

## GOOD ROAD MEETINGS IN CO.

### DESIRABILITY OF ADOPTING COUNTY ROAD SYSTEM TO BE DISCUSSED.

W. M. Bryant, W. S. Linton and Senator Penney Are Among the Speakers.

Good roads meetings will be held in Tuscola county as follows:

- Reese, March 9, at 2:30 p. m.
- Fairgrove, March 9, at 7:30 p. m.
- Akron, March 10, at 2:30 p. m.
- Unionville, March 10, at 7:30 p. m.
- Gagetown, March 11, at 2:30 p. m.
- Cass City, March 11, at 7:30 p. m.
- Kingston, March 12, at 2:30 p. m.
- Caro, March 12, at 7:30 p. m.
- Mayville, March 13, at 2:30 p. m.
- Vassar, March 13, at 7:30 p. m.

Willard M. Bryant, of Kalamazoo, field secretary of the Michigan Good Roads Association will address all these meetings. It is expected that Hon. W. S. Linton of Saginaw, Senator Penney of Saginaw, and several other speakers from outside of the county, together with a number of our local speakers, will also address the meetings. It is also expected that the State Highway Department will be represented.

The object of these meetings is to discuss Good Roads for Tuscola Co., to discuss the desirability of adopting the County Road System, and also the proposition as to whether it is not necessary to adopt the County Road System in order that Tuscola County may get her share of the fifty million dollars for which the State is bonded for Good Roads purposes, together with Tuscola County's share of the money furnished to the State by the Federal Government for the improvement of the highways.

All these matters are of vital interest to our citizens of Tuscola County. Come out and attend these meetings and discuss these matters, and let us have a thorough understanding, so that we can vote intelligently at the coming election as to whether Tuscola County shall adopt the County Road System or not. Only five counties in the State are outside of the County Road System and these five will vote on the proposition this Spring.

## JONES SHOWERED WITH HONORS AT STATE MEET

Re-elected President and Chosen Delegate to Attend National Grocers' Convention at Atlanta.

E. W. Jones, Cass City grocer, was honored by being re-elected president of the Retail Grocers and General Merchants' Association of Michigan which held its 22nd annual convention in Grand Rapids last week. He was also unanimously chosen as delegate to represent the state association at the national convention which convenes at Atlanta, Georgia, in May. An additional mark of appreciation for Mr. Jones' excellent work as an official was the presentation of an imported hand carved Chinese ring from the association. Mrs. Jones was remembered with a beautiful cut glass bowl and their two daughters with gold pins.

The 1920 convention was well attended and was one of the best on record. While the entertainment features were much enjoyed the real meat of the convention was the consideration of practical matters relating to the every-day problems of a merchant. These were profitably discussed and the interchange of ideas made each attendant the better qualified to take up the business burdens.

## DUNCAN MORRISON

Pioneer Settler Passed Away Thursday, February 26.

Duncan Morrison, a pioneer settler of this community, passed away at his home on Woodland Ave. on Thursday evening, Feb. 26, after a lingering illness.

He was born in the Province of Quebec, Canada, April 18, 1838, and grew to manhood in that province. He came to Michigan in 1861 and was married to Eliza Wallace at Saginaw in 1871. They immediately settled on a farm north of Cass City where they resided until about 17 years ago. Since then they lived at Gagetown and Cass City.

Mr. Morrison is survived by his sorrowing widow and three sons, Norman, of Cass City, Malcolm of Kalispell, Mont., and John of Rockford, besides other relatives and friends.

Funeral services were held at the family residence Sunday afternoon, Rev. A. H. Butzbach officiating.

## TEACHERS ORGANIZE EDUCATIONAL ASS'N.

Despite the curtailed train service, the meeting of rural school teachers held at the court house at Sandusky Saturday afternoon was well attended and most enthusiastic. While primarily the meeting has been held as a means of obtaining much needed increases in salaries, it was decided to form a permanent organization to be known as "The Educational Association of Sanilac County." An executive committee of five was named to formulate a constitution and by-laws, as follows: Lewis Cook, Carrie E. Klaus, Irene Colby, H. H. McLean and H. T. Mills. Jacob Turnbull was made chairman and H. T. Mills secretary of the association.

Following an open debate of the question of wages for the future, the following schedule was unanimously adopted by the teachers in attendance at the meeting:

The minimum for an experienced teacher for the term of 1920-21 shall be \$100 per month. The minimum for inexperienced teachers shall be \$80 per month. Teachers now receiving at or near the minimum wage should have at least an advance of 25 per cent. By experienced teacher is meant one who has taught a full term or more of school.—Sandusky Tribune.

## LEGION MEN WANT LIVING MEMORIAL

MANY COMMUNITIES WILL ESTABLISH CIVIL CENTERS TO HONOR MEN.

Members of Adams-Seeger Post Speak in Favor of Proposition.

"One of the worth-while compensations of the Great War was the way in which it intensified all over America the sometimes latent community spirit, giving it new life and splendor through the sacrifices that it inspired for the common cause," says a recent bulletin of the Bureau of Memorial Buildings of War Camp Community Service. "Though the war is over, this community spirit is still a vitalizing force. A striking evidence of this is to be seen in the resolve of many cities and towns to erect as memorials to their sons who fought and died to save liberty and democracy, community houses that shall perpetuate these young heroes' ideals of service by giving service."

"About 700 communities, many of them small towns, have been so impressed with the many ways in which a Liberty House, as many of these memorial community houses are being called, would invigorate and intensify their community life," the bulletin says, "that they are inclined to favor the erection of such a building, although they have not yet made formal decisions. Other cities and towns, totalling 343, have decided definitely to erect memorial buildings. They believe a 'live' building is better than a dead statue, however beautiful the statue may be.

"The community buildings proper—the Liberty Houses—all have a common purpose. This is to commemorate the dead by providing a place where the principles of liberty and democracy for which they fought may be inculcated. Though there is no standard type, each house is a center for the recreational, civic, art and even educational activities of the communities, where these are not fully provided for by existing institutions. Each has a memorial hall or room with tablet and perhaps a war museum or war library."

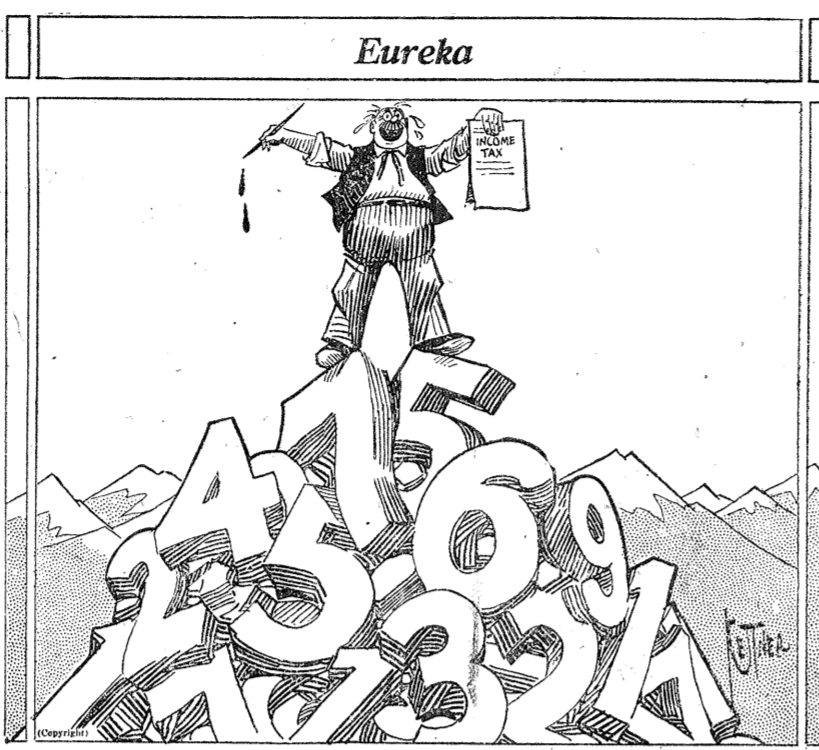

Earl L. Heller and Eugene Schwadener, members of the Adams-Seeger Post, American Legion, appeared before the Woman's Study Club Monday afternoon and presented the matter of maintaining a community house in Cass City before members of the club. Mention was made of the purchase of a building on Main St. and remodeling it for a community house. The subject has been discussed informally among business men during the week. Several are opposed to the remodeling proposition and say they are willing to subscribe more liberally towards a new building erected especially to suit the needs of a project of this character. Harbor Beach recently established a community house and popular subscriptions secured for the project in that city and the surrounding country totalled approximately \$23,000.

## FARM MEN TURN TO GAS ENGINE STUDY

Constantly increasing interest in gas engine power on the farm is indicated by the large number of men who are electing truck and tractor study at the Michigan Agricultural College. More than 70 are enrolled in a four-weeks' course which has run through February, while twice this number are expected when the second and last of the tractor schools opens on March first, to run until March 27. Michigan farmers have taken up gas power in earnest since the war, and demand for adequately trained truck and tractor operators is making the special courses at the college unusually popular.

## YOUNGSTER OF 11 TIPS SCALES AT 215

Cass City boasts a youngster of 11 who tips the scales at 215 pounds and stands six feet high. No, the accompanying picture is not that of the proud daddy, but of the lad himself.

Dr. James T. Redwine, well-known and popular local physician, celebrated his 11th birthday anniversary on Sunday, Feb. 29. The doctor has often been envied by the gentler sex because of the infrequency of his birth anniversaries, but a birthday coming once in four years has its shortcomings too. If given a strict observance, it means less birthday cakes and neckties.

The good doctor has evidenced his friendship for the Chronicle editor by inviting the newspaperman to take dinner with him the next time the physician's birthday falls on Sunday. Dr. Redwine figures that this will occur 40 years from last Sunday.

## ARE PATENT EGG PRODUCERS FAKES?

M. A. C. Man Questions Value of Tablets Sold in State—Contents Analyzed.

Serious question as to the value of various so-called egg producing tablets which are finding large sale to poultry interests throughout Michigan is raised by Prof. A. J. Patten, Experiment Station Chemist at the Michigan Agricultural College. Analysis of the contents of several of these products has failed so far to reveal elements which can be expected to stimulate egg production in any way.

"Our feed inspectors are finding these egg production tablets all over the state," says Professor Patten, "and indications are that at least three or four brands are being sold on a large scale. Those which we have examined so far contain only common elements, such as salt, iron oxide, calcium carbonate, magnesium sulphate, etc., to which are usually added fenugreek or anise. There is nothing in the tablets which could seem to stimulate egg production in any way."

The high price of eggs at the present time is said to be creating a good field for the sale of the compounds, as poultry raisers are ready to try anything in an effort to increase production.

The tests made by Prof. Patten, indicate, however, that money spent for fancy products which are advertised as sure egg production stimulants, is very likely money wasted.

## MEN ATTEMPT TO BREAK JAIL AT CARO

Wednesday morning when John McDougall, game warden, opened the door of the county jail at Caro, he was attacked by George Trask, 27 years old, of Cass City, and Gust Bronson, of Bay City aged 28. They struck him with parts of a chair and then tried to pass through the office. Sheriff Morris drew his revolver and called upon the men to surrender. Trask struck him upon the wrist and this is said to have discharged the revolver which he held in his hand, the bullet passing through Trask's cheek. The men were subdued without further trouble and locked up. Task and Bronson are both awaiting trial.—Bay City Times.

## WRIGHT-BAKER.

Miss Frances Helyn Wright of Cass City and Erwin A. Baker of Pontiac were united in marriage Wednesday evening, Feb. 25, at seven o'clock at the Methodist parsonage at Pontiac by Rev. A. Kuehn.

The bride was becomingly gowned in gray satin and the couple were attended by Mr. and Mrs. Gus Frahm of Pontiac, the latter being a sister of the bride.

Mr. and Mrs. Baker will make their home at 84 Oak Hill, Pontiac, Mich.

## BOARD GRANTS BONUS TO TEACHERS

ALL RECEIVING UNDER \$1,000 SALARY RECEIVE \$10 A MONTH INCREASE.

Some Teachers in State Claim to Face a Deficit at End of Year's Work.

At a recent meeting of the Board of Education, a petition was received from teachers in the local schools requesting an additional salary. After taking the matter under advisement and giving it careful consideration, the board decided to grant a bonus of \$10.00 per month to all teachers receiving less than \$1,000.00 annual salary which included all but two members of the staff of instructors. This was to apply to the school term following Jan. 1.

Similar action has been taken by other school governing bodies in the state. The following article is taken from a recent number of the Moderator-Topics, a state pedagogical journal. Dowagiac is a town of 6,000 population and employs 43 teachers. The article reads as follows:

"Yielding to the pressure of economic necessity, the Board of Education of Dowagiac in special session recently granted a flat \$10 increase to every teacher in the city who received \$1,000 or less as a yearly salary. In addition, two men in the high school with families, who were receiving less than a living wage, were raised to the rate of \$1,500 per year. The new schedule takes effect this month and will apply for seven months. It makes the minimum in the grades \$95 per month and the maximum \$105 per month. In the high school the minimum is \$150. No man in the system received less than \$150 under the new management.

"Upon investigation the board found the actual minimum living costs of the eight hundred dollar teacher who was not boarding at home to be \$766.75. This left \$39.25 with which to pay her retirement fund, tax, pay her dentist and doctor bills, pay her traveling expenses and live upon during the two summer months. Board alone showed \$280 as a minimum and \$300 is actually being spent on the average for board alone by the non-resident teacher. Room rent has advanced the least of the items, yet the average room rent for forty weeks is another hundred dollars, laundry, another significant item, averages thirty dollars per year, and then to all these must be added clothing, shoes, etc. In fact, the Board was convinced that many teachers were not only unable to save anything but many actually faced a deficit at the end of a year's work. It was in view of the less than living wage now paid that the increase was granted. As one member put it, 'We have no right to pay less than a living wage and ask parents of teachers to help support our schools.'"

"The high price of eggs at the present time is said to be creating a good field for the sale of the compounds, as poultry raisers are ready to try anything in an effort to increase production."

The tests made by Prof. Patten, indicate, however, that money spent for fancy products which are advertised as sure egg production stimulants, is very likely money wasted.

## AUCTION CALENDAR

Casper Whalen will have an auction sale on the Isaac Cragg farm, 5 miles east and 3 1/2 miles north of Deford, on Tuesday, March 9. R. N. McCullough is the auctioneer.

John Lorentzen has sold his farm 3 miles north of Cass City and will sell his personal property on Thursday, Mar. 11, with Jas. R. Turnbull as auctioneer.

Two sales are scheduled for Friday, March 12, at distant points—Jonathan Whale, 4 miles northwest of Hemans, and Norman McLeod, 2 1/2 miles south of New Greenleaf. T. B. Tyrell will cry the first and R. N. McCullough the second mentioned sale.

The sales are advertised in detail on pages 3, 6 and 7.

Auctions which will be advertised in later issues are:

- W. H. Murphy, Cass City, Saturday, Mar. 27.

## NEED OF ADDITIONAL TEACHERS APPARENT

COMMITTEE WILL CIRCULATE PETITION AMONG TAXPAYERS.

Prof. Friday Will Give Address at Meeting of P. T. A. on March 31.

The monthly meeting of the Parent-Teachers' Association Monday evening brought out several new ideas in the subject of education as applied to local conditions.

Rev. Dunk named faith, hope and love as the "Three Essentials" and spoke interestingly on this subject. Mrs. Dora Fritz read a splendid paper on "Christian Education" and F. A. Bigelow based his remarks on the subject "Can We Improve the Curriculum with Our Present Plant?" Rev. O. R. Grattan opened the meeting with prayer and Miss Hazel Mead favored the audience with a vocal solo. Community singing was enjoyed by all.

The need of additional teachers was discussed to some extent. One for music and drawing, one competent to supervise the athletic department and one for third grade work were mentioned as most desirable. As the result, Mrs. A. J. Knapp, who presided, was requested to name a committee to circulate a petition among the taxpayers of the district asking the board of education to add more instructors to the teaching staff the coming year. F. A. Bigelow, M. B. Auten, A. A. Ricker, B. J. Dailey and L. I. Wood were appointed.

Supt. Hoxie received word the first of the week from the University Extension Lecture Course Bureau that Prof. David Friday, whose lecture date here was cancelled recently, will come to Cass City Wednesday, Mar. 31, to give his address on "Tax Reform in Michigan." Mr. Hoxie considers the community very fortunate in being able to secure Mr. Friday to give an address. The next P. T. A. meeting will be held the same evening with Prof. Friday's lecture as one of the feature numbers. The meeting commences promptly at eight o'clock and the business session will follow. Mr. Bigelow, in his address at the P. T. A. meeting Monday evening, said in part:

In a number of the later annual school meetings and in the past meetings of the Parent-Teachers' Association there have been many references to a time when a fine new modern school building would replace this old one and many new lines of study with physical training, domestic science, etc., would give a thorough education to every child in the community.

A business institution in our town recently published the statement that it had paid out in cash to its patrons and employees within about two years, the sum of two million dollars. Did you get yours? If you had no product to sell this firm and were otherwise employed so as to be unable to accept a position on the payroll, you still may have had some of this two million indirectly.

My interest primarily in the Parent-Teachers' Ass'n. is in its ability to effect reforms in school matters which will benefit the one girl in whose training and future welfare I am particularly interested and responsible. Therefore anything which will be for her benefit must be launched now, and I believe that other parents in the association must share this feeling.

My subject infers that some improvements are needed and while there is not a doubt there are each week and each year better methods put in practice in teaching some subjects, there are failures to meet our responsibility to the child life of this community which we are not facing and perhaps do not recognize.

I recently heard an address in which the speaker told of his early failures in the profession of life insurance salesman, and after a particularly fine prospect had seemed to slip from his grasp just as he had concluded what the agent considered a clinching interview, he concluded to try some course in self improvement. He bought a series of lessons from a prominent publishing firm and began digging to establish in his character the basis for success, "a perfected personality" as the book called it. One of the first lessons gave a list of "negative qualities" found in the personalities of those who fail and coming across this while he sat at home, his wife on the other side of the library table, he shoved the book over to the companion of his joys and sorrows. "Say, Harriett, there is a list of the negative qualities which this fellow says must be the cause of all failures. So that you might say is a list of my bad qualities. Now you must know my mean side as well as anyone, which of these are my failings?" She took the book and running up the column, staggered him with the remark, "Where are the rest?" I am not trying to point out all the

**SCHOOL NOTES.**

Roy Severance, who has been taking a tractor course at the M. A. C., returned to school Monday.

The American history class have completed their book this week and will take up civics.

Bert Law, Hilton Warner, Flossie Merchant, Phoebe McKee, Nora Gallagher and Eldon Bruce have returned to school this week.

We are feeling very jubilant over the two victories gained from Pigeon last Friday. The score in the boys' game was 35-24; in the girls, 24-18.

We are very sorry to hear that Mary Holtz, one of our freshman girls, is in a very critical condition with pleurisy.

The H. S. musicale for the benefit of the Athletic association will be given next Monday, Mar. 8. The students have been working diligently under the guidance of Mrs. Hoxie and a real treat is promised.

The slides on the leguminous plant and the pruning of orchards for the agriculture class have not arrived yet.

Prof. David Friday, whose lecture was postponed because of the "flu", will give his lecture on "Tax Reform in Michigan" March 31.

Both the boys' and girls' basket ball teams will go to Bad Axe Friday. They have been trying to get a special train so that they may take a lot of rooters.

Miss Miller has a locket on her desk which no one seems to claim. On the front is the initial A. R. H., and on the back the monogram A. R. H., and in the inside a baby's picture.

The box social Monday night was greatly enjoyed by all those who attended. The juniors made \$43.75.

The Curtis Publishing Company have sent some vocational slides which are to be used at the Pastime theater.

The French class is enjoying some splendid reports on French government and customs.

The appearance of the Lab was greatly improved last week when the new table was painted by the ambitious teacher and two young chemists.

**Grade Notes.**

Mary, Wright, Nellie Milner and Edwin Fritz have returned to school after being absent on account of illness.

Stuart Wilsey is absent from the fifth grade on account of sickness.

Mrs. Fleming's pupils are beginning their spring work.

The fourth grade has a new pupil, Murle Kitchen.

The eighth grade grammar class is studying conjugations.

Marion Warner of Miss Hickey's room has gone to Pontiac.

The following reports have been given in sixth language: Perseus, Mildred Dodge; Daniel, John Brackenburg; Hercules, Aletha Spurgeon; William Tell, Delbert Landon; Joseph, Winnifred Schell.

Clinton Davidson, Thelma Palmer and Harry Crandell are back in the kindergarten after a week's absence.

**COMMUNICATION.**

**Want Good Teachers.**

In the seven years that I have lived in Cass City, I have not heard one complaint on school taxes and I am convinced that the people of this community want and are ready to pay for, as good instructors as can be found in any school of our size.

The influence of a good teacher can not be overestimated and in those years when character is being formed a few dollars spent to secure or to retain a good teacher is as nothing compared to a poor one. I thoroughly believe that Cass City folks want and stand ready to back up our school board in their efforts to secure and to retain teachers of the character-building type.

I believe it is up to us to let our school board know that we are behind them and believe they did the right thing in giving the increase to our

teachers just at this time when it was needed.

We know that the question of teachers' wages is in the air and it usually costs less to be in the procession than to follow.

UNCLE SAM FREEZES PASSENGERS ON D. & H.

Many people have been curious to know why passengers over the Grand Trunk between Bad Axe and Cass City have been compelled to ride in the caboose of a freight train all winter.

This is the explanation given by railroad men: The combination passenger and express car, a very comfortable one, formerly in use on this line was warmed by a hot water heater which burned only hard coal. The railroad administration at Washington would not honor a requisition for hard coal for this use. The car could not be used without heat for the passengers, hence the passengers have to ride on the freight train.

This, of course, is but one more example of the kind of service government ownership of railroads provides. —Bad Axe Tribune.

The Woman's Auxiliary met with Mrs. Andrew Lorentzen Thursday afternoon.

**OBITUARY—Edward Gallagher.**

Edward Gallagher was born at Colwood, Michigan. At the age of 15 years, he entered the eighth grade at the Cass City schools and completed his schooling at this place.

He was united, in marriage with Miss Lena High of Brookfield township Sept. 12, 1916. They resided on the Ackerman farm, two miles north of Cass City one year and then moved four miles west of Gagetown where he made many new friends.

Mr. Gallagher was ill only about a week. On Feb. 17 he went to bed with influenza which later developed into pneumonia, causing him severe pain and agony until the night before his death. From that time on he rested and breathed easy though he could not speak or open his eyes. At 6:00, Monday, Feb. 23, he breathed his last.

His mother, and a physician and nurse did their utmost, but all loving care and consideration could not stay the hand of Death. Five others were taken sick from breakdowns and measles and his wife was unable to attend the funeral service.

Edward Gallagher was a man of warm heart and generous impulses, one who made friends wherever he went. His habit was to look on the bright side of life and he was loved by young and old. He leaves a grief-stricken family who have the sympathy of a large circle of friends who mourn with them because of the loss they have sustained.

He leaves his wife and two children, Elenora aged three years and Robert one year, his parents, Mr. and Mrs. Robt. Gallagher, two sisters, Laura and Nora, and one brother, John.

Funeral services were held Thursday, Feb. 26, at St. Agatha's church at Gagetown. The sermon was given by Rev. Fr. Dwan Relatives from out of town who attended were Mrs. Timothy Crowley and son, Steven, and Leland Dillon, all of Detroit.

**MRS. CARL HANDY.**

Mrs. Carl Handy passed away at her home near Vegreville, Alta., on Feb. 16, after a short illness of influenza followed by pneumonia.

Stella Elizabeth Wright was born near Cass City April 14, 1897. At the age of three years, she with her parents, Mr. and Mrs. John W. Wright, moved to Northwest Canada, settling at Strathcona, Alberta. Later they moved on a homestead near where Vegreville is now built and were among of the first settlers in the district. Mrs. Handy graduated in 1916 and finished her normal course the same year. She taught in the Whitford school one year and was married to Carl Handy April 17, 1918.

She leaves to mourn her loss, a son aged ten months, her husband and parents, two sisters and one brother, all of Vegreville, Alberta.

She will be remembered long by her friends owing to her kind and loving disposition.

Mrs. Handy has been a member of the M. E. church for several years. Her father helped build the first buildings in Vegreville before the C. N. R. railroad was thought of and

**The King Business.**

Kansas City Star: The king's use of the word "my," referring to army, navy and people, in the speech from the throne the other day has evoked a protest from the London Express, which says the word is contrary to the democratic spirit of the age. But if you are going to have a king you've at least got to let him talk like one, haven't you?

**Protect Yourself by Checking.**

A short time after completing the Ford garage in 1918, Tindale purchased, from one of our reliable home merchants, some articles amounting to \$32.07. Time went by and we sold this merchant a car. "Well", he said when it came time to settle, "I'll bring my bill in and we'll settle up."

Tindale said he didn't know that we owed him anything. I said I didn't either. So we waited and he presented a bill for \$32.07 for our account running nearly two years. Ashton said he supposed we paid that but the merchant said he thought not. We always pay by check so reverted to our cancelled checks and in a few minutes produced a check dated "May 21, 1918" for \$32.07 with the merchant's name endorsing it on the back and "Account in full to date" written on the face.

"Well sir," he said, "I don't know how it happened to get by." We knew it was nothing more or less than an error in neglecting to credit us, one that may occur any time. Does it pay us to carry a bank account?

This same experience may come to you. It has broken up many a business friendship.

You are invited to open an account with the CASS CITY BANK and gain this protection against paying twice for the same article.

## Insurance

In these latter days is no longer considered an expense but as an important investment. No prudent business man now thinks of having his worth invested in merchandise, buildings, farms, automobiles or other property without carrying some part of its value protected by insurance in strong companies, to re-imburse him in case of loss.

This bank not only carries ample fire, plate glass and burglary insurance but it is prepared to promptly write practically any class of insurance that you may require in the strongest companies at the lowest current rates.

We are always glad to consider your applications for good farm mortgages and any other sound financial business of this bank's customers. Your deposits are always welcome at 4 per cent interest on certificates if left three months or longer, and our facilities for satisfactorily handling your checking accounts are second to none in Michigan.

## CHURCH NEWS.

Greenleaf Presbyterian—Paul J. Allured, Minister. Service on Sunday, at 3:00 p. m.

Christian Science—Services are held every Sunday morning at 11:00.

Baptist Church—Morning service, 10:30; Sabbath School, 11:40; Evening service, 7:30; Weekly prayer meeting Thursday, 7:30.

There was a meeting at the parsonage Tuesday evening when a Cass City Tithers League was organized. All who are not connected with any other such league are cordially invited to join.

Pastor S. T. Dunk.

Methodist Church—Dr. J. C. Floyd of Bishop Henderson's staff will meet the officials and leading workers of the church next Monday. Make room in your plans for this day, for this special occasion. Definite announcement next Sunday.

Several cottage prayer meetings will be held throughout the city each week in preparation for contemplated special meetings. The Epworth League has asked for another "Win-My-Chum" meeting and this ought to be the beginning of a genuine revival. They are making plans and preparation now and with the experience gained in the former meeting, it will be a great success.

On Friday night of last week, the Cabinet walked into the parsonage with provisions for a pot-luck supper, a great surprise to the pastor. It was a happy time indeed. During the evening the cabinet transacted some important business and among other things declared that they would endeavor to win before Easter twenty young people to Christ and the church as their share of the church quota, 58. Other departments of the church ought to assume like shares.

Next Sunday is membership day, being the first Sunday in the month. Let those who contemplate uniting with the church so advise the pastor. Those who will accept Christ as their personal Savior and endeavor to lead a Christian life are welcome. We may not agree in every detail of doctrine but if this church meets your need in the essentials more fully than another, make it your church home and help in the promoting of the kingdom of God in this community.

You are invited to the services of next Sunday. The pastor will preach both morning and evening.

The firm of Striffler & Patterson, implement dealers, was dissolved Friday, G. A. Striffler purchasing the interest of his partner, Chas. Patterson. Mr. Patterson has not decided definitely as to his future activities.

Fifty-one years ago today, John W. Murphy brought the first ton of coal to Cass City. It was for the use of Samuel Geitzgey, a pioneer blacksmith, and was hauled here from Saginaw with Mr. Murphy's team. The coal cost \$7.50 per ton in Saginaw to which was added \$15.00 for cartage.

Train schedules were demoralized Monday by snowbanks, but late Tuesday they reached some semblance of order. Tuesday noon, the local railroad yard appeared unusually busy when five trains—three on the P. O. & N. and two on the D. & H.—happened to congregate here at one time.

The Evangelical Young People's Alliance enjoyed a sleigh-ride party to the Joseph Benkelman home northeast of town Tuesday evening. After a business session the evening was very enjoyably spent in playing games. A lunch consisting of "weenies" and buns, cake and coffee was served.

The Mother's club held their regular monthly meeting at the home of Mrs. J. E. Seed Tuesday. There were nine mothers and several children present. A bounteous supper consisting of scalloped potatoes, baked beans, cold sliced boiled ham, bread and butter, pickles, coffee and chocolate pie was served by the hostess.

Mrs. John McKichan has returned home from Detroit where she underwent a surgical operation in a hospital in that city performed by Dr. Angus McLean. She is doing as well as can be expected.

J. D. Tuckey and his sons have been busy this winter getting out timbers for a barn frame in preparation for the erection of a large barn 40 by 70 feet on the Tuckey farm southwest of town this summer.

Mrs. Geo. Copland left Wednesday for a visit with relatives at Rodney, Ont. Mr. and Mrs. Copland are planning to make their home at 977 12th St., Detroit, and will move to that city in the near future.

Lenten services are being held every Tuesday at 8:00 p. m. at St. Pancratius Catholic church, with instructions by Rev. Fr. Cochrane, late of St. Patrick's, New York City. Mass on Wednesday morning at nine o'clock.

James A. Brackenbury spent a part of a ten-day furlough with his parents, Mr. and Mrs. James Brackenbury, returning to Iona Island, 42 miles up the Hudson river from New York City on Saturday. James has been a member of the Marines for the past three months.

L. I. Wood, R. D. Keating and Chas. Ewing attended the mid-winter ceremonial of Elf Khurafel Temple at Saginaw Friday. The trio went as a body guard and brother protectors to Lyle Koepfgen, who completed the journey on the winding but joyous road to the Shriners' Mecca.

The Art club held their monthly social meeting and also the election of officers at the home of Mrs. Geo. West Wednesday afternoon. The following officers were elected: Pres., Mrs. A. McKim; vice pres., Mrs. Wm. Weldon; sec. treas., Mrs. Geo. West; flower committee, Mrs. Guy Landon; reporter, Mrs. Frank Hall. A delicious luncheon was served. The next meeting will be a jolly St. Patrick's day party to be held at the home of Mrs. Wm. Weldon.

That Mr. and Mrs. A. Doerr have a warm spot in their hearts for those invalided by the flu and other diseases in this community was evidenced Saturday when a box of grape fruit was received Saturday by Mrs. J. B. Cootes, local Red Cross chairman, to be distributed among the sick. Mr. and Mrs. Doerr and daughter, Elizabeth, are enjoying the winter months in Florida. They are at present located at Haines City.

Dave Hubbell, editor of the Crosswell Jeff, hands out the following advice to "flu" patients of his community: "If you have the flu stay in bed. If you feel better, stay in bed. If you think you are well, stay in bed. It is better to stay in bed a month than to get up, take pneumonia and die. The doctors say that most of the fatal flu cases are the result of getting up too soon. Stay in bed."

J. C. Farrell moved his stock of shoes and furnishing goods Wednesday to the building on Main St. west which he purchased recently from E. C. Poppleton. Audley Kinnaird has taken temporary quarters for his ice cream and candy business in the store vacated by Mr. Farrell and will conduct his business there until the Ricker & Krahling Block is completed next spring when he will occupy a portion of that building.

Dr. A. C. Edgerton, who has been assisting Dr. F. L. Morris in his practice here for several weeks, left the first of the week for Marysville, the much-talked-of industrial village south of Pt. Huron which promises to grow into a good-sized city at an early date. Dr. Edgerton has located permanently at Marysville for the practice of his profession. As high school student and athlete and later as high school instructor and athletic coach at Cass City, Mr. Edgerton won a large circle of friends in this community who unite in wishing him unbounded success in his new home.

Owing to poor management in routing by the lyceum bureau, the members of the Means-Anderson Co., scheduled for an entertainment here Wednesday evening, did not arrive until the night train and that was 30 minutes behind schedule. The company were unable because of this delay to start their numbers until after ten o'clock. The lecture course committee with commendable foresight arranged with local talent to keep the audience entertained during the "waiting period."

Mrs. John Holcomb gave readings and Mrs. L. O. Hoxie and Miss Hazel Mead, accompanied by Mrs. B. J. Dailey and Miss Marie Martin respectively, sang solo numbers. While the ladies had but a few hours to prepare for the occasion, they made the time pass very enjoyably. M. B. Auten, who announced the numbers, said that Cass City was blessed with a larger percentage of talent than was her share, and the ladies by their delightful impromptu program added force to the announcer's words. The bureau did not exaggerate in its advertising when it announced that 100 Means-Anderson Co. was scoring 100 per cent. Every number on their program was appreciated and from all sides come expressions of satisfaction. Many declare it was the best entertainment ever given here by talent furnished by lecture bureaus.

R. S. Proctor is associated with his son, James, a contractor at Flint and they have commenced the erection of two houses this winter in that bustling city.

The Night Hawk Club met at the home of Mr. and Mrs. Lester Bailey Tuesday evening. The following menu was served: Mashed potatoes, roast pork, baked beans, mixed pickles, warm buns, apple salad, coffee, sherbet, cake and after dinner mints. The evening was most enjoyably spent in games. The next meeting will be a St. Patrick's day party at the home of Mr. and Mrs. Chas. Robinson.

Frank and Lucille were playing at keeping house and soon a disagreement arose over money matters. Lucille appealed to her mother to settle the question. "Mother," she asked, "we women should always carry the pocketbook, shouldn't we?"

**Like Most Mothers.**  
Dorothy was told she must go to bed and her mother would come up later and kiss her good night. "But," she said, "suppose I am asleep?" She was told that would not make any difference. "But what if I have the covers over my head?" she asked. She was told her mother would kiss her anyway. "Well," said Dorothy, "she is some kisser."

**Growing Suspicious.**  
If anybody tells you that some one else said so, the betting is 50 to 1 that some one else never said any such a thing.—Cincinnati Enquirer.

**Test That Proves One's Worth.**  
It is no great matter to associate with the good and gentle; for that is naturally pleasing to all, and every one willingly enjoyeth peace, and loveth those best that agree with him. But to be able to live peaceably with hard and perverse persons, or with the disorderly, or with such as go contrary to us, is a great grace, and a most commendable and manly thing.—Thomas a Kempis.

# SPRING APPAREL WHICH INTRODUCES THE NEW AND AFFIRMS THE VOGUE

In making this announcement we want to emphasize first, that never before has this store displayed such a wonderful collection of yard materials and ladies' apparel as are now on the shelves.

Not only have we the largest collection of spring merchandise but we have likewise the choicest selection that could ever be expected to be shown in a town even much larger than Cass City.

We carry a line of merchandise selected from the best wholesale houses in this country. With such a wonderful collection of merchandise as we are showing this spring we feel that anyone who prefers to patronize home merchants, can find at this store just what is wanted—from the lowest to the highest price.

One thing we wish to emphasize is to make your selections early. If you do not care to take the merchandise home, we will gladly lay or hang it aside for you.

## Conde Styles

Women who appreciate the true points of proper grooming enjoy their visits to this store. They find here Conde styles reflecting the composite thought of the best designers Paris and Fifth Avenue boast.

The coats are greatly varied in styles. Some are long, others three-quarter length, and still others hip length. Our prices range from \$18.50 to \$75.00.

## Women's Suits

Exceedingly smart of "always-in-good-taste" navy blue tricotine. Could the best custom tailor produce a suit of smarter line than the model pictured?

So women who choose now and here have delightful surety of the new at its best.

## Up-to-date Dresses

Elaborateness seems to be the predominating feature in dress styles for this season.

You will notice that a great many of the new up-to-date dresses are made with the three-quarter length sleeves.

Beautiful dresses are here in taffeta, satin, georgette, tricolette, Jersey, tricotine, serge and silk crepe. Prices from \$18.50 to \$75.00.

## Notice these beautifully designed Skirts

Never before have the materials been as beautiful as they are this spring, making the skirts very appealing to the ladies.

## Dry Goods Department

This department, equal to the others, is overflowing with the newest and best materials that money can buy, such as tricolette, printed georgette, printed voiles, printed organdie, fancy crepe, dress trimmings, ginghams, percales and draperies.

## KODAK LENSES

**THE** meniscus achromatic and Rapid Rectilinear lenses supplied with the regular models of the Kodak and Brownie Cameras, are perfectly adapted to the every-day requirements of the average amateur, producing exceedingly good results under all normal conditions of light. They are the best lenses of their respective types that can be secured.

Since the introduction of the Kodak Anastigmat the use of Anastigmats has become very general. These lenses are inexpensive but they produce Anastigmat results. They are speedier than the fastest rectilinear lenses; in quality, depth, definition (sharpness) and flatness of field, they equal the best Anastigmats made.

For Kodak use, you cannot obtain better lenses than the Kodak Anastigmats, at any price.

**Ignorance.**  
When complaints are made—often altogether without reason—of the prevailing ignorance of facts on such and such subjects, it will often be found that the parties censured though possessing less knowledge than is desirable, yet possess more than they know what to do with. Their deficiency in arranging and applying their knowledge in combining facts and correct deductions and rightly employing general principles will be perhaps greater than their ignorance of facts.—Richard Whately.

**The Humble Part.**  
In imperishable characters there will be inscribed on the success roll of honor names unfamiliar to most of us much as the names of those who performed nobly humble parts in life; the unknown workers for humanity, the heroic sufferers—some blind, some crippled or handicapped by the loss of hands or feet, or tortured by incurable diseases—who with a fortitude equal to that of the martyrs of old, took life's burdens and bravely made the most of the powers and opportunities bestowed upon them by the Almighty.—From "Ambition and Success" by Orison Swett Marden.

### NEED OF ADDITIONAL TEACHERS APPARENT

Continued from first page.  
lacks in this school but will emphasize one which can be corrected without added buildings, class rooms or equipment.  
I attended an annual school meeting a number of years ago where a number of patrons had gone to ask the Board of Education to introduce the teaching of music and drawing which is the improvement that I am now proposing. The proposition came to a vote and was carried. But the budget suggested by the Board had failed to cover that item and when confronted by this fact the patrons withdrew their request and to garble Shakespeare, "The native hue of resolution was sicklied o'er with the pale thought of cost," and no music teacher was engaged that year.

But, I ask, what became of the "tax dollar" which we saved the rate payers of this district that night?  
I quote from an article in the Saturday Evening Post of Feb. 7, 1920. "While the automobile industry came into prominence in the United States about 1903, we have in excess of 6,000,000 cars, and there is one car for every twenty of our inhabitants" (Counting as business houses usually estimate, five members to each family, we have one auto for each four families). "In England there is one machine for each 268 inhabitants; France, one car for every 402 people; Germany one car for 684 people; Italy one per 1,000; Austria, one for 2,700; and Russia, one for 5,300."

Now I am not branding the automobile as an evil, but want to emphasize the fact that the money we took from the children's rightful education was spent in autos and other luxuries which could not compare in lasting benefit to the teaching of useful arts in the school.  
I remember with pleasure a grade teacher under whose care I was placed during my course in this school, who went further than her contract required and when her work had been thoroughly organized for the semester's work, began teaching us the rudiments of music, and that year's work is all I ever had in music. Another teacher gave us a year's drill in principles of mechanical drawing. Another or perhaps one of these gave us setting up exercises and a drill on dull days would brighten the eyes and put us "fit."

But in each case, it could only be a small portion of what could be taught had this work been progressive through the grades, and we lost practically all the work given us through lack of practice and failure to get the further instruction necessary.  
Music touches our lives everywhere from the cradle where our mothers lull us to sleep with melodies which we do not appreciate until in after life we are deprived of them. The church has no solace to offer in Christian burial greater than some of her splendid hymns.

Is it a dance? Well, if the music fails to arrive, we can't dance.  
The cheapest show that travels the road only gets by because of a few good musicians who are heralded as an attraction. We could ring down every theater curtain in America and the world forever if we take away their orchestras. The best preacher in Michigan, and I say it reverently, will have to go some to maintain his congregations when you have locked the pipe organ, disbanded the choir and stacked the hymnbooks in the attic.

Upon invitation of Miss Grace Baldwin of Lansing, I went to a service one Sunday afternoon at the chapel of the State Industrial School for Boys where she teaches music. The effect of those 800 boys filing in to the pews in almost "lock-step" and the twelve to twenty who took their places in front each carrying an instrument will never be forgotten and when they rose to sing it brought tears to my eyes. And I thought, "it isn't fair!" Those boys, whom we send there for their correction and fearing to keep them in schools with our own children, are having a better chance than these whom we keep here to educate. "It isn't fair!" Are not our children worthy as good a chance as these wards of the state?

The teachings of drawing will show its effect in more tasteful dress, better designed, better painted homes, better taste in carpets, curtains and furniture, better window displays in our business places.  
The "Resumption of Specie Payments" caused no little discussion after the Civil War. "How shall it be accomplished?" furnished many an argument in the politics of that day. One fellow who will be remembered long after we have forgotten all the other plans and their champions summed up the situation by saying "Why, just resume."

Now without waiting for the other plans to materialize, which shall place a model school in our midst, I say let us do this one thing, and do it now so as to begin the course in drawing in the new school year.

This is not an effort to "sandbag" the school board, not a criticism of past Boards. I am blaming no one so much as the patrons who have failed to awake to our responsibility to those young folks whose training is entrusted to us.  
We heard much of "Blood Prosperity" before we entered the war with Germany. May we not almost plead guilty to Blood Economy in our neglect of this matter?

'Tis too far to his home this weather. R. E. Johnson and J. B. Gage attended the Shriners mid-winter ceremonial at Saginaw Friday. Joseph Hack is not in first class health, but let it be remembered he is moving down the western slope. First week of the new mail carrier on Route 2 is a fierce introduction, but he will think it fine after a while. Wilnot may have a sugar beet manufacturing plant. The place is centrally located. Inlet and outlet good. Can dam to have 12 foot of water in fair sized lake. Feb. 28, 1920, there came to the home of R. D. Lewis a son. We did not learn the name, but he is big enough to name himself, tipping the beam at 10 lbs., dressed in modern apparel. If the sugar beet tenders cannot be found in our cities, they tell us we can find them in south—for the hand that picks cotton has just the proper twist to thin beets. Don't find fault, but cry "Amen." Mrs. Ella Stephens of Birmingham came up here last Monday to stay with her mother, Mrs. C. Courliss, of Town Line for a week. The Courliss home has been afflicted deeply for some weeks past. On Town Line farm recently sold by Benj. Sharp to Detroit parties, there will be erected a stone dwelling patterned after the world-famed castle in County Cork, Ireland, but it will fall short in one exception—the oily "Blarney stone" will be wanting there. If my wife is going to take a political shuffle with me on the same boards, it's about time I outgrow my prejudice. If the ablest woman in our land was nominated for president by one of our great parties, her ability being so plain it was admitted by all, then the other side set up any kind of a chuckle-headed man, we think the sister would be regulated back as an impostor. The world may be growing wiser, but 'tis very slow. Geo. E. Bonner, a member of the firm of Livingston & Co., former merchants here, has taken up the study of dentistry at the University of California. When Mr. Bonner returned from France, he came back with a stiff shoulder and the government saw fit to send him to college. The government only approves the training courses for one year at a time, but Mr. Bonner hopes that they will see fit to continue his course as his shoulder has not improved to any extent.

REGISTRATION NOTICE.

To the qualified electors of the township of Elkland, County of Tuscola, State of Michigan, Notice is hereby given that in conformity with Act 126, Public Acts of 1917, I, the undersigned township clerk, will, upon any day except Sunday and a legal holiday, or the day of any regular or special election or official primary election, receive for registration the name of any legal voter in said township not already registered who may apply to me personally for such registration, except that I can receive no names for registration during the time intervening between the second Saturday before any general or special election or official primary election and the day of such election.

March 27, 1920, Last Day for General Registration for Spring Election, April 5, 1920.

All electors not already registered and intending to vote at said election, should make personal application to me on or before the 27th day of March, A. D. 1920.

Notice is further hereby given that I will be at my office at the Greenhouse in Cass City on Mar. 13 and Mar. 20, 1920 from 8 o'clock a. m. until 8 o'clock p. m. on each said day for the purpose of reviewing the registration and registering such of the qualified electors in said township as shall appear and apply therefor.

The name of no person but an actual resident of the precinct at the time of registration, and entitled under the constitution, if remaining such resident, to vote at the next election shall be entered in the registration book.

Registration of Absentee by Oath.

If any person whose name is not registered shall offer and claim the right to vote at any election, and shall, under oath, state that he or she is a resident of such precinct and has resided in the township twenty days next preceding such election, designating particularly the place of his or her residence and that he or she possesses the other qualifications of an elector under the constitution; and that, owing to the sickness or bodily infirmity of himself or herself, or some member of his or her family or owing to his or her absence from the township on public business or his or her own business, and without intent to avoid or delay his or her registration, he or she was unable to make application for registration on the last day provided by law for the registering of electors preceding such election, then the name of such person shall be registered, and he or she shall then be permitted to vote at such election. If such applicant shall in said matter, wilfully make any false statement, he or she shall be deemed guilty of perjury, and upon conviction, be subject to the pains and penalties thereof.

Provision in Case of Removal to Another Precinct.

Any registered and qualified voter who has removed from one election precinct of a township to another election precinct of the same township shall have the right, on any day previous to election day, on application to the township clerk, to have his or her name transferred from the registration book of the precinct from which he or she has removed to the registration book of the precinct in which he or she then resides. Such elector shall have the right to have such transfer made on election day by obtaining from the board of inspectors of election of the precinct from which he or she has removed a certificate of transfer and presenting the said certificate to the board of election inspectors of the precinct in which he or she then resides.

Women Electors.

Important Notice—All women who possess the qualifications of male electors will be entitled to registration provided they make proper application to the clerk within the time limit above designated. All registration of women prior to Dec. 5, 1918, is null and void. H. L. HUNT, Township Clerk. Dated February 20, 1920.

Back Hurt?

The Caro plant of the Michigan Sugar Co., last Saturday mailed to beet growers checks aggregating \$230,000, being final payment for this year's crop of beets, and representing a bonus of \$2.50 per ton figured on the average price of sugar over nine cents. Checks totaling \$920,000 had been previously issued in payment for this year's crop at the minimum guaranteed price of \$10 per ton. The total beet payroll for the season is \$1,150,000.—Advertiser.

Buried beneath a pile of straw, the unconscious body of J. Hartsell, residing near Deckerville, was found when search was begun after his failure to appear at dinner. Hartsell was taking straw from the inside of a shed which had a straw roof and it is believed took too much from the bottom, with the result that a considerable quantity came down, burying and nearly smothering him. His failure to respond to the call to dinner resulted in the discovery of the accident before Hartsell had been suffocated. His condition is much improved.

**NOTICE OF MORTGAGE FORECLOSURE SALE.**

Default having been made in the conditions of a certain mortgage made by Julius Milki and Karoline Milki, his wife, and Wincyny Ociepa and Juli Ociepa, his wife, of Detroit, Michigan, to J. Ray Honeywell of the same place, dated the tenth day of December, A. D. 1918, and recorded in the office of the Register of Deeds for the county of Tuscola, and State of Michigan, on the 29th day of January, A. D. 1919, in Liber 138 of mortgages, on pages 370 and 371, which was duly assigned on December 12th, 1918, to Charles D. Thompson of Bad Axe, Michigan, by a written assignment recorded on January 29th, 1919, on page 338 in liber 137 of mortgages, in said register's office, and the said assignee having elected to declare the principal sum and all interest immediately due as provided in said mortgage, on which mortgage there is claimed to be due at the date of this notice, for principal and interest, the sum of ten hundred seventy dollars, and an attorney's fee of fifteen dollars, as provided for in said mortgage, and no suit or proceedings at law having been instituted to recover the moneys secured by said mortgage, or any part thereof.

Notice is hereby given, that by virtue of the power of sale contained in said mortgage, and the statute in such case made and provided, on Monday, the tenth day of May, A. D. 1920, at eleven o'clock in the forenoon, the undersigned will, at the front door of the Court House in the Village of Caro that being the place where the Circuit Court for the county of Tuscola is held, sell at public auction, to the highest bidder, the premises described in said mortgage, or so much thereof as may be necessary to pay the amount so as aforesaid due on said mortgage, with six per cent interest, and all legal costs, together with said attorney's fee, to wit: The southeast quarter of the southeast quarter of section thirty-six, township thirteen north, range nine east, and the north fractional half of the northeast fractional quarter of section one, township twelve north, range nine east, Tuscola County, Michigan, constituting a single parcel of land, for a part of the purchase price of which this mortgage was given.

**IMPORTED CLOVER SEED HELD UNSAFE**

Michigan Grown Cheapest in End, Says M. A. C.—Warn Against "Giant Incarnate."

Clover seed imported from abroad or from other sections of the country is unsafe for Michigan planting, according to Prof. J. F. Cox, head of the Farm Crops Department at the Michigan Agricultural College. The best and really cheapest seed for Michigan farmers is Michigan grown, purchased from dependable local dealers—even though the cost looks high as judged by past prices.

"As never before, large out-of-the-state seed companies are advertising for sale in Michigan seed mixtures at apparently attractive prices," says Professor Cox. "In reality this seed is usually of lower standard of purity and germination than that offered by dependable local dealers, and it may cause great loss to Michigan farmers."

A warning against extensive seeding of Giant Incarnate or Crimson clover is given farmers of the state. This variety is adapted to sections south of the Ohio river for fall planting, but it will not live over Michigan winters except when conditions are extremely favorable. It is not adapted to spring planting, according to the M. A. C. crops experts.

Information is reaching the college to the effect that large shipments of clover are coming into the United States from Italy. This seed also is not adapted to Michigan conditions.

Michigan grown seed of Red, Alsike, or Mammoth clover is best for Michigan conditions. Seed of these varieties grown in other northern states or in Canada is also acceptable. The seeding recommended by the college crops department for a mixed hay is: four pounds of Red clover, two pounds of Alsike clover, and from two to four pounds of Timothy.

"Alsike, though selling at approximately the same price as Red, will go farther, owing to the smallness of the seed," declares Professor Cox. "Many who ordinarily plant eight or ten pounds of Red Clover to the acre may find it economical to use four pounds of Red and two of Alsike."

"In sections where Red clover does not catch well, due to lack of lime or other unfavorable conditions, a mixture of Red and Alsike will often give better stands than Red alone."

"Clover seed is scarce and high, and every effort must be made to increase the production in Michigan. Secretary A. M. Brown, of the agricultural college, himself a practical farmer, makes the suggestion that every farmer in the state buy at least enough clover seed to plant a field to furnish him with enough seed to plant his entire clover acreage the next year."

"In view of the great shortage, and the need for Michigan grown seed, we are urging that every effort be made to plant as large areas as possible of this important crop, and that farmers make it a point to harvest as much as much as possible for seed purpose."

**HIGH PRICES MAY CURTAIL ROAD WORK**

Lansing—Only one barrier stands in the way of a record breaking program of highway construction in Michigan this year. That is the inability of the state highway department to obtain reasonable estimates from contractors, State Highway Commissioner Rogers states.

Already contracts have been entered into for the construction of 367 miles of trunk line roads which will cost \$4,600,000. Bids will be obtained for 350 miles of hard surface highways either brick or concrete, 150 miles of Macadam road and 300 miles of gravel highway.

The department has contracted for the construction of 240 miles of federal aid highways which will cost \$3,470,000. Commissioner Rogers said that the state's share of the federal aid appropriation would be \$7,950,000. He explained that Michigan has finished 26 miles of federal aid roads. Ohio and Pennsylvania are the only other states to lead Michigan in the construction of federal aid projects, according to the state highway commissioner.

The adoption of the county road system in all but five counties of the state will be a great factor in improving highways, said Rogers.

**FARM WAGES HIGHEST IN HISTORY**

Washington—Farm wages were the highest in the history of the United States last year, the Department of Agriculture announces. For labor, hired by the month, with board, the average for the country as a whole was \$38.82, without board it was \$56.29. Harvest wages per day with board reached the top figure of \$4.48 in the north central states west of the Mississippi river. The lowest farm wages are in the South Atlantic States with the South Central States next lowest. Monthly wages with board were highest in the Western States, including the Mountain and Pacific States where the average was \$62.96 while without board it was \$87.12.

Farming operations of 1919 produced crops that had a value at the farm that was 11.8 per cent above 1918, and animal products 9.9 per cent above, but the gain in wages of farm labor was relatively greater. Wages

by the month with board increased 14 per cent, without board 15.3 per cent and day wages in harvest, 18.9 per cent.

"These figures indicate," says the Department of Agriculture, "that the farm laborer is still regaining the ground he lost, relatively, early in the rapid upward movement of prices of farm products after 1915. This wage recovery was evident in 1918 as well as in 1919, but full recovery has not yet been accomplished."

**FARMERS URGED TO ORDER REPAIRS EARLY**

A county agricultural agent hands out the following good advice to the farmers:

"Do it now! Look over your farm machines. Order your repairs now. The railways are slow on shipments and the manufacturers are low on stocks. A farmer has been classed as an eleventh hour man—never ordering until the very last minute. Maybe there were grounds for this statement in days gone by but let's be the exception this year. The heavy snows, bad roads and extreme cold has kept your implement man from calling on you and these factors are likewise keeping you from seeing him. Implement men are in the business to satisfy you and give you service. They will, too, if they can but they too are tied up by factors they cannot control. It is to your interests and to the convenience of your implement man that you look over your farm machinery and your stock needs now and make known your wants."

**TO A FIVE-DOLAR BILL.**

Crinkle, crinkle, little bill; Goodness gracious, you look ill! Are you losing all your power? You seem weaker hour by hour.

"Now that prices are so high, I'm so tired that I could die, I just circulate all day; No one dares put me away.

"When the evening board is set With the fruits of father's sweat, My small voice is hushed and still— I am in the butcher's till.

"And no matter where I go, People disregard me so; I don't seem to count for much. 'Mongst the profiteers and such."

Bill, take heart, your luck may change.

I'll admit the times are strange, Though you're weak, I love you still— Crinkle, crinkle, little bill.

—Chicago Tribune.

**BE SURE AND TELL THE TRUTH**

The list of income reporters published in the Monitor's last issue created a great deal of interest. Anybody who studied the list knew that a lot of names were not there, that should have been. Anybody who ought to report and doesn't is taking a big chance. Government agents are looking after delinquents everywhere and are turning in many thousands of dollars from people who had failed to come through. Substantial fines have accompanied payments in many cases. —Mt. Clemens Monitor.

**MANY DIPLOMAS LOST.**

The French High Commission presented on Washington's birthday a French Memorial Diploma to the nearest kin of all soldiers and sailors who died in action in the service of the United States during the World War. Many of these diplomas were lost in the mail, and it is the desire of the War Department that people who are entitled to these diplomas who did not receive them, get in touch with recruiting officers who will present a duplicate memorial diploma.

**AMERICAN LEGION MEMBERS ATTENTION**

Every member of the Adams-Seeger Post of Cass City and those eligible are requested to attend the regular meeting Monday night, March 8, at 7:30. Special business will be transacted in which you all should be interested.

EARL HELLER, P. C., M. B. AUTEN, Adj.

The editor of the Deckerville Recorder, Joseph Dawe, who went to Bay City recently with the expectation of having a surgeon explore his "inhards" and cut out any that were not properly functioning, has returned home properly fixed up. Instead of an operation for appendicitis he had two bad teeth and his tonsils removed, and now feels as good as new. This will be good news for Joe's many friends in the Thumb.

**120,000 STAND IN BREAD LINE**

More Than 1,000,000 Face Death Is Message Brought by Miss Dakesian.

Imagine a bread line of 120,000 famished people waiting for twenty-four hours a day for the dole of food that is the sole barrier between them and death from starvation. That is the situation in Alexandropol, a city in Russian Armenia, according to Miss Hermine Dakesian, a pretty Armenian girl, one of the survivors of four years

MISS HERMINE DAKESIAN.

of the horrors of Turkish massacres and deportations. Saved by an American woman, she has come to this country and entered Oberlin College.

With her came fourteen other Armenian girls in charge of Miss Adelaide S. Dwight, a Near East Relief worker, who has been instrumental in helping to save hundreds of thousands of their people from death by starvation. Miss Dwight, who is not given to exaggeration and has seen conditions at first hand, says more than a million people are facing death by starvation in Armenia and will perish unless America aids.

Herself an eyewitness to the slaughter of hundreds of helpless women and children by the Turks and a victim of the deportations, Miss Dakesian, an unusually pretty girl, says there is untold suffering in Armenia and Syria. She praises the efforts of the Near East Relief, formerly the American Committee for Armenian and Syrian Relief, to save as many of these people as possible. At Erivan, the capital of the Armenian republic, one hot meal is given out daily, and by this relief alone the city's death rate has been cut from a thousand daily to an average of twenty. At Alexandropol, where the refugees from Turkish Armenia were driven by thousands, the situation is appalling, Miss Dakesian says. It is to avert these wholesale deaths that Near East Relief is making a nation-wide appeal for funds.

**BOY SCOUTS IN YOUNG ARMENIA**

Strangest Troop of All in Constantinople Being Made Into Good Citizens.

American Boy Scout training is aiding prominently in the rehabilitation of hundreds of little Armenian boy refugees from the Turkish massacres, who have been organized into a scout troop in Constantinople as the solution of one of the most troublesome problems that confronted the Near East Relief workers in that city.

Hounded and driven for four years, having seen their parents and relatives slaughtered or worse by Turks and Kurds and themselves forced to beg, steal or do almost anything to eke out the barest existence, these boys had completely lost their moral sense when they finally found refuge in the Near East Relief orphanages.

The boys had been clad in rags for so long that they had forgotten how to take care of clothes. This was a tragedy when the Near East Relief had need of every pair of shoes and of every suit of clothes for new boys constantly coming in.

Then the boys were organized as Boy Scouts and given their uniforms. They began to be careful of their school clothes as well as of their uniforms.

They had been so often hungry they had come to steal without compunction. When they first entered the orphanages they continued to steal. One boy stole a purse from his American teacher. For two or three weeks after he became a Boy Scout he was obviously uneasy. One day he came to her with the purse in his hand.

"I don't want to give it back," he said reluctantly. "But I have to. I'm a Boy Scout now."

To form more scout troops to transform these little unfortunates into good citizens, is one of the reasons why the Near East Relief, 1 Madison Avenue, New York City, is making its appeal for funds.
