## METHODS FOR FIGHTING ARMY WORM

### DISQUIETING REPORTS REACH M. A. C. FROM SANILAC COUNTY.

R. H. Pettit, Prof. of Entomology, Tells How to Restrict Progress of the Pest.

Reports of a dangerous outbreak of army worms in the Thumb district of Michigan, chiefly in Sanilac, Huron and Tuscola counties, have been received by the Entomology Department of the Michigan Agricultural college. The army worms, which derive their name from a habit of marching like an army from one field to another, destroy all crops they come in contact with, eating or cutting down practically everything. Reports indicate slight outbreaks in other parts of the state, but the chief danger seems to be in the so-called Thumb counties. The worms are later than usual this year, according to Prof. R. J. Pettit, M. A. C. Entomologist. They have been reported as doing great damage in neighboring states, chiefly Illinois and Ohio, but only recently put in an appearance in Michigan.

That the worms be checked in their efforts to spread or march to new fields is extremely important. Professor Pettit gives the following control methods:

Two methods are in common use in restricting the progress of Army-worms. One depends on a barrier to keep the worms from spreading into new areas and the other is by means of poison bait which actually kills the worms. The barriers or ditches are of most use when the worms are marching and threaten new fields. The commonest barriers used consist of two or three, deep furrows, plowed around the area infested, and spaced 8 or 10 feet apart. Turn the furrows toward the advancing worms, in order that when the worms tumble in the furrows they will have to climb up the smooth, land side in order to get out, then when these furrows fill up turn them under, thereby, leaving fresh furrows for the worms to fill. Now army worms work at night and during lowery weather and therefore, it will be necessary to keep watch of things all night for the few days that elapse before these worms get full size and descend into the ground.

Poison baits are most useful when the worms are scattered and also, they may be used in addition to the ditching. The following formula is one that has been very successful in the past and which is easily filled.

Sift together 1 pound of paris-green or 3/4 pound of white arsenic (not arsenate of lead) and 20 pounds of bran; add half a gallon of molasses or syrup and a little water, and stir in three oranges or lemons, ground fine in a food-chopper, skins and all. This may be broad-casted over from 2 to 5 acres of land. It is very attractive to both cut-worms and to grasshoppers. Do not try to substitute any other poison for the paris-green or white arsenic. Neither arsenate of lead or arsenate of calcium will do the work unless very large quantities of the poison are used. Neither should one use this bait where poultry are likely to pick up much of it, although the bait should be distributed in a finely broken up condition rather than in lumps.

## S. F. BIGELOW ADDS FINE BULL TO HERD

Sam F. Bigelow has sold the Hereford bull, "Keep on 31st," to Geo. Peddie, who intends to show a herd of white faces at Caro Fair next week. Mr. Bigelow returned Saturday from a trip among the Hereford herds of southwestern Michigan and reports the purchase of the calf "Dale Farmer," from Allen Bros. of Glendale, Mich. This calf is one of the best bred animals in the state and will no doubt be a valuable addition to the breed in this section. This is the third high class bull Mr. Bigelow has brought in and the quality of the Whiteface stock of the vicinity has been greatly improved by the new blood.

## JURY FINDS FOR FORD

A jury which for three months has listened to the accusations hurled at Henry Ford, the great manufacturer, said by their verdict Thursday night at Mt. Clemens that when the Chicago Tribune printed its famous editorial "Ford Is An Anarchist," it committed a libel.

"We find for the plaintiff in the case," said the foreman of the jury which has been wrestling with the problem for 10 hours, "and award to Henry Ford a nominal verdict of six cents."

## MARRIAGE LICENSES.

## NO BRANCHES TO EARLE MEMORIAL HIGHWAY

### PRESENT PLAN WILL CARRY ROAD FOUR MILES EAST OF CASS CITY.

Impossible to Accommodate All Demands with 500 Miles of Trunk Lines.

The Chronicle received the following letter from Frank F. Rogers, State Highway Commissioner, Wednesday morning:

"Replying to your favor of the 15th, I wish to say that the Earle Memorial Highway was laid from Wayne county line north through Almont, Imlay City and Marlette, thence due north to intersect the east and west trunk line in Huron county. This would carry the road four miles east of Cass City.

"Owing to the impossibility of accommodating all the demands with the 500 miles of trunk line, it was impossible to make any branches to this road. We did the best we could to serve the Thumb country with a straight line."

## CALDWELL-WETTERS NUPTIALS

### Pretty Wedding at the J. A. Caldwell Home Saturday.

A very pretty wedding was solemnized at the home of Mr. and Mrs. J. A. Caldwell on Seeger St., when their only daughter, Adah Mae, was united in marriage to William James Wetters of Bay City at high noon, Saturday, Aug. 16.

The ceremony was performed before a bank of ferns and gladioli, and the couple were attended by Miss Lora DeWitt as bridesmaid and Roy Wetters of Bay City, brother of the groom, as best man. The ring service was used with Rev. J. D. Young performing the ceremony.

The bride wore a beautiful gown of white silk marquisette over ivory white silk, richly trimmed with silver lace. The groom wore the conventional black. Following the ceremony, Master John Young, in keeping a jesting promise to "dance at her wedding" in return for a favor that the bride had done for him several weeks ago, was held to his promise and did some clever clogging, but in the midst of his performance, boy-fashion, produced handfuls of rice from some unknown source and plentifully showered the bridal party before they quite caught their breath.

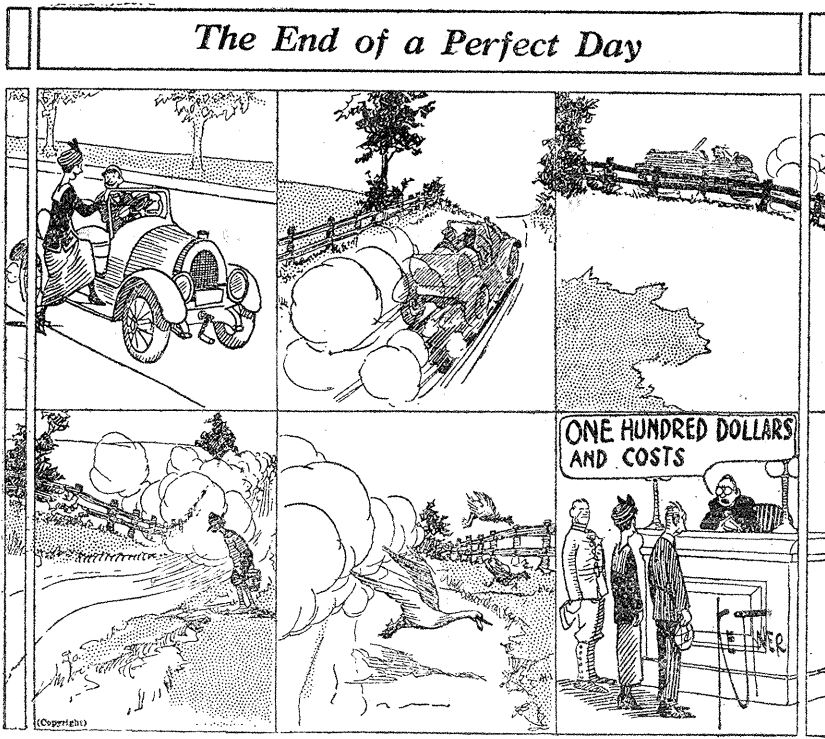

A color scheme of pink and white was carried out throughout the rooms with sweet peas, gladioli and smilax. A four-course luncheon with charming appointments of pink bridal rosebuds filled with confections as favors was served in the dining room. Mrs. Andrew Schmidt, assisted by the Misses Niva Gable, Thelma Hunt, Florence Striffler and Mildred Fritz served. The bride's gifts to her attendants were silver spoons.

Only the immediate relatives of the bridal couple were in attendance, those from out of town were Mrs. Wetters and Mrs. DeYoung, mother and grandmother of the groom, Miss Martha Wetters, Miss Frances Merrill, the Messrs. Rossiter and John, Harry and Geo. Wetters, all of Bay City, and Mrs. Donna Caldwell of Flint.

Mr. and Mrs. Wetters were the recipients of many beautiful and expensive gifts including, silverware, cut glass, linen, a Liberty Bond and three fifty-dollar checks. The happy couple left on the afternoon train for Detroit and will enjoy a lake trip to Buffalo, Niagara Falls and other points in New York and will be at home at 210 North Catherine St., Bay City, Mich., after Oct. 1st. Mr. Wetters is employed in the offices of the Bay City Foundry and Machinery Co.

## CUSTER CAVALRY RE-UNION

Custer's Michigan Cavalry Brigade Association will hold its reunion for 1919 at Detroit on Sept. 24 and 25. The headquarters will be in the Grand Army Building at the junction of Grand River and Cass Avenues.

## METHODISTS ARE CLOSING VERY SUCCESSFUL YEAR

### Congregation Extends Unanimous Call for Pastor's Return to Serve Fourth Year at Cass City.

Friday evening, Aug. 15, the fourth quarterly conference of the M. E. church at Cass City was held, 100 members of the congregation being present. Rev. J. D. Young, the pastor, was given a unanimous call to return for the fourth year, every one of the 100 votes cast favoring his return to the local church. A substantial raise in salary was also voted for Rev. Young, making it \$1,500 and parsonage.

The church was well represented and the reports from the various auxiliaries was most gratifying.

In addition to \$2,000 centenary fund which the church has subscribed for five successive years, there have been raised \$172 for the Anti-Saloon League, \$300 for retired ministers, \$236 for Woman's Missionary Work and \$200 additional for evangelistic work.

The pastor's report showed he had been in the pulpit every Sunday during the year except one when he was in attendance at the Centenary Celebration at Columbus, Ohio. He had received 21 into church fellowship this year and 127 in the three years of his pastorate here. He had attended 56 funerals during the year and officiated at the marriage of 15 couples, and had made better than 100 calls per month.

The state conference will be held at Owosso Sept. 17 at which time the ministers will receive their appointments.

## THUMB OF MICHIGAN ITEMS CLIPPED OR STOLEN

### Interesting Items About Folks and Events in Tuscola, Huron and Sanilac Counties.

From 3 1/2 acres, Geo. Corp of Marion township has threshed 175 bushels of wheat, or an average of 50 bu. per acre. He hauled 14 loads and it took four balls of twine to tie the grain. It is of the white variety and is said to be a fine sample.

W. Spitzer & Son have become proprietors of the Irwin hotel at Bad Axe, under lease from John Leonard. The Spitzers are well and favorably known to the hotel public. For a number of years they owned and successfully conducted the Morrow house in that city. Also the hotel at Cassville. For the past two years they have lived on their farm south of Bad Axe.

John G. Clark, manager of the Clark & McCaren Co. and president of the Michigan Wholesale Grocers' Association, says that present prosperity and money plenty is largely due to the fact that there are three billion dollars in general and useful circulation, which formerly was the annual cost of booze waste.

While threshing on the farm of William Cleland, a mile south of Charleston, Sanilac Co., sparks from the engine set a large straw stack on fire and spread to the barn. The barn was a large structure built L shape; one part was 36x54, other 32x40, and was razed to the ground. Two horses, three head of cattle, 234 bushels of wheat, 100 bushels rye, 64 bushels of oats and 45 tons of hay were consumed by the flames. The barn was insured in the Grange for \$900 and the contents for \$800.

Two Harbor Beach steam tugs and one gasoline tug have discontinued their operations in the lake because

of the light catches which have been lifted this summer. There are two steam and two gasoline tugs, however, which are continuing fishing and are experiencing fair success. It is probable that late this fall all tugs operating out of this port will again be placed in commission.

## WHEAT SMUT COSTS FARMERS PRICE CUT

### Deduction of Five to Fifty Cents Per Bushel Made—Experts Say Treat Drills and Bags.

Wheat smut is costing many Michigan farmers a price cut of from five to fifty cents a bushel on this year's crop, according to the statement of F. B. Drees, Sect. of the State Millers Association, Lansing. Mr. Drees points out that no smutted wheat will be bought at the central markets and that as a result the local dealers are compelled to cut below the government guaranteed price on all infected grain.

An anti-smut campaign is being put on in an effort to eliminate as much as possible of the wheat loss next year. The State Millers Association has distributed cards over the state warning farmers, millers and elevator men that drills and bags as well as seed wheat, must be treated for smut if the infection is to be controlled. In addition, extension bulletins from the Michigan Agricultural College which cover wheat smut and its treatment are being sent out, at the request of the State Association, to all millers and elevator men of the state. The millers will in turn distribute the bulletins among the farmers of their community who want information on treatment for smut.

The campaign is expected to result in a great lessening of the amount of smutted wheat for which farmers will suffer a loss next year.

## MEMORIAL SERVICES OF LATE FLOYD AUSLANDER

The memorial services of the late Floyd Auslander, killed in Russia Apr. 2, will be held at the home of his parents, Mr. and Mrs. Frank Auslander, 5 miles east and 3 1/2 miles south and 1/2 mile east of Cass City and one mile west, 1 1/2 mile north and 1/4 mile east of Shabbona, at 2:30 p. m. Sunday, August 24th. Services will be conducted by Rev. Bechtel.

## FRUTCHEY INTERESTS BUY PINCONNING ELEVATORS

The Cass City Grain Co. has purchased grain and bean elevators at Pinconning which will be under the management of E. C. Thomas of Bay City and Thos. Hartwick. The Pinconning business was organized under the name of the East Michigan Bean and Grain Co. a separate corporation, but a subsidiary to the Cass City Grain Co.

## FAIR PROMISES TO BE A BIG SUCCESS

The Chronicle goes to press early this week and for that reason cannot give detailed information regarding the exhibits, attractions and results of races at the Cass City Fair which is now in full swing. The fair promises to be a big success. Exhibits are especially good, a big string of horses are on the ground to compete for the race purses and the Midway was packed to its limit with concessions on the first day.

## TUSCOLA DAIRY MEN PLAN TRIP TO M. A. C.

### LOCAL HOLSTEIN-FRIESIAN ASSOCIATION WILL TOUR TO STATE MEETING.

### Breeders to Hold Big Summer Meeting and Picnic at Lansing August 23.

Tuscola county will be represented by a large delegation of Holstein breeders at the big Midsummer Meeting and Basket Picnic of the Michigan Holstein-Friesian Association and allied organizations at the Michigan Agricultural College, Saturday, August 23rd. A number of those who are planning to make the trip will go by automobile and President Oscar Wallin of Unionville of the Tuscola County Holstein-Friesian Association, suggests that they phone Secretary Henry Roheff at Akron and make the trip through in a party, as several delegations from other organizations are planning to do. A good early start in the morning should give plenty of time to reach East Lansing before the events start at eleven o'clock.

The forenoon will be given over to viewing the campus and visiting the college barns and herds and the following program will start at 1:30, following the basket lunch.

M. W. Wentworth, Battle Creek, Chairman.

"Address of Welcome" Dr. F. S. Kedzie, President of M. A. C.

"Reminiscences" A. C. Anderson, Prof. Dairy Husbandry, M. A. C.

"Scotch Songs", M. D. Cutler, DeWitt "Michigan's Harry Lauder"

A Message from "The Northwest" Senator J. M. Hackney, St. Paul, Minn.

"Greater Possibilities for Holsteins in Mich."

Hon. D. D. Aitkin, Flint, Pres. H.-F. Ass'n of America

The college campus is a beautiful place for a picnic and the program promises to be especially high class. Nearly every Holstein enthusiast from this county is expected to attend the meeting on Saturday.

## TO GET PROMPT REPLY

### From the Bureau of War Risk Insurance.

Former soldiers, sailors and marines, whenever writing to the Bureau of War Risk Insurance are requested to give the following information in order to secure a prompt reply:

Whenever you write a letter to the Bureau for advice or information, be sure to give the following information:

1. Full name (including first, middle and last name).
2. Address; City or town; street and number; county; state; R. F. D. route number, (if any).
3. Rank at the time of applying for insurance.
4. Name of army or navy organization at the time of applying for insurance.
5. Army serial number (if in the army).
6. The number of Government Insurance Certificate (if known).
7. Amount of war risk insurance the man intends to keep.
8. Amount to be paid to each beneficiary.
9. Whether the writer knows how his premium stands.
10. If writing about compensation, give compensation number, if known, or if in writing about allotment allowance, give allotment number, if known, in addition to information called for above.

## LIME SHOWS PROFIT ON MICHIGAN SOILS

### BIG INCREASE IN YIELD PER ACRE FOLLOWS FERTILIZER TESTS AT M. A. C.

### Acres Value Increased to \$49.80 on Soils Treated with Proper Fertilizers.

East Lansing.—That the yield per acre on many Michigan soils can be increased tremendously by the use of lime and complete fertilizers is shown by figures recently given out by Dr. M. M. McCool, head of the Soils Department at the Michigan Agricultural College. The figures are based upon extensive tests carried out in different parts of the state by the college soils specialists, and represent an accurate study of average conditions.

In fertility tests carried out on light soils in Southwestern Michigan by Dr. McCool and G. M. Grantham, the use of lime alone is found to increase the acre value of rye from \$19.75 to \$37.25. The use of lime and an high grade complete fertilizer in the same series of tests increases the acre value to \$49.80. The complete fertilizer used was composed of fifty pounds of nitrate of soda applied at the time of seeding, fifty pounds applied in the spring as a top dressing, and two hundred and fifty pounds of acid phosphate and one hundred pounds of potash applied to soy beans the previous year.

The typical heavy soils of central Michigan were also found to respond to treatment. Tests carried out by Dr. McCool and C. E. Millar returned \$16.20 per acre above the cost of treatment when an application of lime and acid phosphate costing \$3 per acre was made. Where lime, nitrogen, phosphoric acid and potash, costing approximately \$10.00 per acre, were used, the returns were \$43.50 per acre above the cost of treatment, showing clearly the actual cash returns from the use of proper fertilizers.

Information regarding fertilizers and tests to determine the proper fertilizers for any soil may be had by writing to M. M. McCool, Soils Department, M. A. C. East Lansing.

## UNDERNOURISHMENT CAUSES SPREAD OF TUBERCULOSIS

### T B C Germ Becomes Active When the System Has Been Run Down.

There are thousands of people in Michigan that literally do not get enough to eat, and as a result the ranks of those afflicted with tuberculosis is yearly recruited by a considerable number who would escape the disease if all people were properly nourished. This is the statement made by the Michigan Anti-tuberculosis association, basing it on observations made in many parts of the state.

Undernourishment is one of the principal direct causes of the spread of tuberculosis, the association points out. The tuberculosis germ is present in the bodies of most people, but it does not become active until the system has become run down by any one of a number of causes. The person who is undernourished is unable longer to resist the germs in his system and as a result he falls a victim to the disease.

In some cities the undernourished children are being fed on free milk in the schools, while in other places other methods are being used to make up a necessary diet for growing children. All of which helps somewhat, but at best, it is only a makeshift.

Among the dire results of the high costs of living is this one of undernourishment, especially in the cases of children, which in turn leads to tuberculosis and other diseases of this nature. Whether or not the present investigation into the high cost of living will lead to anything, it is a fact, the Michigan Anti-tuberculosis association declares, that the tendency of prices to rise faster than wages and salaries, is a cause for the increase of such diseases as tuberculosis that no state can afford to overlook. Whoever is to blame for the high cost of living is at the same time to blame for many deaths from tuberculosis each year, the association declares.

The only suitable comment to make on a large number of automobile drivers is about \$100.00 and costs, if not 30 days in jail.

He was found on Orchard Lake avenue while driving an automobile in which the officers discovered 80 quarts of whisky. He declared he did not know the liquor was in the car.

Lansing—With paid in capital of \$100,000, furnished by Columbus, O., and Grand Rapids men and the original purchase of land for their enterprise made, Attorney Roy E. Watkins, of Grand Rapids, applied to the secretary of state for permission to incorporate the Michigan-Ohio Land & Lumber company. The function of the proposed corporation is to raise farm products and sell them through agencies direct to the consumer.

Detroit—With the exception of the Pontiac and Wyandotte divisions and a few isolated cases, interurban fares have been increased between 10 and 45 per cent on all lines extending from Detroit. Increases ranging up to and beyond 100 per cent between certain points in the state are being contested by municipalities, appeals being taken to the state utilities commission. The new rates are permitted by a legislative measure, enacted the last session, allowing interurbans to set their fares on a straight two-cent-a-mile basis.

**PINGREE.**

Harvest is about completed in this community.

Miss Bessie Palmer of Pontiac visited at her parental home over the week-end.

Harold Western has moved his family to Pontiac where he recently purchased a home.

Everly A. Jones of Port Huron called in Pingree Monday looking over his real estate. He departed with a luscious load of pears.

Mrs. Irvin Goldsmith of Port Huron is visiting her parents, Mr. and Mrs. Timothy Pringle; also other friends and relatives here.

Charles I. Cooke is in receipt of the following letter from E. T. Hollman of the Michigan Agricultural College: "I have a letter under date of Aug. 8th from Mr. V. H. Church requesting that I write to you with reference to an eye disease among cattle. I suspect the trouble is infectious conjunctivitis. The proper treatment for this is to keep the infected cattle in darkened stables during the day and if it is desired to have them run on pasture permit this only at night. If it is not practical to keep them in darkened stables during the day the next best thing is to keep the eyes partly shaded with a heavy cloth around the forehead. The effected eyes should be washed out daily with a saturated aqueous solution of boric acid."

**NOVESTA CORNERS.**

**Ammonia.**

Ammonia is found in minute quantity in air, and is a natural product of the decay of animal substances. It is procured artificially by the destructive distillation of nitrogen organic matters, such as bones, hair, horns and hoofs, and is largely obtained as a by-product in the manufacture of illuminating gas from coal.

**When My Baby Was Sick**

I SHALL never forget that dreadful day when I wondered if anything would ever agree with my baby. Of course, I had tried to nurse him, as every mother should. And we had tried almost everything, it seemed—but he wouldn't gain weight or have the pink cheeks I prayed for.

And then our old doctor said—"You just add water and boil it—just the right amount—and the tough milk curds are broken up and easier to digest."

As I write, a sturdy, two year old plods gravely up to me and the dreadful day seems far away—for my baby is well.

Nestlé's is very easy to prepare

**LETTERS FROM OVERSEAS**

From Clifford J. Lucas.

Polch, Germany, July 19, 1919.

Dear Mother: Just a few lines to say I am well and hope you are the same. Well, I may just as well tell you I have re-enlisted for another year and that

will be until next May, 1920, so I will be going home with the Battery. There are some who are going to stay here. I wanted to stay but they said I was too good a man.

I have charge of two tractors, one small one and a big one. I can take them apart and put them together again and if anything goes wrong I can fix it. The officer that has charge of them told me when I get out of the army I can go to the company and get a swell job.

I am going to send you some fine pictures of different parts of the regiment. I have several pictures that I will send of the hike and the war. I would not take a good many hundred dollars for my experience over here. When I get home, I will tell you all about the close places I was in. You would not give the snap of your finger for my life, but I came through all right.

We drill about two hours in the morning and work on the tractor about one hour and we are through for the day. We don't do anything in the afternoon but go to a ball game or take a sleep. Will close for this time. From your son,

CLIFFORD J. LUCAS,  
Battery F., 18 Field Artillery,  
American Exp. Force,  
Polch, Germany.

**Avoid Habit of Musing.**

Few habits are more injurious than musing, which differs from thinking as pacing one's chamber does from walking abroad. The mind learns nothing, and is not strengthened but weakened, returning perpetually over the same barren track. Where the thoughts are sadder the evil is doubly great, and not only time and vigor are squandered, but melancholy becomes fixed. It is really a disease, and the question how it should be treated is one of the most important in anthropology.—J. W. Alexander.

**To Restore Tired Eyes.**

If the eyes are very tired and one specially wishes them to be as bright as possible, it is quite helpful to lie down for half an hour with the eyes closed; and a folded handkerchief dipped in cold water, in which boric acid powder is dissolved, laid across the forehead and eyes. This can be redipped as soon as the cloth is warm.

**Make Corn Harvesting Easy For Man and Horses**

Operating the John Deere Corn Binder, the Binder with the power carrier and Quick Turn Tongue Truck, is driving the horses chiefly.

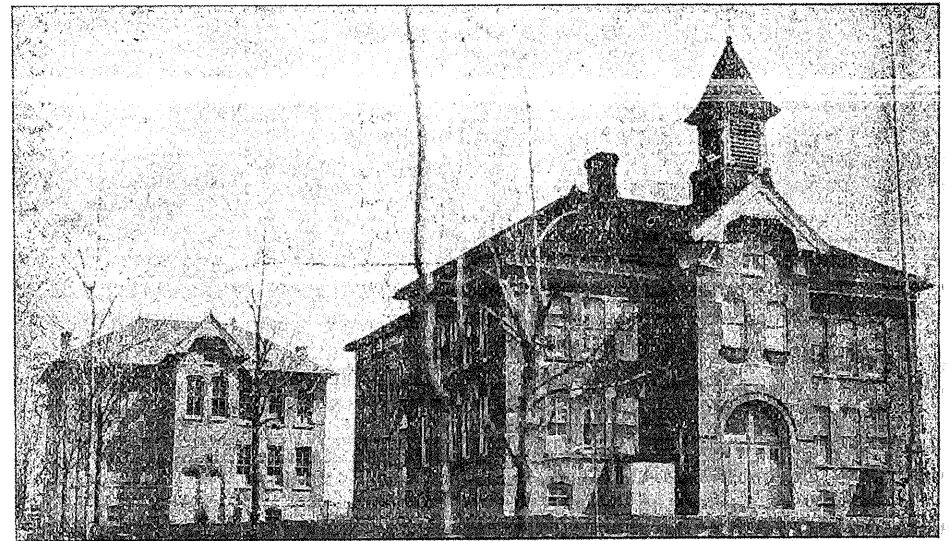

No effort is required to dump the bundles, simply press the foot trip lever—the power carrier, which is always in receiving position, does the rest. The bundles are delivered clear of the horses' path—the horses do not tramp on the bundles, knock off ears and break the tie strings. Practically all of the loose leaves are delivered with the bundles—not scattered over the field and wasted.

The Quick Turn Tongue Truck relieves the horses of all the pole whip and neck weight—makes turning at the end as easy as when hitched to a wagon. It keeps the binder running straight—does away with sluing on side hills because the axle is flexibly mounted, allowing the truck to conform to uneven ground conditions.

*We want you to come in and see this better binder—We want to show many other points about it that combined with the above make the John Deere the best binder investment you can make.*

*Come in the first chance you get and give us an opportunity to show you the best corn binder on the market.*

**The High School**

A complete, easy working reference library, expert instruction, fine laboratory equipment, a direct supervision and interest in each student makes Cass City High School the best in the Thumb.

The High School offers courses in English, Latin, French, History, and Science.

Graduation from Cass City High School admits to the University of Michigan and all colleges and universities of neighboring states.

Cass City's moral tone is such as to make it a most desirable place to send your boy or girl to school. Both school buildings have been thoroughly cleaned during the summer vacation and are in a sanitary and healthful condition.

The office at the High School will be open Friday and Saturday, Aug. 29 and 30, for consultation with the superintendent.

E. W. JONES, Secretary Board of Education.

**Tuition Rates**

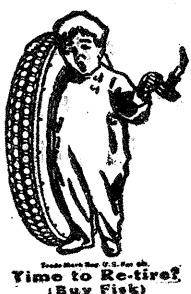

The tuition for non-resident students is \$30.00 of which \$25.00 is from the district from which the student comes, providing they have made application for it. This is payable \$12.50 in September and \$12.50 in January and the student or parent will not be required to pay the other \$5.00 until May or such time that the amount from the district is used up. This is according to instruction from State Supt. of Public Instruction. We would appreciate it if the districts would be prompt in paying their apportionments. We need it in meeting the expenses of the school.

FARMERS' SONS AND DAUGHTERS SHOULD HAVE A BUSINESS EDUCATION

When our grandparents, and even our parents, were boys and girls, about all the education necessary for successful farming was 'Readin', Writin', and Rithmetic.' All the machinery necessary was a plow, scythe, cradle and jumper. Today it is different. Now we have the latest in tractors, binders, threshers and automobiles—in fact there is a machine for every operation on the farm. Real manual labor alone is no longer the most important and most profitable requirement of a successful farmer. IT IS GOOD BUSINESS MANAGEMENT along with hard work THAT COUNTS. Some people are inclined to think that farming is not a business—but it is—the most important business—without which all other business would collapse. Some people think that farmers' sons and daughters do not require a business education—but if it is the most important business, it certainly is important that all boys and girls on the farm should have a business education. Those who do are invariably the leading men and women in their community, are the officials of the township and county, officers of the various organizations in the locality, etc. Parents should give their sons and daughters a course in a good business college. There is no better equipped and up to date school than The Port Huron Business College. It is nearer to you than any other good school. Write for free information about their courses, etc. to P. R. Stringer, Prin. Port Huron Business College.—Adv. 8-15-3

Buy Your Coal Direct From Mine—Big Saving

The high cost of coal is a thing of the past! At least, there are no complaints on this account—since the removal of government restrictions—among those who have learned how to buy coal. The way to buy coal is to get it direct from the mines. This saves several middlemen's profits. It saves hauling expenses. Anyone can now buy at mine prices, whether a car-load buyer or one who uses only ten or fifteen tons a year. This has been made possible through a plan evolved by a large and old-established concern, THE BERNICE COAL COMPANY, with main offices at 1001 Como Building, Chicago.

This company has thousands of customers in various sections of the United States who receive all of their coal direct from the mines. These customers are pleased not only because of the many dollars they save every year, but also because of the quality of coal they are getting. Many write that they never before had coal that makes so little dust, that burns so well, leaving so few ashes. If you are a coal user—whether you use hard or soft coal, much or little—it will be greatly to your advantage to write the Bernice Coal Co. at once for prices, stating kind and quantity of coal you use.

### THE MOST DANGEROUS DISEASE

No organs of the human body are so important to health and long life as the kidneys. When they slow up and commence to lag in their duties, look out! Find out what the trouble is—without delay. Whenever you feel nervous, weak, dizzy, suffer from sleeplessness, or have pains in the back—wake up at once. Your kidneys need help. These are signs to warn you that your kidneys are not performing their functions properly. They are only half doing their work and are allowing impurities to accumulate and be converted into uric acid and other poisons, which are causing you distress and will destroy you unless they are driven from your system.

Get some GOLD MEDAL Haarlem Oil Capsules at once. They are an old, tried preparation used all over the world for centuries. FERTILIZERS

I HAVE 4 cars of Fertilizer on the way, all to be delivered at Gagetown, Cass City and Deford not later than September 1st. I am ready to prove that our local dealers charged from \$2.00 to \$3.00 more per ton for the same analysis of fertilizer than I sold it for and if they can duplicate my prices now it is proof positive that the farmers have been paying from \$3.00 to \$5.00 too much per ton for their fertilizers. I will give you a special discount at the car and I guarantee to save you money on your purchase. So stay by the man who put down the price.

What Fordson Service Will Do For You

There are two big factors to consider when you are buying a tractor—both equally important—the tractor itself and the service rendered.

A tractor which is standing idle because the service station is far away or because the dealer hasn't the proper parts is a poor investment, no matter how well the tractor itself may be made.

Fordson Tractors are selling by the thousands every month and are giving universal satisfaction all over the world because of this:

The tractor itself is made as durable, dependable, efficient and economical as the best engineering skill, the finest materials and workmanship can make it.

And added to this, wherever a Fordson Tractor is sold, you will find parts and service as quickly and easily available as the kerosene you put into the tank.

Our service means this to you. First, that we will thoroughly instruct you how to get the most out of your tractor—how to operate it properly so as to avoid trouble—how to make all minor repairs and adjustments so that only on rare occasions will you have to call for help.

Then when you do require help for repair work or parts you will find us ready at a moment's notice.

Our stock of parts is complete, our mechanics are experts.

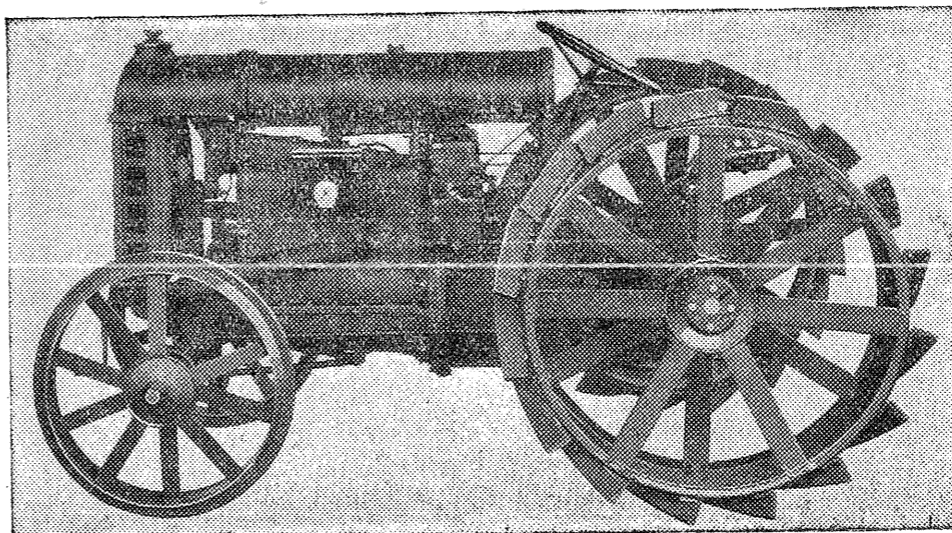

Fordson service is delivered to your farm.

To own a Fordson means that you own a durable, dependable, economical tractor that will serve you every working day in the year.

The Fordson Company make it durable and dependable.

We keep it so.

### Michigan News Tersely Told

Detroit—Henry Otto, 46 years old fell from a stepladder at his home and fractured his skull. He died in the hospital.

Saginaw—Filtration offers the only practicable solution of Saginaw's water supply problem, according to Maj. E. D. Rich, state sanitary engineer.

East Lansing—Federal regulations call for a heavy price discount on all wheat which is mixed with rye, according to notices being sent out by the Michigan Millers' association.

Port Huron—The breaking of his safety strap is thought to have caused the fall of Bernard Hochleitner, 24, a returned soldier, from a telegraph pole. He died within a short time.

Mancelona—Tom Loper, Alba, arrested for refusing to help fight forest fires when called on by the Star Township fire warden, was found guilty, but freed when he paid costs of the case.

Big Rapids—Elmer Coe and a small boy who was with him narrowly escaped death when Coe went to sleep while driving a motor truck. The truck went over an embankment with a load of pickles.

Detroit—Custer's Michigan Cavalry Brigade association will hold its 1919 reunion in Detroit, September 24 and 25, the first date being the fifty-fifth anniversary of the fight at Luray, Va., where the brigade suffered severe casualties.

Bay City—Andrew Pietrowski, 67 years old, was fined \$25 in police court for assault and battery on a child four years old. Pietrowski keeps a little store and the children in the neighborhood have bothered him. He used a whip.

Grand Rapids—Effects of wounds received during the Civil War caused the death here of A. A. LeClear, dean of West Michigan photographers. He was 78 and had been awarded the centennial exposition grand prize as national photographer.

Dearborn—Judd A. Richardson, wealthy farmer of Novi, was instantly killed here when he drove his automobile directly in front of an approaching interurban car. Richardson was decapitated and his body badly mangled. His automobile was wrecked.

Monroe—Dean Trabbic, of Erie, a short distance from Monroe, former deputy sheriff of Monroe county, was killed by four unidentified men. Trabbic is believed to have been slain by rky runners whom he arrested some weeks ago.

Battle Creek—Unofficial information has reached Camp Custer that its soldier population is to be increased four to six times within six weeks. The report is given credence by most of the officers. Some such step is necessary, as there are insufficient enlisted men to perform the necessary work.

Hudson—Colonel William B. Thompson, 81 years old, prominent in Michigan politics for half a century, former second assistant postmaster-general and at one time treasurer of the national Republican committee, died at his summer home at Hayden, near Middleton, Me. Colonel Thompson, formerly lived in Hudson.

Portland—At a meeting of 60 business men it was decided to hold a town celebration September 6, steps were taken to start a home building campaign as a result of factory extensions and a housing shortage, and arrangements were made to handle the ice shortage by importing a supply. A municipal ice plant to care for Portland next year is projected.

Lansing—Despite the pronouncements of action against "profters" emblazoned in many public prints, there is no way of proceeding against profiteers as such, according to the prosecuting officials but only when they have gone into agreements to control prices or supplies, can action be taken. Naturally, these agreements are usually made for no other purpose than "profiteering" and undoubtedly most of the profiteers can be reached through the state's anti-trust laws, the prosecutors declare.

Detroit—Henry Ford's gasoline-driven street car is rapidly nearing completion in the Dearborn shops and is expected to make its trial run within the next 60 days. Two hundred and fifty men are at work in the tractor plant on various parts, while hundreds more are busy in Cleveland building the special body. The model car is of the suburban type, which he intends building. However, it is planned to immediately start constructing the smaller type for city service as soon as the test run is completed.

Royal Oak—Three-year-old Dean Duncan, was thrown through the windshield of an automobile on Woodward avenue, when the machine of A. R. Orchard, of Royal Oak, and that of H. B. Rice, of Detroit, met head-on. The boy's neck was cut for six inches and the jugular vein was just missed. Rice was arrested, charged with violating the Lewis liquor law. It was found he had a quart of whisky and a case of home-brewed beer in his auto, and it is charged he drove on the wrong side of the road. He was released on furnishing \$3,000 bail.

### The WEEK'S DOINGS

Miss Florence Smith came from Bay City Tuesday and is assisting at the Pleasant Home hospital this week.

Mr. and Mrs. Lester Childs and son, Kenneth, of Unionville were the guests of Howard Lauderbach Sunday.

The Misses Marguerite and Vina McPhail of Detroit are spending the week with their sister, Mrs. G. L. Moore.

Mr. and Mrs. Clayton Schenck and children and Delmar Striffler spent Sunday with Mr. and Mrs. Robert H. Orr at Pigeon.

Ernest Croft of Sheridan, who recently returned from 15 months' service overseas, greeted Cass City friends Tuesday.

Dr. and Mrs. C. W. Clark and baby, Emily, of Caro called at the home of Mr. and Mrs. John Zinnecker on So. Seeger St. Sunday.

Mrs. Maud Matthews and daughter and Mrs. L. C. May and three children, all of Detroit, are guests at the E. A. Geitgey home this week.

Miss Wilma Striffler returned from Pigeon Friday and Miss Mary Striffler left the same day for a visit with their sister, Mrs. Robert H. Orr.

Mr. and Mrs. Earl Moon left for their home in Pontiac Wednesday after a visit with Mr. Moon's parents, Mr. and Mrs. Bert Moon, on So. Seeger St.

The Misses Virginia and Helen Wilsey motored to Marlette Monday to be the guests of Miss Gracia Hanley, a classmate of Virginia's at Western College, Oxford, Ohio.

Mr. and Mrs. B. F. Benkelman and their guests, Mr. and Mrs. Jno. Bucholz, and daughter, Nina, and Mrs. Omans of Sturgis enjoyed a day's outing at Bay Port Sunday.

Dr. M. M. Wickware motored from Detroit Sunday and in company with Mrs. Wickware and son, Kenneth, enjoyed a few days' camp at Oak Bluff. He came to Cass City Tuesday.

Otto Nique and daughter, Eleanor, of Decker visited at the home of J. H. Striffler Tuesday. Misses Margaret and Laura Striffler returned to Decker with them for a short visit.

Mr. and Mrs. Levi Delong and daughters, Mrs. Ernest Reagh and Mrs. John Dickinson of Bad Axe, returned Thursday evening from an extended motor trip thru various points in Canada.

Mr. and Mrs. August Daus, Mrs. A. McKim, Miss Hester McKim, Miss Margaret Lamb of Detroit and L. H. McKim of Ann Arbor enjoyed a motor trip to Port Austin and Pt. aux Barques Tuesday.

A party of campers consisting of Mr. and Mrs. Jno. Spurgeon and Mr. and Mrs. A. J. Wallace, chaperoned (?) by Dr. S. A. Bradshaw, enjoyed the fine bathing beach and breezes of Lake Orion from Friday until Monday.

A Chronicle liner restored \$13.00 to Mrs. Stewart Charles of Deford, which she had lost while shopping in Cass City. John Spurgeon found the money on Main St., and the day after the liner appeared in the Chronicle, it was again in its owner's hands.

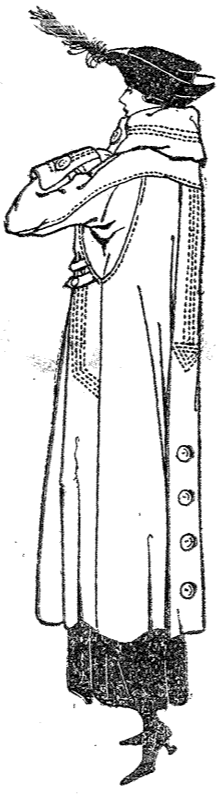

Ex-county clerk Robt. Brown and his wife are enjoying a trip to western states. Mrs. Brown, in a note to the Chronicle, asks to have this paper forwarded to Marysville, Washington, for she says, "Our vacation would not be complete without the Chronicle to cheer us."

Mr. and Mrs. B. L. Middleton and daughter, Frances, returned home last Friday after an enjoyable motor trip to Crosswell, Sarnia, and Arkona, Ont. They were accompanied on the trip from Crosswell by Mr. Middleton's parents, Mr. and Mrs. L. B. Middleton.

The Rebekah lodge tendered the newlyweds of their membership and their husbands a reception at their lodge rooms on the third floor of the Sheridan building Friday evening. A pot luck supper and social evening with music was enjoyed by a large number. The honor guests were Mrs. Morton Orr (Lottie McQueen), Mrs. Arthur Atwell (Lena Rice), Mrs. Edward Buehly (Jennie Gardner) and Mrs. Gordon Finkbeiner (Fannie Hendrick).

Complimentary to Miss Adah Caldwell, whose wedding was an event of Saturday, Miss Lura DeWitt gave a miscellaneous shower at her spacious home on Third St., last Thursday evening. The guests included members of the Priscilla club, and close friends of Miss Caldwell. The evening's entertainment was unique. Fortune-telling by Mrs. Donna Caldwell of Flint, aunt of the bride-elect in tea readings and by Mrs. M. F. Rittenhouse with cards afforded much amusement for the guests. At the close of the evening delicious refreshments were served. The bride-elect was the recipient of many beautiful and valuable gifts of cut-glass, silver, Pyrex and linen, attesting to the high esteem in which she was held by her many friends.

### Great Writer's Wondrous Cane.

One of the famous canes of the world was that of Balzac. It gave him, according to one of his observant contemporaries, "a rapture of self-satisfied vanity. It was as big as a drum major's staff, and was ablaze with rubies, diamonds, emeralds and sapphires. On it was a huge gold knob containing a lock of hair of a lady admirer. Balzac never appeared in public without that stick, and all the jewels that he bought or had presented to him he put into the cane."
