THRIFT WEEK.

"Thrift Week," which the government asks to have celebrated beginning January 17, should not be flippantly passed by as ordinary advertising propaganda.

The people of this country are living too fast. Great numbers have gone on a financial spree.

Many working girls wear silk stockings to the shops where they do the roughest kind of work. Some families where conditions of poverty used to prevail, will buy several phonographs, so that several of the children can operate them at one time. People who but a few years ago were living in fear of the sheriff, now have fur coats costing \$300.00 and upward.

This kind of joy riding can not last. People of any sense will lay an anchor to windward. A bank deposit not merely provides assurance against future emergency, but it brings in a permanent income every year.

Extravagance increases the cost of living. It gives producers the idea that the public will pay any old price, and thus encourages profiteering. It diverts producing facilities from necessaries to luxuries. It creates scarcities of everything, which

Immediately before passage the bill was amended, upon initiative cf Senator Borah, Republican, of Idaho, to provide that persons whose propaganda literature has been excluded from the mails shall have recourse to instead of having to institute suit in Washington against the postmaster

It is provided in the bill that change of the form of government by peaceable means may be lawfully proposed in propaganda literature, but that to propose such change by violence shall be deemed sedition and be punishable

Maximum penalties fixed in the bill are a fine of \$5,000 and five years' imprisonment, applying to all acts or cir-The bill also bars from the mails any matter advocating force or sabotage.

Principal attack on the bill was aimed at the mail exclusion section, which opponents declared would confer press censorship power on the postmaster general.

Earthquake Experience.

Mexico City.-Unique in the annals of the earthquake is the experience of the family of Prof. Francisco Riveros, of Barranca, Neuva. The quake opened a great chasm in the earth, in which their home was engulfed. For more than a week members of the family have been living in the bottom of this abyss at least 140 feet below the surface of the earth.

Millions Died.

New York.-Thirty million men, wonen and children have died in Russia rom violence, famine and disease during the last three years, according to L. I. Wood, a statement made by Princess Cantacuzene-Speransky, granddaughter of Ulysses S. Grant, in an appeal in behalf of the American Central Commit. tee for Russian relief. The tremendous death toll mentioned by the princess was exclusive, she said, of 5,000,-900 men killed on the Russian front

. .

I have just ordered seven cars of Fertilizer containing 266 (two hundred sixty-six) tons of High Grade Stock, all of which is sold except 20 tons. So any one desiring Fertilizer from me for spring will surely save money by ordering now as I will not be ordering any more before fall. Get my prices and buy where you can do the best.

Later Communication

I have just received word from Company that they can furnish me with a limited amount of 5 per cent Potash which I can sell for \$44.50 per ton, with \$1.00 off up to July 1st, which is less than others are charging for their 4 per cent Potash with a cheaper filler. All orders taken by me may be changed or increased by notifying me any time before Jan. 20th. Cars will be shipped promptly.

Since my return to Cass City I have been forcibly struck with the change that I find here. Now the farmer who is not prosperous is the exception; the telephone is in nearly every home, many drive autos or Fords, most of them pay their bills by check against their bank account, like any other business man, and it does seem as though the farmer is literally in the heyday of his prosperity.

To me this local condition seems largely due to the lowly cow. The Cass City Condensary now is distributing amongst us nearly

The Successful Farmer Raises Bigger Crops

and cuts down costs by investment in labor-saving machinery.

Good prices for the farmers' crops encourage new investment, more production and greater prosperity.

But the success of agriculture depends on the growth of railroads—the modern beasts of burden that haul the crops to the world's markets.

The railroads—like the farms—increase their output and cut down unit costs by the constant investment of new capital.

With fair prices for the work they do, the railroads are able to attract new capital

for expanding their facilities. Rates high enough to yield a fair return will insure railroad growth, and prevent costly traffic congestion, which invariably results in poorer service at higher cost.

National wealth can increase only as our railroads grow.

Poor railroad service is dear at any price. No growing country can long pay the price of inadequate transportation facilities.

Full and Running Over

Our stock room is full of Genuine Ford Parts. We have an assortment of parts that would enable us to build either a Ford passenger car or a Ford One Ton Truck from the ground up. Then too, those parts are Fordmade-each according to its use-so that they are exact duplicates of the original parts now in your car, and will give the same constant, hard wear.

Our shop is equipped with up-to-the-minute tools and machinery, specially designed, so that we can properly and promptly take care of your repair work—from a minor adjustment to a complete overhaul. And the mechanics who will do the work for you are men who understand the Ford mechanism and who know the Ford way to do the work.

We are Authorized Ford Dealers; we not only give Ford service but we sell Ford cars and Ford One Ton Trucks as well. So, it is easy to understand that we have more than a passing interest in your car.

Drive to our garage for Ford Parts, Ford Service or Ford Cars-Come to authorized Ford headquarters and be on the safe side of dependable repairs.

Income Tax and Farm Record Book

Mr. Farmer. Are you interested in your Farm Records?

Have you any idea what your receipts have been for the year?

If not, you had better get started, you'll be surprised in your totals.

Your doing better than you thought for.

Are you ready to make your report to the Government Census?

Uncle Sam don't want guess work, and you should not be content in giving it. Do you watch carefully your expenses? What does it cost you to run your farm?

Don't guess-know. Instead of giving out the customary calendar to our patrons we felt it would be more beneficial to give the farmers of our community something that will aid them in keeping records of farm expenses and receipts. It's complete.

Are you interested? If so, the book is yours for the asking. Best wishes for a Prosperous and Happy New Year.

Former Senator William Alden Smith of Grand Rapids, can now say, along with Mark Twain, that "the reports of his death were greatly exaggerated." An article on "The Newberry Case," has appeared in the current number of a popular magazine Among other things this article says, "Newberry, it will be remembered, defeated Henry Ford in 1918 for the United States senate seat left vacant by the death of the Senator, W. A. Smith." Politicians don't remember of the death of Mr. Smith and are not even sure that he is dead politically.—Albion Recorder.

Mid-Winter Bargains at Zemke's

The conditions this year make it impossible for us to make great reductions on staple goods. Our prices during the past ten months have been far below the market value, due to the fact that we have been buying goods from two to three months in advance. Our prices today on many items are far below the market price, making it impossible for us to maintain these prices beyond our January sale. Spring goods at advanced prices are now coming in, and that is why we want to urge you to do your buying as much as possible during our Mid-winter Sale. Besides the regular and staple merchandise of which we have urged you to buy before the new prices go into effect, we are offering great reductions on

Vote Confidence in Executive Officers and Will Abide by Final Decision.

Columbus, O.-By the overwhelm ing vote of 1,634 to 221, the reconven ed convention of the United Mine Workers of America voted affirmation of the action of the international officers in accepting President Wilson's proposal to settle the coal strike.

According to Acting President Lewis and other international officers, the affirmation carries with it an agreement to abide by the decision of the commission named by the President to arbitrate the differences be tween miners and operators.

The vote was taken after three days' debate on a motion presented by Phillip Murray, president of the Pennsylvania miners' organization, calling for indorsement of the course pursued by the international officials. Wide latitude was given all delegates to express their views.

CASS CITY BANK OF I. B. AUTEN & SON

January 5th, 1920.

HE friends of the Cass City Bank will be glad to learn, I am sure, that my son, Meredith B. Auten, has become a partner in the business.

It is now thirty-seven years since this bank was founded with a small working capital. This was increased gradually during the years that followed until the bank came into my possession twenty-five years ago, when its capital was \$20,000.

In 1917 this sum was further increased to \$30,000. We are now entering upon our second quarter-century with

a paid-up capital of \$40,000.

I take this opportunity of acknowledging with gratitude, my indebtedness to my friends for their loyalty during these years of

Swiftly the story of the killing by coison of Henry Donaldson is being told by the several witnesses that have come forward or are being located by investigators. The illness from which he died lasted but nine days, or even less than that, for there was a period between two severe attacks of the mysterious illness in which Donaldson was able to get up and about the little town of Blanchard.

Officers declare there had grown up in the latter months of Henry Donaldson's life a friction between himself and his younger brother, based on the alleged friendliness of Elmer "Dyke" Donaldson, who married his brother's widow, 13 days after Henry's funeral. for Mrs. Donaldson. The man now dead is said to have frequently objected to what he believed to be attentions by Elmer to his wife.

About two weeks before he died Henry Donaldson went to Lansing to bring his wife to Blanchard from the Phone, Office 96--2R; Residence 96--3R home of Mrs. Donaldson's father, William Wright, one of the three people now detained by the Isabella county authorities, the other two being Mrs. Donaldson and her present husband, Elmer Donaldson.

On the journey from Lansing to Blanchard, Henry Donaldson was taken violently ill. He had severe pains in the back followed by semi-paralysis Office on Main St. opposite Com- of the legs. FARMERS --- COMMON SENSE IS NEEDED

Isn't it time for agriculturists of the nation to get together and take care of their own business affairs in a businesslike way and have something to say about the prices that are to be paid for the products of their farms?

With labor fighting capital and capital fighting labor, imperiling our national life, doesn't the country need an expression of the "horse sense" of the farm to force these classes to terms and restore economic peace in this country?

But Organization is necessary if the farmers of this State and of the nation expect to make their demands for a "Square Deal" heard. And now, ready to do the farmers' business in an efficient, business-like way, is a big, powerful, respected federation-

THE MICHIGAN STATE FARM BUREAU

-It is ready to go to work for you. It is ready to solve your problems, commercially, legislatively and educationally. You owe it your sincere support-morally as well as financially. It cannot succeed in doing the important things it intends to do to make farming more profitable and attractive if it lacks the hearty, spirited backing of the majority of the farmers of the State. It can be no bigger than its individual members make it. Get in line and help make it the biggest, strongest and most efficient farm organization that the state, the nation and the world have ever known.

FARMERS ALL OVER MICHIGAN

-are recognizing the power that is theirs in unity and so are joining the MICHIGAN STATE FARM BUREAU as fast as the state membership drive strikes their county. The state campaign, now reaching into Tuscola is young-scarcly three months old-but already it has won the support of more than 13,000 farmers in Oakland, Barry, Gladwin, Lapeer, Allegan, Genesee, Montcalm, VanBuren and St. Clair counties, who have realized the vital importance of the Farm Bureau movement to the future of farming and have signed up on a basis of \$10 a year—of which \$5 remains in the county for farm improvement work and \$5 goes into the state and national organizations' treasuries.

Farmers of Tuscola County "Let's Go"

with the rest of the progressive farmers of Michigan and help build the Michigan State Farm Bureau into a bulwark for the farming industry of this state.
