barn is cheaper now than it has ever been before. Come in and let us show you.

## Employers of Labor

There is a certain munitions factory in England, where young women and girls do practically all the work.

Several times there have been disastrous explosions in this factory. Shifts of girls coming to work saw the mangled bodies of the unfortunate young women coming out. And the men who saw their looks of horror hastened to assure them that they could turn back; that they were not compelled to return to work in the factory that was being raked by the hand of death.

But these girls said NO; We have promised the Tommies that we would make good, and we WILL.

And they are making good! They are working in these places, under the most hazardous conditions, day and night, making shells—shells—shells—and inscribing the name WOMAN lastingly into the annals of English history.

Now, then, Mr. Employer, the woman of America is just as patriotic. She is ready to step forward and take the place of men on the farms and in the factory. Thousands of girls are doing this work now, and thousands more are ready.

So will you not encourage the YOUNG MEN, the able-bodied young fellows, in your employ, to step forward and answer one of the most urgent calls of our Nation?

At the Governor's direction, the War boards of Michigan are about to launch an intensive campaign for Navy volunteers. The Governor, the War Boards, the Navy Officials, and all patriotic citizens are watching and hoping that Michigan will go 'over the top' as quickly in this campaign as she has in those which involved only money. But if we are to do this, we must have the full co-operation of every citizen.

Help us call to the attention of our young men, the urgency of this message, for they must be enlisted and trained in time to meet and man our new ships when launched; help us to impress upon them that it is their sacred duty to step forward and give their country the assistance they are asked to give; join us in telling them of the great advantages offered them in the Navy; help bring before them the fact that all men must serve soon, and that opportunity is now offered them to place themselves where they can do the most good.

The campaign formally opens on July 1, and continues to July 15. But all young men who wish to enlist immediately, may do so by applying at any one of the stations named below. Each man should bring a certificate signed by parent or responsible citizen, showing that he is a citizen of the United States, together with the date and place of birth. Men of draft age must bring a release from their local board, which will be given them if they are not in a current quota of the draft.

The members of the Junior Missionary Society led by Mrs. F. E. Kelsey had a pot-luck supper Monday evening in honor of their former teacher, Miss Clara Yntema. Prizes were awarded for the best missionary notebooks composed by the girls during the past year. Dorothy McKim won the first prize which was a "Story of the Bible" by Charles Foste. Lucy Webber and Marie Gemmill won second and third prizes which were yearly subscriptions to the "Over Land and Sea" magazine. Mrs. Kelsey is very anxious that other members of the society win these Bible Stories and offers the same opportunity to the members next year. Mrs. Kelsey deserves much credit in her faithful work.

## We Set Tire Standards

Why is it that United States Tires are setting new records for mileage and serviceability?

Why is it that the sales of these tires are constantly mounting by leaps and bounds?

The answer is found in the factories where United States Tires are made.

Standards of construction for these tires are higher than ever before known in the tire industry.

Makers of tire fabrics tell us that the standards we have given them for United States Tire fabrics are higher than any previously known.

Likewise through every process of construction from crude rubber to finished tires—we have set new and higher standards everywhere.

These standards work out on your car in the practical economy demanded by war-times.

United States Tires will raise any car to higher efficiency.

There is a type to suit every condition of service.

The nearest United States Sales and Service Depot dealer will cheerfully aid in selecting right tires for your requirements.

**United States Tires are Good Tires**

We KNOW United States are GOOD Tires. That's why we sell them.

## How Does Your Garden Grow

It is impossible to accurately estimate the value of crops grown in the small gardens of this country but careful observation shows that a well kept garden will bring big returns. A bountiful supply of vegetables at hand where they may be obtained at a minute's notice is of more importance than the money value. Therefore think what it means to have this supply clean and healthy and free from worms, bugs and fungus growth. This is made possible by the liberal use of

# Are You Good Enough?

Size yourself up, young man—if you are between the ages of 18 and 35—and see if you can come up to this standard:

- Are you an American citizen?
- Are you free from disease?
- Are you clean-limbed, without deformities?
- Are your eyes keen?
- Are your joints supple?
- Is your hearing good?
- Is your hand steady?
- Is your heart strong?
- Is your record clear of crime?
- Is your reputation good?
- Sound in mind and body, clean-lived?

YES?

Then it is your duty to join the United States Navy just as soon as you finish reading this article. For, if you measure up to that standard, you are the kind of man the Navy needs badly right now to defend YOUR country. If you don't measure up to that standard, the Navy cannot use you. It can use only the best—the kind of men you would like to associate with.

If you cannot measure up to that standard, we cannot blame you if you are not in the Navy. But if you DO measure up to that standard, you have no business being out of the Navy, when Uncle Sam is calling to you that he NEEDS you in the Navy. And to get you in the Navy, he is offering you the best kind of training, the highest pay, government insurance, family allotments, the chance for travel and adventure, and every other advantage that he can offer any man.

The Governor has directed the War Boards of Michigan to conduct an intensive campaign for NAVY VOLUNTEERS from July 1 to July 15. The Governor, the war boards, the Navy, the Country, wants to see Michigan go 'over the top' in this campaign. And we intend to do it—quick. After July 15, we do not want to see one man who measures up to that standard, OUT of the Navy. Every one should get in early, for the fellow who gets in early is the fellow who is going to get the job at the top. The fellow who enlists last will trail along at the end of the procession.

Get busy and act quick—as a man should. Time will be given you to settle your private affairs after you enlist. So don't wait. Get into action the same as the Navy did, about 30 seconds after we got into the war.

If you want to enlist before July first, get a certificate from a relative or responsible citizen, showing that you are a U. S. citizen, and giving the date and place of your birth; and if you are of draft age, have your local board give you a note showing that you are not in a current quota. Then apply at one of the stations named below.

### SERVICE

The facilities which this bank offers to the banking public are of so many kinds that we can only mention a few of them to you. In making long time real estate loans, selling exchange on distant points, selling steamship tickets, writing insurance and conducting a general banking business, we are supplying a large variety of wants. There are very few people who do not need some kind of banking service in the course of a year, and we will appreciate your patronage, in whatever department of our business it may be.

We would like to have you visit us often, and get to feel perfectly at home in this bank. We cannot expect to give our best service in this community if we do not get acquainted with the people; and we want the people to get acquainted with us. Call on us whenever you are in need of anything in the bank line.

### CELEBRATE YOUR FOURTH OF JULY AT BAY PORT

Plan to go to Bay Port the Fourth. You are sure to meet many old friends. The Red Cross parade at 10:30 should be witnessed by all. Arrange to have your dinner over by one o'clock as patriotic singing and speaking will commence at that time. Lloyd Crane of Saginaw, who has been very active in the different Liberty Loan and Red Cross campaigns, and George M. Clark of Bad Axe, who needs no further introduction, as he is one of the best orators in the state, will give patriotic addresses which you should hear. During this speaking hour the famous Saginaw Male Trio will sing the latest patriotic songs. Be sure to be present during this hour. Don't miss the treat.  
 Ball game 2:30. Bad Axe vs. Bay Port. If you enjoy a ball game, see this one. The teams are good and evenly matched. A good game is assured. Don't forget the time, 2:30.  
 The Unionville Band, who will furnish music throughout the day, will give a band concert at 7:30 o'clock in the evening. The Male Trio will also take part during this concert. If you love music, hear this.  
 Dancing during day and evening.  
 Bathing and boating as usual.  
 Special train service: Train leaves 9:00 p. m. for Akron, train leaves 10:50 p. m. for Bad Axe.  
 Don't fail to spend this day at Bay Port. You are sure to enjoy it.—Advertisement.

In spite of the inclement weather, a good sized crowd attended the Garden club picnic held at the French school Friday. An excellent dinner was served in the school house instead of Ben Girou's grove as was intended had the weather been more propitious. After dinner School Com. B. H. McComb gave an address in which he pointed out the changes necessary to make the building a standardized school. While the heating and ventilators were all right, the lighting and seating would have to be changed to meet requirements. He also suggested that the ceiling be lowered and a different color of paint be used. Prof. A. McVittie of Caro gave a very interesting talk on beautifying school grounds and private lawns by planting trees and shrubbery, illustrating his remarks by drawings on the black board. Miss Duthie of the M. A. C., Lansing gave a demonstration on canning fruit and vegetables by the cold pack method which lasted some time, and aroused much interest among the ladies judging from the questions asked. The grounds now being dried off, everyone was invited out to play. Old men and women who attended the little old French school forty years ago joined in the games with the present day pupils and made the kids go some to beat them. The crowd was then photographed and went home tired and happy. A vote of thanks is due Miss Florence Smith who made all the arrangements for the picnic.

**Chamois Skin for Windows.**

Two pieces of chamois skin and a basin or pail of warm water are the best means for cleaning windows that one housekeeper knows of, so she says. One chamois skin she wrings out of the warm water and uses for washing the windows. With the other she dries them. She finds the chamois skins far superior to the ordinary rags and says that, if they are kept clean, they will last a long time. She uses the same method and materials for cleaning mirrors.

**NOTICE OF LETTING.**

**TRACY IMPROVEMENT DRAIN**

Notice is hereby given that I, George Hall, County Drain Commissioner of the County of Tuscola, State of Michigan, will on July 9th, A. D., 1918, at the farm residence of Ora DeLong, Sec. 17, Township of Novesta, at nine o'clock in the forenoon of that day, proceed to receive bids for the construction of a certain Drain known and designated as Tracy Improvement Drain located and established in the townships of Ellington and Novesta and traversing sections numbered 12 and 13, T 13 N, R 10 E, and Sections 7, 8, 17 and 18, T 13 N, R 11 E in said county and state.  
Said job will be first offered in sections and will be let in sections, or otherwise, as may be determined by me to be for the best interests of all concerned, which determination will be announced on that day; if let by sections that at the outlet will be let first, and the remaining sections in their order up stream, in accordance with the diagram now on file with the other papers pertaining to said drain, in my office, to which reference may be had by all parties interested, and bids must be made and will be received accordingly. If let as one job, each bidder will be required to deposit, in advance, with the County Drain Commissioner a check, properly endorsed, in the sum of not less than five hundred dollars (\$500.00) certified to by the cashier of some bank or banker doing business in Tuscola County, as a guaranty of good faith and of a purpose to enter into a contract for the performance of the work if making a successful bid. Contracts will be made with the lowest responsible bidder giving adequate security for the performance of the contract, in a sum then and there to be fixed by me, but the right to reject any and all bids is hereby expressly reserved to myself. The date for the completion of the work, and the terms of payment therefor will be announced at the time and place of letting.  
At the same time and place bids will also be received for the construction and erecting of the several necessary bridges incidental to said drain, and bidders therefor will be required to deposit checks certified and in like amount as hereinbefore required of the other class of bidders. Bridge bids must in all respects conform to specifications prepared therefor and which will on the day of letting, be made fully known to prospective bidders.  
In addition to bonds mentioned, successful bidders for both drain and bridges will also be required to give supplemental bonds in a sum of not less than one thousand dollars, each conditioned for the payment of debts incurred for labor employed and materials used in connection with their respective undertakings.  
Notice is further hereby given that at the time and place of said letting, or at such other time and place thereafter to which I, said County Drain Commissioner, may adjourn the same, the assessments for benefits and the lands comprised within the special assessment district of such drain and the apportionment thereof will be announced by me and will be subject to review for one day; such review will be held from nine o'clock in the forenoon until five o'clock in the afternoon of the day named.  
The following are descriptions of the several tracts or parcels of land constituting the special assessment district of such drain.

# Man Power Comes Next

The War Boards of Michigan have been conducting campaigns to finance our government in the struggle with Germany, and to finance the many organizations doing war work. And in all these campaigns, every community in this state has gone "Over the Top" in a manner that has elicited the warmest praise.

But now comes a campaign that will be a still greater test of the loyalty and strength of Michigan's citizenry. It will be a campaign for men; a campaign for brains and hands that have grown up to strength under the protecting folds of our flag—the flag that now calls upon them to uphold it.

The Navy needs men—bright, energetic young fellows of clean minds and body—the best that Michigan can give—to man the guns of our fleets, and do their bit in building that bridge of ships that must be built and guarded, if men, munitions, and VICTORY is to be brought to our fighters in France.

The War boards will endeavor to carry to the young men of Michigan the message from the sea; to impress upon them its importance; and to point out to them the wonderful opportunities that await them in this branch of the service, that has marked a burning path of bravery and glorious sacrifice, across the pages of American history.

The War Boards of this state earnestly request every young man between the ages of 18 and 35, including those who are registered in the draft, to consider this message very seriously. The eyes of the Nation are upon Michigan, because of the splendid response she has made so far, and it is hoped that the Men of Michigan will answer gallantly when called upon to give themselves and their sons, as they did when called upon to lend their wealth.

For the information of young men who wish to enlist before the drive starts, it may be stated that the Navy pay is the highest; that only the man who enlists in the lowest rating—as you are asked to do—has the chance to get a commission, as officers are not selected from amongst civilians; that you are entitled to government insurance and family allotments: that you receive splendid training and the best of care in the world's greatest training stations; that every advantage is offered you here, that is offered in any other branch of the service, and a few things in addition.

**CHAPTER VIII.**

We now tried to gather by companies. Of our own company only 12 men remained. Presently others straggled in until there were 20 of us assembled. There is eager questioning everywhere as each man attempts to learn about his comrade or acquaintance. Few questions can be answered, however, as each man had thought only of himself in that fight.

Driven by hunger we approached the village. The first thing we did was to hasten to the wells and drink. We drank as if we wanted to fill our selves up with enough water to last us the rest of our lives. Only here and there were we able to find anything to eat. A few beets were left in the gardens and we ate them eagerly, without waiting to wash or clean them.

Where is our company? Nobody knows. We are the company, we 20 men. And our officers. "Somewhere surely," said a soldier, "somewhere in a bomb-proof corner."

But what were we to do? No one could decide. Presently a noncommissioned officer of the field gendarmes approached on horseback. It is the duty of this particular class of defenders of the fatherland to round up slackers behind the front.

"You are pioneers," he called to us roughly. "What are you doing here?" Then he asked us innumerable questions, which we answered as well as we could.

"Where are the others?" he asked.

"Over there," said a young Berlin soldier, and pointed to the battlefield.

"The others are dead or perhaps prisoners. Several others have managed to save themselves and are somewhere, perhaps."

"Never mind," the noncommissioned officer said roughly. The conversation had become disagreeable to him. "Wait here, until I come back. Where are the officers?"

Again no one could answer. "What are their names? I shall find them. Perhaps they are in Vitry."

We told him the names of our officers. He gave us identification papers so that we might be able to prove to others inquiring why we were waiting where we were.

"I hope his horse falls and he breaks his neck," said one of our men.

We entered one of the houses which had been robbed, as were all the others, threw ourselves down upon the mattresses to sleep, sleep, sleep. How long we slept no one knew. We only knew that it was night and that some of our company had aroused us. These were newcomers who had been hunting for us for a long time.

"Come along. The captain is outside and he is very angry. He has gathered 17 of his men together and is cursing like the very devil because he could not locate you."

Sleepy, and entirely indifferent to the future, we left the building. We knew that we would be sent into action again but no longer cared. I had never before seen among a body of soldiers such an atmosphere of absolute indifference.

We came upon the captain. He saw us approach minus our headgear, our uniforms torn into shreds and without guns and knapsacks.

"Why are you running around here?" he roared. That was our reception.

Nobody answered. Nobody cared. Nothing could be worse than what we had been through, but although every one among us felt keenly the injustice of the captain's attitude we all remained silent.

"Where is your equipment?—Lost—Lost— This has been a nice business. The state equips you, you rebel. If all were like you—"

He raved on for a while after this fashion, this brave fellow, who, without any action on his own part permitted the rebels to retreat while he defended his fatherland in Vitry, 4.26 kilometers behind the battle line.

We selected guns from those lying around us in heaps and soon were ready to fight again.

We stood around half asleep, leaning on our guns, and waited to be led once more to the slaughter. A shot fell in our midst. It struck a color sergeant and smashed his right hand. He cried out from the pain. His hand was quickly bandaged. He was the first.

An eyewitness told us how this had happened. He had rested his hand on the gun barrel in the same manner as did all the others except that his hand partly covered the muzzle. The orders provide that the gun be locked if loaded. Turning to the color sergeant, who was writhing with pain, the captain roared at him: "I shall report you for punishment for your gross carelessness and for mutilating yourself in the field."

The color sergeant, a noncommissioned officer, realized that his military

career was at an end. We all felt for him. During the months preceding this incident he had always associated himself with the privates.

We never learned whether he was brought before a court-martial. Punishment for self-mutilation was a daily event and many severe sentences were pronounced and then made known to all the others to serve as a deterring example. The color sergeant's place was conferred upon another, after which the captain disappeared once more in the direction of Vitry.

We marched away and halted at a point northwest of the village. Here we met other pioneers who had been gathered together from various battalions and our unit was once more brought up to 85 men. The officers told us that we would not enter the battle today. Our only duty for the time being was to keep the bridges over the Marne in good condition for the German troops fighting on the other side, so that they could be used in case the battle went against us.

We then marched to our destination, which was at the point where the Saulx flows into the Marne.

We reached our destination about six o'clock in the morning. The dead lay around in heaps everywhere. We were camping on a wooded height and could overlook the country for many kilometers in all directions. We saw shrapnel bursting by the thousands. Little could be seen of the men who were fighting despite the fact that many divisions were locked in a death struggle.

Presently we saw the fighting line. The Germans were about two kilometers behind the Marne, which flowed by directly in front of us. German cavalry in great numbers was encamped along the banks of the river. Two temporary bridges in a very dilapidated condition constructed of whatever materials were at hand were located near us. Preparations had been made to blow them up with thousands of pounds of dynamite. The electric fuses had been strung to the point where we were located and it was up to us to manipulate the switches. Connected with the battle line by telephone, we were in a position to destroy the bridges at a moment's notice.

The fighting became more lively. We saw the French rush to attack and retire again. The fire of musketry increased and the attacks became more frequent. This continued for more than two hours.

We saw the French continuing to bring up reinforcements constantly despite the German artillery fire.

After an extended pause the French made another attack, employing several different kinds of formations. Each time the waves of offensive troops were forced back. At three o'clock in the afternoon, under a blow which contained the full power of France, our troops were forced to retire, first slowly, then in wild flight. The exhausted Germans could not be rallied in the face of this blow. With

switch connected with the explosives under the second bridge received his orders. He afterwards said that the order he received was hard to make out and that he had lost his presence of mind and threw in the switch, thereby killing thousands on the bridge and leaving many other thousands to the mercy of the enemy.

**Good Habits and Health.**

The man who spends his every cent of money and of health can never get a footing, financially or physiologically. Investing his efforts in wrong directions, they leave him in debt. His life goes on downward, an inevitable failure. The human derelict shuffling along the back street is not simply a financial bankrupt. He is a physical wreck besides. Take one good habit into your family of habits. It is a good breed to have around; it attracts good company. Good habits produce good health, and good health produces a clear mind and good spirits, which in turn promote a successful and happy life.—Chicago Herald.

The Fighting Became More Lively.

wild confusion all tried at the same time to reach the bridges beyond which lay safety.

At this instant the cavalry which had taken cover along the river bank galloped to the bridge position. In a moment the bridge was covered with human bodies, all racing for the opposite bank. We could see this temporary structure trembling under this enormous burden.

Our officer saw the situation and he nervously pressed the telephone re-

ceiver to his left ear. His right hand was on the switch. Breathlessly he stared at the fleeing masses. "If only the telephone connections had not been broken," he muttered to himself. He knew as well as all the rest of us that he was to act on the instant that the curt order came over the wire.

It was not much that he had to do. Merely make a movement of his hands. Masses of troops continued to rush across the bridge until more than half were safely over. The bridge further above was not in such great demand, and with the lessened congestion almost all who crossed here, were already safe. We could see how the first of the French units had crossed, but the bridge continued to stand.

The sergeant who manned the apparatus at this bridge became restless waiting for orders, and finally on his own initiative blew it up. Some Frenchmen and hundreds of Germans upon the bridge found their graves in the Marne.

At the same moment the officer standing next to me received the order to blow up the last bridge. He hesitated to obey, for he could still see many Germans on the other side. He could see the race for the road leading to the bridgehead as all sought safety at the same instant. There a terrible panic reigned. Many soldiers jumped into the river and tried to swim across. The pressure became greater as the thousands still on the other side tried to get back.

The message over the wire became more and more insistent. Finally the officer sprang up, rushed by the pioneer standing at the apparatus and a second later there was a terrible detonation—bridge and men were thrown into the air hundreds of meters. Just as a river at high tide races along, taking with it all manner of debris, so the surface of the Marne was covered with wood, men, torn uniforms and horses. Efforts to swim were futile, yet soldiers continued to jump into the river.

On the other side the French began to disarm such German soldiers as stood there with raised hands. Thousands of prisoners, innumerable horses and machine guns fell into the hands of the enemy. Several of our company were just about to retire with the electric apparatus when something developed which certain of our number had suspected. An error had been made and it was too late to rectify it.

The upper bridge, which had not been used to any great extent by the Germans, should have been left standing!

It had been the purpose of the staff in command to leave this bridge so that the enemy might continue its pursuit of our troops until a certain number of Frenchmen had crossed the river. The plan was to permit enough Frenchmen to pass so that they could be taken prisoner, yet, not too large a force, lest it might prove a menace to the German arms.

After these hostile troops had crossed, the plan was to destroy the bridge to prevent their being re-enforced. That was why the sergeant manning this switch had been kept waiting for the order to blow up the bridge. But the sergeant in the excitement and confusion thought that the cable to which his phone was connected had been disconnected and blew up the bridge on his own initiative while it was crowded by Frenchmen and long before the enemy could have had an opportunity to cut that cable.

At the same time the officer at the

**Ten Reasons Why Michigan Should Send TRUMAN H. NEWBERRY to the United States Senate**

- First—Because of his marked ability.** As a business man, as a member of Roosevelt's Cabinet and as a Commander in the Navy he has shown himself capable and efficient.
  - Second—Because of his broad experience in national affairs.** As Secretary of the Navy he came into close touch with Congress and legislative action, knows how laws are made and is thoroughly familiar with legislative processes.
  - Third—Because he is a worker.** "a man who does things."
  - Fourth—Because of his splendid record—**Able seaman on the "Yantic" in the Naval Reserves—Lieutenant on the "Yosemite" in the Spanish-American war—Secretary of the Navy and now a Commander, he has always "made good."
  - Fifth—Because he is a Michigan man.** Michigan born and bred and a part of its business and industrial life, he is in close touch with the affairs of our great state. He knows Michigan conditions and needs.
  - Sixth—Because of his integrity and high character.** Truman H. Newberry stands always for a "square deal."
  - Seventh—Because he is genial, approachable and sympathetic.** Much of his time is taken up with doing things to help, personally, the boys in the Navy and he delights to be of service to them.
  - Eighth—Because of his good judgment and balance.** He is dependable and reliable.
  - Ninth—Because of his 100% Americanism.** Not only in the service himself, but his two sons as well, he is doing all he can at his post of duty to help to win the war. He is the "Win-the-War" candidate.
  - Tenth—Because of his knowledge of the war,** he is the best man we have in Michigan to help solve the problems arising and to arise out of this, the greatest conflict in history.

INTENSIVE CAMPAIGN FOR NAVY VOLUNTEERS

Tuscola War Board Arranges for Patriotic Addresses in Each of the 146 School Districts.

At the direction of Governor Sleeper, the County War Boards of Michigan will conduct an intensive campaign for volunteers for the Navy, from July 1 to July 15. Tuscola county's quota in this campaign is 105 men.

At the suggestion of Hon. Fred L. Keeler, State Superintendent of Public Instruction, patriotic meetings will be held in every school district in the state of Michigan on Monday, July 8th, when each school district elects its school trustees. The County War Boards have been asked to co-operate with Mr. Keeler and the State Department of Public Instruction in arranging these meetings.

The object is to arouse patriotism and to disseminate knowledge of present war conditions and the immense amount of voluntary war work necessary to be done to successfully support our Government and our Armies "over there."

In Tuscola county, patriotic gatherings are planned in each of the 146 districts.

THUMB NOTES.

CARO—Glenn Arnold, son of James Arnold of Fairgrove township, was killed early Friday morning by lightning, being struck while in the field cultivating. Two horses were also killed. The young man was about 20 years old and graduated from the Caro high school with the 1917 class.

CARO—At a meeting of Caro business men last week the vote was unanimous in favor of granting the increased rates to the Moore and Valley telephone systems. The agreement provides for physical connection and the service of both companies over one telephone at an increase of \$3.00 per year for residences and \$6 for business places. A meeting of farmer patrons was held at the court house when a similar resolution was carried by a safe majority. At a meeting of the Liberty Farmers' club every member voted for the better service. A report of the meetings was forwarded to the state railroad commission, and it is expected that an order will issue bringing about the desired result.

CROSWELL—According to a newspaper article dated June 21 at Cincinnati, Ohio, Joseph Foley, aged 73 years and a wealthy cattleman of Crosswell, started out to have a good time and his trip has ended in the city courts where yesterday afternoon he pleaded guilty to violating the white slave act. Foley, while wintering in Florida, met the pretty wife of a Jacksonville government employe, Mrs. Charlotte Brooks, and the two traveled from Jacksonville to Cincinnati as "father and adopted daughter." In Cincinnati, Foley had the woman arrested alleging she stole \$1,500 as he slept and later attempted to murder him with a hat pin. Foley owns considerable property at Crosswell and is said to be worth between

\$25,000 and \$50,000.

SANDUSKY—Tuesday a meeting of the doctors composing the committee for National Defense of the Sanilac County Medical society was held in this city. There is a nation-wide call for doctors to go into the camps and to the front to take care of the soldiers. Each county must send a certain number of doctors. The number is one out of every four. On this basis Sanilac county will be expected to furnish 6 doctors.

VASSAR—Frank Streeter, a farmer living a short distance east of here, was probably fatally injured and his son, Edgar, 21 years old, was badly bruised and shaken when their automobile was struck by a Saginaw-bound Pere Marquette train. The elder man was badly cut about the head and received a fracture of one leg and internal hurts.
