**COME ON, SIGN UP
 YE GRADS OF C. C. H. S.**

"We've had several responses from graduates of the Cass City high school who are interested in an alumni association and banquet," said a member of the Class of 1914 to the Chronicle recently, "but we want to hear from many more of them. Kindly run that coupon in the paper again and tell those eligible to membership in the alumni association to sign up and forward the coupon to N. J. McGillvray, Cass City."

So here is the coupon. Come across, Mr. Graduate, and state your sentiments.

Which banquet date do you prefer?

Are you in favor of a permanent organization?

CHURCH NOTES.

Christian Science—Services are held every Sunday morning at 11:00. The subject for Sunday July 27, "Truth."

Church of Christ—Harry G. Kellogg of Caro will preach in the Church of Christ in Novesta township Sunday evening at eight o'clock. All are cordially invited.

Greenleaf Presbyterian—Paul J. Allured, Minister. Service on Sunday, July 27, at 3:00 p. m. Subject, "Every Man a Steward Appointed by God." This is the first of a series of three sermons on stewardship.

Evangelical—Sunday school at ten o'clock; morning service at 11:00 a. m. The Rev. C. A. Sanders of Owendale will occupy the pulpit. The Young People's Alliance meets at 6:30. The topic is, "How Do Men Confess Christ, and How Deny Him?" The leader is Miss Mae Benkelman. Union service in the evening at 7:30. Prayer meeting on Thursday evening at 7:30.

Daily Thought.

Dreaming of a tomorrow, which tomorrow will be as distant then as today.—Tome Burguillos.

Ingenious Excuse.

My father saw little Ruth through the window. She was eating a green apple. He called her into the house and she, knowing his purpose, came shyly into the room. Father questioned her about eating the green apple, for she had often been forbidden to eat them. Looking up with a smile she said: "Why, I only ate the ripe half."—Chicago American.

"A Little Learning."

The following are some of the answers recently given in a school examination on "general knowledge": "Gravitation is when an apple falls on the floor." "Benjamin Franklin invented lightning." "The place where they keep all kinds of wild animals is called a theological garden." "One of the most important inventions of modern times is the North Pole."

Odd Foods.

Lizards and alligators are the latest propositions in the way of food variety. They do not seem very alluring to the United States appetites, yet lizards have been extremely popular in the Bahama islands, and Florida alligators have a reputation of being quite delicious.

His Occupation.

Returning from school one day, Earl announced that his teacher was going to leave and that the class would not have a new teacher. His mother inquired what had happened to his teacher, and he replied: "Why, she is going to get married." His mother asked who she was going to marry. "I don't know," he replied, "but he keeps a toothache office down the street."

Antique Furniture.

Those who possess pieces of antique furniture should devote personal attention to them, and especially to any of old oak, which should be kept in condition by periodical rubbings with flannel dipped in a mixture of beeswax, oil and spirits of turpentine. White painted French furniture is best cleaned with naphtha.

Overworked Word.

It has been estimated by a reliable statistician that if the printed letters forming the word "co-operation" were clipped from the magazines, all the times that they occur therein during any six months of the year, and placed end to end, they would reach three times the distance from the earth to the moon.

Important Question.

A little boy of five was traveling south with his parents to visit an aunt whom he had never seen. He was very curious about this relative and asked his father and mother endless questions concerning her. As the journey drew to its close the little fellow was amazed to see many negroes at every station. Suddenly a look of consternation dawned on his face and turning to his mother he cried in a voice of alarm: "Mamma, mamma, what color is Aunt Jen?"—St. Louis Globe-Democrat.

Deep Diving.

The greatest depth ever reached by a diver is said to be 204 feet. The greatest depth at which useful work has been done is 182 feet. Sponge and pearl divers, working without armor, frequently descend to depths of about 150 feet.

Daily Thought.

Tomorrow is a satire on today, and shows its weakness.—Young.

And Make It Personal.

If a rich man tells you that the greatest happiness is found in poverty remind him of what David said in his haste.

Reversing the Compliment.

A cashier of somewhat portly build was frowning over a statement of accounts just placed before him by his pretty typist. "As a young lady," he said, "I admire your type, but I can't honestly say I admire your typing." "How funny!" she replied smartly, "We are so different, for, though you are of course splendid at figures, no one could say you have a splendid figure."

Uncovered Fine Sapphires.

In 1882 there occurred in the Sinda pass of the Himalayas a great landslide, which uncovered a wonderful sapphire-bearing deposit. From the latter have since been obtained many of the finest existing sapphires. Aside from this deposit the most important source of fine gem stones of the kind is a district in Ceylon.

Music and Appetite.

Many great musical composers had exceptionally large appetites. When Handel dined alone at a restaurant he ordered a meal for three. Haydn, yet more voracious, delighted in dining alone, and was known to consume a meal that would have satisfied five ordinary appetites.
